AUSTRALIA, NORTH—TORRES STRAIT, INNER ROUTE.

*Restoration of Beacons.*

THE Portmaster, Brisbane, has given notice (No. 13 of 1894) that all the beacons marking the Inner Route to Torres Strait have been restored, with the exception of the red beacon marking Chilcott Rocks, which, owing to the heavy weather experienced and depth of water on the reef, could not be re-erected. It will be restored on the first opportunity, notice of which will be given.

H. J. S. COTTON,  
*Chief Secy. to the Govt. of Bengal.*

**NOTIFICATION—No. 3831J.**

*The 3rd September 1894.*—The following rule, which has been prescribed by the Lieutenant-Governor under section 65 of Act VI (B.O.) of 1870, as amended by Acts I (B.O.) of 1871, 1886, and 1892, and which is to be inserted after rule IX of the revised rules for the guidance of panchayats, &c., published in Notification, dated the 12th April 1887, is published for general information:—

*Rule IXA.*—In all cases in which it has been found necessary to issue a distress warrant under section 45 of the Act twice within a period of 12 months, the Magistrate shall, on the second of these occasions, require the collecting or other member of the panchayat to attend personally, until further orders, the parade of chaukidars prescribed by Police Circular No. 5, dated the 14th September 1892, on such dates as may be appointed by the Magistrate, and at such parade to pay the chaukidars of his village their salaries in full for the previous quarter in the presence of the officer in charge of the police-station, or of such officer as the Magistrate may direct.

H. J. S. COTTON,  
*Chief Secretary to the Govt. of Bengal.*

**NOTIFICATION—No. 3832J.**

*The 3rd September 1894.*—The Lieutenant-Governor sanctions, with effect from the 1st October 1894, the transfer of the Singti Independent outpost, together with the villages comprised in its jurisdiction, from the jurisdiction of thana Khanakul, in the Jahanabad subdivision of the district of Hooghly, to that of thana Amta, in the Ulubaria subdivision of the district of Howrah.

The outpost is also transferred from the local jurisdiction of the Jahanabad Munsifi, in the district of Hooghly, to that of the Amta Munsifi, in the district of Howrah.

In consequence of the above transfer the following is declared to be at once the revised southern boundary of the district of Hooghly and the northern boundary of the district of Howrah, in modification of the boundary defined by the notification dated the 28th May 1880, published at page 439 of Part I of the *Calcutta Gazette*, dated the 2nd June 1880.

The revised boundaries of thana Khanakul, in Hooghly, and of thana Amta, in Howrah, are also described below:—

*Revised southern boundary of the district of Hooghly and the northern boundary of the district of Howrah.*

From the village of Marelpona (or Markhana) on the Rupnarain river on the west to that of Katanali on the east, the boundary remains the same as defined by the notification dated the 28th May 1880; thence the boundary runs northward along the boundaries of the following villages, viz., Katanali, Magri chak, Chingrah, Chubbisipur, Dharasimul, Bandhyepur, Garberia, Dasspur-manickpat, Balipur, Pantihar, Neutta, Shampur, Par Bhurseit and Kotalpur, to the Damodar river which it crosses, and then runs southward along that river to the village of Pospur. From this point eastward to the Hooghly river the boundary remains unaltered.

*Boundaries of thana Khanakul.*

*On the North.*—Thana Jahanabad.

*On the East, South and West.*—The boundary of the Hooghly district.

*Boundaries of thana Amta.*

*On the North and West.*—The boundary of the Howrah district.

*On the South and East.*—The boundary remains the same as previously defined.

*Note.*—In the above description the villages named are included within the boundary of the district of Hooghly to which reference is made.

H. J. S. COTTON,  
*Chief Secy. to the Govt. of Bengal.*

**PUBLIC WORKS DEPARTMENT,—BENGAL.**

**ESTABLISHMENT.**

*Calcutta, the 31st August 1894.*

*No. 277.—Notification.*—The Lieutenant-Governor is pleased to make the following promotion in the Engineer Establishment, with effect from the date specified:—

Name.	From	To	With effect from	Nature of promotion.
1	2	3	4	5
Mohendro Nath Dutt	Assistant Engineer, old 3rd grade.	Assistant Engineer, 3rd grade (new classification).	5th July 1894...	Permanent.

## LOCAL COMMUNICATIONS.

*The 3rd September 1894.*

*No. 278.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for construction of a fair-weather road from Culpi to Channel creek, through the villages of Culpi, Basudehpur, Srinagar, Ramkrishnapur, Singarhat, Rajarampur, Sukdehpur, chuk Dulatpur, Brindabanpur, Andinagar, Rangilabad, Arunberia, Rangafalla, Belpukuria, Samtala, lot No. 9, lot No. 5, Sitarampur, lot No. 7, and Sibkalinagar, pargana Hatiaghur, district of 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 259 bighas of standard measurement, is required within the aforesaid villages.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

## RAILWAY.

*The 4th September 1894.*

*No. 279.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for conservancy purposes at Saidpur on the northern section of the Eastern Bengal State Railway, in mauza Koya, pargana Kazirhat, zilla Rangpur, it is hereby declared that for the above purpose a plot of land measuring, more or less, 2 acres and 1 pole of the standard measurement, bounded on the north by land of Chand Mahamud Pramanik and Mashoor, west by land of Chand Mahamud Bahor and Awanulla Pramanik, south by land of Mahatap Chand Roy, Chand Mahamud, and Romejan Sircar, and east by land belonging to northern section of the Eastern Bengal State Railway, is required within the aforesaid mauza of Koya.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

F. J. JOHNSTONE,  
*Secretary to the Govt. of Bengal.*

## IRRIGATION DEPARTMENT,—BENGAL.

*The 4th September 1894.*

*No. 280.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for additional land for raising the 1st section of the Byturni right embankment, it is hereby declared that for the above purpose a piece of land 3 furlongs 361 feet long and averaging in width 10 feet, measuring 2 roods and 3½ poles, more or less, of standard measurement, commencing from mauza Ankula, pargana Jajpur, passing through mauza Routrapur and terminating at mauza Kotebasant, pargana Jajpur, in the district of Cuttack, is required within the aforesaid villages.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

*No. 281.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for additional land for raising the 2nd section of the Byturni right embankment, it is hereby declared that for the above purpose a piece of land 1 mile 5 furlongs 88 feet long and averaging in width 6 feet, measuring 1 acre and 1 rood, more or less, of standard measurement, commencing from mauza Siddeswar, pargana Jajpur, passing through mauzas Hirapur, Chandpur, Beepur, and terminating at mauza Katikata, pargana Jajpur, in the district of Cuttack, is required within the aforesaid villages.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. ODLING,  
*Secy. to the Govt. of Bengal.*

## GOVERNMENT OF BENGAL,—MARINE DEPARTMENT.

*The 30th August 1894.*

*No. 76 Marine.*—The following telegram, dated the 28th August 1894, from the Government of Bombay, is published for general information.

C. W. ODLING,  
*Secy. to the Govt. of Bengal.*

*Copy of a telegram, dated the 28th August 1894, from the Government of Bombay, to the Government of Bengal.*

RESIDENT, Aden, intimates that Egypt has imposed quarantine on arrivals from Arabian Red Sea Coast from Lith to Lohayya on account of plague.

*The 3rd September 1894.*

*No. 77 Marine.*—In supersession of rule 3 of the rules for regulating the grant of certificates of competency to second-class engine-drivers of inland steam-vessels, sanctioned under Notification No. 178 Marine, dated the 24th August 1891, which was published in Part I, page 806 of the *Calcutta Gazette* of the 26th idem, the Lieutenant-Governor proposes to issue the following revised rule. It will be taken into consideration on the expiry of a month from the date of its publication in the *Gazette*, and the Lieutenant-Governor will be glad to consider any objections or suggestions which may be made by any person concerning it within that period:—

“He must have served an apprenticeship of at least four years if in India, or three years in the United Kingdom, and have served for one year in the engine-room of a steamer. Or he must have served four years in the engine-room of a steamer at sea or on inland waters under a certificated engineer or first-class engine-driver, one year of which service must have been as principal serang, tindal or fireman, when one only is employed; or have been for two years in charge of the engine of a factory or mill under a European Manager or Engineer, as well as served one year in the engine-room of a steamer as principal serang or tindal or fireman, when one only is employed.”

*No. 78 Marine.*—Under the powers conferred upon him by section 21 of Act VI of 1884 (the Inland Steam-Vessels Act), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor has been pleased to sanction the following revised form for granting declarations of survey to inland steam-vessels, in supersession of the form sanctioned under Notification No. 90 Marine, dated the 25th April 1890, which was published at page 13 of the *Calcutta Gazette* of the 7th May following.

C. W. ODLING,  
*Secy. to the Govt. of Bengal.*

hereby declare as follows, viz.—

- (1) That on the            day of            189 , I inspected the machinery of the steam-vessel named in the space marked, column 1, in this form, and all the safety-valves and fire-hose on board the same.
- (2) That the machinery of the said steam-vessel is sufficient for the service intended and in good condition.
- (3) That the said machinery will, in my judgment, be sufficient until the            day of            189 .
- (4) That the safety-valves and fire-hose are such and in such condition as required by the rules under Act VI of 1884.
- (5) That the weight to be placed on the safety-valves in the said steam-vessel is not to exceed the “pressure per square inch in lbs.” stated in column 7 in this form, and that such weight has been placed on them accordingly.
- (6) That the said steam-vessel as regards her machinery is, in my judgment, fit to ply as an inland steam-vessel.

DATED AT            , } *Engineer-Surveyor to the Government of Bengal*  
 This    day of            189 . } *under Act VI of 1884.*

I hereby declare as follows, viz.—

- (1) That on the            day of            189 ; I inspected the hull of the said steam-vessel and the boats, life-buoys, lights, signals, and other equipments on board the same, and the certificate of the master.
- (2) That the hull of the said steam-vessel is sufficient for the service intended, and is in good condition.
- (3) That the boats, life-buoys, lights, and signals on board the said steam-vessel and the certificate of the master are such and in such condition as required by Act VI of 1884 and the rules in force on the subject.
- (4) That the hull of the said steam-vessel and the equipments beforenamed will, in my judgment, be sufficient until the            day of            next.
- (5) That the said steamer is, in my judgment, fit to ply as an inland steam-vessel with the number of passengers stated in the space marked, column 18, in this form when there is no incumbrance of the space measured for the passenger accommodation, but is not fit to ply with a greater number of passengers.
- (6) That the certificate of the Engine-driver or Engineer is such and in such condition as required by Act VI of 1884.

DATED AT            , } *Shipwright-Surveyor to the Government of Bengal*  
 This    day of            189 . } *under Act VI of 1894.*

*The 4th September 1894.*

ROBERT HARVEY, M.D., Surgeon-Col.,  
*Insp.-General of Civil Hospitals, Bengal.*

## HIGH COURT NOTICE.

### NOTIFICATION.

*The 30th August 1894.*

THE following rule having been framed by the High Court of Judicature at Fort William in Bengal under the powers vested in it by section 15 of the statute 24 and 25 Victoria, Chapter 104, and sanctioned by the Governor-General in Council, is published for general information.

By order of the High Court,

T. W. RICHARDSON,  
*Offg. Registrar.*

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT  
WILLIAM IN BENGAL.

### CRIMINAL.

*Rule No.* , *dated* , 1894.

THE following amendments should be made in Chapter III of the Court's General Rules and Circular Orders (Criminal), viz.—

At page 68, in Rule 5, Clause (a), after the words "rent deposits," *insert*—and compensation fines (including costs in criminal cases) not paid on the spot in open Court.

At page 71, after Clause (b) of Rule 9, *insert*—

(bb) when the complainant or informant is ordered by the Court to pay compensation to the accused at the time of his acquittal (section 560, Criminal Procedure Code);

(bbb) when by order of the Court compensation is paid to the complainant out of the fine imposed on the accused (section 545 *ibid.*);

(bbbb) when the costs of processes, etc., in non-cognizable cases are recovered from the accused in addition to any fine that may have been imposed on him and are paid to the complainant (section 31 of the Court-fees Act);

At page 87, add as a foot-note to the words "a fine" in the second line of Rule 47, the following:—

*N.B.*—Compensation fines are repaid under the procedure laid down in Rule 37, page 80 *supra*.

At page 90, *insert* the following as a note to Rule 52:—

*Note.*—Compensation fines (including costs in criminal cases) when not paid on the spot in open Court are dealt with as deposits [*vide* Rules 5 (a) and 47, pages 68 and 87 *supra*].

### Existing Rules and Forms.

- (e) Miscellaneous receipts (not deposits), i.e., forfeitures, forfeiture of earnest-money by defaulting bidders, sale-proceeds of old furniture, stores, &c., &c.
- (f) Petty receipts to be credited at once to Government, i.e., searching fees, copying fees, comparing fees, sale-proceeds of forms and of service-books.

When receipts under this head are realized in stamps, it is not necessary to enter them in the accounts as cash receipts.

All receipts and payments under heads (a) to (c) above must appear in the Court's accounts and in the Treasury accounts in detail. An account in detail of all receipts under head (f) must be kept in the Court, but only the daily totals of each kind of receipts will appear in the Treasury books. All receipts and payments under head (g) will be made on the responsibility of the cashier, whose security must be sufficient to cover any amount in his hands. They will not appear at all in the Treasury accounts, but the balance in the hands of the cashier must be noted daily in the cash-book as well as the balances of any other moneys which he may be entrusted with—(c.g.) permanent advance, pay of establishments, &c.

# TREASURY NOTICES.

BABU BISVESVAR BHATTACHARJEA, Deputy Collector, has been placed in charge of the Tippera Treasury, and authorized to draw bills on other treasuries.

R. M. WALLER, *Offg. Commr.*

COMM'R.'s OFFICE, CHITTAGONG, the 23rd August 1894.

## NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1631B.

NOTICE is hereby given that the Tenth Sale of Opium, the Provision of 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd October 1894, at 11 A.M., and will comprise 3,105 chests, viz.—

			Chests.
Opium manufactured at the Patna Factory	...	...	1,510
Ditto ditto at the Ghazipur Factory	...	...	1,595
Total	...	...	3,105

2nd.—The general conditions of the sale now advertized will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893 and published in the *Government and Exchange Gazette*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 11th and 18th October 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Thursday, the 11th October 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th October 1894.

4th.—In addition to the quantity above advertized for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

## Orders and Notifications by the Government of India, &c.

[Reprinted from the "Gazette of India."]

THE following order, issued by the Government of India, in the Finance and Commerce Department, is republished for general information.

H. J. S. COTTON,  
Chief Secy. to the Govt. of Bengal.

### NOTIFICATION.

ACCOUNTS AND FINANCE.  
PUBLIC DEBT.

No. 4426.

Simla, the 1st September 1894.

[In the following Notification "Notes" means "Promissory Notes of the Government of India," and includes "Stock Certificates" issued in lieu thereof and Loan Certificates with coupons attached:]

1. Notice is hereby given that all the Notes of the Four per cent. Loan of 1854-55 will be discharged at the General Treasury of Fort William (Public Debt Office, Bank of Bengal, Calcutta) on December 31st, 1894, on which date the interest on such Notes will cease.

2. Proprietors of Notes hereby advertised for discharge have the option, which must be exercised before noon of Wednesday, October 3rd, 1894, of tendering their Notes for reduction of interest from four per cent. to  $3\frac{1}{2}$  per cent., such reduction to have effect from December 31st 1894, in the case of Notes tendered before noon of Monday, September 17th, and from June 30th, 1894, in the case of Notes tendered thereafter.

3. The reduced loan thus constituted will be known as the  $3\frac{1}{2}$  per cent. Loan of 1854-55, and no part of it will be paid off or discharged before August 1st, 1904, nor until the expiration of three months after notice of payment to be given by the Governor-General of India in Council in the *Government Gazette*.

4. Notes may be tendered for reduction of interest at the Public Debt Office, Bank of Bengal, Calcutta, or at any other Bank (including the Bank of England) or Treasury to which they are for the time being enfaced for payment of interest. Notes so tendered must bear the following endorsement duly signed:

"This Note (or Stock Certificate) is tendered for reduction of interest in terms of Notification of September 1st, 1894."

5. On Notes so tendered before noon of Monday, September 17th (in addition to any interest already due and payable on them), four annas per Rs. 100 will be paid on account of difference of interest from June 30th, 1894, till December 29th, 1894. On Notes tendered thereafter no payment on account of the difference of interest will be made.

6. Every Note so tendered will be enfaced in the following terms before it is returned to the proprietor:

"The interest payable on this Note is reduced to  $3\frac{1}{2}$  per cent., and the principal amount will not be discharged before August 1st, 1904."

In the case of Loan Certificates with coupons attached each outstanding coupon will be stamped "Interest reduced to  $3\frac{1}{2}$  per cent." before the certificate is returned to the proprietor.

7. All future payments of interest on any Note so enfaced will be made on the usual half-yearly dates as if the Note bore interest at  $3\frac{1}{2}$  per cent. instead of 4 per cent.

8. When a Note so enfaced comes in ordinary course under renewal, it will be renewed in its original form, save that—

(1) For "four per cent." will be substituted "three-and-a-half per cent."

(2) A clause will be added at the end—"The Governor-General in Council hereby engages that this Note shall not be discharged before August 1st, 1904."

9. If by reason of the duly certified absence from India of the proprietor or of one of the proprietors of a Note included in the terms of this notification, a legal signature to the endorsement mentioned in clause 4 cannot be given by noon of Monday, September 17th, or Wednesday, October 3rd, 1894, as the case may be, then in such case the tender will be accepted if the Note be left before such time in the custody of the Public Debt Office, Bank, or Treasury (as the case may be), and the tender be legally signed within twenty-one days thereafter. This clause does not apply if the proprietor has an Attorney in India empowered to sell.

10. In addition to the above payment of interest, a further payment of two annas per Rs. 100 will be made as brokerage or commission to the receipt of the person, whether proprietor or agent, who tenders the Note for reduction of interest.

11. The Secretary of State will issue a notification in London stating the terms on which Notes hereby advertised for discharge will be received for reduction of interest by the Bank of England.

No. 4460.

*Simla, the 3rd September 1894.*

[In the following Notification "Notes" means "Promissory Notes of the Government of India" and includes "Stock Certificates issued in lieu thereof":]

Notice is hereby given that proprietors of Notes of any of the following four per cent. Loans, namely:

Four per cent. Loan of 1st May 1865, as far as not notified for discharge in Notification No. 4092, dated 13th August,

Reduced Four per cent. Loan of 1879,

may tender their Notes before noon of Monday, September 17th, 1894, for reduction of interest from 4 to  $3\frac{1}{2}$  per cent., such reduction to have effect from January 1st, 1895, on the same terms as are notified with respect to the Four per cent. Loan of 1854-55 in Notification No. 4426 of 1st September 1894.

2. Clauses 3 (except for the substitution of the proper year or date for "1854-55"), 4, 6, 7, 8, and 10 of the said notification apply to tenders made under this notification.

3. On Notes tendered under this notification the following differences of interest will, as soon as possible after the Notes are tendered, be paid in anticipation:—

(a) On Notes of the Four per cent. Loan of 1st May 1865, on account of difference of interest from May 1st, 1894, to December 31st, 1894, five annas and four pie per Rs. 100;

(b) On Notes of the reduced Four per cent. Loan of 1879 on account of difference of interest from July 16th, 1894, to December 31st, 1894, three annas and eight pie per Rs. 100.

4. All future payments of interest will be made on the usual half-yearly dates as if the Note bore interest at  $3\frac{1}{2}$  per cent. instead of 4 per cent.

5. The Secretary of State will issue a corresponding notification in London, stating the terms on which Notes of the two loans above mentioned will be received for reduction of interest by the Bank of England.

No. 4461.

*Simla, the 3rd September 1894.*

It is hereby notified that—

(1) Notes of the 4 per cent. Sicca Rupee Loan of 1832-33 will be received up to noon of Monday, September, 17th, 1894, for transfer to the  $3\frac{1}{2}$  per cent. Loan of 1st May, 1865. Upon such Notes the excess over an even hundred of rupees will be paid in cash, and the new Note will be issued for the balance only. The payment in adjustment of interest will be made as provided in clause 3 (a) of Notification No. 4460 of this date.

- (2) Notes of the Four per cent. Loan of 1835-36 will be received up to noon of Monday, September 17th, 1894, for transfer to the 3½ per cent. Loan of 1st May 1865. The adjustment payment in this case will be ten annas and ten pie per Rs. 100, being as nearly as possible the excess of four per cent. interest from March 31st, 1894, to December 31st, 1894, payable on the old Note over 3½ per cent. interest from May 1st, 1894, to December 31st, 1894, payable on the new Note.

By order of the Governor-General in Council,

STEPHEN JACOB,  
*Offg. Secy. to the Govt. of India.*

The following orders, issued by the Government of India in the Legislative Department, are republished for general information.

H. J. S. COTTON,  
*Chief Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

*Simla, the 31st August 1894.*

No. 19.—In supersession of that portion of the notification in this Department No. 14, dated the 7th August 1885, which relates to the Calcutta Series of the Indian Law Reports, the Governor-General in Council has been pleased to make the following rules in regard to the publication of the said series:—

1. The reports will be published under the supervision of a Council to be constituted as follows:—

Two Judges of the High Court, Calcutta, nominated by the Court.

A Barrister nominated by the Advocates of the said High Court.

A Vakil nominated by the Vakils practising in the said High Court.

An Attorney nominated by the Attorneys duly authorized to practise in the said High Court.

2. Each member of the Council shall continue in office for one year from the date of his nomination and no longer, but any retiring member may be re-nominated for a further term of one year, and so on, as often as the nominating body shall please.

3. The Hon'ble the Chief Justice on behalf of the Court, the Hon'ble the Advocate-General on behalf of the Bar, the Senior Government Pleader on behalf of the Vakils, and the President of the Attorneys' Association on behalf of the Attorneys, are hereby respectively authorised to take such steps as may be necessary for giving effect to the foregoing regulations.

4. The Council shall have the sole power of fixing the number of Reporters and the amount of their remuneration, and of appointing, suspending and dismissing them; and it shall have authority to frame such rules as it may deem fit for the guidance of the Reporters in the preparation and publication of the Reports and generally in the discharge of their duties.

5. The Governor-General in Council will place at the disposal of the Council the sum of Rs. 1,862 per mensem, or such other sum as may from time to time be sanctioned for the purpose for or towards the remuneration of the Reporters and the defraying of the cost of their office establishment and stationery.

6. The Local Government will be responsible for all arrangements connected with printing, publication and distribution of the Reports.

7. The Reports shall be published under the authority of the Governor-General in Council, and the Council constituted under these rules is hereby empowered to publish them under such authority.

J. M. MACPHERSON,  
*Offg. Secy. to the Govt. of India.*

#### NOTIFICATION.

PUBLIC.

*Simla, the 28th August 1894.*

No. 1427.—In exercise of the powers conferred by section 17 of the Indian Arms Act, 1878, the Governor-General in Council is pleased to direct—

- (1) that the following sentence shall be substituted for the last sentence of rule 6 of the rules published under paragraph VI of the Notification of the Government of India in the Home Department, No. 518, dated the 6th March 1879:—  
“It shall be a condition of such licenses that the arms, ammunition, or military stores imported shall either be deposited in a warehouse appointed under section 15 of the Sea Customs Act, 1878, or in a warehouse licensed under

section 16 of the same Act, and sanctioned in this regard under section 7 of the Indian Arms Act, 1878, or that they shall be at once despatched to their destination under a separate license to transport."

- (2) that the following clause shall be added to the conditions printed on the back of Form III of the forms of license prescribed by Home Department Notification No. 518, dated the 6th March 1879:—

"The arms, ammunition, or military stores covered by this license shall either be deposited in a warehouse appointed under section 15 of the Sea Customs Act, 1878, or in a warehouse licensed under section 16 of the same Act, and sanctioned in this regard under section 7 of the Indian Arms Act, 1878, or shall be at once despatched to their destination under a separate license to transport."

### CANTONMENTS.

#### TAXATION.

No. 827.—In exercise of the powers conferred by section 20 of the Cantonments Act (XIII of 1889), the Governor-General in Council is pleased to declare that in every cantonment in British India in which a tax on buildings, which is payable by the year or by instalments, is for the time being imposed under section 17, sub-section (1), clause (a), of that Act,

all buildings which have not been occupied or productive of rent shall be exempt from payment of the said tax in the cases and to the extent hereinafter stated, namely—

- (a) When any such building as aforesaid has remained unoccupied and unproductive of rent throughout the year, or the period in respect of which any instalment is payable, such building shall be exempt from payment of the said tax or instalment for the said year or period, as the case may be.
- (b) When any such building as aforesaid has not been occupied or productive of rent for any period of not less than thirty consecutive days, such building shall be exempt from payment of so much of the said tax or instalment as is proportionate to the number of days during which such building has not been occupied or productive of rent:

Provided that no such exemption shall be made unless notice in writing of the circumstances under which it is claimed has been given to the cantonment authority within the first fourteen days of the period in respect of which it is so claimed.

2. The burden of proving the facts entitling any person to claim relief under this notification shall lie upon him.

3. For the purposes of this notification,—

- (a) the phrase “tax on buildings” shall be deemed to include (1) every tax imposed on a building, whether jointly with any land or as forming part of a holding or otherwise, and (2) every tax imposed on the rental of any building or holding within a cantonment, and shall include the whole of every consolidated tax for general or mixed purposes, but shall not include any tax separately imposed on a building for water-supply, lighting, scavenging or any other specific purposes;
- (b) neither the presence of a care-taker nor the mere retention in an otherwise unoccupied dwelling-house of the furniture habitually used in it shall constitute occupation of the house;
- (c) a building shall be deemed to be productive of rent if let to a tenant who has a continuing right of occupation thereof, whether it is actually occupied by such tenant or not.

4. The Resolution of the Government of India in the Military Department, No. 105C., dated 30th January 1884, is hereby cancelled.

No. 828.—In exercise of the powers conferred by section 20 of the Cantonments Act (XII of 1889), the Governor-General in Council is pleased to declare that in every cantonment in British India in which any tax upon persons owning or occupying buildings, holdings, or lands within a cantonment, according to their circumstances and property, which is payable by the year or by instalments, is for the time being imposed under section 17, sub-section (1), clause (a), of that Act, the value of any building, holding, or land which would under the Military Department Notification No. 827 “*Cantonments—Taxation*,” dated the 31st August 1894, by reason of such building, holding or land being unoccupied or unproductive of rent be wholly exempt from a tax on buildings, shall be wholly disregarded; and in the case of buildings, holdings, or lands which would be partially exempted from such tax on buildings as aforesaid, a proportional part only of such value shall be taken into account.

## ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

### MUNICIPAL AND LOCAL.

#### NOTIFICATION.

*No. 3608M.—The 4th September 1894.*—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, under clause 4, section 3 of Act XX of 1887, the following rules framed by the Commissioners of the Siwan Municipality, in the district of Saran, under section 3 of the Act for the protection of wild birds and game within the limits of the Siwan Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality.

#### *Rules.*

1. "Wild birds" for the purposes of the rules shall include jungle-fowl, pheasants partridges, plover, jays, doves, egrets, golden oriel and green fly-catchers.
2. Hare also shall be included under the provisions of section 3, Act XX of 1887, and the following rules will apply to that animal as well as wild birds.
3. The "breeding season" for the purposes of these rules shall extend from 15th March to 1st October.
4. Whoever during the breeding season has in his possession within the limits of the Municipality of Siwan, any wild bird or hare recently killed or taken, or exposes for sale, any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.
5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare. In the case of a second conviction the fine may extend to Rs. 10 for each such bird or animal.
6. A reward not exceeding half the fine imposed and realised under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to conviction for a breach of any of the above rules.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

*No. 3609M.—The 4th September 1894.*—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, under clause 4, section 3 of Act XX of 1887, the following rules framed by the Commissioners of the Revilganj Municipality, in the district of Saran, under section 3 of the Act for the protection of wild birds and game within the limits of the Revilganj Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality.

### *Rules.*

1. "Wild birds" for the purposes of the rules shall include jungle-fowl, pheasants, partridges, plover, jays, doves, egrets, golden oriel and green fly-catchers, and non-domesticated pea-fowl.

2. Hare also shall be included under the provisions of section 3 of Act XX of 1887, and the following rules will apply to that animal as well as wild birds.

3. The "breeding season" for the purposes of these rules shall extend from 15th March to the 1st of October.

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Revilganj any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare. In the case of a second conviction, the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realized under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to conviction for a breach of any of the above rules.

*Offg. Secy. to the Govt. of Bengal.*

### NOTIFICATION.

No. 3633M.—*The 4th September 1894.*—It is hereby notified for general information that, on the application of the Commissioners of the Gaya Municipality, the Lieutenant-Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed by the Municipal Commissioners of Gaya, to hares.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

### NOTIFICATION.

No. 3634M.—*The 4th September 1894.*—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, under clause 4, section 3 of Act XX of 1887, the following rules framed by the Commissioners of the Gaya Municipality, under section 3 of the Act, for the protection of wild birds and game within the limits of the Gaya Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said municipality:—

### *Rules.*

1. Wild birds for the purposes of the rules shall include jungle fowl, pea-fowl, pheasants, partridges, plover, jays, doves, egrets, golden oriel and green-fly catchers.

2. The Local Government having by notification No. 3634, dated the 4th September 1894, declared that the provisions of section 3, Act XX of 1887 shall apply to hares, the following rules will apply to that animal also as well as to wild birds.

3. The breeding season for the purposes of these rules shall extend from 15th March to the 1st of October.

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Gaya any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare. In case of a second conviction the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realized under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to conviction for a breach of any of the above rules.

7. Domesticated pea-fowl are exempt from the operation of the above rules.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

No. 3635M.—*The 4th September 1894.*—It is hereby notified for general information that, on the application of the Commissioners of the Tikari Municipality in the district of Gaya, the Lieutenant-Governor has been pleased to declare that the provisions of section 3, Act XX of 1887, with respect to wild birds, shall apply, so far as regards the rules framed, by the Municipal Commissioners of Tikari, to hares.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

No. 3636M.—*The 4th September 1894.*—It is hereby notified for general information that the Lieutenant-Governor intends to confirm, under clause 4, section 3 of Act XX of 1887, the following rules framed by the Commissioners of the Tikari Municipality in the district of Gaya, under section 3 of the Act, for the protection of wild birds and game within the limits of the Tikari Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality:—

##### *Rules.*

1. "Wild birds" for the purposes of these rules shall include jungle-fowl, pea-fowl (excepting domesticated pea-fowl), pheasants, partridges, plover, jays, doves, egrets, golden oriel and green fly-catchers.

2. The Local Government having by Notification, No. 3636M., dated the 4th September 1894, declared that the provisions of section 3, Act XX of 1887, shall apply to hares, the following rules will apply to that animal as well as to wild birds.

3. The breeding season for the purposes of these rules shall extend from 15th March to the 1st of October.

4. Whoever during the breeding season has in his possession within the limits of the Municipality of Tikari any wild bird or hare recently killed or taken, or exposes for sale any such bird or animal, living or dead, shall be liable to a fine not exceeding Rs. 5 for each such bird or animal.

5. Whoever during the breeding season imports into the town the plumage of any kind of wild birds recently killed or taken, or the fur or skin of any hare recently killed or taken, shall be liable to a fine not exceeding Rs. 5 for the plumage of every such bird or the fur or skin of every such hare. In the case of a second conviction the fine may extend to Rs. 10 for each such bird or animal.

6. A reward not exceeding half the fine imposed and realized under rules 4 and 5 may be granted by the adjudicating Magistrate to any person who has afforded information leading to conviction for a breach of any of the above rules.

## DECLARATION.

*No. 3643M.—The 4th September 1894.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Sirajganj Municipality for a public purpose, viz., for a municipal market in the village of Gayla, pargana Barabaju, zilla Pabna, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigha 4 cottahs and 8 chitaks of standard measurement, is required. The land is bounded on the North by the river Dhanbandhi and Kunja Lal Biswas's land; on the South by the Kalibari; on the East by Gopal Chandra Ghose's land; and on the West by the river Dhanbandhi.

The plan and specification of the land are filed in the office of the Municipal Commissioners for public inspection.

This declaration is made, under the provisions of section 6, Act I of 1894, to all whom it may concern.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*No. 3628M.—The 4th September 1894.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz.:—

For the purpose of a sluice to a drain in Chawlputty Road, which communicates with Tolly's Nullah, it is hereby declared that for the above purpose pieces of land Nos. 9 and 13, Kattuakhotee Road, and 14, 15, 13, Muddun Pal' Lane, in Calcutta, Dohi Panchannogram, district 24-Parganas, measuring, more or less, 10 cottahs and 7 chitaks only, are required.

The boundaries of the lands are as follows:—

*Portion marked A on plan.*—On the North a public drain and Kattuakhotee Road, and portion of premises Nos. 13 and 14, Muddun Pal's Lane; on the South a public drain; on the East portion of premises No. 9, Kattuakhotee Road, and Nos. 13 and 14, Muddun Pal's Lane; and on the West a public drain.

*Portion marked B on plan.*—On the North premises No. 12, Kattuakhotee Road, and public drain; on the South by Tolly's Nullah; on the East public drain; and on the West premises No. 12, Kattuakhotee Road and bank of Tolly's Nullah.

*Portion marked C on plan.*—On the North and West a public drain; on the South portion of premises Nos. 15 and 15-1, Muddun Pal's Lane; and on the East Chawlputty Road.

Plans and specifications of the lands are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION—No. 4805R.P.

The 8th August 1894.

JUGGOBANDHU KHAN, Deputy Collector in charge, for Collector.

**NOTICE** is hereby given that the undermentioned plot of land no longer required by Government, situated along the Rupsagar embankment in the district of Shahabad, will be put up to sale at 11 o'clock on the 18th September 1894, corresponding with the 3rd Kuar of 1302 Faeli at Shahabad Collectorate:—

1st.—The purchaser will have no power to make any excavation on the land nearer than fifteen feet from the embankment, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of the original sale.

4th.—The plot of land will be sold revenue free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales:—

Consecutive lot number.	Name of district.	Pargana and	Number of miles on which land is situate.	Situated on which side of the embankment.	Approximate area of lot in bighas in area.	Land excluded from sale from each lot.	Commencement and termination of lot.	Boundary of lot.

## Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned revenue-free property situated in the district of Puri, pargana Kotdes, mauza Pratapsanun, will be put up to sale at the Puri Collectorate on the 2nd October 1894, corresponding with 18th Asin 1802, Tuesday.

The purchasers will be subject to the following conditions of sale:—

## Conditions of sale.

- 1st.—The property to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this property will be considered as the proprietor of the property, and the entire proprietary right of Government in such property will be transferred to him.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the property to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number in statement of Government estate.	Number on the district register B of revenue-free properties.	Name of property and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.
1	2	3	4	5	6
	32145 General.	Ratnakar Khand in mauza Pratapsanun, pargana Kotdes, district Puri.	18 poles	.....	Declared an escheat under orders of Government No. 1408L.R., dated 14th March 1894, the proprietor, Anand Chandra Das having died intestate. The property forms a part (viz., 2gds. 13b.) of the entire property, 12g. 5b. 5g. 1k., entered in the name of Maguni Das in register B.

PURI, the 21st June 1894.

M. M. BOR, Deputy Collector in charge.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Muzaffarpur will be put up for sale at the Collector's Office of that district on 19th September 1894, at 1 P.M., for arrears of revenue and other demands, which, by law, are realisable as arrears of land revenue:—

Pabna Collectorate, the 16th August 1894.

H. E. RANSOM, Offg. Collector.

#### Notice under Rule 19, Part I, Section II.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Prasanna Kumar Sircar, and will be sold at 12 o'clock noon on Thursday, the 22nd November 1894 (the 7th Aughran 1301 B.S.), at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

#### Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 26 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

#### Schedule.

Number of lot.	District, subdivision, thana.	Area.	Boundaries.
1	2	3	4
Lot No. 103, 2nd portion.	24-Parganas, Basirhat, Hoesinabad.	Bighas, 5,403	North.—By the Patghara and Hotalmukhi khals, corresponding with the south boundary of the first portion. East.—By the Kaliakati and Kartikakbali khals, corresponding with the west boundary of the third portion. South.—By the Ghumti khal. West.—By the Ghumti khal. All the above boundaries are as shown in Mr. Sundarbans Commissioner Ross' map of season 1893-94.

POORNO CHANDRA CHATTERJEE, Deputy Collector in charge,  
Sundarbans Commissioner's Office.

Sundarbans Commissioner's Office, Alipur, the 14th August 1894.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Rajshahi will be put up for sale at the Office of the Collector of that district on the 26th September 1894, corresponding to 11th Assin 1301 B.S., at Rampur Boalia, for arrears of revenue and other demands which by law are realizable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share, and that the other share or shares in the estate are excluded from the sale:—

1	2	3	4	5	6	7	8	9

Saran Collectorate, the 21st August 1894.

F. A. SLACK, Collector.

NOTICE is hereby given, under section 6, Act XI of, 1859, that the undermentioned estates in the district of Shahabad will be put up to public and unreserved sale at the Collector's Office of that district on the 26th day of September 1894 at 12 A.M., for the arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 7th day of June 1891.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are exempted from the sale:—

## Notice under Rule 19, Part I, Section II.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Bhaba Tarini Dasi, and will be sold at 12 o'clock noon on Monday, the 3rd December 1894, (the 18th Aughran 1301 B.S.), at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 5 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

*Schedule.*

Number of lot.	District, subdivision, thana.	Area	Boundaries.

## Destroyed.

THE Government Promissory Note No. 321444 of the 4 per cent. of 1865, for Rs. 5,000, originally standing in the name of Taramonee Debi, she dying Ashutosh Banerjee, Mohendro Nath Banerjee, Sushil Chandra Banerjee and Promotho Nath Banerjee were made lawful executors of the said sum, by whom it was never endorsed to any other person. Payment of the above Note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application has been made for the issue of duplicates in favour of the proprietor.

ASHUTOSH BANERJEE,

No. 11, Gopal Chandra Banerjee's Street,  
Bhowanipur, Calcutta.  
(489-3)

## Notice to Creditors.

IN pursuance of section 42, Act XXVIII of 1860, notice is hereby given that all persons having claims against the estate of Mathew John Ogle, late of Bangalore, in the Presidency of Madras, a Superintendent in the Survey Department of the Government of India, who died on the 4th day of April 1892, should send in their claims to the undersigned on or before the 31st day of October next, after which date no claims will be admitted, and the assets of the estate will be distributed.

A. LUCAS,  
Administrator to the estate and effects  
of the abovenamed deceased.

Calcutta, the 17th August 1894. (614-1)

## Wanted.

A Head Clerk and Sarishtadar for the Saran Magistracy on Rs. 120 rising to Rs. 200 by biennial increments, from the 1st of January 1895, when the post will fall vacant owing to the retirement of the present incumbent. None need apply who has not had a thorough experience of the work. A knowledge of Hindi indispensable. Applicants to submit their applications to the undersigned on or before the 30th of September next.

F. A. STACK, Magistrate of Saran.  
Chapra, the 15th August 1894.

## Notice.

WANTED for settlement of the Sahabganj town in Rajmahal sub-division of the district of Sonthal Pargannas an Inspector on Rs. 30 a month and nine Amins on Rs. 20 each a month for four months. Only such candidates as have experience in settlement work and can work with the plane-table need apply to the undersigned on or before the 20th September 1894.

ALAN MCGAVIN, Sub-divisional Officer.  
Rajmahal, the 7th August 1894.

**Wanted**

**A** qualified Engineer to act for the District Engineer of the Cuttack District Board, who is going on furlough for 12 months.

The officiating man will get Rs. 250 pay and the allowances of an Assistant Engineer.

The permanent incumbent gets Rs. 150 a month from the estates under the Court of Wards; it is very likely the acting officer will get that work also.

Applications must reach this office before the 10th of September.

M. S. DASS, Vice-Chairman.

Cuttack District, Board's Office, the 8th August 1894.  
(444—4)

**Wanted**

**A** Nazir for the Darbhanga Collectorate. Salary Rs. 50 rising to Rs. 70 by a biennial increment of Rs. 2. Preference will be given to persons having experience of the work of a Collector, and possessing a good knowledge of English, Kaithi and accounts. The selected candidate will be required to deposit Rs. 2,000 a security in cash or Government Promissory Notes. Applications should reach the undersigned on or before 15th September 1894.

H. C. STREETFELD, Offg. Collector of Darbhanga.  
Darbhanga Collectorate, the 1st September 1894.

**Notice.**

**W**ANTED by the District Board of Mymensingha Sub-Inspector of Schools on a salary of Rs. 50 a month with the usual travelling allowance. Candidates must be qualified under the rules published under Bengal Government notification No. 486T.G., of the 2nd September 1893. Preference will be given to a Muhammadan candidate possessing the necessary qualifications. Applications with copies of testimonials will be received by the undersigned up to the 20th September 1894.

A. FARLE, Chairman, District Board, Mymensingh.  
The 27th August 1894. (627—3)

**W**ANTED immediately an Accountant and Head Clerk for the Public Works Department of the Cooch Bihar State on a salary of Rs. 80 per mensem. None need apply who has no experience in the works of an Executive Engineer's office. The selected candidate is to be considered on probation for six months.

KEDAR NATH MAZUMDAR, Supdt. of Works,  
Public Works Dept., Cooch Bihar State.

The 1st September 1894. (541—2)

**Notice.**

**A** PPLICATIONS are invited for the post of Treasurer for Gaya Collectorate, on a salary of Rs. 100 per month, likely to fall vacant by the resignation of the present incumbent, who will, however, be allowed to continue on his furnishing a fresh security. English-knowing candidates who are able to furnish security for Rs. 20,000 in cash, promissory notes, or Savings Bank deposit need only apply with copies of testimonials. Applications will be received up to 3rd September 1894, and the selected candidate will be required to join at once.

RAM ANUGRAH NARAYAN SINGH, Deputy  
Collector in charge, for Collector.

**Lost.**

**T**HE Government Promissory Note No. 298802 of the 4 per cent. loan of 1st May 1865 for Rs. 500, originally standing in the name of Debendro Nath Dutt, and last endorsed to Taruck Nath Dutt, the proprietor, by whom it was never endorsed to any one. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the accrued interest and for the issue of duplicate in favour of the proprietor after two years from the date of the last advertisement.

TARUCK NATH DUTT, 268, Bow Bazar Street,  
(832—8) Calcutta.

**Oudh Forest Department.****BAHRAMGHAT DEPOT.**

ON THE OUDH AND ROHILKHAND RAILWAY.

**F**ROM this date the prices of sal beams and scantlings supplied from this depot will be as follows:—

**BEAMS**—21 feet length, at Rs. 2-10 per cubic foot.

22	"	"	2-12	"
23	"	"	2-14	"
24	"	"	3	"

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

**SCANTLINGS**—From 12 to 20 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7	"	2-4	"
Under 7 feet	"	"	"

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

*Second and Third Class Timber* will be sold and price fixed by agreement.

*Auction Sales* will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,  
Barhamghat Division.

Barhamghat, the 1st April 1886.

**Pure Sulphate of Quinine.**

MANUFACTURED AT THE BENGAL GOVERNMENT  
CINCHONA PLANTATION.

THE price of this quinine is as follows:—

1 pound tin	Rs. 16. or, post free, Rs. 16-12.
½ "	" " " 8, " " " 8-8.
¼ "	" " " 4, " " " 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

**Cinchona Febrifuge.**

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs. 2, *ans.* 8; per eight-ounce tin, Rs. 5; per pound tin, Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, *for Cash only* at the undernoted rates—per four-ounce tin, Rs. 3; per eight-ounce tin, Rs. 6; per pound tin, Rs. 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 oz. tin, eight annas per 8oz. tin, and twelve annas per pound tin, in addition to the foregoing rates.

YNANENDRANATH BOSE intends to be enrolled as a Vakeel of the High Court.

(542—4)

HARA DHAN NAG, M.A., B.L., intends to be enrolled as a Vakeel of the High Court, Calcutta.

(544—4)

**Tukvar Company, "Limited."**

**N**OTICE is hereby given that the Ordinary General Meeting of Shareholders of the above Company will be held at the Registered Office, No. 4, Mangoe Lane, Calcutta, on Thursday, the 13th September 1894, at 10-15 A.M., for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June 1894, declaring an ad-interim dividend, and transacting such other business as may be brought before the meeting.

The transfer books of the Company are closed from 31st August to 30th instant inclusive.

By order of the Board,

WILLIAMSON, MAGOR & Co., Secretaries.  
Calcutta, the 1st September 1894. (540—2)

### In the Court of the District Judge of 24-Parganas.

EXECUTION CASE No. 36 OF 1894.

Dwarika Nath Mitter, decree-holder, *versus* William D'Santos, judgment-debtor.

**NOTICE** is hereby given that the properties mentioned in the schedule below will be sold by public auction on the 10th September 1894 within the precincts of this Court. The value of the whole of the properties is said to be Rs. 90,000 (rupees ninety-thousand only).

#### *Schedule of properties.*

The right, title and interest of the judgment-debtor in a leasehold property consisting of about 2 bighas of land in dihi Punchannagram, No. 38, Baliaghata Road, paying an annual rent of Rs. 125 to the Collector of the 24-Parganas, together with a two-storied building said to extend over the whole of the said two bighas of land and two mills, together with the machinery and other materials attached thereto. The judgment-debtor holds a lease of the above property for 30 years, of which a period of two years has expired.

D. CAMERON, District Judge.  
(538—1)

### Notification.

**TO** be peremptorily sold pursuant to a decree and an order of the High Court, made in suit No. 585 of 1892 (Tariney Churn Dutt *versus* Kalla Chund Pyne), and dated respectively 5th December 1892 and 12th June 1894, by the Registrar of the High Court, Original Side, in his sale-room on Saturday, the 22nd of September next, at 12 o'clock noon, the following property:—

No. 52, Panchanantolla Lane, in the town of Calcutta, a two-storied brick-built dwelling-house and the land appertaining thereto, containing by estimation  $7\frac{1}{2}$  cottahs more or less, though described in the mortgage as 10 cottahs, and bounded on the north by the house of Luchmy Narain Gupta, on the east by the house of Boyeunto Nath Chowdhury and Nundo Lal Dey, on the south by Panchanantolla Lane, and on the west by a ryatti road.

The abstract of title and conditions of sale may be seen at the office of Mr. Jogen Chunder Dutt, No. 8, Old Post Office Street, on any day before the sale and will be produced at the sale.

R. BELCHAMBERS, Registrar.

J. C. DUTT, Plaintiff's Attorney.  
Calcutta High Court, Original Side, the 13th August 1894.  
(517—1)

### Notification.

**TO** be peremptorily sold pursuant to a decree and an order of the Calcutta High Court made in suit No. 152 of 1893 (Deno Nath Coondoo and another *versus* Rochunath Bysack), and dated respectively 29th June 1893 and 1st June 1894, by the Registrar, Original Side, in his room in the Court-house on Saturday, the 15th of September next, at 12 o'clock noon, the following properties:—

*Lot No. I.*—No. 19, Nimtollah Ghat Street, Sootanooty, in Calcutta, a piece of land the area of which is about seven cottahs, and which is bounded on the north by Nimtollah Ghat Street, on the east by land of Brojessury Dassee, on the south by the house of Anundo Bhattacharjee, on the west by the dwelling-house of Brindabun Dutt and others.

*Lot No. II.*—Two adjoining pieces of land and hereditaments in division I, called dehee Paikparrah, subdivision III, and mauza Otterparah, holdings Nos. 101, and 104 and 101a, and 104a in the registration district of 24-Parganas and sub-district Baranagore, thana Kaspipore, the area of the whole being about 45 bighas, and the whole being bounded on the west by a Government road, on the east by a house and garden, which were of the late Rajah Byddo Nath, on the south by land, which was of the late Babu Hira Lal Seal and brothers, and on the north by land of Brojessury Dassee.

The abstract of title and conditions of sale may be seen at the office of the said Registrar or at the office of Messrs. Ghose and Ghose, Attorneys, at No. 12, Old Post Office Street, on any day before the sale and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Ghose and Ghose, Plaintiff's Attorneys.  
Calcutta High Court, Ordinary Original Civil Jurisdiction, the 2nd day of August 1894.  
(546—1)

### In the Court of the Subordinate Judge of Murshidabad.

EXECUTION CASE No. 30 of 1894.

Rai Budh Singha Dudharia Bahadur and others, decree-holders, *versus* (1) Kumar Banwari Auanda Deb, (2) Kumar Banwari Mukunda Deb, (3) Hari Priya Saheba, judgment-debtors.

**IT** is hereby notified for general information that the judgment-debtors' right, title and interest in the undermentioned estate will be sold at auction in the Court sale-room at Berhampore by the Nazir of the District Judge's Court at 1 p.m. of the 15th September 1894 for the realization of Rs. 12,886-3-3:—

*Lot No. 1.*—Sixteen annas of zamindari lot Gayeshpur, being tauzi No. 11 of Birbhum rent-roll (now transferred to Murshidabad, bearing tauzi No. 9); Government revenue being Rs. 1,601-3-3 per annum. Mauzas Naudihat and Selhat of the said estate are situate within Rampurhat sub-registry in Birbhum, and all other mauzas appertaining thereto are situate within Kandi sub-registry in Murshidabad.

The abovementioned property is subject to mortgages, the mortgagees being Munshi Jellar Rahaman and Dina Nath Mukherjee for Rs. 30,000 and Rs. 29,000 respectively, and the sale will take place subject to the said mortgages.

KALLY CHARAN GHOSHAL, Subordinate Judge.  
(527—1)

### Notice.

**I** BEG to intimate that the Directors have made the following change in the Bank's establishment:—

Mr. W. D. McKewan, having returned from short leave, has resumed charge of the Canwpore Branch.

A Branch of this Bank has been opened at Jalpaiguri, in the Rajshahye Division of the Bengal Presidency, under the management of Mr. B. Hewett of Head Office.

By order of the Directors,

W. D. CRICKSHANK, Secretary and Treasurer.  
Bank of Bengal, Calcutta, 1st September 1894.  
(545—1)

### Public Works Department, Bengal.

#### NOTICE.

**IT** is hereby notified for general information that the Lieutenant-Governor has been pleased to order that the extra charge of 2 annas a bigha, provided in clause III, Rule 6 of the Eden Canal Water-rate Rules, which were published under Notification No. 116 of 2nd April 1894, in the *Calcutta Gazette* of the 4th idem, will be remitted this year in the case of all long leases applied for on or before the 15th September 1894. The extra charge will be enforced in the case of all long leases applied for after that date.

T. M. L. THOMSON, Executive Engineer, Northern  
Drainage and Embankment Division.

## The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1899 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series ...	10 0 0	12 8 0
„ each of the Madras, Bombay, and Allahabad Series ...	6 0 0	7 0 0
„ a part of the Calcutta Series pur- chased separately (exclusive of postage in India) ...	.....	2 0 0
„ part of each of the Madras, Bombay, and Allahabad Series purchased separately (exclusive of postage in India) ...	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied of subscribers when required in place of copies lost in transit:—

For town. For mofussil.

	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allahabad Series, per copy ...	0 5 3	0 5 9
„ the Calcutta Series. For the year ...	7 2 5	8 6 3
„ each of the Madras, Bombay and Allahabad Series. For the year ...	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras,  
The Superintendent, Government Central Press, Bombay.  
„ Curator of Government Books, North-Western Provinces  
and Oudh.  
„ Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
	Rs. 20	Rs. 14	Rs. 9
For one issue ...	55	36	24
„ three issues ...	100	68	45
„ six „ ...	145	96	64
„ nine „ ...	180	120	80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL LENGTH RULINGS Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
Bengal Law Reports for one year ...	20 0 0	22 8 0
Single copies, Rs. 2 per copy.		
Full Bench Rulings, Parts I and II ...	20 0 0	22 8 0
Bengal Secretariat Press, 10, Lyon's Range, Calcutta.		
Remittances to be forwarded to the Accountant and Treasurer Bengal Secretariat, Writers' Buildings, Calcutta.		

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Superintendent of Government Printing in Bengal, 10, Lyon's Range, Calcutta.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narain-gunge), Volumes I and II. Price Rs. 20 for 1892-93 Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price.

Catalogue of Books Printed at Thomason College Press, and procurable from Thomason College Book Depot.

*Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.*

*N.B.*—The Revised Prices herein entered cover the cost of packing, postage and other incidental charges (except commission for value payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments, drawing materials, &c., are not available at the College Book Depot, but can be obtained from the Superintendent, Canal Foundry and Workshops, Roorkee.

## ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

**REVISED ADVERTISEMENT.**  
**A Dictionary of the Economic Products of India.**  
 By DR. GEO. WATT, C.I.E.,

*Reporter on Economic Products.*

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets; &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G; Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, which will consist of four parts, Part I contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

**Indian Wheat Trade, Parts I, II and III, combined.** Royal 8vo., limp cover. Rs. 1-8 (4s.)

**Manual of the Land Revenue Systems of India.**

By B. H. BADEN-POWELL. Revised Edition, in 3 Volumes—Royal 8vo., cloth.

#### LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 20th July, 1894, and having been assented to by His Excellency the Viceroy and Governor General on the 22nd August, 1894, is hereby published for general information:—

#### ACT No. V OF 1894.

*An Act to remove doubts which have arisen in connection with the resettlement of land-revenue in temporarily-settled areas and to amend the Bengal Tenancy Act, 1885.*

WHEREAS doubts have arisen as to the date from which proceedings with a view to the resettlement of land-revenue in temporarily-settled areas or rents in Government estates may be undertaken, and as to the date from which it may be said that a settlement of land-revenue is being made, and it is expedient that such doubts should be removed;

And whereas it is expedient to amend the Bengal Tenancy Act, 1885;

It is hereby enacted as follows:—

1. In section 101, sub-section (2), clause (d), of the Bengal Tenancy Act, after the word "revenue" the words "is to be or" are to be inserted.

2. In section 110, at the end thereof, the following shall be added:—

"Provided that in any local area declared to be under settlement of land-revenue by a notification under section 101, sub-section (2), clause (d),

every fair and equitable rent settled by a Revenue officer under section 104, sub-section (2), or revised under the proviso following, before the date upon which the new settlement of land-revenue comes into force, shall take effect from that date:

Provided also that, at any time between the publication of the record under section 105, sub-section (2), and the date upon which the new settlement of land-revenue comes into force, it shall be open to either landlord or tenant to apply, on the ground of special circumstances having occurred since the publication of the record, for revision of the rents settled, and a Revenue officer, whom Government may designate for the purpose, shall take such applications into consideration and make such revision of rents as may appear to be fair and equitable, and shall then make such corrections in the record as may be rendered necessary by such revision.

The provisions of Chapter X of the Bengal Tenancy Act shall apply to such revision of rents and such corrections in the record.

*Explanation.*—A settlement of land-revenue includes a settlement of rents in a Government estate.

3. Any notification or orders made, or purporting to have been made, under any law now in force, by the Local Government, directing that a survey be made or a record-of-rights be prepared by a Revenue officer in respect of the lands in any local area liable to be brought under settlement specified in such notification or order, shall be deemed to have been duly made, and it shall be held that a settlement of revenue was to be, and is being, made in respect of such local area from the date of such notification or order.

GORDON LEITH,

Assistant Secretary to the Govt. of Bengal,  
Legislative Department.

**RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION  
REPORT OF THE RAJSHAHI DIVISION FOR THE  
YEAR 1893-94.**

GENERAL DEPARTMENT.—MISCELLANEOUS.

*Calcutta, the 4th September, 1894.*

RESOLUTION—No. 2962.

READ—

The Annual General Administration Report of the Rajshahi Division for the year 1893-94.

The Lieutenant-Governor considers that Mr. Nolan's Report on the Rajshahi Division is an extremely useful and interesting document. Mr. Nolan has hit the happy mean as to length; the statistical information is well compiled and explained by the letterpress; and the Report contains many remarks and suggestions which are the result of trained experience, and well deserve the attention of all District Officers.

2. In six of the seven districts of the Division, the Magistrate and Collector was unchanged throughout the year, with the exception of a brief interval of privilege leave. The Division therefore enjoyed an unusual immunity from the vicissitudes usually due to ill-health, ordinary furlough, and promotion. The favourable reports of the work done by Mr. Tute, Colonel Boileau, and Mr. Greer merit the recognition of Government.

3. The Lieutenant-Governor calls attention to Mr. Nolan's remarks in paragraph 8 on the desirability of laying out the tours of Subdivisional Officers with a view to carrying on special enquiries, and fixing them "so as to interfere as little as possible with the hearing of judicial cases." He desires all Collectors to give specific instructions to Subdivisional Officers as to what they should inspect during their tour.

4. The information given in Section IX, as to the Trade and Commerce of the Division, is important, as helping to confirm and correct the impressions received by District Officers as to the well-being or otherwise of the people and the character of the crops. The statistical tables have been compiled with great clearness and ability.

5. The Commissioner's remarks in paragraph 39 on the conduct and condition of the Police are weighty, but gloomy. He recognises in "other branches of the administration a progress which in the case of the Police is not discernible." Bad traditions prevail not only in the force, but also among the public as regards what is to be expected from the force. The treatment of police officers in regard to punishment and promotion must be made to accord with that which is prevalent in other departments. "The record of punishments inflicted from year to year on an officer who has risen by slow steps to the top of his service and occupies a position of great trust, often reads like the history of some notorious criminal. The promotions also have not the regularity which elsewhere gives an assured prospect to public servants." Sir Charles Elliott commends these observations, and the whole paragraph, to the careful attention of the Inspector-General of Police and of all District Magistrates and Commissioners.

6. The Lieutenant-Governor concurs in the views expressed by the Commissioner in paragraph 66, that young Sub-Deputy Collectors should be more commonly put in charge of the treasury, or excise, or engaged in trying petty criminal cases, instead of being at once employed on settlement work, since the fixing of judicial rents is more difficult work than these are, and requires more experienced men.

7. The largest estates under the Court of Wards were those of the Dighapatia brothers, which were released during the year. Mr. Nolan's account of these young gentlemen (in paragraph 71), and the training they have received, is encouraging. Altogether over Rs. 31,000 were spent in material improvements in these estates, and the Lieutenant-Governor would have been glad if more information had been given as to the nature of these improvements. The same point should be borne in mind in writing of the management of Government estates or khas mahals, where a special grant is always made by the Board for this purpose.

8. The outlay in tanks and wells recorded in paragraph 81 is very satisfactory, but the Lieutenant-Governor would have been glad to hear what the District Boards have separately done in this direction, apart from private liberality. Attention is drawn to the remarks in paragraph 100 on ferries. His Honour agrees with Mr. Nolan that as a rule the District Board (or the Government if it is a Government ferry) should supply the ferry boat and the platforms of access to it, as the wants of public traffic are not likely to be well served if these are provided by a farmer who has only a temporary tenure of the lease.

9. Mr. Nolan's paragraph 103 on the state of public feeling deserves attention. His remark that those who know English tend to constitute a caste whose exclusive privilege it is to hold public offices and to criticise Government is acute, and helps to explain the increasing prevalence of a criticism which is less candid and intelligent than might have been expected.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

*Secretary to the Government of Bengal.*

ANNUAL GENERAL ADMINISTRATION REPORT OF THE RAJSHAHI  
DIVISION FOR 1893-94.

No. 537Ret., dated Darjeeling, the 30th June 1894.

From—P. NOLAN, Esq., Commissioner of the Rajshahi Division,  
To—The Secretary to the Government of Bengal, General Department.

I HAVE the honour to submit the General Administration Report of the Rajshahi Division for the year 1893-94.

I.—CHARGE.

2. The following officer was in charge of the Division during the year:—

(a) Division.

P. Nolan, Esq.

3. The subjoined statement gives the names of the officers who were in charge of the districts of the Division during the year under report:—

(b) Districts.

DISTRICTS.	Officers.	For what period (both days inclusive).
1	2	3
Rajshahi ...	Mr. J. C. Price ...	From 1st April 1893 to 31st March 1894.
Dinajpur ...	„ A. C. Tute ...	Ditto ditto ditto.
Jalpaiguri ...	Lieut.-Col. H. Boileau ...	From 1st April 1893 to 23rd August 1893, and again from 27th October 1893 to 31st March 1894.
Darjeeling ...	Mr. B. B. Newbould ...	From 24th August to 26th October 1893.
„	„ R. M. Waller ...	„ 1st April to 8th July 1893.
„	„ H. G. W. Herron ...	„ 9th July to 4th August 1893.
„	„ R. T. Greer ...	„ 5th August 1893 to 31st March 1894.
Rangpur ...	„ E. B. Harris ...	„ 1st April 1893 to 31st March 1894.
Bogra ...	„ A. E. Harward ...	Ditto ditto ditto.
Pabna ...	Kumar Gopendra Krishna Deb	Ditto ditto ditto.

4. The statement below gives the names of the officers who were in charge of subdivisions in the several districts during the year:—

(c) Subdivisions.

DISTRICTS.	Subdivisions.	Officers.	For what period (both days inclusive).
1	2	3	4
Rajshahi ...	Nator ...	Babu Juanendra Nath Lahiri	From 1st April 1893 to 31st March 1894.
„	Naugaon ...	„ Ganendra Nath Pal ...	Ditto ditto ditto.
Dinajpur ...	Thakurgaon ...	„ Baroda Kant Ganguli ...	From 1st April to 16th July 1893.
„	„	„ Purna Chandra Gupta	„ 17th July 1893 to 31st March 1894.
„	„	Mr. W. H. W. Mackenzie ...	„ 1st to 22nd April 1893.
Jalpaiguri ...	Alipur ...	Babu Fatick Chandra Dass.	„ 23rd to 28th April 1893.
„	„	Sub-Deputy Collector.	„
„	„	Babu Nibaran Chandra Ghattuck.	„ 29th April 1893 to 31st March 1894.
„	„	Mr. B. B. Newbould ...	„ 1st April to 18th August 1893.
„	„	„ H. G. W. Herron ...	„ 19th August to 8th November 1893.
„	„	„ L. F. Morshead ...	„ 9th November 1893 to 31st March 1894.
Darjeeling ...	Kurseong ...	„ P. T. Rebello ...	„ 1st April to 4th October 1893, and again from 25th October 1893 to 31st March 1894.
„	Siliguri ...	Babu Benode Behari Sarkar	„ 5th to 24th October 1893.
„	„	„ Ganga Narayan Ray ...	„ 1st April to 12th November 1893.
„	„	„ Jogendra Nath Bando-padhaya.	„ 13th November 1893 to 31st March 1894.
„	Gaibanda ...	„ Akhoy Kumar Chatterji	„ 1st April to 13th June 1893.
„	„	„ Akhoy Kumar Bose ...	„ 14th June 1893 to 31st March 1894.
„	„	„ Priya Nath Mukerjee	„ 1st to 2nd April 1893.
Rangpur ...	Kurigaon ...	Jagat Durlav Bysack	„ 3rd April 1893 to 14th March 1894.
„	„	Jagat Chandra Bose ...	„ 15th to 31st March 1894.
„	„	Mr. N. D. Beatson-Bell ...	„ 1st April to 13th September 1893.
Pabna ...	Seraiganj ...	„ C. A. Bell ...	„ 14th September 1893 to 31st March 1894.

II.—TOURS AND INSPECTION OF OFFICES.

5. I spent the early part of April in the Duars, where I inspected the

(a) Commissioner's tour.

Falakata tahsil, the Alipur Subdivision, and the Buxa Cantonment, dealing also with certain points connected with the settlement then in progress. About the middle of the month I met the Lieutenant-Governor at Kuch Bihar, and afterwards accompanied him to Buxa and Jalpaiguri, thus taking His Honour through the district from south to north and from east to west. At Buxa Sir Charles Elliott met an envoy from the Tonsa Penlop, and came to an understanding, subsequently confirmed by the Government of India, on the points in dispute as to the Bhutan frontier, which had been recently surveyed. No objection has since been taken to the arrangements made by the Government of Bhutan. During the rains I inspected the district of Rangpur, the subdivisions of Serajganj, Kurigram, and Kurseong. After the monsoon I visited Gantok and there reviewed with the Assistant Political Officer the questions pending as to the administration of Sikkim. I also communicated with the members of Council and all chief officials of the State. I descended from the hills by the Daling Pass, now traversed by an excellent bridle path, arriving in the centre of the Jalpaiguri tea tract. I was much struck by the excellence of the cultivation and the prosperous appearance of the coolies in the different gardens I visited. After making some stay at Jalpaiguri I inspected Pabna, Rampur Boalia, the territorial jurisdiction recently created in Dinajpur, the head-quarters of that district and Thakurgaon, returning to Jalpaiguri for the transaction of business. During my march I saw a good deal of the country, and paid special attention to the working of the police and chaukidars. I spent more than three weeks at Jalpaiguri, and then made a second tour in the Duars, where I inspected Falakata tahsil again and the Mainaguri tahsil, also the Salbari and Mainaguri thanas. In March I inspected the Siliguri, Nilphamari, Naugaon, and Nator subdivisions, the Jaipur and Gourgram settlements, and Bogra district, where I spent the last days of the official year. The only subdivision or district I failed to visit was Gaibanda. As I had spent an unusual time in it during each of the two preceding cold seasons, and it is not on any line of march, I thought it possible to omit it from my programme on this occasion.

I spent altogether 128 days on tour.

(b) Tours of District Officers.

6. The statement below shows the period spent on tour by each District Officer:—

DISTRICTS.	Officers.	PERIOD SPENT ON TOUR.		REMARKS.
		Months.	Days.	
1	2	3	4	5
Rajshahi ...	J. C. Price, Esq. ...	4	8	
Dinajpur ...	A. C. Tute, Esq. ...	3	16	Months. Days.
Jalpaiguri ...	Lieutenant-Colonel H. Boileau ...	3	5	} 3 7
	B. B. Newbould, Esq. ...	...	2	
Darjeeling ...	R. M. Waller, Esq. ...	...	9	} 3 27
	R. T. Groer, Esq. ...	3	18	
Rangpur ...	E. B. Harris, Esq. ...	4	3	
Bogra ...	A. E. Harward, Esq. ...	2	28	
Pabna ..	Kumar Gopendra Krishna Deb ...	3	2	

The tours exceeded the minimum limit prescribed in every case, except that of Mr. Harward who suffered from bad health.

The District Officers enquired as to the condition of the people and the state of crops, inspected the roads, subdivisional offices, jails, dispensaries, thanas and outposts, municipalities, excise shops and ganja golas, sub-registry offices, pounds and ferries, wards' estates, tahsil offices, and settlements, where there were any, and the working of the new Chaukidari Act.

In the rains Mr. Price prosecuted his tours in a boat, thereby having easy access to, and visiting places to which no roads lead, and which are difficult of approach in the dry weather. During his inspection of Rampur Boalia and Nator Municipality he specially considered the distribution of work among the Municipal Commissioners, the assessment, collection and arrears of municipal taxes. He spent more than a week at Nator in August, enquiring judicially into the circumstances of a riot inside the Rajbari during which a man was killed. Mr. Tute prosecuted enquiries as to the condition of the cattle, which eventually resulted in his getting up a movement to import Burma cattle into Dinajpur. He opened a new dispensary at Bocha-ganj founded by Rai Setab Chand Nahar Bahadur, which was specially brought to the notice of Government. On the 10th January Colonel Boileau paid the annual subsidy to the Bhutan Government. Mr. Waller inspected the West Tista Khas Mahals in connection with their resettlement and visited the Maharaja of Sikkim at Kurseong in June, and Mr. Greer also visited the Maharaja in December, and in January tested the maps of the Terai jotes on the ground, examined the workings of the Terai Patrol Police Scheme and the Chaukidari Act. Mr. Harris and Kumar Gopendra Krishna Deb visited every part of their respective districts and inspected all the settlements in progress. Kumar Gopendra Krishna visited all the Government and resumed estates under khas management and also enquired into several boundary disputes in respect of land which, though appertaining to certain Government estates, were claimed by private proprietors.

Except in the case of the officer whose health, as has been stated, obliged him to curtail his tour, and also diminished its usefulness, I am satisfied that every Collector performed this part of his work with efficiency and success.

(c) Tours of Joint and Assistant Magistrates.

7. The following table shows the periods spent on tour by Joint and Assistant Magistrates:—

DISTRICTS.	Officers.	PERIOD SPENT ON TOUR.		REMARKS.
		Months.	Days.	
1	2	3	4	5
Rajshahi ...	L. Palit, Esq., Joint-Magistrate	...	13	
Jalpaiguri ...	B. B. Newbould, Esq., Joint-Magistrate ...	3	23	
Darjeeling ...	H. G. W. Herron, Esq. ...	1	10	
Rangpur ...	F. McBlaine, Esq. ...	...	12	

The object of Mr. Palit's tour was to test the works of the Batwara amins; he happened to be at the time in charge of the Batwara Department as Partition Deputy Collector. Mr. Herron was too short a time at Dinajpur to be out on tour. In October Mr. Newbould was out for a day to make a local enquiry as to a sensational cow-killing case between the Muhammadans and the Marwaris at Damdim. From 14th December 1893 to 31st March 1894 he was placed in charge of the territorial subdivision at Mál, where he tried criminal cases and rent suits arising within the jurisdiction of that subdivision. He also inspected some of the Government roads and markets. Mr. Herron, who was employed at the Sadar station of Darjeeling, also held charge of the Kurseong office from 19th August to 8th November. The period during which he was absent from the head-quarters was mainly spent in travelling to and from Kurseong. He spent two days in June in inspecting the excise office at Kurseong, two days in January in inspecting the excise shops at Batamtom, and three

days in March in inspecting the ganja warehouses and excise office at Siliguri. During the period Mr. McBlaine was in camp he visited Kakina, Tusbhundar, and Bhotmari, and made enquiries about chaukidari matters.

8. The following statement shows the period spent on tour by the Sub-  
(d) Tours of Subdivisional Officers. divisional Officers:—

SUBDIVISIONS.	Officers.	PERIOD SPENT ON TOUR.		REMARKS.
		Months.	Days.	
1	2	3	4	5
Nator ...	Babu Jnanendra Nath Lahiri ...	3	10	
Naugaon ...	Babu Ganendra Nath Pal ...	3	9	
Thakurgaon ... {	Babu Baroda Kanta Ganguli ...	1	...	
	„ Purna Chandra Gupta ...	2	27	
		3	27	
Alipur ...	Babu Nibaran Chandra Ghatak...	3	29	
Kurseong ... {	B. B. Newbould, Esq. ...	1	19	
	H. G. W. Herron, Esq. ...	...	...	
	L. F. Morshead, Esq. ...	2	6	
		3	25

Gaibanda ... {	Babu Ganga Narain Roy ...	...	22	
	„ Jogendra Nath Bandyapadhya.	2	21	
		3	13	
Nilphamari ... {	Babu Akhoy Kumar Chatterji ...	...	7	
	„ Akhoy Kumar Bose ...	2	20	
		2	27	
Sirajganj ... {	N. D. Beatson-Bell, Esq. ...	...	29	
	C. A. Bell, Esq. ...	2	28	
		3	27	

All the Subdivisional Officers except Babu Akhoy Kumar Bose, whose camping fell short by three days only, made tours of the proscribed length. Babu Akhoy Kumar attributes the deficiency to an attack of fever in December—an explanation which does not appear to be very satisfactory, as he could have made up the arrears in the three months following.

In regard to the employment of Subdivisional Officers on tour, the Collector of Rangpur remarks that they visited all parts of their subdivisions

and inspected schools, outstills, fairs, &c., looked into chaukidari matters, and did their usual criminal business.

I do not myself attribute the same importance to subdivisional as to district tours. The former were necessary when the officers in charge were young Europeans, who had to learn the ways of the country and to perform much of the executive work now entrusted to Boards. Under existing conditions it is very desirable that the Collectors should see that the tours of their subordinates are so arranged as to interfere as little as possible with the hearing of judicial cases, and that a full equivalent is obtained for the inconvenience of this nature which is inevitable. I should certainly like to see greater signs of specific advantage derived from the subdivisional tours. They seem to yield little fruit. I will suggest that during the coming touring season Subdivisional Officers revise the lists of chaukidari panchayats village by village, test the accuracy of the mortuary returns, and examine the income-tax assessment, noting any alterations to be proposed for the ensuing year.

9. The table below shows the number of inspections of district and subdivisional offices and treasuries made by the Commissioner and District Officers during the year:—

(e) Inspection of district and subdivisional offices and treasuries.

DISTRICTS.	District and sub-divisional offices and treasuries.	INSPECTION OF DISTRICT AND SUB-DIVISIONAL OFFICES MADE BY—		INSPECTION OF TREASURIES AND SUB-TREASURIES MADE BY—	
		Commis-sioner.	Collector.	Commis-sioner.	Collector.

Pabna ... {	Pabna ...	1	2	1	2
	Scrājganj ...	1	2	1	2

\* The treasury was closed on the day when I inspected the offices.

From the foregoing table it will be seen that all the Collectors observed the standing orders of Government in respect of the inspection of their own and subdivisional offices, treasuries and sub-treasuries, with the exception that the District Officers of Rajshahi and Jalpaiguri did not inspect the Naugaon and Alipur subdivisional offices and treasuries, and that the Collector of Bogra did not inspect his own office and treasury twice, as required by the rules. Mr. Price and Colonel Boileau have furnished no explanation as to their failure to inspect twice the Naugaon and Alipur offices respectively. Mr. Harward was ill, and could not inspect either the office or the treasury during the second-half of the year.

The result of the inspections was generally satisfactory.

In the subdivision of Nator it was ascertained that the poddar had received money irregularly, keeping it in his own hands for a time and afterwards

crediting it to Government. For this he was dismissed, and the head clerk was degraded for failing to stop a practice so irregular and dangerous.

III.—WEATHER AND CROPS.

10. At the commencement of the official year the ground was unusually moist owing to copious showers in the preceding month. In April the rainfall was heavy and the temperature cool. The following figures show that in May and June the conditions of the different districts varied greatly:—

DISTRICTS.	MAY.		JUNE.	
	Actual rainfall.	Variation from normal.	Actual rainfall.	Variation from normal.
1	2	3	4	5

Bogra ... ..	12.54	+ 4.75	15.37	+ 2.60
Pabna ... ..	16.14	+ 9.03	17.97	+ 6.82

It will be observed that there was an excessive rainfall in the southern districts, Pabna, Rajshahi, and Bogra, accompanied by some defect in the north of the Division. During the remaining part of the monsoon the rainfall was everywhere sufficient, without being so great as to cause floods. It closed somewhat early in October, and the cold season was very dry.

11. The heavy rain in the beginning of the year seems to have damaged the jute crop in Pabna, Bogra, and Rajshahi, where it is estimated at 12 annas only; elsewhere it was up to the average. The bhadoi rice was also poor in these districts, and was good only in Rangpur and Dinajpur. Taking the Division as a whole the outturn of bhadoi rice was 13.8 and jute 14.6 annas only.

The heavy rainfall was favourable to the winter rice crop, and the outturn is variously estimated from 15.5 annas in Jalpaiguri and Darjeeling to a bumper crop in Dinajpur, giving a divisional average of a little over 17 annas.

The rabi crops were more or less injured by the failure of the cold-weather rains. Tobacco was adversely affected by the same climatic conditions. Its divisional outturn may be estimated at 12.5 annas. Sugarcane was injured by the excessive rainfall during the monsoon season, and it is estimated to have yielded a crop of 12.5 annas.

The ganja crop in Rajshahi gave a poor outturn (10 annas) owing to the failure of the cold-weather rains.

I commented in last year's report on the tendency among those who originally supply estimates of crops to use the accepted common measure of annas in the commercial and popular as distinguished from the official sense, and of District Officers to fail in making the necessary translation. I believe that this still continues and affects the published estimates, at least in regard to certain localities.

## IV.—PUBLIC HEALTH.

12. The following table shows the mortality of the year in the several districts of the Division as compared with the preceding year:—

NAMES OF THE PREVAILING DISEASES OR OTHER CAUSES.	RAJSHAHÍ.				DINAJPUR.				JALPAIGURI.				DARJEELING.			
	Number of deaths reported.		Deaths per mille.		Number of deaths reported.		Deaths per mille.		Number of deaths reported.		Deaths per mille.		Number of deaths reported.		Deaths per mille.

There has been an increase in reported mortality in Rajshahi, Bogra, and Pabna, the three southern districts in which the rainfall was excessive. The Collector of Rajshahi states that the close of the rains was followed by a serious epidemic of fever all over the district both in the Barind and in the low lands. In Bogra the increase is nominal, and registration there is so defective that no inference can be drawn from the variation. There was a very large increase in deaths from cholera in Pabna. On the other hand, health was better in the Terai districts of Jalpaiguri, Dinajpur, and Rangpur. The health of the Darjeeling district underwent little change.

The returns can be considered as useful only for the purpose of comparing the results of one year with those of another, on the assumption that in each district the defects in registration are uniform. It must not, for instance, be supposed that because Rajshahi shows a mortality of 43 per thousand and Rangpur of 26 per thousand therefore the former district is the more unhealthy. On the contrary it is probably the better of the two, and the real rate in each may very well have exceeded 45 per thousand. According to the census Rangpur has declined in population during the last 20 years, and this result could have been attained in a country where food is abundant and early marriage a universal custom only by a mortality such as I have indicated. Neither can I attach much value to the classification of deaths which is made by the chaukidars—men who have not the habit of accuracy or any motive for careful discrimination. According to the returns nearly all the deaths are caused by fever. The observations so accurately made in our jails show very different results. If we could trust the reports we would have to believe that bowel-complaints are hardly ever fatal in Rajshahi, whereas they notoriously cause a large proportion of the deaths: many are doubtless set down as caused by cholera; others are brought under the general head of fever.

13. The figures showing the total number of accidental and sudden deaths in 1893 were as follows:—

DISTRICTS.	Men.	Women.	Children.	Total.	Total figures of 1892.	REMARKS.
1	2	3	4	5	6	7

#### V.—MATERIAL CONDITION OF THE PEOPLE.

16. For most administrative purposes the Rajshahi Division may be divided into four regions. On the north is the Himalayan range, which stretches to the plains from the line of perpetual snow dividing the watershed of India from that of Tibet, and is inhabited by races of Mongolian origin or connection. The Deputy Commissioner considers that the labourers in this tract

are as a rule well off. The cultivators he describes as happy and contented when undisturbed by contact with outsiders "and free from the iron fetters of the money-lender." I have observed that authorities as experienced as Sir John Edgar and Mr. Paul have agreed in attaching great importance to the evil done by usurers in the hills, and I quite concur in thinking that the precautions against the abuse of power by this class found useful elsewhere should be extended to Darjeeling; but I hold that modern influences, including that of commercial credit, enforced in regard to just debts by the ordinary courts, have on the whole operated for good in Darjeeling. The population in the hills has increased by 61 per cent. during the last decade, partly by the natural growth which is one of the most obvious signs of prosperity, partly by immigration from Nipal, Bhutan, and Tibet—a movement which indicates the opinion of the people themselves as to the comparative advantages of two rival systems. I should certainly classify the cultivators of the hill tracts, including Sikkim, as prosperous according to the Himalayan standard. They live in a stimulating climate under a Government the protection of which they or their ancestors have in most cases voluntarily sought, and their industry is fairly remunerative. Immediately to the south of the hills, enclosed between them and the rising ground of the Barind, lies an extensive tract of Terai country, including Jalpaiguri and part of the districts of Darjeeling, Rangpur, and Dinajpur. Throughout this tract the raiyats have always enjoyed a full measure of tenant-right, including the privilege of free sale, and their holdings are sufficiently large to yield a comfortable subsistence. They are probably as well off as any members of their class in India. Labourers are few in number and the wages sufficient to attract immigrants from distant places. In the Darjeeling Terai the holdings are too large to be cultivated by one family, their size having been regulated by the facility for clearing jungle attaching to a system of extensive grants to men of some capital, and this has caused the growth of a class of under-raiyats imperfectly protected by the law, and described by the Deputy Commissioner as little better off than labourers. It must, however, be remembered that even labourers are, comparatively speaking, well paid in the Terai. The ease with which subsistence is obtained in this part of the Division is hardly a subject for congratulation with reference to its cause. Population has there attained the stationary state, or, more correctly speaking, there is a slight tendency to a decrease, not entirely counteracted by immigration. All the inhabitants suffer more or less from malaria, and the majority have as a consequence some constitutional disease, such as enlarged spleen. It is this that prevents wages being kept down and holdings unduly subdivided under the influence of competition. The Barind is a slightly elevated country, of older formation than the alluvial plains of Bengal, stretching through parts of Rangpur, Rajshahi, Dinajpur, and Bogra. It seems subject to great vicissitudes both as regards health and the success of cultivation, and shows signs of having at one time supported in prosperity a much larger population than it could now maintain. In recent years the tendency is towards the partial restoration of its former satisfactory condition; the raiyats are increasing in numbers, and though ignorant are not poor. On the south of the Division lies the favoured plain of the Ganges, where the most intelligent part of the population has established itself to enjoy the greater amenities which life there presents. It is there that cultivators and labourers feel the pressure of population on the means of subsistence. The crops, moreover, were below the average this year, and the high price of food affected the landless classes. Here, too, the owners of fixed incomes are found in the greatest number; they all suffer from the depreciated value of the rupee.

#### VI.—EMIGRATION AND IMMIGRATION.

17. The District Officers have not observed any emigration during the year, except a little from Darjeeling on military or police service. Two hundred Nepalis were engaged

(a) Emigration.

in that district for labour on the tea gardens of Chittagong. It appears, however, from the census report that there is considerable emigration from Rangpur to Assam, Kuch Bihar, and Jalpaiguri, apparently for the purpose of reclaiming waste, 55,774 natives of Rangpur having been registered in those places. Nearly eleven thousand persons born in Dinajpur were entered in the

Sonthal Parganas—a clear proof that many descendants of the colonists that district sends forth return to their original country. If the District Officers would refer to the census report before dealing with this subject their remarks would be more to the point. The immigrants found in the Division on the night of the 29th February 1891 numbered 436,239. They may be divided into three classes—in the first are to be placed what the planters call “cold-weather birds,” who come from the west at the commencement of the healthy season and return with their earnings before the rains set in. These I estimate at 124,933. Then there are the coolies employed on tea estates, who come to stay a few years only, but often remain for life. Lastly, there are the cultivators, permanent settlers, by whom the waste land of Darjeeling, the Terai, and the Barind is being rapidly reclaimed. The two latter classes are not easily distinguished in the census returns, as they include many persons from the same districts. Taken together, they number 311,306. The following statement shows the places from which the immigrants come:—

NATIVE PROVINCE.	IMMIGRANTS.		
	Male.	Female.	Total.
1	2	3	4
Kuch Bihar ... ..	23,855	20,557	44,412
Nepal ... ..	61,248	47,275	108,523
Bhutan ... ..	1,451	1,427	2,878
Sikkim ... ..	3,110	2,946	6,056
Sonthal Parganas and Chota Nagpur ...	37,648	31,348	68,996
Bihar ... ..	72,107	21,275	93,382
North-Western Provinces ...	21,269	4,692	25,961
Central India ... ..	2,046	2,204	4,250
Punjab ... ..	1,205	135	1,340
Bengal ... ..	49,182	29,740	78,922
All other places ... ..	801	718	1,519
Total ... ..	273,922	162,317	436,239

18. The following statement shows in what districts the immigrants settle those only being counted as immigrants who come from other divisions:—

DISTRICTS.	Total population.	Immigrant population.	Percentage of population which has immigrated.	REMARKS.
1	2	3	4	5
Rajshahi ... ..	1,313,336	42,013	3·2	.
Dinajpur ... ..	1,555,835	79,207	5·09	
Jalpaiguri ... ..	681,352	98,611	14·5	
Darjeeling ... ..	223,314	119,769	53·6	
Rangpur ... ..	2,065,464	36,685	1·8	
Bogra ... ..	817,494	23,670	2·9	
Pabna ... ..	1,362,392	37,284	2·7	
Total ... ..	8,019,187	436,239	5·4	

It will be observed that the current of emigration sets from west to east, and this is true of Upper India generally. The surplus population of the

healthier tracts flows to those malarious districts where sickness is always making room for more.

The large proportion of the population of the northern districts, Darjeeling Jalpaiguri, and Dinajpur, which consists of immigrants is worthy of notice.

VII.—PRICE OF FOOD AND LABOUR.

19. The staple food-grains of the country, and in particular of common

- (a) Prices of food. rice, continued during the year to sell at what in  
(b) Prices of labour. the last generation would have been thought the  
famine rate of twelve to fourteen seers the-rupee.

This is not due to any deficiency in the local harvests, which for two years have been fairly good. There has been partial failure elsewhere, but I have no doubt that the change has been mainly in the value of the rupee. We cannot expect to get as much for a coin worth a shilling as we did for a florin. Wages are also rising, but at a slower rate, and only in some trades and places. In Rangpur, Bogra, and Pabna there has been no increase. Boys and superior carpenters get the same as they did everywhere; in the other occupations a rise may be noticed in one or more of the districts.

VIII.—MANUFACTURES AND MINES.

20. The manufactured articles used in this Division are for the most

- (a) Manufactures. part imported, the equivalent being given in  
rice, jute, tea and other agricultural products.

I doubt if the world can show a tract of country with the population of eight millions where so little is produced that requires skill other than that of the cultivator; and I think that the disposition to rely on traffic for the supply of such goods tends to increase rather than to diminish. I observed at the Jalpesh fair in the Duras, where the buyers are all cultivators, that European commodities were most affected by the young. The children's shoes, toys and dolls, for instance, come from England. Some of the most important industries classified as manufactures—those connected with silk, tea and cinchona—are in the hands of European planters, and like the preparation of molasses and sugar are so subsidiary to agriculture as hardly to be counted under any other category. The subjoined table shows the outturn of indigo during the past three years:—

DISTRICTS.	1891.	1892.	1893.	REMARK
1	2	3	4	5
	Mds. s. ch.	Mds. s. ch.	Mds. s. ch.	
Rajshahi ... ..	1,721 0 0	357 20 0	542 30 0	
Dinajpur ... ..	4 0 0	9 4 8	10 0 0	
Rangpur ... ..	49 20 0	25 17 10	41 25 0	
Pabna ... ..	50 3 12	18 26 8	6 20 0	
Total ... ..	1,824 23 12	410 28 10	600 35 0	

The year 1893 was more favourable for indigo than the preceding year. The outturn of manufactured silk in Rajshahi was 141,406lbs against 79,900 lbs. Endi cloth (coarse silk) is manufactured in small quantities for home consumption in Dinajpur, Rangpur, Bogra, and Jalpaiguri. Molasses are manufactured in all the districts. They are largely exported from Rajshahi. Sugar is made at Pachagar in Jalpaiguri, and after meeting the local demands it is

exported to Bhutan and neighbouring districts. Gunnies are prepared in all the districts of the Division and at the Sirajganj Jute Mills on an extensive scale and exported to Calcutta. It is, however, a fact that most of the gunny-bags used are imported. As stated in the previous year's report, cotton cloth is manufactured by hand-looms in Pabna, but this industry is not in a very thriving condition. Brass and bell-metal utensils are manufactured at Kalam in the sub division of Nator of the district of Rajshahi. These articles are said to be exported to other districts. Lotas and other brass utensils are made at Gomnati in the Nelphamari subdivision of the Rangpur district. Brass utensils are also manufactured to a small extent at Pachagar in Jalpaiguri and in Pabna, principally to supply the local demand.

Setalpati mats are made in Bogra and Pabna to meet the small local demand. Satrangies (carpets) are made in the Sadar subdivision of the Rangpur district.

Beer and porter are brewed in Darjeeling.

21. The number of tea gardens in the districts of Jalpaiguri and Darjeeling, the area under cultivation in acres, gross yield in pounds, and the average yield per acre from mature plants, are shown in the following table:—

DISTRICTS.	Number of gardens.			AREA UNDER CULTIVATION IN ACRES.						Gross yield in pounds.			Average yield per acre from mature plants.		
				Mature plants.			Immature plants.								
	1891.	1892.	1893.	1891.	1892.	1893.	1891.	1892.	1893.	1891.	1892.	1893.	1891.	1892.	1893.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Jalpaiguri ...	177	183	184	27,901	27,960	33,322	8,400	10,003	0,033	14,731,546	18,278,628	18,524,210	541.5	653.2	575.9
Darjeeling ...	179	184	184	40,880	41,618	54,308	0,329	5,820	5,304	10,058,000	10,581,601	11,145,074	298.01	260.5	208.2
Total	356	367	368	68,080	69,578	87,630	14,735	16,423	14,937	25,689,546	28,860,229	29,669,284	377.3	420.7	338.5

The decrease in average yield per acre from mature plants in Jalpaiguri is attributed by the Deputy Commissioner to the insufficient rainfall and leaf disease. The decrease in Darjeeling is said to be due to the low outturn in the hills, the weather being exceptionally cold and wet. The bushes were also injuriously affected by blight during a greater part of the year.

22. The following statement shows the condition of cinchona cultivation in Darjeeling during the year of report and previous year:—

DISTRICT.	NUMBER OF PLANTS.			GROSS YIELD IN POUNDS.			PROFITS.			
	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.

A decrease is noticeable in the gross yield in the case of private plantations. The most important of them, viz. Nimbong, owned by the Bhutan Cinchona Association, was relinquished to Government during the year, the fall in the price of the drug having rendered the work unprofitable.

23. No mine was worked during the year. Appendix V is therefore blank.

(b) Mines.

#### IX.—TRADE AND COMMERCE.

24. The trade of the Division is chiefly with Calcutta. From that port

- (a) Exports.  
(b) Imports.

we receive cotton piece-goods and twists, salt, gunny-bags, and kerosine oil, exporting in exchange food-grains, jute, oilseed, tea, silk, sugar, and tobacco.

The statistics are registered with care at the different approaches to Calcutta

by rail and water, and are published in the gazette, from which I have had the following tables compiled:—

### Imports from Calcutta.

25. The amount of piece-goods imported should be an index to the degree of prosperity enjoyed by the people, but the trade is affected by other causes with which I am imperfectly acquainted. I regret that I am unable to account for the falling off under this head in all the districts of the Division. No explanation has been offered by the Collectors. It may be that the continued fall in exchange checked imports of this class of commodities, as also of cotton twist and salt. The increase in gunny-bag imports is due to the greater quantity of rice exported.

The increased export of rice is due to the fact that the figures for 1892 were largely affected by the partial failure of the harvest in 1891. In the great staple of jute there has also been a marked increase, particularly noticeable in Dinajpur, Jalpaiguri, and Rungpur, the northern districts. Rajshahi and

Bogra show a great falling off, due to the poor outturn of the crop in these places. As to Pabna I suspect that the entries include much jute coming to Sirajganj from other districts in hanks, and these are re-exported in drums; it is doubtful whether there was any increase in the local produce. There was a marked failure in regard to tobacco.

26. The total quantity and value of the articles carried upwards and downwards by this service during the past two years are shown in the following table:—

Sirajganj steamer service.

	Quantity.		Value.	
	1892.	1893.	1892.	1893.
	Mds.	Mds.	Rs.	Rs.
Export	21,46,228	24,86,703	1,37,58,269	1,72,35,047
Import	6,15,936	7,72,430	26,88,378	36,25,023

The statement given below shows in detail the import and export trade of Sirajganj and other marts of the Pabna district carried by the Sirajganj steamer service:

There was an increase in the steamer traffic under both the heads of import and export. The Sirajganj jute mill worked almost throughout the year without cessation; hence the increase in the export of gunny-bags. The price of raw jute was low for greater part of the year, and to this fact may be attributed the large increase in the export of this article.

27. No change was made during the year in the system of registering the trade between Jalpaiguri and Bhutan, which continued to be carried on at the three stations of Buxa, Hantoopara, and Ambari. The details of the import and export trade are given in following statement:—

ARTICLES.	TOTAL IMPORTED THROUGH THE DIFFER- ENT REGISTERING STATIONS FROM—		Increase.	Decrease.	TOTAL EXPORTED THROUGH THE DIFFERENT REGIS- TERING STATIONS TO—		Increase.	Decrease.	Value of total imports.	Value of total exports.

The increase in the value of Bhutanese blankets imported, from Rs. 23,991 last year to Rs. 28,643 this year, is worthy of notice. The Deputy Commissioner observes that Bhutanese are showing more activity in bringing their wares for sale; at all fairs numbers of them are to be seen. The Bhutanese blankets owing to their thickness and durability are much appreciated by the poorer people.

28. The trade of the district of Darjeeling with these States continued to be registered in the registering stations. An additional station was opened from 4th November 1893 at Singla for registering traffic with Sikkim carried across the Raman river. The increase in the traffic passing through that part of Sikkim owing to the construction of a bridge over the Raman river warranted the establishment of this registering station as a tentative measure. The principal article of import from Tibet is wool, raw and manufactured, and those of export to Tibet are cotton piece-goods (European), silk piece-goods, tobacco, and wool (manufactured). The chief articles registered as imported from Sikkim during the past year were coal, Indian piece-goods, grain and pulses, other grains, hides, silk piece-goods, and wool (manufactured). The principal articles of export to Sikkim during 1893 were as follows:—European piece-goods, rice, salt, tobacco, and wool (manufactured).

(c) Trade with Tibet, Sikkim, and Nepal.

The principal commodities of traffic imported from Nepal were Indian cotton piece-goods, grain and pulses, hides, ghee, and wool (manufactured), and the chief items of export to Nepal during the past year were cotton piece-goods (European and Indian) and tobacco.

29. The following statement shows the details of import from and export to Tibet, Sikkim, and Nepal during 1893 as compared with 1892. There was a considerable increase in the trade with these States on the whole;—

ARTICLES.	TOTAL IMPORTED THROUGH THE DIFFERENT REGISTERING STATIONS FROM—										Increase.	Decrease.	TOTAL EXPORTED THROUGH THE DIFFERENT REGISTERING STATIONS TO—										Increase.	Decrease.
	Tibet.		Sikkim.		Nepal.		Total imports.		Tibet.				Sikkim.		Nepal.		Total exports.

## X.—ADMINISTRATIVE CHANGES.

30. The opening of five new offices for the registration of deeds is reported—one at Balurghat in the district of Dinajpur, one at Mithapukur, and one at Kishorganj in Rangpur, one at Sara, and one at Ullapara in Pabna. During the cold weather an experiment was made by deputing a judicial officer in Dinajpur and another in Jalpaiguri to live in camp with territorial jurisdiction over a defined tract of country. The system worked well for the

convenience of the localities, but involved in each case the addition of another man to the executive staff, which must have caused a loss in efficiency elsewhere. There is a disposition in more than one of the Government departments to get a special lien on the service of a Deputy Collector in each district as Excise Officer, Treasury Officer, Settlement Officer, and so forth, with the result that no one is available for general duty. This is the great bar to the extension of the territorial arrangement, which is to some extent in conflict with the departmental system. Under this head I may notice the growing difficulty felt by new arrivals in finding house accommodation at the different civil stations, and the consequent pressure for permission to occupy the circuit-house, to the inconvenience of inspecting officers, for whose use these buildings are maintained. Some officers, especially those on small pay, are inclined to avoid the expense of maintaining houses regularly all the year round; they engage for occupation by the month only, and are ready to abandon the arrangement during the camping season, or when they are about to take short leave. When they do so the houses pass to others, and they or their successors find no place in which to live. Under the circumstances Government is occasionally compelled to build houses for its officers. I am by no means sure that this will meet the difficulty, as, when one house is built in this way, there is a probability of another falling out of occupation.

XI.—STATISTICAL ENQUIRIES.

31. No special statistical enquiries of any importance were undertaken during the year.

32. The following statement shows the number of births and deaths registered in the several municipalities in the Division :—

NAMES OF DISTRICTS.	Name of Municipality.	Number of births registered—		Number of deaths registered—	
		1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6
Rajshahi ... {	Rampur Boalia ...	558	725	696	761
	Nator ...	225	239	308	449
Dinajpur ...	Dinajpur ...	214	214	396	382
Jalpaiguri ...	Jalpaiguri ...	141	261	203	246
Darjeeling ... {	Darjeeling ...	112	289	204	214
	Kurseong ...	75	93	191	141
Rangpur ...	Rangpur ...	226	240	372	424
Bogra ... {	Bogra ...	161	161	268	241
	Sherpur ...	80	82	139	178
Pabna ... {	Pabna ...	495	376	475	387
	Serajganj ...	692	637	459	652
Total ...		2,979	3,317	3,711	4,075

There has been an increase in the number of both births and deaths registered in Rampur Boalia, Nator, Jalpaiguri, Darjeeling, Rangpur, and Sherpur, and an increase of births only in Kurseong. The Dinajpur, Kurseong, and Bogra Municipalities show decrease in deaths, and Pabna and Serajganj show a decrease in births. Generally speaking, there has been an increase in both births and deaths. The increase may be attributed to better registration.

There were 77 prosecutions under Act IV (B.C.) of 1873 in the Darjeeling Municipality and 3 in Kurseong. Sixty-six persons (66 cases) were convicted, and Rs. 47-14 were realized as fines. There were also three prosecutions in Serajganj, and Rs. 4 were realized as fines.

The number of births registered in rural areas in the several districts of the Rajshahi Division during the year 1893-94 and the previous year is shown in the table given below:—

DISTRICTS.	Births registered in rural areas—		Population of rural areas.	Births registered per mille—		REMARKS.
	1892-93.	1893-94.		1892-93.	1893-94.	
1	2	3	4	5	6	7
Rajshahi ...	41,692	52,225	1,282,744	34·8	40·7	
Dinajpur ...	41,853	66,510	1,543,631	27·1	43·07	
Jalpaiguri ...	18,294	25,905	671,670	27·2	38·5	
Darjeeling ...	2,695	3,489	(b) 205,647	13·1	16·9	
Rangpur ...	52,930	81,002	2,041,248	25·9	39·6	
Bogra ...	(a) 25,472	(a) 28,789	(b) 806,973	31·6	35·6	
Pabna ...	(c) 45,445	(a) 53,207	(b) 1,322,639	34·4	41·22	
Total ...	231,380	311,127	7,874,552	29·4	33·7	

(a) These figures are for calendar year.

(b) Revised figures.

(c) The figures are for official year 1892-93.

Nowhere has the number of births registered reached what is supposed to be the normal rate, 47·8 per mille. In districts where population is stationary or decreasing, such as Rangpur, the death-rate must equal that of births, and if the former has been correctly calculated, it is obvious that our reporting in regard to deaths is generally incomplete.

Measures were taken during the year to ensure the registration of births and deaths occurring on tea estates in Jalpaiguri and Darjeeling, the reports of such events being transmitted in writing by the agency of chankidars. The Lieutenant-Governor drew special attention to the defective system previously in force in these districts and intimated an expectation that improvement would be effected. In Darjeeling the deaths reported were 40·41 per mille in 1892 and 40·28 in 1893. The proportion is large for a district which includes much healthy country and a population with an unusual number of immigrants in the prime of life. The figures do not suggest that there have occurred many omissions. The Deputy Commissioner observes:—

“The reports do not appear to be untrustworthy. The recent introduction of the Chankidari Act into the Terai has materially aided the work of collecting vital statistics. Under the orders of Government the Act is not applicable to tea gardens, and managers submit reports regularly. The police have devoted attention to the subject and have visited the registering circles. In the Kalimpong subdivision the khas mahal mandals continue to report vital statistics. The district is now provided as far as can be expected with reporting agencies for recording complete statistics.”

As to Jalpaiguri the Civil Surgeon writes:—

“During the year 1893-94, 26,166 cases of births were recorded in district against 19,434 in 1892-93, or a ratio per mille of 38·40 against 29·40 of the previous year. The number of deaths was 22,128 against 20,868 of the previous year, giving a ratio of 32·48 against 30·63 per thousand of population. The ratio of births as compared with that of deaths was 38·40 against 32·48 of 1893-94, and 29·40 against 30·68 of 1892-93. The year under report is the first year in which the ratio of births exceeds that of deaths (by 9 per thousand), which shows that much improvement has been made towards the registration of vital statistics, because from the census of 1881 the population was 582,390, and in 1891 it was 681,349, proving that the population is increasing, whereas up to the present year the number of deaths registered has been in excess of the number of births. The same will be seen as regards the registration in the municipality and in the rural areas as appears in the statement attached. The new scheme has also worked satisfactorily as regards the tea gardens, though,

as this has only been in force for one year, there are no figures for comparison with previous years. The reports have been regularly and punctually received from the tea gardens, and from enquiries I have made from the managers of several gardens, they have told me that they personally supervise the sending of the reports, and that they may be relied upon as correct. The registration has been checked by the vaccination inspecting staff at the various thanas with the following results which have been reported to the Deputy Commissioner from time to time when any discrepancies have been detected, and in those cases where the chaukidars have been found at fault they have been dealt with departmentally by the District Superintendent of Police."

It will be seen from the above that the measures adopted to improve this branch of the district administration have been attended with marked success. Much credit is due to the local officers, and the planters have carried out their agreement in a manner very satisfactory.

33. A model farm was started in November 1892 at Mynaguri in the

Model farms and gardens.

Duars for the experimental cultivation of crops.

During the year under report a sum of Rs. 502-9 was spent on this farm, and it is estimated that an income of Rs. 214 will be obtained from the sale of the produce. The sericulture in Kalimpong promises to be successful.

## XII.—CIVIL JUSTICE.

34. There were altogether 37½ judicial officers in the Division, namely, 4 District Judges, 6½ Subordinate Judges and Small Cause Court Judges, and 27 Munsifs. These officers among them disposed of 58,495 suits and examined 78,481 witnesses, i.e., disposed of 1,570·3 suits and examined 2,106·8 witnesses per officer.

The four District Judges disposed of altogether 43 title suits and 2 money suits, and examined 656 witnesses as shown below:—

NAMES OF OFFICERS.	SUITS DISPOSED OF—		Witnesses examined.	Ratio per cent. of witnesses examined, detained over two days.
	Title.	Money		
1	2	3	4	5
B. C. Seal, Esq. ...	9	...	119	19·3
D. Cameron, Esq. ...	10	...	357	4·2
A. W. Mackie, Esq. ...	10	2	128	3·9
J. F. Bradbury, Esq. ...	14	...	52	...
Total ...	43	2	656	6·5

The 6½ Subordinate Judges and Small Cause Court Judges disposed of altogether 5,316 suits and examined 8,360 witnesses, 3·6 per cent. of whom only were detained over two days. Each officer thus disposed of 850·5 suits and examined 1,337·6 witnesses. The number of cases disposed of and that of witnesses examined by each officer on each working day of the year were therefore 3·6 and 5·7 respectively. Of the 5,316 suits disposed of by this class of officers, 922 were contested. Each officer thus disposed of 147·5 contested suits in the year, or 6·3 case on each working day.

The District Judges and Subordinate Judges and Small Cause Court Judges together disposed of 5,361 suits and examined 9,016 witnesses against 5,858 suits and 8,771 witnesses in the preceding year, showing a decrease of 497 suits disposed of and increase of 245 witnesses examined. The ratio of witnesses detained over two days per cent. of witnesses examined was 7·1 against 13·7,

and the ratio of cases pending per cent. of cases disposed of was 93·8 against 82·6 in the preceding year.

The details of the work done by the District Judges and Subordinate Judges and Small Cause Court Judges are given in Appendix VI.

There were 27 Munsifs in the Division, the number having been the same in the preceding year. Those officers altogether disposed of 35,477 ordinary cases and 17,657 Small Cause Court cases—in all 53,134 against 34,212 ordinary cases and 16,668 Small Cause Court cases—in all 50,880 cases in the preceding year. Of the cases disposed of, 9,069 were contested against 8,797, and 44,065 cases were otherwise disposed of against 42,083 in the preceding year. Thus the same number of Munsifs disposed of 1,265 ordinary cases and 909 Small Cause Court cases—in all 2,254 cases more in 1893 than in 1892. Of these 2,254 cases, 272 were contested, and the remainder, viz. 1,982, were otherwise disposed of. The number of cases disposed of per Munsif was therefore 83·5 more in 1893 than in 1892, the figures of the two years being 1,967·9 and 1,884·4 respectively. The ratio per cent. of cases pending on 31st December 1893 to total disposed of was, however, slightly more than on 31st December 1892, viz. 14·8 against 13·3.

The number of witnesses examined was 69,465 against 69,104, showing an increase of 361 men against the increase of 2,254 cases. The ratio per cent. of witnesses detained over two days to total number examined was 10·4 against 14·8.

The number of cases disposed of by each Munsif was 1,967·9. The number of witnesses examined by each Munsif appears to be 2,572·7. Thus each Munsif disposed of 8·5 cases and examined 11·1 witnesses on each working day of the year. The number of witnesses examined in each case appears to have been 1·3. There were 9,069 contested cases during the year. Thus each Munsif disposed of 335·8 contested cases, i.e., 1·4 contested cases on each working day of the year.

The details of the work done by each Munsif are given in Appendix VII.

35. The following statement compares the work of the year 1893 with that of 1892:—

DISTRICTS.	Year.	Number of officers in the district.	NUMBER OF CASES DISPOSED OF—			Increase.	Decrease.	CASES IN COLUMNS 4 AND 5 HOW DISPOSED OF.		CLASSES OF CASES IN COLUMNS 4 AND 5.			Number of witnesses examined.	Ratio per cent. of witnesses detained over two days to total number examined.	Ratio per cent. of ordinary and small cause cases pending on 31st December to total disposed of.	Number of cases disposed per Munsif.
			Ordinary.	Small Cause Court.	Total.			Contested.	Otherwise disposed of.	Money.	Rent.	Title.

	1892	27	34,212	16,668	50,880	2,254	...	8,797	42,083	29,440	19,135	2,305	69,104	14·8	13·3	1,884·4

Except in Rangpur, the ratio per cent. of witnesses detained over two days to total number examined was much lower everywhere compared with 1892. In Rangpur the ratio increased from 9·7 to 13·2. The lowest ratio was in Darjeeling (3·9) and highest in Jalpaiguri (23·8).

The number of cases disposed of per Munsif was highest in Bogra (2,891·5), Pabna occupying the second place. But “in Bogra” the District Judge, Mr. Bradbury, writes: “Litigation is comparatively simple;” “it is otherwise with Pabna, where litigation is of a totally different character, and trials,

notably those of suits of the class of title and other suits, are infinitely more protracted than they are in Bogra." Barring Darjeeling, Jalpaiguri occupies the last place.

For the first time in 1893 suits on mortgages were, under the High Court's circular No. 17, dated 6th September 1892, classed as title and other suits instead of suits for money; hence the figures representing cases on money and title disposed of during 1893 bear no fair comparison with the corresponding figures of 1892. Rent suits in the two non-regulation districts are tried by Deputy Collectors, and are shown in a separate Appendix (VIII) which will be reviewed later on. In the five regulation districts rent suits decreased in Dinajpur, and increased more or less in the remaining four districts.

Turning to columns 4 and 5 it is observed that the number of Small Cause Court cases decreased in Rajshahi and Rangpur, and that of ordinary cases decreased in Jalpaiguri and Darjeeling. With these exceptions, cases increased in every district, resulting in a net decrease of 64 cases in Rajshahi and increase in the other districts, giving a net increase of 2,254 cases in the Division. The increase in Pabna was the largest, Bogra taking the second place.

The increase in the number of suits in Dinajpur is chiefly owing to the increase in the number of suits instituted at Raiganj. The District Judge, Mr. Cameron, considers this to be "mainly due to the growing commercial importance of Raiganj and other villages in the vicinity, and to the high prices of paddy and other produce prevailing since the last scarcity."

The increase in Jalpaiguri was almost entirely in Small Cause Court suits.

There was a large increase in rent suits in Rangpur. Part of this increase is put down to the bad feelings existing between two landlords and their tenants, and to disputes between the sharers in a zamindari and the Maharani Swarnamai.

Regarding the increase in Bogra and Pabna, Mr. Bradbury remarks thus:—

"Litigation continues to increase in the districts of Pabna and Bogra. The increment of 1892 has not been matched. That was hardly to be anticipated, but the excess over 1892 attained the respectable figure of 1,097, and is attributable to the growing indebtedness of the mass of the population. 1893 proved a bad year for all classes. For years the crops have been at best indifferent, but the beginning of 1893 excited hopes of a revival of prosperity. The winter and spring crops were good in both districts and prices fair, but there the good fortune ended.

"Taking the Judgeship as a whole, there was no decline in any class of litigation. Suits for money and moveables, despite the transfer of the 524 mortgage suits to another head, rose from 11,355 to 11,490, and rent suits from 3,728 to 4,114."

The Munsif of Jalpaiguri remarks as follows regarding the nature of suits between landlords and tenants and the propriety of introducing the Bengal Tenancy Act into the district of Jalpaiguri:—

"The suits between landlord and tenant instituted in this Court are title suits which generally fall under the one or other of the following three heads:—

- (1) Suits for ejectment.
- (2) Suits by tenant against landlord to contest the order of the Revenue Court for ejectment on establishment of the tenant's right of occupancy.
- (3) Suits by tenants to set aside the sale of their jot in execution of rent decree of the Revenue Court on the ground of fraud.

"Frequent disputes arise in this district between the jotdar landlord and his tenant in consequence of the unsettled state of the rent law as to which of them would be the occupancy *raiya*, and the *raiya*s or the actual cultivators mostly suffer in such disputes. The last paragraph of my letter No. 4, dated the 10th instant, alluded to suits which fall under the classes Nos. 1 and 2 noticed above wherein the right of occupancy is in dispute. During the short period of two months from the date of my joining my post at this place on 11th November last and the date of my submitting the annual

statements, no less than 14 suits for ejectment came up before me for trial. On examining the register of suits I found that altogether 22 suits of this nature were instituted during the past year. The plaintiffs in such suits are jotdars, and the defendants are cultivators holding land under them. The peculiarity of these suits is that the jotdar landlord and his undertenant, who is the actual cultivator, both claim the right of occupancy, and the point at issue in such cases is which party has the right of occupancy. Such disputes are apparently due to the unsettled state of rent law, for Act X of 1859 is in force in this particular portion of this district on the south (west?) of Tista which was formerly included within the district of Rangpur, and it is a recognised fact that Act X of 1859 placed the right of occupancy on a precarious footing. To remedy that defect the Bengal Tenancy Act, in consideration of the practical difficulty on the part of *raiyats* to prove their occupancy right, created a presumption in favour of the raiyat, and threw the onus on the landlord of disproving the raiyat's claim to the right of occupancy. Again, there is nothing in Act X of 1859 to prevent the jotdar from calling himself a tenure-holder or an occupancy raiyat just as it suits his purpose. He will set up all the rights of a permanent tenure-holder when there is dispute between him and the superior landlord who is the proprietor of the estate; but when the jotdar seeks to eject his under-tenant, the rights of the latter are ignored, for the jotdar himself claims the right of occupancy. The Bengal Tenancy Act has made an improvement of the law on this point by enacting that a tenant holding over 100 bighas of land is to be considered as a tenure-holder. Thus the right of occupancy in such cases is given to his under-tenants."

The result of appeals is shown in Appendix IX. The average ratio per cent. of number of appeals confirmed to total disposed of was 59·8 against 56·9. It was 65·2 in Pabna and 48·1 in Jalpaiguri.

The rent cases disposed of by Deputy Commissioners and Deputy Collectors in the two non-regulation districts are shown in Appendix VIII. Three and-a-half officers (to adopt the usual mode of reckoning) in Jalpaiguri disposed of 2,965 cases and examined 4,825 witnesses. The ratio per cent. of witnesses detained more than two days to total examined was only 6. Babu Harendra Kumar Ghose disposed of the largest number of cases and examined the largest number of witnesses. Babu Shyama Pada Chaudhri disposed of 758 cases and examined 1,322 witnesses, none of whom were detained over two days. The number of cases disposed of per officer was 847·1.

In Darjeeling one and-a-half officers disposed of 22 cases and examined 69 witnesses, of whom 36·2 per cent. were detained more than two days. One officer examined only five witnesses, all of whom were detained over two days. When inspecting the Darjeeling office, I expressed dissatisfaction with the delay which had occurred during a part of the year in dealing with all civil court business. This is attributed to paucity of officers, but the explanation does not appear to me sufficient. With reference to its smaller population and the simpler character of the business done, Darjeeling seems to me to have been better supplied with officers than any other district of this Division.

The civil work disposed of by the Deputy Commissioner and Deputy Collectors of Jalpaiguri under the Bhutan Duars Act XVI of 1869 is shown in Appendix VIIIA. Three and three-fourth officers disposed of 228 cases and examined 354 witnesses, 4·5 per cent. of whom were detained over two days.

Under the power vested in the Deputy Commissioner by Government orders Nos. 3639J. and 887J.D., dated 22nd August and 17th October 1892, respectively, the Deputy Commissioner has empowered the Deputy Collectors to receive and take up without reference all cases under Acts X of 1859 and XVI of 1869 arising within the territorial limits of the thanas assigned to each of them. Babu Fatik Chandra Das, Sub-Deputy Collector in charge of the Alipur tahsil, has also been empowered to try rent suits in the Alipur subdivision as may be made over to him by the Subdivisional Officer of Alipur for trial under Government notification dated 12th June 1893.

Appendices IXA and IXB show appeals under Acts X of 1859 and XVI of 1869. The ratio per cent. of number of appeals confirmed to total disposed of was 67·7 and 58·5 respectively.

XIII.—CRIME.

36. The following statement shows the crime, cognizable and non-cognizable, reported in each district during the year 1893, as compared with the year 1892 :—

DISTRICTS.	Cognizable crime.		Increase.	Decrease.	Non-cognizable crime.		Increase.	Decrease.	Total crime.	
	1892.	1893.			1892.	1893.			1892.	1893.

Total ... ..	...	14,277	14,096	10,304	11,882

Decrease ... 181 | Increase ... 1,578

38. The following statement shows the proportion of crime to population in the several districts :—

DISTRICTS.	Total cognizable cases.	Population to each cognizable case.	Total non-cognizable cases.	Population to each non-cognizable case.	Total of both cognizable and non-cognizable cases.	Population to each case.	REMARKS.
1	2	3	4	5	6	7	8
Rajshahi ... ..	2,465	528	1,799	730	4,264	306	
Dinajpur ... ..	2,412	645	1,745	896	4,157	374	
Jalpaiguri ... ..	1,451	469	933	730	2,384	285	
Darjeeling ... ..	1,570	141	964	231	2,534	88	
Rangpur ... ..	2,968	774	3,085	609	5,753	359	
Hogra ... ..	1,463	558	1,368	517	2,832	288	
Pabna ... ..	1,995	682	1,988	645	3,983	343	
Divisional Total ...	14,045	570	11,882	674	25,927	309	

The district of Darjeeling shows the largest proportion of crime to population. The offences are, however, of a petty character, and their unusual

number is due to the conditions of life at a hill station which are very different from those which prevail in Bengal generally.

In the year 1892 there was an increase in cognizable and a decrease in non-cognizable crime. This was attributed by me to the high prices and agricultural depression. In the year 1893 the variations have been in the opposite direction owing to better harvests. Other causes were at work, but they were not of general operations and seem to have counteracted each other. The increase in Bogra is attributable to the change made in the arrangements for receiving complaints made to the police. Five new reporting centres were opened during the year, thus affording increased facilities for complaint.

There was a slight decrease in the number of cognizable offences against public tranquillity, class I. This Division has not been troubled appreciably by the knife-killing disturbances so prevalent in other parts of the province. A more satisfactory improvement is indicated under class II in regard to serious crime against the person. I am unable to assign any special cause for this.

There was a marked decrease under classes III and V, offences against property, the figures under these heads being 9,441 against 10,515. I attribute it mainly to the cessation of the distress which aggravated crime of this kind in 1892. It is mainly noticeable in the districts which then suffered, particularly in Dinajpur and Rangpur.

The only other marked variation is in class VI, and is due to greater activity in prosecuting for nuisances and other offences of a minor character.

The total number of non-cognizable offences reported during 1893 was 11,882 against 10,304 in 1892, showing an increase of 1,578 cases. This increase occurred chiefly under classes IV and VI. I have always found that such changes are most numerous in years of plenty. It is only then that the poorer classes have the means of seeking legal redress for minor injuries.

#### XIV.—POLICE.

39. I do not wish to offer any comment on the figures given in Appendix X to show the working of the police; they present no unusual features, and their general purport is dealt with in my remarks on the criminal returns.

The following statement shows the number of serious charges instituted against police officers during 1893:—

DISTRICTS.	TORTURE CASES.		EXTORTION CASES.		EMBEZZLEMENT CASES.		TOTAL.		REMARKS.
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	
1	2	3	4	5	6	7	8	9	10
Rajshahi ... ..	3	2	...	2	...	...	3	4	* Pending.
Dinajpur ... ..	7	2	35	20	...	...	42	22	
Jalpaiguri ... ..	2	...	...	...	1	...	3	...	
Darjeeling ... ..	...	...	...	...	...	...	...	...	
Rangpur ... ..	...	1	...	...	...	...	1	...	
Bogra ... ..	...	1*	9	7	...	...	9	8	
Panna ... ..	...	...	3	...	...	...	3	...	
Total ... ..	12	5	48	29	1	...	61	34	

The charges of torture as to which enquiry has been completed proved to be false. In Dinajpur the complainants were prosecuted, and in one instance convicted.

Of the Rajshahi extortion cases, one was declared false. In the other it was shown that a constable of Naugaon police-station, while on beat duty in a village, wrongfully confined a man and extorted Rs. 5 in collusion with the pound-keeper of the village, on the plea that the accused illegally released cattle which he had been taking to the pound. The constable was convicted and sentenced to three months' imprisonment. I noticed last year that the growing custom of deputing constables to isolated places in order to prevent crime led to great abuse.

In Dinajpur there were 20 cases of extortion, against 35 in the preceding year. Eight cases were declared false, nine true, and three were pending at the close

of the year. The district of Dinajpur requires the closest watching in this respect. Nowhere else are there so many true charges against the police to be prosecuted or so many false charges to be exposed.

In regard to Bogra I had to complain, when I made my inspection, that the extortion cases were not specially reported, and that the principle requiring the District Superintendent of Police to enquire at once as to serious charges against the police was not observed. Neglect of rule in this respect had much to do with leading to the frequent charges which characterise the returns as to the Dinajpur police. In the latter district there has been a reform in procedure, followed by a substantial decrease in the number of charges.

The Magistrate of Dinajpur observes that the whole tone of the force has improved in his district. The Magistrate of Rangpur and the Deputy Commissioner of Jalpaiguri also express themselves satisfied. I agree in thinking that these districts, and also Darjeeling, have done comparatively well. With the work in Pabna and Rajshahi I am less satisfied, while Bogra has, in my opinion, done badly during the year. I cannot, however, fail to realise that the general standard of police efficiency in the country is low, and to feel concerned at the slow rate of improvement. In all other departments of Government the work done is at least honest, the suspicion of deliberate unfairness being quite exceptional. In dealing with the police, on the other hand, the Courts have to be constantly on their guard against actual corruption. And looking back over the long series of years during which I have been connected with this Division, I recognise in other branches of the administration a progress which in the case of the Police is not discernible. The officers are drawn from the section of society which furnishes Government with faithful servants in every other department, and I see no prospect of improvement in moral tone from any change which may be made in that direction. Bad traditions, not only in the force, but prevalent also among the public as regards, what is to be expected from the force, account for much of what is objectionable, exceptional temptation for more, and these are conditions not easily altered. But I think that much good may be done by making the treatment of police officers in regard to punishments and promotion accord with that prevalent in other departments. It is a pain to me to inspect the two conduct registers—one for the office, one kept in a manner more confidential—which are maintained at every district head-quarters. The record of punishments inflicted from year to year on an officer who has risen by slow steps to the top of his service and occupies a position of great trust, often reads like the life history of some notorious criminal. The promotions also have not the regularity which elsewhere gives an assured prospect to public servants. Chance and favour seem to count for too much, steady good service for too little in the service. I am aware that the severe punishments and irregular promotions to which I object are most frequently due to the zeal of District Superintendents to produce good results; but I think that in this respect there is too much zeal and too little justice. In my opinion District Magistrates should see to this by taking a much more active part in the internal administration of the police, at least until they are satisfied that promotions, transfers, and above all punishments are made on a system of which they approve. At present they do little more than hear appeals—a procedure which can only check gross irregularities.

40. In Jalpaiguri the Act was introduced in 19 villages within the Nagrakata outpost. In April 1893 a deputation of the tea planters waited upon His Honour the Lieutenant-Governor at Jalpaiguri, and it was arranged that managers of tea gardens should appoint their own chaukidars and furnish statistics of deaths, &c. The arrangement has been brought into force since August last, and death returns are submitted by the planters regularly.

Panchayats and chaukidars were appointed for the working of the Act in the Darjeeling Terai. The Deputy Commissioner reports that an opinion on the success of the system would be premature. A special force of "Village Police" remunerated by the grant of land is still maintained in the Terai, but it is proposed to utilise them more directly as patrols on main roads, and to bring them into more close connection with the regular police.

I paid considerable attention during my tour to the working of the system in the regulation districts. In my opinion the existing tendency to centralise the chaukidari force has not been judiciously guided. In pursuit of this ideal the advantage of village control through headmen selected for the purpose has been very generally overlooked. In Bogra the term of office prescribed by law for panchayats expired some years ago, and no new appointments have since been made. In Rajshahi the system of beats composed of many chaukidars acting under police supervision has been established so extensively as to supersede to a great extent the village watch, directed by the panchayat, which is the only arrangement recognised by the Act. Many District Superintendents of Police constituted district funds, supplied by deductions from the chaukidars' pay on the contributions of panchayats, from which uniforms were purchased and some other expenses defrayed. The statutory right of panchayats to nominate chaukidars is not always respected, the police interfering too much in the selection. These defects are of some standing, and have in part been removed during the year on my suggestion; but the desire to ignore the panchayats and work solely through the chaukidars, who can be brought by weekly parades under the immediate orders of the local policeman, remains as strong as ever. My own experience is that panchayats selected with care can be so managed as to constitute a very efficient agency.

## XV.—CRIMINAL JUSTICE.

41. The following statement shows the criminal work disposed of by the Stipendiary and Honorary Magistrates in the several districts of the Division during 1893:—

DISTRICTS.	Number of Stipendiary Magistrates.	Number of cases disposed of.	Number pending at close of year.	Number of persons disposed of.	Number convicted.	Number acquitted.	Number pending at close of year.	Number of witnesses examined.	Number of those in whom it was decided more than two days.	Ratio per cent. of witnesses detained over two days to total number examined.	Number of appeals decided by Magistrate or District Judge.	Number of decisions confirmed in appeal.	Ratio per cent. of decisions confirmed in appeal to total appealed. It will be observed that each Stipendiary Magistrate heard on the average three witnesses each working day, and disposed of the business of one person. The criminal work does not appear to be heavy judged by the test of figures, and I am much surprised by the allegations made as to the impossibility of dealing with it without resorting either to frequent postponements or protracting the sitting of the courts until long after darkness has set in. I went closely into the business of one Deputy Magistrate, a Subdivisional Officer, whose diary showed that he remained in office until hours to which his Sessions Judge

objected as unduly late. I found that he had very little to do in any department, and that he was unable to explain how the greater part of his time was employed. In some instances Deputy Magistrates seem to find their offices by no means the least pleasant place in which to sit out the afternoon, and there is a general feeling that a diary showing long hours of attendance is a certificate of diligence which may be useful at need.

The average number of cases disposed of per officer was largest in Pabna and smallest in Jalpaiguri, where Act X cases are tried by Deputy Collectors, the figures being 263·3 and 134·1 respectively. The ratio per cent. of witnesses detained over two days to the total number examined was 5·3 against 3·07 last year. The general result is unfavourably affected by the districts of Bogra and Darjeeling. In the former I found on inspection that the District Magistrate was inefficient, owing to the state of his health, and he had to take sick leave; while at Darjeeling I had to find serious fault with the arrangements for hearing cases.

The average number of witnesses examined per case disposed of was 3·9. The largest number was in Bogra and the smallest in Darjeeling, the figures being 5·9 and 2·6 respectively. In Bogra I think that the courts were somewhat lax in exercising control over the summoning of witnesses whose evidence is not material.

The ratio per cent. of decisions confirmed in appeal to total appealed was 74·2 against 73·7 in the preceding year. The best results were obtained in Pabna, 84·1 per cent., the worst in Rajshahi and Bogra.

The 36½ Benches and Honorary Magistrates sitting singly disposed of 2,763 cases and 3,410 persons against 3,333 cases and 3,942 persons, and examined 7,302 witnesses against 7,747. The average number of cases disposed of per Bench and Honorary Magistrates sitting singly was 75·1 against 100·2. It was highest in Bogra and lowest in Dinajpur, the figures being 149·5 and 24·5 respectively.

The percentage of persons convicted to persons disposed of was 58·6 against 64·3.

The ratio per cent. of witnesses detained over two days to total number examined was 9·09 against 4·0 in the preceding year. The ratio was highest in Rangpur and Pabna and nil in Jalpaiguri.

The average number of witnesses examined per case disposed of was 2·6 against 2·3; the largest number was in Rangpur and smallest in Darjeeling, the figures being 4·6 and 1·4 respectively.

The ratio per cent. of decisions confirmed on appeal to total appealed was 65·04 against 72·4 in the preceding year. The best results were obtained in Rangpur and the worst in Rajshahi and Pabna, the figures being 71·6 and 50 respectively. I may observe that at Serajganj the Subdivisional Officer disposed of more cases than any other Magistrate, and that the results from that subdivision proved the best on appeal.

In the district of Dinajpur the experiment was tried of creating a territorial jurisdiction for a Deputy Magistrate at head-quarters without actually opening a subdivision. Certain thanas are committed to his charge, he hears the cases that come from these, and camps through them in the cold weather. I think that the arrangement is a good one. It was my practice as District Magistrate to distribute cases in this way on the territorial system, and I have always found it produced better results than the daily division of complaints among the courts at the discretion of the senior officer. The latter is a procedure generally liked by the gentleman who distributes the cases, who is not necessarily the District Magistrate. I never knew it to command the approval of any one else—certainly not that of the junior Magistrates, the Pleaders, or the public. The tour of the Dinajpur Magistrate through his territorial jurisdiction was of much use, but such a proceeding is seldom practicable, owing to the paucity of officers.

A similar territorial subdivision was opened in the district of Jalpaiguri in that part of the district which is the chief seat of planting operations. Mr. Newbould was appointed to the office, which he held during the cold season. The result of his work has been specially reported to Government. It was contemplated to station a European officer of the standing of a Joint-Magistrate at Jalpaiguri permanently to deal with the portion of the district occupied by

tea planters, but the arrangement was interrupted in April, because a suitable officer was not available to replace Mr. Newbould. I hope that the plan may be resumed next cold season, or if possible at an earlier date.

The Honorary Magistrates disposed of 20·3 per cent. of the number of cases in the Division against 36·5 per cent. in the preceding year. These cases were generally of simple character, and probably do not represent more than five per cent. of the work. Messrs. Warnicke, Sutherland, and Captain Power, however, heard several important cases at Darjeeling. As in 1892, the Honorary Magistrates of Darjeeling and Rangpur disposed of the largest number of cases, the figures being 980 and 722 respectively. The Honorary Magistrates of Dinajpur heard 49 cases only.

From Appendix XII, which shows details of criminal work disposed of by Honorary Magistrates, it appears that Babu Gopal Chandra Chatterji, an Honorary Magistrate of Nilphamari, who sits singly, and the Nilphamari Bench detained 50 and 39 per cent. and the Serajganj Independent Bench detained 18·7 per cent. of witnesses examined by them over two days.

Raja Janaki Ballab Sen, an Honorary Magistrate of Rangpur, who sits singly, disposed of 30 cases altogether, in which he examined 11·5 witnesses per case, while Captain Power and the Bench exercising third class powers, Darjeeling, disposed of 210 and 216 cases respectively and examined 1·2 witnesses per case only.

The results of appeals were best in the case of the third class Bench of Darjeeling, Babu Annada Prosad Sen, an Honorary Magistrate of Rangpur, who sits singly, and the Serajganj Independent Bench, and the worst result in the case of Chandanbari Bench.

The total number of persons dealt with by the Benches of Dinajpur was 65, of whom 54 were acquitted and 11 convicted.

42. The remands in A form cases in the several districts are shown in the following statement:—

DISTRICTS.	Class of Magistrate.	Number of A cases sent up during the year, including those pending from preceding year.	Number disposed of on first day.	NUMBER POSTPONED -							Number pending at close of year.	Ratio per cent. of A cases remanded six times and more to A cases disposed of.

The proportion of these cases adjourned more than six times is large, 3.4 per cent. of the whole, against 1.9 per cent. last year, and 6.5 per cent. in 1891. There was at one time a tendency to refuse adjournments necessary for proving previous convictions through dread of an entry in column 11 of this return. In so far as the increase in the number of adjournments is due to the disappearance of this apprehension, it is to be welcomed. I have no fault to find with the other five districts of the division in regard to the adjournment of police cases, but in Bogra certainly, and in Darjeeling probably, the delay was the result of inefficiency. More than half the cases adjourned more than six times occurred in Bogra, a small district where the work could have been easily kept in hand.

43. In Jalpaiguri there were five cases during the year in which European British subjects were involved. Three of these were charges of criminal force and assault and two of wrongful restraint. Two persons were convicted—one of wrongful restraint, the other of assault.

The following table shows the details of the trial of European British subjects during the year in Darjeeling:—

DESCRIPTION OF OFFENCE.	TOTAL NUMBER BROUGHT TO TRIAL.		TOTAL DISPOSED OF.		PENDING.		PERSONS HOW DISPOSED OF.				
	Cases.	Persons.	Cases.	Persons.	Cases.	Persons.	Convicted.	Acquitted or discharged.	Committed.	Died, escaped or transferred.	Total.
1	2	3	4	5	6	7	8	9	10	11	12
(1) Contempt of the lawful authority of public servants (Chapter X).	2	2	2	2	...	...	1	1	...	...	2

Bad livelihood cases.

44. The subjoined table shows the bad livelihood cases during the year 1893:—

DISTRICTS.	Number of cases instituted.	Number of cases in which conviction followed.	Number of cases in which acquittal followed.	Longest period from date on which process issued to conclusion of case.	REMARKS.
1	2	3	4	5	6
Rajshahi ...	20	18	3	55	* 3 trans-ferred to Jalpaiguri.
Dinajpur ...	23	22	1	29	
Jalpaiguri ...	13	4	2	195	
Darjeeling ...	21*	14	4	200	
Rangpur ...	34	22	12	50	
Bogra ...	37	29	7	280	
Pabna ...	112	82	30	211	
Total for 1893 ...	260	191	58	...	
Total for 1892 ...	253	169	90	...	

From the proportion of acquittals it would appear that demands for security were made somewhat rashly in Rangpur. In Pabna this provision of the law was resorted to freely.

Result of Sessions trials.

45. The following statement shows the results of the Sessions trials in the several districts:—

DISTRICTS.	Number of cases committed, but pending at commencement of year.	Number committed during the year.	Total number for disposal.	Number disposed of.	Number in which conviction obtained.	Number of cases in which sentence was modified or reversed by High Court.	Number of cases acquitted by Sessions Judge.	Number of cases otherwise disposed of.	Percentage of cases resulting in conviction to total cases disposed of.	REMARKS.
1	2	3	4	5	6	7	8	9	10	11
Rajshahi ...	5	31	36	23	16	1	7	...	69.5	
Dinajpur ...	7	13	20	19	14	...	6	...	73.6	
Jalpaiguri ...	...	10	10	10	9	...	1	...	90	
Darjeeling ...	2	14	16	15	11	3	4	...	73.3	
Rangpur ...	1	50	51	41	29	3	12	...	70.7	
Bogra ...	...	24	24	24	18	...	6	...	75	
Pabna ...	4	23	27	23	18	...	6	...	78.2	
Total for the Division for 1893 ...	19	165	184	155	115	7	40	...	74.1	
Total for the Division for 1892 ...	36	189	225	205	129	29	74	2	62.9	

The result is satisfactory, as it does not indicate that commitments were made rashly in any district.

46. Appendix XV shows the condition of the Fine Register in the several districts during 1893. The year commenced with a balance of Rs. 33,274; the amount

imposed during the year was Rs. 78,672, making a total of Rs. 1,11,946, of which Rs. 67,622 were collected and Rs. 9,934 remitted, leaving a balance of Rs. 34,390 at the close of the year. The District Officer of Darjeeling observes that "sufficient thought has not been given by courts to the capacity of the accused to pay. I have had occasion to notice several cases in which owing to his neglect the result of the order of the courts has been to swell the arrear list without any advantage." Mr. Harris writes:—"I have frequently had to point out to Subordinate Magistrates the necessity of exercising discretion in the imposition of fines. There is a tendency to impose fines far in excess of what an offender can pay, especially in opium and excise cases." In these remarks

I concur. It is by no means satisfactory to find that of the fines imposed about one-eighth have to be written off as irrecoverable. The tendency to press for heavy fines in excise cases is connected with the fact that officials receive a portion of the proceeds, and I found on inspection that it led to abuses in the subdivision of Kurseong.

47. The following abstract statement shows the attendance of the Honorary Magistrates. The details are given in Appendix XVI:—

DISTRICTS.	Subdivision.	Number of times the Honorary Magistrates were asked to attend.	Number of times the Honorary Magistrates actually attended.	NUMBER OF TIMES THE HONORARY MAGISTRATES WERE ABSENT—			REMARKS.
				With leave.	Without leave.	Total.	
1	2	3	4	5	6	7	8
Rajshahi ...	Sadar sub-division ...	163	105	15	43	58	
	Nator ...	329	172	1	156	157

	Total ...	1,020	823	85	179	264	
Bogra ...	Sadar sub-division ...	343	707	8	62	70	
	Total ...	343	707	8	62	70	
Pabna ...	Sadar sub-division ...	350	312	11	27	38	
	Seraiganj ...	519	245	16	258	274	
	Total ...	869	557	27	285	312	
	Divisional Total, 1893	4,350	3,603	324	924	1,248	
	Ditto, 1892	4,147	3,650	434	843	1,277	

The result indicated does not greatly differ from that attained last year. At Kurigram only was the attendance bad. It is stated that there is a difficulty in finding persons suitable for strengthening that Bench.

## XVI.—REGISTRATION OF DEEDS.

48. The number of deeds registered during the year, as shown in Appendix XVII, was 98,742, against 87,034 in the previous year, showing an increase of 11,708. The increase is due to several causes, the general development of business, the growing popularity of the department, and the opening of new registration offices.

All the sub-registry offices in this Division are reported to have worked well, except one, as to the efficiency of which enquiries are now pending.

## XVII.—CONDITION OF THE DIVISION AS REGARDS THE LAND AND THE LAND REVENUE ADMINISTRATION.

49. Appendix XVIII shows district by district the demand, collections and balances of the land revenue and cesses. The regular annual income on account of land revenue (current demand) is Rs. 51,58,665, and there was at the commencement of the year an arrear of Rs. 1,10,340; the collections amounted to Rs. 51,78,388, and the arrears were reduced to Rs. 87,168. The year was therefore, in regard to income, better than the average of years can possibly be; it was one of progress, in which arrears were not added to, but diminished. The balances on temporarily-settled estates were reduced from Rs. 3,954 to Rs. 1,106; on estates directly held by Government from Rs. 84,864 to Rs. 55,598. On the other hand there was a falling off in the collections in regard to permanently-settled estates: this is a matter of less ultimate importance, as revenue of that class is always realised in the end, and generally with very brief delay. Looking at the different districts, I find that ground was lost in Darjeeling and Bogra, and gained in each of the other five. It will be shown afterwards that the loss is connected with a peculiarity in our account system. The percentage of collections was 100·3 per cent. on current demand and 98·2 per cent. on total demand. I do not, however, accept the demand figures as quite fair to the Collectors, for they include sums not really due. Thus the rent of certain land in the Terai appears as a demand and again as a remission, the fact being that the fields to which it relates have been granted for the support of a local police force. Allowances made to the heirs of the late Chebu Lama have been similarly treated and other items of this kind. In my opinion nothing should be shown against the Collector as a demand unless it was due, so that he could collect it; it is only when accounts are made on this principle that we can state without qualification that the collections amounted to such a percentage of the demand. The road cess collections were deficient, and the outstanding balances increased in Jalpaiguri, Rangpur, Bogra, and Pabna.

The difference between the amounts shown in Appendix XVIII of the report for 1892-93 as balance of land revenue and the amounts now shown as the arrear demand is due to readjustment of accounts, settlements with retrospective effect, and the like.

The increase in the current demand is chiefly on account of the resettlement of the Western Duars.

50. The following table shows the percentage of current collection on current demand and the percentage of arrear collection on arrear demand under each class in each district:—

DISTRICTS.	Class I— Permanently- settled estates.		Class II—Temporarily-settled estates.						Class III—Estates directly managed.						REMARKS
			(a) Settled for periods with proprietors.		(b) Private estates leased to farmers for periods.		(c) Government estates leased to farmers for periods.		(a) Those managed for proprie- tors.		(b) Those owned by Govern- ment as proprietor.				
	Current.	Arrear.	Current.	Arrear.	Current.	Arrear.	Current.	Arrear.	Current.	Arrear.	Current.	Arrear.			
1	2	3	4	5	6	7	8	9	10	11	12	13	14		
Rajshahi ...	99·64	100	100	100	100	...	100	...	65·87	92·30	43·69	78·88			
Dinajpur ...	99·7	100	...	...	...	...	...	...	66·0	...	99·4	100			
Jalpaiguri ...	100	100	100	100	...	...	...	...	...	...	90·08	88·20			
Darjeeling ...	62·00	...	...	...	...	...	100	100	...	...	90·09	95·30			
Rangpur ...	99·12	100	100	100	21·39	100	77·46	...	...	...	61·90	...			
Bogra ...	90·9	100	...	...	...	...	...	...	...	...	87·18	95·70			
Pabna ...	99·8	100	90·1	100	93·4	89·7	90·5	100	68·9	95	62·1	98·1			

On permanently-settled estates the percentage of collection was above the prescribed standard in all districts except Darjeeling and Bogra. The low percentage in the first of these districts is owing to the system which I have referred to of entering as demand that which is not to be demanded. Half of the assessment on the late Chebu Lama's estate, which used hitherto to be deducted from the total demand, has been, under orders of the Board, shown as a remission during the year under report. In Bogra Rs. 12,609 out of a total arrear of Rs. 13,443 were collected in other districts during the year, but not credited in the Bogra treasury accounts until after its close. From a Provincial point of view this is not an arrear at all. Government received the money within the year, and whether at one treasury or at another is not a matter affecting the general revenue.

The short collections in Rangpur on private estates temporarily settled with farmers are due to the default of a man said to hold at a very high rent. Certificates have been filed for the realisation of the balances. I do not regard the explanation as satisfactory. Collectors are not bound to let out Government estates in farm, but if they do adopt this form of collection they are responsible for seeing that the settlement is on fair terms, and that the farmer is a person who can be trusted to pay to the day, or for exacting such conditions as to prepayment or security as will prevent default. The short collections of arrears in Pabna were chiefly on account of diluvion.

In estates directly managed for the proprietors the collections were indifferent in Rajshahi, Dinajpur, and Pabna. In Rajshahi this is attributed to bad harvests. In Dinajpur the annual demand on account of this class of estates is Rs. 12 only, of which Rs. 4, the demand for the March kist, was received just after the close of the year by rent money-order.

In Pabna the raiyats of estate Namzad Bahirchar having been dissatisfied with the assessment under the Bengal Tenancy Act combined not to pay rent and asked for reduction. I may observe that the assessments under the Act which I saw were, in my opinion, defective, so that the raiyats probably had some cause. I have referred to the Board the question whether settlements of this class should be brought into operation until they have been duly approved by the sanctioning authority. Reduction of rent on account of lands under water, or covered with sand, was directed towards the close of the year. The amount that will have to be remitted on this account is about Rs. 1,000. In the Mirkutia Digar estates, with an annual demand of about Rs. 8,000, there being a partial failure of crops, the raiyats could not pay.

The collections on Government estates managed direct were satisfactory in Dinajpur and also in Darjeeling. In Rajshahi the short collections are attributed to bad harvests and poverty of the raiyats. In Jalpaiguri the percentage of current collections on current demand has reached the prescribed standard. The low percentage on the arrear collection is attributed to the facts that Rs. 6,082 due from the heirs of the late Colonel Hedayet Ali are payable by instalments under the orders of Government, and that Rs. 388 were not collected pending enquiry into objections raised, apparently with justice, on the ground of diluvion. In Darjeeling a small portion of the arrear demand remained outstanding from the cardamom fields settled during the year under report with retrospective effect from 1st April 1892. The amount has since been collected. In Rangpur the low percentage is on account of an estate purchased on behalf of Government at a revenue sale. The greater portion of the estate had been washed away and the remainder is sandy and unfit for cultivation. Nothing could therefore be realised during the year, but I am inclined to think that the demands might have been readjusted to the altered conditions to prevent the occurrence of nominal arrears. The low percentage in Bogra is attributed to the fact that Rs. 3,066 collected during the year by the Manager could not be credited in the treasury before 31st March. In Pabna the short collections were chiefly on account of diluvion.

There has been a further increase in the current demand of the cesses due chiefly to revaluations. The difference between the balance shown in Appendix XVIII of the previous report and the arrear demand now shown in the Appendix is chiefly due to valuation of rent-free tenures, to transfer of estates from one district to another and to readjustment of accounts. There has been a slight falling off in the collections as compared with the previous year.

The result of collection of the zamindari dák cess was poor in Jalpaiguri and Pabna. In the former district the arrears are chiefly due from the tea planters. The Deputy Commissioner reports that he is seeing to the matter. Steps are being taken for the realisation of the balances, and in no case is the balance irrecoverable. The department appears to have worked smoothly and satisfactorily during the year.

51. The following table shows the number of sales and exemptions from Operation of the sale laws. sales in the several districts during the year:—

DISTRICTS.	SALES.				Exemption from sales.	Sales annulled.	REMARKS.
	Whole estate.	Shares.	Rights and interests.	Total.			
1	2	3	4	5	6	7	8
Rajshahi ...	3	1	...	4	59	...	
Dinajpur ...	2	...	...	2	24	...	
Jalpaiguri ...	1	...	...	1	8	...	
Darjeeling ...	...	...	...	...	63	...	
Rangpur ...	3	...	...	3	16	...	
Bogra ...	...	...	...	...	51	...	
Pabna ...	12	10	...	22	157	2	
Total, 1893-94 ...	21	11	...	32	378	2	
Total, 1892-93 ...	7	15	...	22	474	...	

The causes which led to the sale were of the usual character—the unprofitableness of the estates themselves, disputes among shareholders, and diluvion. The Act appears to have been administered with moderation.

Appendix XIX shows the dates on which the periodical sales were conducted in the several districts of the Division during the year. It seems to call for no comment.

52. Particulars of settlements of temporarily-settled estates, whether belonging to Government or to proprietors, will be found in Appendix XX, which excludes the settlements that were under the supervision of the Director of the Department of Land Records and Agriculture.

The settlement of the Western Duars, Jalpaiguri, was carried on during the year under the Bhutan Duars Act XVI of 1869. The settlements of the Mainaguri and Bhalka Tahsils were confirmed by me in notifications published in the *Calcutta Gazette* of 13th December 1893 and 21st March 1894, respectively. The confirmations of the settlements of the Falakata and Alipur Tahsils are pending the disposal of certain appeals in connection with the jots in those tahsils. The records of jots in pargana Ambari Falakata were published on 27th February 1894. The settlement brings in an increased revenue of Rs. 1,36,317, or Rs. 58·20 per cent. over the revenue of Rs. 2,33,999 paid under the previous settlement. The Jalpaiguri collections during the year were so far satisfactory that the realisations exceeded the annual demand; the settlement slightly retarded payments, many pattas being granted late in the year, but in no instance ultimately prevented the satisfaction of the public dues. The increase in the revenue gained without friction or objection is satisfactory. It has resulted from a valuation made on the basis of the rent actually charged by the jotdars when they underlet the lands, and therefore can hardly be considered by them to be excessive.

The resettlement of the West Tista Khas Mahals in Darjeeling was sanctioned by Government towards the close of the year. It now remains to distribute the pattas, &c.

In Bogra the traverse survey of 173 villages appertaining to the Jaipur Government estates (60 square miles) was made and 22 villages (13·15 square

miles) were cadastrally surveyed. The cost of survey was Rs. 6,225. during the year. Towards the close of the year a Special Settlement Officer was sent by Government for the resettlement of these estates. The work of regular settlement was not commenced till after the close of the year, and when I inspected at the end of March but little progress had been made.

Estates held under direct management.

53. The following table will show the state of collections from these estates during the year:—

Districts.	NUMBER OF ESTATES—			Total demand, arrear and current.	Total collections, arrear and current.	Total remissions, arrear and current.	Total balances.	PERCENTAGE ON COLLECTIONS OF DEMAND.			REMARKS.
	Belonging to Government.	Belonging to private individuals.	Total.					Arrear.	Current.	Total.	
1	2	3	4	5	6	7	8	9	10	11	12
Rajshahi ...	20	10	30	Rs. 9,476	Rs. 7,870	Rs. 255	Rs. 1,461	78.6	82.6	82.1	
Dinajpur ...	11	2	13	486	470	...	7	100	98.9	98.5	
Jalpaiguri ...	5	...	5	4,41,337	3,04,364	1,511	43,468	83.3	90.0	89.8	
Darjeeling ...	22	...	22	1,98,942	1,07,884	430	628	95.3	99.0	99.0	
Rangpur ...	3	...	3	42	26	...	16	...	61.9	67.2	
Bogra ...	8	...	8	47,523	41,998	37	5,488	95.7	87.1	88.3	
Pabna ...	24	21	45	18,177	12,883	742	4,546	94.7	63.9	70.9	
Total, 1893-94	97	33	130	6,26,083	5,67,510	2,075	55,598	89.4	90.8	90.4	
Total, 1892-93	90	27	117	6,23,780	5,33,462	7,405	82,865	72.0	94.6	83.5	

The collections were satisfactory in Dinajpur and Darjeeling. The reasons of the short collections in the other districts have already been explained.

Agency and mode of management.

54. There has been no change during the year in the agency and mode of management.

Costs of management.

55. The following table shows the cost of management in the several districts:—

Districts.			Revenue demand of estates for which the expenditure in column 3 was incurred.	Cost of management, including contingencies.	Percentage of column 3 on column 2.
1	2	3	4	5	6
Rajshahi ...	...	...	Rs. 8,389	Rs. 405	4.8
Dinajpur ...	...	...	...	...	...
Jalpaiguri ...	...	...	3,68,991	16,498	4.4
Darjeeling ...	...	...	1,07,109	9,570	8.9
Rangpur ...	...	...	...	...	...
Bogra ...	...	...	40,611	5,461	13.4
Pabna ...	...	...	15,602	1,555	9.9
Total for 1893-94	...	...	5,40,702	33,489	6.1
Total for 1892-93	...	...	5,64,530	32,181	5.7

The percentage cost of management was higher than in the previous year. This is chiefly owing to the fact that the demands on account of tea grants in Jalpaiguri, which are now treated as estates under orders of the Board, have not been shown in column 2 of the above table.

56. The Government estates of this Division, and indeed of Bengal generally, are scattered all over the country, in Condition of raiyats, desortions, &c. healthy places and malarious, secure and exposed, fertile and sterile; and the condition of the raiyats in each can be compared only with that of cultivators holding under similar conditions in the immediate neighbourhood. Indeed, there is some tendency towards the accumulation in the hands of Government of the worst lands in the country, those which were originally waste, being situated in places too feverish for occupation, or which private owners have had to throw up because, owing to deterioration in

value, they could not pay the revenue permanently assessed. By comparison with estates possessing the same natural advantages, those in the hands of Government are somewhat above the average in regard to the prosperity of tenants. This is a fact as to which I have satisfied myself by protracted observation, but I admit that it is not one that is very obvious, or which can be discerned without considering a large number of instances. In Jalpaiguri, where Government estates are most extensive, it might be disputed on the ground that the Government jotdars are in no way better off than those on the neighbouring properties—that of His Highness the Maharaja of Kuch Bihar and of the Raikat of Bykantpur, the explanation being that these two estates are well managed from a tenant's point of view. Where this is the case, the raiyats on a private land are as well off as those who hold from Government, though they possess less assurance of the continuance of the conditions on which their prosperity depends, that is to say, fixity of tenure at a moderate rent. Under the operation of the Bengal Tenancy Act, all tenants are now in great measures protected, and thus their condition approximates each year more closely to that of the raiyats holding from Government. Mr. Greer has pointed out that the protection of the law extends very imperfectly to the under-raiyats on the Government estate of the Darjeeling plains; they hold from the jotdars, and are in no way privileged. In their interests I have recommended the extension of the Bengal Tenancy Act to the Terai, but it is to be observed that the cultivators referred to are not the tenants of Government. The expenditure from the 10 per cent. Improvement Fund on such works as the construction of wells, small as it is, compares favourably with the outlay of private proprietors, and is of appreciable use. On the other hand, when a zamindar resides, he helps to relieve the somewhat sombre conditions of agricultural life in Bengal, affording a social centre, and bearing the expense of the festivals in which the people seek amusement as well as an outlet for their religious feelings. The tendency at present is towards residence in towns, particularly in Calcutta, and the advantage of private proprietorship in this respect is therefore on the wane.

During the year there were nine desertions and five relinquishments in the Government estates in Rajshahi. The former were mainly due to diluviation of holdings, and no special cause can be assigned for the latter, the number being small.

57. The following statement shows the expenditure from the grant for the management of, and miscellaneous and sanitary works of improvement in, Government estates during the year:—

## AMOUNT EXPENDED FROM—

DIVISION.	Districts.	7½ per cent.		Two per cent. for sanitary improvement.	Grant for agricultural public works.	REMARKS.
		Manage- ment proper.	Miscellaneous improvements (including agri- cultural im- provements and experiments).			
1	2	3	4	5	6	7
RAJ- SHAHI.	Rajshahi ...	Rs. 405	Rs. 340	Rs. ...	Rs. 1,000	
	Dinajpur ...	...	...	...	...	
	Jalpaiguri ...	16,498	9,221	7,012	...	
	Darjeeling ..	9,570	660	...	...	
	Rangpur ...	...	...	...	...	
	Bogra ...	5,461	325	799	...	
	Pabna ...	1,555	188	410	...	
	Total ...	33,489	10,734	8,221	1,000	

Details of the expenditure shown in columns 4, 5, and 6 of the foregoing statement are given in the following table:—

Districts.	AMOUNT EXPENDED—						
	In digging tanks and sinking wells.	In drainage and irrigation.	In planting trees.	On drains and embankments.	On roads.	On sundry works.	Total.
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Rajshahi ...	1,000	...	...	...	...	840	1,340
Dinajpur ...	...	...	...	...	...	...	...
Jalpaiguri ...	2,022	6,126	...	...	3,161	4,924	16,233
Darjeeling ...	...	...	...	...	...	660	660
Rangpur ...	...	...	...	...	...	...	...
Bogra ...	809	...	16	10	207	82	1,124
Pabna ...	410	...	...	...	...	188	598
Total ...	4,241	6,126	16	10	3,368	6,194	19,955

Besides the above, Rs. 12,112 were expended during the year out of the Darjeeling Improvement Fund on the construction of a hospital at Kalimpong, improvements of hâts and bazars, maintenance of dispensary at Siliguri and on primary education.

58. In Jalpaiguri Rs. 52,044 and Rs. 15,164, respectively, were expended on construction and maintenance of roads. The expenditure of Rs. 52,044 was met from various sources, while Rs. 15,164 were wholly met from the District Fund. There was an extraordinary heavy flood of the river Jaldhaka in July 1893, which swept away a portion of the road from Mainaguri to Nagrakata with its stone bund constructed in the previous year at a cost of Rs. 8,200. Prompt measures were taken to preserve the road from further encroachment and to restore communications. Rupees 26 only were spent on village roads, as little money was available. In Darjeeling the total expenditure for the repairs of roads in the Terai, paid from the District Road Cess Fund, amounted to Rs. 6,173. A bridge was constructed on the Rilli river in Kalimpong khas mahals at a cost of Rs. 293 from the Darjeeling Improvement Fund. In Bogra a new village road was constructed during the year. The fair-weather road leading to the Government market at Rukindipur has been completed at a cost of Rs. 207. The village roads are constructed and repaired from the funds of the District Board placed for the purpose at the disposal of the Manager of the Jaipur Government estates.

59. In Jalpaiguri a sum of Rs. 502 has been expended on the model farm started at Mainaguri for agricultural experiments and cultivation of new staples. The cultivation of Naini Tal potato was successful. The result of cultivation of potato in Pabna was fairly good in some places, and in others the crops failed entirely. The cultivation of wheat in some estates was a failure, but on one the outturn was satisfactory.

Agricultural improvements, implements, machinery, &c. 60. No agricultural implements were tried during the year.

61. A statement showing the working of the certificate procedure in each district of the Division is given in Appendix XXI. The number of certificates issued was almost the same as in the preceding year, but disposals were somewhat less, so that the entries in the pending column increased from 2,418

to 3,151. The increase is mainly in Jalpaiguri, and is due to the substitution in that district of the certificate procedure for that of summary sale in realising land revenue. The realisations were generally made before sale of property, only Rs. 4,808 having been recovered by the latter method, against Rs. 17,200 last year.

62. On a reference to Appendix XXII (land acquisition work) it will be observed that the number of institutions and disposals was fewer than in the previous year. In the case pending since 1888 in Rajshahi the final report has been submitted since the close of the year. In Jalpaiguri the case pending since December 1890 refers to the land taken up for the Bengal-Duars Railway. Some changes in the line having been decided on, fresh requisitions were received from the Engineer-in-Chief, for which the final report of the case could not be submitted. In Darjeeling the two cases are pending before the civil court. In Rangpur the three cases pending from the preceding year were all disposed of during the year under report, but the final reports could not be submitted owing to the non-appearance of some of the parties to take payment of the compensation awarded to them. Of the two cases pending in Bogra, one has since been disposed of and the other is before the High Court. In Pabna six out of the nine cases are pending more than one year. Of these in four the final reports have been submitted. In one the necessary enquiries for making an award have been completed.

63. Appendix XXIII shows partition work in the several districts of this Division during the year of report. It is satisfactory to observe that disposals exceed institutions, and that some progress is being made in reducing the number of pending cases. In Pabna, although only one case is shown as finally completed, the partition of five estates out of the eight pending cases was sanctioned by this office during the year. In one of these, further proceedings are pending before the Board: but the remaining four cases are entered as pending only until possession be given to the parties of their several shares. Pabna was one of the worst districts in this Division for partition work, and the Collector, Kumar Gopendra Krishna Deb, deserves credit for having put this part of the administration in order. There has been an improvement clearly indicated on my inspections in the other districts, except Rajshahi. As to it I can report no progress actually made, but the Collector states that he is now giving special attention to the subject, and hopes to complete a large number of cases during the current year.

64. Appendix XXIV shows the number of mutation cases instituted and disposed of in the several districts of the Division during the year. The disposals were larger than the institutions, and the number of cases pending at the close of the year was smaller than that with which it opened. Of the pending cases only four are of more than six months' duration, viz., two in Rajshahi and two in Darjeeling. In Rajshahi the two cases are pending at the request of the parties. In Darjeeling the two are hotly contested cases. The parties being absent from the station owing to unavoidable causes, the case had to be put off for some time. They are now approaching completion.

The instructions contained in the Board's circular order No. 3 of September 1891 dispensing with the necessity of recording evidence of possession in uncontested land registration cases have been duly observed by the registering officers. The change has been satisfactory, in as much as it leads to speedy disposal of cases and saves much trouble and expense to the applicants. It has not occasioned any fraudulent registration.

The registers prescribed by the Act are generally in good order.

65. The Collectors report that the elaborate form of rent receipt prescribed by the Bengal Tenancy Act has come into general use. The receipts form the chief evidence in all suits for arrears, or involving the issue so common in Bengal, what is the customary rent in a particular holding, village or pargana? Their completeness has been guaranteed, as far as it is possible so to do, by a provision in section 56 of the Act, that a receipt which does not contain

the prescribed particulars shall be taken as an acquittance in full of all demands. We are thus gradually obtaining in Bengal, by an automatic system involving no expense, much of the benefit which is secured elsewhere only by a costly establishment, including an accountant in every village. The other provisions made by the Act for the protection of raiyats have proved effectual, and it is to their operation that we owe the cessation of the attempts to enforce the surrender of occupancy rights, or the enhancement of rent beyond customary limits, which at one time disturbed the tranquillity of this Division. The law has thus attained its main object, and it has also proved an efficient instrument for the realisation of rent.

66. The following statement shows details as to some operations under the Bengal Tenancy Act VIII of 1885 :—

DIVISION.	DISTRICTS.	TRANSFER OF TENURES.												
		(a) Voluntary, section 12 (3).	(b) By decree sale, sections 13 (2) and 14.	(c) By succession, section 15.	Commutation of rent payable in kind, section 46.	Appraising of produce and rent paid in kind, sections 49 and 70.	Registration of improvements, section 80.	Certificate of Collectors as to acquisition of land for building or other purposes, section 84.	Notices of resumption of land by landlords, section 87 (2).	Written permission to landlords to measure land under section 84.	Applications by Collectors for appointment of commission manager under section 85.	Applications made for the survey and record of rights under Chapter X.	Applications made for the survey and record of produce, private lands under Chapter XI.	Local enquiries held by the order of a Court, section 133.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
RAJSHAH.	Rajshahi ... ..	110	3	1	...	...	1	...	...	...	...	...	...	...
	Dinajpur ... ..	95	...	...	...	...	...	...	...	...	...	1	...	...

	Bogra ... ..	17	...	...	...	...	...	...	...	...	...	1	...	...
	Pabna ... ..	206	271	1	...	...	...	...	...	...	...	...	...	...
	Total, 1893-94	600	282	4	...	...	1	...	10	...	...	2	...	...
RAJSHAH.	Total, 1892-93	675	97	5	...	...	12	...	8	...	...	4	...	1

In Pabna eight settlements under the provisions of Chapter X of the Act were carried on during the year, two of which were completed. I did not accept the final reports of the latter as satisfactory, inasmuch as they failed to explain on what principle the rent was fixed. The matter is under discussion. I fear that in that district we have, with reference to the difficulty of finding senior officers who can spare the time, allowed work of this class to fall into the hands of Sub-Deputies hardly fit to perform it.

In Rangpur the survey and settlement of estates Joydeb, Gobda, Borobil, Padamsahar and Goregram are being carried on by a Special Deputy Collector. The work was better done in Rangpur than in Pabna, but the officers employed are rather junior to decide the judicial issues which will come before them. This is the objection which I find to the practical working of the Act. The Collectors have from the first decided that its administration is extra work, not to be done by the regular establishment—a view in which they are entirely supported by their Deputies, who prefer head-quarters to the camp. These officers have had their way, and the smaller settlements fall to Sub-Deputies. For myself I would much sooner see these Sub-Deputies in charge of the treasury and excise, or trying petty criminal cases. Fixing judicial rents is more difficult work than these, and requires more experienced men.

67. Appendix XXV shows deposit and acceptance of landlords' fees under sections 12-13 of the Bengal Tenancy Act VIII of 1885 during the year.

Landlords' fees.

It will be observed that the amount of fees paid was very nearly the same as in the previous year, but in a fewer cases was payment accepted by the landlords. It is reported by the Collectors of Rajshahi and Pabna that most of the landlords are under the impression that their acceptance of the fees would be regarded as confirmation by them of the transfers.

68. As stated in my Land Revenue Administration Report, the relations between landlords and tenants were exceptionally smooth during the year. With the falling value of the rupee rents have become easy, and are paid

Relations between landlords and tenants.

without difficulty; while there has been no general tendency to enhancement. The Collector of Rajshahi refers to a subject of contention which may give considerable trouble hereafter. He writes:—"Towards the end of the year complaints were made by the Muhammadan raiyats of Pananagar in the jurisdiction of the Durgapur outpost that their zamindar had abused, beaten, and otherwise maltreated some of them for alleged slaughter of kine. A discreet Police Inspector was promptly sent to enquire into the condition of affairs; but before he could complete his investigations the parties had made up their differences, and there has been no recrudescence of any disagreement. As the Muhammadans had really killed cows, though in a very unostentatious and perfectly legitimate manner, it is probable that the zamindars had begun to fine, confine and assault the offending raiyats, for they, the zamindars, have always hitherto arbitrarily arrogated to themselves the power to prevent all slaughter of kine in their zamindaris. Very little of what has actually transpired, however, came to light owing to the compromise arrived at. In like manner towards the very end of the year the Muhammadan raiyats of Khoksa and other villages in the Putha police-station jurisdiction complained of ill-treatment exercised on them by their zamindars for a similar reason. The District Superintendent of Police and a sharp Inspector both made careful enquiries: not much, if any, oppression seems to have been exercised,—at any rate the action of the Magistrate, who called upon the zamindars' people to show cause why they should not be bound down to keep the peace, has effectually quieted matters down, and peace prevails throughout the district." It is a fact that most of the Hindu zamindars endeavour to prevent the slaughter of cattle by their tenants, while the raiyats are generally Musalmans, having a predilection for the consumption of beef. This has always been a source of occasional conflict, as the landlords have no legal means of enforcing their wishes so far as occupancy tenants are concerned. It may in the near future lead to a serious collision, but there is no local indication at present of the approach of such an event. The danger is that an agitation originating elsewhere may at any moment spread to this Division.

69. In Darjeeling Mr. L. F. Morshead made certain preliminary enquiries as ordered by Government in connection with the revision of the Terai jots. The Lieutenant-Governor, on visiting the locality, was pleased to express approbation of the work done. In Pabna Mr. Beatson-Bell conducted the settlement of some petty estates in the Seraiganj subdivision. Mr. C. A. Bell, the present Subdivisional Officer, is acting as Settlement and Revenue Officer of certain estates brought under the operations of the Bengal Tenancy Act. The settlement work of a petty resumed estate is also in his charge. The Probationary Sub-Deputy Collector, Syed Abdul Salek, was employed in Rajshahi from 19th June to 19th November 1893. He specially devoted himself under orders of the Collector to classify the old correspondence in the Collector's record-room. Ample opportunity had also been given to learn the routine of office and court work. The Government orders in regard to training of Sub-Deputy Collectorships were given effect to as far as possible.

70. Appendix XXVI shows the names of Deputy and Sub-Deputy Collectors employed in each district on the last day of the financial year with details of work distributed to them on that day. There is nothing fresh to be recorded under this head. A statement showing the duties on which Sub-Deputy Collectors were employed during the year and the manner in which they performed them has been separately submitted to Government in the Appointment Department.

#### XVIII.—ATTACHED ESTATES, INCLUDING COURT OF WARDS.

71. There were 11 estates under the management of the Court of Wards at the commencement of the year, of which 3 were released towards its close—that of the Dighapatiya Kumar, that of his younger brothers, and that of

**Paddamati.** The four Dighapatiya heirs are young men of great promise, a credit to those who directed their education under the orders of the Court. The Collector remarks: "The eldest ward, Kumar Promoda Nath Roy, attained his majority on the 29th January 1894, on which date the estate was released. He has quite recently travelled extensively all over India, visiting the most important places, and those that have become famous in history. Of the three junior wards, the second, Kumar Basanta Kumar Roy, has passed the B.A. examination successfully with double honours in English and Philosophy. The other two wards, Kumar Sarat Kumar Roy and Kumar Hemendra Kumar Roy, are receiving their education in the Presidency College, and will appear in the next First Arts examination." Both the wards of the Maldwar estate in Dinajpur have obtained their annual class remove in the school. The survey and settlement operations under the provisions of the Bengal Tenancy Act, 1885, were carried on in Lat Lotijhari belonging to the Maldwar Ward's Estate in Dinajpur. The operations were taken in hand in November 1893, and it is reported that the work will be soon completed.

Most of the estates carry considerable arrear, which makes the proportion of collections to total demand appear unsatisfactory; but the year was a good one for realisation on the whole, inasmuch as the collections exceeded the yearly income (current demand) in every district except Rajshahi, and in Rajshahi except on the Dighapatiya estates. As regards the latter, the Collector observes that the time for suing the patnidars came round after the estate was released, and that the tenants preferred to put off payment until that date. It is always impossible to hold a manager responsible for good collections during the last few months of a minority; the raiyats generally wish to keep something in hand with which to greet the landlord on his coming of age, and the expiring authority of an agent is not sufficient to overcome this natural tendency. I am not satisfied with the degree of activity shown in examining old arrears with a view to writing off those which are irrecoverable. Many entries in this account relate to money never in fact due, many to sums long since barred by limitation, but it is hard to induce Collectors or Managers to take the trouble necessary to clear the account. The latter regard such labour as worse than wasted, inasmuch as it can at best result in reducing the claims of their wards. They also object to the responsibility and drudgery of the task, but until it is performed no estate account can be considered satisfactory.

#### XIX.—EXCISE.

72. The statements bearing No. XXVIII, which are appendices to this report, show the work of the districts and the Division in the Excise Department for the year 1893-94. The total revenue realised under this head in 1893-94, exclusive of the cost price of opium, was Rs. 9,48,572 against Rs. 8,87,549 in the previous year, showing an increase of Rs. 61,023. If the amount of Rs. 3,840, the duty of 15 maunds of ganja issued to the North-Western Provinces from Rajshahi, be deducted from the total receipts, the divisional increase would come to Rs. 57,183. This increase was obtained from all heads except pachwai, under which there was a decrease of Rs. 322 only. There were 113,908 gallons of country spirit consumed during the year against 123,955 gallons of the previous year, showing a decrease of 10,047 gallons. The consumption of ganja and opium was 462 maunds and about 190 maunds against 469 and 189 maunds respectively in the preceding year.

The rate per head of the population of the total excise revenue was as follows in the several districts:—

		As.	P.			As.	P.
Rajshahi	...	1	5	Rangpur	...	1	4
Dinajpur	...	1	3	Bogra	...	1	3
Jalpaiguri	...	3	8	Pabna	...	1	3
Darjeeling	...	12	5				

The consumption of country spirit is highest in Darjeeling and of opium in Rangpur. The increase in excise revenue is generally attributed to better settlement and to the increased rate of duty on ganja.

73. The subjoined table gives particulars regarding ganja cultivation during two years, viz. 1893-94 and 1892-93 :—

*Particulars regarding ganja cultivation.*

DISTRICTS.	Area cultivated in bighas.		Number of cultivators.		Produce in maunds.		Average produce per bigha.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7	8	9
Rajshahi ...	2,298	2,244	2,082	1,811	4,417	5,917	Mds.s. ch. 1 36 14	Mds.s. ch. 2 25 7
Dinajpur...	674	578	639	566	1,878	2,436	2 31 7	4 9 2
Bogra ...	566	475	708	502	1,279	1,402	2 10 6	2 38 1
Total ...	3,538	3,295	3,429	2,879	7,574	9,755	2 5 10	2 38 6

I quote at length the remarks made by Mr. Price, Collector of Rajshahi, in connection with ganja cultivation, the subject being of special interest at the present time :—

“ In the year of report 70 persons were licensed to act as ganja brokers against 75, 75, 67 and 69 in 1892-93, 1891-92, 1890-91 and 1889-90, respectively. These men are also themselves cultivators of ganja, and generally are of good character. These brokers are a sort of middlemen between the cultivators and the wholesale dealers. Those wholesale dealers who cannot come themselves authorise these brokers to purchase ganja for them in Naugaon. One rupee in court-fee stamp is realised as fee from every broker. The court-fee stamp is affixed to the broker's licenses and duly punched.

“ The ganja mahal comprises a compact tract about 64 square miles in area situated in the districts of Rajshahi, Bogra, and Dinajpur. Within this area about 800 to 1,000 acres of land are cultivated each year for the production of ganja. Only high lands are fit for ganja cultivation. The tract was divided into three blocks for the purposes of administration, and each block or circle was placed in charge of a supervisor. The decrease in the cultivation is due chiefly to the following causes :—

- (1) The excessive production of the previous year's crop.
- (2) The low price secured in the previous year by the cultivators owing to excessive production.
- (3) The excessive rain of the past year, which kept the land too moist for a long time.

“ Of the area for which cultivation licenses were granted 45 bighas produced no ganja. The actual producing area therefore was 3,295 bighas, viz., in Rajshahi 2,244 bighas, in Bogra 475, and in Dinajpur 576 bighas as shown in the statement. This area produced 9,755 maunds of ganja. The average yield was 2·96 maunds per bigha against 2·14 maunds of the previous year. As usual five kinds of ganja were manufactured during the year under report, viz., round, flat small twigs, flat large twigs, chur (round), and chur flat). The quantity of each kind of ganja manufactured is shown below :—

		Mds. s.
Round	...	2,628 8
Flat small twigs	...	4,485 14
Flat large twigs	...	1,036 37
Chur, round...	...	1,604 4
Chur, flat ...	...	
Total	...	9,754 23

“ It will thus be seen that the manufacture of chur ganja produced 1,604 maunds and 4 seers against 1,410 maunds and 34 seers of the previous year.

On account of disproportionate difference of duty between chur and flat ganja, there was a great demand for the former, and the cultivators deliberately converted flat into chur. This attracted my notice, and I recommended an increase of duty on chur ganja in order that the rates of duty on the intoxicant parts of the plant might be equalised. My recommendation was accepted by the Government, and the result was that the duties on chur and round ganja were raised from Rs. 8 and Rs. 7-4 to Rs. 9 and Rs. 7-8 per seer, respectively, from 1st January 1894.

"The quantity of ganja exported during the year from Naugaon to the Lower Provinces of Bengal, including Assam, Kuch Bihar, and the North-West Provinces, was 7,434 maunds 1 seer 1 chitak against 7,136 maunds 3 seers 8 chitaks in the previous year. The increase is due to the low price asked by the cultivators on account of the good outturn of the crop in 1892.

"Ganja was exported to all the districts in Bengal. The quantity of ganja exported to the different countries during the year under review is given below:—

		Mds.	s.	c.
Bengal	...	6,616	32	7
Assam	...	725	38	6
Kuch Bihar	...	76	10	4
North-West Provinces	...	15	0	0
Total	...	7,434	1	1

"The duty levied on ganja exported to the North-West Provinces amounted to Rs. 3,840, which sum was realised and credited into the Naugaon sub-treasury. The duties on ganja exported to Assam and Kuch Bihar are not realised at Naugaon."

The rates of duty from 1st April to 31st December 1893 were—

In the districts of Lower Provinces of Bengal—

		Rs.	A.	P.
Chur	...	8	0	0
Round	...	7	4	0
Flat small twigs	...	7	4	0
Flat large twigs	...	6	0	0

In Orissa Division—

Chur	...	6	8	0
Round	...	6	0	0
Flat	...	4	8	0

These rates were increased from the 1st January 1894, and the present rates are given below:—

In Bengal and Bihar—

		Rs.	A.	P.
Chur	...	9	0	0
Round	...	7	8	0
Flat small twigs	...	7	4	0
Flat large twigs	...	6	0	0

In Orissa Division—

Chur	...	7	8	0
Round	...	6	4	0
Flat	...	4	8	0

During the year under report 40 cases were brought to trial in connection with ganja against 43 of the previous year, of which 8 were for illegal possession, 1 for illegal sale, 1 for failing to account for stock, and 30 for breach of condition of license. Out of 40 cases Sub-Deputy Collector detected 1, Supervisors 35, Excise Sub-Inspector 1, and Police 3. All the cases ended in conviction excepting one detected by the Excise Sub-Inspector. It is reported that the Hemp Drugs Commission visited Naugaon in January last and saw the ganja in the fields and inspected the different processes of manufacture.

Enquiries were also made by them to ascertain whether it would be possible by an extension of the cultivation of ganja to supply the whole of India from the ganja manufactured at Naugaon.

The average outturn of ganja per bigha in Dinajpur was almost double that in Rajshahi and Bogra. This is attributed to the fact that a plot of waste land in Kirtipur in the district of Dinajpur was reclaimed during the year for ganja cultivation. Plants sown on this new soil had a marked exuberance of growth and yielded an abundant crop.

With regard to the small amount of the ganja exported to the North-West Provinces I attribute it to the operation of the rule requiring the prepayment of duty in such cases. That rule is opposed to an elementary principle of political economy, and is also at variance with the practice generally adopted in regard to districts supplied from Rajshahi. I have suggested its abolition.

*The following statement shows the quantity of ganja passed through the ganja weighing office, with the duty leviable on it, during the year 1893-94 as compared with the figures of preceding year 1892-93.*

YEARS.	Rate of duty at Rs. 5 per seer.		Rate of duty at Rs. 5½ per seer.		Rate of duty at Rs. 6 per seer.		Rate of duty at Rs. 6½ per seer.		Rate of duty at Rs. 6¾ per seer.		Rate of duty at Rs. 7 per seer.

## XX.—STAMPS.

74. The subjoined table shows the stamp revenue derived during the year 1893-94 :—

DISTRICTS.	Court-fees.	Copies.	Non-judicial adhesive.	Receipt.	Non-judicial impressed.	General.	Court papers.	Total.	REMARKS.
1	2	3	4	5	6	7	8	9	10
Rajshahi ...	Rs. 1,10,241	Rs. 10,405	Rs. 7	Rs. 3,106	Rs. 41,173	Rs. 2,368	Rs. 2,752	Rs. 1,70,077	
Dinajpur ...	1,61,574	6,925	27	6,382	73,112	3,477	3,647	2,64,748	
Jalpaiguri ...	55,003	4,589	71	4,277	28,705	1,922	1,592	1,26,330	
Darjeeling ...	22,590	764	20	4,801	8,045	102	277	37,189	
Rangpur ...	2,64,032	15,037	18	4,836	1,07,148	4,029	6,480	4,06,440	
Bogra ...	88,267	5,163	...	1,462	44,360	1,400	2,107	1,42,828	
Palna ...	12,206	12,206	4	2,051	68,695	7,930	3,907	3,01,406	
Total for 1893-94 ...	9,51,318	54,789	147	27,755	3,71,928	21,268	20,772	16,47,077	
Total for 1892-93 ...	9,42,344	48,275	140	24,308	3,00,564	19,424	19,777	14,14,053	

Compared with the previous year there was an increase of Rs. 33,025 in the sale of stamps of all descriptions. The moderate growth of the revenue from year to year is due to the progress of the country in wealth and population.

The proportion of revenue to population in the case of non-judicial stamps is Re. .05 for all the districts, except in Rajshahi and Darjeeling, where it is .03 and .06 respectively. As regards court-fees, including copies, the divisional average is Re. .1 per head. Taking each district separately, the proportion comes to Re. .1 everywhere, except in Rajshahi, where it is .09.

The number of cases in which duty and penalty were realised by Civil Courts under section 34 of the Indian Stamp Act I of 1879 was 275 against 252 in the previous year, showing an increase of 23 cases. The amount of duty and penalty realised was Rs. 2,026 against Rs. 1,796 in the preceding year, showing an increase of Rs. 230. The number of cases in which duty and penalty were levied by Collectors under section 37 was 306 against 232, showing an increase of 74 cases, and the amount of duty and penalty realised was Rs. 2,553 against Rs. 1,638, showing an increase of Rs. 915.

A case occurred in the district of Bogra in which duty and penalty to the amount of Rs. 347 were realised during the year under sections 19E and 19G of the Court-fees Act VII of 1870. This is the only instance of the kind.

The number of prosecutions instituted for the infringement of the provisions of the Indian Stamp Act was 118 against 192, the number of persons convicted was 90 against 127, the amount of fines imposed was Rs. 460 against Rs. 608, and the amount disbursed as rewards was Rs. 124 against Rs. 186 in the preceding year.

# XXI.—INCOME-TAX.

75. The general result of income-tax operations is summarised in the following abstract:—

YEARS.	Number of persons assessed.	Demand (tax).	Collections.	Percentage of collections to demand.	Distress warrants.	Penalties.	Expenditure.	Percentage of expenditure to collections.	Objections.
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.				Rs.		
1892-93	12,689	2,98,695	2,94,700	98.6	700	3,928	17,344	5.8	993
1893-94	12,942	3,03,559	3,01,608	99.3	539	2,315	16,754	5.5	773
Increase or decrease	+253	+4,864	+6,908	+7	-161	-1,613	-590	-3	-220

These figures indicate improvement in every part of the work. The assessment was larger than in the previous year, the percentage of collections better, yet there was a decrease in expenses, in the number of distress warrants issued, of penalties inflicted, and of objections made.

The following statement shows the percentage of collections on account of current and arrear demand, including tax, penalties, &c., in the several districts during the year under report:—

Rajshahi	...	98.6	Darjeeling	...	99.4
Dinajpur	...	98.3	Rangpur	...	97.2
Jalpaiguri	...	97.4	Bogra	...	99.8
		Pabna	...	99.8	

The percentage of collections on the final demand of the current year on account of tax only in the different districts is shown below:—

Rajshahi	...	99.7	Darjeeling	...	99.7
Dinajpur	...	98.7	Rangpur	...	98.6
Jalpaiguri	...	99.7	Bogra	...	99.9
		Pabna	...	99.9	

It will be observed from the above statement that the collections exceeded the standard of 95 per cent. in all the districts of this Division.

The proportion of persons assessed to population for the Division was 1 to 619 against 1 to 632 in the preceding year, and the average incidence of tax was 1 to every 26 persons against every 27 persons in the preceding year.

The number of cases in which taxes were realised by the sale of property was 70 against 126 in the preceding year.

## XXII.—MONETARY ARRANGEMENTS.

76. The circulation of currency notes during the year and the preceding year will be seen from the following statement:—

	RAJSHAHI.				DINAJPUR.				JALPAIGURI.				DARJEELING.

Total ...	13,99,895	7,66,160	15,21,180	7,59,490	2,53,100	2,06,945	2,45,450	2,60,900	1,87,420	2,32,755	1,73,940	2,68,800	54,40,275	50,28,585	55,40,370	51

It will be seen from the above figures that there has been a falling off during the year both under the heads of receipts and issues of about four lakhs in each case. The decrease in the receipts is chiefly owing to the fact that in Rangpur under the order of the Accountant-General the Collector ceased to cash currency notes. The decrease in issues was owing to a smaller amount of notes having been issued from the same district to "other treasuries." There was a considerable increase in the receipt of notes in Dinajpur. This is said to be due to the fact that the *mahajans* carried on extensive jute and rice trade which the district produced abundantly during the year of report by cashing notes at the treasury.

77. The following table shows the number of depositors and the amount of deposits in the Savings Banks at the close of the year 1893-94 as compared with the previous year :—

Savings Banks.

DISTRICTS.	Number of depositors at the close of—		Amount of deposit at the close of—		REMARKS.
	1892-93.	1893-94.	1892-93.	1893-94.

\* Revised figures.

The increase appears to be normal. I observe that it does not extend to Pabna or Bogra, which have not shared in the prosperity of the rest of the Division during the year.

78. The following table shows the total number and amount of money-orders issued and received during the years 1892-93 and 1893-94 :—

Money-orders.

DISTRICTS.	NUMBER AND AMOUNT OF ORDERS ISSUED.				NUMBER AND AMOUNT OF ORDERS RECEIVED.			
	1892-93.		1893-94.		1892-93.		1893-94.

Total	407,060	97,40,950	466,087	91,90,425	151,216	42,75,802	166,158	48,96,627

\* Revised figures. \*

The figures show an increase in the number of money-orders issued and received, except as regards Bogra, where there has been a falling off in regard to receipts. The amount remitted in this form has also increased everywhere, except in regard to the issues in Dinajpur, Jalpaiguri, and Pabna. Apparently the trades making large remittance to these districts found some cheaper agency. The tendency everywhere is to the growth of this department of public business, particularly as a means of transmitting small amounts.

#### XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

79. A proposal for constructing a branch railway from Nilphamari to the neighbouring jute mart at Joyganj was under consideration during the year. The route has been surveyed at the cost of the zamindar who promotes the scheme, and an application for leave to form a company has recently been received by me for transmission to Government.

(a) Railways and Railway feeder-roads.

The platelaying of the Bengal Dnars Railway was practically completed by the end of March last, but on the section from Mal Bazar to Damdim several bridges were still in progress and others not commenced. The work has been pushed on vigorously. One new feeder road from Ramshaihat to Gaikata is nearly completed, and one old one from Ramshaihat to Nagrakata was much improved. The Northern Bengal State Railway and the Darjeeling-Himalayan Railway continued to work satisfactorily. The Deputy Commissioner thinks that more stringent regulations are required for the safety of the public on the Darjeeling Hill Cart Road in and outside the train. Two feeder roads were added to the list of feeder roads in the district of Rangpur, viz. Gaibanda to Ghoraghat and Rangpur to Baluabandar.

There is no irrigation or other public works of importance in this Division.

The Imperial and Provincial buildings transferred to the District Boards for maintenance were generally kept up economically. The Boards also undertook the construction of some original works which they were asked to do by Government. The requisite funds for the works were placed at their disposal by Government.

80. The India General Steam Navigation Company's steamers ply daily between Rampur Boalia and Damukdia and bi-weekly between the former station and Malda.

(b) Steamer service.

The District Board of Rajshahi has withdrawn the subsidy for the Malda service, which it thinks is no longer required, as the Company seems to have been making a profit in the business. The District Board of Pabna continues to pay a subsidy of Rs. 300 for the steamer service between Pabna and Kushtea. The service was more regularly maintained during the year of report than in the previous year.

81. The total number of tanks and wells and roads and bridges constructed and repaired by private individuals during the year 1893 and the cost of their construction and repairs in the several districts of the Division

(c) Tanks, wells, and roads constructed by private individuals.

are shown in the following table:—

DISTRICTS.	Number of tanks and wells.	Cost.	Number of roads and bridges.	Cost.	REMARKS.
1	2	3	4	5	6
		Rs.		Rs.	
Rajshahi ... ..	52	35,568	2	600	
Dinajpur ... ..	9	5,100	2	800

Total for 1892 ...	140	88,213	3	2,600	

XXIV.—COMMUNICATIONS.

82. The amount spent on original works and repairs by the several District Boards and the Darjeeling District Road Cess Committee is shown in his table:—

DISTRICTS.	ORIGINAL WORKS.		REPAIRS.		Total proposed amount (columns 2 and 4).	Total actual expenditure (columns 3 and 5).	Percent- age.
	Total amount proposed to be spent.	Total actual expenditure.	Total amount proposed to be spent	Total actual expenditure.			
	3	4					
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Rajshahi	12,008	12,042	38 272	34,978	50,280	47,020	93.5
Dinajpur	53,294	49,760	40,005	30,258	93,559	69,018	95.4
Jalpaiguri	64,865	62,547	28,065	26,736	92,930	89,283	96.
Darjeeling	3,068	21,387(a)	13,085	11,545	16,753	32,932	196.5
Rangpur	40,148	41,140	39,314	36,944	79,462	77,484	97.5
Bogra	4,143	4,148(b)	23,360	14,400	69,503	18,548	26.6
Pabna	12,322	11,966	23,461	23,008	35,783	34,964	97.7
Total for 1893-94	2,32,448	2,02,980	2,05,622	1,86,269	4,38,070	3,89,249	88.8
Total for 1892-93	2,72,395	2,01,710	2,30,436	2,15,483	5,02,881	4,17,148	82.9

(a) This amount includes Rs. 31,176 on account of the Paniaghata suspension bridge which had been actually spent in 1892-93, but accounted for in the year under report. Excluding this sum the percentage of expenditure comes to 70.1.

(b) No explanation has been offered of this small expenditure compared with the amount proposed to be spent.

The roads in the districts of Rajshahi and Dinajpur were kept in fair order. The important roads in the district of Jalpaiguri were kept in good condition and all others in passable order throughout the year, with the exception of one important feeder road from Ramshaihat to Nagrakata which was severely damaged and washed away by the extraordinary floods of the Jaldhaka river. Prompt steps were, however, taken to restore communication, and this was done with great trouble and difficulty. Many new roads have been constructed in the Duars during the last few years, but more are still wanted.

The important roads in the district of Darjeeling, both in the Terai and Hills, are in charge of the Public Works Department. The condition of the roads in this district is generally good. Some of the Public Works Department roads require to be bridged.

The district of Rangpur is well provided with roads which are generally in good condition.

The state of communication in Bogra is fair. Some of the roads are good and others fair except in the rainy season.

The district of Pabna is subject to annual inundations, and the cost for repairs is a very heavy annual charge, thus there is very little money left for original works or for improvements and bridging. The general condition of the roads is not satisfactory. I was particularly struck by the failure to connect the town of Pabna with the railway by a raised and bridged road; it is so breached as to be worse than the unambitious track by which communications were maintained twenty years ago.

83. The amounts spent in the construction and repairs of village roads in each district during the year are shown below:—

	Rs.
Rajshahi ... ..	5,864
Dinajpur .. ..	3,160
Jalpaiguri .. ..	158
Darjeeling .. ..	20
Rangpur .. ..	9,517
Bogra .. ..	714
Pabna .. ..	2,809
Total ... ..	22,242

As stated in the previous year, little can be gained by comparing these figures, as the system of classifying village roads is different in each district.

There are 12 village roads in the Terai which were newly taken over by the Darjeeling District Road Cess Committee under its control during the year. One of these was repaired at a cost of Rs. 20 by a member of the Terai Branch Road Cess Committee. The village roads in the hill khas mahals are repaired by the raiyats themselves at their own cost under a condition of their patta. The amount spent by the Jalpaiguri District Board on village roads is also very small, viz. Rs. 158 only. It is explained that more money was not available for such work, as heavy expenditure was incurred in constructing new roads and repairing old ones. The sums of Rs. 1,652 and Rs. 400 were advanced to the Manager of the Jaipur Khas Mahal and Munshi Mobarakali Choudhuri, a member of the Bogra District Board, respectively, for the construction and repairs of the khas mahal village roads and Dupchachia-Gaibandha village road. The advance could not be adjusted during the year of report; hence the small expenditure in Bogra under this head.

The agencies employed in the construction and repairs of village roads were generally headmen of villages. In Dinajpur, Rangpur and Pabna the work was executed by contractors.

84. In Rajshahi no new trees were planted on roadsides. The existing trees were maintained at a cost of Rs. 17-10. In addition to this Re. 1-8 was spent in looking after trees in the Naugaon dispensary compound. The claims upon this district for the maintenance of existing roads are large, and it is difficult to undertake any new work. The Dinajpur District Board spent Rs. 999 in planting mango, jack, jam, bakul, mahogany, debdara, semul and foreign trees and in maintaining 3,347 trees. The Jalpaiguri District Board planted 350 mango and jack trees on the sides of the road from Jalpaiguri to Damdim Central Emigration road and the Ganges-Darjeeling road at a cost of Rs. 350, and maintained 5,550 trees at a cost of Rs. 587. Nothing was done by the Darjeeling Road Cess Committee in this direction. One thousand two hundred and twelve new plants of various sorts in the nursery gardens and 9,557 existing trees on roadsides were maintained by the Rangpur District Board at a cost of Rs. 931. The existing trees were maintained in Bogra at a cost of Rs. 53. There is much room for increased enterprise in this direction. The Pabna District Board spent Rs. 611 in planting new fruit trees and Rs. 1,004 in maintaining existing trees.

Arboriculture.

#### XXV.—WORKING OF THE LODGING-HOUSE ACT.

85. The Act is not in force in any district in this Division.

#### XXVI.—EDUCATION.

86. The educational statistics of the year will be found in Appendix XXX. The following table brings together some of the more prominent results:—

[Division Rajshahi; number of boys of school-going age 616,909.]

CLASS OF SCHOOL.	Number of schools at the end of March.		Number of pupils at the end of March.		Cost per head per pupil.	
	1893.	1894.	1893.	1894.	1893.	1894.
1	2	3	4	5	6	7
High English ...	19	21	4,001	4,096	Rs. 23 0 4	Rs. 25 11 3
Middle do. ...	87	95	6,020	6,269	11 13 8	11 7 4
Middle vernacular ...	136	138	7,162	7,127	7 3 6	7 4 0
Primary schools ...	3,101	3,292	80,808	85,994	2 7 2	2 7 4
Special do. ...	18	17	448	583	38 13 2	38 1 10
Total ...	3,361	3,563	98,439	104,069	4 6 0	4 7 1

The increase of some 6 per cent. in the number of pupils during the year is satisfactory, and last year also there was an increase of between 2 and 3 per cent. Considering that five-sixths of the male population and almost all girls continue to grow up in ignorance, there is ample room for future progress. The districts rank as follows in the order of educational merit as indicated by the proportion of those under instructions to boys of school-going age:—

DISTRICTS.	Number of boys of school-going age.	Number under instruction.		Percentage of pupils to boys of school-going age.	
		1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6
Rajshahi ... ..	98,151	13,694	13,486	13·9	13·7
Dinajpur ... ..	121,807	21,039	22,046	17·2	18·0
Jalpaiguri ... ..	54,699	7,519	8,655	13·7	15·8
Darjeeling ... ..	18,457	3,229	3,474	17·4	18·8
Rangpur ... ..	159,272	22,477	24,038	14·1	15·0
Bogra ... ..	62,837	11,150	12,487	17·7	19·8
Pabna ... ..	101,686	19,331	19,883	19·0	19·5
Total ... ..	616,909	98,439	104,069	15·9	16·8

The low place occupied by Rajshahi on the list is remarkable. For many years there has been noticed in that district a want of zeal and success in dealing with primary education. I observe that in Rajshahi no rewards are given to patshalas which do not present ten pupils for examination, and that a maximum has been fixed of Rs. 18 the half-year for a lower and Rs. 21 for an upper primary school. The effect is to stint the larger and starve the smaller schools. The arrangement probably accounts for the failure of the district to progress with others in this respect.

87. University teaching is represented in the Division by the Rajshahi College. As to this institution the District Magistrate, Mr. Price, writes:—

“The year was remarkable for the very large increase in the number of students of this College, which advanced from 103 on the 31st March 1893 to 166 in the following December, the largest register ever known in the history of the College, though it again declined to 138 at the close of the year in consequence of the withdrawal of students from the 2nd and 4th year classes, after the completion of the term of six months’ further study required by the University from those who have previously failed. The average number on the rolls monthly was 163 against 130 of the preceding year. The average daily attendance was 84 against 86 in 1892-93. The total expenditure for the year under report amounted to Rs. 24,042-13-6, showing a decrease of Rs. 28-14-10 as compared with the expenditure of the previous year. During the year of report Rs. 7,239-3-6 were paid from the Provincial revenues for the maintenance of the College, and the rest of the expenditure was met from endowments and fees. Twenty students appeared at the B.A. examination, of whom two passed. Of the 20 students 11 took up the A. course, of whom none passed, and nine the B. course, of whom two passed. Of the 64 students that presented themselves for the F.A. examination 24 passed, 4 being placed in the 2nd and 20 in the 3rd division.

“The number of students on the rolls of the Law Department on the 31st March 1894 was 16 against 5 on the same date of the previous year. The average monthly roll number rose from 10 to 17. There has been a total failure in the year under report in the B.L. examination. Of the three candidates who were sent up all failed. Of the three students who presented themselves at the Pleadership examination two were successful in passing.

"The Oriental Department is now in a flourishing condition, and has gained much popularity. The number of students on the rolls of the Oriental Department on the 31st March 1894 was 79 against 51 and 74 on the corresponding date of 1892 and 1893 respectively. The average daily attendance of the students was 69 per cent. against 78 in the preceding year."

The College is evidently making great progress in the matter of attendance, and it is to be hoped that better results may hereafter be obtained at the examinations.

88. The number of high English schools has increased from 19 to 21, but I observe with surprise that there has been but the nominal addition of 95 to the attendance. The increase in unaided middle English schools from 13 with 819 pupils to 22 with 1,185 pupils indicates that there is no falling off in the demand for the very remunerative form of education. Primary teaching is progressing slowly, but at a rate more rapid than education of other classes. Mr. Greer, of Darjeeling, observes:—"Primary schools in the Hills, as far as I have seen on tour, work satisfactorily. There is room for a considerable extension of operations if teachers were forthcoming. The mission schools at Kalimpong do excellent work. Dr. Ponder established a class for medical students during the year. There appears to be a great opening for intelligent pupils in this direction. The Terai schools compare most unfavourably. The teachers appear to have little interest in the work, and the inspections of departmental officers are frequently carried out in a perfunctory manner." The Rajshahi figures show a decline from 13,694 to 13,486 pupils, which the District Magistrate explains was due to the unhealthiness of the autumn season. In Jalpaiguri, where progress is satisfactory, His Highness the Maharaja of Kuch Bihar contributes Rs. 1,824 towards aiding primary schools in his zamindari—an excellent example to be commended to all landowners in a position to show liberality. In Rangpur primary school pupils have increased from 18,191 to 19,626. Mr. Harris observes:—"The teachers are striving hard to raise and improve the status of their schools on hopes of their earning rewards at the standard examinations." As to Dinajpur Mr. Tute writes:—"I am glad to see any increase in primary education, but it is yet very backward. When I was on tour this year I found a number of schools which do not get recognition as primary schools. These are short-time schools, that is to say schools to which pupils go when they are not engaged in agriculture. The policy has been hitherto to ignore these schools and to debar them from the privileges extending to other primary schools. This I consider to be a very wrong policy. By attending schools when they can the pupils show a desire for instruction, and this desire must be encouraged. It will involve some extra trouble to the Sub-Inspector to prevent bogus institutions claiming stipends, but this is not unsurmountable. At any rate it must be forced. I am now considering a plan for recognising and encouraging these half-time schools. They will form the nucleus of a widespread system of primary education. Partial it may be, but half a loaf is better than no bread." In these remarks I concur. With five-sixths of the male population altogether unassisted we cannot prudently neglect even very humble auxiliaries in the work.

89. There are two technical schools in the Division—one at Rangpur, the other at Pabna. The first cost the District Board Rs. 1,874 against Rs. 1,099 last year, while the expenditure from private sources decreased from Rs. 1,774 to Rs. 1,197. The daily attendance diminished from 74 to 54; but this may be because the boarding-house was burned down. At Pabna there were only 24 pupils on the rolls on the 31st March. The cost to the District Board is very considerable. I have asked the Magistrate to see whether private aid can be collected for its support. It seems too much of an experiment to be conducted entirely at the rate-payers' expense. I found the instructions given in Rangpur very suitable, but Pabna has not as yet achieved any success.

90. There were 2,308 girls attending 133 female schools against 2,024 attending 118 schools last year. The number of girls at boys' schools increased from 1,604 to 2,027. Female education is thus making good progress.

## XXVII.—DISPENSARIES AND HOSPITALS.

91. The following table shows the working of the dispensaries in the several districts. The details are given in Appendix XXXI:—

CTRS.	Number of dispensary.	INCOME FROM—					Expenditure.	TOTAL NUMBER TREATED.			Daily average number of in-patients.	Daily average number of out-patients.	Cost of diet per in-patient.	REMARKS.
		Municipal grant.	District Board grant.	Government.	Private subscriptions, &c.	Total.		In-patients.	Out-patients.	Total.

Total for	50	20,793 12 8	6,472 0 7	2,040 15 4	34,345 11 7	64,297 8 2	61,563 5 0	4,293	201,971	206,173	151'48	1,175'82	0 2 1	3'21

There were 49 dispensaries against 50 in the preceding year. A new dispensary was opened at Haripur in Dinajpur, and the Kushimpur dispensary in Rajshahi ceased to exist. The Domer dispensary being a private institution, not under the supervision of the Civil Surgeon, has been excluded from the statement.

On the whole there was increase in the number of admissions of both indoor and outdoor patients. The increase was marked in Dinajpur, where altogether there were 26,752 admissions against 18,951. Nearly 4,000 of this increase was owing to the opening of a dispensary at Haripur. There was considerable increase in the number of admissions in the dispensaries of Alipur, Mainaguri and Falakata. The District Officer says that the increase may be attributed to European medicine being appreciated more and more by the inhabitants of the Duars. The increase in admissions in the Siliguri and Kalimpong dispensaries is chiefly due to the prevalence of disease.

In addition to the 12 dispensaries in the district of Rangpur named in Appendix XXXI, there are dispensaries at Govindganj and Dimla maintained by the Tagore Estate and the Raja of Dimla, and dispensaries at Domer and Jaldhaka supported by private contributions. There are also dispensaries at Saidpur and Kaunia maintained by the Railway. The District Officer of Pabna attributes the increase of admissions in his district to be owing to the general unhealthiness of the year.

A detached female hospital with a female doctor was added to the Sadar dispensary of Dinajpur. This hospital is on the separate cottage ward system with two wards for the poorer class and a receiving room. It has accommodation for 12 in the common ward and 6 in the cottages.

## XXVIII.—LIBRARIES.

92. As stated in the reports of previous years, the number of public libraries in this Division is very limited, notably so in the large town of Dinajpur, where there is no institution of the kind. That at Rampur Boalia was maintained efficiently, and the Ananda Nath Library, with nearly 1,500 copies of valuable English books, has been amalgamated with it. Owing to this amalgamation the library accommodation has become very insufficient, and Kumar Promoda Nath Ray Bahadur, of Dighapatia, has made the very handsome donation of Rs. 3,481 for the addition of an upper storey to the existing library building. There are two public libraries in the district of Rangpur—one at the Sadar station and the other at Nilphamari. Both are maintained by public subscriptions. The public library in Bogra, which is also entirely supported by private subscriptions, is reported to be in good condition. As stated in the previous year's report, there are three public libraries in the district of Pabna—one at Pabna, another at Serajganj, and the third at Porjona in the Serajganj subdivision. They are reported to have been managed efficiently. An addition of books worth Rs. 91-2 was made to the Serajganj library. There is no public library of any importance in Jalpaiguri and Darjeeling.

## XXIX.—MUSEUMS.

93. There are no museums in this Division.

## XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

94. The average attendance at the important Committees was as follows in the several districts in this Division:—

DISTRICTS.	Names of Committees.	NUMBER OF MEMBERS.									NUMBER OF MEETINGS HELD.			AVERAGE ATTENDANCE AT EACH MEETING.					
		Municipal Commissioners.			District and Local Boards.			Education Committee.			Municipal Committee.	District and Local Boards.	Education Committee.	Municipal.		District and Local Boards.		Education.

(a) Official.

(b) Non-official. The figures shown in columns 6, 7, 8, 13, 17, 18 against Darjeeling refer to the District Road Cess Committee

From the foregoing table it will be seen that there was a very little alteration in the number of meetings held by local bodies and in the average attendance at each meeting in comparison with those of the previous year. As little change can be noticed in the efficiency of these institutions. A general election of Municipal Commissioners, Chairmen and Vice-Chairmen took place during the year, and there was also a meeting to nominate by votes a member of the Lieutenant-Governor's Council. I was struck by the keenness with which technical objections to the results of such elections are pressed upon Government.

## XXXI.—EMPLOYMENT OF MUHAMMADANS.

95. Appendix XXXII shows the offices held by Muhammadans in each district of this Division. As the form has been recast, the figures do not readily admit of comparison with those given in previous years. It would appear that 17.6 per cent. of the ministerial posts are held by Muhammadans against 16.6 in 1892-93, a small proportion in a Division where the majority are of that creed. The causes which have led to this result are well known.

## XXXII.—POST OFFICE AND TELEGRAPH.

96. I have little to note under this head. A new imperial line extending over 12 miles was opened during the year from Joygunge to Gagra with a branch post office at Bahin. Of the Rs. 900 reported to have been misappropriated last year by the branch postmaster of Bangshihari, Rs. 300 have been received within the year of report by certificate. The accused is still at large, and no clue to his whereabouts is known. One new imperial post office was also opened at Lata-guri near the Bengal Duars Railway station in Jalpaiguri. A currency note for Rs. 100 was alleged to have been abstracted during transit by post from a registered letter posted at Dhupguri for a post office in the Faridpur district. Enquiry in the matter is still going on. There was a case of fraud at the

Gaibanda sub-office. The officiating clerk committed suicide after misappropriating Rs. 165-2 from the value-payable parcels received by him. Steps have been taken for the recovery of the money. There was one case of defalcation of Rs. 195 in the Savings Bank branch by the schoolmaster in charge of Dhopadaha branch office in account with Dulai in the district of Pabna. The man was prosecuted by the Postal Department and punished under section 409 of the Indian Penal Code. On the whole the department worked satisfactorily.

97. The Telegraph Department worked well during the year. Four new offices were opened at Darwani, Domar, Kalidahar-ghat and Saidpur in the district of Rangpur. A new combined post and telegraph office was opened at Bera in the district of Pabna in July 1893.

## XXXIII.—ZAMINDARI DAK.

98. The following statement shows the demands and collections on account of the zamindari dak cess in the districts of the Rajshahi Division for the year 1893-94:—

DISTRICTS.	DEMAND.			Excess payment made during the previous year.		Remissions.	Net demand.	COLLECTIONS.								Total collections on all account.	BALANCE (Column 7 minus 10)		
	Current.	Arrear.	Total.					Current.	Arrear.	Total.	Advance collection for next year.	Otherwise collected.			Total.		Current.	Arrear.	Total.
												Fines realised under section 9 of Act VII (B.C.) of 1862.	Miscellaneous receipts.						
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18		
	Rs.	Rs.	Rs.	Rs.		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.		
ghazal ... ..	8,709	751	9,460	2,813	...	6,647	5,038	682	6,340	1,358	686	43	729	8,427	238	69	307		
rajshahi ... ..	14,710	625	15,335	135	...	13,206	12,512	625	13,137	355	783	30	813	14,305	69	69	69

rajshahi ... ..	10,080	141	10,220	...	...	10,230	10,042	99	10,141	98	417	72	489	10,728	47	42	89		
bagura ... ..	5,476	249	5,725	860	...	4,864	4,441	148	4,589	924	201	...	201	5,716	176	101	277		
ghazal ... ..	8,204	909	9,113	2,020	...	6,553	4,542	874	5,416	2,881	465	628	1,093	9,390	1,042	85	1,127		
Total ... ..	49,274	3,042	52,316	7,821	..	44,495	39,047	2,432	42,079	8,378	2,693	773	3,376	53,833	1,809	610	2,419		
tal for 1892-93	42,677	4,098	47,075	...	...	...	40,514	4,119	44,633	8,272	1,728	704	2,402	55,397	2,163	879	3,042		

It will be seen from the foregoing table that the collections were very good in Dinajpur and Rangpur, fair in Rajshahi, Jalpaiguri, and Bogra, and bad in Pabna.

The following statement shows the expenditure and balance of the Zamindari Dak Fund in the districts of the Rajshahi Division during the year 1893-94.—

DISTRICTS.	Collection on all accounts.	Balance in hand from the previous year.	Total.	Expenditure.	Balance in hand.	REMARKS.
1	2	3	4	5	6	7
Rajshahi ...	Rs. 8,427	Rs. 3,970	Rs. 12,397	Rs. 9,941	Rs. 2,456	
Dinajpur ...	14,305	3,702	18,007	9,277	8,730	
Jalpaiguri ...	5,267	6,133	11,400	3,869	7,531	
Rangpur ...	10,728	6,655	17,383	10,195	7,188	
Bogra ...	5,716	1,255	6,971	5,475	1,496	
Pabna ...	9,390	5,596	14,986	9,226	5,760	
Total ...	53,833	27,311	81,144	47,983	33,161	
Total for 1892-93	55,397	20,160	75,557	48,248	27,310	

The rates at which the cess was levied were as follow :

		Rs. A. P.		Rs. A. P.
Rajshahi	...	1 0 0	Rangpur	1 0 0
Dinajpur	...	0 10 0	Bogra	1 4 0
Jalpaiguri	...	2 0 0	Pabna	2 4 0

These rates have been fixed by Government for the five years commencing from the 1st January 1893.

99. The most important fair in the Division is that held at Nekmurd in Dinajpur during the month of April. In regard to it the following statistics are furnished by the District Officer :—

DESCRIPTION OF ANIMALS SOLD.	NUMBER SOLD.		TOTAL PRICES REALISED.		AVERAGE PRICES PER HEAD.	
	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7
Elephants ...	50	145	Rs. 30,000	Rs. 1,16,000	Rs. 600	Rs. 800
Camels ...	125	170	3,750	5,100	30	30
Oxen and cows ...	18,400	20,400	4,60,000	6,12,000	25	30
Buffaloes ...	100	1,000	1,500	20,000	15	20
Horses ...	1,100	1,675	33,000	67,000	30	40
Ponies, superior ...						
Ponies, small ...						
Sheep ...	115	150	1,380	2,250	12	15
Total ...	19,890	23,540	5,29,630	8,22,350	712	935

The following are the details of shops opened for sale :—

DESCRIPTION OF ARTICLES.	Number of shops.	Value of articles offered for sale.	Value of articles sold.
1	2	3	4
English cloth ...	212	Rs. 1,12,000	Rs. 75,500
Country do. ...		60,000	35,000
Brass utensils ...		25,000	15,000
Spices, &c. ...	51	8,000	5,000
Ironware ...	26	4,500	3,000
Wood cart wheels, boxes, &c. ...	46	32,650	18,500
Articles of food, sweetmeats, &c. ...	144	1,60,400	72,700
Miscellaneous, including fancy articles, blankets, durries, &c. ...	409	2,000	1,500
Earthenware ...	35		
Total ...	977	4,04,550	2,26,200
Total for 1892 ...	850	4,06,205	1,20,500

It is stated by the District Officer that "these statistics are collected by the police, and he cannot say how far they are reliable."

The only important fair in the district of Rajshahi is the one annually held at Khetur in thana Godagari. About 40,000 persons (male and female) are reported to have attended the fair. The Collector states that the number of persons who assembled at this fair during the previous year was

grossly under-estimated. He says from his personal experience that it approached 60,000.

As stated last year three fairs are held in the district of Jalpaiguri. The principal and the oldest one is the Jalpesh fair, which took its name from the idol Jalpeswar: it commenced on the "Sivaratri" festival, and lasted for three weeks. The collection of tolls amounted to Rs. 1,154-4 against Rs. 977-13-6 last year, and the expenditure incurred in its management (Rs. 125) was met from the Duars Market Fund. The Alipur fair, which was removed from the Santrabari to Alipur last year, commenced on the 10th January 1894, and lasted till 31st idem. It is stated by the Deputy Commissioner that the fair will be more successful if it be commenced in future from the 20th January, by which time the fair at Haldibari in the territory of Kuch Bihar breaks up. Out of Rs. 200 sanctioned by Government this year for the fair Rs. 129-9 were expended, and the public subscribed Rs. 58-2.

The Falakata fair was held from 10th February to 2nd March 1894. The Government grant of Rs. 300 was expended for erecting mēla booths, making conservancy arrangements, &c. No fees were levied either at Alipur or Falakata. These two fairs in the Duars are intended to encourage trade with Bhutan, as well as to bring within reach of the people articles which would not otherwise find their way to these remote parts.

There are no important fairs in Darjeeling. The agricultural show at Kalimpong was held on the 28th and 29th November 1893, at which about 4,000 persons assembled. A large number of articles were exhibited. The Deputy Commissioner presided at the opening of the show, which was attended by many visitors, European and others. The mēla has been held for the third time and showed a distinct advance of its predecessors. Rupees 200 were contributed by the Darjeeling Improvement Fund and Rs. 300 by Government. The receipts from subscription and other sources amounted to Rs. 1,444-4; Rs. 1,066-8 were paid for prizes.

Most of the fairs held in the districts of Bogra and Rangpur are unimportant.

No regular fairs were held in the district of Pabna. The "Basanta mēla" was held for the third time from the 2nd to 17th March 1894, at which specimens of agricultural produce as well as fancy goods locally available were exhibited.

Sanitary arrangements, where necessary, were made, and there was no outbreak of any disease in any of the fairs mentioned.

100. The following table shows the receipts and expenditure of ferries in the several districts in this Division:—

DISTRICTS.	Authorities by whom managed.	Number of ferries farmed out.		Number of ferries managed direct.		Total.		Receipts from ferries farmed out.		Receipts from ferries managed direct.		Total receipts.		Total expenditure.		REMARKS.

DIVISIONAL TOTAL		327	337	2	2	329	339	1,689	1,01,618	3,413	347	1,05,031	1,01,960	5,337		

The ferries in the districts of Jalpaiguri and Dinajpur were, on the whole, well managed during the year. I am not satisfied that sufficient attention is given to the subject in the other districts. Ferries there are not, as a rule, served by platform boats, or provided with suitable approaches, even where the revenues admit of such conveniences. The tendency is to look on them too much as a means of raising revenue by taxing traffic, too little as public works of primary importance. I have often pointed out that where unbridged rivers have to be crossed the ferry is the most important part of the route, that to which the greatest attention should be paid. In Rajshahi one farmer was fined for levying excessive tolls. In Dinajpur there were six prosecutions by the District Board under the Ferry Act—two for establishing private ferries within two miles of public ferries and four for neglect of duties. In all these cases the accused was punished. The Deputy Commissioner of Darjeeling, Mr. Greer, reports that complaints were made against the farmer of the ferry over the Balasan river at the height of the working season. He was prosecuted, and the ferry was leased to another. The farming system has failed to operate satisfactorily at this place, and the ferry is now being worked under the order of the Deputy Magistrate of Siliguri. It is hoped that a bridge will be constructed at an early date, which will remove the causes of complaints. In my opinion there is a distinction very generally overlooked between farming the proceeds of a ferry and leaving to the farmer the duty of supplying the plant. The former is desirable, as it is impossible to check the account of receipts rendered by a salaried officer. The latter system is responsible for the unsuitable boats and defective approaches common in most districts. For a ferry a boat is required of special construction; and this can seldom be provided by a farmer, to whom it may become useless if his lease is not renewed. The District Board ought, I think, to supply the flat and farm out the right to use it.

101. The table given below shows the receipts and expenditure of pounds in the several districts in this Division:—

DISTRICTS.	Authorities by whom managed.	Number of pounds farmed out.		Number of pounds managed direct.		Total.		Receipts from pounds farmed out.		Receipts from pounds managed direct.		Total receipts.		Total expenditure.	REMARKS.

The pounds situated in municipalities are managed by the Municipal Commissioners and all others by the District Boards, except those in the district of Darjeeling, which are under the management of Government. Mr. Price, Magistrate-Collector of Rajshahi, writes:—

“Notwithstanding constant inspection by the Inspectors, and occasionally by the District Magistrate and Collector, it was often noticed that sufficient

food and water were not supplied to impounded cattle by the farmers. Cattle-pound farmers are as a rule a very bad set of people and give constant trouble. They fee people to bring cattle to the pounds. They overcharge on account of fees, and also on account of the feeding expenses of the impounded cattle. They refuse to give any or proper receipts and generally misbehave themselves."

In Rajshahi one pound farmer was found to have misappropriated an impounded cow, and on conviction was sentenced to six months' rigorous imprisonment. Another man was prosecuted for holding an unauthorised pound and levying unauthorised fines. He was fined by the Subdivisional Officer of Naugaon. Three other farmers were fined by the Chairman of the Boalia Local Board for not taking care of the cattle impounded.

In Dinajpur eight farmers were prosecuted for neglect of duties, of whom seven were punished and one discharged for want of sufficient evidence.

In my opinion the abuses incidental to the system of farming pounds, the improper seizure of animals to get the fees, overcharges, and the neglect of cattle impounded, are so great as to be more important than the fiscal considerations which are put forward in favour of its maintenance. On the old plan of salaried agents it was possible to secure respectable pound-keepers, and the checking of collections can be carried to a certain degree of perfection.

#### XXXIV.—SOCIAL AND POLITICAL INSTITUTIONS.

102. The following table shows the number of social and political institutions maintained in this Division during the year 1893-94:—

DISTRICTS.	Serial No.	Names of Institutions.	REMARKS.
1	2	3	4
Rajshahi ...	1	Boalia Hindu Dharma Sabha.	Besides the institutions mentioned in column 3 there is a Brahmo Samaj in each district.
	2	Rajshahi Association.	
Dinajpur ...	3	Dinajpur Dharma Sabha.	
	4	Rate-payers' Association.	
	5	Branch Indian Association.	
	6	Branch Indian Association.	
Jalpaiguri	7	Rate-payers' Association.	
	8	Hindu Dharma Rakhini Sabha.	
	9	Duars Planters' Association.	
	10	The Darjeeling Tea Planters' Association.	
Darjeeling	11	The Terai Planters' Association.	
	12	The Darjeeling Association.	
	13	The Kurseong Association.	
	14	Dharma Sabha.	
Rangpur ...	15	Muhammadan Association.	
	16	Branch Committee of the Indian Association.	
	17	Nilphamari Sammilani Sabha.	
Bogra ...	18	People's Association.	
	19	Standing Congress Committee.	

The Dinajpur Dharma Sabha is a religious institution supported by the members of the Hindu community. Hindu priests resort to it from different parts of the country and deliver lectures on Hindu religion. The names of the Darjeeling and Kurseong Associations were not mentioned by the Deputy Commissioner in his last year's report, though they had been in existence; nothing is reported to have been done by these two Associations. The Boalia Dharma Sabha provides for discussions on Hindu theology, recitation of Vedas, examination of students of Sanskrit tols, and conferring titles to successful candidates. In regard to the Rajshahi Association the Magistrate reports:—"The Bills introduced for the amendment of the Land Acquisition Act and the Bengal Municipal Act were hotly discussed, and many important suggestions were made by the various members of this respectable body composed of the *elite* of the district." The Darjeeling Planters' Association keeps a watch over matters affecting tea interests in the district and occasionally submits suggestions to the District Officer. Accordingly correspondence took place on the subject of

recruitment and charges incurred in proceedings in the Civil Court. The Terai Planters' Association came to notice with the Balasan ferry.

103. The European residents and the natives of English education have very clear views on most public subjects, which they take great care to impress on Government

State of public feeling. through their accredited organs. The opinions of these classes are uniform throughout Bengal, and certainly have no local colouring in this Division. The District Officers comment on the absence of public feeling of any kind among the people at large, by which phrase I mean to designate all those who have not received an English education. In this country the tendency is strong to make each occupation the speciality of a caste, and the impression gains ground that those who know English constitute a class having the exclusive right to hold all public offices, whether paid or honorary, and also to criticise public measures. Interference by others is regarded with the prejudice which attaches to encroachments on caste occupations, and it is seldom so conducted as to be altogether free from the ridicule which experts love to direct against inexperienced intruders on their ground. An exception is made in regard to religious matters; for judging of which from a Hindu, or even a Muhammadan point of view, it is felt that an education exclusively English confers no special advantage. A topic of this class came under general discussion during the year—the slaughter of kine. It interests everybody, and may at any moment lead to serious trouble. In this Division it is somewhat less dangerous than elsewhere, as the Muhammadans are in the majority, but the other party possesses considerable strength, and the utmost vigilance is necessary.

The public press: Its tone and influence.

104. The subjoined table exhibits the newspapers published during the year:—

DISTRICTS.	Serial No.	Names of Newspapers.	How often published and in what language.
1	2	3	4
Rajshahi ...	{ 1	<i>Hindu Ranjika</i> ...	Weekly, Bengali.
	2	<i>Shilpa and Krishi Patrika</i> ...	Fortnightly, ditto.
Dinajpur ...	3	<i>Dinajpur Masik Patrika</i> ...	Monthly, ditto.
	4	<i>The Darjeeling News</i> ...	Weekly, English.
Darjeeling ...	{ 5	<i>Masik Patrika</i> ...	Monthly, Hindi.
	6	<i>Darjeeling Standard</i> ...	Weekly, English.
	7	<i>Eastern Himalayan Mission, Darjeeling, Kalimpong and Sikkim News</i> ...	Monthly, ditto.
Rangpur ...	8	<i>Rangpur Dik Prakash</i> ...	Weekly, Bengali.

No changes took place in the number of the newspapers published, and none of them has a wide circulation. This Division, with the obvious exception of the Darjeeling hills, is eminently a part of Bengal, and looks to Calcutta as its sole centre. The papers read by all classes are those which find favour in the capital, among which I may mention, as possessing a circulation among the native community, the *Hindu Patriot*, the *Statesman*, the *Indian Mirror*, the *Amrita Bazar Patrika*, the *Bengali*, the *Indian Nation*, the *Bangabasi*, and the *Sanjibani*.

#### XXXVI.—CONDUCT OF ZAMINDARS.

106. The remarks made by me under this head in my last annual report are applicable on the present occasion also. Monmohini Debi, of Puthia, has distinguished herself by sinking about thirty wells in different parts of the Rajshahi district, both in her own lands and elsewhere. They are made of masonry, and have proved very useful. In Dinajpur the Haripur zamindars and Rai Shetabchand opened two charitable dispensaries. His Highness the Maharaja of Kuch Bihar is again mentioned for his liberality, as also the Maharani Sarnamoyi and the Tagore family.

**FORMATION OF VILLAGE UNIONS IN CERTAIN SELECTED RURAL AREAS IN BENGAL.**

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

*Calcutta, the 1st September 1894.*

RESOLUTION—No. 3600L.S.G.

READ—

- (1) Resolution No. 2803, dated the 11th December 1891, on the working of District and Local Boards in Bengal during 1890-91.
- (2) Letter No. 8, dated the 2nd February 1892, from the Government of India, Home Department, regarding the organization of Union Committees in Bengal.
- (3) Letter No. 6T.M., dated 28th April 1892, to the Government of India, Home Department, communicating the views of this Government in the matter.
- (4) Letter No. 3, dated 21st February 1894, from the Government of India, Home Department, regarding the formation of village Unions in certain selected and advanced rural areas in Bengal.
- (5) Letter to Commissioners of the Burdwan, Presidency and Dacca Divisions, Nos. 873-5, dated the 11th March 1893, asking them to submit proposals in accordance with the orders of the Government of India.
- (6) Letter from the Commissioners of the Burdwan, Presidency and Dacca Divisions, submitting their proposals.

It was part of the original scheme of Local Self-Government for these Provinces, when the Bill for its introduction was under consideration, that village Unions should be the unit of administration, that Union Committees should be formed everywhere, and that the work of the Committees should be controlled by a central District Board. By the passing of the Bengal Act III of 1885, however, this part of the scheme was changed, the District Board became the unit of administration, with Local Boards in subordination to it, and the Union, instead of being the basis of the whole fabric, became an optional appendage of the Local Board. Objections were urged from many quarters to the establishment of Union Committees. The objections arose mostly out of the difficulty of obtaining competent men to fill the Committees and of giving them work to do which should satisfy their self-respect and call out their sense of responsibility. This again sprang from the smallness of the funds which could be placed in the hands of the Committees, a result which is due to the lightness of the local taxation in Bengal, the local (or Road and Public Works) cess being imposed at a much lower rate than that which exists in any other Province in India. It was mainly for these reasons that no further measures were taken for their introduction.

2. In his review of the administration of the District Boards in Bengal during 1890-91, the Lieutenant-Governor remarked that no Union Committees had been appointed, and that there was great divergence of opinion among officers as to the advisability of forming them. He did not himself anticipate that any immediate necessity would arise for appointing such Committees, and thought that it would be premature to take any step in that direction until the relations of District and Local Boards had been finally settled, and had stood the test of several years' experience. This view was not, however, accepted by the Government of India, who pointed out that the importance of the village organization as an essential element of success in sanitary improvement in rural areas had been recognized in other provinces; and although, in deference to the opinion of this Government, they did not press for the formation of Union Committees generally throughout the province, the question of establishing a few such Committees experimentally in selected and advanced rural areas, before deciding whether the system should or should not be more largely introduced, was commended to the consideration of the Lieutenant-Governor. The Commissioners of the Burdwan, Presidency, and Dacca Divisions were accordingly asked to submit proposals for the tentative and experimental introduction of the system in selected areas in those divisions, and their replies having been received, the Lieutenant-Governor is now in a position to issue orders on the subject.

3. It will be convenient in the first place to bring together and explain the various provisions of the Local Self-Government Act relating to Union Committees. Part I, Chapter II (sections 37-44) deals with their formation. Any village or group of villages may be constituted into a Union by a written order of the Lieutenant-Governor, and he may prescribe the number of members of which the Union Committee shall consist, such number not being less than

five or more than nine. The members will ordinarily be elected, and will remain in office for two years, but the Lieutenant-Governor may direct that the Committee shall consist wholly or in part of members appointed by the Commissioner.

4. The duties and powers of Union Committees are laid down in Part III, Chapter III of the Act (sections 104-119). Section 104 provides that "a Union Committee as the agent of, and subject to the control of, the Local Board shall, within the Union, have the control and administration of, and be responsible for, all matters specified in this chapter, except such of those matters as the Local Board may think fit to take under its direct control and administration." The matters consist of (a) the construction, repair and maintenance of village roads, (b) the repair and maintenance of portions of other roads lying within the Union Committee's jurisdiction which may be made over to it by the Local Board, (c) the charge of pounds, (d) the management of primary schools, (e) the charge of dispensaries, (f) the registration of vital statistics, and (g) sanitation, including drainage and water-supply. The Union Committee, it will be observed, is vested with powers in all these matters as the agent of the Local Board, and no power devolves on it in respect of those matters which have not been placed under the control and administration of the Local Board itself, with one exception. That exception is contained in section 118 of the Act, which empowers the Union Committee to levy a rate similar to that levied for the support of village *chaukidars*, for the purpose of cleaning or repairing public tanks, streams, well or drains within the Union. This useful provision will make it possible to procure funds for what has long been felt to be one of the most crying wants of rural Bengal—a pure water-supply for the villages in the interior, which cannot be provided with it under the Municipal law.

5. The Union Committee is to be placed in possession of means for carrying out its duties by the creation of a Union Fund, which will be composed of receipts from the following sources:—

- (1) all sums accruing within the Union under the Cattle Trespass Act, 1871;
- (2) all sums assigned by the Lieutenant-Governor or District Board, whether as a contribution towards the cost of making village roads, or otherwise;
- (3) all other sums received by the Committee in the execution of the Act, including the rate leviable under section 118.

The Union Fund is applicable to the payment, first, of the establishment employed and expenses incurred for the purposes of the Act, and, next, of the expenses incurred in respect of the duties imposed and powers conferred in the matters specified above. Under section 36 of the Act the Committee cannot create an appointment with a monthly salary of ten rupees or more without the consent of the Local Board.

6. Provision for the control of Union Committees by the Local Boards is made in various sections of the Act. Section 103 provides that the Local Board shall exercise general powers of supervision and control over the Committee; section 130 confers on the Local Board, in respect of Union Committees, the power vested in the Commissioner of the Division and the Magistrate of the district of suspending the execution of any order or resolution of, or the doing of any act by, a local authority, if injury or annoyance to the public, or any class or body of persons, or a breach of the peace is likely to result, and also the power vested in the Magistrate of the district of providing in cases of emergency for the execution of any work or the doing of any act at the cost of the District Board; and section 58 requires the submission of quarterly and yearly accounts of the Union Fund to the Local Board.

7. The way for the creation of Union Committees has been facilitated by the intelligent use which some Magistrates have made of the powers conferred on them by section 4 of the amended *Chaukidari Act*, according to which they are able to prescribe what is to be called a village under the Act. The Magistrates in the Dacca Division, under Mr. Luttmann-Johnson's guidance, have taken the lead in this measure, and in the Backergunge district Mr. Savage has grouped his people together in "villages" which on an average contain 1,000 houses, and are served by about 10 *chaukidars* with a *jamadar* of *chaukidars* over them. Such "villages," or several of them, when the circumstances are in other respects convenient would form suitable areas for the new Unions; and the fact that the taxation which it is proposed to levy

under section 118 conforms entirely to that under the Chaukidari Act, leads to the suggestion that the Chaukidari Panchayat should as far as possible be utilised as the nucleus of the Union Committee. Their appointment would be an inducement to the better class of residents to serve on the Panchayats, and thus tend to effect a much-needed improvement in the constitution of those bodies.

8. After careful consideration of the reports received, the Lieutenant-Governor has decided to introduce the system of Union Committees experimentally in localities which offer the best conditions for its success. Caution is essential in the first instance, and it is inadvisable to apply these provisions of the Local Self-Government Act generally so as to bring into existence at once a large number of Unions. It will be sufficient to create one or two Union Committees in each sub-division of the districts of the Presidency, Burdwan, Dacca and Chittagong Divisions, except Bankura and Birbhum, in such places as the Magistrates and the Commissioners may select. The places chosen should be villages verging on the status of towns, though not quite large enough to be municipalities, or groups of villages, in which (a) there are men of such social standing and education as to fit them to take the lead in the administration of the Union, (b) the population is dense, and (c) great need of sanitary improvements exists. As a general town, whether a small mufassal town or a group of villages is taken, the limits should be so fixed that the population should be about 10,000 and the area about 10 square miles. It should, if possible, be constituted one "village" under the Chaukidari Act, or, if there is any objection to this, at all events it should be continuous with a group of two or more such villages. It will rest with the local officers to consider and recommend whether some of the members should be elected or whether all should be appointed. Some must in any case be appointed; but partial election and partial appointment are permissible under section 41. The Lieutenant-Governor is doubtful whether, in the experimental stage, it is expedient to leave the constitution of the Committees (even in part) to election. It is important that the best men available, including members of the Chaukidari Panchayats, should be secured, and of this there might be no guarantee under the elective system until the people have become familiarised with the functions entrusted to the Committees. The Union Committees should elect one of their number to be the Chairman. Special provision for the appointment of a Chairman is not made in the Act. Rules of business are unnecessary. The proceedings can be regulated by the Chairman in consultation with the members.

9. The Union Fund will consist of the net income of the Union pound, of grants from the District Board, and of the sums which will be levied by the Union Committee under section 118 of the Act. There should be a pound in each Union. It should be periodically settled by the Local or District Board, along with other pounds of the district, according to the existing practice; but the supervision of the farmer if it is farmed, or the manager if it is held "khas," should remain with the Union Committee, and the Committee should receive the net income of the pound after deduction of the cost of management and of any other expenses which may have been incurred by the District or Local Board. The Lieutenant-Governor thinks that the grants made by the District Board should be on the basis of the average amount spent within the Union during the past three years under the heads of expenditure of which the Committee is to have charge, but the assignments may be on a more liberal scale, if they are found to be inadequate on this method of calculation. Section 118 of the Act authorizes the Union Committees to cleanse or repair any public tank, stream, well or drain, within a cost of Rs. 100, out of the Union Fund, or, if such fund be not sufficient, to levy the cost from the residents of the Union in the manner provided for the levying of the chaukidari tax. The Committees would, under this provision, be able to obtain the means of improving the water-supply of their Unions, and could do much useful work in that direction.

10. In view of the large demands on the District Funds for the general requirements of the districts, the funds which will be placed at the disposal of the Union Committees cannot be large. Care must, therefore, be taken to avoid extravagance in establishment, and expenditure on works must be closely supervised. The employment of any permanent establishment will, the Lieutenant-Governor hopes, be avoided, and the work of keeping up the accounts and the proceedings of the meeting will perhaps be voluntarily undertaken by a member of the Committee, whose position would be analogous

to that of the collecting member of the Chaukidari Panchayat. The accounts of the Union Fund may be kept in English or the vernacular, and will be subject to the audit of the Local Board. The Accountant-General will be requested to prescribe a simple form of accounts. For the carrying out of works any establishment required should be temporary, and the cost should be debited to the particular work. Ordinarily, however, the supervision of works might be divided between the members of the Committee. It will also be hardly necessary to employ a peon or chaprasi. For the service of any notice, the village chaukidars might be employed, but it would be understood that they are not to be utilised to the detriment of their police duties.

11. Of the matters which may be made over to the Union Committees, the collection of vital statistics is already carried out through the police, and the management of public dispensaries has remained with the District Boards in most districts, subject to the general supervision of the Civil Surgeon. In neither case would a change be advantageous. The control of primary education has in many districts not been transferred to the Local Boards, its retention in the hands of the District Boards themselves being deemed more conducive to efficiency. In such districts Union Committees will necessarily not be entrusted with the charge of primary schools; and even where the Local Boards possess powers in respect of such schools, it would perhaps be inadvisable to delegate them to the Union Committees in the first instance. Some aid might, however, be obtained from the Committees by the appointment of their members as visitors. The repair of village roads lying within the Union area, and of such other roads passing through the Union as the Local Board may delegate, and the charge of sanitation and water-supply, should be given over to the Union Committees, and should form their principal duties. The necessary powers, where this has not already been done, should now be conferred on the Local Boards of the sub-divisions in which Union Committees are to be established, in order that they may be delegated to the Committees.

12. The Lieutenant-Governor desires that the Commissioners of the Burdwan, Presidency, Dacca, and Chittagong Divisions may as soon as possible submit proposals for the establishment of Union Committees. The District Officers should select the villages or groups of villages which are to be formed into Unions, and which in every case should be identical with one or more villages framed under the Chaukidari Act, and submit a report to the Commissioner, showing the position of the Unions on the District map, giving the area and population of the proposed Unions, and an estimate of the funds which are likely to be available for each Committee, explaining what work each Committee is likely to have under the different heads, and offering suggestions on the mode of forming the Committees, whether by appointment only, or by a combination of appointment and election, and on any other matter which it may appear desirable to consider. It is necessary, under section 37 of the Act, to notify in each case the extension of the Act to the area included in the Union, but it will be sufficient to mention in the notification the name of the "village" or "villages" under the Chaukidari Act. Rules for the election of members of Union Committees will be found in the *Calcutta Gazette* of the 16th December 1885, and these can be used in drawing up schemes for election if the District Officer desire to adopt that method; but in every case the Lieutenant-Governor directs that some members at least should be appointed, and that some of the members of the Chaukidari Panchayat should be on the Union Committee. The District Officers' reports should be promptly forwarded to Government by the Commissioners, with their own remarks. The Accountant-General will be requested to frame rules of account under section 58 of the Bengal Local Self-Government Act III of 1885 for the approval of Government.

ORDER.—Ordered that copies of this Resolution be forwarded to the Commissioners named therein, and that it be published in the *Calcutta Gazette* for general information.

Ordered also that a copy be forwarded to the Accountant-General for information and for submission of draft account rules for the guidance of Union Committees. His attention is drawn to paragraph 10.

Ordered also that copies of the Resolution be forwarded to all Departments of the Bengal Secretariat and to the Sanitary Board, the Inspector-General of Civil Hospitals, and the Sanitary Commissioner.

By order of the Lieutenant-Governor of Bengal,

# RESOLUTION ON THE ANNUAL RETURNS SHOWING THE WORKING OF THE VACCINATION DEPARTMENT IN BENGAL DURING THE YEAR 1893-94.

MUNICIPAL DEPARTMENT—SANITATION.

*Calcutta, the 4th September 1894.*

RESOLUTION—No. 3647S.

READ—

The Statistical Returns of Vaccination in Bengal for 1893-94, with brief notes by the Sanitary Commissioner.

These returns were due on the 15th June, but reached Government on the 8th August. The delay, although less than it was last year, is still very unsatisfactory. It is attributed to the late submission of the returns from certain districts, and the receipt of incomplete and incorrect figures from others. The Provincial returns, it is stated, could not be closed until the figures were complete. It is, however, a mistake to conceive that a report cannot be begun till the last return comes in. If they are received and tabulated month by month, errors and discrepancies would be detected in good time, and the Lieutenant-Governor fears that it is to a want of proper management in the office that the unpunctuality of the report is due. The work of the department is said to have been greatly interfered with during the year by constant changes among the Deputy Sanitary Commissioners and Superintendents of Vaccination. These changes were unfortunate, but they were presumably unavoidable. It is hoped that the Inspector-General of Civil Hospitals will co-operate with the Sanitary Commissioner in future in trying to minimise such changes.

2. *Strength of local working and supervising staff.*—The following table shows the strength of the local working and supervising establishment during 1893-94 as compared with the previous year:—

YEAR.	INSPECTING STAFF.						OPERATORS.					REMARKS.
	Superintendents.	Deputy Superintendents.	Inspectors.	Sub-Inspectors.	Head vaccinators.	Total of inspecting staff.	Vaccinators.		Apprentices.		Total of operators.	
							Government or paid.	Licensed.	Government or paid.	Licensed.		
1	2	3	4	5	6	7	8	9	10	11	12	13
1893-94	50	1	63	137	14	205	458	1,830	13	985	3,266	
1892-93	50	2	61	135	11	259	405	1,750	14	864	3,039	

The decrease of one Deputy Superintendent is only apparent, being due to the change of designation of the officer in charge of the Calcutta Animal Vaccination Depôt from Deputy Superintendent to Inspector. The increase of head vaccinators was found to be necessary to provide for extra supervision in the Orissa Tributary States. The inclusion of the staff of paid vaccinators employed in those States, which was omitted from the last year's returns for want of information, the employment for the first time of special establishments paid by the District Boards of Puri and Noakhali and by zamindars in Tippera, and also the appointment of a small extra Government staff in certain districts where small-pox broke out, account for the increase in the number of paid vaccinators. It appears from the report to be the practice to include in the number of paid operators Civil and Assistant Surgeons who perform any operations with their own hands. The regular operators only should be shown in future. The Commissioner of Orissa has reported in his General Administration Report of the Division that a decrease took place in the number of vaccinators in Balasore owing to the demand of a security deposit of Rs. 10. The Sanitary Commissioner is requested to report what necessity exists for this security, whether it is taken elsewhere, and whether it deters men from offering their services as vaccinators.

3. *Number of operations and average per man.*—The total number of vaccinations, and the average number performed by each operator during the year, as compared with the previous year, were :—

Year.	Total number of vaccinations performed.	Average number of operations per man.
1893-94 ... ..	1,844,304	560
1892-93 ... ..	1,836,411	603

The average number of operations per man compares unfavourably with that for 1892-93. The Lieutenant-Governor, however, notices with pleasure an increase in the number of operations in some districts, especially Dacca, Chittagong, Shahabad, Champaran, and Monghyr, the Civil Surgeons of which merit commendation for their good work. It should have been explained whether there were any special causes accounting for the increase which in Dacca is exceptionally large, an increase of 30,000 operations or 30 per cent. In the case of the South Lushai Hills, the return of 16,962 operations is suspicious and hard to credit. The number is very large for so small and scattered a population, and implies that each of the nine vaccinators employed vaccinated 1,885 people—a far larger figure than that returned for any other district.

4. *Protection afforded to infants.*—The total number of infants under one year of age was estimated at 2,461,862, of whom 363,942 or 147·83 per thousand were vaccinated, this result being a little better than that of the previous year, when the degree of protection was only 125·49 per mille. A comparison with the percentages attained in other Provinces, however, shows that far less success has been achieved by the Department in Bengal than in most parts of India, and that attention should be specially directed to such changes in the system here as are likely to smooth down opposition and popularise vaccination. The best results have been obtained in Lohardaga, Malda, Palamau, and Darjeeling, while Backergunge, Cuttack, Patna, and Puri show the worst. There are marked differences between districts which differ but little, if at all, in the character of their population, and these are apparently to be accounted for only by very unequal activity in carrying on operations in the various parts of the Circles.

5. *Primary operations.*—The ratio per cent. of successful cases for the entire Province is returned at 99·20, against 99·32 in the previous year. These figures appear to the Lieutenant-Governor incredibly high, but it does not appear that they have awakened distrust in the minds of the Sanitary Commissioner or the Civil Surgeon, or have been subjected to any special examination. Indeed, save in a few districts, notably Backergunge, Chittagong, Puri, Burdwan, and Jessore, the results of inspections made by the Civil Surgeons bring out almost or quite as remarkable ratios of success. It seems possible that Civil Surgeons in their rapid visits of dispensary inspection have not much time to linger in a village, and that they only see such children as are presented before them who presumably are those who have “taken” well. It is desirable that they should have a list prepared beforehand of the operations reported by the vaccinator in the village they intend to visit and should send for and inspect the children in that list. The amount of success attained in the number thus collected would probably be less than 99 per cent.

6. *Secondary operations.*—Column 2 of the statement of re-vaccinations has been left blank in the case of certain districts, but, as under standing orders of Government in the Political Department, every prisoner is to be vaccinated on admission, the column ought not to be altogether vacant for any district in which there is a jail. The high percentages of successful cases against the districts of Rajshahi, Rangpur, Faridpur, Backergunge, Tributary States, Lohardaga, and Palamau, are hardly credible.

7. *Vaccination at the expense of District Boards.*—The District Board of Puri allotted Rs. 850 for free vaccination, and Rs. 40 were contributed by the District Board of Noakhali. The increase in the number of operations in Puri from 14,199 to 16,828 as compared with the figures of 25,196 and 19,720 in 1890-91 and 1891-92 hardly bears out the Sanitary Commissioner's remark that a remarkable impetus has been given to vaccination in that district by making it free. It is desirable, however, that the experiment should be continued. Mr. Coxe, the Magistrate, and Dr. Banks, the Civil Medical Officer, have displayed much interest in the working of the department.

8. *Cost of vaccination.*—The total cost of vaccination to the Government in 1893-94 was Rs. 1,80,200, against Rs. 1,65,601 in 1892-93, the average cost of each reported successful vaccination being 1 anna and 7 pies, against 1 anna and 5 pies in 1892-93. The cost shown for 1892-93, however, did not include the entire year. If the average cost of the last three years is taken, the cost of each case during the year under report was not actually in excess of past years.

9. *Death-rate from small-pox and proportion of population protected.*—A diagram is given in the report illustrating the death-rate from small-pox in each district as compared with the proportion of population protected by vaccination during the last seven years, 1887—94, in accordance with the orders of the Government of India contained in their letter No. 42, dated the 8th February 1894. The Sanitary Commissioner should have commented on this diagram. The following districts which return the highest death-rate from small-pox show also a very low ratio of protected population:—

District.	Protected per 10,000.	Death- rate from small-pox per 10,000.
Puri ... ..	1,500	18·5
Cuttack ... ..	1,000	11·0
Gaya ... ..	1,200	6·0
Manbhum ... ..	2,100	6·0
Bhagulpur ... ..	1,800	6·0
Palamau ... ..	1,500	4·2

Darjeeling, with 4,900 protected out of every 10,000 of the population, had a mortality of only ·13 per 10,000 from small-pox.

10. *Vaccination direct from village calves.*—The plan of vaccinating direct from calves in the villages, suggested by Dr. Dyson, was introduced during the year, but too late to admit of a full trial. The experiment should be continued during the ensuing season with all the precautions needed to give it a fair chance of success. This method of vaccination has been adopted with excellent results in the Punjab, and is receiving a trial in some districts of the Central Provinces. The Lieutenant-Governor agrees with the Sanitary Commissioner that the working of the scheme should not be left entirely to the subordinate staff. A series of interesting experiments in vaccination from the kid was made by Dr. Moir, and the results showed that children can be successfully vaccinated with lymph so obtained, but success was not obtained in inoculation from kid to kid. Dr. Moir has been requested to continue the experiments with the view of ascertaining whether such inoculation is possible.

11. *Animal Vaccine Depôts.*—The Lieutenant-Governor is glad to learn that the misunderstandings which prevented the full utilisation of these depôts during the past year have been since settled, and that arrangements have been made for the better working of the institutions in future, and for the regular supply of lanoline lymph during the working season. The depôts serve a most useful purpose in diminishing the need of arm-to-arm vaccination, and their development to the fullest extent is a matter of great importance.

12. *Inspections.*—The increased activity of Civil Surgeons in inspecting the work of the vaccinators deserves commendation. One Civil Surgeon inspected over 10,000 operations, six from 5,000 to 10,000, thirty-two from 1,000 to 5,000, and eight under 1,000. In 1892-93 five inspected from 5,000 to 10,000, twenty-four from 1,000 to 5,000, and sixteen under 1,000, while one made no inspections. The improvement is perhaps greatest in Patna, but in many districts the work received very inadequate attention, and much more should be done in future. Chittagong, Cuttack, Nadia, Rangpur, the 24-Parganas, Balasore, and some others show very poor inspections. The special attention of the Civil Surgeons should be drawn to the matter. In Calcutta the Health Officer has done very little inspection. The Deputy Sanitary Commissioners inspected 1,516 villages, against 1,032 in the previous year. The increase is satisfactory.

13. Vaccination is perhaps the least successful of all the departments under the Bengal Government, and the Lieutenant-Governor regrets to observe

that there is in this report no indication of any consciousness of this failure—and no hint of any special efforts by the Sanitary Commissioner to ascertain and remedy its causes. The comparatively small number of operations in Bengal is the fact which has to be explained, testifying as it does to the unpopularity of the process. The attitude of the people towards vaccination is described in the reports, as it has often been described before, as one of passive acceptance with very strong objections to pay for the operation. The Sanitary Commissioner would either extend the compulsory provisions of the Act throughout rural areas, or make vaccination free. Compulsory vaccination does not, however, exist in other provinces to a large extent, and they have nevertheless been more successful than Bengal. As to making vaccination free, and entertaining all the vaccinators as paid servants of Government, although the fee of 2 annas which has to be paid must tend to diminish the number of willing patients, it is hard to believe that it is the sole or even the main deterrent. It is more probable that the fact to be explained is due to distrust in vaccination as a prophylactic, and the principal duty of the Sanitary Commissioner is to remove that distrust by operating against its causes. If the percentage of success was really any thing like as high as it is reported, the fact of immunity against small-pox would be patent to the eyes of every one, and vaccination would be sought after. We have seen how popular inoculation against cholera is, even when its results are not firmly established in the eyes of scientific men, and there ought to be the same rush after vaccination instead of the present difficulty to induce people to avail themselves of it. The Lieutenant-Governor trusts that the Sanitary Commissioner will set himself to discover the causes of the distrust felt, and, so far as the distrust is justified, to remedy and remove them by insisting that the lymph used by vaccinators is really what it ought to be, and that he will be effectively supported by the efforts of all Civil Surgeons and District Officers in the Province. The supply of good lymph, whether in tubes from the two central depôts or direct from calves operated on locally, will probably effect a considerable improvement.

By order of the Lieutenant-Governor of Bengal,

C. W. BOLTON,

*Offg. Secy. to the Govt. of Bengal.*

REVENUE DEPARTMENT.

No. 4605 Agri.

FINAL FORECAST OF THE JUTE CROP  
OF BENGAL FOR THE YEAR 1894.

The following is published for general information.

C. E. BUCKLAND,  
*Secretary to the Govt. of Bengal.*

REVENUE DEPT.,  
*The 1st September, 1894.*

DEPARTMENT OF LAND RECORDS AND AGRI-  
CULTURE, BENGAL.

*Final Forecast of the Jute Crop for season 1894 (to the middle of August).*

*Season.*—The character of the season up to the middle of June was briefly described in the Preliminary Forecast published on the 29th June 1894. Up to the end of May, the rainfall was abundant and well distributed in East and North Bengal, which comprise the most important jute-producing districts in Bengal. In the districts of South-West Bengal, East Bihar, and Orissa, the rainfall of May was, however, generally short of the normal. In June the rainfall was much short of the normal in almost all the districts of North Bengal, and also in Jessore, Murshidabad, and Dacca; elsewhere it was either normal or in moderate excess. In Cuttack alone the rainfall during June was excessive, having amounted to nearly twice the normal fall, and gave rise to floods. During July the rainfall was abundant everywhere except in North Bengal, which continued to suffer from a greater or less deficiency of rain until the close of July. At the end of July there was a general and heavy fall of rain throughout North Bengal, which nearly made up for the deficiency of rain during June and July. During the first-half of August the rainfall appears to have been favourable in every district. But for the deficiency of rain during June and July in North Bengal, the season would have proved to be highly favourable to the cultivation and growth of the jute crop. The crop does not appear to have suffered anywhere from the early rise of the rivers or from floods, except in Cuttack, which is, however, comparatively unimportant as a jute-growing district.

2. *Area sown.*—The total area sown in jute in Bengal is estimated by the District Officers, in returns appended to this note, to amount to 2,236,500 acres, against 2,222,600 acres estimated to have been sown last year. The increase in area is inappreciable.

3. *Character of the crop.*—Only one district, viz. Tippera, returns a bumper crop, or crop above 16 annas (16 annas being the formula approved for Government returns for an average crop); ten districts—namely, Nadia, Jessore, Rajshahi, Rangpur, Bogra, Pabna, Mymensing, Faridpur,

Purnea, and Malda—return the crop as from 14 to 16 annas; in ten districts—namely, Burdwan, 24-Parganas, Khulna, Dinajpur, Jalpaiguri, Darjeeling, Dacca, Backergunge, Noakhali, and Bhagalpur—the outturn of the crop is estimated at from 12 to 14 annas; and in five districts—namely, Hooghly, Midnapore, Murshidabad, Cuttack, and Balasore—(in all of which districts the crop is comparatively unimportant) it is estimated below 12 annas. In the districts of North Bengal, the deficiency of rainfall during June and July is reported to have injured the crop to the extent of 1 to 4 annas; on the other hand, owing to the favourable distribution of rainfall, the crop is reported to have slightly improved in East and South-West Bengal since the first forecast was published. On the whole, the crop has not suffered any material injury from short rainfall in June and July. After allowing for a tendency in the district returns, which was noticed in the first forecast, published on the 29th June 1894, to underestimate outturn, it is estimated by this Department that the outturn of the crop of 1894 will be slightly above an average, or 16-anna crop; and that it will probably be slightly better than that of the crop of 1892.

4. *Gross outturn of the crop.*—An attempt has been made, as in the previous year, to estimate the gross outturn of jute during the current season, and to compare it with the estimated gross outturn of 1893. For this purpose, an all-round rate of 1,200lbs. or 3 bales has been assumed (as in previous reports) to be the average rate of production per acre for every jute-growing district in Bengal. The gross outturn of jute this year would appear to amount to 30,324,000 maunds (6,064,800 bales), against 25,003,500 maunds (5,001,700 bales) estimated to have been produced last year. The crop of 1893 having been estimated at  $13\frac{1}{2}$  annas, the character of the present crop may be expressed as  $\frac{600}{500}$  of  $13\frac{1}{2}$  annas, that is, as  $16\frac{2}{5}$  annas.

It may be asked what becomes of that part of the jute crop which is not exported. It was stated in 1893 that local mills consume about 15 lakhs of bales. It has been roughly estimated by certain district officers that the domestic consumption of jute may amount to 4 seers per head of the population in certain Bengal districts. There is, however, no very reliable information on this point.

It will be remembered that although these returns are confined to 26 districts, a little jute is grown in other districts, and a certain amount, probably representing half a lakh to three-quarters of a lakh of bales, comes from the Assam Province.

5. The quantity of jute (inclusive of cuttings and rejections) likely to be available for export out of this year's crop is estimated at 31 to 32 lakhs of bales, against 31 lakhs of bales exported from the crop of 1892, and 25 lakhs of bales exported from last year's crop.

B. C. BASU,

*Assistant Director of the Department of  
Land Records and Agriculture, Bengal.*

Countersigned.

W. C. MACPHERSON,

*Director of the Department of Land Records  
and Agriculture, Bengal.*

*The 29th August 1894.*

## Final Report on the Jute Crop of Bengal for the year 1894.

District.	ACREAGE.						OUTTURN IN BALS OF 40 LBS.						Percentage by which column 2 exceeds (+), or falls short of (-) outturn in			Remarks by the District Officers.	Remarks by the Department of Land Revenue and Agriculture, Bengal.
	Of current year's crop.	Of previous year's crop.	Normal.	Percentage by which column 2 exceeds (+), or falls short of (-) area in		Taking 10 ams to represent the average outturn per acre, how many ams will represent this year's outturn (1894)?	Taking 10 ams to represent the average outturn per acre, how many ams represented outturn last year (1893)?	Estimated yield of current year, % of area in column 2.	Yield of area in column 2 at full standard rate.	Yield of area in column 3, % of area in column 2.	Normal.	Column Column.					
				Column 3.	Column 4.							10.	11.	12.			
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	
Burdwan ...	10,800	10,800	11,100	+0.32	-1.50	114	81	24.10	32,700	16,600	33,300	-25.30	+45.19	-27.62	In the Sadar and Kalna subdivisions, the outturn will be better than that reported in the first forecast, owing to timely rainfall. In the Katwa subdivision, however, some late rainfall has affected the outturn. Owing to late rainfall the outturn will be worse than last year in the Raniganj subdivision.	The Collector estimates the average rate of outturn per acre of jute for the Sadar subdivision at 750 lbs. In this return it has been assumed to be 1,200 lbs.	
Midnapore ...	10,800	11,100	20,900	-2.70	-48.32	91	81	19.20	32,400	18,000	62,700	-40.74	+6.66	-63.37	There have been some changes in the figures shown in columns 2, 3, 4 and 8, owing to wrong figures having been shown last year, and partly to more lands having been brought under cultivation since the submission of the first forecast this year. Owing to want of rain in the sowing time, the area brought under cultivation has been less than last year's area, but there being some rain at last, the outturn will be a little better.	The Collector estimates the average rate of outturn per acre at 1,000 lbs., but in this return it has been assumed to be 1,200 lbs. per acre for the sake of uniformity.	

District.	ACREAGE.				OUTTURN IN BALES OF 400 LBS.										Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.			
	Of current year's crop.	Of previous year's crop.	Normal.	Percentage by which column 2 exceeds (+), or falls short of (-) area in	Column 3.	Column 4.	Taking in aunes to represent the average outturn per acre, how many aunes will represent this year's outturn (1884)?						Taking in aunes to represent the average outturn per acre, how many aunes represented outturn last year (1883)?						
							Column 5.	Column 6.	Column 7.	Column 8.	Column 9.	Column 10.	Column 11.	Column 12.			Column 13.	Column 14.	Column 15.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17			
Hoghly	12,300	14,300	14,300	-12.58	-12.58	10	12	23,400	37,500	32,200	42,900	-37.80	-20.08	-45.45	Since submission of the first forecast the rains have been normal and the outturn is expected to be as estimated previously.				
24 Parganas	35,400	41,200	48,600	-14.07	-27.16	13	8	86,300	106,200	61,800	115,800	-18.73	+39.64	-40.81	This year's crop is expected to be better than the last year's, owing to the seasonable rainfall; but not to exceed 13 aunes, although in the preliminary forecast it was expected to be an average one.				
Khulna	17,800	21,500	22,500	-17.21	-20.88	13	11	44,100	53,400	44,300	67,500	-17.11	-0.45	-34.88	Owing to the want of timely rain there has been decrease in area in the Satkhira sub-division. The outturn of the district per acre has resulted somewhat better than that reported in the preliminary report. The area under jute is, however, less than that of last year.				
Nadia	47,000	46,700	47,000	+0.64	.....	14	9	123,400	141,000	75,500	141,000	-12.50	+56.80	-12.50	Owing to timely and normal rainfall, and the late rise of the rivers, the outturn is expected to be 14 aunes.				

See over	28,600	29,500	41,500	+ 13.50	- 19.03	14	7	86,900	100,900	38,700	151,600	- 12.50	+ 127.91	- 29.16	<p>Last year's crop was greatly injured by abnormal rainfall. This year the crop is almost an average one, owing to favourable rainfall. Owing to excessive rainfall, much of the lands usually brought under cultivation could not be sown last year; while during the year, owing to the seasonable rainfall and high prices which ruled the market, more lands were cultivated. The fall of the area below normal is due to more lands being brought under the cultivation of <i>til</i>, which allows another crop to be raised on the same land.</p> <p>The decrease in the outturn is due to the want of timely rain.</p> <p>Want of rain interfered to some extent with the growth of the crop. But the outturn would have been a 16-anna one if there had been enough water to steep the plant in.</p> <p>The high price of jute that obtained in the past year, and the high price at present prevailing induced the cultivators to extend the cultivation, and hence the increase in area as compared with last year. Owing to want of sufficient rain in the Noagson subdivision, the cultivators could not steep and wash the jute properly, and hence a 12-anna outturn is estimated for that subdivision. The outturn of both the Nator and Gadar subdivisions is estimated at 18 annas, as before, owing to the want of sufficient rainfall in the Noagson subdivision, the crop suffered much, and hence the difference in the average outturn between this and the preliminary forecast.</p>
Murhidabad...	21,700	29,900	30,800	- 27.42	- 29.08	10	13	46,700	65,100	72,800	91,800	- 37.48	- 44.17	- 55.06	
Dinsajpur	107,500	106,500	99,500	+ 0.93	+ 8.04	13	16	941,900	822,500	319,500	298,500	- 45.00	- 24.28	- 16.23	
Rajshahi	105,200	100,100	104,500	+ 5.09	+ 0.67	14½	12½	296,300	315,000	254,600	313,500	- 8.42	+ 23.31	- 7.72	

DISTRICT.	AVERAGE.					OUTTURN IN BALES OF 400LBS.								Percentage by which column 9 exceeds (+), or falls short of (-) outturn in			Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.	17
	Of current year's crop.	Of previous year's crop.	Normal.	Column 3.	Column 4.	Taking 10 annas to represent the average outturn per acre, how many annas will represent this year's outturn (1894)?	Taking 10 annas to represent the average outturn per acre, how many annas represented outturn last year (1893)?	Estimated yield of current year, i.e., of area in column 2, of area in	Yield of area in column 2 at full standard rate.	Yield of previous year, i.e., of area in column 3.	Normal.	Column 10.	Column 11.	Column 12.					
1																			
Rangpur	286,200	288,100	278,500	- 0.68		+ 2.76	14	13	751,300	858,000	720,200	835,500	-12.50	+ 4.31	-10.08		In the preliminary forecast the outturn was estimated at 16 annas, but want of rain afterwards affected injuriously the growth of jute. The increase in the area sown over the normal area is due to rise of price of jute and favourable rainfall at the commencement of the cultivation of the crop.		
Bohara	75,000	75,600	76,000	.....		-1.31	14	12	196,000	225,000	168,700	228,000	-12.50	+16.71	-13.64		Owing to scanty rainfall during the whole of June and part of July, the growth of the plants all over the district was stunted, but the subsequent showers have greatly benefited the low land plants and, so far as I can judge from present prospects, an outturn of 2 annas below normal seems likely.		
Fabna	174,500	197,200	186,400	-11.31		-3.53	14	12	468,100	523,500	413,700	512,700	-12.50	- 3.21	-15.38		The outturn would have been 16 annas, but the late sown crops were damaged at an early stage of progress by a kind of insect locally called <i>saika</i> . Report of such damages has been received from the agriculturists of Murkuta on the east of the		

District.	ACREAGE.						OUTPUT IN BALES OF 400 LBS.										Percentage by which column 7 exceeds (+), or falls short of (-) area in			Remarks by the District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.

												Column 10.	Column 11.	Column 12.							
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17					
Tippura	212,000	227,800	225,000	-11.53	-5.73	19	104	715,500	690,000	472,100	675,000	+12.50	+51.53	+6.00	In low lands into is a bumper year, but as in high lands it appears to have suffered slightly from the hot and dry weather in April, I estimate the output at 15 annas instead of 20 annas for the whole district.						
Nokkali	9,500	9,500	9,500	...	...	18	9	23,200	25,500	11,200	28,500	-19.50	+63.38	-18.58	.....	A later communication from the Collector states that the return requires much alteration.					
Bhagalpur	10,000	10,000	10,000	...	...	13	16	44,100	53,500	58,000	50,800	-25.00	-25.00	-25.00	Sowing was delayed on account of delay in rain, but subsequent rainfall improved the prospects of crops.						
Purnea	75,000	69,000	62,000	+8.69	+20.27	16	15	235,000	225,000	194,100	186,000	+15.72	+20.58	+20.58	The rainfall at the beginning of the season was in time to start the plants well; there was not much rain after that, and so no damage was done to the young plants.						

	35,500	31,500	45,000	+12-63	-21-11	16	13	104,500	106,500	70,900	135,000	...	+50-21	-21-11	<p>The increase in area sown this year is due to high price and demand of jute last year. The rainfall was favourable to jute cultivation on the whole, and a 10-anna outturn is at present expected in the first crop. As remarked in the first forecast sowing had not been completed when the report was submitted, and the area which had been then sown was shown. In the present return the total area sown has been given, and this accounts for the difference between the areas shown in this and the first forecast. Absence of rain at the time of ploughing and sowing, and then heavy rain attended with floods, have reduced the outturn from 11 annas, as reported in the preceding forecast, to 10 annas.</p> <p>In the preliminary forecast of the jute crop, the area under jute was estimated at 2,300 acres, but it is now found to be 2,600 acres. The decrease in the outturn is due to the want of rain during the growth of the crop.</p> <p>The Collector estimates the rate of yield per acre this year for the district as a whole at 480 lbs. but in this report it has been taken to be 750 lbs. per acre, that is, on the assumption of 1,200 lbs. per acre as the 16-anna or average rate of outturn per acre.</p> <p>(a) Estimates by this Department. The arithmetical means of the district estimates are 14½ and 12 annas for this and last year respectively. These estimates have been raised by this Department for reasons stated in paragraphs 3 and 4 of the Note.</p>

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 1st September, 1894.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
<b>BENGAL.</b>			
BURDWAN DIV.	1 Burdwan Sept. 1, '94	0.38	Weather—seasonable. <i>Aman</i> cultivation nearly finished. Prospects of sugarcane good. Fodder and water sufficient. Prices of common rice:— Srs. Burdwan ... 11½ to 15 Kalna ... Not reported. Katwa ... 13½ Raniganj ... 14 } per rupee.
	Kalna ...	Not reported.	
	Katwa ...	2.65	
	Raniganj ...	6.58	
	2 Birbhum " 1, '94	0.83	Weather—seasonable. Transplantation of paddy completed and fields being weeded. Sugarcane generally looks well. Common rice sells from 13 to 15 seers per rupee. Cattle doing fairly well.
	Rampur Hât ...	1.95	
	3 Bankura " 1, '94	2.54	Weather—seasonable. Prospects of crops generally good. Prices of coarse rice:— Srs. Bankura ... 16½ Vishnupur ... 16½ } per rupee.
	Vishnupur ...	4.61	
	4 Midnapore " 1, '94	0.59	Weather—seasonable. Prospects of all crops continue good except in Contai. Prices of common rice:— Srs. Sadar ... 14 Contai ... 13 Ghatal ... 13 to 14 Tamluk ... Not reported. } per rupee.
	Ghatal ...	8.61	
	Contai ...	1.37	
	Tamluk ...	Not reported.	
	5 Hooghly " 1, '94	0.32	Weather—bright with very little rain. Transplantation well advanced. Harvesting of <i>aus</i> commencing. All crops doing well except in thana Kristonagore in the Serampore subdivision. Prices of common rice:— Srs. Sadar ... 10 Serampore ... 10 to 11½ Jahanabad ... 13 } per rupee.
	Serampore ...	1.29	
	Jahanabad ...	4.40	
	6 Howrah " 1, '94	0.90	Weather—close and cloudy. Jute and <i>aus</i> being harvested. Transplantation of <i>aman</i> over a large area completed, and still going on in places. Prospects favourable, but rainfall deficient. Prices of rice— Srs. Ulubaria ... 9 to 10½ Howrah ... 10 } per rupee. Prices continue normal. Fodder and water-supply plentiful.
	Ulubaria ...	1.44	
PRESIDENTY DIV.	7 24 Parganas " 1, '94	0.39	Weather—seasonable. Transplantation of <i>aman</i> and harvesting of <i>aus</i> and jute going on. Condition of cattle good. Fodder and water sufficient. Rice sells at— Srs. c. Sadar ... 11 to 13 0 Barasat ... 10 10 Basirhat ... 11 0 Diamond Harbour ... 11 0 } per rupee.
	8 Nadia " 1, '94	1.95	Weather—seasonable. Prospects of crops good; but in certain places some damage is said to have been caused by floods. Price of rice steady at 11 to 13½ seers per rupee.
	Kushtia ...	1.32	
	Meherpur ...	4.92	
	Chudanga ...	1.92	
	Ranaghat ...	2.41	
	9 Murshidabad ...	...	Report not received.
	10 Jessore " 1, '94	1.46	Weather—seasonable. Harvesting of <i>aus</i> and steeping of jute still going on. Transplantation of <i>aman</i> in progress. Lands are being prepared for the next <i>rabi</i> crops. Prospect of lowland <i>aman</i> good. Fodder and water sufficient. Cattle-disease still prevails in thana Gaighatta. Prices of common rice as below:— Srs. c. Sadar ... 11 to 12 0 Jhenida ... 12 0 Magura ... 12 12 Narail ... 12 0 Bongong ... 10 to 12 8 } per rupee.
	Jhenida ...	8.17	
	Magura ...	1.23	
	Narail ...	2.80	
	Bongong ...	3.74	
	11 Khulna " 1, '94	1.89	Weather—seasonable. Transplantation of <i>aman</i> continues. <i>Aus</i> and jute are being harvested. Rice sells from 10 to 12 seers per rupee. Fodder and water sufficient.
	Bagerhat ...	4.21	
	Sathkira ...	1.29	

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
<b>BENGAL—continued.</b>			
RAJSHAHI DIV.	12 Rajshahi Sept. 1, '94	Not received.	Weather—rainy and seasonable. Crops are in very good condition all over the district. In Nangaon the jute is giving so good an outturn that there is a complaint that there is not sufficient water for steeping. Occasionally dry weather is required for getting in <i>aus</i> paddy. There is no cattle-disease. Supply of fodder and water ample. Rice selling from 10 to 13 seers per rupee.
	Nator ...	2.58	
	Nangaon ...	3.45	
	13 Dinajpur .. 1, '94	5.56	Sufficient rain almost throughout the district. <i>Bhadai</i> and <i>haimanti</i> progressing. Supply of fodder and drinking-water sufficient. Rice selling from 10 to 12 seers per rupee.
	Thakurgaon ...	10.07	
	14 Jalpaiguri .. 1, '94	5.82	Showers alternating with sunshine. <i>Bhadai</i> has yielded a 12-anna crop on the average. Jute is yielding well and a 13 to 14-anna crop expected. <i>Haimanti</i> crop is in good condition, and an average or 16-anna crop is looked forward to. Cattle-disease is reported from some parts of the district.
	15 Darjeeling .. 1, '94	5.84	Weather—seasonable. In the hills:— <i>Bhutta</i> , <i>shama</i> , <i>kangni</i> , <i>chota marua</i> and <i>bhadai dhan</i> ripening. <i>Bara marua</i> and <i>aghani dhan</i> progressing favourably. In the Terai:— <i>Bhadai</i> and jute continue to be harvested. <i>Aghani</i> being transplanted favoured by late good showers. Prices of coarse rice:—
	Siliguri ...	11.95	
	16 Rangpur .. 1, '94	3.19	Weather—cloudy and rainy at intervals. Harvesting of <i>aus</i> almost finished. Eight to ten annas of the normal area of <i>aman</i> transplanted. Transplantation most backward in Kurigram. Steeping of jute in progress. More rain wanted. Price of rice 8½ to 11 seers per rupee.
	Gaibanda ...	4.57	
DACCA DIV.	Nilphamari ...	4.60	
	Kurigram ...	1.80	
	17 Bogra .. 1, '94	3.89	Weather—seasonable. Sufficient rainfall throughout the district. Harvesting of <i>aus</i> and jute not yet finished. Transplantation of <i>aman</i> still going on. Common rice selling at 11½ seers per rupee. Fodder and water sufficient.
	Sherpur ...	8.10	
	Naukhila ...	7.02	
	18 Pabna .. 1, '94	2.10	Weather—cool and rainy. Prospects of crops continue good in the Sadar subdivision and much improved in the Sirajganj subdivision by copious rainfall. Harvesting of jute and <i>aus</i> in progress. Common rice selling at 11 seers per rupee at Sadar and 10 seers per rupee at Sirajganj. Fodder and water-supply excellent.
	19 Dacca .. 1, '94	0.33	Weather—hot; cloudy with showers. Harvesting of jute and <i>aus</i> rice nearly finished. Prospects of standing crops good. Fodder available. Common rice selling from 9 to 13 seers per rupee. No cattle-disease.
	20 Mymensingh .. 1, '94	2.44	Weather—seasonable. Prospects of standing crops good. Common rice sells at 10 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.
	21 Faridpur .. 1, '94	1.02	Weather—seasonable. State of crops very promising. Rice sells at 11½ or 12 seers per rupee.
	Goalundo ...	2.36	
CHITTAGONG DIV.	Madaripur ...	2.69	
	22 Backergunge .. 1, '94	2.47	Weather—seasonable. State and prospects of crops good. Harvesting of <i>aus</i> is nearly over. There has been a 14-anna crop. Sowing and transplantation of <i>aman</i> still going on. Common rice sells from 9 to 13 seers per rupee. Fodder and water sufficient.
	Pirojpur ...	1.03	
	Patuakhali ...	2.82	
	Bhola ...	3.58	
	23 Tippera .. 1, '94	1.83	Weather—seasonable. Prospects of crops good, but on high lands <i>aman</i> is not likely to be a bumper crop as the floods this year are, it is believed, below the normal. On the other hand <i>raa</i> paddy is being planted more extensively than usual and will make up for any loss in <i>aman</i> . Price of rice almost stationary.
	Sadar—		Srs. c.

	Hajiganj ...	...	16 4
	Chandpur ...	...	15 0
	24 Noakhali .. 1, '94	0.72	Weather—fair and seasonable. Harvesting of <i>aus</i> nearly completed. Transplantation of <i>aman</i> continues. State and prospects of crops good. Outturn of coconut 10 annas. No cattle-disease. Fodder and water sufficient. Prices of common rice:—
			<i>Aus Aman.</i>
	Noakhali ...	...	Srs. 16 10 (per rupee.
	Fenny ...	...	16 10½
	25 Chittagong .. 1, '94	3.16	Weather—occasionally cloudy with slight rain. Harvesting of <i>aus</i> crop nearly over; 12-anna outturn expected. Agricultural operations continue; but a little more rain is wanted. Prices steady. Water and fodder sufficient.

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
<b>BIHAR.</b>			
<b>PATNA DIVISION.</b>	26 Patna Sept. 1, '94	1.14	Weather—hot and cloudy. Transplantation of rice almost finished. <i>Bhadol</i> crops doing well, but a little sunny weather is needed. Common rice selling at—  Srs. Sadar ... .. 14½ Barh ... .. 12½ Bihar ... .. 15 Dinapore ... .. 11 to 14½ } per rupee.
	Barh ...	8.42	
	Bihar ...	5.14	
	Dinapore ...	1.27	
	27 Gaya „ 1, '94	2.35	Weather—cloudy and rainy in the first part and bright in the latter part of the week. Transplantation of paddy completed. <i>Marua</i> and <i>makai</i> are being harvested. Common rice sells at—  Srs. Sadar ... .. 12 to 13 Jahanabad ... .. 12½ Aurangabad ... .. 15 Nawada ... .. 16 } per rupee.
	Jahanabad ...	3.81	
	Aurangabad ...	2.52	
	Nawada ...	1.56	
	28 Shahabad „ 1, '94	1.93	Weather—cloudy with occasional rain and alternate sunshine. Transplantation in the Bhabua subdivision has nearly finished; it is still in progress in other subdivisions. <i>Bhadol</i> damaged slightly by excessive rainfall. Prospects favourable. Prices show a tendency to rise in the Sasaram subdivision.
	Buxar ...	4.29	
	Sasaram ...	4.82	
	Bhabua ...	3.00	
	29 Saran „ 1, '94	0.79	Weather—fair with occasional showers. State and prospects of crops good, but in the Siwan and Gopalganj subdivisions <i>bhadol</i> slightly injured by excessive rain. Early <i>maize</i> being reaped in places. Paddy doing well. Fodder and water plentiful. Prices of common rice:—  Srs. c. Chapra ... .. 11 0 Siwan ... .. 12 8 Gopalganj ... .. 10 11 } per rupee.
	Siwan ...	5.13	
	Gopalganj ...	4.93	
	30 Champaran „ 1, '94	8.63	Weather—occasionally cloudy with more or less rain almost every day. Transplantation of paddy in rapid progress and will shortly be completed. <i>Bhadol</i> doing well. Prospects of standing crops continue good. Common rice selling at 13 seers per rupee. Fodder and water sufficient for cattle.
	31 Munassarpur „ 1, '94	1.04	Weather—hot and cloudy with east wind and showers almost daily. Prospects continue favourable. Transplantation of winter rice completed in some places and approaching completion in others. <i>Bhadol</i> coming to maturity and harvesting taken in hand in some places. No cattle-disease. Fodder and water ample. Common rice selling at 11½ seers per rupee.
	Hajipur ...	5.09	
	Sitamarhi ...	3.21	
<b>BRAGALPUR DIVISION.</b>	32 Darbhanga „ 1, '94	3.21	Weather—cloudy with sunshine at intervals. Prospects of <i>bhadol</i> continue favourable. <i>Makai</i> harvesting commenced in places. Transplanting of winter rice is being vigorously pushed on. Fodder for cattle sufficient. Prices remain stationary.
	33 Monghyr „ 1, '94	1.76	Weather—hot with showers almost daily. Transplantation of paddy nearly finished. The Ganges flood has almost wholly damaged the <i>bhadol</i> crops in the southern portion of Begusarai subdivision and in a portion of Gogri thana. <i>Makai</i> and <i>marua</i> are ripening and in some places reaping has commenced. Sugarcane and indigo doing well. Fodder and water plentiful. Prices of common rice:—  Srs. Monghyr ... .. 11 Begusarai ... .. 12 Jamui ... .. 13½ } per rupee.
	Begusarai ...	0.85	
	Jamui ...	0.87	
	34 Bhagalpur „ 1, '94	4.31	Weather—seasonable. Harvesting of Indian-corn, <i>marua</i> and <i>bhadol</i> paddy has commenced. Some slight damage has been caused to these crops in Sultanganj thana by flood. The outturn of <i>marua</i> is estimated at 20 annas and of Indian-corn and <i>bhadol</i> paddy at 17 or 18 annas. About 14 annas of <i>aphani</i> paddy have been planted out. Fodder and water sufficient. Prices normal. Price of common rice varies from 13 seers in Madhipura to 15½ seers in Banks.
	Banks ...	1.98	
	Madhipura ...	5.68	
	Supaul ...	3.64	
	35 Purnea „ 1, '94	1.39	Weather—hot with slight showers. Harvesting of <i>bhadol</i> and transplantation of <i>aphani</i> continue satisfactorily. Cattle-disease in Araria reported to be decreasing. Prices of common rice:—  Srs. Sadar ... .. 13 to 15 Kishanganj ... .. 12 to 14 Araria ... .. 16 } per rupee.
	Kishanganj ...	8.17	
	Araria ...	4.74	

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.	
BIHAR—consolid.				
BRAGALPUR DIVY—consolid.	86 Malda Sept. 1, '94	2.54	Weather—hot; clear and cloudy at intervals. <i>Bhadoi</i> paddy being reaped: an average outturn was expected, but the recent flood has damaged about 2 annas of the crop. Transplanting of winter rice nearly finished. Coarse rice selling from 11½ to 14 seers per rupee. No want of fodder.	
	Chanchal ...	2.15		
	Shibganj ...	5.59		
	Gazole ...	5.79		
	87 Sonthal Parganas „ 1, '94	3.72	Daily rain. Excessive rain is doing harm to ripening <i>makai</i> . Paddy doing very well.	
	Deoghur ...	4.20		
	Godda ...	4.57		
	Jamtara ...	1.72		
	Pakour ...	4.17		
	Rajmahal ...	5.14		
ORISSA.				
ORISSA DIVY.	38 Cuttack „ 1, '94	0.68	Weather—hot. Prospects good except in some lately flooded tracts, where the water has not yet run off. <i>Beali</i> harvest commenced. More rain needed for this crop. Fodder-supply scanty in flooded tracts. The <i>beali</i> and <i>mandia</i> crops when harvested should considerably relieve the pressure in most parts, but in and near kills A regular relief measures are necessary and being arranged for. Common rice sells at— <div style="float: right; text-align: right;">Srs. c. Srs. c. Sadar ... 9 14 to 13 2 Jajpur ... 9 13 to 11 13 Kendrapara ... Not reported. Banki ... 13 8</div> } per rupee.	
	39 Balasore ...	...		Report not received.
	40 Puri Aug. 30, '94	0.37		Weather—hot with floating clouds. <i>Beali</i> is ripening in Sadar and is being harvested in Khurda. Transplanting and weeding of <i>sarat</i> going on. State of miscellaneous crops good. Rice sells from 11 to 15½ seers per rupee.
	Khurda ..	0.31		
	CHOTA NAGPUR.			
South-West Frontier Agency.				
CHOTA NAGPUR DIVY.	41 Hazaribagh Sept. 1, '94	3.10	Daily rain. A break is required. Transplanting of paddy has been completed in most places. Harvesting of <i>goondli</i> and <i>mandua</i> has commenced. All crops promising except Indian-corn which has been injured by excessive rain. Common rice selling at 11 to 13 seers per rupee.	
	Giridi ...	3.96		
	42 Lohardaga „ 1, '94	4.23	Weather—seasonable. <i>Sirguja</i> and <i>arid</i> are being sown. Prospect of <i>bhadoi</i> continues favourable. Common rice selling at 12 seers per rupee. Fodder and water sufficient.	
	43 Palamau Aug. 30, '94	4.38		Rainfall has been becoming lighter and more scattered and a break seems to be setting in. Transplantation of rice now nearly finished in most parts. <i>Sawan</i> and <i>goondli</i> are being harvested in some parts. Prices rising, and at Ranka owing to the failure of the <i>makai</i> crop the mahajans seem to have formed a “corner,” and rice is said to be selling at 9 seers per rupee. Elsewhere it is 11½ to 16 seers per rupee.
	44 Manbhum Sept. 1, '94	2.01	Weather—seasonable. <i>Bhadoi</i> crops being cut in places; outturn fair. <i>Gora</i> paddy ripening. <i>Aman</i> paddy doing well. Rice sells from 10 to 15 seers per rupee.	
45 Singhbhum „ 1, '94	2.09	Weather—hot and cloudy with rain at night. Crops doing well. Rice selling at 10 to 15 seers per rupee.		

Published for general information.

Mean for 6 days.

Explanation.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period. The humidity is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The monthly means or average of the rainfall in that district determined from the returns sent in by the individual stations for the period in question are the numerical reading in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

the week ending Saturday, the 1st of September 1894.

DISTRICT OBSERVATIONS.															DISTRICT.	
Variation from normal mean.	Mean 8 A.M. temperature.	Average humidity at 9 A.M.	Average cloud amount at 9 A.M.	Rainfall of week at observing station.	OF WEEK.				RAINFALL.							
					Mean for district.	Normal mean.	Average number of rainy days.	Normal number of rainy days.	Since 1st of month.			Since 16th May 1894.

at ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater. Under the head District observations for rainfall the normal numbers denoting cloud amount represent the part of the sky covered, the whole sky being denoted by 10. The means of the district are the unweighted average of the rainfall returned received in the district, &c., from the past ten years.

ment of rainfall in Bengal for the week ending Saturday (8 a.m.), the 1st of September 1894—contd.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-  
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATUR-  
DAY, THE 1st OF SEPTEMBER 1894.**

DURING the second half of the previous week certain pressure changes had been taking place, which resulted in the establishment of a high-pressure area over Bengal, and pressure on the 25th of August, or the last day of that week, was in excess by amounts ranging up to a tenth of an inch at the southern stations. Hence with this pressure distribution the monsoon current began to fall off in force, and became decidedly lighter, and it was also to a considerable extent deflected away from Bengal by the high-pressure area, so that quite at the close of that week rainfall had become much more local and decidedly lighter than it had been. On the 26th of September, or the first day of the week under review, pressure had again risen slowly over the province, and the excess at some stations equalled one-eighth of an inch. On the 27th the barometric changes were small and a little variable, while on the 28th a moderate fall was reported, but the pressure was still above the normal, the excess ranging up to 0.06" in the western districts. A further fall of pressure occurred on the 29th, and the distribution of pressure became almost normal, while on the 30th the pressure changes were small and slightly variable, and pressure had become very slightly in defect. On the 31st August and 1st September, however, a moderate to brisk increase of pressure had occurred, and pressure again became in considerable excess. Hence for the first five days of the week conditions gradually became more favourable for the free flow of the monsoon current over Bengal, but during the greater part of this period the monsoon current blowing in the centre and north of the Bay was decidedly weak. Hence during this period the rainfall in Bengal continued local and rather light. Again at the close of the week the pressure distribution became still more unfavourable for the free advance of the monsoon current over Bengal.

On the other hand, certain changes have occurred in the Bay during the week, which have been important. Up till nearly the end of the previous week the strength of the monsoon in the extreme south of the Bay, as judged by the wind velocities at the Ceylon stations, was rather small. From the beginning of the present week, however, a considerable increase has occurred, and a strong monsoon current has been blowing in Ceylon throughout the week. This strong advance gradually passed up the Bay, and from about the 30th instant a barometric depression of a feeble and diffused nature appeared to form in the centre of the Bay. This feeble depression moved slowly towards the North Madras coast, and on the 1st September, or the last day of the week under review, it was lying almost over the North Madras coast. The diffused depression was giving strong winds and squally weather in the east and south of the Bay, but by the indraught towards it the monsoon current was prevented from flowing up to the north of the Bay and over Bengal. Hence from this cause also the rainfall in Bengal during the week has been decidedly lighter, and much more local than usual.

*Pressure.*—Owing to the area of high pressure which has existed over the province for a large part of the week, the mean pressure has been in considerable excess. The usual excess has varied between 0.05" and 0.08", but it has been smallest in the south-west of the Province, and at Cuttack it has equalled the small amount of 0.029".

In Assam the excess pressure has been comparatively small, and the average at the three recording stations only equals 0.031".

*Temperature.*—The average mean temperature for the week has not varied very much from the normal, but in most districts, except East Bengal and Orissa, it has been in defect by about half a degree. The actual average temperature of the whole province has been in defect by a third of a degree only.

In Assam the average mean temperature has been almost normal, a defect of only a tenth of a degree having been registered.

*Rainfall.*—The general average falls in the Divisions of South-West Bengal, Bihar, North Bengal, and Chota Nagpur have equalled from two to three inches. In East Bengal and Orissa the falls have varied between one and-a-half and two inches. The falls have been very largely below the usual amounts in East Bengal, and rather largely below in North Bengal and Orissa, while the fall in South-West Bengal has been more normal. On the other hand, a slight excess fall has been registered in Bihar, and a considerable excess fall in Chota Nagpur.

Expressed as percentages of the normal rainfall, the actual falls during the week have equalled the following amounts:—South-West Bengal 94 per cent., North Bengal 81 per cent., East Bengal 70 per cent., Bihar 107 per cent., Orissa 84 per cent., and Chota Nagpur 133 per cent. Taking each Division to have an equal value in the calculation, the rainfall of Bengal for the week has equalled 95 per cent. of the normal fall.

In the case of the following smaller districts the falls have been even smaller than represented above, and in them decidedly scanty falls have been registered:—Hooghly, Howrah, Calcutta, Rajshahi, Kuch Bihar, Dacca, Backergunge, Hill Tippera, Noakhali, Patna, Sarau, Monghyr, Balasore, and Puri.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 1st of September 1894:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1894.

The total fall from 1st January to 1st September 1894 ... .. 35·47

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 48·84

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; <, lightning; lr, lightning reflection.

*Statement of principal commodities carried on the Bengal Central Railway during the month of June 1894.*

## DECREASES.

	Tons.
Coal	687
Due to less Flotilla consumption.	
Betel nuts	596
Due to short crop.	

The increases and decreases in other commodities are due to ordinary fluctuation of traffic, and call for no special remarks.

CALCUTTA, the 28th August 1894.

J. SHAW,  
for Examiner of Accounts.

The following Proclamation is republished for general information and guidance :

## THE LONDON GAZETTE EXTRAORDINARY.

*Tuesday, August 7th, 1894.*

By the QUEEN.

## A PROCLAMATION.

*VICTORIA, R.*

Whereas We are happily at peace with all Sovereigns, Powers, and States;

And whereas a state of war unhappily exists between His Majesty the Emperor of China and His Majesty the Emperor of Japan, and between their respective subjects and others inhabiting within their countries, territories, or dominions;

And whereas We are on terms of friendship and amicable intercourse with each of these States, and with their subjects and others inhabiting within their countries, territories, or dominions;

And whereas great numbers of Our loyal subjects reside and carry on commerce and possess property and establishments, and enjoy various rights and privileges, within the territory of each of the aforesaid States, protected by the faith of Treaties between Us and each of the aforesaid States;

And whereas We, being desirous of preserving to Our subjects the blessings of peace which they now happily enjoy, are firmly purposed and determined to maintain a strict and impartial neutrality in the said state of war unhappily existing between the aforesaid States;

We therefore have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation;

And We do hereby strictly charge and command all Our loving subjects to govern themselves accordingly, and to observe a strict neutrality in and during the aforesaid war, and to abstain from violating or contravening either the Laws and Statutes of the realm in this behalf, or the law of nations in relation thereto, as they will answer to the contrary at their peril;

And whereas in and by a certain Statute made and passed in a Session of Parliament holden in the 33rd and 34th year of Our reign, intituled "An Act to regulate the Conduct of Her Majesty's Subjects during the Existence of Hostilities between Foreign States with which Her Majesty is at Peace," it is, amongst other things, declared and enacted as follows:

"This Act shall extend to all the dominions of Her Majesty, including the adjacent territorial waters.

*"Illegal Enlistment.*

"If any person without the license of Her Majesty, being a British subject, within or without Her Majesty's dominions, accepts, or agrees to accept, any commission or engagement in the military or naval service of any foreign State at war with any foreign State at peace with Her Majesty, and in this Act referred to as a friendly State, or, whether a British subject or not, within Her Majesty's dominions, induces any other person to accept, or agree to accept, any commission or engagement in the military or naval service of any such foreign State as aforesaid—

"He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If any person without the license of Her Majesty, being a British subject, quits or goes on board any ship with a view of quitting Her Majesty's dominions with intent to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State, or, whether a British subject or not, within Her Majesty's dominions, induces any other person to quit or to go on board any ship with a view of quitting Her Majesty's dominions with the like intent—

"He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If any person induces any other person to quit Her Majesty's dominions, or to embark on any ship within Her Majesty's dominions, under a misrepresentation or false representation of the service in which such person is to be engaged, with the intent or in order that such person may accept, or agree to accept, any commission or engagement in the military or naval service of any foreign State at war with a friendly State—

"He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If the master or owner of any ship without the license of Her Majesty knowingly either takes on board, or engages to take on board, or has on board such ship within Her Majesty's dominions, any of the following persons in this Act referred to as illegally enlisted persons, that is to say:

"(1) Any person who, being a British subject, within or without the dominions of Her Majesty, has without the license of Her Majesty accepted, or agreed to accept, any commission or engagement in the military or naval service of any foreign State at war with any friendly State:

"(2) Any person, being a British subject, who without the license of Her Majesty is about to quit Her Majesty's dominions with intent to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State:

"(3) Any person who has been induced to embark under a misrepresentation or false representation of the service in which such person is to be engaged with the intent or in order that such person may accept, or agree to accept, any commission or engagement in the military or naval service of any foreign State at war with a friendly State:

"Such master or owner shall be guilty of an offence against this Act, and the following consequences shall ensue, that is to say:

"(1) The offender shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour; and

"(2) Such ship shall be detained until the trial and conviction or acquittal of the master or owner, and until all penalties inflicted on the master or owner have been paid, or the master or owner has given security for the payment of such penalties to the satisfaction of two Justices of the Peace, or other Magistrate or Magistrates having the authority of two Justices of the Peace; and

"(3) All illegally enlisted persons shall, immediately on the discovery of the offence, be taken on shore, and shall not be allowed to return to the ship.

#### *Illegal Ship-building and Illegal Expeditions.*

"If any person within Her Majesty's dominions, without the license of Her Majesty, does any of the following acts, that is to say:

"(1) Builds, or agrees to build, or causes to be built, any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State; or

"(2) Issues or delivers any commission for any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State; or

"(3) Equips any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State; or

"(4) Dispatches, or causes or allows to be dispatched, any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State—

"Such person shall be deemed to have committed an offence against this Act, and the following consequences shall ensue:

"(1) The offender shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"(2) The ship in respect of which any such offence is committed and her equipment shall be forfeited to Her Majesty:

"Provided that a person building, causing to be built, or equipping a ship in any of the cases aforesaid, in pursuance of a contract made before the commencement of such war as aforesaid, shall not be liable to any of the penalties imposed by this section in respect of such building or equipping if he satisfies the conditions following, that is to say:

"(1) If forthwith upon a Proclamation of Neutrality being issued by Her Majesty he gives notice to the Secretary of State that he is so building, causing to be built, or equipping such ship, and furnishes such particulars of the contract and of any matters relating to, or done, or to be done, under the contract as may be required by the Secretary of State:

"(2) If he gives such security, and takes and permits to be taken such other measures, if any, as the Secretary of State may prescribe for insuring that such ship shall not be despatched, delivered, or removed without the license of Her Majesty until the termination of such war as aforesaid.

"Where any ship is built by order of or on behalf of any foreign State when at war with a friendly State, or is delivered to or to the order of such foreign State, or any person who to the knowledge of the person building is an agent of such foreign State, or is paid for by such foreign State or such agent, and is employed in the military or naval service of such foreign State, such ship shall, until the contrary is proved, be deemed to have been built with a view to being so employed, and the burden shall lie on the builder of such ship of proving that he did not know that the ship was intended to be so employed in the military or naval service of such foreign State.

"If any person within the dominions of Her Majesty, and without the license of Her Majesty,—

"By adding to the number of the guns, or by changing those on board for other guns, or by the addition of any equipment for war, increases or augments, or procures to be increased or augmented, or is knowingly concerned in increasing or augmenting, the warlike force of any ship which at the time of her being within the dominions of Her Majesty was a ship in the military or naval service of any foreign State at war with any friendly State—

"Such person shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If any person within the limits of Her Majesty's dominions, and without the license of Her Majesty,—

"Prepares or fits out any naval or military expedition to proceed against the dominions of any friendly State, the following consequences shall ensue: .

"(1) Every person engaged in such preparation or fitting out, or assisting therein, or employed in any capacity in such expedition, shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"(2) All ships and their equipments, and all arms and munitions of war used in or forming part of such expedition, shall be forfeited to Her Majesty.

"Any person who aids, abets, counsels, or procures the commission of any offence against this Act shall be liable to be tried and punished as a principal offender."

And whereas by the said Act it is further provided that ships built, commissioned, equipped, or despatched in contravention of the said Act may be condemned and forfeited by Judgment of the Court of Admiralty; and that if the Secretary of State or chief executive authority is satisfied that there is a reasonable and probable cause for believing that a ship within Our dominions has been or is being built, commissioned, or equipped contrary to the said Act, and is about to be taken beyond the limits of such dominions, or that a ship is about to be despatched contrary to the Act, such Secretary of State or chief executive authority shall have power to issue a warrant authorizing the seizure and search of such ship and her detention until she has been either condemned or released by process of law: And whereas certain powers of seizure and detention are conferred by the said Act on certain local authorities:

Now, in order that none of Our subjects may unwarily render themselves liable to the penalties imposed by the said Statute, We do hereby strictly command that no person or persons whatsoever do commit any act, matter, or thing whatsoever contrary to the provisions of the said Statute upon pain of the several penalties by the said Statute imposed and of Our high displeasure.

And We do hereby further warn and admonish all Our loving subjects, and all persons whatsoever entitled to Our protection, to observe towards each of the aforesaid States, their citizens, subjects, and territories, and towards all belligerents whatsoever, with whom We are at peace, the duties of neutrality; and to respect, in all and each of them, the exercise of those belligerent rights which We and Our Royal predecessors have always claimed to exercise.

And We hereby further warn all Our loving subjects, and all persons whatsoever entitled to Our protection, that if any of them shall presume in contempt of this Our Royal Proclamation and of Our high displeasure to do any acts in derogation of their duty as subjects of a neutral Sovereign in a war between other States, or in violation or contravention of the law of nations in that behalf, as more especially by breaking, or endeavouring to break, any blockade lawfully and actually established by or on behalf of either of the said States, or by carrying officers, soldiers, despatches, arms, ammunition, military stores, or materials, or any article or articles considered and deemed to be contraband of war according to the law or modern usages of nations, for the use or service of either of the said States, that all persons so offending, together with their ships and goods, will rightfully incur and be justly liable to hostile capture, and to the penalties denounced by the law of nations in that behalf.

And We do hereby give notice that all Our subjects and persons entitled to Our protection who may misconduct themselves in the premises will do so at their peril, and of their own wrong; and that they will in nowise obtain any protection from Us against such capture, or such penalties as aforesaid, but will, on the contrary, incur Our high displeasure by such misconduct.

Given at Our Court at *Osborne House, Isle of Wight*, this seventh day of *August*, in the year of Our Lord one thousand eight hundred and ninety-four, in the fifty-eighth year of Our reign.

GOD SAVE THE QUEEN.

The following letter addressed by Her Majesty's Secretary of State for Foreign Affairs to the Right Hon'ble Henry Hartley Fowler, Her Majesty's Secretary of State for India, is also published for general information and guidance:

FOREIGN OFFICE,  
*August 7, 1894.*

SIR,

HER MAJESTY being fully determined to observe the duties of neutrality during the existing state of war between the Emperor of China and the Emperor of Japan, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's harbours, ports, and coasts, and the waters within Her Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to you, for your guidance, the following rules, which are to be treated and enforced as Her Majesty's orders and directions:

Her Majesty is pleased further to command that these rules shall be put in force in the United Kingdom, the Isle of Man, and the Channel Islands on and after the 12th day of this month, and in Her Majesty's territories and possessions beyond the seas six days after the day when the Governor or other chief authority of each of such territories or possessions respectively shall have notified and published the same, stating in such notification that the said rules are to be obeyed by all persons within the same territories and possessions.

1. During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies,

or of any waters subject to the territorial jurisdiction of the British Crown, as a station, or place of resort, for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to sail out of or leave any port, roadstead, or waters subject to British jurisdiction from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of Her Majesty.

2. If any ship of war of either belligerent shall, after the time when this Order shall be first notified and put in force in the United Kingdom, the Isle of Man, and the Channel Islands, and in the several colonies and foreign possessions and dependencies of Her Majesty respectively, enter any port, roadstead, or waters belonging to Her Majesty, either in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew or repairs, in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessel (whether ships of war or merchants' ships) of the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether ship of war or merchant ship) of the one belligerent, and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always in case of necessity be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

3. No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, to take in any supplies except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country or to some nearer destination, and no coal shall again be supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty without special permission until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

4. Armed ships of either party are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of Her Majesty's colonies or possessions abroad.

I have, &c.,  
KIMBERLEY.

The Governor-General in Council is pleased to direct that the Orders and Directions of Her Majesty the Queen, Empress of India, as contained in the aforesaid Proclamation and Letter, are to be obeyed by all persons within the limits of Her Majesty's territories and possessions in India.

By Order of the Governor-General in Council,

W. J. CUNINGHAM,

*Secretary to the Government of India.*

#### PUBLIC WORKS DEPARTMENT,—BENGAL.

##### ESTABLISHMENT.

*The 8th September 1894.*

*No. 282.—Notification.*—In continuation of this Department Notification No. 209, dated the 14th June 1894, Babu Nitya Nunda Bhar, Special Deputy Collector, employed in acquiring lands for the Assam-Bengal Railway, is granted an extension of privilege leave for seven days, with effect from the 14th July 1894.

##### LOCAL COMMUNICATIONS.

*The 11th September 1894.*

*No. 283.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz., for the extension of the Daltonganj-Hossainabad road to the border of the Palamau district, it is hereby declared that for the above purpose a strip of land measuring, more or less, 77½ bighas of standard measurement, and passing along the demarcated centre line

through the villages of Japla, Jitbigha, Baarajbigha, Puranderbigha, Jhara, Kurwa, Baniadib, Ghasikhar, Keswahi, Sohiara, Dadra, Pokbrahi Nadiain, and Daugwar in pargana Japla, zilla Palamau, is required within the aforesaid mauza.

This declaration is made, under the provisions of section 6 of the Land Acquisition Act, I of 1894, to all whom it may concern.

*No. 284.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for road No. 12 for Fakirganj Chakla Boda in the villages of Kurila and Balarampur, pargana Salbari (Tauzi No. 340), zilla Dinajpur, sub-division Thakurgaon, it is hereby declared that for the above purpose two pieces of land measuring, more or less, 19 bighas 9 cottahs 3 chitaks and 12 bighas 2 cottahs 6 chitaks of standard measurement respectively, are required within the aforesaid villages of Kurila and Balarampur.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

#### RAILWAY.

*The 11th September 1894.*

*No. 285.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for landing Railway stores for the Assam-Bengal Railway in the village of Gosaldanga, zilla Chittagong, it is hereby declared that for the above purpose a piece of land measuring, more or less, 35 acres of standard measurement, bounded on the north by the village of Gosaldanga and Mohishkhali Strand Road, on the west by the Balamia Jhora, on the south by the Kurnafuli river, and on the east by the road leading to the double moorings in the Kurnafuli river, is required within the aforesaid village of Gosaldanga.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

*No. 286.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Damrah Coal siding at mile No. 127; 4 furlongs 425 feet, East Indian Railway, in the villages of Damrah and Ghosick, parganas Kanthanagar and Shergurh, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 6 bighas 4 cottahs and 2·13 chitaks of standard measurement (corresponding to 2 acres 8·29 poles), bounded on the north by East Indian Railway land, on the south, east and west by the colliery land of Ram Bandhu Chatterji, is required within the aforesaid villages of Damrah and Ghosick.

Mines of coal, iron-stone, slate or other minerals lying under the land or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose for which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6 of Act I of 1894, and section 3, clause 1 of Act XVIII of 1885, to all whom it may concern.

F. J. JOHNSTONE,  
Secy. to the Govt. of Bengal.

#### IRRIGATION DEPARTMENT,—BENGAL.

*The 11th September 1894.*

*No. 287.—Declaration.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for construction of a dock and drinking water tank at Pauchpali in the village of Mohabala pargana Satmolong, zilla Balasore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 7 acres and 2 roods of standard measurement, in two plots as noted below:—

*1st Plot.*—Bounded on the north by waste lands, south by bank of the coast canal, east by Pauchpali embankment, and west by waste lands and mahal lands cultivated by Anant Patat, Panchu Mallick, Magani Dulai and others;

*2nd Plot.*—Bounded on the north by mahal lands cultivated by Kartik Jena, south by mahal lands cultivated by Shama Giri and Durga Giri, east by mahal lands cultivated by Bhadra Jena, Kreesasindhu Das and Raghu Das, and west by side cuttings of Pauchpali embankment and shops,

is required within the aforesaid village of Mohabala.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

O. W. ODLING,  
Secy. to the Govt. of Bengal.

J. F. P. McCONNELL, M.D., *Surgeon-Lieut.-Colonel,*  
*for Insp.-Genl. of Civil Hospitals, Bengal.*

## HIGH COURT NOTICE.

## CIRCULAR ORDER.

ISSUED BY AUTHORITY OF THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL.

CIVIL

No. 5, dated the 28th August 1894.

After Part II, Sub-rule 2 of Rule 1, Chapter IV, Page 115 of the Court's General Rules and Circular Orders (Civil), insert the following:—

2 A.—[*Supplementary rules issued under rule No. 1, dated the 1st February 1893, regarding the destruction of records of Civil suits and proceedings decided before 1st January, 1891.—C. O. No. 5, dated the 28th August, 1894.*]

1. These rules must be read as supplementing and modifying the rules in force before the rules of 1890 came into operation in respect of the destruction of records of Civil suits and cases decided before 1st January 1891. The object of the rules is to authorise the destruction of certain records or portions of records which, under the old rules, were to be preserved for ever.

2. Under the old rules the papers in the trial record had to be sorted and separated into two distinct *nuthacs*, of which one was to be preserved for ever and the other destroyed after a certain period, having regard to the nature of the case or proceeding. These rules will deal first (A) with those records that have been so re-arranged and separated; and secondly (B) with those records that have not yet been sorted.

(A) *Records that have been sorted and re-arranged under the old rules.*

3. In respect of these records there will be no fresh assortment or re-arrangement of the papers.

4. The portion of the trial record that has been separated for preservation in perpetuity under the old rules will be *preserved for ever* in the following classes of suits and cases:—

- (a) Suits for or affecting immoveable property, including suits for foreclosure, redemption or sale.
- (b) Suits in respect of the succession to an office, or to establish or set aside an adoption, or otherwise determine the status of an individual.
- (c) Suits relating to public trusts, charities or endowments.
- (d) Suits between landlord and tenant to determine the rate of rent, or in which a question of right to enhance or vary the rent of a tenant or any question relating to a title to land or to some interest in land as between parties having conflicting claims thereto is in issue.
- (e) Cases under section 158 of Act VIII of 1885, to determine the incidents of a tenancy.
- (f) Contested and uncontested suits and cases for probate and letters of administration and for the revocation of the same.
- (g) Suits and proceedings under the Indian Succession Act and Hindu Wills Act.
- (h) Cases under the Land Acquisition Act, Part IV.

5. The portion of the trial record that has been separated for preservation in perpetuity under the old rules may be destroyed on the expiration of *twenty-five years* from the date of the final decree or order (which in cases appealed will be that of the Appellate Court) in the following classes of suits and cases:—

- (i) Suits for rent under the law of landlord and tenant for the time being in force which do not come under clause (d).
- (j) Cases under Act XL of 1858 and Act IX of 1861, relating to the guardianship of minors and the administration of their property.
- (k) Cases under Act XXXV of 1858 relating to the guardianship of lunatics and the care of their estates.

6. The portion of the trial record that has been separated for preservation in perpetuity under the old rules may be destroyed on the expiration of *twelve years* from the date of the final decree or order (which in cases appealed will be that of the Appellate Court) in the following classes of suits and cases:—

- (l) All suits which are not provided for by rules 4 and 5 of these rules.
- (m) Cases under Act XIX of 1841.

Act XXVII of 1860 (collection of debts).

Act X of 1870 (Land Acquisition Act), Part III.

Act XVIII of 1879 (Legal Practitioners Act).

Act VIII of 1885 (Bengal Tenancy Act), sections 91 to 93.

Civil Procedure Code for a declaration of insolvency.

Civil Procedure Code to transfer a decree when no application for execution is pending.

„ Regulation V of 1799, section 7, regarding the property of intestates in which a claimant appears.

Applications to sue *in forma pauperis*, if rejected.

7. *Proceedings in execution of decrees.*—The portion of the execution record separated for preservation under the old rules will be preserved for ever, destroyed after twenty-five years, or destroyed after twelve years, according as the suits or cases out of which they arise fall under rule 4, 5, or 6 of these rules.

8. *Records of Appellate Courts.*—The preservation or destruction of the records of the Appellate Courts will be regulated by the rules laid down above in respect of the records of original suits and cases.

(B). *Records that have not yet been sorted and re-arranged under the old rules.*

9. Records of suits and cases falling under clauses (l) and (m), in respect of which twelve years have elapsed since the date of the final decree or order (which in cases appealed will be that of the Appellate Court), may be destroyed at once without being sorted, with the exception of documents filed by the parties which, under the old rules, were to be removed from the trial record to be separately dealt with.

10. Records of suits and cases falling under clauses (i), (j) and (k), in respect of which twenty-five years have elapsed since the date of the final decree or order (which in cases appealed will be that of the Appellate Court), may be destroyed at once without being sorted, with the exception of documents filed by the parties which, under the old rules, were to be removed from the trial record to be separately dealt with.

11. All other records that have not yet been sorted must be sorted and re-arranged under the old rules, and will then be dealt with under those rules read with these supplementary rules.

12. Records of which the immediate destruction is authorized by these rules may be destroyed at once on these rules coming into force; and thereafter the records liable to destruction under these rules shall be destroyed at intervals of three years until the whole of the records of suits and cases decided before 1st January 1891, which are liable to destruction, have been destroyed.

#### *Destruction of documents.*

13. Documents filed in cases the records of which are liable to destruction under these rules may be destroyed after the expiration of six months from the date of publication of a general notice intimating that, unless such documents are taken back within three months, they will be destroyed. Such notice shall specify the class of suit or proceeding in which the documents were filed, and the year in which the case was decided, and shall be published by affixing a copy at the Court-house of the District Judge and of every Subordinate Judge and Munsiff in the district.

Published in the *Calcutta Gazette* of the 18th July 1894, Part I, pages 791 to 793, and in the *Assam Gazette* of the 28th *idem* Part III, pages 778 and 779.

## SMALL CAUSE COURT NOTICE.

NOTICE is hereby given that under section 7 of Act IX of 1887, the Judge of Small Cause Courts of Dacca and Munshiganj will, in the month of November next, sit in those Courts on the undermentioned dates, Sundays and holidays excepted:—

Dacca Small Cause Court—5th, 12th, 17th and 30th of November 1894.

Munshiganj Small Cause Court, from 22nd to 28th of November 1894.

KRISHNA MOHUN MUKERJI, *Judge, Small Cause Court.*

DACCA SMALL CAUSE COURT, the 6th September 1894.

## TREASURY NOTICES.

UNCOVENANTED DEPUTY COLLECTOR BABU KUNJA BENARI GOSSANI has been placed in charge of the Balasore Treasury, and is authorized to draw bills on other treasuries.

H. G. COOKE, *Commissioner.*

ORISSA COMM'R.'s OFFICE, CUTTACK, the 1st September 1894.

UNCOVENANTED DEPUTY COLLECTOR BABU KRISHNA KALI MUKERJEE has been temporarily placed in charge of the Lohardaga Treasury, and is authorized to draw bills on other treasuries.

RAICHARAN GHOSH, *Personl. Asst. to Commr., for Commr. of Chota Nagpur.*

COMM'R.'s OFFICE, RANCHI, the 3rd September 1894.

## EDUCATION DEPARTMENT, BENGAL.

### Subordinate Educational Service.

The 14th August 1894.—Babu Uma Prasad De, Deputy Inspector of Schools, Midnapore (class III), is allowed leave of absence for one year, under Article 371 of the Civil Service Regulations, with effect from the 1st July 1894.

Babu Becharam Ganguli, Departmental Sub-Inspector of Schools, Midnapore (class VI), is appointed to officiate as Deputy Inspector of Schools, Midnapore, and in class V, during the absence, on leave, of Babu Uma Prasad De, or until further orders.

The 29th August 1894.—Babu Barada Prasad Sarkar, Temporary Third Master of the Rangpur Zilla School, is appointed to act as Departmental Sub-Inspector of Schools, Midnapore, and in class VI, *vice* Babu Becharam Ganguli on deputation, or until further orders.

A. CROFT,

*Director of Public Instruction, Bengal.*

CALCUTTA,

The 1st September 1894.

A. CROFT,

Director of Public Instruction, I

## NOTIFICATION.

The 20th August 1894.—In accordance with the Government of Bengal Notification of the 23rd July 1887, notice is hereby given that the next Half-yearly Examination of Compounders (male and female) will be held at 11 A.M., on Thursday, the 25th October 1894, at the Campbell Medical School.

2. Every candidate must produce one of the following certificates:—

- From the Superintendent of the Vernacular Medical School that he has attended regularly for one year the compounder class of the school.
- From the legally-qualified medical manager of a chemists' and druggists' establishment recognised by the Inspector-General of Civil Hospitals, Bengal, that he has been apprenticed for a period of three years in his establishment.
- From a Civil Surgeon that he has assisted in the dispensing of drugs at the sadar dispensary of a civil station for a period of five years.

Applicants must register their names and submit their certificates, together with a fee of Rs. 3, at least one week before the 25th October 1894 at the office of the undersigned.

Note.—The students belonging to the compounder class of a vernacular medical school will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

paid the school entrance fee, 5, or

4. Should any candidate fail to pass the required examination he will forfeit his fee.

*N.B.*—The attention of candidates is drawn to rule 5, section (b) of the Government notification of the 23rd July 1887, or paragraph 2 (b) of this notification, from which they will observe that the chemists' and druggists' establishments from the legally-qualified medical managers of which they obtain the certificates will have to be recognised by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates' applying to the Superintendent to register their names to appear at the examination.

J. B. GIBBONS, *Surgeon-Major,*  
*Superintendent, Campbell Medical School and Hospital.*

NOTIFICATION.

It is hereby notified for general information that on the results of the Entrance examination of 1895 being known, the five second-grade scholarships allotted to the Rajshahi Division will be awarded to the best students in the Division irrespective of districts and the nine third-grade scholarships will be distributed as follows:—

Rajshahi	...	...	...	...	2
Dinajpur	...	...	...	...	1
Jalpaiguri	...	...	...	...	1
Darjeeling	...	...	...	...	1
Rangpur	...	...	...	...	1
Bogra	...	...	...	...	1
Pabna	...	...	...	...	2
Total					9

Besides the above, there are two special scholarships—one of the second grade and one of the third grade—for the Rangpur Zilla School.

P. NOLAN, *Commissioner.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

NOTIFICATION.

No. 1666B.

IN exercise of the powers conferred on the Chief Customs Authority by section 15 of the Sea Customs Act, VIII of 1878, the Board of Revenue appoint shed No. 7, at the Kidderpore Docks, to be a public warehouse for the storage of salt under bond.

CUSTOMS.

E. V. WESTMACOTT, Esq.

By order of the Board of Revenue, L.P.,

N. K. Bose, *Offg. Secretary.*

CALCUTTA, the 3rd September 1894.

No. 1631B.

Notice is hereby given that the Tenth Sale of Opium, the Provision of 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd October 1894, at 11 A.M., and will comprise 3,105 chests, viz.—

Opium manufactured at the Patna Factory	...	...	Chests.
Ditto ditto at the Ghazipur Factory	...	...	1,510
			1,595
Total	...	...	3,105

2nd.—The general conditions of the sale now advertized will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893 and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 11th and 18th October 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Thursday, the 11th October 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th October 1894.

4th.—In addition to the quantity above advertized for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

The 8th August 1894.

JUGGOWANDHU KHAN, Deputy Collector in charge, for Collector.

**NOTICE** is hereby given that the undermentioned plot of land no longer required by Government, situated along the Rupsagar embankment in the district of Shahabad, will be put up to sale at 11 o'clock on the 18th September 1894, corresponding with the 3rd Kuar of 1302 Fasli at Shahabad Collectorate:—

1st.—The purchaser will have no power to make any excavation on the land nearer than fifteen feet from the embankment, or plough the land closer than three feet from its foundation

2nd.—If the amount of purchase money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of the original sale.

4th.—The plot of land will be sold revenue free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales:—

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of miles on which land is situate.	Situated on which side of the embankment.	Approximate area of lot in bighas in area.	Land excluded from sale from each lot.	Commencement and termination of lot.	Boundary of lot.

## Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned revenue-free property situated in the district of Puri, pargana Kotdes, mauza Pratapsasan, will be put up to sale at the Puri Collectorate on the 2nd October 1894, corresponding with 18th Asin 1302, Tuesday.

The purchasers will be subject to the following conditions of sale:—

## Conditions of sale.

- 1st.—The property to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this property will be considered as the proprietor of the property, and the entire proprietary right of Government in such property will be transferred to him.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the property to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number in statement of Government estate.	Number on the district register B of revenue-free properties.	Name of property and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

Saran Collectorate, the 21st August 1894.

F. A. SLACK, Collector.

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates in the district of Shahabad will be put up to public and unreserved sale at the Collector's Office of that district on the 26th day of September 1894 at 12 A.M., for the arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 7th day of June 1894.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are exempted from the sale:—

Motihari, the 17th August 1894.

(513-3)

W. D. BLYTH, Collector.

## Notice under Rule 19, Part I, Section II.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Bhaba Tarini Dasi, and will be sold at 12 o'clock noon on Monday, the 3rd December 1894, (the 18th Aughran 1801 B.S.), at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

*Schedule.*

Number of lot.	District, subdivision, thana.	Area.	Boundaries.
1	2	3	4
Lot No. 163, 3rd portion.	24-Parganas, Basirhat, Hoseinabad.	Bighas. 7,000	North.—By the Satghara khal and Kalindi Nadi. East.—By the Fytakati, Khontakata, and Amtali khals. South.—By the Ghumti Khal. West.—By the Kaliakati and Kartikakhali khals, corresponding with the east boundary of the 2nd portion. All the above boundaries are as shown in Mr. Sundarbans Commissioner Ross' map of season 1893-94.

POORNO CHANDRA CHATTERJEE, Deputy Collector in charge,  
Sundarbans Commissioner's Office.

Sundarbans Commissioner's Office, Alipur the 31st August 1894.

## Notice under Rule 19, Part I, Section II.

NOTICE is hereby given that the lease of the land specified in the schedule herunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Dina Bandhu Chatterji, and will be sold at 12 o'clock noon, on Monday, the 3rd December 1894 (the 18th Aughran 1801 B.S.), at the Sundarbans Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

*Conditions.*

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

*Schedule.*

Number of lot.	District, subdivision, thana.	Area.	Boundaries.
1	2	3	4

### Oudh Forest Department. BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sal beams and scantlings supplied from this depot will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.

22	"	"	2-12	"
23	"	"	2-14	"
24	"	"	3	"

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7 " 2-4 "

Under 7 feet " "

The above prices are for ordinary building purpose.

For *Planking Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still taken orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

*Second and Third Class Timber* will be sold and price fixed by agreement.

*Auction Sales* will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N.-W.P. and Oudh, Oudh Circle.

KANUYA LAL,

Sub-Assistant Conservator of Forests,  
Barhamghat Division.

Barhamghat, the 1st April 1886.

### Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT  
CINCHONA PLANTATION.

THE price of this quinine is as follows:—

1 pound tin Rs. 16. or, post free, Rs. 16-12.

1/2 " " " 8, " " " 8-8.

1/4 " " " 4, " " " 4-8.

Analysis shows this quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids Cinchopine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanical Garden, Sibpur, near Calcutta. It can be had either white or coloured pink.

### Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs. 2, *ans.* 8; per eight-ounce tin, Rs. 6; per pound tin, Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, for *Cash only* at the undernoted rates—per four-ounce tin, Rs. 3; per eight-ounce tin, Rs. 6; per pound tin, Rs. 12. This medicine is also sold by the principal European and native druggists in Calcutta. Postage four annas per 4 oz. tin, eight annas per 8oz. tin, and twelve annas per pound tin, in addition to the foregoing rates.

### Tukvar Company, "Limited."

NOTICE is hereby given that the Ordinary General Meeting of Shareholders of the above Company will be held at the Registered Office, No. 4, Mangoo Lane, Calcutta, on Thursday, the 18th September 1894, at 10-15 A.M., for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June 1894, declaring an ad-interim dividend, and transacting such other business as may be brought before the meeting.

The transfer books of the Company are closed from 31st August to 30th instant inclusive.

By order of the Board,

## Lost.

**THE** Government Promissory Note No. 298803 of the 4 per cent. loan of 1st May 1865 for Rs. 500, originally standing in the name of Debendro Nath Dutt, and last endorsed to Taruck Nath Dutt, the proprietor, by whom it was never endorsed to any one. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the accrued interest and for the issue of duplicate in favour of the proprietor after two years from the date of the last advertisement.

TARUCK NATH DUTT, 268, Bow Bazar Street,  
(532—3) Calcutta.

## Notice.

**WHEREAS** the lessees of the town lots in the Government estate, Port Canning, named and

Messrs. H. Gieseler, E. Van-  
cutsen, and H. F. Brown, of  
lot No. 178.

G. M. Struthers, Esq., lot  
No. 83.

Dr. Chunder Kumar Dey, of  
lot No. 87.

M. B. Fieldman, Esq., lot  
Nos. 67 and 91.

Ram Sing, lot No. 186.

Juggernath Bhogoban Das, of  
lot No. 180.

Messrs. Pickford, Mathewson  
& Co., lot No. 11.

Messrs. Shand, Fairlie & Co.,  
lot No. 15.

numbered in the margin, having failed to pay rent and abandoned occupation of the same, and having otherwise failed to perform the conditions of the leases granted to them by Government in the year 1858-59, and having thereby incurred forfeiture, it is hereby notified that at the end of three months from this date Government will re-enter on and take possession of the lands of the aforesaid lots and resettle them.

If the lessees have any objections to make, they may do so within the time prescribed herein.

F. R. S. COLLIER, Collector.

24-Parganas Collectorate, dated Alipur, the 17th  
August 1894.

## The Bengal Silk Company, Limited.

## NOTICE.

**A**N Extraordinary General Meeting of shareholders will be held at the Registered Office of the Company, No. 25, Mangoe Lane, Calcutta, on Friday, 14th September 1894, at 12-30 p.m., to consider a proposition made by Messrs. Robert Watson and Company, Limited, that this Company shall purchase the whole of their silk concern, on terms which will be fully explained at the meeting, and to pass the following Resolutions:—

1. That the Managing Agents of the Bengal Silk Company, Limited, be and they are hereby authorised to purchase the whole of Messrs. Robert Watson and Company's (Limited) silk filatures with the necessary lands, houses, appliances and stores thereto attached, together with the goodwill and marks of their silk business, on the terms detailed in the agreement laid before this meeting.

2. That, with a view to providing the necessary funds for completing the said purchase, and for the extension of the works, property and business of this Company, the capital of the Company be increased to Rs. 9,00,000 by the creation of 5,500 new shares of Rs. 100 each.

3. That the Managing Agents be and they are hereby authorised to allot and issue to Messrs. Robert Watson and Company, Limited, as fully paid-up shares, so many of the said new shares as shall represent at par the value of the silk filatures and other property to be acquired from them by this Company in terms of the said agreement, and that the allotment and issue of the balance of the new shares shall be made by the Managing Agents as they may consider necessary for the extension of the works, property, and business of the Company, subject, nevertheless, to the provisions of article 38 of the Company's Articles of Association.

4. That the Articles of Association be altered in manner following, that is to say, by the substitution in article No. 3 of the figures 2,000 and 50,000 respectively for the figures 1,000 and 20,000, that is to say, that the office allowance of the Managing Agents shall be Rs. 2,000 per month, and that the commission of five per cent. yearly on nett profits realised shall be allowed them when such nett profits exceed Rs. 50,000, and that the change shall take effect as from 1st November 1894.

Should the above resolutions be passed by the requisite majority, they will be submitted for confirmation as special resolutions to a second extraordinary general meeting, which will be subsequently convened for that purpose.

The draft of the agreement to be submitted to the meeting is open to the inspection of shareholders at the Company's registered office, No. 25, Mangoe Lane, Calcutta.

LYALL, MARSHALL & Co.,  
Managing Agents.

25, Mangoe Lane, Calcutta, 31st August 1894.

 Guardians on behalf of Matindra Nath, Devendra  
 Nath, and Rabindra Nath Sarkar, minors.  
 Bhowanipur, the 7th September 1894.

(564—1)

## Notification.

**T**O be peremptorily sold by the Registrar of the  
 Calcutta High Court, Original Jurisdiction, in his  
 room in the Court-house, on Saturday, the 22nd of  
 September next at 12 o'clock, noon, pursuant to a decree  
 and an order of the said Court made in suit No. 406  
 of 1892 (Prosono Coomarr Paul versus S. M. Koosum  
 Coomarr Dossee and another), and dated respectively  
 1st December 1892 and 4th May 1893, the following  
 property, viz.—

*Lot No. 1.*—No. 80 [formerly No. 34-1], Chashadhopa-  
 para Street, a piece of rent-free land, containing one  
 cottah and a-half, more or less, with a two-storied brick-  
 built building thereon in Sootanooty, in the Northern  
 Division of the town of Calcutta. This property is  
 bounded on the north by Ishan Chunder Doss Kurmo-  
 mar's house; on the south by S. M. Koop Chand Dossee's  
 purchased house; on the east by Chashadhopapara  
 Street; and on the west by the late Kristo Chunder  
 Batabyal's khirky tank.

The abstract of title and conditions of sale may be seen  
 at the office of the said Registrar, or at the office of  
 Messrs. Bonnerjee and Chatterjee, at No 6, Old Post  
 Office Street, on any day before the sale, and will be pro-  
 duced at the time of sale.

R. BELCHAMBERS, Registrar.

Bonnerjee and Chatterjee, Plaintiff's Attorneys.

Berhampore, the 10th September 1894.

**Annual Statement of the Seaborne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narain-gunge), Volumes I and II. Price Rs. 20 for 1893-94. Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price.**

**A Manual of Tibetan, being a Guide to the Colloquial Speech of Tibet, in a series of progressive Exercises, by Major T. H. Lewin, F.R.G.S., of the Bengal Staff Corps, Late Deputy Commissioner of Darjeeling. Price Rs. 6: postage, 3 annas.**

Copies are to be had at the Office of the Director of Public Instruction.

**THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed:**

1st.—Bay of Bengal Daily Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by post in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per mensem.

2nd.—Bengal Daily Report, containing observations taken at 43 meteorological stations in Bengal and Assam, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 8 A.M. observations of each day is printed in time for the evening mail, and is distributed to subscribers in Calcutta the same evening. This report for the present is only published during the south-west monsoon, i.e., from about May 15th to November 15th, or thereabouts. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 276 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Rs. 2 per annum payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta, for the Bay of Bengal Daily Report, and to the Accountant and Treasurer Bengal Secretariat, for the other reports.

ALEX. PEDLER,

Meteorological Reporter to the Govt. of Bengal.

**Lists of British Enactments in Force in Native States: Western India (Bombay, Baroda, Persian Coast and Somali Islands, Muscat, and Zanzibar Coast).**

#### The Indian Law Reports.

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series	10 0 0	12 8 0
„ each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
„ a part of the Calcutta Series purchased separately (inclusive of postage in India)	.....	2 0 0
„ part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India)	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied of subscribers when required in place of copies lost in transit:—

	For town.	For mofussil.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy	0 8 9	0 10 3
„ each of the Madras, Bombay, and Allahabad Series, per copy	0 5 3	0 5 9
„ the Calcutta Series. For the year	7 2 6	8 6 3
„ each of the Madras, Bombay and Allahabad Series. For the year	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

„ Superintendent of Government Printing, Bengal.

*Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.*

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
	Rs. 20	Rs. 14	Rs. 9
For one issue	55	38	24
„ three issues	100	68	45
„ six	145	96	64
„ nine	180	120	80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS

Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
Bengal Law Reports for one year	20 0 0	22 8 0
Single copies, Rs. 2 per copy.		
Full Bench Rulings, Parts I and II	20 0 0	22 8 0

Bengal Secretariat Press, 10, Lyon's Range, Calcutta.

Each of the Madras, Bombay and Allahabad Series ...	0 5 3	0 5 9		
	Full rate.			
	Town.	Mofussil.		
	Rs. A. P.	Rs. A. P.		
Calcutta Series ...	2 0 0	2 0 0		
Each of the Madras, Bombay and Allahabad Series ...	1 0 0	1 0 0		

## Notice.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Superintendent of Government Printing in Bengal, 10, Lyon's Range, Calcutta.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

## Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Press, except for Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvency notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the REQUIS TRAR, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at MESSRS. THACKER, SPINK & Co., Government Place, Calcutta.

## Notice.

The 29th March 1886.—The subscription to, and postage for the Calcutta Gazette will henceforth be at the following rates, payable in advance:—

## For the Mofussil.

Per annum.			Per annum.		
Rs. A. P.			Rs. A. P.		
Entire Gazette	...	15 0 0	Parts* III, IV, V,	...	
Postage	...	5 0 0	and VI	...	5 0 0
Supplement	...	6 0 0	Postage	...	2 8 0

### Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

#### LEGISLATIVE DEPARTMENT.

[Third Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 20th July, 1894, and having been assented to by His Excellency the Viceroy and Governor General on the 22nd August, 1894, is hereby published for general information:—

#### ACT No. V. OF 1894.

*An Act to remove doubts which have arisen in connection with the resettlement of land-revenue in temporarily-settled areas and to amend the Bengal Tenancy Act, 1885.*

WHEREAS doubts have arisen as to the date from which proceedings with a view to the resettlement of land-revenue in temporarily-settled areas or rents in Government estates may be undertaken, and as to the date from which it may be said that a settlement of land-revenue is being made, and it is expedient that such doubts should be removed;

And whereas it is expedient to amend the Bengal Tenancy Act, 1885;

It is hereby enacted as follows:—

1. In section 101, sub-section (2), clause (d), of the Bengal Tenancy Act, after the word "revenue," the words "is to be or" are to be inserted.

2. In section 110, at the end thereof, the following shall be added:—

"Provided that in any local area declared to be under settlement of land-revenue by a notification under section 101, sub-section (2), clause (d),

every fair and equitable rent settled by a Revenue officer under section 104, sub-section (2), or revised under the proviso following, before the date upon which the new settlement of land-revenue comes into force, shall take effect from that date:

Provided also that, at any time between the publication of the record under section 105, sub-section (2), and the date upon which the new settlement of land-revenue comes into force, it shall be open to either landlord or tenant to apply, on the ground of special circumstances having occurred since the publication of the record, for revision of the rents settled, and a Revenue officer, whom Government may designate for the purpose, shall take such applications into consideration and make such revision of rents as may appear to be fair and equitable, and shall then make such corrections in the record as may be rendered necessary by such revision.

The provisions of Chapter X of the Bengal Tenancy Act shall apply to such revision of rents and such corrections in the record.

*Explanation.*—A settlement of land-revenue includes a settlement of rents in a Government estate.

3. Any notification or orders made, or purporting to have been made, under any law now in force, by the Local Government, directing that a survey be made or a record-of-rights be prepared by a Revenue officer in respect of the lands in any local area liable to be brought under settlement specified in such notification or order, shall be deemed to have been duly made, and it shall be held that a settlement of revenue was to be, and is being, made in respect of such local area from the date of such notification or order.

GORDON LEITH,

Assistant Secretary to the Govt. of Bengal,  
Legislative Department.

**RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT  
OF THE PATNA DIVISION FOR THE YEAR 1893-94.**

GENERAL DEPARTMENT—MISCELLANEOUS, No. 3216.

*Calcutta, the 11th September 1894.*

**RESOLUTION.**

**READ—**

The Annual General Administration Report of the Patna Division for the year 1893-94.

1. The most important public events in the history of the Division for the past year are the floods of August and September 1893, which caused widespread loss of crops and considerable distress in the Darbhanga and Muzaffarpur districts; and the riots which grew out of the anti-kine-killing agitation and occurred at Hilsa, Koath and Basantpur. A full narrative of these events is given in paragraphs 520-26 and 496-500 of the Report, and will be perused with interest.

2. In paragraphs 306-309 and 333 will be found an account of the chief public works carried out during the year—the Patna Drainage scheme, the Arrah Water-works, the Muzaffarpur Drainage scheme and the construction of the Poonpoo Bridge. The scheme for supplying pure drinking-water to the people of the city of Gaya, noticed in paragraph 310, is promising, and should be pushed forward. The remarks made by the Commissioner in paragraphs 60, 312 and 425 of the report, on what has been done towards improving the rural water-supply in Shahabad, Muzaffarpur, and Patna by the construction and repair of wells, are important, and the Lieutenant-Governor entirely agrees with him in pressing on the District Boards the desirability of giving greater attention and a more liberal supply of funds towards improvements of this kind.

3. The remarks made by Mr. Forbes in paragraph 192 of his report on the general good conduct of the Police throughout the year under very trying circumstances have been read by the Lieutenant-Governor with pleasure.

4. The Government requests all District Magistrates to study with care the views expressed by Mr. Forbes, in paragraphs 459-462, on the employment of Honorary Magistrates. The gratuitous services given by these gentlemen are very valuable, and it is desirable that they should be utilised as fully as possible.

5. The Commissioner has collected with much labour and arranged with skill, in Section 9, Trade and Commerce, the statistics of the trade of the Division during the year. They are useful in elucidating and confirming the general impressions of officers regarding the greater or less prosperity of the people.

6. The Lieutenant-Governor approves of the expenditure, as shown in paragraph 262 of the report, of about Rs. 1,20,000 (against half a lakh of rupees in the previous year) on improvements in the Wards' and Attached Estates in the Division.

7. With the exception of privilege leave vacancies, and some intervals of a few days, the districts of Gaya, Saran, Champaran, Muzaffarpur and Darbhanga were under the same Magistrates throughout the year. In Patna and Shahabad there were changes, one of which was unavoidable. Though strenuous efforts are made to avoid frequent changes of officers, only four out of the 17 sub-divisions retained the same officer throughout the year.

8. The thanks of Government are due to Mr. Forbes for the vigilance and sound sense with which he has conducted the administration of the Division during a year of unusual difficulties. In this task he was assisted by an able and energetic body of officers, among whom the Lieutenant-Governor specially selects Messrs. Skrine, Williams, Marindin, O'Donnell, Hare, Blyth, and

D. J. Macpherson for mention. He also received valuable assistance from the great zamindars of Bihar, and he has referred specially to the late Maharaja of Dumraon as having, at least from the time when the dangers of the anti-king-killing agitation became manifest, thrown all his influence on the side of Government. To them and to the leaders of the non-official European community the thanks of Government are also accorded.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

*Secretary to the Government of Bengal.*

	...	J. H. Kerr,—from 13th September to 2nd October 1893.
	...	G. J. B. T. Dalton,—from 1st to 14th April 1893.
	...	H. C. Williams,—from 15th April to end of the year.
	...	J. E. Phillimore,—from 1st April to 5th September 1893, and from 3rd October 1893 to end of the year.
	...	W. F. C. Montrieux,—from 6th September to 2nd October 1893.
	...	H. A. Boyd,—from 1st April to 15th September 1893, and from 16th October 1893 to end of the year.
	...	B. K. Mullik,—from 16th September to 15th October 1893.

## 2.—TOURS AND INSPECTION OF OFFICES.

### 5. My work during the past year, in respect of touring and inspections,

#### (a) Tour of Commissioner.

has been subject to constant interruptions, and one programme after another has been upset. The Cadastral Survey, the Gorakshini movement, the heavy floods in August, the visit of the Opium Commission, and three visits to the Division by His Honour the Lieutenant-Governor, have all more or less interfered with the ordinary course of business; with the result that, although I was absent from head-quarters for 139 days, I was still unable to accomplish the full tale of inspections required by the standing orders.

6. Beginning with the 8th April, I accompanied His Honour the Lieutenant-Governor on survey inspection to Hajipur and Bettiah, and then proceeded on ordinary inspection duty to Darbhanga, returning to head-quarters on the 4th May, after inspecting the sadar offices at Darbhanga and the sub-divisions of Sitamarhi, Madhubani, and Samastipur. Having lost the help of the Additional Commissioner Mr. Wace (from the 17th April), I had to remain at head-quarters engaged on annual reports, the examination of Assistants and other duties, during the whole of May (with the exception of a two days' visit to Gaya) and June. July had been fixed for an inspection of the sadar offices at Gaya, but I was obliged to alter my plans owing to urgent duties in connection with survey, entailing a second rapid tour to the three northern districts. Returning to head-quarters, I made preparations for the Darbar which was held by His Honour Sir A. P. MacDonnell at Bankipore on the 31st of that month. On the 2nd August I accompanied His Honour to Muzaffarpur and attended the Survey Conference there until the 7th, when I returned to head-quarters to hear appeals and bring up arrears of work. The serious floods, unprecedented in character, in the three northern districts again took me back, however, to Motihari, Muzaffarpur and Darbhanga during the last week of the month; while during the succeeding month, September (for which I had fixed the inspection of the Shahabad district), my plans were again completely upset by the Koath and Basantpur riots, necessitating a tour of several days in the Saran district, followed by a visit to Darjeeling to confer with His Honour during the latter part of the month.

7. During October I spent ten days (from 17th to 26th) in visiting Hatwa, Dumraon and Darbhanga, with the object chiefly of consulting with the local officers and the several Maharajas on the subject of the Gorakshini movement; on 13th and 14th November I was at Gaya in connection with the dispute between the Shias and Sunnis regarding the *Alum* procession; and from the 16th to the 27th I went into camp at the Sonapur meet.

8. After a flying visit in the first week of December to Calcutta on a summons from His Honour the Lieutenant-Governor, I made a tour during the rest of that month in the Saran and Champanan districts, inspecting the sadar offices at Chapra and Motihari, and the sub-divisions of Siwan and Gopalganj (which I had been unable to inspect in the previous year) in the former district and Bettiah in the latter. At this stage my tour was interrupted by the visit of the Royal Commission on Opium, which necessitated my returning on the 1st January to head-quarters in order to complete the arrangements for their reception and to prepare my evidence. The Commission remained at Bankipore from the 3rd to the 6th January, but in consequence of the further investigations arising from their inquiries and the accumulation of other work,

I was unable to get away again until the 21st. I then proceeded to Muzaffarpur, and after inspecting the sadar offices there and the sub-division of Hajipur, returned to head-quarters on the 5th February.

9. On the 14th February His Honour the Lieutenant-Governor paid another visit to Bankipore, leaving (for Muzaffarpur and Champaran) on the 16th, and on the 17th I proceeded to Gaya, where I remained until the 28th, inspecting the different offices there. From the 1st to the 4th March I was engaged with Drs. Comins and Gregg in inquiring into the sanitary condition of the Arrah and Chapra Jails, with reference to the orders in Government of India's No. 545, dated 18th September 1893. Returning to Bankipore on the 4th, press of work kept me at head-quarters until the end of the official year.

10. I was thus able fully to inspect only the four North Gangetic districts; south of the Ganges I inspected the Gaya head-quarters, and the Additional Commissioner, Mr. Wace, inspected the sadar offices at Arrah. Patna head-quarters and the sub-divisions of the three southern districts had to go without a Commissioner's inspection. These, however, with the exception of Jahanabad, Barh and Dinapore, were all inspected during the preceding cold weather. I hope to visit these three sub-divisions during next month, should no new interruption arise.

#### PATNA.

11. The number of days spent in camp by the district officers was 90, viz.,  
 (b). Tour of Collectors. 23 by Mr. Stevenson-Moore, principally in May and  
 (c). Tour of Sub-divisional Officers. Juno, in connection with the anti-kine-killing riots  
 at Hilsa and Masourhi, and 67 by Mr. O'Donnell.  
 Besides the ordinary duties of inspection of sub-divisions, roads, police-stations, &c., a number of the Government estates in the interior were also visited.

#### Sub-divisions.

12. *Barh*.—Mr. Babonau made an useful tour of 109 days. It was well distributed throughout the year, and a number of criminal cases were disposed of *in loco*.

13. *Bihar*.—Maulvi Wajid Hossein was on tour for 25 days during the first five months of the year, and his successor, Babu Mohondro Nath Gupta, for 73 days—total 98 days—during the last seven months. Besides the usual administrative inquiries, attention was particularly directed to the trial, *in situ*, of badmashi cases.

14. *Dinapore*.—Major C. J. Robarts spent 17 days in camp, during which, among other duties, he inspected the accounts of the Government estates in his charge. Under orders conveyed in Government No. 268T.G., dated 6th October 1892, the Cantonment Magistrate of Dinapore is exempted from the operation of the ordinary touring rules.

#### GAYA.

15. The District Officer, Mr. D. J. Macpherson, again made a very thorough tour of his district, being absent from head-quarters for 132 days in all.

He successively twice visited each sub-divisional head-quarters and the Municipalities of Daudnagar and Tikari, besides inspecting a large number of Government estates and the important Deo Estate which is under the Court of Wards. Mr. Macpherson again brings to notice the prejudicial effect on district administration of the rule under which, in a large district like Gaya, the district officer is compelled to absent himself from head-quarters for four months in the year. In this view, as Government is aware, I agree with Mr. Macpherson. We have only a limited power of control—in the person of the district officer—in each district, and the problem is, how to make best use of it. This is not, however, a matter for discussion in an annual report, and I will therefore say no more on the subject at present.

16. Mr. Lang, the Joint-Magistrate, was also on tour for 22 days, during which he was chiefly employed in learning survey work in connection with the cadastral survey of the Tikari Estate.

*Sub-divisions.*

17. *Aurangabad*.—Mr. Cargill, during the 10 months (June to March) of his charge, was on tour for 173 days, his predecessor (Maulvi Zakir Hossein) and temporary *locum-tenens* (during part of November) Babu Ram Anugrah Narain Singh, making up 21 days more between them. Mr. Cargill's tour, though expensive to Government, was an useful one, enabling him to obtain a very complete knowledge of every part of his sub-division and to try a large number of cases *in situ*. One reason for its being so prolonged was that some time (36 days) was taken up in making the assessments in several cases where additional police had been quartered under section 15 of the Police Act in connection with the Gorakshini riots in the early part of the year.

18. *Jahanabad*.—The three officers successively in charge spent 95 days in all on tour. The Collector notices with approbation the tour made by Maulvi Mohammad Habibullah, during which he paid special attention to *chaukidari* matters, and to inculcating feelings of tolerance between Hindus and Muhammadans.

19. *Nawada*.—The time spent on tour aggregated 101 days, viz., three days in April and March by Mr. Nurul Huda, and 98 days during the remaining 10 months by Maulvi Sayed Mujibur Rahman. The latter officer's tour is also spoken of in terms of praise by the Collector. The Maulvi "made very thorough and useful inspections of the numerous Government estates in his sub-division, and he also devoted special attention to *chaukidari* affairs, besides attending to his other ordinary duties."

## SHAHABAD.

20. The district was successively in charge of Mr. Skrine, Mr. Garrett and Mr. Marindin. The two former were on tour for an aggregate of 59 days, and Mr. Marindin, who joined on the 16th October, for 82 days. Mr. Marindin's tour brought the total number of days to considerably over the prescribed minimum, but he explains that, being new to the district, he was anxious to learn as much of it as possible during his first cold weather. Mr. Garrett's tour (30 days) was chiefly occupied in inspecting the Buxar and Sasaram sub-divisional offices. Mr. Marindin during his tour inspected all three sub-divisions and marched through the greater part of his charge including the Kymore Hills to the south of the district where the disputes between the maliks and their Kharwar raiyats required his attention. The usual administrative inquiries were made by all three officers, and the tours of Messrs. Garrett and Marindin included a considerable amount of useful inspection work. The question of quartering additional police on Koath and the neighbouring villages also occupied part of the time on tour of both Mr. Skrine and Mr. Marindin.

*Sub-divisions.*

21. *Buxar*.—Mr. Oldham, who was in charge for the whole year, made a succession of useful tours aggregating 117 days and extending over every part of his sub-division. During eight days in February he was in camp at Barahpur fair, his arrangements for which were attended with marked success, as already specially reported to Government.

22. *Sasaram*.—Babu Kedarnath Dutt spent 65 days, and Mr. Drake-Brockman 62 days on tour. The former was engaged during part of his time in camp in inquiring into the Koath disturbances and in trying the cross-cases arising from them. Mr. Drake-Brockman's tour was an useful one through all parts of the sub-division. Among other duties he made a careful inspection of Khas Mahals and Wards' estates, including a thorough examination of the accounts of each tahsili cutcherry.

23. *Bhabua*.—Maulvi Sheikh Abdullah also made a good tour of 117 days, during which, besides the usual inspections (of police-stations, pounds, outstills, &c.), he too paid particular attention to the collections and accounts of the khas mahals in his sub-division.

## SARAN.

24. The District Officer, Mr. Manisty, was in camp for 55 days during the hot and rainy seasons, and for 97 days during his cold-weather tour. He

visited at one time or another every part of the district, and twice inspected each of the sub-divisional offices. His programme was a good deal interfered with by the occurrences connected with the Basantpur riot, and by his having to make arrangements for the marching of the military reliefs through the Saran district. This was a new thing for Saran, the measure being adopted on account of the anti-kine-killing agitation prevalent in that among other districts.

*Sub-divisions.*

25. *Siwan*.—Mr. Lang spent 123 days in camp, making the usual inspections of police-stations, excise shops, schools, &c., and also in accompanying and making arrangements for the supply of the troops passing through the sub-division.

26. *Gopalganj*.—Mr. Thomson was in camp for 91 days. He gave close attention to all the different administrative matters falling within the scope of a Sub-divisional Officer's duties.

CHAMPARAN.

27. During the hot weather Mr. Blyth was in camp for 28 days, and Mr. Garrett, who acted as district officer while Mr. Blyth was on leave, for 26 days. After his return Mr. Blyth made a tour during the cold weather of 48 days. The time in camp of both officers was usefully employed. Amongst subjects for inquiry of an other than ordinary character may be mentioned the unusual floods in August, and matters connected with the cadastral survey.

28. *Betiah*.—During the hot weather and rains Mr. Cumming was in camp for 45 days, and during the cold weather for another 46 days. Mr. Fisher, who took charge on 27th January 1894, was on tour for 36 days. The usual subjects for inquiry received attention.

MUZAFFARPUR.

29. Mr. Hare was in camp for some days in every month of the year; his camping extended in all to 96 days. Most of the district was visited, especially those parts which had not been visited in the previous year. The usual inquiries were made and the Government offices inspected. The effects of the August floods were made a special object of inquiry, and a number of petitions regarding repairs to embankments which had been breached were disposed of after local investigation. The damages done to the roads, and the general condition of the inhabitants of the flooded areas, also called for special attention.

*Sub-divisions.*

30. *Sitamarhi*.—Mr. Egerton was on tour for 109 days. He made all the usual inspections and inquiries, giving particular attention to chaukidari matters. The pillars on the Nepal Frontier were all carefully examined.

31. *Hajipur*.—Mr. Morshead was on tour for 40 days, and Mr. Konstan for 82 days—122 days in all. Both officers made all the usual inquiries.

DARBIHANGA.

32. Mr. Williams was in camp for 125 days, during which he visited almost every part of the district. All the usual inspections and inquiries, including those in connection with Wards' estates and khas mahals, were very carefully made, and full and interesting diaries submitted. The occurrence of the high floods in August and October made it necessary for the south-eastern corner of the district to be constantly visited. Mr. Williams not only went there three times himself, but found it necessary to depute Mr. Joint-Magistrate Mullik and a Deputy Collector for 22 and 40 days respectively to the locality.

33. *Madhubani*.—Mr. Boyd was in camp for 92 days, occupied upon the usual inspections and inquiries.

34. *Samastipur*.—Mr. Phillimore spent 100 days in camp similarly employed.

## (d).—INSPECTION OF DISTRICT OFFICES AND TREASURIES BY—

## I.—COMMISSIONER.

35. The following inspections were made:—

Months.	District Head-Quarters.	Sub-divisions.
1	2	3
April 1893 ...	Darbhanga—All departments ...	{ Sitamarhi.
May „ ...	.....	{ Madhubani.
December „ ...	Saran—All departments ...	Samastipur.
„ „ ...	Champan—All departments	{ Siwan.
January 1894 ...	Muzaffarpur—All departments	{ Gopalganj.
February „ ...	Gaya—All departments.	Bettiah.
„ „ ...	*Arrah—All departments.	Hajipur.

\* By Mr. Additional Commissioner Wace.

36. The jails and dispensaries were also inspected at each of the above places, besides such of the Special and Rural Sub-Registrars' offices as time permitted. Municipal matters were looked into, and the office of the Manager of Paigumberpur Estates under Court of Wards in Darbhanga was thoroughly inspected. The inspection notes and instructions were duly communicated to the district officers.

## II.—COLLECTORS.

37. *Patna*.—The office was inspected by Mr. C. J. O'Donnell in September 1893, and again in March and April 1894.

38. The Barh sub-divisional office was inspected twice: viz., in June 1893 by Mr. Stevenson-Moore, and in January 1894 by Mr. O'Donnell; but the sub-divisional offices at Dinapore and Bihar were inspected only once, viz., in November 1893 and January 1894 respectively. The Collector's attention has been called to the omission.

39. *Gaya*.—Mr. Collector Macpherson inspected the offices at head-quarters in October 1893 and again in April 1894. The Collector explains that he could not hold the second inspection before close of the official year, owing to heavy accumulation of work while he was on tour.

40. The Aurangabad sub-divisional office was inspected in August and again in January, the Nawada office in December and February, and the Jahanabad office in November and March.

41. *Shahabad*.—The head-quarters offices at Arrah were partially inspected by Mr. Skrine in September, and again by Mr. Marindin in December and March.

42. The Buxar sub-divisional office was inspected by the Acting Collector Mr. Garrett in May 1893, and by Mr. Marindin in December 1893. The Sasaram sub-divisional office was inspected by Mr. Garrett in June 1893, and by Mr. Marindin in January and February 1894. The Bhabua office was inspected by Mr. Marindin in February 1894.

43. *Muzaffarpur*.—Mr. Hare inspected the Sadar offices in September and March, the Hajipur sub-divisional office in August and March, and the Sitamarhi sub-divisional office in September and February.

44. *Darbhanga*.—The Sadar offices were inspected by Mr. Williams in September and October and again in March and April.

45. The Madhubani sub-divisional office was inspected by him in August and March, and the Samastipur sub-divisional office in August and February.

46. *Saran*.—Mr. Manisty held his first inspection of the offices at headquarters in August, and his second inspection in March.

47. He also inspected the sub-divisional offices of his district twice, viz., Siwan in September and March, and Gopalganj in June and January.

48. *Champaran*.—The Sadar office was inspected by Mr. Garrett in September, and by Mr. Blyth in March.

49. The Bettiah sub-divisional office was inspected by Mr. Garrett and Mr. Blyth in September and March respectively.

50. It will be seen that the orders of Government regarding inspection of district and sub-divisional offices by the district officers were on the whole properly attended to during the last year.

### 3.—WEATHER AND CROPS.

51. In order to explain the general character of the weather and the effect on the crops, I have had the following statement prepared, showing the actual as compared with the normal rainfall in each district during the year under review:—

*Statement showing actual rainfall, month by month, in each district as compared with normal average rainfall.*

MONTHS.	PATNA.		GAYA.		SHAHABAD.		SARAN.		CHAMPARAN.		MUZAFFARPUR.		DARBHANGA.		AVERAGE FOR PATNA DIVISION.

Total	51'11	42'86	47'75	43'30	40'48	42'00	47'16	44'50	79'72	40'55	51'43	46'15	51'50	47'37	54'87	45'04

It will be seen that the rainfall was considerably above the average, especially in Champaran, where it was 60 per cent. above normal. In the other six districts the excess averaged only 14 per cent., ranging from 2·6 inches in Saran to 5·5 inches in Gaya, and 7 to 8 inches in the four remaining districts.

52. The year commenced well, with light showers in April and 2 to 3 inches in May, favourable for the preparation of the lands for the bhadoi crop. Prospects looked very hopeful until excessive rain in June in the Patna district, and in July in all the districts, Saran alone excepted, drowned and rotted the Indian-corn, reducing what had promised to be a bumper crop to a 6 to 10-anna one, except in Saran, where there was almost a 16-anna harvest. For the whole Division the bhadoi crop may be taken at 9 to 10 annas.

53. But this heavy rain, though destructive to the bhadoi, was of great service for the winter rice, the principal crop of the year. In August the fall was slightly below normal, but in September and October copious rain again fell, averaging some 5 inches above the usual allowance, with the result that the general outturn of the rice-crop was considerably better than for several years past. In Gaya and Saran the harvest was a 17-anna one; in Patna and Champaran the yield was over 15 annas, and it would have been equally good in Muzaffarpur and Darbhanga, had it not been for the destructive floods in those districts, which completely swept away one set of seedlings after another over very wide areas. In Shahabad there was also a fair rice harvest, ranging from 15 annas in the Bhubua and Sasaram sub-divisions to 12 and 13 annas in Buxar and the Sadar. Taking all districts together, the outturn of the rice harvest may be taken at 14½ annas.

54. The third crop of the year is the rabi, including wheat, oats, barley and oilseeds. For these crops the weather was distinctly unfavourable. The excessive rain at the end of September, and the more than full fall in October, left the ground too moist for the usual sowings, which were consequently retarded and somewhat restricted in area. The development of the crop also suffered from want of rain in December and January, while the rain in February, coming too late and bringing cloudy weather, probably did as much harm as good. Finally, the west winds in March, which were earlier than usual, dried up the grain, with the result that nearly the whole crop, even where looking well, threshed out very badly. On the whole, the rabi yield may be taken at 12 to 13 annas. It was better in the northern districts than in those to the south of the Ganges, where the winds in March made themselves more felt. Saran, again, was one of the most favoured districts, with an outturn of 15 to 16 annas. Champaran too did equally well, especially in the tracts that had been enriched by the floods of August, while in Muzaffarpur and Darbhanga there was a 12 to 13-anna harvest. In Patna, Shahabad, and Gaya the yield varied from 9 to 12 or 13 annas.

55. The year was a most disastrous one for opium. The causes were the same as combined to injure the rest of the rabi crops. The late sowings resulted generally in blight; subsequently the rain and cloudy weather in February injuriously affected the flow of juice, and the stormy west winds during collections dried up what remained of it. The result was an outturn of only 24,312 maunds in the Bihar Agency against 39,482 maunds in the preceding year.

56. For indigo the past year was a remarkably disappointing one. The year commenced with good moisture, and the subsequent rainfall was not unfavourable; and although in places considerable damage was done by caterpillars, the crop still almost everywhere promised to be a heavy one. But the plant never grew, and the outturn was only about  $\frac{2}{3}$  of what was expected. No one can account for this failure, unless the native saying be accepted that cold weather rain always does more harm than good. The only good outturns were from some of the Saran factories on the Gorakhpur side, where the weather conditions were probably different. For the concerns in Tirhut and Darbhanga the season was disastrous, while Champaran gave the worst record it has had for many years.

4.—PUBLIC HEALTH.

57. The following statement compares the number of deaths and the death-rate per mille in the different districts during the last two calendar years:—

District.	Population.	NUMBER OF DEATHS FROM—										RATE PER MILLE	
		Cholera.		Fever.		Small-pox.		Other causes.		Total.		1892.	1893.
		1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	(Column 2 and 11.)	(Column 2 and 12.)
1	2	3	4	5	6	7	8	9	10	11	12	13	14
Patna	1,760,004	8,152	1,058	41,725	31,204	647	400	13,517	13,345	64,021	40,007	36.1	27

Total	15,911,014	72,934	4,883	361,784	327,220	3,858	2,403	94,687	90,287	532,867	430,802	33.06	27

There was, as the above figures show, a great improvement in the public health in 1893 as compared with the year immediately preceding. The marked feature was the comparatively very small mortality from cholera.

The early rain in April and May, followed by the copious fall in the succeeding months, afforded a supply of water above the usual average, and to this, I think, the general immunity from cholera is chiefly to be attributed. It will be remembered that in the previous year (1892) the wells and tanks had run very low—many had run dry—owing to the insufficient rainfall in 1891, and the holding off of the early rains in 1892, with the consequence that cholera then committed great ravages. During the past year, however, we have had exactly opposite

conditions, accompanied with opposite results. At the same time, accompanying the heavy rains, we have had every where a deal of fever, especially in Shahabad, and also in the submerged tracts in the three northern districts, as might have been expected; and though the mortality from this cause has been less (except in Shahabad) than in 1892, it has been greater than in 1891 and previous years.

This is partly, no doubt, to be attributed to improved registration as well as to the general increase in population; but I am afraid that it must be admitted that the disease is itself everywhere gradually making headway.

58. *Patna*.—The death-rate, though considerably lower than in the previous year, was still somewhat higher than in any of the five years preceding 1892. This appears to be mainly due to the gradual increase of fever, though it is also to some extent attributable to the steady improvement in the collection of mortuary returns. The decrease in deaths from cholera throughout the district was very marked, and the Collector, during his cold-weather tour, satisfied himself by local inquiries that it was real. The sanitary condition of the Patna City is far from satisfactory. The system of well-privies in vogue there helps to saturate the soil with impurities, and cholera was present in the town almost throughout the year; of the four municipalities in the district, Dinapore appears to be decidedly the most healthy. Being scattered, it does not suffer from overcrowding, and its sanitary arrangements are carefully looked after by the Cantonment Magistrate and his fellow Commissioners.

59. *Gaya*.—Here again the district officer notices the marked absence of cholera and bowel-complaints. The mortality from fever, however, though less than in the preceding year, was somewhat above the average, so that on the whole the past year, as compared with previous ones (omitting 1892), cannot be called a healthy one. Small-pox, though less prevalent than last year, has increased greatly since 1890, and made itself particularly felt in the Nawada thana during the hot-weather months, disappearing almost completely during the rains. The number of persons vaccinated was 34,401 as compared with 33,775 in the preceding year. The Sub-divisional Officer of Nawada, Maulvi Mujibur Rahman, is reported to have given much attention to this matter during his cold-weather tour. Taking deaths from all causes, October was the most unhealthy and February the most healthy month in the year.

60. *Shahabad*.—This was the most unhealthy of all the districts in the Division. Cholera, though far less destructive than in the year preceding, was more prevalent than elsewhere; while deaths from fever show a very heavy increase. There can be no doubt but that the system of wet cultivation now so largely resorted to in this district is mainly responsible for the increasing mortality in Shahabad from this disease. During the past year its ravages extended over the whole district, being especially marked during the rains. Cholera also broke out in many places in the interior in almost an epidemic form, and the town of Arrah at one time was threatened with an attack. To the affected villages native doctors were despatched with medicines, and measures were taken by the District Board to disinfect the worst of them; while in the town of Arrah, Mr. Skrine, with his usual energy, personally supervised the efforts made to arrest the disease. The Magistrate remarks that the apathy of the people, and the unwholesome habits to which they are rooted, renders the task of village sanitation on an appreciable scale hopeless, though something might, he thinks, be done by the District Board, by constructing model wells for drinking purposes, and inducing zamindars and other well-to-do persons, who desire to land their names down as public benefactors, to follow the example thus set to them. As a striking exception to the usual filthy villages of the district, Mr. Marindin instances the villages of Kesath, where Babu Shankar Dyal Singh, a resident zamindar, "keeps the lanes and confines of the village in a state that would do credit to many a municipality." Another zamindar, who deserves favourable mention in this respect, is Babu Thakur Prasad Singh of Mujiwari in the Buxar sub-division. It is very desirable that other landlords should follow the good example set by these two gentlemen.

61. *Saran*.—Was on the whole the most healthy of all the districts. The absence of both cholera and small-pox was especially noticeable, the deaths from these diseases being less than for many years past. Fever also was less fatal than usual. It is to be noted that the outturn of the different harvests were on the whole best in Saran of all the districts in the Division, and worst in

Shahabad. It seems not unlikely that this difference in food-supply had something to say to the contrast in the matter of health presented by these two districts.

62. *Champaran*.—For this district the past year has also been on the whole a fairly healthy one, although after the subsidence of the floods fever was prevalent in the tracts which had been submerged, causing the total death-rate, though much lower than in 1892, to be somewhat greater than in the three preceding years. Cholera and small-pox were conspicuous by their absence, occurring only here and there in a very sporadic form.

63. *Muzaffarpur*.—This district suffered very severely from cholera during the year 1892, when the deaths from this cause numbered over 18,000. During the past year deaths from cholera numbered only 468. Fever cases also showed a decrease as compared with the preceding year, which doubtless would have been much greater had it not been for the heavy rains and the large area affected by the floods. Making due allowance for this, the past year, on the whole, ranks as a fairly healthy one.

64. *Darbhanga*.—The last remarks apply to this district also. The absence of cholera—the figures falling from about 13,000 to 572—was here too very remarkable. Small-pox also was practically unknown. Fever was very prevalent, especially over the areas submerged by the floods, though the deaths from this cause were, as in the case of the other two northern districts, less than in the preceding year.

65. The following statement gives the total number of deaths and the death-rate in the different municipalities. The figures, it will be remembered, are now collected through the agency of the Municipal Police:—

DISTRICT.	Town.	Popula- tion.	DEATHS REGISTERED.				BIRTHS REGISTERED.			
			1892.	1893.	Rate per mille.		1892.	1893.	Rate per mille.	
					1892.	1893.			1892.	1893.
1	2	3	4	5	6	7	8	9	10	11
Patna*	Patna	164,942	5,249	5,725	31.73	34.71	3,332	4,535	23.23	27.49

\* The figures for Patna are for the Financial year.

66. I cannot but regard some of the above figures as very unreliable. The unusually low death-rate in the town of Chapra is, to say the least, remarkable; while the contrast between the death-rate in the three rural municipalities in Muzaffarpur (Hajipur 17.35, Lalganj 36.2, Sitamarhi 35.02) is still more so. I am calling for an explanation from the district officers concerned.

#### 6.—MATERIAL CONDITION OF THE PEOPLE.

67. The material condition of the people in an agricultural country like Bihar depends from year to year upon the results of the harvests. These, as noticed in the preceding section, have been, taking one crop with another, decidedly favourable, and the prices for food-grains ruling at the end of the year were lower all round than for several years past.

The well-to-do appearance of the people generally is in striking contrast to their pinched looks two years ago ; and the difference is specially noticeable, as it always is, among the admissions to the local jails. The large number of Sadhus who are now perambulating Bihar is proof in itself that the province is looked upon, for the present at least, as a land of plenty ; and more than one district officer notices as sure evidence of prosperity the unusually large numbers of weddings that have been celebrated during the late marriage season.

68. But in the midst of this prosperity all is not rejoicing. A notable exception to the general rule of good fortune is the case of the opium cultivators. To them, as noticed elsewhere, the past year has been a most disastrous one. The crop, estimated at the commencement at 40,000 maunds (in the Patna Agency), gave an outturn of only 24,000 maunds, representing an aggregate loss of something over 30 lakhs of rupees to half a million raiyats. This, coming after several bad years in succession, has been a very severe blow ; and the increase in price from Rs. 5 to Rs. 6 per seer of crude opium lately sanctioned by Government has come none too soon.

69. Another class of sufferers were the cultivators over the 3,300 square miles of flooded country in the three northern districts, who lost not only their bhadoi and rice crops, but many of them their houses and a considerable number of cattle. The way in which these people have recovered from their losses, instead of being overwhelmed by them, is very remarkable. At first it seemed almost certain that the affected tracts would be the scene of famine relief on an extensive scale. As time went on, however, and the floods subsided, the people returned to their villages, rebuilt their houses, and proceeded to till their lands for the rabi sowings. Provision was made in the three districts for distributing advances under the Agriculturists' Loans Act. In the end, however, only a comparatively small sum was needed for the purpose ; and where, in the worst tract, test relief works were opened, not a thousand people in all came to them. Whatever its evils, which no doubt are great, the result says a good deal for the much abused mahajani system. A full account of these floods is given in section 37 of this report.

70. Mr. Marindin has given an interesting sketch of the condition of the agricultural classes in the Shahabad district, from which I give the following extracts :—

"Speaking generally of the material condition of the peasantry in this district, it will be found to vary according to localities, and also according to the position and circumstances of their landlords.

"The most prosperous tenantry are perhaps to be found in the rich tract of alluvial soil lying north of the Railway. A great deal of this belongs to the Dumraon Raj, and the Sub-divisional Officer of Buxar observes that 'an absence of middlemen and petty landlords goes far towards ensuring the comfort of the people, while most of the raiyats who belong to a more self-dependent class than in other parts have acquired *qasab* rights over their fields. The residents of the diara villages are specially well off. The labour of tilling those lands is almost *nil*, the seed only requires to be scattered, while the soil impregnated with rich Gangetic loam yields a heavy crop.'

"South of the Railway line in the Bhojpur pargana the conditions are more varied. There is a larger number of petty proprietors among whom estates have been divided and sub-divided, and at each division an attempt is made to enhance the raiyat's rent. The raiyats in this part of the pargana have also to pay canal water-rates, while those in the northern tract have the advantage of excellent crops without the cost of irrigation. The canals on the other hand have led to the extended cultivation of sugarcane, which is a profitable crop, and on the whole the raiyats in this part of the district are fairly well off and prosperous. In the Chousa pargana they are not so well off ; the soil is less fertile and estates are split up among a number of petty proprietors. The Sub-divisional Officer of Buxar reports that many of the cultivators in this pargana are indebted, and that a good deal of the land is falling into the possession of the mahajans.

"In the Sasaram sub-division there are numerous petty proprietors, mostly an indigent class and often themselves partly cultivators. The raiyats have suffered from this minute sub-division of property, and they are said to be best off in the northern part of the sub-division, where the soil is more fertile and

the land is held to a great extent by two large proprietors—the Dumraon Raj and the Raja of Surajpura. There are a good many disputes in this sub-division over the question of *nakdi* and *bhaoli* rents, the tenants preferring the former and the landlords the latter; this difference of opinion being accentuated no doubt by the rising prices of food-grains and the fall in the value of the rupee.

“The Bhabua Sub-divisional Officer reports that the crops were plentiful and the general condition of the people satisfactory. The condition of things in the Arrah sub division is much the same as that already described in Buxar.

“The peasantry on the Rhotas plateau, which lies partly in the Sasaram and partly in the Bhabua sub-division, are mostly Kharwars. They seemed to me, when I was on tour on the plateau, to be fairly well off and prosperous. They had good crops and looked well fed, and, except in a few villages where there was some dispute with zamindars about the levy of dues on forest fruits, they were on good terms with their landlords.

“Speaking generally, I should say, from what I saw in my cold-weather tour, that the condition of the raiyats has been fairly prosperous. There is a large class of well-to-do peasantry, who could hold their own for some time even in seasons of scarcity. Below these come a still larger class, whose condition depends entirely upon the crops of the year, and during the year under report they have been fairly well off. In the coming year there will be something to contend against from a partial failure of the rabi and a bad poppy crop. I saw hardly any sign of internal want even among the labouring classes, and marriage festivals have since the close of the season been in full swing. Against such sign of prosperity on the surface, the frequent sales of land by raiyats, evidenced by the returns of the registration offices, show their indebtedness; and the ease with which the Messrs. Mylne & Co. can obtain emigrants among the Koeri and Kurmi class to their grant of land in Burma proves that the burden of the population on the soil is being felt, and that the classes who would readily take more land if they could get it to support themselves and their families are glad to avail themselves of a good opportunity of finding it elsewhere. The yearly diminution of grazing lands in every village, and the rising value of *guzashla* and occupancy rights, are other signs of the growing want of land in the district to meet the growth of the population.

“The zamindars as a class are not well off. They are losing status from the minute system of sub-division allowed under the Partition Act. These petty proprietors are mostly indigent and make bad and grasping landlords, and their condition as pointed out above reacts on the tenantry.”

Speaking of the prospects of the portion of the population supported by the principal local industries, Mr. Marindin continues—

“The sugar refineries, in which there is a considerable business, have not done well owing to a poor sugarcane crop. The business of the Telis is being injuriously affected by the increasing use of mineral oils, and many of them are taking to other trades, such as grain and spice selling. The paper manufacturers of Hariharganj in Sasaram are on the last verge of bankruptcy. The industry is decaying and cannot compete with imported machine-made paper. Mr. Drake-Brockman (the Sub-divisional Officer) says that it is only a question of a few years before the entire manufacture will have disappeared.”

71. One feature of Bihar, in striking contrast with what is found in lower and especially in Eastern Bengal, is the existence of a large class of landless labourers. A considerable number of these people find work at the Indigo Factories in the four northern districts. They also emigrate in search of work on the roads and railways in the eastern districts, and especially to assist in the harvests there, returning to their homes when the demand for labour ceases. For these people the past year has been a good one, the abundant harvests giving them employment near their homes, and enabling their employers to treat them, comparatively speaking, liberally. “The labouring classes,” Mr. Marindin remarks, “are better off than usual, as shown by the greater number of utensils and ornaments they possess; but they are improvident, and many of them spend a good portion of their earnings in drink.” Speaking of these people, Mr. O'Donnell, the Collector of Patna, says:—

“In Bihar there is a large section of the people who hold no land, grow no crops of their own, and depend entirely on the wages of labour, whilst their employment is irregular and intermittent. They are probably the most

recklessly improvident class in India, marrying at the earliest age, and taking no thought for the morrow."

72. This is true enough; yet these people cannot be said to be dissatisfied with their lot. They reject all attempts to induce them to emigrate to Assam or the Colonies, however tempting the terms. When a plot of land is given to one of them, his first idea is to sublet it. All that he wants is his daily food, and when crops are good and labour in demand, he gets it without difficulty. When there is famine in the land, he at the outset suffers more severely than others; but immediately the relief works open, he is better off than many of the petty cultivators, who are not so accustomed as he is to earthwork labour.

73. In paragraph 85 of my last report I noticed, as bearing upon the question of the increased indebtedness of the cultivating classes, the extent to which the number of registered sales and mortgages of immoveable property, consisting chiefly of raiyats' holdings, had increased in Bihar. On this subject I have since then submitted a detailed report to the Board of Revenue in this office No. 1089R., dated 29th January 1894. The question is too intricate for discussion in all its bearings here. It will be sufficient to say that my calculations go to show that about  $7\frac{1}{2}$  per cent. of the cultivators in the districts north of the Ganges have parted with their interests, in whole or part, either by sale or mortgage, within the last five years. This refers to registered transactions only. What the number of unregistered transactions are it is impossible to say. The purchasers are classed in the returns of the Registration Department as "money-lenders," "other landlords" and "other raiyats" in the proportion roughly of 7,  $7\frac{1}{2}$  and 28. But for all intents and purposes most of the "other landlords" may be set down as ordinary money-lenders, while many of the "rai-yats" who appear as purchasers belong to the large class of small village mahajans—well-to-do cultivators—who gradually absorb their poorer neighbours' occupancy rights, not so much for the purpose of cultivating the acquired holdings themselves, as of subletting them at rack-rents.

#### 6.—EMIGRATION AND IMMIGRATION.

74. The following table shows the number of emigrants registered during the last two years in the several districts of this Division:—

NAME OF DISTRICT.	For Colonies.		Tea Districts.	
	1892-93.	1893-94	1892-93.	1893-94.
1	2	3	4	5
Patna ... ..	1,009	740	...	57
Gaya ... ..	...	...	425	300
Shahabad ... ..	1,442	1,072	786	806
Saran ... ..	170	209	...	...
Champaran ... ..	...	...	...	...
Muzaffarpur ... ..	28	...	...	...
Darbhanga ... ..	46	...	...	...
Total ...	2,695	2,021	1,211	1,163

The falling off in emigration to the Colonies seems to be due mainly to the year under report having been a fairly prosperous one, and to work in consequence being obtainable nearer home. Recruiters also seem to have shown less activity, possibly owing to a falling off in the demand; it is mentioned by one district officer that the depôt in his district for emigrants to Fiji was closed.

75. In regard to tea districts, the number of registered emigrants does not represent the number of actual emigrants, for many people go to the tea district under the more popular system of free emigration. "No statistics are available," the Collector of Gaya says, "in regard to free emigration; but the

enquiries which have been made indicate that it was larger than in the preceding year." There seems reason to believe that in the other districts also free emigration is more resorted to than registered emigration:

76. The bulk of the emigrants consist of Muhammadans, Rajputs, Koeris, Kurmis and Ahirs, and thus would seem to come from the cultivating classes. It is a noticeable fact that emigration is not so popular with Musahars and other low castes, who are supposed to live on the margin of bare subsistence. Ambition to better themselves seems to be wanting with these classes: one explanation offered is that they are generally of low physique and are therefore rejected by the recruiters, but I am not inclined to attach any weight to this view.

77. Thousands of people still continue to move to the districts of Northern and Eastern Bengal in search of employment during harvest season, returning after it is over. The Collector of Darbhanga mentions that about 100 people from one part of his district went off in search of work on the Chittagong-Assam Railway.

Naturally of immigration into Bihar there is none, the population being already more than the soil can support.

78. A case occurred at Arrah in which a recruiter for British Guiana was convicted of wrongful restraint under section 342, Indian Penal Code, and sentenced to six months' rigorous imprisonment, which was confirmed on appeal. The case was detected by a Deputy Magistrate who, while inspecting the sub-depôt at Nawada, found a woman who complained to him that she was being detained against her will. An enquiry was held, and it was ascertained that while the woman was staying with her paramour at the shop of a *bania*, she was visited by the recruiter and a constable, who compelled her to accompany them to the police outpost on the pretext that she was wanted on a charge of theft. The case broke down, on which the paramour having decamped, the recruiter carried the woman off to the sub-depôt and detained her there against her will. The recruiter and the constable were both tried and convicted. There was no case in any other district.

79. The different cooly-depôts were duly inspected by Magistrates and Registering Officers, and defects found were promptly rectified. There was no outbreak of disease.

#### 7—PRICES OF FOOD AND LABOUR.

80. Statement No. III appended to this report compares the selling prices of salt and of the three principal food-grains during the last fortnight of each of the last three years. It is satisfactory to note that the prices of food-grains ruled considerably lower at the end of the year of report than at a corresponding period in either of the two preceding years. Going still further back, I find that both wheat and gram are cheaper now than they were three years ago, while rice rules about the same; in fact we have to go back four years before we can strike an all-round equally low market as that which now obtains.

81. A further satisfactory feature is that at nearly all of the outlying marts, such as Nawada and Aurangabad in Gaya, Sasaram and Bhabua in Shahabad, Bihar in Patna, Gopalganj in Saran, which are not on the line of Railway, the rates at the end of the year were somewhat lower than at the large grain centres on the line of rail. This, as I have previously pointed out, may be taken as a safe indication of the sufficiency of the food-supplies in the interior of the country.

82. The moderate rates ruling at the end of the year are, of course, due to the favourable harvests generally; but the credit is chiefly due to the excellent rice crop. It is the main staple of food in the Bihar districts, and its outturn practically regulates the selling price of the other food-grains as well as its own.

83. The Collector of Muzaffarpur notices, as a somewhat curious incident of the floods, that although at one time they caused considerable injury to the crops in the Sitamarhi sub-division and threatened to do more, yet this was not accompanied with any rise in the price of rice in the Sitamarhi market. On the contrary, the temporary break-down of the Railway, and the consequent stoppage of exportation, caused prices there for a time to fall.

*Prices of Labour.*

84. The scale of usual wages of artizans and labourers, as reported by the different Collectors, is given in statement IV annexed to this report.

85. The money-wage, as I have pointed out before, especially for the lower class of labour, has far from kept pace with the general rise during the past twenty years in the price of food-grains. Fortunately, however, as before remarked, wages outside of towns are usually paid, wholly or in part, in kind. This is invariably the case with the numerous class of field labourers. The system is particularly well suited to an agricultural country like Bihar; whatever the fluctuations in the money-price of food-grains, this food-wage remains the same.

86. The money wages of labour show on the whole no appreciable increase. Skilled labour possibly commands a somewhat higher value in towns, where there is a special demand for it, than it did some years ago; but the village craftsman earns about the same year after year. The same may be said of the cooly—the landless labourer of Bihar. Where there is a special temporary demand for labour on a sufficiently large scale, such as is caused by the construction of a new Railway line, the cooly will for a while have a very good time; but when this has passed, his earnings will again fall to the point round which they usually oscillate, viz., the lowest amount necessary for a bare subsistence.

## 8.—MANUFACTURES AND MINES.

87. Besides opium and excisable articles, indigo and saltpetre are the principal manufactures of the Patna Division.

*Indigo.*

88. Indigo is grown in the North Gangetic districts, viz., Saran, Champaran, Muzaffarpur and Darbhanga. The following table compares the total outturn and its estimated value during the last two years:—

NAME OF DISTRICT.	1892-93.		1893-94.	
	Outturn, maunds.	Value.	Outturn, maunds.	Value.
1	2	3	4	5
		Rs.		Rs.
Darbhangha ... ..	9,300	27,90,000	7,513	19,45,146
Muzaffarpur ... ..	12,405	37,21,500	8,921	25,97,005
Champaran ... ..	11,749	35,24,700	8,841	25,26,401
Saran ... ..	8,950	26,85,000	6,911	19,01,450
Total ... ..	42,404	1,27,21,200	32,216	89,70,002

The past year has not, it will be seen, been a good one for indigo. Simultaneously with a fall in price (from an average of Rs. 30,000 to Rs. 27,800 per 100 maunds) there has also been a considerable decrease in outturn, notwithstanding that the area under cultivation remained the same. The reason of the remarkably bad outturn, so far as it can be accounted for, has already been noticed in section 3 of this report.

89. In Shahabad the firm of Messrs. Thompson, Mylne and Company turned out no indigo, and the smaller factories are also reported to have been closed.

*Saltpetre.*

90. Saltpetre is principally manufactured in the North Gangetic districts of Darbhanga, Muzaffarpur, Champaran, and Saran. The manufacture is under the control of the Northern India Salt Department.

91. The quantity produced in each of the above districts is given below:—

NAME OF DISTRICT.	SALTPETRE.		SALT.	
	1892-93.	1893-94.	1893.	1894.
1	2	3	4	5
	Mds.	Mds.	Mds.	Mds.
Darbhanga ... ..	64,398	49,071	1,847	2,181
Muzaffarpur ... ..	63,297	95,711	8,680	5,061
Champanan ... ..	67,676	72,299	3,990	4,231
Saran ... ..	84,510	64,622	6,011	5,153

The decrease under the head of Saltpetre is explained by the Collector of Darbhanga to have been the result of unfavourable weather. The Collector of Saran gives a similar reason. It is said that the stock which ran short in the first quarter of the year could not be replenished owing to subsequent frequent falls of rain, which interfered with manufacture.

92. The increase in Muzaffarpur seems to be unreal and due only to a change in the classification of materials, a quantity of "kuthea" saltpetre having been considered good enough to be stored as the genuine article.

93. In Gaya the outturn fell from 6,869 maunds in 1891-92 to 4,576 maunds in 1892-93, and to 3,219 maunds in 1893-94. This the Collector attributes to the restrictions imposed by the Northern India Salt Department, as well as by the Civil authorities, on the manufacture of fireworks and gunpowder.

94. The other manufactures of this division are—

Tobacco curing.	Brassware.
Sugar refining.	Bell-metal and stoneware.
Durries and blankets.	Paper.
	Lac and oil.

95. Tobacco-curing forms an important industry, especially in Gaya and Darbhanga. The principal centres of manufacture in Gaya are Gurwa and Paibijha, the brand manufactured at the latter place being held in great esteem by native connoisseurs of tobacco all over India. The leaf itself has to be brought from the districts north of the Ganges, chiefly from Muzaffarpur. The tobacco industry of Gaya is a thriving one, the exports by rail and canal during the past year having amounted to 11,766 maunds against 9,341 maunds in 1892-93.

96. The tobacco factory at Pusa, in the district of Darbhanga, turned out 530 maunds of prepared tobacco, against 721 maunds in the year preceding, and 2,321,594 cigars against 2,408,810 in 1892-93.

97. Sugar is manufactured on a large scale in Gaya, Darbhanga and Saran. Figures have been supplied showing the outturn and value of produce in those districts for the past years, but I consider them quite unreliable. In Darbhanga an outturn of about two lakhs of maunds is shown, but the Collector considers it to be probably under-stated, owing to the reluctance of dealers to reveal the real extent of their business for fear of the statistics being used for purposes of income-tax assessment. The manufacture there is chiefly carried on in the Madhubani sub-division. A refinery on the European method has also been opened since November last near the Sakri Railway station, by a Mr. Lacey, and it is reported to be, so far, working successfully. In Shahabad sugar is manufactured principally at Nasriganj and Hariharganj within the Sasaram sub-division. There are also smaller refineries within the Buxar sub-division, and some have lately been opened at Jagdispur in the Sadar sub-division. The total quantity manufactured at these places is returned at about 50,000 maunds.

98. In Gaya the Collector reports that the sugar industry appears to be just holding its own. Maunds 3,39,138, mostly of crude sugar, were exported by rail in the year under report, against 3,39,682 maunds in 1892 and 1893. What refined sugar is produced is mostly consumed within the districts.

*Durries and Blankets.*

99. *Durries* are manufactured by jelahas or weavers; blankets by gareris or sheep owners. Both these industries seem to be thriving, especially in the districts to the south of the Ganges. Among chief centres of manufacture may be mentioned Sultanganj in the Patna district, Aurangabad in Gaya, and the Shahabad district. Carpets are manufactured by weavers at Abra in the Aurangabad sub-division of Gaya, and at Sasaram in Shahabad. They command a considerable sale.

100. *Brassware, bell-metal and stoneware* are manufactured in every district in this Division. In Gaya bell-metal and brassware are chiefly made at Daudnagar and Nabinagar, and the manufacture is in a flourishing condition. "Stoneware of superior durability," the Collector of Gaya says, "is manufactured at Pthal Katti Hill, 18 miles north-east of Gaya, by a colony from Jaipur in Rajputana, descendants of stone-cutters brought into Gaya to build the Bishunpad Temple." They call themselves Brahmans. The industry is not extensive, but the figures and vessels carved are carried by pilgrims to all parts of India. The stoneware is said to be more durable than that of Chunar.

101. *Paper* is manufactured at Arwal in the district of Gaya, and at Hariharganj in Shahabad, and though the industry is decaying, the paper which is made at these places, called Basaha paper, is exported to Benares and other large towns in the North-West, and used largely by native bankers. It is preferred by them because of its alleged durability. It is, however, said that, owing to the decline of their industry, paper-makers are gradually betaking themselves to agricultural pursuits.

102. *Lac* is manufactured in the district of Gaya only, and the industry continues prosperous. Mr. Macpherson has been able to procure accurate statistics through the agent of Messrs. Jardine, Skinner and Company. He says:—"In 1893 it appears there were 19 factories at work which turned out 15,500 maunds of shellac, valued at no less than Rs. 8,83,500, against 16,600 maunds in 1892 valued at Rs. 7,47,000. The price rose from Rs. 45 to 57 per maund. One of the very best marks in the trade, namely T. N., is produced in this district. The factories are all situated in and near Imanganj in the south of the district."

103. *Oil* is more or less manufactured in every district, and the produce is consumed locally. The manufacture is suffering much from competition of mineral oils. The castor-oil mills at Siwan in the district of Saran, which are worked by steam-power under European supervision, worked at a loss during the year under report, and had to be exempted from income-tax.

104. *Tasar silk* is woven in the district of Gaya from cocoons imported from Chota Nagpur. The quality of the manufacture is poor, but pilgrims take away the silk as a memento of their visit to Gaya, and for presents to relatives and friends. The supply of cocoons during the past year was limited, owing, it is said, to large purchases made for a European firm. The competition of machine-made stuff is also gradually telling on this industry. In Barh, within the district of Patna, there are said to have been about 500 weavers employed in this industry some years ago, but the number is now put down at only about 125. Coarse cotton cloth (*Motya* or *Gazi*) is still turned out by the native home looms. The lower classes are said to prefer it on account of its durability, particularly for winter clothing. The industry appears, however, to be languishing, and weavers are being gradually absorbed into the general body of agriculturists.

105. *Mines*.—As noticed in last year's report, the gold mine at Kalyanpur, about three miles from Rajgeer, after a very short existence, has been abandoned. There remain only the mica mines of Singar and Supahi in the Nawada sub-division of Gaya. There has been a falling off in the outturn, though the price increased from Rs. 19 in 1892-93 to Rs. 28 per maund during the past year.

106. The decreased outturn is attributed to the gradual exhaustion of the mine at Singar worked by Messrs. Christian and Company of Calcutta. The

Supahi mine, which is owned by Babu Drigpal Lal of Nayada in the district of Gaya, has been equally unsuccessful.

### 9.—TRADE AND COMMERCE.

107. I have had the following abstract made of the imports into Calcutta of the principal staples of trade from the different districts of the Patna Division during the year, 1st April 1893 to 31st March 1894. It has been prepared from the statements which are now published monthly in the *Calcutta Gazette*, and I propose to continue it in future reports as a means of comparing the general export trade of the Division from year to year. I have divided the districts into two groups—North and South of the Ganges:—

*Imports from Patna Division into Calcutta, from 1st April 1893 to 31st March 1894.*

WHENCE IMPORTED.	FOOD-GRAINS.							OILSEEDS.		SUGAR.		TOBACCO	
	RICE AND PADDY.			Wheat.	Gram and pulses.	Other food-grains.	Total.	Linseed.	Mustard seed.	Refined.	Un-refined.	Un-manufactured.	Manufactured.

### PATNA DISTRICT.

108. The Collector, Mr. O'Donnell, writes of the trade of the past year as follows:—

“From its position near the confluence of the Ganges, Gogra, Gundak, and Sone, Patna is naturally a trade centre of the first importance. The steamer service is improving, there being now a weekly service to Calcutta. A tabular statement of the trade of the year, supplied to me by Mr. Saunders, Agent for the firm of Messrs. Ralli Brothers, who has exceptional opportunities of forming estimates of the business done, shows that the rice trade has been slightly above the average this year, but the trade in wheat, maize, potatoes, &c., was below the average, while timber and fruit have declined by about 50 per cent. The stoppage of exportation of timber from Nepal, and the failure of the mango crop, are said to be the principal factors in the decrease of trade under these heads.”

109. The reports from the Bihar sub-division also represent trade as having been fairly flourishing, while in the sub-division of Barh it is said to have been dull. The Collector, however, seems to think that this view has possibly been advanced by the merchants with an eye to the bearing of the question on their income-tax assessments. Mr. O'Donnell at the same time observes that it is quite possible that cheap means of communication with Calcutta and other large centres have so developed competition that there is but little margin of profit now left to the local trader, who is naturally discontented with the turn of events. There is no doubt much truth in this.

### GAYA DISTRICT.

110. Mr. Macpherson notes as follows:—

“As reported last year, the principal trade-routes in the district are the Patna-Gaya Railway and the Patna (Eastern Sone) Canal, which serve the centre and west of the district, and also Palamau and part of Lohardaga and Hazaribagh. The trade of the east of the district goes *via* Bihar through Bukhtiarpur and *via* Shaikhpora through Lakhisarai on the East Indian Railway, and a considerable portion of the trade of the south goes by the Grand Trunk Road.”

111. The statistics of trade by the Railway and by the branch of the Sone Canal from Barun, to Deegha are given in the following statements:—

STATEMENT A.

*Imports, (in maunds).*

ARTICLES.	1892-93.			1893-94.

NOTE.—Figures for Arwal Canal station, which were not given in the Report for 1892-93, are now included.

112. *Imports*.—There was a large falling off in the importation of food-grains, which is explained by the passing away of the scarcity that prevailed during the first half of the year 1892-93. There was an increase in the imports of *spices, tobacco, kerosine oil, piece-goods*, which may be attributed to the greater prosperity of the people, and in the case of kerosine oil to the successful competition of the imported commodity with indigenous vegetable oils. There was also a large increase in the imports of *iron and coal*, the former for some important girder bridges that were constructed during the year by the District Board.

113. *Exports*.—There was a large increase in the exportation of *food-grains* except wheat. This is explained by the abundant harvests. The falling off in the export of *wheat* is probably not quite so great as the figures indicate, as in the canal statement this has probably been entered under unclassified food-grains, which shows an increase otherwise unaccountable. There has been a large increase in the export of oilseeds, due to a better harvest in 1893. The export of sugar and *gur* appears to have been stationary, but it was probably greater, the Collector says, than the figures show, owing to *gur* being apparently omitted from the canal figures in both years. Manufactured tobacco was also exported in somewhat larger quantities.

114. On the whole, with the exception of the falling off in the importation of food-grains owing to better harvests and the limited export of wheat, both the import and export trade of Gaya appears to have been fairly brisk during the past year.

#### SHAHABAD DISTRICT.

115. There is a considerable inter-district trade in grain, oilseeds, cotton, and *ghī*, carried by pack-bullocks between the large market town of Garhwa in Palamau and Sasaram. A large amount of produce also finds its way by road and then across the Ganges to the Ballia and Ghazipur districts. But the main trade of the district is that which is carried out of it or brought into it by the East Indian Railway, and this is besides the only trade of which we have any statistics. I omit from consideration the goods carried by the canal for the reason, as noticed in last year's Report, that the canal has its two northern termini (at Arrah and Buxar) on the Railway, and the figures for its trade merge in those of the Railway traffic.

116. For this trade by the East Indian Railway the Collector has submitted two long statements, from which I take the following more important articles:—

#### (1) Imports (in maunds).

Articles.	1892-93.	1893-94.	Decrease.	Increase.
Coal	1,50,604	5,26,244	.....	4,75,640
Rice	4,07,277	2,56,479	1,50,798	.....
Pulses	32,796	14,088	18,708	.....
Sugar	8,973	70,639	.....	61,666
Oil in barrel	.....	.....	.....	.....
Oil in coopah	36,264	34,603	1,761	.....
Piece-goods, packed, European	81,114	78,235	2,879	.....
Piece-goods, unpacked	.....	.....	.....	.....
Salt	2,52,158	2,26,123	26,035	.....
Tobacco	43,245	60,585	.....	17,340
Other grain	3,20,840	70,392	2,50,448	.....

#### (2) Exports (in maunds).

Articles.	1892-93.	1893-94.	Decrease.	Increase.
Ghee	37,502	21,780	15,722	.....
Wheat	5,07,897	35,094	4,72,803	.....
Other grains	14,939	21,241	.....	6,302
Raw sugar	2,29,558	1,76,078	53,480	.....
Linseed	2,45,293	2,39,059	6,234	.....
Sugar, 1st class	.....	.....	.....	.....
" 2nd class	2,68,305	2,72,208	.....	3,903
Mustard and rapeseed	7,332	23,652	.....	16,320
Pulses	78,118	78,154	.....	36

117. Among imports there has been a large decrease under the head of rice (from 4 lakhs to 2½ lakhs of maunds) and other food-grains, in consequence, apparently, as a counterbalance to the largely reduced exports of wheat (from 5 lakhs maunds to under ½ lakh). This fall in the exports of wheat

during the year under review is partly attributed by the Collector to the apprehensions among the people of coming scarcity, and their consequent unwillingness to part with their stocks. A more likely explanation is that crops having throughout India been better than in the preceding year, the outside demand was not so brisk. Turning to other articles of import, there have been considerable increases under the heads coal, sugar and tobacco, and a falling off, though comparatively slight, in oil and piece-goods. Salt, too, shows a considerable decrease of something like 11 per cent. Among exports there has been an increase in manufactured sugar and mustard seed, but a falling off in raw sugar, linseed and most other articles.

118. On the whole there has been a considerable decrease in trade, both export and import, roughly estimated by the Collector at about 30 per cent.

119. One curious feature in the trade of Shahabad is the large annual imports of rice in exchange for wheat. Thus in the two past years over  $6\frac{1}{2}$  lakhs of maunds of rice have been brought by rail into the district, while about  $5\frac{1}{2}$  lakhs of maunds of wheat have been taken away. Having regard to the very great extension of rice cultivation of late years in Shahabad, owing to canal irrigation, and the corresponding contraction of the area under wheat, this large exchange of foreign rice for home grown wheat seems somewhat remarkable. One would have expected a directly opposite result.

#### SARAN.

120. The Collector has omitted to furnish figures of traffic from the Railway authorities, but has submitted instead an approximate statement of total exports and imports by road, rail and river, prepared by the Income-Tax Assessor, the figures of which, however, appear to me quite imaginary, and I therefore abstain from giving them. They show, among other things, an increase of about one lakh of maunds of food-grains over the imports of the preceding year, but this seems incredible. It is true that Saran is, as has often before been pointed out, a "deficit" district in the matter of food, and the balance of trade in food-grains must always be against her. But the unusually good harvests in this district during the year under review must have very considerably reduced the demand for foreign grain, while at the same time the heavy failures in all the most valuable articles of export, viz., opium, saltpetre, sugar, and castor-oil, must have greatly diminished the purchasing power of the people. On the whole, I should say that in Saran, as in Shahabad, trade during the past year has probably been unusually slack.

121. As remarked last year, the three northern districts—Champaran, Muzaffarpur, and Darbhanga—may, for the purpose of a review of their trade operations, be taken together. They have on the one side a trade *inter se* and with the rest of India, and on the other side, to the north, they all carry on a trade with Nepal.

122. As regards the first branch of trade, viz., between these three districts themselves and with the outer world, the most striking feature is a large increase in the importations of rice and other food-grains. In Champaran the increase is small, amounting to only  $\frac{1}{2}$  a lakh of maunds, but at the Muzaffarpur Railway station the imports rose in round figures from maunds 59,000 in 1892-93 to maunds 3,15,000 in 1893-94, exports falling from maunds 34,000 to maunds 20,000; while for the Darbhanga district the figures for the two years are as follows:—

				Exports of food-grains in maunds.	Imports of food-grains in maunds.
1892-93	...	...	...	1,11,901	7,87,622
1893-94	...	...	...	9,28,385	15,73,098

With regard to these last figures, it is to be borne in mind that the exports largely represent through traffic from Nepal, and cannot therefore be wholly balanced, as would otherwise be the case against the imports. In this view it will be seen how much greater was the deficit to be supplied in the district than in the preceding year, itself a year following one of great scarcity. The explanation lies in the heavy floods in all three northern districts which, as noticed elsewhere, were most severely felt in Darbhanga, and next to it in Muzaffarpur. The Collector of Darbhanga also thinks it not improbable that the rice merchants in Darbhanga, in expectation of a good outturn from the favourable rains in the

early part of the rainy season, depleted their stocks, little anticipating the disastrous floods which followed a few weeks later. This seems very likely.

123. For the rest, imports show an increase under the heads of coal, due probably to the increase in the manufacture of bricks; of piece-goods, possibly owing to the large number of weddings; of kerosine oil, which in these districts also is steadily replacing the country oil for burning purposes; and of spices, tobacco and metal goods; while there was a falling off in sugar, salt, mahua, and a few minor articles. In exports there was a large increase in oilseeds and an increase in sugar and *gur*, and from Darbhanga in tobacco; while there was a falling off in the exportation of saltpetre, in consequence of the heavy rains and floods being unfavourable to its production; in indigo and opium, owing to the bad season for both; and in *ghā*, which was probably due to the loss of cattle during the floods.

124. On the whole, taking imports and exports together, there was, judging from the Railway returns, a falling off in trade in comparison with the preceding year.

125. The statistics of the trade with Nepal are collected at a number of registering posts supposed to be on the main traffic routes in each district. These posts, however, were established some years ago, since when conditions have changed, and the Collectors of Muzaffarpur and Darbhanga are submitting proposals for a revision of the arrangements. The statements A and B annexed give the trade as registered at the existing stations between Nepal and the several districts. The fluctuations in the chief articles of trade will be seen from the following abstract:—

*Imports from Nepal into British Territory.*

DISTRICTS.	Food-grains and pulses, in maunds.		Oilseeds, in maunds.		Saltpetre, in maunds.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.

Darbhangā ...	...	...	18,778	14,787	4,437	5,242	88,646	1,39,347
Total ...	49,826	66,526	1,72,528	1,15,810	33,686	20,369	19,36,276	80,67,366

126. Among imports from Nepal the returns show an increase of about a lakh of maunds of food-grains into Muzaffarpur and Darbhanga districts, but

the real figures, looking at the large exports by rail from Darbhanga and the deficiency in the local supplies in consequence of the floods, were probably much higher. The imports of oilseeds remained much the same as in the preceding year, but there was—as might have been expected from the unfavourable weather, which was (barring the floods) as bad for manufacture in Nepal as in our districts—a large reduction in the quantities of saltpetre from across the border. But the main feature of the trade with Nepal was the very large increase in the value of the piece-goods, from 19 to over 80 lakhs, exported into that country from British territory. Medicines also show a heavy rise, from quite a nominal value to  $4\frac{3}{4}$  lakhs. These were partly met by smaller purchases by the Nepalese of salt and leather manufactures, and a considerable increase in their consignments to us of bullion, yak-tails, skins and cattle. It will be observed that the bulk of the trade in valuable commodities, such as salt, piece-goods, bullion, yak-tails, jewellery, &c., goes (or comes) *via* Champaran, through which district lies the high road to the interior of Nepal, while the products or requirements of the Terai are more equally distributed among, and met from all the three districts.

## 10.—ADMINISTRATIVE CHANGES.

127. According to the recommendations of the Police Redistribution Committee, the following outposts in the several districts of this Division have been abolished under Government order No. 1333J., dated the 2nd March 1894 :—

District.	Outposts abolished.
Patna ... ..	<ol style="list-style-type: none"> <li>1. Phulwari.</li> <li>2. Rajapur.</li> <li>3. Behta.</li> </ol>
Gaya ... ..	<ol style="list-style-type: none"> <li>1. Lakhaipur.</li> <li>2. Zerwazabad.</li> </ol>
Shahabad ... ..	<ol style="list-style-type: none"> <li>1. Sinha.</li> <li>2. Kailwar.</li> <li>3. Chowsa.</li> <li>4. Niazipur.</li> <li>5. Bhagwanpur.</li> <li>6. Jahanabad.</li> <li>7. Naeon.</li> </ol>

One outpost, Tilathu under Sasaram thana, has been raised to a thana, and two other outposts, Kheri and Dhansui in thana Buxar, have been doubled up.

In Muzaffarpur ... One outpost, Janarh, was abolished, and two others, Sahibganj and Baruraj in thana Paroo, have been amalgamated.  
 In Darbhanga ... The outpost Kohar in thana Behara has been abolished.  
 In Saran ... The outpost Ekma has been raised to a thana, and the outpost of Gultainganj in Chapra has been abolished.  
 In Champaran ... The outpost Jogapati in Bettiah has been abolished, and the outposts Jalagawan and Ghorasahan have been amalgamated. Two other outposts, Raxaul and Siswa in police station Adapur, have also been amalgamated.

These changes, however, could not be carried out until after the close of the year.

128. The Regular Bench of Magistrates at Bettiah, in the district of Champaran, has been converted into an Independent Bench. The change is said to have so far proved a success.

129. There was no other administrative change worth noticing during the year of report.

## 11.—STATISTICAL ENQUIRIES.

130. The principal subjects in connection with which statistical enquiries are generally made are :—

- (1) Trade and commerce.
- (2) Price-lists.
- (3) Crop forecasts.
- (4) Births and deaths.

131. There are 11 stations on the trade route leading to Nepal from the three districts Champaran, Muzaffarpur and Darbhanga for registration of the

147. Regarding appeal cases the total for each district was as shown below :—

District.	Money.	Rent.	Title.	Total of all classes.	Decisions of Lower Court confirmed.	Ratio per cent. of appeals confirmed to the number disposed of.
1	2	3	4	5	6	7
Patna	91	224	194	509	292	57.36
Gaya	51	188	96	335	178	53.1
Shahabad	51	569	331	951	577	60.6
Saran	...	...	...	...	392	42.84
Champanan	...	165	311	915	...	...
Tirhut (Muzaffarpur and Darbhanga).	260	672	402	1,334	741	55.5
Total	618	2,092	1,334	4,044	2,180	53.9
Total for 1892	584	2,406	1,175	4,165	2,242	53.8

148. The annexed Appendices VI, VII, and IX, which have been compiled from statistics supplied by the District Judges, show the original civil work disposed of by Judges, Sub-Judges, Small Cause Court Judges, and by Munstis; and also the civil appeal cases disposed of during the year 1893.

149. It will appear that in original civil work disposed of by District Judges, Sub-Judges, and Small Cause Court Judges, Patna stands first with 704 cases; Shahabad and the dual districts of Saran and Champaran come next with 642 cases; Gaya stands third with 604 cases, while the dual districts of Muzaffarpur and Darbhanga stand last with only 541 cases. It is, however, worthy of note that all the 541 cases in the two districts last named were ordinary cases, while a large proportion of the cases in all the other districts were of the Small Cause Court class. The civil work disposed of by Munstis shows the largest outturn (10,605) in Muzaffarpur-cum-Darbhanga (Tirhut), and next in order is Saran (with Champaran) with 9,559 cases disposed of; Shahabad comes next with 7,766 cases; Patna shows an outturn of 3,927 cases, while Gaya shows the highest work of only 1,637 cases.

150. In appeal cases the same order is maintained, except that Shahabad comes second instead of the dual districts of Saran and Champaran. 151. The Collector of Shahabad observes that in his district the deposit of rent in the Civil Court is becoming more frequent, while at the same time false pleas of payment by the tenants are distinctly on the increase. It is scarcely a matter for surprise that the raiyats should show this tendency so long as the zamindars do not comply with the provision of the law regarding the granting of rent receipts and the keeping of accounts in the forms prescribed by law. It is well known that the provisions of the Tenancy Act on this subject are universally disregarded throughout Bihar in all but the largest estates or those under European Managers.

152. I made an endeavour during the year to enlist the assistance of the Civil Courts in enforcing the provisions referred to, by inviting the District Judges to direct the subordinate Rent Suit Courts to report to the Collector, for prosecution under section 58 (3) of the Bengal Tenancy Act, cases coming to their notice in which the landlord had failed to comply with the requirements of sections 56 and 57 of the Act. It is no doubt largely owing to the apathy displayed by the Civil Courts that neglect to obey the law in these matters is so rife. The proposal, however, was not approved by the High Court.

144. The average disposal per Munsif of Civil cases calculated as units (see note below) was 1,323 against 1,185 in 1892 and 1,284 in 1891, showing an increase of 138 and 39 unit cases respectively over 1892 and 1891. The subjoined statement shows at a glance the number of suits of each kind, and the unit number disposed of by each Munsif in the Division:—

NAME OF COURT.	NUMBER OF CASES DISPOSED OF—			Number of unit cases disposed of.
	Money suits.	Ordinary rent suits.	Title suits.

Total	...	...	...	...

Total Courts except that of Deputy Collector = 31; average per Court 1,323 unit cases.

N.B.—Unit cases are got by calculating 1 Title suit equal to 3 Money or Rent suits and to 9 Small Cause Court suits.

145. The number of witnesses examined by all Munsifs' Courts was 40,423, of whom 8,381 or 20·7 per cent. were detained over two days. The percentage in 1892 was 23·1, thus showing some improvement in the year of report. 146. The number of cases pending before Munsifs of all Courts in the Division on 31st December 1893 was 8,380, the ratio per cent. to total number of cases disposed of being 24·8.

It occurs in all the districts, as the figures produced below will show:—

Total	899	647
Patna	179	94
Gaya	117	85
Bhabad	207	91
Saran	165	96
Tirhut	231	181
1893.	1892.	

of in—  
Little suits disposed

The increase is probably due to the classification now generally adopted, by which suits for the sale of mortgaged properties are now shown as title suits instead of as money suits, under which class they used formerly to come. This accounts also for the falling off in money suits.

Rent suits disposed of in—

Patna	22	1893.
Gayā	88	
Shahabad	30	
Thibut	142	
Saran	16	
	12	1892.

140. The number of rent suits pending on the 31st December 1892 in Tisbury was 439, while the number of such suits pending on the 31st December 1893 was 361.

141. In the 3,133 original suits disposed of, 8,286 witnesses were examined, of whom 1,800 or 21.7 per cent. were detained more than two days, against a percentage in the previous year of 26.2. The number of cases pending at the close of the year was 1,219 or 38.9 per cent. of the cases disposed of, against 1,214 or 41.8 per cent. of the cases disposed of in 1892.

142. As regards civil work disposed of by Munisifs, the total for the Division is 33,794 against 34,065 in the year 1892, showing a decrease of 271

143. The number of suits of each class disposed of by Munsiffs during the last two years was as follows:—

	Difference	... { + -	3,114 .....	767 .....	2,076 .....	271 .....
1893	...	10,274	17,907	17,140	5,613	33,794
1892	...	13,388	17,140	3,537	34,065	Total.

The decrease in money suits and the increase in title seem to be due to the cause already mentioned. The increase in rent suits is due to a large number (about 1,600) of such suits instituted against 400 raiyats by each of the four shareholders of a single mauza (Troladpur) in the Barh sub-division in the Court of the 3rd Munshi of Patna.

13.—CRIME.

153. The total number of offences reported in the Division was:—

	1892.	1893.	Decrease.
Cognizable offences	... 40,035	34,450	5,585
Non-cognizable offences	... 18,920	16,921	1,999
Total	... 58,955	51,371	7,584

154. Excluding offences against sanitary laws and rules having the force of law, the figures are as follows:—

	1892.	1893.	Decrease.
Cognizable offences	... 24,316	21,756	2,560
Non-cognizable offences	... 18,872	16,883	1,989
Total	... 43,188	38,639	4,549

Saran shows an increase in cognizable offences, but in all other districts there is a very satisfactory decrease. The decrease in the Division as a whole in cognizable crime, excluding offences against sanitary laws and rules, is mainly due to the general prosperity of the people owing to favourable harvests, and also to some extent to the measures taken to bind down bad characters and to place them under surveillance.

The decrease is most marked in the four following districts:—

	Decrease.
Champan	... 650
Patna	... 590
Darbhang	... 556
Gaya	... 540

155. Taking classes of crime, the fluctuations are shown in the following statement:—

CLASS OF CRIME.	1892.		1893.		Increase or decrease of true cases.
	Cases reported.	True cases.	Cases reported.	True cases.	
1	2	3	4	5	6
Class I (offences against the State, &c.)	503	419	655	556	+ 137
II (serious offences against the person)	894	787	896	779	— 8
III ( " " " person and property.)	10,422	10,115	9,412	9,161	— 954
IV (minor offences against the person)	248	203	230	179	— 24
V ( " " " property)	9,000	7,928	7,895	6,886	— 1,042
VI (other offences not specified above)	18,968	18,949	15,362	15,327	— 3,622
Total	40,035	38,401	34,450	32,888	— 5,373

156. The increase in true offences against public tranquillity is 137, of which 111 are riots. The increase is general, and is owing partly to the tension of feeling between the two classes of the community in regard to cow-killing, resulting from the Gorakshini agitation. It is possible also, as the Magistrate of Patna remarks, "that abundant harvests acted as an incentive to the cultivating classes to re-open land disputes," and also to fight for the crops.

157. In this class 22 cases were coining cases, but none of them were of any importance.

158. In class II there was a decrease of 8 cases; there were 44 cases of murder against 52 in 1892 and 44 in 1891. Of these, one was committed by dacoits, 2 by poisoning, and 41 in other ways. Eleven persons out of 49 were convicted—a percentage of 22·4.

159. There were 9 cases of drugging during the year against 18 in 1892; 9 out of 13 persons were convicted.

160. Under class III the number of dacoities decreased from 76 to 42. The special measures adopted to check the commission of dacoity in Gaya, which had largely increased in 1892, had a markedly good effect, the number having decreased from 42 in 1892 to 11 in 1893. On this subject Mr. Macpherson remarks:—"I quite agree with the District Superintendent that the outbreak of dacoity in the latter part of 1891 and in 1892 was mainly the work of certain notorious gangs of bad characters living in the centre of the district who had been much neglected ..... They are at present mostly in jail for failure to find security for good behaviour, but those who were committed for one year only will soon be at large again and will require to be closely watched."

161. The judicial results in dacoity cases have been as unsatisfactory as ever, only 9 out of 42 cases having ended in conviction, while only 28 persons out of 145 brought to trial were convicted.

162. There were 37 robberies during the year against 48 in the previous year. None of them are of sufficient importance to require special notice.

163. Burglaries which are so frequent in Bihar have decreased, but the number of cases is still larger than in 1891, as shown below:—

(1891).	(1892).	(1893).
8,151	9,719	8,860

1892 was a year of agricultural distress and petty burglaries increased, while 1893 was a year of favourable harvests. The increase over 1891, says Mr. Macpherson, Magistrate of Gaya, "can I think be attributed entirely to better reporting, consequent on freedom from harassing police investigations."

164. Bad livelihood cases decreased from 947 to 896 during the year. The highest number was in Patna and the lowest in Darbhanga, with 205 and 54 cases respectively. Two hundred and fifty-five or 28·4 per cent. of bad livelihood cases were tried in the village where the accused resided, Gaya standing first in this respect. No case was so tried in Darbhanga.

165. The average duration of these cases was smallest in Muzaffarpur and largest in Patna. Delays in disposing of these cases are chiefly due to the absconding of accused persons. For instance in a case in Patna, which took 522 days to dispose of, the actual hearing occupied only 31 days, the accused having been absconding for 391 days.

166. The Maghaya Domes in Saran and Champaran are most inveterate criminals. One of the settlements where Domes are congregated in Champaran has been abolished, and the settlers transferred to other settlements. The Magistrate reports that since this measure the number of absconders has decreased. In Champaran the number of Dome settlers is 282.

In Saran the Maghaya Domes number 1,212. The figures for absconders, re-arrests and prosecutions against these men all show a distinct improvement, I am glad to say, over those for the preceding year.

167. The decrease in offences against sanitary laws is shown below:—

	1892.	1893.	Decrease.
Cognizable offences	15,719	12,694	3,025
Non-cognizable offences	48	38	10
Total	15,767	12,732	3,035

Darbhanga, Champaran, and Gaya show an increase in such offences, due to increased activity of the town police, but in other districts there was a considerable decrease, and taking the Division as a whole, the decrease is sufficiently marked. It is attributed to the greater discretion shown in prosecuting cases of nuisance in consequence of the remarks of His Honour the Lieutenant-Governor recorded on the 9th April 1893, on the occasion of his inspection of the Hajipur sub-division, and to the ruling of the High Court in a case under section 34, Act V of 1887, from Shahabad, that urinating on a public road is not punishable under this section, proceedings being now taken under section 290, Penal Code. The decrease in non-cognizable offences is so far satisfactory.

168. The percentage of convictions in true cases enquired into by the police was 59·50 in 1893, against 53·03 in 1892, 50·30 in 1891, and 48·90 in

1890. This shows a gradual improvement during the last four years, which was particularly marked during the year under review.

169. The percentage of cases declared false to cases instituted during the year was 4·50, against 4·08 in 1892 and 5·20 in 1891. As in previous years, Darbhanga has the lowest percentage or 2·7, and Champaran the highest or 9·1; Shahabad also has a percentage of 7·4. The Magistrate of Shahabad submits the following figures, which go to prove that the percentage of false cases varies inversely as the percentage of refusals to enquire—

YEAR.	Percentage of cases in which enquiry was refused.	Percentage of false cases.
1	2	3
1890 ... ..	0·1	5·6
1891 ... ..	4·9	4·6
1892 ... ..	11·9	2·8
1893 ... ..	6·9	3·8

and this result is only what might have been expected for the cases in which no investigation is made, or as a rule shown as “true”; whereas, if enquiry were made, a portion at least would be found to be false.

170. The number of prosecutions for institution of false cases was 138 in 1893 against 140 in 1892. The number of convictions was 53 against 48, the percentage of convictions being 38·4 against 34·2, which is so far satisfactory. The number of cases not enquired into by the police was 4,205 in 1893, as against 6,065 in 1892, of which 163 and 65 were subsequently enquired into by order of the Magistrate, leaving the net number of cases not enquired into at 4,042 and 6,000 in each year.

171. The policy of refusing enquiry had, I consider, been carried somewhat too far in some of the districts during the previous year—a fault which I made a point of checking during my inspections. And refusals to enquire into cases of house-breaking are still too numerous in Gaya and Darbhanga.

172. I think that, unless there is good *prima facie* reason to doubt the truth of an information, successful attempts at house-breaking by night should, as a general rule, be enquired into, however summarily. The conduct of the chaukidar and the movements of the neighbouring *badmashes* will thus come under view, and new names may be discovered to be added to the list of bad characters. Inactivity on the part of the police in these respects cannot fail in the long run to have a mischievous effect.

173. Compensation under section 560, Criminal Procedure Code, was given in 149 cases against 175 in 1892. I am afraid that sufficient advantage was not taken of this useful section.

#### 14.—POLICE.

##### *Rural Police.*

174. The number of village chaukidars in this Division is shown below:—

	1892.	1893.
Chaukidars under Act VI (B.C.) of 1870	... 19,983	22,440
Ditto under Regulation XX of 1817	... 10,181	6,889
Total	... 30,164	29,329

It will be noticed that the old regulation chaukidars have continued to be replaced, in very considerable numbers, by chaukidars under Act VI (B.C.) of 1870. This is also the reason of the decrease in the total number, owing to the provision in the latter Act under which two or more villages may be united for purposes of watch and ward.

175. In Gaya the number of chaukidars under Regulation XX is still disproportionally large, being 3,407 to only 2,664 under Act VI. The reason

for this is, Mr. Macpherson explains, the prevalence in the Gaya district of the *bhacoli* system of rent—one of the incidents of which is the payment to the *chaukidar* of certain harvest allowances in lieu of salary. It is a question how far this custom, acquiesced in by all parties, should be replaced by a system of money-tax. However, during the year under review, Gaya has added 128 to the number of *chaukidars* under Act VI.

176. In Shahabad 734 *chaukidars* were appointed during the year under report under Act VI, and in Saran 1,319.

177. In Champaran the number of *chaukidars* under Regulation XX has been reduced from 461 to 397, and in Darbhanga from 388 to 341. In Muzaffarpur and Patna the numbers of these *chaukidars* are still 741 and 859.

178. The payment of *chaukidars*, it is also satisfactory to note, has much improved in promptness and regularity. There were 410 men in arrears for above three months at the end of last year, against 1,155 at the end of 1892.

179. Three instances of *chaukidars* being employed on menial services by police officers came to light—one in Muzaffarpur and two in Champaran. The delinquents were duly punished.

180. Belts and uniform were supplied in 1892 to the *chaukidars* of Shahabad, and this is now being done in the other districts.

181. The number of *chaukidars* judicially and departmentally punished is given below:—

Punished.		1892.	1893.
1		2	3
Judicially	...	596	522
Departmentally	...	2,444	2,277
Total	...	3,040	2,799

182. Accompanying this decrease in punishments, there was an increase in the number of cases in which *chaukidars* were rewarded from 320 to 354. There is still, however, room for improvement in this respect. By the amending Act of 1892 a Reward Fund has been established in each district from fines and penalties levied under the Act, and I should like to see more free use made by the District Superintendents of the means they thus have of encouraging good work. This remark particularly applies to the detection of offenders in cases of dacoity and house-breaking. As observed in last year's report, it is impossible that offences of this nature, involving the continual absence from their homes by night of well-known bad characters, can exist in an epidemic form, as it may be said to do, in some of the districts without the knowledge, if not the assent and connivance, of the *chaukidars*.

183. The *chaukidars* unfortunately still continue to be recruited from the lower classes, especially from those to which the bulk of the criminals themselves belong. This cannot be helped; and I am afraid that it is hopeless ever to expect any real advance in this respect by inducing men of superior castes to accept the work. But what we can confidently look for is an improvement in the materials we have at hand, and this there can be no doubt is everywhere steadily going on as the result of the close attention that is given now-a-days by the superior officers to the working of the *chaukidars* individually.

#### *Town Police.*

184. In Patna City and Dinapore the Town Police consists of constables only; in Bihar and Barh it is a mixed force of constables and *chaukidars*.

185. In the Champaran Municipalities of Motihari and Bettiah, *chaukidars* have been entirely substituted for constables for town duty.

186. The four municipalities of Muzaffarpur have a mixed police of constables and *chaukidars*.

187. In Darbhanga the Town Police consists of constables and *chaukidars*, but at Madhubani and Rusera only *chaukidars* are employed.

188. In all of the Saran Municipalities a mixed force of constables and chaukidars is employed.

189. In Arrah town, the Town Police consists of constables only, and in other municipalities (in Shahabad) of chaukidars only.

190. In the towns of Gaya, Tikari and Daudnagar, in the district of Gaya, the Town Police consists mainly of constables. Mr. Macpherson says that, "in the present state of feeling between different religious sections of the community, constables cannot be replaced by chaukidars;" and I agree with him.

191. The Erskine system of patrol is followed in Patna, where it has worked with considerable success; in Muzaffarpur, where also it is reported to have worked satisfactorily; and in Gaya, where it does not appear to have succeeded so well. Mr. Macpherson says that, "owing to the difficulty of getting a sufficient number of trustworthy police officers, the results are not so good as were anticipated;" but I do not set much store by this excuse, as the system is itself a safeguard against dishonest work, and only needs close personal supervision by the superior police officers to prove an undoubted success.

192. As regards the conduct of the police force generally, the opinions of district officers vary. I think myself that on the whole we have considerable cause for satisfaction. The past year, owing to the religious agitation in progress in Behar, has been a specially trying one for the police of all grades; yet from the first grade inspector to the lowest grade constable they have, with only a few individual exceptions, behaved in a thoroughly commendable manner. The men have shown themselves to be staunch, obedient, and forbearing under very trying circumstances, and capable of undergoing cheerfully, and at short notice, very considerable fatigue.

193. Further, I note with satisfaction that the police force of Bihar has shown itself to be perfectly able single-handed to deal with any local disturbances that have as yet arisen, or that we may expect to have to deal with in future. This speaks well not only for the discipline of the police, but also for the general law-abiding character of the people themselves and their respect for authority.

#### 15.—CRIMINAL JUSTICE.

194. The following table shows the number of cases disposed of by Stipendiary Magistrates, witnesses examined and detained over two days, and remands of six times and more:—

*Cases before Stipendiary Magistrates.*

DISTRICT.	Sub-division.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio per cent. of persons convicted to disposed of.	Number of witnesses examined.	Ratio per cent. of witnesses detained over two days to total number examined.	Ratio per cent. of decisions confirmed in appeal to total appeals.	Number of A cases disposed of.	Number remanded six times and more.	Average number of cases disposed of per officer.	Average number of witnesses examined in each case.	Ratio per cent. of column 11 to column 10.
1	2	3	4	5	6	7	8	9	10	11	12	13	14

Muzaffarpur ...	Sadar ...	71	974	1,460	50'5	4,084	2'9	61'7	370	0	199'7	4'1	2'3
	Tripur ...	1	567	1,213	48'7	2,704	4'8	50	163	20	417'7	4'8	17'9
	Sitamarhi ...	11	930	1,590	57'6	1,392	4'3	50'7	254	5	531'4	2'07	1'9
	Sadar ...	6	854	1,394	47'4	5,917	3'8	62'8	190	24	142'3	4'5	12'6
Darbhanga ...	Sadar ...	6	616	1,108	48'1	2,103	1'4	63'1	215	.....	308	3'5	...
	Madhubani ...	2	590	909	50'4	3,039	5'8	64'8	145	0	295	5'1	6'2
Total ...		734	18,949	28,774	58'9	76,285	4'1	78'7	5,819	245	254'3	4'02	4'2

Thus 73 Stipendiary Magistrates disposed of 18,949 cases—an average of 254 cases against 326 in 1892.

195. As in the previous year, the Dinapore Court shows the largest average per officer, viz., 1,184 cases. Only 652 witnesses were examined in these cases, the explanation being that most of them were petty nuisance cases in which the accused admitted the charge and no formal evidence was taken.

196. Next come the Magistrates of Champaran Sadar (542), of Sitamarhi (531), and of Gopalganj (514). The courts also of Siwan, Jahanabad, Bhabua, Barh and Hajipur decided more than 400 cases each. It will be observed that, with the exception of Motihari, all the above courts are situated at sub-divisions.

197. The smallest number of cases disposed of by Stipendiary Magistrates was at Bankipore or Patna Sadar. Five other courts fell short of 200 cases; all of these, but Buxar, being at head-quarters. The average number of witnesses examined in each case was four, and only in two places more than 10 per cent. of witnesses were detained for over two days, viz. Barh (16·1) and Dinapore (13·0), both in the Patna district. The detention was less than 2 per cent. at Patna City, Madhubani, Shahabad Sadar, Sasaram and Aurangabad.

198. The largest number of remands for six times or more in A form cases was at Hajipur, where this happened in as many as 17 per cent. of these cases. Then comes Darbhanga Sadar with a percentage of 12·6, and next come Jahanabad and Barh with percentages of 9·8 each, followed by Dinapore (7·4) and Patna Sadar (6·5). The smallest number of such remands was in the Arrah, Gopalganj, Bettiah, Sitamarhi and Patna City Courts, in all of which the number of such cases was less than 2 per cent.; and in the Bhabua and Madhubani sub-divisions, where there was not a single case of the kind.

199. The average percentage of orders confirmed in appeal to total number of appeals was 78·7 against 80·7 of the preceding year. It will be observed that the ratio runs highest in the Shahabad, Saran-*cum*-Champaran, and Patna districts for the greater part of the year, where Sessions Judges were officers of recognised experience and ability. It was lowest in Gaya and Muzaffarpur-*cum*-Darbhanga. The courts which attained the most favourable results were those at Bhabua, Gopalganj, Chapra, Arrah, Bihar and Motihari, the honours being thus equally divided between Sadar and Sub-divisional Magistrates.

200. The work of Honorary Magistrates and Benches is shown in the following table:—

*Cases before Honorary Magistrates and Benches.*

DISTRICT.	Sub-division.	Number of officers.	Cases disposed of.	Persons disposed of.	Ratio per cent. of persons convicted to disposed of.	Number of witness examined.	Ratio per cent. of witnesses detained over two days to total number examined.	Ratio per cent. of decisions confirmed in appeals to total appeals.	Number of A cases disposed of.	Number remanded six times and more.	Average number of cases disposed of per officer.	Average number of witnesses examined in each case.	Ratio per cent. of column 11 to column 10.

Total		40	15,213	17,394	74·07	13,566	3·5	62·8	164	5	280·8	·8	3·04

201. Forty Benches and Honorary Magistrates sitting singly disposed of 15,213 cases, an average of 380 per court, against 514 of the preceding year, the falling off being principally due to the decrease in the number of petty nuisance cases *challenged* by the police. The average number of witnesses examined was less than one in each case, showing that most of the cases disposed of were of the petty kind above referred to, in which the admission of the accused rendered the formal record of evidence unnecessary. Only two Benches detained more than 10 per cent. of the witnesses for above two days, viz., Saran Sadar and Samastipur. The Honorary Magistrates tried 164 A forms, of which it is satisfactory to find that only five were remanded six times or more. The average ratio of orders upheld in appeal to orders appealed against was 62·8.

202. There was no appeal against the order of five Benches, and these include all the Benches of Saran.

203. Further remarks on the working of the Bench system are not necessary here, as the subject has been fully dealt with in section 30 of this report.

204. The result of trials in the Sessions Courts is given below:—

The following table shows the work of the Sessions Courts:—

	DISTRICTS.							Total.
	Patna.	Gaya.	Shahabad.	Saran.	Champan.	Muzaffarpur.	Darbhanga.	
1	2	3	4	5	6	7	8	9
Number of cases committed during the year.	49	21	53	52	36	45	25	281
Number disposed of ...	51	25	49	47	34	46	23	275
Number in which conviction obtained.	37	16	41*	32	26	30	12	194

Percentage of convictions to cases disposed of for 1892.	71·4	53·5	78·7	68·7	88·0	63·4	61·1	69·2

\* One otherwise disposed of.

205. The percentage of convictions for the whole Division was 70·5 against 69·2 of the previous year. The results, as in the case of appeals, were again best in the Shahabad, Saran-cum-Champan, and Patna Sessions Courts; and worst in the other two. I find that exactly the same was the case in the year preceding.

206. In his Report for 1892-93, Mr. Williams, the late Magistrate of Darbhanga, noticed that the failure to secure a fair amount of convictions in the Sessions cases was probably due, among other causes, to the removal of the Sessions Court to Muzaffarpur, making it difficult for the Darbhanga authorities to conduct the prosecution properly, and partly to the time that elapses between the commitment and the trial, which facilitates witnesses being tampered with.

207. By recent Government notifications, I am glad to say both Darbhanga and Motihari have been reappointed as places of Sessions trials for the Darbhanga and Motihari districts. This was a reform much needed. Another not unfrequent cause of unsuccessful Sessions trials is the difference of opinion between the committing Magistrate and the Sessions Court as to the

sufficiency of the evidence of identity in dacoity and other similar cases. This is a difficulty which a prosecuting Counsel in Europe seldom has to meet, but in this country it is impossible to remedy.

208. No irregularity or fault of any grave nature on the part of committing Magistrates was brought to notice by the Sessions Judges during the year under review.

209. The fines imposed and realised in criminal cases are shown below:—

The fines imposed and realised were as follows:—

	DISTRICTS.							
	Patna.	Gaya.	Shahabad.	Saran.	Champanan.	Muzaffarpur.	Darbhanga.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Balance of fines due at the commencement of the year ...	12,518 3 10	15,022 6 2	8,127 2 0	13,246 0 6	14,402 4 11	8,228 13 4	8,400 8 3	80,054 7 0
Amount imposed during the year ...	23,864 15 0	23,802 9 3	21,853 14 6	23,441 1 0	14,475 10 4	23,296 13 0	12,354 6 0	1,43,080 5 1
Amount collected during the year ...	15,791 0 9	15,792 3 1	17,501 12 9	19,478 13 6	11,159 3 6	16,450 1 3	9,396 9 7	1,06,509 12 5
Amount remitted or written off ...	6,110 4 0	6,416 1 9	2,168 7 9	2,644 14 0	4,695 9 6	4,520 12 0	3,179 7 8	30,725 8 8
Balance of fines pending at the end of the year ...	14,481 14 1	16,616 10 7	19,310 12 10	13,663 6 0	13,033 2 3	10,564 13 1	8,277 13 0	86,848 2 10

There was a slight increase, both in the aggregate of fines imposed and in the amount of fines collected, over the figures of the preceding year, as well as in the outstanding balance. The extension of the practice of giving time for payment in certain cases may possibly have something to do with this, though I think that it was more often due to (1) want of care in regulating the amount of fine with reference to the means of the accused to pay it, and (2) the imposition of inadequate sentences of imprisonment in default of payment.

#### 16.—REGISTRATION OF DOCUMENTS.

210. The following table shows that there has been a steady increase in registration during the last three years in all the districts except Gaya and Champanan:—

DISTRICT.	Number of documents registered.			Average per office in the district.		
	1893-94.	1892-93.	1891-92.	1893-94.	1892-93.	1891-92.
1	2	3	4	5	6	7
Patna ...	14,336	13,997	12,665	2,389	2,333	2,111
Gaya ...	7,668	7,999	7,315	1,534	1,600	1,463
Shahabad ...	15,537	14,181	11,923	3,107	2,836	2,384
Saran ...	23,501	22,373	23,473	2,938	3,196	4,694
Champanan ...	20,454	20,729	19,317	4,091	4,146	4,829
Muzaffarpur ...	27,849	27,414	23,796	3,978	3,916	3,399
Darbhanga ...	21,353	19,993	16,317	2,609	2,499	2,371
Total ...	130,698	126,686	114,806	2,970	2,946	2,943

The decrease in Gaya and Champanan in 1893-94, as compared with the previous year, occurs only in certain classes of documents. In Gaya, owing to the agricultural distress that prevailed there in 1892-93, a larger number of mortgage deeds than usual were registered in that year. In Champanan the decrease is chiefly under the head of optional documents affecting immoveable property. The Collector has not offered any explanation, but possibly better crops in the year under report was in this case also the reason.

As regards the total number of documents registered in each district, Muzaffarpur shows the largest number and Gaya the smallest. In the latter the *bhaoli* system extensively prevails, which results in a paucity of formal transactions in the matter of transfer and leasing of holdings.

The total receipts in the year under report amounted to Rs. 2,22,736, against Rs. 2,24,217 in 1892-93. The decrease is due to the reduction in the scale of fees during the year. The expenditure amounted to Rs. 83,351 against Rs. 78,414.

211. The department has on the whole worked satisfactorily. Three new offices (rural) were opened at Ekma, Basantpur, and Sonapur, all in Saran, the heavy pressure of work in the other offices in the district being by this means considerably reduced.

#### 17.—CONDITION OF THE DIVISION AS REGARDS LAND AND THE LAND REVENUE ADMINISTRATION.

212. The total number of estates in the Division was 61,815 against 60,539 in 1892-93. The increase of 1,276 estates is due chiefly to partitions effected during the year.

213. The current demand also increased from Rs. 81,97,237 in 1892-93 to Rs. 82,06,065 in the year of report, or by Rs. 8,848. The demands under class I (permanently settled estates) and those under class II (temporarily settled estates) fell off by Rs. 512 and 289 respectively, while those under class III (estates held direct by Government) increased by Rs. 9,649.

214. The decrease under class I, which is shared by all the districts except Champaran, where there was no variation, is generally attributed to redemption of petty estates under Act VIII of 1876, and to abatement of revenue in consequence of lands taken up for public purposes. Under class II the decrease occurred in Patna, Champaran, Muzaffarpur and Darbhanga, and is due to resettlements and the transfer of estates from this class to class III, and *vice versa*. Some changes of instalments in certain diara estates in the Patna district have also resulted in a decrease of demand under this class of estates.

215. The increase under class III is shared by Patna (Rs. 2,003), Gaya (Rs. 3,385), Shahabad (Rs. 3,567), and Saran (Rs. 694). In Patna it is due to the resettlement of Diara Sultanpur, the revision of the jamabandi of certain Government estates, and the transfer of estate Burdiha Buzrug and Chak Natho from farming lease to direct management. In Gaya it is ascribed to the following causes :—

- (a) Increased value of bhaoli produce and the conversion of bhaoli into nakdi rents.
- (b) New settlements of lands and of sayar revenue.
- (c) Increase in nakdi rents.
- (d) Correction of mistakes in previous demands.
- (e) Progressive increase of jama in certain estates.
- (f) Alteration of kists.

In Muzaffarpur it is due partly to the transfer of two estates from class II and partly to enhancement of rents; while in Saran the settlement of newly alluviated islands, the transfer of certain estates from class I to class III, and the revision of assessments in six estates, are the causes of the increase.

216. The current collections from all classes of estates amounted to Rs. 77,51,166 against Rs. 77,41,442, showing an increase of Rs. 9,724, but the percentage was 93.8 against 94.4 in the previous year. This falling off is due to the shorter collections of demands on account of class I estates, against which the decrease was Rs. 8,570, that is from Rs. 73,94,757 to Rs. 73,86,187. The percentage of current collections in the current demand came up to 99 per cent. in three districts, viz., Gaya, Champaran and Darbhanga. It was above 98, but less than 99 per cent. in Saran and Muzaffarpur, while it was only 89.1 and 88.2 per cent. in Patna and Shahabad respectively. The short collections in these two districts have lowered the percentage for the Division to 93.8. In Patna the habitual default of a number of proprietors at the March kist, and in Shahabad the priority given to cesses in crediting the revenue paid in, are said to have resulted in the low collections of land revenue. Measures have been taken in the latter district during the year to remove this cause, and a better result is expected in future.

217. The current and arrear collections together amounted to Rs. 82,19,733 or 93·8 per cent., against Rs. 81,57,728 or 93·5 per cent. in the previous year. The percentage of the total collections on the current-demand was 100·1 against 99·5 in 1892-93.

218. The remissions amounted to Rs. 15,418, of which Rs. 1,242 represent remission of grace, Rs. 164 remissions of right, and Rs. 14,012 nominal remissions. Of these last, Rs. 11,064 were granted in Gaya on account of class III estates in respect of short outturn of crops in *bhaali* lands and mistakes in adjustment of accounts.

219. The balances amounted to Rs. 5,22,090 against Rs. 5,51,156 in the previous year, showing a decrease of Rs. 29,066. The percentage of the total balance on the total demand was 5·9 against 6·2 in 1892-93. Rs. 4,84,081 out of the balances were under recovery at the close of the year, while Rs. 38,009 were reported as doubtful and irrecoverable.

220. *Road and Public Works Cesses.*—Out of a total gross demand of Rs. 30,93,927, a sum of Rs. 24,67,108 or 79·7 per cent. was realized and Rs. 7,215 remitted, leaving a balance of Rs. 6,19,604 or 20·02 per cent. of the gross demand outstanding at the close of the year. The percentage of the total collections on account of both current demand and arrears to current demand was 99·3. The percentage of net balance on gross demand was least in Champaran (10·5) and highest in Gaya (28·7). In the latter district Rs. 32,221 was left unpaid by the 7 annas proprietor of the Tikari Raj, who is said to be a persistent defaulter during the pendency of litigation in the Privy Council regarding succession to the estate. The short collection in all the districts is attributed in a great measure to the statutory grace of 15 days, which affects the collections unfavourably, especially at the March kist.

221. The revaluation in Darbhanga was progressing steadily at the close of the year, and is expected to be completed during the current year. The work at Saran was completed during the year, resulting in an increase of cess amounting to Rs. 27,623. The revaluation of 10 estates in Patna was also completed during the year, resulting in a net decrease of Rs. 2,404·3·7. The revaluation of the whole of the Patna District was sanctioned during the year, and was taken in hand from the 5th February 1894.

222. *Remittance by money-orders.*—A sum of Rs. 2,78,732 was remitted by 26,389 money-orders for payment of land revenue and cesses during the year of report, against Rs. 2,98,559 by 26,693 orders in the previous year. Thus there has been a decrease both in the number and the value of the orders. No instances of refusal to accept payment of land revenue and cesses by money-orders occurred in any district during the year of report, nor was any complaint made against the working of the system. I am inclined to think that the experiment has about reached the end of its tether. The figures, after having slightly oscillated during the past four years, are now not dissimilar to what they were in 1889-90, five years ago, when the number of money-orders issued was 25,832 and the amount covered Rs. 2,63,269. I think that there is still amongst the natives of Bihar an instinctive feeling of greater security in the personal agency system than in casting seed upon the waters of the Post Office. This, combined with a spirit of conservatism, fostered to their utmost by the Revenue agents, and for that matter possibly also by the *tauziamla* themselves (in hopes of certain small honoraria), accounts, I think, for the non-advance of the system beyond a certain point. The transactions with regard to the payment of rent to landlords by money-order show that, during the year of report, 5,606 orders covering Rs. 94,219 were issued against 4,956 orders covering Rs. 82,157 in the previous year. But the number of refusals by landlords to accept payments by that system shows a considerable increase; 1,236 orders having been refused covering Rs. 11,235, against 991 orders covering Rs. 8,937 in the previous year. The system is on the whole making only very slight headway. It is not popular among zamindars, especially in Muzaffarpur, as is shown by the large number of refusals in that district. There can be no doubt, as noticed last year, but that it is chiefly resorted to where there is some cause of friction between landlord and tenant.

223. *Operation of the Sale law.*—Out of 6,999 estates and shares of estates which became liable to sale for non-payment of Government revenue, 352 or 5·2 per cent. were actually sold. The revenue demand of the estates sold was Rs. 37,697, and the dues for which they were brought to sale amounted to

Rs. 14,852. The amount realised by sale was Rs. 4,57,403, or about 12 times the Government revenue. Six estates, with a revenue demand of Rs. 1,901, were purchased by Government for Rs. 110. The forfeits of deposits under section 23, Act XI of 1859 amounted to Rs. 3,285 for 10 estates, and Rs. 348 for five shares of estates. Three whole estates and one share were regained by the proprietors under section 24 of the Act; 105 appeals were preferred before the Commissioner, of which 89 were in respect of estates and 38 in respect of shares. Sales were annulled in the case of 14 estates and 10 shares, and 9 sales of estates and 6 of shares were recommended for annulment under section 26. The largest number of sales (184) took place in Saran, where the large number of defaults (1,641) appears to have justified severe measures. As a general rule, however, whenever the arrears of all kinds were entirely paid up before sale, the estates advertized for sale were exempted, though this rule does not appear to have been invariably followed in Saran. In Shahabad greater leniency was shown to proprietors, with the result that they freely abused it, so much so that towards the latter end of the year it was considered necessary to introduce a stricter system.

224. *Working of the Certificate procedure.*—The total number of certificates filed during the year was 43,925 against 44,146 in 1892-93. In 11,570 cases payments were made on issue of notices, and in 25,380 cases on attachment of property, while in only 801 cases actual sale was necessary for the recovery of the demands. In 1,470 cases demands were paid on issue of warrants against the person. In 17 other cases the debtors were imprisoned. In 8 out of these 17 cases the debts were paid before expiration of imprisonment, but in the remaining nine cases the debtors had to be released without paying their debts.

225. *Settlements.*—The total number of cases for disposal was 184; of these 125 were for settlement of estates belonging to Government, and 59 for estates belonging to proprietors. The number disposed of was 28, out of which 3 were original settlements and 25 were re-settlements. Of the remaining 156 cases, 112 cases were summarily settled, 6 were struck off, and the rest were pending at the close of the year.

226. *Land Registration.*—The total number of cases for disposal was 30,405, of which 21,144 or 69·5 per cent. were disposed of, leaving 9,261 cases pending at the close of the year. The number instituted during the year was 24,472 against 18,525 in 1892-93, thus showing an increase of 5,897 cases in the year of report. The increase has occurred in all the districts, especially in Muzaffarpur, where a number of unregistered proprietors were discovered on a comparison of the village khasras prepared in the course of the survey and settlement proceedings now in progress, with Register A. On these persons notices under section 65 were forthwith served, with the result that an unusually large number of applications were filed towards the end of the year. The Collector has submitted proposals for temporarily strengthening the staff for this work.

227. *Separate Accounts.*—The total number of separate accounts opened and closed during the year are noted below:—

		Opened.	Closed.
Under section 10, Act XI of 1859	...	1,717	24
Ditto 11, ditto	...	55	...
Ditto 70, Act VII (B.C.) of 1876	...	870	69
		—	—
Total	...	2,642	93
		—	—
Net increase	...	2,552	

The total number of separate accounts remaining open at the close of the year was 36,063 with a revenue demand of Rs. 21,20,141, against 33,514 with a revenue demand of Rs. 20,24,990 in 1892-93. I may here mention that I find that in the last four years the total number of accounts (including both those of whole estates and of separated shares) has increased from 86,978 to 97,878. This means a very appreciable and steady increase in the work of the Tauzi Departments of the different districts.

228. *Partitions.*—The total number of cases for disposal during the year was 1,872 against 2,017 in the previous year, the number instituted during the

year of report was 327 against 338, showing a decrease of 11 cases. The disposals amounted to 402 against 472. In consequence of the cadastral survey further measurements in batwara cases have, under the orders of the Board, been stopped. Applications are now received, and after carrying out the necessary preliminary proceedings they are admitted under section 31, but no further advance is made pending completion of the professional survey.

229. I found in my inspections that the work in this Department had generally throughout the Division much improved of late. The attention of Collectors and Deputy Collectors has everywhere been called to the necessity of paying greater attention to the principle of compactness in the forming of new estates; all order-sheets are now kept in English by the Deputy Collector with his own hand, dates for the carrying out of all orders are invariably fixed and strictly kept to, while greater activity on the part of the Deputy Collector in respect of local inquiries has been insisted on. These orders have been properly attended to, generally with, on the whole, very satisfactory results.

230. *Land Acquisition*.—The year opened with 60 cases pending from the previous year, and 42 cases were instituted during the year of report, making a total of 102 cases for disposal. The number disposed of was 39 against 48 in the previous year. Besides the above, there were 11 cases for acquisition of land for canal purposes and 10 cases for village channels.

231. *Advances*.—Advances under Act XIX of 1883 were made in the districts of Gaya and Shahabad. In the former district Rs. 10,000 were allotted, and in the latter Rs. 2,500. The total amount advanced in the former was Rs. 4,100, and in the latter Rs. 2,400. There was no necessity for such advances being made in any other district.

Under the Agriculturists' Loan Act XII of 1884, the amount allotted and the amount advanced are noted below:—

			Allotted.	Advanced.
			Rs.	Rs.
Gaya	...	...	1,500	790
Shahabad	...	...	3,000	1,800
Saran	...	...	2,000	Nil
Champanan	...	...	3,300	1,500
Muzaffarpur	...	...	25,000	21,913
Darbhanga	...	...	23,000	7,851
Total	...	...	57,800	33,854

Further particulars regarding the advances in the three last-named districts are given in section 37 of this report.

#### BENGAL TENANCY ACT.

232. The table below shows the working of the various sections of the Tenancy Act in the Division during the two years 1892-93 and 1893-94:—

	1892-93.	1893-94.
1. Transfer of tenures voluntarily, section 12(3) ...	1,475	1,276
2. Ditto by decree sale, sections 13(2) and 14 ...	9	1
3. Transfer of tenures by succession, section 15 ...	...	7
4. Commutation of rent, section 40 ...	23	73
5. Appraisal of produce where rent is paid in kind, sections 69 and 70 ...	306	292
6. Registration of improvements, section 80 ...	91	76
7. Certificates of Collectors as to acquisition of land for building and other purposes, section 84 ...	...	3
8. Notices of resumption of land by landlords, section 87(2) ...	889	901
9. Application made for a survey and record of rights under Chapter X ...	1	8
10. Local enquiries held by order of a Court, section 158 ...	8	10

233. Voluntary transfer of tenures under section 12 (3) has again largely fallen off, while notices of resumption of land under section 87 (2) have increased.

The recorded number of voluntary transfer of tenures in the Division in each of the last four years is given below:—

1890-91	...	...	2,284
1891-92	...	...	1,848
1892-93	...	...	1,475
1893-94	...	...	1,276

• The steady falling off in the number of notices of voluntary transfer is attributed to the fact that transfers of mere occupancy tenures are now no longer required to be reported to landlords, nor are notices required in cases of transfer of fractional interests of tenures. The increase in the number of notices of resumption of land by landlords is due to the increase in the Champaran district alone, where the number of such notices was 719 against 667 in the previous year. A special inquiry was made under orders of the Board of Revenue by the Collector of Champaran to ascertain the cause of the large number of notices of this kind in this district. Mr. Blyth's report showed that the European concerns filed the largest number of notices. Sir W. B. Hudson wrote as follows in explanation of the fact:—

“The Indigo-planters, at all events I and my neighbours, file notices in all cases of abandonment generally with the object of defeating the designs of petty mahajuns and other land-grabbers, most of them non-resident and not cultivators. This class is gradually obtaining possession of the best holdings, and in the present state of the law of Transfer it is generally impossible to prevent them.” Sir W. Hudson also remarked that “native landlords rarely take the trouble in this district to file these notices, so naturally those who do (the planters) appear as a majority.” Moreover, over the enormous tracts north of Bettiah, including Ramnagar, the population is sparse and land is easily obtainable, consequently the shifting about of raiyats in this district is a matter of constant occurrence. The increase under the head “Commutation of rent,” from 23 in the previous year to 73 in the year of report, is due to the fact that 62 applications were filed this year in Gaya, all relating to only four villages. The Collector, however, refused to act upon them, as they were evidently filed with the object of obtaining by a side-wind a settlement of a dispute which it was the proper function of the Civil Court to decide.

234. The largest number of applications for appraisement of produce was made in Gaya, where the *bhaoli* system extensively prevails.

235. Fifty-two applications for the registration of improvements were made by the Hatwa Raj alone.

236. Under the head of applications made for a survey and record of rights under Chapter X there is an increase of seven. The Manager of Deo and Dharmkumar estate under the Court of Wards in Shahabad filed six applications for a survey and record of rights in six villages in pargana Bhojpur, where the raiyats are notoriously lawless. It was, however, found possible to take up only three villages this year for want of funds.

237. The relation between the landlords and tenants continue on the whole satisfactory, although I think with the Collector of Champaran (Mr. Blyth) that there are reasons to apprehend that they have been somewhat disturbed in places by the cadastral survey operations—a result which I fear must be expected to spread further as the area under survey and settlement gradually becomes enlarged.

#### CADASTRAL SURVEY OPERATIONS IN BIHAR.

238. During the past season the operations in Muzaffarpur were confined to cadastral survey with record of rights, the traverse survey of the district having been completed during the previous season. Field work commenced early in November, two camps having been formed in this district. The programme for the season was the cadastral survey with record of rights of 1,768 villages covering an area of about 1,000 square miles. Of this area the cadastral survey of 809 square miles and 1,216 villages was completed by the end of March 1894, and the record prepared of 440 villages containing 401,115 fields or holdings.

239. It may be mentioned that during the previous survey season ending 30th September 1893, the survey was completed of 529 square miles containing 1,153 villages, and the records were written of 1,052 villages containing 641,277

holdings. The records of those villages of which only the survey was completed in the previous season were also written during the past season.

240. The approximate cost of the operations in this district, from the 1st April 1893, was Rs. 89,636.

241. The following table shows the outturn of work done during the past year as well as during the previous field season in the district of Champaran:—

	Traverse, square miles	Cadastral survey, square miles.	Khanapuri villages.	
1	2			
Up to March 31st, 1893	1,100*	251.91	63	Exclusive of area traversed before 1892-93.
April 1st, 1893, to the end of season 1892-93.	3	164.09	196	
October 1893 to March 1894 ...	1,202	470	92	
Total ...	2,305	886	351	

242. In the beginning of the year an attempt was made in this district to utilize the services of patwaris for the purposes of cadastral survey and record writing, but the attempt was abandoned in August last.

243. Cadastral survey operations were also in progress during the year of report in the district of Saran, and an area of 315½ square miles was completed by the end of March 1894. Khanapuri was also completed in 64 villages during the past season.

244. A cadastral survey of the Tikari Estate was also begun during the year. The total area surveyed before its close is reported to have been 411 square miles, comprising 461 villages; and record-writing was finished in 188 villages comprising 232,492 fields. No attestation work was attempted in this the first season of the operations.

245. In Darbhanga the Bihar Cadastral Survey Party traversed during March last 60 square miles in the jurisdiction of Benepatty, including 60 villages.

#### TRAINING OF YOUNG CIVILIANS IN SURVEY AND SETTLEMENT WORK.

246. With reference to the orders of Government contained in Resolution, Land Revenue, No. 483, dated 24th January last, the following junior civilians were attached for as long a time as circumstances in each case permitted, to the different cadastral survey camps in Bihar in order to receive training in survey-settlement work:—

247. Mr. Blanchard Foley, who joined the Patna District in December 1893, was deputed for one month, from 1st March 1894, to learn survey and settlement work under the supervision of Mr. Lyon, Settlement Officer, Muzaffarpur.

248. In Gaya, Mr. Cargill gave as much time as he could spare from his duties as Sub-divisional Officer in learning the work at the survey camp at Aurangabad in March 1894. Mr. Carey, Officiating Joint-Magistrate, was also engaged on survey and khanapuri work for 17 days in February last, while the camp was in the Sadar sub-division. Mr. Russell, Assistant Collector, spent a month in February and March in learning surveying and khanapuri in the Sadar and Aurangabad sub-divisions. There was no attestation or settlement work in progress in the district, so the training of all these officers was confined to survey and record-writing.

249. Mr. G. P. Beachcroft, Assistant Collector, Arrah, was deputed to Champaran for a month to learn survey and settlement work under Mr. Colvin.

250. In Saran, Mr. F. M. Gauntlett was deputed to the survey party from the 20th of February until the 5th April last, accompanying the Settlement Officer on tour through Saran and Champaran.

251. In Champaran, Mr. Fisher, Sub-divisional Officer of Bettiah, joined Mr. Colvin's camp for such time as he could spare from his regular duties, which were heavy.

252. In Muzaffarpur, Mr. Streatfeild was in camp with the Settlement Officer for 12 days, principally at the survey camp at Samastipur. Mr Kerr remained on tour with Mr. Lyon for 36 days and gained a thorough insight into the work. Mr. Konstam, Sub-divisional Officer of Hajipur, was in camp with Mr. Lyon for  $8\frac{1}{2}$  days, and spent a day in each of the two other survey camps seeing attestation and khanapuri. Mr. Egerton, Sub-divisional Officer of Sitamarhi, was unable to join a survey camp, as there was none in his sub-division.

253. The survey and settlement not having yet reached the district of Darbhanga, the young civilians (Messrs. Mullick, Phillimore and Boyd) attached to that district had no opportunity of seeing the work.

#### 18.—ATTACHED ESTATES, INCLUDING COURT OF WARDS.

254.\* There are estates under the management of the Revenue authorities in all the districts of this Division except Champaran. At the close of the previous year there were 12 such estates, and at the close of the year of report the number had risen to 17, the five new estates being the following:—

1. Patrick Stephen's estate in Patna ;
2. Maulvi Mobarak Hossein's estate in Saran ;
3. The Sheohar estate in Muzaffarpur ;
4. The Nurhan estate in Darbhanga ; and
5. The Mohiuddinagar estate in Darbhanga.

255. Patrick Stephen is the minor son of a Muhammadan convert named Altaf Hossein. The latter made a gift of some landed estate and houses in Patna to the minor son, and as he has since become demented, the District Judge of Patna, at the instance of some well-wishers of the family, appointed the Collector of Patna to be the guardian of the property of the minor under Act VIII of 1890. The estate has subsequently been placed under the Court of Wards in the immediate charge of the General Manager of Wards' estates in Patna.

256. Maulvi Mobarak Hossein, a respectable zamindar of Chapra, died, leaving two grand-children and a widow. The estate was much involved, but in consideration of the respectable position of the family, the Government directed the Board to assume charge of it, and this was accordingly done in December 1893.

257. The Sheohar and the Mohiuddinagar estates were brought under the management of the Court of Wards in consequence of their proprietors, Raja Deo Nandan Singh of Sheohar and Shah Wajid Hossein of Mohiuddinagar, having been declared on their own application disqualified to manage their estates.

258. The widow of the late proprietor of Nurhan was found during the year of report to be under evil influences and incompetent to manage the estate properly. The Board of Revenue accordingly ordered it to be taken charge of under Act IX (B.C.) of 1879, and this was accordingly done in September 1893.

259. The total demand of rent and cesses due in all estates except Sheohar, the figures of which have not yet been supplied by the Collector, was nearly 26 lakhs, of which  $13\frac{1}{2}$  lakhs were arrear and  $12\frac{1}{2}$  lakhs current. The collections amounted to 12 lakhs, being 96·8 per cent. of the current demand and only 46·3 per cent. of the total demand (current and arrear), against 48·7 per cent. on total demand in the previous year. This short percentage is in a great measure to be accounted for by the recent assumption of the charge of new estates with heavy arrears and with accounts in great confusion. The balances outstanding at the end of the year were  $13\frac{1}{4}$  lakhs against 11 lakhs in the previous year. The remissions amounted to a little less than three quarters of a lakh, chiefly in the Tikari estate.

260. The whole demand of revenue and cesses was punctually paid by the different estates under Government management during the year. The payments to superior landlords amounted to  $\frac{3}{4}$  lakh. There is some balance

still due to superior landlords from the estate of the late Maulvi Mobarak Hossein of Chapra, which could not be settled owing to the confused state of the accounts, the estate having, as noticed above, only lately been taken over.

261. Debts to the extent of nearly  $7\frac{1}{2}$  lakhs were paid off, of which about  $4\frac{1}{2}$  lakhs were on account of the Deo estate, which was granted a loan of Rs. 2,72,000 by Government during the year for this purpose. Its debts at the close of the year of report amounted, including the above loan, to nearly  $5\frac{1}{2}$  lakhs. The estate has suffered a heavy loss in the death of its Manager, Babu Bhuan Lal, who died on the 14th January-1894.

262. The charges for management amounted to a little over two lakhs, and nearly two lakhs were spent for the maintenance of the proprietors and their families, and a little over  $2\frac{1}{10}$  lakhs on miscellaneous expenses. A sum of  $1\frac{1}{2}$  lakhs was spent on improvements against half a lakh in the previous year. The total expenditure on all accounts, including payment of debt, was  $14\frac{7}{10}$  lakhs, the surplus at the end of the year being nearly three lakhs, the largest surplus being in the Tikari estate.

263. The education of the minors was well looked after during the year, and proper care was taken of their health. The health of the Tikari ward was indifferent, and a change to Darjeeling was given him under medical advice during the hot weather.

264. The subject of the cadastral survey of the Tikari estate has been noticed in the preceding section.

265. The condition of the tenantry on estates under direct management continued generally satisfactory.

#### 19.—EXCISE.

266. The total revenue derived from Excise during the year of report amounted to Rs. 26,33,379, against Rs. 24,91,128 and Rs. 23,44,966 in 1892-93 and 1891-92 respectively, thus showing an increase of Rs. 1,42,251 and Rs. 2,88,413 respectively over the two previous years. There has been an increase under all the heads except Opium, which showed a small decrease of Rs. 222. The largest increase occurred under the heads "Country spirit" and "Tari," amounting to Rs. 87,720 and Rs. 44,976 respectively.

267. The increase under the head "Country spirit" was obtained in all the districts except Muzaffarpur, where, as will appear from the annexed statement XXVIII, there has been a decrease from Rs. 1,05,766 to Rs. 1,04,098, or of Rs. 1,668. The Collector ascribes the falling off to the reduction in the upset fees of the distillery shops with no corresponding increase resulting from the increased duty.

268. The increase under the head "Tari" occurs in all the districts except Patna and Shahabad. In the former district receipts fell from Rs. 1,35,542 in 1892-93 to Rs. 1,25,976, or by Rs. 9,566 in the year of report. This result is attributed to the introduction of the Madras system of tree-taxing which was in force in this district during the year of report. The decrease of Rs. 328 in Shahabad is ascribed to late settlements. The increase in the other districts is, on the other hand, ascribed to greater diligence on the part of the excise officers in collecting the revenue, and also to large collections made in advance.

269. Under the head "Ganja and bhang" there has been an increase in the four districts of Patna, Gaya, Muzaffarpur and Darbhanga, amounting to Rs. 17,620, and a decrease in the remaining three districts of Shahabad, Saran and Champaran, amounting to Rs. 9,188, or a net increase of Rs. 8,432 in the Division.

In Shahabad and Saran the falling off is explained by the Collectors to smaller exportation of the drugs to the North-Western Provinces districts, while in Champaran it is said to have resulted from the settlement of shops at reduced fees in consequence of the rate of duty having been enhanced during the year.

270. The decrease of Rs. 222 in the revenue from opium is small and calls for no special notice.

271. The agitation among the Behabut Kulwars, reported by Mr. Manisty from Saran last year, against the use or sale of country spirit, has of late been less pronounced. For the present it has apparently ceased to exist and did not affect the revenue at all.

272. The following figures show the number of persons arrested during the last two years for offences against the Excise and the Opium laws:—

Districts.	Number.	
	1892-93.	1893-94.
Patna	177	137
Gaya	153	115
Shahabad	53	59
Saran	259	76
Champaran	139	150
Muzaffarpur	182	113
Darbhangha	128	105
Total	1,091	755

The difference in Saran is striking. The Collector explains that this is due to the fact that 184 licensed vendors were prosecuted for breaches of conditions of the licenses in 1892-93, while in the year of report only 11 persons were prosecuted for such offences.

273. The figures below show the number of prosecutions for drunkenness in the municipalities in each district:—

Districts.		1892-93.	1893-94.
Patna	...	499	637
Gaya	...	59	100
Shahabad	...	100	97
Saran	...	207	98
Champaran	...	7	7
Muzaffarpur	...	227	175
Darbhangha	...	53	95
Total	...	1,152	1,209

#### 20.—STAMPS.

274. The total revenue derived from the sale of stamps and court paper was Rs. 20,70,584 against Rs. 20,20,551 in 1892-93, and Rs. 20,02,652 in 1891-92, the increase amounting to Rs. 50,033 and Rs. 67,932 as compared with the two previous years. The following statement shows the revenue derived from the sale of each kind of stamp in the year of report and the previous year:—

DESCRIPTION.	1892-93.	1893-94.	Increase.	Decrease.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Court-fees ...	13,54,409	13,48,896	...	5,513
Stamps for copies ...	88,902	1,02,755	13,853	...
Impressed sheets ...	5,18,209	5,54,992	36,783	...
Receipt stamps ...	16,797	17,165	368	...
Notarial „ ...	110	88	...	22
Hundi „ ...	17,640	20,467	2,827	...
Court papers ...	24,484	26,221	1,737	...
Total ...	20,20,551	20,70,584	55,568	5,535
			Net 50,023	

The diminution of sales of Court-fees (Judicial) Stamps has been apparent for the past two years. In 1891-92 sales of these stamps yielded a revenue of Rs. 13,61,366; in the year following the sales fell off to Rs. 13,54,409; and in the year of report the revenue derived from this class of stamps amounted to Rs. 13,48,896. This falling off can only be attributed to a decrease of litigation, especially in title suits of higher value. Non-judicial stamps (impressed

sheets) and stamps for copies show an increase due to greater development of registration and to the survey and settlement operations being in progress in three districts in the Division. The increase in the sale of Court paper is due to the working of the Settlement Offices open during the year. 488 cases of unstamped or insufficiently stamped documents were detected by the Civil Courts and Revenue authorities during the year of report against 494 cases detected in the previous year. The amount of duty and penalty realized was 5,358 against 5,253 in 1892-93.

275. The number of prosecutions instituted for breaches of the Stamp Law was 93, in which 104 persons were brought to trial, as against 104 cases in which 95 persons were brought to trial in the preceding year. Of the 104 persons brought to trial during the year of report, 81 were convicted, 14 acquitted, and 9 were under trial at the close of the year. The fines imposed during the year amounted to Rs. 1,280, out of which Rs. 236 were disbursed as rewards.

#### 21.—INCOME-TAX.

276. The following statement compares the financial results of the last two years in this Division:—

DISTRICT.	1892-93.				1893-04.			
	Number of persons finally assessed.	Final demand.	Collection.	Percentage of collection on demand.	Number of persons finally assessed.	Final demand.	Collection.	Percentage of collection on demand.
1	2	3	4	5	6	7	8	9
Patna ...	1,848	Rs. 63,071	Rs. 61,680	99·3	1,982	Rs. 67,251	Rs. 67,176	99·8
Gaya ...	2,214	62,075	55,386	89·2	2,373	65,306	61,743	94·6
Shahabad ...	1,405	58,924	39,801	67·1	1,494	59,086	38,101	64·5
Saran ...	2,668	73,594	72,767	98·8	2,747	75,352	74,551	98·9
Champan ...	1,575	39,365	38,380	97·4	1,596	43,901	42,901	97·7
Muzaffarpur ...	2,119	59,306	57,506	96·9	2,586	64,545	62,786	97·3
Darbhanga ...	2,330	59,860	54,026	90·2	2,373	63,763	60,624	95·07
Total ...	14,273	3,95,204	3,78,349	95·7	14,950	4,19,104	4,07,882	97·3

The statement shows a total increase of 677 assesseees and Rs. 23,900 in the final demand, and an improvement from 95·7 to 97·3 in the percentage of collections.

The increase in the number of assesseees in the year of report has taken place in all the districts except Shahabad. Muzaffarpur, which showed an increase of 120 persons in the previous year, again showed the largest increase of 266 persons in the year under report, the increase being mostly under Part IV; Gaya and Patna come next with increases of 159 and 134.

277. The final demand increased in all the districts, the total increase in the Division being over 5 per cent. against nearly 3 per cent. in the preceding year. In the following districts there was an increase of over 4 per cent.—

Champan	10·3
Muzaffarpur	8·1
Patna	7·7
Darbhanga	6·1
Gaya	4·8

The increase in Champan is said to be due to the “great enhancement of the tax of one individual assessee as well as to the discovery of several new assesseees.”

In the other districts the increase is due to the discovery of new assesseees and to enhancement of previous assessments, the result of careful revision made during the year.

278. The collections amounted to Rs. 4,07,882 or 97·3 per cent. on the final demand, against Rs. 3,78,349 or 95·7 per cent. in the previous year. The percentage of collections on the final demand reached the prescribed standard of 95 per cent. in all the districts except Gaya, which fell short of it by only 4.

279. The outstanding balance on account of tax, penalties and costs at the close of the year under report amounted to Rs. 19,785. As in the previous

year, Gaya and Darbhanga show the largest balance, principally due to delay in the issue of notices of demand and disposal of pending objections.

280. The population of the Division being 15,793,854, the average incidence of the tax was Re. 1 to every 37 persons against 39 persons in the previous year. In the several districts the average number of persons assessed to each rupee of tax was as follows:—

Patna	...	...	26	against	28	in the	preceding	year.
Gaya	...	...	33	"	34	"	"	"
Shahabad	...	...	53	"	53	"	"	"
Saran	...	...	33	"	33	"	"	"
Champaran	...	...	42	"	47	"	"	"
Muzaffarpur	...	...	42	"	45	"	"	"
Darbhangha	...	...	44	"	46	"	"	"

281. As in the previous year, the incidence was highest in Patna, being Re. 1 to every 26 persons, and lowest in Shahabad, where it was Re. 1 to every 53 persons.

282. The following statement shows the number of objections filed during the year 1893-94 as compared with those of the preceding year:—

DISTRICTS.	1892-93.				1893-94.			
	Filed.	Disposed of.	Pending.	Percentage of objection to assessment.	Filed.	Disposed of.	Pending.	Percentage of objection to assessment.
1	2	3	4	5	6	7	8	9
Patna	289	298	1	16.1	209	909	.....	10.5
Gaya	772	663	109	34.9	775	770	5	32.7
Shahabad	178	173	2	11.7	185	181	4	13.3
Saran	340	340	.....	12.6	388	387	1	14.1
Champaran	809	890	.....	17.0	800	198	2	13.5
Muzaffarpur	545	645	.....	25.2	375	375	.....	15.7
Darbhangha	427	425	2	18.2	455	416	39	19.08
Total	3,627	2,713	114	10.8	2,587	2,536	51	17.3

Of the total number 2,587, 1,819 relate to the areas selected in the different districts for revision during the year under report, and 768 to the areas in which previous years' assessments were adopted.

There was an improvement on the whole both as regards the percentage of objections filed and in the number disposed of, especially in Patna and Muzaffarpur.

283. With reference to the high percentage of objections in Gaya, the Collector explains that the assessment of the Gayawals was carefully revised, resulting in many enhancements and consequent objections. There were besides many new assessee discovered who, as a rule, filed objections in the hope of obtaining concessions from the new Deputy Collector. The number of successful objections, however, was only 21.4 per cent. against 56.6 per cent. in the previous year. In Darbhanga the percentage of objections is also high, and the number pending at the close of the year was considerable. The Collector says that these results are due to some extent to the hurry in which the revision of the selected area before the end of the year had to be completed owing to a portion of the assessor's time having been taken up in clearing the outstanding arrears of previous years.

284. Penalties to recover arrears of tax imposed in each district during the last two years were as shown below:—

Districts.	1892-93.	1893-94.
	Rs.	Rs.
Patna	195	251
Gaya	2,618	2,703
Shahabad	170	182
Saran	1,801	404
Champaran	453	182
Muzaffarpur	1,313	1,574
Darbhangha	2,601	812
Total	9,151	6,108

285. Coercive measures were resorted to in all the districts, particularly in Gaya and Muzaffarpur.

In Gaya the Collector reports there are certain classes of assesseees who are persistent defaulters, particularly the Gayawals, who purposely default to prove their inability to pay the tax, although they have ample means to pay it, and they even allow their property to go to sale in the hope of securing future exemption.

In Muzaffarpur warrants had to be issued as a last resource when all other attempts to recover arrears punctually failed.

286. No complaint has been heard against the working of the Income-Tax Act in any district in this Division, but the tax continues to be as unpopular as ever, and more so than ever with Managers of Indigo concerns and other Europeans on fixed salaries, who are already so terribly hard hit by the fall in exchange and the reimposition of customs duty on imported liquors and stores.

#### 22.—MONETARY ARRANGEMENTS.

287. As reported last year, Government copper coin is not gaining in favour with the public, the common medium in circulation being the lolia or Gorakhpur pice. Its value was much the same as in the previous year, varying from 96 to 108 for the rupee. It is highest at Gaya at the height of the pilgrim season in September and October, and in the other districts at the time of opium weighments in April and May.

288. Currency notes of the value of Rs. 33,87,855 were received from the public in payment of Government dues and of the value of Rs. 18,39,805 in exchange for silver, against notes to the value of Rs. 36,29,955 in payment of public dues and to the value of Rs. 19,61,615 in exchange for silver received in the previous year. The value of notes issued to the public in payment of Government dues and in exchange for silver amounted to Rs. 25,14,590 and 18,99,550 respectively, against Rs. 24,26,300 and Rs. 18,77,425 respectively in the previous year.

289. There was no prosecution under the Metal Tokens Act in any district during the year.

290. The transactions of the Post Office Saving Banks and payment and issue of money-orders will be noticed in section 32 of this Report.

#### 23.—RAILWAYS AND OTHER PUBLIC WORKS.

291. There were 32 Railway accidents on the East Indian Railway in the Patna district during the year under report, in which 17 persons were killed, 13 wounded, and 2 otherwise injured. One Railway employé was punished by the Criminal Court in connection with one of these cases. In the Shahabad district there were 15 accidents on this line during the year against 6 in the preceding year. In these 2 men and 3 women were run over and killed while trying to cross the line. An Assistant Station-master was knocked down and killed at Buxar by an engine detached from a down train, 3 other natives were injured, and a woman and child killed by alighting from trains in motion. A cooly was accidentally killed while loading sleepers and another seriously injured by a fall from an engine. In one case a pointsman was punished departmentally. No change is reported in the working of the line. Among the constructional changes made the following may be mentioned, viz. the loop connection with the main line between Mokameh Ghât and mile 279, the siding for 1,000-ton trains off the uproad at Pundaruck, the erection of a separate corrugated iron shed for native passengers at Bankipore, the arrangements for storing kerosine oil in bulk at Patna Ghât, and the arrangements for supply of filtered water to carriages and passengers at Mokameh.

#### PATNA-GAYA RAILWAY.

292. A flag-station has been established at Nadoul. Nothing has, however, been done to improve the accommodation for third class passengers on the occasions of large gatherings of pilgrims. The complaint of the want of punctuality in the arrival of trains still continues. The timing of some of the trains is also inconvenient, the mail for Calcutta being detained at Bankipore for over four hours.

BENGAL AND NORTH-WESTERN AND TIRHUT STATE RAILWAYS.

293. So far as is indicated by an absence of accidents, the working of the Tirhut State Railway was fairly satisfactory during the year under report. The running of the trains was, however, irregular, and on many occasions the train carrying the English letters failed to deliver them in time to catch the Calcutta and Bombay mail at Bankipore.

Mr. Williams, the Magistrate of Darbhanga, remarks as follows:—

“The Bengal and North-Western Railway continues to be managed in the same style as hitherto, its most conspicuous characteristic being its anxiety to save money at any price. Economy is the first consideration followed at a very long interval indeed by the comfort and convenience of passengers. I am told this part of the Railway pays better than the western extensions, but one would hardly credit it, judging by the very insufficient number of carriages of all classes, by its short supply of lamp oil, repeated absence of tickets, and a recourse to pieces of papers which have a habit of getting lost, and its niggardliness in not supplying water-carriers at intermediate stations even in the hot weather.”

The line suffered very much from the late floods, and the traffic on the Darbhanga-Sitamarhi section was interrupted for nearly three weeks owing to the damage done. Increased waterway is being provided at certain places in the Darbhanga district, but whether the increase will be sufficient seems very doubtful.

294. The bridge over the Bagmati at Gopalpur Ghât on the Sitamarhi line was only about 2½ to 3 feet above water at the time of the late flood. It was washed away and rebuilt a few years ago, but in such a manner as to stop all traffic on the river, except for boats of 50 maunds or so, which is much to be regretted.

295. The enlargement of the Lahoria Sarai station has lately been taken in hand by the Company.

296. The following table shows the gross and net earnings of the combined system of the Bengal and North-Western and Tirhut State Railways since 1889:—

	1889.	1890.	1891.	1892.	1893.
	2	3	4	5	6
<i>Gross earnings.</i>	Rs.	Rs.	Rs.	Rs.	Rs.
Bengal and North-Western Railway	22,11,824	22,08,788	24,76,910	29,39,077	26,14,546
Tirhut State Railway ... ..	18,96,675	23,92,803	24,89,278	21,84,862	26,80,830
<i>Net earnings.</i>					
Bengal and North-Western Railway	10,53,963	12,52,397	16,23,993	17,01,254	16,48,702
Tirhut State Railway ... ..	9,78,246	13,20,966	13,53,848	13,16,815	13,59,227

297. In 1893 the gross earnings of the Bengal and North-Western Railway fell short of those of 1892 by Rs. 3,24,531, but they exceeded the figures of 1891 by Rs. 1,37,636. On the Tirhut State Railway the earnings in 1893 exceeded the figures of 1891 and 1892 by Rs. 1,91,552 and 4,95,968 respectively. The receipts of 1892 on this line were, however, abnormally low owing to failure of crops, &c. The increase of Rs. 1,91,552 in 1893 over the earnings of 1891 is chiefly due to the through goods from the Bengal and North-Western Section for Howrah and the stations east of Mokameh having been crossed during the year at Mokameh Ghât instead of at Digla, and to all the ferry charges having consequently been credited to the Tirhut State Railway.

298. The Sonapur and Ajudhya mélas during the year are reported to have yielded some Rs. 50,000 less than in 1892. But in spite of this, there was in the aggregate an

Passenger traffic.

increase in the number of all classes of passengers carried, as well as in the earnings under this head. The increase in numbers amounted to 4 per cent., and in the receipts to 3·23 per cent.

299. The working expenses of the system in 1893 aggregated 44·43 per cent. of the gross earnings of the year against 42·14 of the previous year.

Working expenses.

300. The fluctuations in the principal commodities carried during the past three years are shown in the following statement :—

Items.	1891.	1892.	1893.
1	2	3	4
	Tons.	Tons.	Tons.
Wheat ... ..	30,980	25,884	13,624
Rice ... ..	147,929	124,924	137,938
Other grains ... ..	66,170	86,008	85,540
Linseed ... ..	80,473	71,201	63,223
Salt ... ..	67,508	69,870	67,203
Sugar ... ..	18,584	25,801	29,142
Tobacco ... ..	14,569	19,138	20,396

These figures show that, while there has been a steady increase in the traffic in sugar and tobacco from 18,584 and 14,569 tons in 1891 to 29,142 and 20,396 tons respectively in 1893, there has been a heavy falling off in linseed and wheat from 80,473 and 30,980 tons in 1891 to 63,223 and 13,624 tons in 1893 respectively. In rice, although as compared with the preceding year there was an increase of 13,014 tons carried, the quantity railed in 1893 fell short of the figures of 1891 by 19,991 tons.

The percentage of falling off during the year 1893, as compared with the figures of 1891, was 56·02 in wheat and 6·75 in rice. It is reported to be partly due to unfavourable crops in 1891 and the consequent increase during that year in imports, and partly to the stoppage of traffic on the Byraginia section during the floods of last August.

The decrease of 468 tons in "Other grains" as compared with the figures of 1892 is reported to be due to crops damaged by late rains in the Gonda and Bahraich districts and consequent less export.

The traffic in salt was practically the same as in 1891, but in comparison with the figures of 1892 it was some what slack—the quantity railed in 1893 being 67,203 against 69,870 tons in 1892. For the proposed branch lines noticed in last year's report, plans and estimates of the line from Hajipur to Begumsarai, 45 miles long, and of the line 38 miles in length from Garhara to Monghyr and Khagaria, were prepared and printed during the year under notice for submission to Government.

301. The feeder road to the Kurhani Railway station was completed during the year under notice by the District Board of Muzaffarpur at a total cost of Rs. 4,093 on the strong recommendations of the Railway authorities. Kurhani station is, however, only used now as a flag-station, and another station has been constructed at Turki, a few miles off, for the convenience of traffic.

302. During the year under report Sir William Hudson, K.C.I.E., applied to the District Board, Champaran, for a concession to run a feeder line to the Tirhut State Railway along the district road from Segouli Railway station to Raxaul. The Board are prepared to grant the concession, and the matter will shortly form the subject of a separate report to Government.

303. The proposal to construct a Railway line from Lukhisarai to Gaya, either through Bihar with a branch from Bihar to Bakhtipur, or through Nawada, is now under the

Proposed feeder line of Railway to the Bengal and North-Western and Tirhut State Railway system.

Proposed Lukhisarai-Gaya Railway.

consideration of Government, to whom a report on the subject has been submitted in my No. 367, dated 25th June 1894.

304. The Patna City tramway runs for a length of five miles. No constructional additions or alterations were made during the year under report. There were four accidents during the year—three women being killed and a boy injured. The questions of the rent of the line and the arrears due were taken up by the Committee of Arbitration alluded to in last year's report, and their award has been accepted by the Municipal Commissioners of Patna. The Tramway Company will now have to pay to the Municipality, with effect from 1st October 1893, a rent of Rs. 500 per running mile. Should, however, the net profit of the Company amount to more than 4 per cent. on the debenture-holders' capital, the surplus over 4 per cent. is to be paid to the Municipality until the maximum rate of Rs. 750 per running mile is obtained. The question of the arrears of rent was also settled by the Committee to the satisfaction of both the parties.

305. The tramway line at Dehri in the Shahabad district, which extends over a length of seven miles, and which was constructed by the Bengal Public Works Department in 1892-93 in connection with their quarries, was during the year under notice used by private traders in conveying grain and stone. A very large quantity of road metal for use in the Arrah Municipality was brought by this line by the contractors during the year.

306. Three large and important sanitary works, costing over 8 lakhs of rupees in all, were undertaken in the Division during the year under report, viz.—

Other Public Works.

- (1) the Patna Drainage works,
- (2) the Arrah Water-works, and
- (3) the drainage of the town of Muzaffarpur.

307. The estimated cost of the first work is Rs. 3,17,542. Out of this, Rs. 1,68,962 were expended during the year under notice. The work is well in hand and is well reported on by the Chief Engineer, Bengal, who inspected it in December last. For the purpose of this work the Municipal Commissioners of Patna have obtained from Government a loan of Rs. 3,18,000 bearing interest at  $4\frac{1}{2}$  per cent., and repayable by 60 half-yearly equal instalments of Rs. 9,710-5-3 each, commencing from April 1894.

Patna Drainage works.

308. The Arrah water-works, the estimated cost of which is Rs. 3,85,093, and the construction of which was started in the beginning of the year under report, were practically brought to a completion before the close of the year, the expenditure during the year being Rs. 2,76,687. The work provides for the supply of the Sone river water to the people of the town of Arrah. The head works are situated on the banks of the river Sone  $7\frac{1}{2}$  miles from the town. The zamindar of Surajpura, Raja Raj Rajeshwari Pershad Singh, contributed the handsome donation of Rs. 1,50,000, and Rai Jayprokash Lal Bahadur a sum of Rs. 25,000. The District Board of Shahabad and the Municipality of Arrah each contributed a lakh of rupees, and the remainder of the cost of the work, including a reserve fund of Rs. 10,000, was made up by local subscriptions. Messrs. Martin and Company of Calcutta undertook the contract and completed them quickly and satisfactorily under the supervision of the District Engineer, Arrah.

The Arrah Water-works.

The works, which were formally opened by His Honour the Lieutenant-Governor of Bengal on the 23rd April last, are now reported to be working well and supplying the town with a full supply of drinking-water.

309. The drainage works of the town of Muzaffarpur were commenced in the cold weather of the year under review and are now well in hand. Bunds have also been made where the river overflowed its banks last year, and sluices have been constructed to regulate the ingress and egress of the river water, and it is hoped that the work will be completed before the close of the present rains. The Government of Bengal have granted a loan of Rs. 60,000 to the Muzaffarpur Municipality for this work, and Rs. 30,000 have been raised by public subscriptions.

310. The question of supplying drinking-water to the people of the city of Gaya is now occupying the attention of the Municipal Commissioners, as is

also the question of the improvement of the drainage of the town. Surveyors have been appointed for the survey of the town and in connection with the question of water-works; an experimental brick well has been made in the bed of the river Phalgoo and is now being worked under the supervision of the District Engineer of Gaya. The experiments made so far are reported by the Inspector of Works to have given satisfactory results. This will form the subject of a separate report to Government.

311. The large bathing ghât at Ramrekha Ghât near the temple of Mahadeva at Buxar, noticed in the last Report, was completed during the year at a cost of Rs. 22,500. The Ramrekha Ghât Committee, alluded to in the last year's report, have also built a second bathing ghât there, below the temple of Rameshwar Nath, at an outlay of Rs. 15,000. The money for the first ghât was contributed by Babu Prabhunath Chaube of Sekrowl and his late father, and for the second, by the Ramrekha Ghât Committee, which was formed under the patronage of the late Maharaja of Dumraon.

312. A sum of Rs. 3,275 was spent by the District Board, Shahabad, in repairing wells on the road sides. The District Board of Muzaffarpur also incurred an expenditure of Rs. 2,759 in repairing, cleaning and improving 41 wells on the sides of various roads in the district. This is a very useful work, and the attention of all the District Boards has been specially invited to the matter.

313. There was no complaint made during the year as to the working of the canals in the Division.

314. The total length of the canals and distributaries completed and in operation in the Shahabad district at the close of the year under report was  $857\frac{3}{4}$  miles.

315. The following table compares the area irrigated and the financial working of the canals in Patna, Gaya and Shahabad during the last three years:—

DISTRICTS.	Area irrigated in acres.			Total demand, including arrears (exclusive of miscellaneous demand.)			Total collections.			Remission.			Balance.			Percentage of collection.	
	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.	1893-94.	1891-92.	1892-93.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Patna ...	44,851	32,609	36,898	1,46,185	1,02,434	96,290	1,51,651	74,774	76,322	5,380	10,680	312	29,154	18,336	19,606	81.4	72.3
Gaya ...	40,439	44,213	46,145	1,15,003	1,29,410	1,09,593	80,197	1,13,525	1,01,601	1,184	1,674	195	25,612	14,311	6,707	76.8	87.7
Shahabad ...	3,51,656	2,89,016	2,69,046	6,31,011	8,29,332	7,36,098	5,65,708	7,71,169	6,55,240	8,656	3,280	4,295	56,677	64,863	75,654	89.0	93.0
Total ...	4,45,745	6,67,038	3,51,089	9,33,210	10,62,176	9,40,951	8,00,556	9,39,472	8,34,262	15,220	14,914	4,832	1,11,443	87,790	1,01,857	86.4	90.3

The above figures show that the total area irrigated during the year under report in the above three districts, taken collectively, was less than that of the two previous years by 94,656 and 15,919 acres respectively. Taking the districts individually, however, the areas irrigated in Patna and Gaya were greater than those of 1892-93 by 3,989 and 932 acres respectively. The decrease of 20,870 acres in the Shahabad district, in comparison with the figures of 1892-93, is due to more favourable rainfall in the district during the year of report. The total demand of the year, including arrears and excluding miscellaneous demands, aggregated Rs. 9,40,951. Out of this, Rs. 8,34,262 were collected during the year, leaving an outstanding (deducting the amount of remissions) of Rs. 1,01,857. The average collection of the three districts taken together during the year amounted to 88.6 per cent., or 1.7 less than that of the previous year. There was, however, an improvement in Patna and Gaya, the percentages being 79.2 and 93.7 against 72.3 and 87.7 of the previous year. In Shahabad there was a falling off from 93 to 89 per cent. I regret to say that a number of defalcations among the collecting staff in the last-named district has recently been discovered by the present Deputy Collector in charge of the department.

316. The term of the lease with the proprietors of the Sadowa and Moniara Indigo concerns expired on the 31st March 1893. The proposal to renew the lease was then

abandoned, and the canals are now under the direct management of the Public Works Department, Bengal.

317. This is the only canal in the Champaran district, and 3,071 acres of land were irrigated by it during the year. It was not, however, used to its full extent in consequence of the plentiful rainfall.

Madhuban Canal.

318. The cost of repairs of the Teur weir, which was considerably damaged by the late flood, and of the maintenance of the Madhuban Canal, aggregated Rs. 7,312 in all.

319. *Gaya*.—The Sakri bund in the Gaya district gave no trouble during the year, and its maintenance charges were very small.

Embankments.

320. *Saran*.—The financial results of the administration of the Gundak embankment in the Saran district, which is maintained by Government at the expense of the proprietors of lands protected by it, are shown in the following statement:—

Arrear demand.	Current demand.	Total.	Collection during the year.	Balance.
1	2	3	4	5
Rs. 16,763	Rs. 23,900	Rs. 40,663	Rs. 26,665	Rs. 14,038

The collections of the year amounted to 65·5 per cent. of the demand, against 58·4 and 60·8 of the two preceding years. The result shows an improvement.

321. In the last year's Report, it was mentioned that the question of what should be done to the Gogra embankment in Saran was under the consideration of the Public Works Department.

The Resolution of Government on the subject has been issued, and, after a very careful consideration of the matter, it has been decided that if the landholders interested in the construction of the proposed embankment from Damri to Rawal (which is in effect restoring embankments already in existence) are of opinion that the embankment would, although affording protection against moderate floods only, be beneficial to them, there is no objection to their carrying it out at their own expense, under the supervision of Government Engineers. The embankment will not, however, be a Government embankment, but will be the property of the persons who construct it, and must be maintained by them.

322. *Champaran*.—The Gundak embankment in this district continues to be maintained under contract rates levied under section 63 of the Embankment Act. The expenditure incurred against this embankment during the current year aggregated Rs. 29,789. This includes Rs. 4,379, the cost of renewing a sluice at Gola Ghât.

The embankment stood the heavy floods during the year well, and proved itself very useful in keeping the river to its course. The total demand of the year on account of this embankment in Champaran amounted to Rs. 16,620, and the collections were Rs. 16,473. The outstanding balance at the close of the year was therefore only Rs. 147, which is very satisfactory.

323. In Muzaffarpur there are two lines of embankments, viz. the Gundak and Turki. The former is maintained under the contract, and the latter under the takavi system. The gross demand on account of both embankments was Rs. 27,770; of this Rs. 4,963 were, however, not realizable during the year. The net demand was therefore Rs. 22,807: out of this Rs. 13,871 were collected, leaving an outstanding balance of Rs. 8,936. The collections of the year showed an improvement over those of the two preceding years, being 60·8 per cent. against 54·9 and 53·1 of the years 1891-92 and 1892-93 respectively.

324. The construction of the weir in the Turki embankment, and the raising of the Tetareah road with the object of protecting a considerable

tract of country from the floods of the Bagmati river, were completed during the year under report, the cost being borne by the proprietors of the Kanti Indigo concern, at whose instance the work was undertaken. A retired line was also constructed during the year opposite the 17th mile of the Gundak embankment, to protect the main line from the encroachment of the river. The actual expenditure incurred in 1892-93 on account of the repairs of the Turki embankment aggregated Rs. 4,964. This has been apportioned among the persons benefited, and will be realized in the current year.

325. A short length of embankment on the Bya river near Mahua was maintained by the District Board, Muzaffarpur, at a cost of Rs. 36.

326. In Darbhanga, the Gundak and the Ganges embankments also continue to be maintained on the contract and takavi system respectively.

327. The subjoined table shows the cost of maintenance and recoveries made on account of such cost in respect of each system :—

EMBANKMENT.	Arrear demand.	Current demand.	Total.	Collection.	Balance.	Percentage of collection.
1	2	3	4	5	6	7
Gundak ...	Rs. 3,611	Rs. 2,119	Rs. 5,730	Rs. 2,269	Rs. 3,461	39·6
Ganges ...	1,703	5,479	7,182	4,013	3,169	55·8
Total ...	5,314	7,598	12,912	6,282	6,630	Average. 47·7

Of the outstanding balance nearly  $\frac{1}{3}$ rd is due from the Nurhan Estate. This will be paid at once, as the estate has come under the Court of Wards. Of the remainder, Rs. 1,400 represent items below 8 annas each, for the recovery of which the Collector reports no coercive steps will be taken for the present.

#### 24.—COMMUNICATIONS.

328. The state of communications in the Division was generally fair throughout the year, except in the three North Gangetic districts of Champaran, Muzaffarpur and Darbhanga, where the roads and bridges were seriously damaged by the unprecedentedly heavy floods, a description of which is given in paragraphs 520-526 of this Report.

In Champaran the flood in the Sikrahna river was so high that its spill reached the town of Motihari, and part of the Henry market and some other portions of the town were for some time under water. About 200 feet of the Segouli bridge, which is on the main road Segouli to Nepal, and for the construction of which the Government of Bengal paid in 1882 to the then District Road Cess Committee of Champaran the sum of Rs. 50,000, was washed away. In Muzaffarpur the heavy floods came from the Bagmati and the Little Gundak rivers. To the east of the district and north of the Railway embankment of the line from Muzaffarpur to Samastipur the flood was extremely high, communications were cut off in all directions, and the damages were considerable. Among these may be mentioned the damage done to the Victoria Bridge over the Bur-Gundak river at Akra ghât, the southern bank of which has been eroded, leaving a gap of some 200 feet between the bridge and the present bank. In the Darbhanga district the damage done was very great indeed. In the town of Darbhanga hundreds of houses collapsed, roads were breached, two or three bridges were washed away, and much property was destroyed. The whole of the north-east corner of the district was one vast sea, and hundreds of square miles were under water, especially the tracts in the north-west, the centre, and in the south-east of the district. Speaking generally, the flood swept from the north-west to the south-east corner of the district and carried everything before it. The District Board of Darbhanga have already incurred a heavy debt of Rs. 1,80,000 from Government on account of the famine of 1891-92, and they

have now again to meet the cost of making good the damage done by the floods, which has been estimated by the District Engineer to be Rs. 3,02,969, as follows:

	Rs.
(1) Damage to metalled portions of roads ... ..	21,825
(2) Gap filling ... ..	46,705
(3) Protective works ... ..	7,343
(4) Repairs to damaged culverts and bridges ... ..	41,132
(5) Cost of replacing culverts and bridges washed away ... ..	84,982
(6) Raising surface of roads ... ..	1,00,982
Total ... ..	3,02,969

329. The Inspector of Works in the Division visited the damaged road and recommended the immediate filling up of all the breaches as affording useful work to the inhabitants in the parts of the country where it was most needed. This has since been done, the amount spent in this way before the close of the financial year being Rs. 34,098. The damaged iron bridge at Bihool on the Pipraghât-Narya road was also made good, and two old large timber-topped bridges on the Darbhanga-Sakri road were repaired and arched over at a cost of Rs. 12,538 and Rs. 21,004 respectively. A sum of Rs. 4,816 was also expended in repairing the damage done to some of the smaller.

330. Mr. Williams has made the following remarks on the state of communications in the district:—"With the limited funds at its disposal, the District Board has, I think, done well on the whole, but the floods of the past year have done incalculable damage, which will not be got over for some years to come, and following on the expenditure on relief works in previous years, have reduced the Board to almost a state of bankruptcy. Roads were breached and bridges carried away all over the district."

331. The total outlay in the whole Division on original and repair works on district communications during the year aggregated to Rs. 5,67,327 and Rs. 5,45,383 respectively.

332. The following is a brief summary of the works undertaken during the year by the several District Boards in the Division:—

333. *Patna*.—The girder bridge over the Poon-poon river on the Fatua-Hilsa road, which had been under construction from 1891-92, was very nearly completed during the year and is now ready to be opened for traffic. The expenditure on it during the year amounted to Rs. 37,822. The raising and metalling\* of the Fatua-Hilsa road, alluded to in the last Report, was continued, and Rs. 9,643 were expended on it. Several minor original works were also undertaken in the district during the year. Among these may be mentioned the bridges of the two branches of the Punchana river on the 16th and 18th miles of the Bakhtiarpur-Bihar road, raising and metalling of the Bihar-Sabri and Barh-Saksora roads, the construction of a bridge on the Barh-Surnayra road, the metalling of the 1st and 2nd miles of the Bihar-Ekanger Sarai road, and the construction of a causeway across the Punchana river.

334. *Gaya*.—The expenditure on original works in this district during the year under report was the heaviest in the Division, being Rs. 1,52,175 as against Rs. 83,495 spent in the previous year. The works undertaken during the year were as follow:—Three large iron girder bridges over the Daru, Moharia and Morhur rivers on the Jahanabad-Arwal road were nearly finished, and the iron work costing Rs. 11,277 was purchased for another bridge on the same road over the Ghanghar Nala. The minor culverts on this road were also nearly finished at a cost of over a quarter of a lakh, of which Rs. 5,835 were expended during the year. The raising of and the construction of minor culverts on the Gaya-Shenganj road were nearly finished, and the old wooden platform over the Jamuna Nala spill bridge on the Daudnagar road was removed and replaced by a metalled roadway over rolled iron joists and jack arches. The raising of the railway feeder road from Hulasganj to Jahanabad was proceeded with, and the girder bridge over the Sabhi Nala on the Gaya-Sherghati road was nearly completed. The 10th and 11th miles of the Gaya-Sherghati road were also metalled during the year at a cost of Rs. 4,805. The raising of the Nawada-Pakribarawan road was nearly completed, and the construction of minor culverts was begun, Rs. 3,162 being spent on them during the year.

The raising of the Aurangabad-Maharajganj road leading to Daltonganj was also nearly completed during the year at an expenditure of Rs. 12,181, and the construction of minor culverts was taken in hand.

335. *Shahabad*.—The expenditure on original works in this district during the year was Rs. 61,011, the works undertaken being the improvements of the Koilwar-Arrah road, the metalling of the first four miles of the Sasaram-Arrah road, the raising and bridging of the Gujrajanj-Bihia road, and the raising and metalling of the Koilwar-Baharia road. The metalling of the Sinha-Bihia road was completed for Rs. 3,780, and the diversion of the 11th mile of the Jahanabad-Kurmanassa road finished at a cost of Rs. 986. The raising, bridging and metalling of the Nasriganj-Tendon road, and the raising and metalling of the Peero-Jagdispur road, which had been in hand from the previous years, were also completed during the year under review at a cost of Rs. 5,745 and Rs. 23,606 respectively. There are 13 principal trade routes in this district, aggregating 411 miles in length, and they are reported to have all been well maintained.

336. *Saran*.—The improvement of the road through the Chainpur bazar on the Siwan-Siswan road, and that of the Chapra-Sutterghat road, were completed during the year under report at an expenditure of Rs. 1,001 and Rs. 3,001 respectively. The cart likhs of the Siwan-Sullempur road were raised from 1st to the 11th mile, and the construction of six culverts was taken in hand. A bridge of three spans of 25 feet each was commenced on the Siwan and Nagwa road, and 26 minor culverts were built on the various roads in the district at a cost of Rs. 4,461. The 20th mile of the Andar-Basantpur road was widened, and the Doriganj Bazar road metalled. One Inspection bungalow was built at Gopalganj at a cost of Rs. 1,176, and another purchased at Siwan for Rs. 2,000 from the Bengal and North-Western Railway. The construction of two more Inspection bungalows, viz., one at Sonepur and the other at Myrwa, was also taken in hand during the year.

337. *Champaran*.—The damage done by the floods was made good, and portions of roads were raised where found necessary. Fifty-four new culverts were constructed on the various roads in the district, and two causeways—one 850 feet long on the Motihari-Katkenwa road, and the other 700 feet on the 5th mile of the Etwaghat-Dhaka road, were completed during the year. Eight hundred and twenty-six miles of roads were maintained and 10 bridges and 26 culverts repaired. The total expenditure during the year under the head Communications in the district being Rs. 37,322.

338. *Muzaffarpur*.—Eight masonry bridges and culverts affording 345 lineal feet of waterway were constructed on the Sursand road at a cost of Rs. 19,848, and two bridges, one of 14 spans and the other of 9 spans of 15 feet each, were taken in hand on the Shewhur road and Rs. 28,205 were expended on them. The Serai road, which is a feeder road to the Serai station on the Tirhut State Railway, was provided with 60 running feet of arched waterway at a cost of Rs. 4,093, and a feeder road to the Kurhani station of the above railway completed for Rs. 2,245. Twelve bridges and culverts with a total waterway of 148 running feet were also built on the Gopinathpur road, and the materials collected for the rest. The level-crossings on the Rewaghat, Dulsing Sarai, Hajipur and Atharghat roads and the sandy portions of the Karlahiaghat, Pusa, Deoria, Sahibganj, Sita marhi and Bhagwanpur roads, were metalled at a cost of Rs. 11,544, and 28 timber platform bridges and culverts were arched over at an outlay of Rs. 14,299. Forty-six minor culverts, affording 150 running feet of waterway, were also constructed during the year on the various roads in the district at a cost of Rs. 9,510. The District Board also spent Rs. 13,268 in repairing the damage done to the roads by the late floods.

339. *Darbhanga*.—No important new work could be undertaken in this district during the year under report for want of funds, all available money having been spent on the repairs of roads and bridges damaged by the floods. Fifteen culverts were, however, completed during the year at a cost of Rs. 5,716 on the several roads in the district, and Rs. 1,662 were paid for compensation of land taken up for roads constructed during the famine of 1888-89. A sum of Rs. 62 was also expended on marking the flood level of the year throughout the district. There are over 1,100 miles of roads in this district, of which 540

miles were repaired during the year under notice through the agency of Indigo-planters, and the remaining 560 miles by contractors, the total expenditure incurred by the District Board of Darbhanga on this account being Rs. 1,20,054 in all. This amount includes Rs. 14,955 which were expended during the year in dressing and maintaining the famine roads and tanks constructed in 1891-92.

#### PROVINCIAL ROADS.

340. The Government road from Dinapore to Khagole, a length of  $3\frac{1}{2}$  miles, was maintained in an efficient state by the District Board of Patna at a cost of Rs. 5,153 against the Government grant of Rs. 5,000, the difference of Rs. 153 being met partly from the unexpended balance of the previous year and partly from the grant of the current year.

The portion of the Grand Trunk Road in the Gaya district from Bhalua Chuttee to Barun was maintained during the year by the District Board of Gaya at a cost of Rs. 22,477 against the sanctioned estimate of Rs. 21,616, with the exception of about two miles near Bhalua Chuttee which are required to be remetalled; the road is reported by the Inspector of Works to be in first-rate order. The Raniganj Inspection bungalow, which was partly destroyed by a violent storm, has been rebuilt, and a new stable and out-offices provided. From the beginning of the current year this section of the road has again been taken over from the District Board of Gaya by the Bengal Public Works Department.

341. *Village roads.*—There were 5,570 miles of village roads maintained by the several District Boards in the Division at a total cost of Rs. 85,146. This includes Rs. 5,257 which were spent by the District Board of Gaya from the Government grant for the benefit of Government estates. Some of the village roads in the Gaya district have been raised and bridged sufficiently to allow wheel traffic to pass over them throughout the dry season. The village roads in the Shahabad district have not, however, the Collector reports, been properly maintained for want of funds. Of the 1,680 miles of these roads in the Saran district, 1,031 miles were repaired through the agency of the Indigo-planters and 446 miles by contractors. The remaining 203 miles did not require any repairs.

342. The average cost of maintenance of the village roads in the Patna district has been as high as Rs. 30 nearly per mile. The attention of the District Board has been called to this matter, and the average rate for these roads for the future has been limited throughout the Division to Rs. 10 per mile.

343. *Arboriculture.*—In the Patna district Rs. 720 were expended under this head. In Gaya Rs. 2,971 were spent. Of this Rs. 941 represents the cost of iron gabions, the introduction of which has proved successful. They are rather expensive at first, but they give excellent results and have the further advantage of being removeable for use elsewhere when the trees grow up and need no further protection. In Shahabad no new avenues of trees were undertaken during the year. In Saran the District Board spent Rs. 1,346 on account of the maintenance of the plants of the previous years. With a view to introduce an efficient and yet economical means of tree plantation in the district, the District Board are now attempting to induce the proprietors and cultivators of roadside lands to take up the work at their own expense on condition that they are entitled to the fruit and half the actual sale-proceeds of the trees when cut down. In Champaran 21,800 tar trees were planted to demarcate the boundaries of the different roads in the district, and the trees planted in former years protected. In Muzaffarpur there was no work done under the head during the year, and from Darbhanga no information has been received on the subject.

344. *Test relief works.*—In the beginning of February 1894 test relief works were opened on the roads noted on the margin in the Darbhanga district, owing to the occurrence of the heavy flood there as noticed before.

The rate offered was Re. 1-4 per thousand cubic feet of earthwork, and the work consisting of the widening of the crest of the roads.

At first 700 or 800 persons came to these works, but the number soon dwindled down and the works were closed as relief works.

Statement showing the lengths of metalled and unmetalled roads maintained by the District and Local Boards and the Municipalities in the Division during the year 1893-94:—

25.—WORKING OF THE LODGING-HOUSE ACT.

345. The Lodging-house Act is in force only in Gaya. The receipts for the year, including an opening balance of Rs. 694, amounted to Rs. 10,831 against Rs. 9,740 in the preceding year, which included an opening balance of Rs. 1,739. The expenditure amounted to Rs. 8,609 against Rs. 9,046, leaving a balance of Rs. 2,222. Rupees 3,000 was contributed to the Pilgrim Hospital, Rs. 1,231 to the Cholera Hospital, and Rs. 1,900 was spent on general sanitation. The increase in income is reported to be due to the unusual influx of pilgrims owing to good harvests.

346. The number of licenses taken out for accommodation of 13,212 pilgrims was 421 against 406 in the previous year for 10,242 pilgrims. It was found that keepers of lodging-houses paid fees for a smaller number of pilgrims than they actually accommodated. To remedy this, licenses have now to be taken out for the full number which a house is capable of holding.

347. There were 23 prosecutions against 32 in 1892-93, the falling off being a consequence of the arrangement just referred to. The fines amounted to Rs. 114 against 164 in 1892-93.

348. The lodging-houses were duly inspected by the Overseer, and most of them by the Health Officer himself, and were found in good order.

349. The figures below show the deaths during the last three years in the lodging-houses:—

DEATHS.		1891-92.	1892-93.	1893-94.
1		2	3	4
Total deaths	...	163	248	282
From cholera	...	50	115	82
„ fever	...	} 113 {	110	169
Other causes	...		23	31

There was a falling off in cases of cholera, which so far is satisfactory, considering the considerable increase in the number of pilgrims; but there was a marked excess in the number of deaths from fever. The number of cases of cholera treated in the Cholera Hospital maintained by the Fund was 107 against 113 in the preceding year. Of these, 88 were pilgrims and the rest townspeople. The deaths from cholera among the pilgrim patients reached the high figure of 74, while only 6 of the 19 townspeople died. Most of the pilgrims, however, are received in a moribund condition, having been exhausted by long journeys, fasting, and other hardships.

350. This Act is in force in all the districts of this Division. Good use Sarais and Puraos Act XXII of 1867. was made of the provisions of the Act in most of the districts, especially in Patna, Shahabad, Saran and Muzaffarpur. In the last district six persons who were “wanted” by the police were, by means of working section 8, arrested in the Dharmasala sarai.

#### 26.—EDUCATION.

351. Statement XXX appended to this report shows the different classes of public educational institutions in this Division, their income from various sources, and the number and cost per head of the pupils.

352. The total number of schools in the Division rose during the year from 6,025 to 6,265, and the pupils from 151,293 to 160,529, showing an increase of 240 schools and 9,236 pupils. The increase of pupils occurred principally in primary schools; middle schools show a decrease of four, but the number of pupils increased by 145.

353. In *Patna* there was a decrease of 71 schools and 675 pupils. The decrease occurred in primary and special schools. The loss in the former is said to be due to the disappearance of undeserving and weak institutions that failed to earn any remuneration, and in the latter to the abolition of guru training classes formerly held by the Inspecting Pandits.

354. In *Gaya* the number of schools fell from 955 to 944, but the number of pupils rose from 22,397 to 22,932. The decrease was practically confined to lower primary schools, and it was more than compensated for by an increase from 403 to 462 in the number of indigenous schools which are excluded from the returns. The schools struck off the list of public institutions fell to the status of indigenous ones, in consequence of failure to earn rewards under the restrictions imposed in the preceding year as to the age of the examinees and the minimum amount of reward required to be earned, viz. Rs. 4. The increase in attendance, which nevertheless occurred, shows that there has been a real advance in education, and that it is only the most useless schools that have

dropped out. The number of special schools has increased from two to four owing to the re-opening of the Islamia Madrasa at Gaya and the inclusion of the Kako unaided madrasa. The other two schools are a petty madrasa at Tikari and a Sanskrit tol at Aurangabad.

355. In *Shahabad* there has been a gain of 78 schools and 1,950 pupils during the last year as compared with the preceding year. The gain has been highest in the lower primary schools. The cause of the increase is explained to be due to the fact that a large number of indigenous schools have conformed to the departmental standards. Special schools have increased by three with 38 pupils attending them, the reason being (1) that a technical school at Dumraon has been opened at the expense of the Maharaja of Dumraon during the year under report, (2) that two high class Sanskrit schools (one at Buxar and the other at Arrah) which were returned with the upper primary schools last year have this year been returned under the proper heading "Special Schools." There is a special school at Buxar, where railway coolies are taught the railway rules, reading and writing the Hindi and Nagri characters, and elementary arithmetic.

The state of primary education in this district is backward, and the number of schools, especially in the south of the district, is deficient. There is not a single school on the whole of the Rhotas plateau. The Magistrate says that, when he was on tour there last cold weather, he was asked in several places to establish a school, and the absence of any means of education among these people cannot be attributed to want of unwillingness on their part to accept it. Measures have been taken to establish some pathshalas there. The Magistrate is also of opinion that the middle vernacular schools maintained by the District Board serve no useful purpose. He will shortly put proposals before the Board to contribute only grants in aid of people who come forward with funds to maintain a secondary school, and to open more pathshalas with the money saved.

356. In *Saran* the number of schools rose from 747 to 843, and the pupils from 20,775 to 23,139. The increase was in the lower primary schools. The Chapra Zilla School is self-supporting, the income from fees and fines being more than sufficient to cover the expenditure.

357. In *Champaran* the increase in the number of schools and pupils is due to the increase in the number of lower primary schools and the pupils attending them.

From the Motihari Dharma Sabha School one candidate appeared at the Title Examination at the Madhyam, and eight at the Pratham Pariksha of the Bihar Sanskrit Sanjivan. The results have not yet been published.

358. In *Muzaffarpur* there were 841 schools with 19,872 pupils on the 31st March 1894, against 814 schools with 18,045 pupils in the preceding year. The increase was chiefly in the lower primary schools.

The Hajipur Municipality has stopped its grant to the high English school, but has raised its aid to primary education.

359. In *Darbhanga* the number of schools rose from 734 to 828, and the pupils from 20,015 to 22,431. The increase is chiefly noticeable in the lower primary schools. There is one special school in the district, i.e., the Madhubani Sanskrit school, aided by the Department. It prepares boys for Title Examination of Calcutta and for Bihar Sanskrit Sanjivan examinations. In the year 1893-94, six boys were sent up to the Title, Madhyam, and Pratham Parikshas against four of the previous year, who all passed.

In regard to education in general, Mr. Williams, the late Magistrate, says:—"Education during the year has done fairly well, but there is much room for improvement. The municipalities encourage primary education, and would like to spend more money on secondary. The District Board grudges money to education."

360. The system of payment by results prevails throughout the Division, and an uniform system of lower primary examination for the whole of Bihar, with a uniform set of printed questions, was for the first time adopted in 1893.

361. The percentage of pupils at school has slightly increased in all districts except Patna, which, however, still stands first, the percentage being more than twice that in Gaya, which stands second.

362. The cost per head of pupils ranged from Rs. 25-10-2 in Champaran to Rs. 16-1-8 in Gaya for English schools; from Rs. 12-15-6 in Darbhanga to Rs. 8-7-9 in Shahabad and Saran for middle schools; and from Rs. 2-14-7 in Gaya to Rs. 1-15-9 in Saran for primary schools. In special schools the percentages varied from Rs. 44-0-11 in Champaran to Rs. 6-14-4 in Saran. In Patna the rate for special schools is Rs. 42-10-2 and in Darbhanga Rs. 30-13-10.

363. The following table gives the number of female schools, and the pupils attending them in the several districts of the Division:—

DISTRICT.	1892-93.		1893-94.	
	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5
Patna ...	115	1,799	102	1,643
Gaya ...	14	374	12	311
Shahabad ...	9	246	10	296
Saran ...	84	1,345	97	1,495
Champaran ...	2	76	2	77
Muzaffarpur ...	9	206	10	247
Darbhanga ...	20	315	27	414
Total ...	253	4,361	260	4,483

The number of girls at school decreased in Patna and Gaya, but it increased in all other districts. There are also girls reading in boys' schools. On the whole, female education has made satisfactory progress during the year under report.

364. One girl from the Bettiah sub-division appeared at the last Lower Primary Scholarship Examination, and passed in the first Division. It was proposed to award her a lower primary scholarship, but as there is not an upper primary or middle school within an easy reach from her village where she could continue to study, the scholarship was not awarded to her. During the preceding year also one girl appeared at the Lower Primary Scholarship Examination in Champaran, and passed in the First Division.

365. The percentage of Muhammadan pupils to the total number is shown in the following table for the last two years:—

District.	1892-93.	1893-94.
Patna ...	16·8	17·2
Gaya ...	15·4	16·2
Shahabad ...	20·9	18·6
Saran ...	13·3	13·6
Champaran ...	17·2	15·9
Muzaffarpur ...	15·7	16·0
Darbhanga ...	16·4	18·8

There was an advance in all the districts except Shahabad and Champaran.

366. For the education of *Tharus*, an aboriginal race on the northern frontier of Champaran, there were 30 pathsalas against 29 in the preceding year. The number of pupils attending these schools was 297 against 293 in the previous year. Of these 30 pathsalas, one was stipendiary and two paid by rewards; the rest were maintained by the *Tharus* themselves. Ten *Tharu* boys appeared at the last Lower Primary Scholarship Examination, of whom two passed.

367. There is also a stipendiary school at Chautarwa in the Bettiah sub-division for the education of the children of *Maghaya Domes*, and the number of Dome boys in the school on 31st of March 1894 was 11 against 7 on 31st of March 1893. The District Board paid Rs. 36 to the gurus of this pathsala.

368. Besides the above institutions there were 3,497 private institutions and 30,928 pupils attending them, as noted below:—

DISTRICT.	Number of private institutions.	Number of pupils.
1	2	3
Patna ...	594	4,807
Gaya ...	462	4,297
Shahabad ...	348	3,181
Saran ...	344	3,212
Champaran ...	308	4,313
Muzaffarpur ...	846	6,031
Darbhanga ...	595	5,087
Total ...	3,497	30,928

These are all indigenous *pathsalas* and *maktabs*, which do not conform to the rules of the Department, which submit no returns, and in which the teaching is very elementary.

369. There has been a decrease in the number of special schools from 40 to 30, owing to the abolition in Patna of guru training classes formerly held by Inspecting Pandits and included in this category.

370. Besides the special schools already specified, there are other *toles* and *madrasas*. There is also a technical school at Dumraon, but the Magistrate has received no report in regard to its working.

371. In the Bihar Industrial School, opened in November 1892, there were 47 boys during the year 1893-94. Of these, 23 were in the Apprentice Department and 24 in the Artizan Department.

Of the 23 boys in the Apprentice Department, 8 got stipends at Rs. 7 per month and 14 at Rs. 5 per month. The remaining one did not get any stipend, but received instruction free of charge. The amount of stipends paid in this Department was wholly contributed by the District and Municipal Boards in the Bihar Circle.

In the Artizan Department all the 24 boys got stipends at Rs. 3 each. In this Department 22 stipends were paid from the Prince of Wales' Reception Fund, and one from the proceeds of Rs. 1,000 deposited by Maulvi Syed Sakhawat Hossein for the purpose of a scholarship in the name of the late Kazi Roza Hossein, Khan Bahadur. The remaining one was paid out of Rs. 108 which was contributed for the purpose by Khan Bahadur Bahadur Ali Khan of Barh.

372. The total expenditure incurred during the year was as follows:—

Serial number.	Items of Expenditure.	Amount.
1	2	3
1	Construction of workshop	Rs. 1,616 12 9
2	Establishment ...	2,338 8 7
3	Stipends ...	738 4 8
4	Tools and plant ...	4,991 0 3
5	Contingencies ...	341 3 3
	Total ...	10,025 13 6

373. During the year the school was visited by His Honour the Lieutenant-Governor, by His Honour the Officiating Lieutenant-Governor, and by the Director of Public Instruction. It was also several times inspected by the Principal of the Sibpur College, to whom the Committee are indebted for advice and assistance always readily rendered.

27.—DISPENSARIES AND HOSPITALS.

374. In appendix XXXI will be found the principal statistics connected with the working of dispensaries and hospitals in the several districts of this Division during the year 1893. The subjoined abstract shows the number of dispensaries and hospitals in each district, their income and the average number of patients treated:—

DISTRICT.	Number of dispensaries.	INCOME FROM—					DAILY AVERAGE PATIENTS.		Ratio per cent. of out-door patients to total population.
		Government.	District Board.	Municipality.	Subscription.	Total.	In-patients.	Out-patients.	
1	2	3	4	5	6	7	8	9	10
		Rs.	Rs.	Rs.	Rs.	Rs.

Gaya ...	7	815	9,895	1,757	5,235	17,792	13·15	71·26	1·9
Shahabad ...	8	2,332	1,869	5,773	8,424	18,398	10·15	102·56	3·9
Saran ...	10	1,188	3,878	8,995	9,694	23,755	18·48	99·55	5·2
Champanan ...	5	1,528	800	3,601	4,472	10,401	21·29	41·39	3·3
Muzaffarpur...	4	99	300	5,774	3,406	9,579	12·53	76·70	1·8
Darbhanga ...	7	654	450	4,113	16,140	21,357	11·33	87·22	4·01
Total ...	52	7,290	22,500	51,485	48,535	1,29,810	119·96	553·43	3·5

375. In the table attached to paragraph 344 of my Report for 1892-93, the number of dispensaries in Shahabad was erroneously shown to be 10 instead of 8, and the total number for the Division should have been 50, not 52. During the year under review, as the table shows, there were 52 dispensaries. The increase of two dispensaries is due to the inclusion in the returns for the first time of the two Dufferin Female Hospitals at Bettiah and Darbhanga.

376. In Gaya and Muzaffarpur the income of the dispensaries was smaller than in 1892. In both places the voluntary subscriptions fell off. In all the other districts there was an increase. The receipts for all dispensaries in this Division amounted to Rs. 1,29,810, against Rs. 1,21,933 in the preceding year.

377. The total number of in and of out-patients treated in each district during the past two years are shown below:—

DISTRICT.	TOTAL NUMBER TREATED.					
	In-patients.		Out-patients.		Total.	
	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7
Patna ...	2,867	3,254	71,700	90,254	74,567	93,508
Gaya ...	1,671	1,843	34,047	40,810	35,718	42,653
Shahabad ...	1,184	1,411	67,431	81,704	68,615	83,115
Saran ...	952	995	122,560	129,263	123,512	130,258
Champanan ...	1,041	1,327	56,216	62,981	57,257	64,308
Muzaffarpur ...	1,049	962	45,359	49,193	46,408	50,155
Darbhanga ...	1,072	1,332	86,938	112,542	88,010	113,874
Total ...	9,836	11,124	484,251	566,747	494,087	577,871

The total number of patients treated in all the 52 dispensaries during the year was 577,871, against 494,087 in the previous year, showing a large increase of 83,784. The increase occurred in all the districts, but was most marked in Darbhanga. Among out-patients there was a large increase from 484,251 in 1892 to 566,747 in the year of report. In Patna the increase is said to be due to the fact that the six dispensaries maintained by the District Board worked throughout the whole of the past year, while in the year preceding they had worked only for a part, having been started about the middle of the year. In Gaya the increase is, in view of the greater healthiness of the year as compared with 1892, attributed to the growing popularity of these institutions, and in some cases the Magistrate says it is due to the transfer elsewhere of certain unsatisfactory hospital assistants who had been for too long in one place. The Magistrate of Shahabad claims the increase as an indication that the European mode of treatment is gradually inspiring confidence among the people, and I am much inclined to think that this may really be accepted as the reason in all the districts generally.

378. *Patna*.—Similarly, there was an increase everywhere in the number of in-patients except in Muzaffarpur, where there was a falling off of 87. The dispensary at Bihar (in Patna) has been transferred from the Nawratna outside of the town to the Bayley Sarai in the centre of the town, and is now located in a wing of that building. The accommodation there is ample, and the change is a great improvement. The Patna District Board has agreed during the year to contribute Rs. 900 per annum to the Bankipore Hospital, and Rs. 200 to the Bihar dispensary. The question of contribution to the Barh dispensary is under consideration. The Mokameh dispensary is maintained by the East Indian Railway Company for the use of the Railway servants and for passengers taken ill or injured by accidents whilst travelling on the line.

379. *Gaya*.—The Gaya Hospital has attained a special reputation within recent years, and patients from other districts continue to come there for treatment. The female ward of the Hospital continued under the charge of Miss Perry, the lady doctor maintained by the Gaya branch of the Lady Dufferin Fund. Mr. Macpherson reports that Miss Perry has been doing very good work under the general supervision of the Civil Surgeon, as is evidenced by an increase in the number of in and out-patients. Her work in the zannas has also increased in a gratifying manner, and it is evident that her services are beginning to be appreciated by the people. The Gaya branch of the Dufferin Fund is in a flourishing condition, and has a balance to its credit of Rs. 72,047, which will now be utilized in building the Zannas Hospital with cottage wards adjoining it; for this purpose a fresh site has been acquired and presented by the District Board, and building operations have begun.

380. *Shahabad*.—In Shahabad the Dumraon dispensary is reported to have done excellent work during the year. For the popularity which it has gained, the Assistant Surgeon, Babu Bepin Behari Gupta, deserves much credit. A number of successful operations for cataract are said to have been performed at Dumraon and also at Jagdispur.

A trained midwife was employed at Arrah and another at Sasaram by the District Board. During the year Babu Raghoo Nandan Pershad Singh of Mohania contributed Rs. 200 towards the fund for the repairs of the dispensary building at Bhabua.

381. *Saran*.—There are ten dispensaries in Saran, of which three are supported by the Maharaja of Hatwa. The principal diseases treated were fever, skin diseases, goitre, worms and spleen.

The Magistrate appends to his report a statement showing the number of fever cases in the Chapra Hospital during the last 23 years, from which it appears that the general health has been gradually deteriorating, the deterioration being most marked during the past five years.

The dispensaries maintained by the District Board in the interior of the district have been of much benefit to the people and are very useful institutions. The Magistrate remarks that "there is no direction in which the operation of the District Board is better appreciated by the general public than this."

382. *Champaran*.—The Dufferin Hospital at Bettiah is supported by the Bettiah Raj. It is very much appreciated by the people and was largely attended during the past year, the first of its existence. The Lady Doctor, Miss Jane Marsh, who is in medical charge, is reported to be indefatigable in her attention to her duties, and her skill and knowledge are shown by the demand for her services beyond the limits of the institution. Four other dispensaries at Kosaria, Dhaka, Balthar and Ramgharwa are being built at the cost of the Raj and will be opened during the current year.

383. *Muzaffarpur*.—Besides the four dispensaries under Government supervision in the district of Muzaffarpur, there are two other private dispensaries, viz., one at Nanpur and the other at Parihai, maintained by the Chaudhri of Nanpur and the Maharaja of Darbhanga respectively. A new building for the Muzaffarpur Dispensary is a great desideratum; but Mr. Hare reports that there will be much difficulty in raising the necessary funds, as considerable subscriptions have recently been given to the drainage scheme now in progress. I still hope, however, to see the proposal sooner or later carried out. There is a large and excellent site ready for the purpose in some public gardens belonging to the Municipality, which are at present of no practical use to any one. There is ample room there for both a public and a Dufferin Hospital, and in a wealthy district like Muzaffarpur there should be no great difficulty in raising the necessary funds for both institutions.

384. *Darbhangha*.—Besides the seven dispensaries shown in the appendix in the district of Darbhanga, there are five others in the interior supported by the Maharaja. The control of these useful institutions has lately been vested in the Civil Surgeon. The building for the dispensary at Samastipur was completed during the year and will shortly be opened. The proposal to close the Tajpur dispensary has been abandoned, a subscription having been raised for its maintenance. The Dufferin Hospital at Darbhanga, under the management of Dr. Amy Ramsbotham, continues to do much useful work.

385. Dr. Miss Grace Mackinnon and her Assistant Miss Gregory have continued their medical labours in the Patna City mentioned in paragraph 356 of the last year's Report with unabated diligence and success. I regret, however, to say that Miss Mackinnon has lately broken down from overwork and has been obliged to take leave, for a time, to recruit her strength. A very pleasant incident in the visit of the Officiating Lieutenant-Governor Sir A. P. MacDonnell to Patna was the laying of the foundation stone by His Honour of Miss Mackinnon's future Zanana Hospital on the 29th July. The ceremony was attended by a large audience of Europeans and natives, who thoroughly appreciated His Honour's excellent and sympathetic speech.

#### 28.—LIBRARIES.

386. The Bar Library at Bankipore had 66 members last year against 65 in 1892-93. The reserve fund is, as reported last year, Rs. 1,000 in Promissory Notes. The cash balance on 31st March 1894 was Rs. 974 against Rs. 718 on 31st March 1893. About a dozen books were received during the year, besides law reports and periodicals. The Oriental Library received several Arabic and Persian as well as English books from the Secretary, Maulvi Khoda Baksh Khan Bahadur. The proposed garden has not yet been planted, but the land has been cleared, and the compound wall partly built. The library possesses many works of great interest to the scholar and antiquarian. It was twice visited during the course of the year by His Honour the Lieutenant-Governor, viz., in July by Sir A. P. MacDonnell, and in February by Sir Charles Elliott.

387. The Gaya Public Library continues to be an useful and flourishing institution. Besides the European residents a number of native gentlemen are members. The institution has a funded capital of Rs. 12,000, which yielded an income of Rs. 335 during the year. One hundred and forty-one books were purchased during the year against 124 in 1892-93. There are now 1,891 books in this library.

388. The Bar Library at Arrah is well reported of. The Bar Club consists of 25 pleaders against 20 of the preceding year. A few books were added during the year.

To the Endowment Madrasa Library of Sasaram, Urdu books of the value of Rs. 117 have been added.

389. The Public Library at Chapra is still not suitably housed. The number of subscribers is only 24, and subscriptions are not, it seems, paid as regularly as they might be. The receipts were Rs. 848 against Rs. 1,715 in 1892-93, when a considerable sum was collected on account of arrear subscriptions. The expenditure was Rs. 780, leaving a balance of Rs. 68. The Government securities for Rs. 2,000 belonging to the library have been sold for Rs. 2,157, in order to carry out certain improvements.

390. There is no Public Library in Champaran, Muzaffarpur or Darbhanga.

391. The district and sub-divisional libraries are reported to be in good order.

#### 29.—MUSEUMS.

392. The only museum in this Division is the Economic Museum at Bhojpur, established in the beginning of 1889 by the Maharaja of Dumraon. It contains, as reported last year, specimens of seeds, dyes, spices, fibres and models of English and Native implements of agriculture. During the year old models were replaced by new ones and the building was thoroughly repaired.

393. A small collection of local artware and manufacture is deposited in the Public Library of Gaya, but the collection is a poor one, and no addition was made to it during the year under report.

394. A small building has been constructed by the Public Works Department in the vicinity of Mahabodhi Temple at Bodh Gaya for reception of Buddhist objects of interest. The Collector hopes to take the arrangement of these remains personally in hand, but has not yet had time to do so.

#### 30.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

##### *Municipalities.*

395. *Patna.*—The most important municipality in this Division is the Patna Municipality. The Municipal Board consists of 30 members, 20 of whom are elected by the rate-payers and 10 appointed by Government. The number of meetings held during the year was 14, of which 12 were general and 2 special. The average attendance of members at each meeting was 10·3.

396. A general election was held during the year under review, at which considerable activity in canvassing was shown by some of the candidates. The election of the Vice-Chairman took place in May last, after the close of the year, the former Vice-Chairman, the Hon'ble Syed Fazl Imam, being re-elected. The District Magistrate is the Chairman.

397. In the year under review the receipts from taxation amounted to Rs. 1,24,104 against Rs. 1,24,221 in the previous year. Though there was considerable increase in the receipts from the wheel and latrine taxes, the receipts on account of house tax were smaller than the preceding year, partly on account of a dispute with the Railway Company regarding the assessment of the Railway premises, and partly because the taxes on certain Government buildings, though paid on the 31st March, were not credited until the next day.

398. There is considerable room for improvement in the municipal assessments, and I am glad to say that the Commissioners, listening to advice, appointed a paid assessor during the year.

399. The income of the municipality from all sources amounted to Rs. 1,60,085 (excluding the loan received from the Government for the drainage scheme) against Rs. 1,44,123 of the preceding year, showing an increase of Rs. 15,962. The total expenditure, exclusive of that on the drainage scheme, was Rs. 1,47,951 against Rs. 1,35,725 in the preceding year. The expenditure on drainage was Rs. 1,59,063 against 775 only in 1892-93.

400. The total estimated outlay for the drainage scheme is Rs. 3,17,542, of which the Government has advanced Rs. 1,58,000. The work is well in hand.

401. The well-privies with which Patna abounds are gradually being closed by the municipality.

402. The other municipalities in Patna are Bihar, Barh and Dinapore. The last, as noticed elsewhere, is by far the healthiest of the three.

403. *Gaya*.—In this district there are three municipalities—Gaya, Tikari and Daudnagar. The Magistrate of the District and Assistant Engineer of the Irrigation Department are respectively Chairmen of the first and third, and Babu Deeki Nandan, a pleader, is Chairman of the second. A general election of the Gaya Municipality took place in December last and evoked a good deal of local party feeling.

404. The following figures give the number of meetings held and the average attendance:—

NAME OF MUNI- CIPALITY.	Number of members, including Chairman.	Number of meetings.	Percentage of attendance.
1	2	3	4
Gaya ...	25	12	40·3
Tikari ...	12	22	51·1
Daudnagar ...	13	20	54·2

405. The net receipts (excluding the opening balance) and the expenditure of each municipality as compared with the preceding year are shown below:—

MUNICIPALITIES.	RECEIPTS.		EXPENDITURE.	
	1892-93.	1893-94.	1892-93.	1898-94.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Gaya ...	65,789	65,641	63,126	67,525
Tikari ...	6,510	6,967	6,255	6,582
Daudnagar ...	3,185	3,372	4,299	3,380

In Daudnagar the increase of income is due to the payment by the Shahabad District Board of a portion of the municipal share of the tolls on the Daudnagar-Nasriganj ferry that had fallen into arrears, and of which the Magistrate reports a still larger portion is still due.

In Gaya the increase in expenditure is due to expenditure on drainage, carts, latrines, lamps and water-supply. The experiment mentioned in last year's Report of sinking a well in the bed of the river Phalgu has given encouraging results under the supervision of the District Engineer, and the Magistrate reports that it seems quite possible that a sufficient supply of water for the city may ultimately be obtained from this source. A survey of the town is also in progress for the purpose of drawing up a comprehensive scheme of drainage. The Magistrate speaks in high terms of the manner in which Mr. A. Halim, the late Vice-Chairman, discharged his duties. The Magistrate reports that the Municipal Commissioners generally have shown a laudable desire to do their duty towards the public, and readiness to comply with the wishes of the Government so far as finances permit.

406. *Shahabad*.—There are six municipalities in this district. The following statement shows the number of members, the number of meetings, and the percentage of attendance:—

NAME OF MUNICIPALITY.	Number of Commissioners.	Number of meetings.	Average percentage.
1	2	3	4
Arrah ...	15	16	50·0
Jagdispur ...	9	7	73·0
Buxar ...	13	15	58·5
Dumraon ...	9	24	54·1
Sasaram ...	22	13	54·5
Bhabua ...	12	21	42·5

407. The total receipts during the year, inclusive of the opening balance, amounted to Rs. 74,996, and the expenditure to Rs. 71,093, against Rs. 81,956 and 75,843 respectively of the preceding year. The decrease in receipts occurs only in Arrah, the sale at auction of a number of plots of roadside and other land having caused an unusual addition to the income in 1892-93. The other municipalities all show a slight increase in income. The decrease in expenditure occurred in Arrah and Sasaram. Rs. 21,722 were spent on conservancy and drainage against Rs. 20,596 in 1892-93; Rs. 11,210 on dispensaries as against Rs. 9,598; and Rs. 2,894 on education against Rs. 1,621. On the other hand, the expenditure on roads shows a considerable decrease.

408. The water-works designed for the supply of filtered water to the Arrah Municipality have been completed, and were opened by His Honour the Lieutenant-Governor on the 23rd April 1894. An account of these works is given in section 23 of this Report. The improvement of the drainage of the town is now the great desideratum.

409. During the year the villages of Khelaspur and Seon were excluded under section 9 of the Municipal Act from the limits of the Bhabua Municipality. When on tour, I had found these two villages to be purely rural villages, a mile away from the town, that ought never to have been brought under the Act at all. The matter was brought to the attention of the Commissioners, who saw the justice of the claim for exemption made by the villagers and passed the necessary vote.

410. In Buxar a system of pukka drains has been completed. During the rains and cold weather the municipality has a good source of water-supply in the Ganges. During the hot-weather months, however, the supply is not so wholesome, and to meet this the municipality are constructing a large pukka well in a central part of the town.

411. In Buxar has also been constructed a new pukka market, Chaudri Shaik Abdul Hameed supplying the funds. This municipality owns also two handsome bathing ghats at Ram Rekha Ghât.

412. The Magistrate singles out this municipality as the best managed in Shahabad, the bulk of the work, as in most well administered sub-divisional municipalities in Bihar, falling upon the Sub-divisional Officer who is Chairman.

413. *Saran*.—The following statement shows the number of members, of meetings held, and the percentage of attendance:—

NAME OF MUNICIPALITY.	Number of members.	Number of meetings.	Percentage of attendance.
1	2	3	4
Chapra ...	18	15	27·7
Revelganj ...	12	12	47·2
Siwan ...	9	12	96·5

414. The expenditure and receipts, including the previous year's balance, were as follows:—

NAME OF MUNICIPALITY.	Receipts.	Expenditure.
1	2	3
	Rs.	Rs.
Chapra ...	43,483	43,450
Revelganj ...	10,808	9,591
Siwan ...	10,532	7,380

On the whole the municipalities have worked fairly. There was a general election of all the municipalities on the 14th December 1893, at which nothing particular occurred to deserve mention. But as regards Ward I of the Chapra Municipality the election proceedings are in abeyance, owing to the institution of a suit by Babu Sabhaput Singh for declaration of his right and title to the office of elected Commissioner, and the Civil Court has issued an injunction to postpone further election proceedings till the disposal of the suit.

415. *Champaran*.—There are two municipalities in this district—Motihari and Bettiah. The number of meetings and the percentage of attendance are given below:—

NAME OF MUNICIPALITY.	Number of members.	Number of meetings.	Average percentage of attendance.
1	2	3	4
Motihari ...	13	18	57·6
Bettiah ...	14	12	63·4

416. The working of both municipalities is reported to have been satisfactory. "The Municipal Commissioners of Motihari," the Magistrate observes, "worked well during the year under report and maintained the same state of efficiency, involving considerable sacrifice of time and convenience on the part of some of them as reported during the previous year."

417. The Bayley Sarai at Motihari was opened during the year. It is proposed to let it remain free till 30th of September next. From 1st of October a small fee to meet the cost of keeping up an establishment will be levied. The construction of a female ward in the Charitable Dispensary at Motihari will be taken in hand after the rains.

418. A survey of the Motihari Municipality was made in 1892-93, and the levels have now been taken and a scheme of drainage will probably be submitted this year.

419. *Muzaffarpur*.—There are four municipalities in Muzaffarpur. The following table shows the number of members and meetings and the average attendance of members:—

NAME OF MUNICIPALITY.	Number of members.	Number of meetings	Percentage of average attendance.
1	2	3	4
Muzaffarpur ...	19	11	41·1
Hajipur ...	13	17	46·9
Lalganj ...	10	14	48·0
Sitamarhi ...	12	10	60·8

Many matters of importance have been discussed and dealt with by the Municipal Commissioners of Muzaffarpur, who, the Magistrate states, take an intelligent interest in the welfare of the town. They exerted themselves on the occasion of the destructive floods, and a Town Committee was formed to collect subscriptions, which were distributed among the sufferers.

In the Hajipur sub-division there are two municipalities, viz. Hajipur and Lalganj, of both of which the Sub-divisional Officer of Hajipur is the Chairman. The Sub-divisional Officer reports that the Commissioners of the Hajipur Municipality take an intelligent interest in the meetings. Maulvi Jowad Hussain is an energetic and useful Vice-Chairman. It is much to be regretted that Babu Ramjio Prosad, Rural Sub-Registrar, who was the late Vice-Chairman, has been obliged by pressure of work to decline to be nominated to the new Board.

The Lalganj Municipality is very small, but it works fairly well under Babu Rash Bihari Roy, a medical practitioner, as its Vice-Chairman. The town of Lalganj is decaying, and year by year becoming a less important centre of trade.

The Sub-divisional Officer of Sitamarhi is the Chairman of the Sitamarhi Municipality. The work of the Municipality has been satisfactory during the year under review. Buldeo Sahai, late tax-daroga of the Sitamarhi Municipality, who, after misappropriating a large amount of municipal money, absconded during the year 1889, has at last been arrested. His case was tried by the Sub-divisional Officer of Sitamarhi, who convicted him and sentenced him to four years' rigorous imprisonment with a fine of Rs. 1,000, under section 409 of the Indian Penal Code, but the order has since been reversed by the Sessions Judge.

420. *Darbhanga*.—The following table gives the usual particulars:—

NAME OF MUNICIPALITY.	Number of members.	Number of meetings.	Average percentage of attendance
1	2	3	4
Darbhanga ...	22	20	55·2
Madhubani ...	16	12	56·2
Rosera ...	15	19	45·6

421. There was a general revision of assessment in Madhubani and Rusera, which, however, resulted in increases of only Rs. 371 and Rs. 48

respectively. In Darbhanga the unrealized balance is so large as Rs. 4,265, while the remissions granted during the year under review amounted to Rs. 2,548. The Magistrate says that both the assessment and the remissions point to a very unsatisfactory state of things. He thinks the only hope of improvement lies in the appointment of a paid assessor to revise the assessments, and of a salaried Vice-Chairman, to both of which steps he believes he will be able to induce the Commissioners to consent.

422. I consider Madhubani one of the best managed rural municipalities in the Division. This is in a great measure owing to the interest taken by the Vice-Chairman, Babu Balmukund Sahai, in his work.

*District Board.\**

423. The statement below exhibits the attendance of members of the District Boards of this Division during the past year:—

NAME OF DISTRICT.	Number of members.	Number of meetings.	Average percentage of attendance.
1	2	3	4
Patna ...	25	17	48·0
Gaya ...	21	20	45·7
Shahabad ...	25	12	43·2
Saran ...	31	12	48·6
Champaran ...	17	18	.....
Muzaffarpur ...	19	12	41·6
Darbhanga ...	25	20	46·8

424. *Patna.*—The District Board completed its second term on the 30th September 1893, but though timely arrangements are said to have been made for its reconstitution, the present Board did not assemble at a meeting till the 6th April 1894.

425. The allotments made to the several Local Boards and the amount expended by them are shown below:—

LOCAL BOARD.	Grant for village roads.	Expenditure on village roads.	Grant for sanitation and medical aid.	Expenditure on sanitation and medical aid.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Sadar ...	3,500	3,497	1,250	1,082
Dumppore ...	4,000	3,253	1,450	809
Bihar ...	4,767	4,115	800	307
Barh ...	4,204	3,086	1,500	1,135
Total ...	16,471	13,951	5,000	3,333

From the above figures, it would seem that Local Boards were not paying due attention to sanitation and village roads, but the Magistrate says that such is not really the case. The reason that the whole allotments were not disbursed is that some works could not be completed during the year, and others, though completed, were not checked and measured. Village roads, he says, are in fact being improved every year and provided with culverts. Village sanitation has also not been overlooked, and several wells have been constructed.

426. The number of meetings held by the Local Boards did not fall short of the prescribed number except in Barh, and the Magistrate says that the members of all Boards took proper interest in their work.

427. *Gaya*.—The percentage of attendance at the meetings of the District Board is the same as last year, but that at the meetings of Local Boards is higher, especially in the case of Jahanabad. All the Local Boards have official Chairmen except the Sadar, the Chairman of which, Babu Durga Sanker, shows much zeal in the conduct of its affairs. The members of the District Board are said to form a valuable consultative body, besides taking interest in matters of executive detail. The members of the different Sub-Committees have also, the Magistrate reports, been assiduous in the discharge of their duty and transacted a deal of public business. The Magistrate specially commends the Vice-Chairman, Mr. A. Halim, for his attention to his work.

428. The character given to the Local Boards of the district generally is not so satisfactory. They are described as of little use either as consultative or executive bodies.

429. The following figures show the amount spent by each Local Board on the construction and up-keep of village roads:—

Name.		1892-93.	1893-94.
		Rs.	Rs.
Sadar	...	7,189	8,800
Nawada	...	3,773	3,723
Jahanabad	...	1,865	1,919
Aurangabad	...	1,981	2,080

The Local Boards have also under them the management of pounds and ferries, and the disbursement of moneys passed by the District Board for dispensaries and middle schools, as well as for some of the less important district roads.

430. *Shahabad*.—The Magistrate reports that the District Board has worked well as a consultative body, and have advisedly left executive details to the Chairman and District Engineer. Twelve meetings were held against eleven in the previous year, but the average attendance was not quite so satisfactory.

431. The following statement shows the allotment and expenditure on demarcation of road boundaries and repair of village roads:—

NAME OF LOCAL BOARD.	Amount of allotment.	Amount spent.
1	2	3
	Rs.	Rs.
Arrah	4,000	3,817
Buxar	4,000	3,900
Sasaram	5,000	3,903
Shahabad	3,500	3,094

432. The Sub-divisional Officer of Sasaram, who is also Chairman of the Local Board, reports that the members individually take little or no interest in the work, the whole of which really falls upon the Chairman. The Sub-divisional Officer of Buxar, who is also Chairman, reports much to the same effect, but says some improvement has lately resulted from the appointment of more zamindars in place of pleaders, as their local knowledge is of greater assistance to the executive. The Arrah Local Board, under a non-official Chairman, administered its affairs in an intelligent and satisfactory manner.

433. The Local Boards have charge of village roads, cattle pounds, primary education and sanitation.

434. Some attempt has been made to deal with sanitation by employing a Sanitary Inspector, but the Magistrate says that no real progress can be made until proper bye-laws are framed. These are under his consideration.

435. *Saran*.—The Magistrate states that the working of the District and Local Boards was on the whole satisfactory. Details of the business transacted have not, however, been given. The Chapra Local Board held 11 meetings, the Siwan Local Board 10, and the Gopalganj Local Board 6. The Chairman of the last Board says there was no necessity for calling more meetings.

436. *Champaran*.—There is no Local Board in this district. The attendance of members and the working of the District Board are said to have been satisfactory. Practically the whole of the work was done by the Chairman, Vice-Chairman, District Engineer and Deputy Inspector of Schools under the instructions of the Chairman. Considerable interest was taken by the members in the discussion of questions of general policy, but they did not interfere in executive matters, except that several of the planting members undertook repairs of roads in their *dihats* and did the work satisfactorily.

The Leave, Pension and Provident Fund Rules framed by the Board have been approved by Government, and the Provident Fund has been introduced since 1st April 1894.

437. *Muzaffarpur*.—The general working of the District Board continued to be satisfactory. Several of the members, especially those belonging to the planting community, took very considerable interest in the business of the Board, and displayed much energy in the supervision of roads in their charge and other works requiring their assistance. The knowledge of the district, which they possess, makes them very useful advisers in local affairs.

438. During the year the District Board and Local Boards were re-constituted. The Sadar Local Board, which had a non-official Chairman in 1892-93, has now an official Chairman, viz., the Assistant Magistrate and Collector, under whom the work of the Board has considerably improved. The other two Local Boards, Hajipur and Sitamarhi, with the Sub-divisional Officers as Chairmen, also worked well.

439. The Local Boards continue to administer the grants for village roads and to exercise control over pounds.

440. On the subject of enlarging the powers of the Local Board, the Magistrate, Mr. Hare, remarks as follows:—

“There has been no change in the powers delegated to the Local Boards, though the question was considered by the District Board in June last in accordance with paragraph 11 of the Government Resolution reviewing the reports on the working of the District Boards in Bengal in 1891-92. The Hajipur and Sitamarhi Local Boards were consulted. The District Board do not, however, see their way to making any recommendation for delegating larger powers to the Local Boards, for it is difficult to find duties which can be entrusted to the Local Boards, and which they can discharge with greater efficiency than the District Board at head-quarters.”

441. *Darbhanga*.—The attendance at the meetings of the District Board was much better than in 1892-93, the percentage being 46·8 against 36·0.

442. There are three Local Boards at the three sub-divisions. The attendance during the year was fair. They have charge of 700 miles of village roads and also of cattle pounds. During the year certain further powers were delegated to them in regard to primary education. The allotment made over to the Local Boards for repairs to village roads was Rs. 13,412, and, almost the whole amount has been spent. Each Local Board has a Sub-Overseer to look after the roads, but contractors' bills are not, as a rule, paid until after being checked by the District Engineer.

443. Both the District and Local Boards are suffering from want of funds due to the drain on their resources owing to the large famine relief measures in 1892-93, and to the immense damage to the roads by floods during the year under report.

444. Mr. Williams, the late district officer, has left the following remarks on record:—

“During the year under review there was a fresh election for the District and Local Boards. Considerable difficulty was found in obtaining suitable members for these Boards among the Hindu and Muhammadan gentlemen of the district (excepting of course the Raj family). I think it is a mistake that Sub-divisional Officers are not permitted to be members of the District Board. Their

appointments are approved by all officials and non-officials, Europeans and natives, and they know more of their sub-divisions than any other individual member of a District Board can do, and their advice is often most important to enable the District Board to arrive at a right conclusion as to necessity or not of any particular work."

445. I agree with these remarks. Self-Government, as represented by the District Boards, may be said on the whole to have worked satisfactorily during the year under review. These Boards, as I remarked last year, are of unquestionable value as consultative bodies, and many of the members who sit on Committees discharge their duties assiduously and transact a good deal of public business; while the leavening of European non-official members in particular gives tone and vigour to the administration of the Boards in the four North Gangetic districts.

But I fear that the same cannot be said generally in regard to the usefulness of the Local Boards. Here and there it may be possible to find a few individual members who interest themselves in public affairs and are ready to take some personal share in the work: As a rule, however, it may be safely said that the whole of the work falls upon the Sub-divisional Officer, and that without his active supervision the business of the Board would soon be neglected or at best performed in only a very perfunctory manner. The only exception to this will probably be found in the case of some of the Sadar Local Boards where, at the district head-quarters, the work is conducted under the eyes of the District Board, and where also public opinion can make itself more felt. I think myself that the result proves that decentralization in these matters has gone quite far enough; and that any attempt to push the principle further, as, for instance, by extending the "union" system, would be a most unwise measure. I sincerely trust that nothing of the kind will be done hastily from sentimental motives and without first instituting a thorough investigation of the question.

*Working of the Magisterial Bench system.*

446. *Patna.*—In Patna there were seven Benches as in the previous year, with 63 Honorary Magistrates. Three of these Benches were reconstituted during the year and vested with higher powers, while several Honorary Magistrates were selected to sit singly and vested with second class powers. The Magistrate says that they "afford substantial and valuable assistance to the Stipendiary Magistrates . . . . Judging by the results of appeals against their decisions, their judicial work is done well. They are inclined to be lenient in sentences, but not to a degree to require interference, whilst occasionally they inflict properly severe punishments."

447. The rosters of attendance are circulated in good time but though appreciable improvement is said to have been effected, the Magistrate says that the attendance is still not so regular as desirable.

448. *Gaya.*—In Gaya there are five Benches with 46 Honorary Magistrates. One of the Benches, the Gaya Bench, sits both as a regular and as a Municipal Bench, though several of the Honorary Magistrates can sit only on one of them. The Magistrate has now taken up the question of removing this anomaly. The other Benches are at Tikari, Daudnagar, Aurangabad and Nawada. On the whole there has been an improvement in attendance of Honorary Magistrates at Gaya, Tikari and Daudnagar, and also Aurangabad; but the working of the Nawada Bench, as in the previous year, was very unsatisfactory. Though some reorganization of the Bench at the Sadar is, in the opinion of the Magistrate, desirable, he is "glad to be able to accord it credit for the very substantial assistance it has been in the disposal of public business, and that, too, not of a particularly interesting description." The cases tried by Benches are mainly petty nuisance cases. But Mr. Kemble sitting singly tried two A forms, both arising out of the anti-cow-killing agitation.

Regarding the work generally of the Benches, Mr. Macpherson says as follows:—"The cases made over to the Benches were for the most part ordinary ones under the penal laws generally, and as usual in such cases before Benches, the acquittals preponderate over convictions. The Municipal Bench had to deal, however, only with cases of nuisance and the like, with the result that the preponderance of convictions is very great," to which he further adds:—"In the course of the year I called all the members of the Gaya Regular and Municipal

Benches together, and intimated to them that it was my desire to obtain for them extended powers and make over to them cases of more interest and importance than had hitherto been the case, provided they would be prepared to sit when necessary for a longer time each day, and come more frequently to special sittings, so that part-heard cases might be disposed of by the same Magistrates. I regret, however, to say that the response given by the great majority of the Honorary Magistrates was not sufficiently encouraging to induce me to take further steps in the matter." This is significant, coming from a Magistrate of Mr. Macpherson's influence and popularity.

449. *Shahabad*.—In Shahabad a new Bench was established during the year under report at Nasriganj, but it held no sitting until after the end of the year. There are now seven Benches with 58 Honorary Magistrates. There has been an improvement in the attendance of Honorary Magistrates, the percentage being 78 against 73 of the preceding year. On the whole the Magistrate says the working of the Benches has been satisfactory with the exception of that at Buxar, the Sub divisional Officer of which place says that the Honorary Magistrates "did not do much work, and what they did has not been of such a nature as to justify him in making over cases of importance to them." The services of Honorary Magistrates in Shahabad are often very usefully employed in making preliminary enquiries under section 202, Criminal Procedure Code, and I think that the practice might usefully be followed in other districts.

The Arrah Bench has been recommended to be vested with second class powers, and additional Honorary Magistrates have been proposed for Jagdispur and Bhabua.

A set of draft rules for the guidance of the Benches has also been submitted for approval. A special report on the subject will shortly be submitted to Government.

450. *Saran*.—There were three benches in Saran with 18 Honorary Magistrates during the year of report. The attendance of the Siwan Bench was good, that of the Revelganj Bench fair, but the attendance of the Sadar Bench was far from satisfactory. Most of the members are pleaders and cannot, owing to professional engagements, attend regularly.

The Sadar Bench has, however, lately been strengthened by the addition of three non-professional members, and better things are hoped of it in future.

The Siwan Bench has also been strengthened by the appointment of six additional Magistrates, and a new Bench exercising third class powers has been established at Gopalganj since the end of the year. The number of cases disposed of was smaller than in the preceding year, but the Benches none the less have, the Magistrate says, sensibly relieved the Stipendiary Magistrate of a certain amount of work, having disposed of 416 cases, chiefly of a petty description, during the year. The work done, however, is not apparently of a very high order, as all the appeals (10 in number) against their orders are reported to have been successful.

451. *Champaran*.—In Champaran there are two Benches with 14 Honorary Magistrates, one at Motihari and one at Bettiah, both exercising second class powers. The Motihari Bench is presided over by the Special Sub-Registrar, and the Bettiah Bench by the Rural Sub-Registrar. The attendance of the Honorary Magistrates of Bettiah was fair, but the Honorary Magistrates of Motihari are still very irregular. The Magistrate, however, says that he is unable to recommend that any of the names of the delinquents should be struck off, as he does not know of any really good men to take their places. I will consider this matter further after hearing more about it. It seems possible that the best course to take would be to abolish the Motihari Bench altogether.

The percentage of convictions in the Motihari Bench was again very low, and in order to ascertain the cause, the Magistrate examined a number of records. He found no error of procedure, nor did he find fault with the view taken of the evidence, so far as it went. The paucity of convictions he found to be due to the large number of cases compromised or dismissed in default.

452. *Muzaffarpur*.—In Muzaffarpur there are four Benches with 39 Honorary Magistrates. The Lalganj Bench exercises third class, and the rest second class powers. The number of persons tried during the year under report was 2,548 against 3,590 in the preceding year. This falling off was due to the decrease in the number of nuisance cases instituted.

Regarding the general work of the Benches, Mr. Hare observes as follows:—  
 “The bulk of the cases disposed of by the Benches were local nuisance cases, municipal cases, and petty cases under the Indian Penal Code. There was, however, a considerable number of more important cases given to the Benches to dispose of. A good many of these have come to me on appeal and otherwise, and they seem to have been fairly well disposed of. I am bound to say, however, that there is very frequently an effort made to get the case sent elsewhere for disposal, and that outsiders do not speak very favourably of the Bench.”

453. *Darbhanga*.—In Darbhanga there are six Benches with 56 Honorary Magistrates.

The following remarks have been left on record by the late District Magistrate, Mr. Williams, on the working of the system in the Darbhanga district:—

“The working of the Magisterial Bench system has not been a success. It is very difficult to get Magistrates to attend regularly, and the class which in Lower Bengal furnishes a number of Honorary Magistrates, viz., the medical profession, is here conspicuous by its absence. The legal profession is also not as well represented. Some planters, notably Mr. Artin Beg, are most assiduous in their attendance. The question of the reorganization of the Benches has been under consideration for some time, and I was going to send up a proposal to start a new Bench at Dalsing Sarai.” A special report on the subject will be called for from the present Magistrate, and dealt with in due course.

454. The attendance of Honorary Magistrates, taking the courts in each district together, is given in the subjoined statement:—

NAME OF DISTRICT.	Number of times asked to attend.	Number of times attended.	ABSENCES—		Total absences.
			With leave.	Without leave or notice.	
1	2	3	4	5	6
Patna	2,570	2,304	302	166	468
Gaya	911	716	178	103	281
Shahabad	1,378	1,075	112	191	303
Saran	396	297	73	26	99
Champaran	220	182	4	43	47
Muzaffarpur	2,629	1,957	323	349	672
Darbhanga	1,434	923	143	366	571
Total	9,508	7,454	1,135	1,244	2,381

A comparison of this statement with that given in paragraph 196 of last year's report will show that the average attendance has somewhat improved in response to the measures noticed in paragraph 197 of that Report. It is, however, still very indifferent, absences being about 25 per cent. of invitations. The attendance in the Patna district was on the whole the best, and in Darbhanga, as was the case also in the preceding year, the worst.

455. Taking the Benches individually, the members of the following Benches attended most regularly:—

NAMES OF BENCHES.	Number of times asked to attend.	Number of actual attendances.
1	2	3
Dinajpur	313	446
Sadikpur	465	463
Bihar	320	302
Dumraon	228	215

The attendance at the sittings of the Madhubani Bench was unfavourably noticed in last year's Report, and I regret to have to say that, though it shows a slight improvement, it is still very unsatisfactory, being 166 attendances against 321 invitations. The only worse return comes from Nawada, which shows the attendance to be 31 against 65 invitations.

456. The statement below will show the work of the Benches taken together in each district during the year:—

DISTRICT.	Number of cases disposed of.	NUMBER OF PERSONS—				Number of Benches.
		Disposed of.	Convicted.	Acquitted	Percentage of conviction.	
1	2	3	4	5	6	7
Patna ...	4,818	6,683	4,378	1,265	77.7	7
Gaya ...	2,548	2,790	2,053	737	73.5	6
Shahabad ...	487	684	240	394	37.8	6
Saran ...	785	1,040	416	624	40.0	3
Champan ...	349	405	211	194	52.1	2
Muzaffarpur ...	2,123	2,533	1,768	765	69.7	4
Darbhanga ...	4,103	4,359	3,818	541	87.5	6
Total ...	15,213	17,394	12,884	4,510	74.1	35

457. The Patna Benches tried the largest number of cases, and the Shahabad Benches the least. The percentage of convictions is largest in Darbhanga and smallest in Shahabad. I set very little store, however, by this test, as so much depends upon the class of cases tried. Where the cases are—as many of them sometimes are—petty *huzuri* cases under the Penal Code, many of them will be compromised or dismissed in default, and the percentage of acquittals will run high. Where, on the other hand, the bulk of the cases are petty *police* charges under section 34 of the Police Act, as is chiefly the case at Patna, Darbhanga, and elsewhere, the cases are not compoundable, the facts are simple, admitting of very little doubt, and convictions necessarily greatly preponderate. Without a close scrutiny therefore of the nature of the cases themselves, it is useless to attempt to make comparisons from the bare results. Generally, however, it may safely be said that the preponderance of convictions over acquittals is due to the fact that the cases tried by the Benches are mostly petty municipal prosecutions and nuisance cases under section 34 of the Police Act.

458. The aggregate work disposed of by the Honorary Magistrates on Benches and sitting singly in the Patna Division is shown in statement XII annexed to this report. The outturn of work during the two years 1892 and 1893 compares as follows:—

	1892.	1893.
Total number of cases disposed of	17,113	15,213
Number of persons concerned	19,166	17,394
" convicted	14,577	12,884
Number of witnesses examined	14,050	13,586
Number of appeals against decisions	114	183
Percentage of decisions confirmed on appeal	57.89	62.8

It will be seen that less work has on the whole been done in 1893 than in the previous year. The explanation is, however, satisfactory, viz., the decrease in the number of petty harassing nuisance charges in conformity with the wish expressed by His Honour the Lieutenant-Governor on his last inspection of the Hajipur sub-division. His Honour's remarks on the subject were circulated for general guidance, and have, I am glad to say, been generally attended to. A noticeable point in the return is the excess in each year in the number of cases over that of witnesses examined. This is due to two causes—viz., (1) to the compromise or dismissal of cases in default without examining any witnesses, and (2) chiefly to the fact that the bulk of the cases were petty nuisance cases, many of which were disposed of on the accused's admission without its being necessary to record any further evidence.

459. Looking at the number on paper of cases and persons disposed of, the work of the body of Honorary Magistrates has certainly a formidable appearance. But when we have regard to the generally petty character of the cases themselves, and consider *from this point of view* the number of witnesses examined, we are forced to ask, what does it all amount to? I think that I am right in saying that 90 per cent. of the cases are such as might have been tried by any average Sub-Deputy Magistrate; and at the rate of 10 or 12 witnesses *per diem*, it follows that the aggregate work, had it been possible to concentrate it, might have been done by less than half a dozen of such officers.

460. I have made every effort during the past two years to have cases of a more important kind made over to the Benches, such as those in which acquaintance with zamindari matters and with native customs is necessary. Had the 15,000 witnesses disposed of during the last year been examined in such cases, I should have been able to say that a large amount of solid work had been done. But the district officers have almost everywhere been met by an insuperable obstacle in the irregularity in attendance on the part of the Honorary Magistrates, coupled with the effect of the High Court ruling under which the *personnel* of the Bench must be preserved throughout a trial. The result is that it is found to be often impracticable to make over to the Benches cases which cannot be decided at one and the same sitting. The consequence is that the Honorary Magistrates of Bihar have, as a rule, to be restricted to the trial of the most petty cases that can be found for them.

461. This is not a result for congratulation after the number of years the system has now been in force, nor I think can we fairly expect the public to say that the service rendered them has been a reasonable return for the distinctions bestowed upon 324 honorary office-bearers.

462. The whole fault, as I have before pointed out, lies in the system in force under which, contrary to the rule which obtains in respect of all other Local Self-Government institutions, the office of Honorary Magistrate is tenable for life instead of only for a term of years, renewable on approved good service. On this subject I beg to refer to the remarks offered in paragraph 295 (a) of my Report for 1891-92, and 422 of that for 1892-93. Until the remedy I advocate is applied, the Bench system in Bihar, so far as its public usefulness is concerned, must continue to be, comparatively speaking, a failure.

### 31.—EMPLOYMENT OF MUHAMMADANS.

463. The following table has been extracted from the prescribed form 32, and shows the employment of Muhammadans in both the grades of Government service (*viz.* with salary of above Rs. 100 and of Rs. 100 and under) and the percentage for each district:—

DISTRICT.	NUMBER OF GAZETTED OFFICERS.		NUMBER OF MUHAMMADANS HOLDING (GAZETTED) APPOINTMENTS.				MINISTERIAL OFFICERS.			SERIALS.			Percentage of Muhammadans to entire population.	PERCENTAGE OF GAZETTED APPOINTMENTS HELD BY MUHAM- MADANS TO TOTAL NUMBER OF EMPLOY- MENTS.		Percentage of all employments held by Muhammadans to total number of all employments.
	Above Rs. 100 salary.	Rs. 100 and under.	Above Rs. 100.		Rs. 100 and under.		Total number.	Muhammadans.		Total number.	Muhammadans.			Above Rs. 100.	Rs. 100 and under.	
			1892-93.	1893-94.	1892-93.	1893-94.		1892-93.	1893-94.		1892-93.	1893-94.				
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
Patna	26	8	5	5	2	2	240	55	56	323	114	122	11.96	19.2	66.6	21.8
Gaya	21	1	6	4	...	...	172	25	25	290	110	117	10.6	19.04	...	33.9
Mahabadi	23	...	3	7	...	...	199	47	43	563	127	141	7.1	21.9	...	33.5
Saran	25	...	3	5	...	...	223	43	47	433	146	145	12.3	21.7	...	28.9
Chumpran	10	...	2	2	...	...	102	16	15	208	69	68	12.0	20.0	...	22.8
Muzaffarpur	32	2	6	7	...	...	245	46	40	581	134	140	11.7	21.8	...	20.8
Darbhanga	17	1	2	1	...	1	103	40	52	290	85	80	14.3	5.8	100	31.7
Total	162	7	27	31	2	3	1,576	281	284	2,163	782	812	11.43	19.1	42.8	20.4

The percentage of Muhammadans to entire population is in this Division 11.43, while the percentage of gazetted appointments held by them is 19.1 of above Rs. 100. Out of seven gazetted appointments of below Rs. 100, Muhammadans hold two. In Darbhanga alone the percentage of appointments held by

the Muhammadans in the grades of above Rs. 100 was less than the percentage of their population. In all other districts it was higher in both the classes of service.

### 32.—POST OFFICES AND TELEGRAPH.

464. The working of these offices continues to be satisfactory.

465. The following statement shows the number of inland money-order transactions during the year exclusive of rent and revenue money-orders:—

NAME OF DISTRICT.	1892-93.				1893-94			
	Issued.		Paid.		Issued.		Paid.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7	8	9
		Rs.		Rs.		Rs.		Rs.
Patna ...	59,370	10,24,338	93,172	14,97,005	63,278	11,63,379	95,098	15,41,078
Gaya ...	48,944	8,05,034	98,881	14,06,198	55,416	9,88,460	104,843	15,90,198
Shahabad ...	38,118	7,31,878	60,913	19,31,400	40,848	7,80,054	101,705	20,10,056
Saran ...	34,116	5,78,706	129,754	19,15,642	35,607	6,38,608	125,560	19,09,056
Champaran ...	38,121	6,75,867	11,421	2,01,188	42,755	7,34,448	12,544	1,91,075
Muzaffarpur ...	43,791	17,16,793	98,193	10,86,482	40,420	7,21,000	77,541	11,53,707
Darbhanga ...	41,620	6,77,075	37,113	6,20,580	40,025	7,51,318	41,082	6,91,876
Total ...	303,086	53,06,776	537,947	86,60,144	333,240	57,74,087	550,612	91,06,846

466. The post office is employed as the medium for very large money transactions, and it is evident that the public appreciation of its usefulness in this respect is steadily increasing.

467. The following statement shows the Savings Bank transactions in the last two years:—

NAME OF DISTRICT.	DEPOSITS.						WITHDRAWALS.						Total number of accounts opened on 31st March.		Total amount in deposit on 31st March.	
	Number of accounts opened during—		Number of deposits made during—		Amount deposited.		Number of withdrawals.		Amount withdrawn during—		Number of accounts closed.					
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.

Total ... ..	4,219	4,261	28,927	34,110	9,79,755	10,50,084	18,875	18,579	8,63,038	8,80,062	2,327	1,806	16,875	19,288	23,14,307	20,20,923

These figures prove that the Savings Bank transactions are steadily increasing both in number and amount. They equally go to show a steady improvement in the condition of people of the middle classes, and their growing appreciation of the advantages offered by the system.

468. A new Telegraph Office has been opened at Buxar in Shahabad.

469. Mr. Stroatfield, Magistrate of Darbhanga, says:—“The extension of the telegraph lines to Rosera is very urgently needed. Mr. Williams was confident that this extension would pay.”

470. No mail robbery was reported during the year; but there was a case of attempt in Muzaffarpur, for which the offender was sentenced to three months. A branch postmaster and two postmen were prosecuted in the same district for forging signatures and obtaining illegal gratification, but were all acquitted.

471. The system of revenue and rent money-orders has been dealt with in section 17.

### 33.—ZAMINDARI DAK.

472. The Postal Department continued to manage the zamindari dak, subject to the general control of the District Magistrate, but since the beginning of 1893 the collection of the cess has been made by the Collector instead of by the Magistrate as formerly. The latest dates of payment for all districts

are now 12th January and 28th September. The cess has been fixed at the following rates for five years, from 1st January 1893 :—

District.	Rs.	A.	P.	
Patna	0	8	0	per cent.
Gaya	1	2	0	"
Shahabad	0	12	0	"
Saran	1	4	0	"
Champaran	1	9	0	"
Muzaffarpur	0	12	0	"
Darbhangha	1	2	0	"

473. The subjoined statement shows the income and expenditure of the Dak Fund in the several districts during the year under report :—

DISTRICT.			Opening balance.	Receipts.	Expenditure.	Balance in hand.
1			2	3	4	5
			Rs.	Rs.	Rs.	Rs.
Patna	...	...	9,384	8,825	6,840	11,369
Gaya	...	...	10,613	18,442	15,019	14,036
Shahabad	...	...	7,488	11,587	7,527	11,548
Saran	....	...	4,417	18,649	11,050	12,016
Champaran	...	...	4,232	12,104	7,650	8,686
Muzaffarpur	...	...	9,900	8,938	9,443	9,395
Darbhangha	...	...	7,879	5,688	7,311	6,256
Total			53,913	84,233	64,840	73,306

At first sight it would appear that most of the districts had been over-assessed, but I find that of the total receipts Rs. 69,746 represent actual collections, the balance, Rs. 14,487, being the double payments authorized by the law as penalties for default. Now that the assessment has been fixed for a term of years in each district, it is to be expected that this item will in future almost disappear. There will, however, still be a balance to credit of about Rs. 5,000 in the aggregate receipts, but I find that in several of the districts where this occurs the postal arrangements are still backward, and an increase in expenditure may in future be expected. In two of the districts, viz., Muzaffarpur and Darbhanga, the receipts inclusive of penalties already fall below the expenditure, the districts being for the time saved from bankruptcy by the balances in hand.

474. The general working of the Department has been satisfactory.

#### FAIRS.

475. The most important fair in this Division is the far-famed Sonepur Fair in Saran, popularly known as Harihar Chhatra mēla of Bihar. The mēla lasted about 15 days, from the 13th to the 27th of November 1893. The usual conservancy arrangements were made under the supervision of the principal district officials. The weather was cool and pleasant, and the public health good. The European meet was well attended, having been larger, and the racing better than for many years past; but the attendance at the native fair was, according to the police records, only about half that of the previous year, the absence of native females being particularly marked. There can be no doubt but the reason of this was the agitated state of the native mind over the anti-kine-killing question, and especially with reference to the marching of the reliefs through the Saran district. This was quite a new departure, conveying all sorts of possibilities to the native mind, especially as the approach of the troops happened (quite accidentally) to coincide with the time of the mēla. It was thus, naturally enough, supposed that the Sonepur Fair was their objective point. Everything, however, passed off as quietly as usual.

476. In Saran, besides the Sonepur Fair already mentioned, the only at all important fairs are at Mehner and Silhowri. The attendance at these was estimated at 10,000 and 40,000 respectively. They both passed off quietly.

477. In Patna a triennial fair is held at Raigee in the Bihar subdivision. It is

478. In Gaya the most important fairs are the fairs held at Salompur, close to Gaya town, in April and November, at Deokund in April and March, and at Rafiganj in April. The police made the usual conservancy arrangements with the aid of the land-owners, and no outbreak of disease occurred. These fairs are chiefly cattle-fairs, and were all attended by agents of Gorakshini Sabhas. On this subject the Magistrate remarks as follows:—

“A noteworthy feature at the large cattle-fair held near Gaya in the beginning of the year was a number of overt acts of interference on the part of Hindus with Musalman purchasers of cattle, the outcome of a propaganda carried on by the Gorakshini Sabhas. Fortunately, however, no violence was used, and there was no general commotion. Special police precautions were taken at the other fairs held after that, and although they were attended by agents of the Gorakshini Sabhas, no acts of lawlessness occurred at them.”

479. The most important fair in Shahabad is held at Barahpur near Raghunathpur in the Buxar sub-division. It is held twice in the year in March and April. It is essentially a cattle-fair, but horse-dealers also attend. During the April fair the number of people present was estimated at about 125,000. The attendance at the March fair was not so great, but is said to have exceeded that of the preceding year. No illness of any kind occurred, and both the conservancy and the police arrangements for preserving order, carried out under the personal supervision of the Sub-divisional Officer and of the District Superintendent of Police, were all that could be desired. At the Bhawani fair in the Sasaram sub-division, where spices and piece-goods are sold, the attendance is said to have been about 50,000. There are three other fairs held at Buxar, called Khichree, Amawas and Satwan, at which piece-goods, iron, brass and earthenware and other miscellaneous wares are sold. These were all well attended.

480. In Champaran the fairs of chief local importance are the Bettiah, Tribeni and Areraj mēlas. The first is held about the time of the Durga Puja, but the attendance last year was smaller than usual owing to the heavy rains of October, and the fact that the Raj family were in mourning on account of the death of the late Maharaja. The second is held twice in the year at Tribeni on the Gundak on the boundary between Champaran and Nepal, and is yearly increasing in importance. The attendance at the Areraj mēla was not so large as in the preceding year. There was no outbreak of sickness in any of these mēlas.

481. The only fair of importance in Muzaffarpur is the Sitamarhi Fair held during the Ram Navami festival in March, at which about 150,000 persons are said to have attended. It is widely known as a cattle-fair. The arrangements, police and sanitary, were carefully supervised by the Sub-divisional Officer, and the fair passed off successfully without any commotion or outbreak of disease.

482. There are no fairs of any importance in Darbhanga. The local gatherings are of but short duration and do not require any elaborate sanitary arrangements.

POUNDS.

483. The number of pounds and the receipts for the last two years are given in the subjoined statement for the several districts:—

NAME OF DISTRICT.	Number of pounds.	RECEIPTS.	
		1892-93.	1893-94.
1	2	3	4
Patna ...	40	6,479	6,025
Gaya ...	71	12,860	12,172
Shahabad ...	36	6,440*	7,717
Saran ...	47	4,264*	4,160
Champaran ...	86	13,928*	14,036
Muzaffarpur ...	184	3,689*	4,118
Darbhanga ...	88	10,027	6,992
Total	552	57,687	55,220

\* NOTE.—These figures do not agree with the figures given in the last year's report from these four districts.

484. With reference to the note at the foot of the above statement, an explanation has been called from the district officers concerned. Taking the figures, however, as they have now been returned, the receipts in 1893-94 have been Rs. 55,220 as against Rs. 57,687 in 1892-93. The falling off seems to be attributable generally to the prevalence of the anti-kine-killing agitation in Bihar. The Magistrate of Saran quotes the Vice-Chairman of the Siwan Local Board to this effect, who says that "Hindus instead of taking cattle to the pounds took them to the panchayets, who levied fines which went to the Gorakshini Sabha funds. The Sabha, however, no longer exists, and the pound receipts may be expected to go up again." Other district officers also refer to the injurious effect of the late agitation on the pounds, the Magistrate of Patna further remarking that the renewal of feeling of Hindus in favour of kine may even make them more tolerant of depredations in the crops. I think it quite possible that this may be so, and that in many cases cattle found trespassing are now merely driven out of a man's crops and no further notice taken.

485. The district (as opposed to municipal) pounds in Patna, Gaya and Darbhanga are under the management of the District Boards, while in Shahabad, Saran, Champaran, and Muzaffarpur they are managed by the Local Boards.

486. In all of the districts except Champaran the farming system is in force, those pounds only being held under *khas* management for which reasonable bids cannot be obtained at the settlements.

487. The new forms of accounts were only received in the middle of the year. Efforts will everywhere be made to secure their proper adoption this year, though this will no doubt be a difficulty in the case of some of the smaller pounds which cannot afford to pay the expense of a good writer.

488. In Shahabad an Inspector of Pounds was employed. He visited all the pounds in the district and reported any defects or irregularities he discovered to the Board. In this district some of the unlet pounds were placed in charge of rural postmasters on monthly salaries of Rs. 3.

489. In Champaran where, as noticed above, the system of *khas* management is in force, the services of Sub-Inspectors of Schools were occasionally utilized in inspecting pounds.

#### 34.—SOCIAL AND POLITICAL INSTITUTIONS.

490. The various societies and associations mentioned in my last two reports continued to exist in a more or less enthusiastic form. The chief subject of interest with the Indigo Planters' Association, as well as with Tirhut and Bihar Landholders' Associations continued to be the questions connected with the cadastral survey of Bihar. Representatives from each Association attended the Conference on the subject, which was held under the Presidentship of the Hon'ble Mr. C. C. Stevens during the visit of His Honour Sir A. P. MacDonnell to Muzaffarpur in the month of August.

491. The Congress movement, so far as I can learn, still suffers from loss of its original enthusiasm, although it continues to have adherents at some of the district head-quarters, chiefly among the members of the Bar.

492. The two Muhammadan Associations—the Anjumani Islamiya and the Anjumani Momin—representing the Sunni and Shia communities respectively, were again greatly interested during the year in the question of the *Alum* procession at Gaya. A meeting of a number of the leading persons of each sect, which I attended with the District Magistrate, was held at Gaya in the month of November; and I regret that, although a considerable majority of the Sunni gentlemen present acquiesced in the holding of the procession with the "mushk and tir" by the Shias, I still considered it my duty, for the reasons I reported, to advise Government to decline to accede to the request of the latter body.

493. Regarding the Kayastha Sabha, Mr. Macpherson, the Magistrate of Gaya, writes; "This society was much exercised during the year about the question of readmitting into caste Mr. Sachitanand, a Kayasth of Shahabad, who has recently qualified as a Barrister-at-Law in England. The decision was in favour of his readmission, provided he performs all the penances ordained in the Shastras."

494. *Gorakshini Sabha*.—During the first part of the year considerable activity was shown by the different Sabhas belonging to this society and their emissaries in collecting subscriptions and in promoting the anti-kine-killing movement. Latterly, however, their efforts in this direction have been less

marked, and many of the branches have either ceased to exist or have confined their attention to their legitimate object, viz., the care and feeding of diseased, aged, and otherwise useless cattle.

495. On this subject I give the following extracts from some of the district reports:—

Mr. O'Donnell's opinion is as follows:—

"The Gorakshini Sabha, or Association for the Protection of Cattle, although its action may have political results, has professedly only religious ends in view, and is said to be less active in its operations than last year. It is principally supported by Marwaris, and other members of the merchant class, who desire by a display of fervour towards the objects of Hindu veneration to improve the social position to which their wealth gives them only a partial claim. I find that some *goalas* round Dinapore, who have made small fortunes in the butter trade, are amongst the most active supporters of the anti-kine-killing movement."

Mr. Macpherson, Magistrate of Gaya, writes thus:—

"The *Gaya Gorakshini Sabha* appeared in the latter part of the year 1892-93 to be confining its operations to the establishment of asylums for the reception of neglected and starving cattle. Just after the beginning of the year under report, however, there was a sudden and dangerous recrudescence of the agitation for the prevention of kine-slaughter, in consequence mainly of a propaganda carried on by self-constituted preachers, who gave themselves out as agents of the Sabha. Although I believe that many of these mischievous people were not directly authorized by the society, it is impossible to acquit the Gorakshini Sabha of responsibility for what occurred, as it took no steps to disavow what was being done in its name, until I pointed out to the leaders of the society their duty towards the lawless aspects of the doctrines preached in its name. Wiser counsels then prevailed. The President and Vice-President of the Society forthwith resigned office, after issuing a circular shortly before the Bakr-Id, disclaiming propagandist principles on its part, and since then its operations appear to have been confined to furthering the humane object with which it was ostensibly started.

"The *Gaya Gorakshini Sabha* is now maintained only by the traders of the "*Purani Gudam*" in Gaya; while the branch Sabhas in the interior have died a natural death."

Mr. Marindin, Magistrate of Shahabad, says:—

"During the year there were Gorakshini Sabhas at Arrah, Buxar, Sasaram and Bhabhua, but these have towards the end of it either been closed, or become, as far as can be ascertained, inactive. The decline in the activity of their societies seems to have followed close upon the police measures taken after the Koathi riots."

Mr. Williams, the late Magistrate of Darbhanga, notes as under:—

"It was found that these institutions existed all over the district, encouraged and aided largely by Government servants, who were unaware presumably that such societies, though harmless in themselves, were tending to become a political power in the land. Latterly the Darbhanga Gorakshini has not been so much in evidence, and I have had but little to complain of in regard to the way in which the Madhubani and other Sabhas have been managed. For some time they will have to be carefully looked after, as the preachings of at times ill-informed and malicious *upadeshaks* tend to create a spirit of antagonism among the Muhammadans, which may at any time lead to a serious riot."

#### 85.—STATE OF PUBLIC FEELING AND THE PUBLIC PRESS.

496. The Reports of the two last years described how the agitation on the

subject of kine-killing under the instigation of the  
The anti-kine-killing agitation. Gorakshini movement had unfortunately been

gradually growing in intensity in Bihar, and last year's Report, somewhat anticipating events, showed how, in the Patna and Gaya districts, it had during the first months of the year now under review come to a head in an epidemic of cattle-rescuing riots. These all occurred in the months of April and May of 1893; and were promptly dealt with by quartering the following bodies of

additional police, under section 15 of the Police Act, for a period of one year on the villages or groups of villages in fault, at the costs shown below:—

DISTRICT.	Sub-division.	Names of villages.	Special Police force.	Cost.
1	2	3	4	5
Gaya	Sadar	Pitmas and 9 other villages.	{ 1 Sub-Inspector 1 Head Constable 20 Constables	Rs. 3,293
Do.	Do.	Supneri and 2 other villages.	{ 1 Sub-Inspector 15 Constables	2,765
Do.	Do.	Kespa and 2 other villages.	{ 2 Head Constables 15 Constables	2,939
Do.	Aurangabad	Isarhu Karhara and one other village.	{ 1 Head Constable 7 Constables	1,315
Do.	Do.	Nirpur and one other village.	{ 1 Head Constable 6 Constables	1,121
Do.	Do.	Uchauli and seven other villages.	{ 2 Head Constables 20 Constables	3,675
Do.	Jahanabad	Belkhara and two other villages.	{ 1 Sub-Inspector 10 Constables	1,961

497. These measures were fortunately taken in time to act as a warning at the approaching Bakr-Id, and that festival passed off without any further scenes of violence in any part of the Division with one exception, viz., at the village of Hilsa in the Bihar sub-division of Patna district. There unfortunately, owing to the misconduct of the Muhammadan Police Sub-Inspector, and the failure of the Deputy Magistrate in charge of the sub-division to be equal to the occasion, serious riots took place on two days running. Prosecutions followed, but with very inadequate results, as all the principal offenders who had been convicted by the Magistrate were released on appeal by the Sessions Judge. Among them was the Sub-Inspector; who had been sentenced by the trying Magistrate to two years' rigorous imprisonment. He was, however, dismissed from Government service. Nothing further could be done, as the case was one in which the local officers did not feel justified in recommending the quartering of additional police, as the Government subordinates were themselves directly responsible for the disturbances.

498. The riots at Hilsa occurred on the 26th and 27th June July; and the Muharram passed off quietly; but on the 27th August two very serious riots occurred at Koath in the Sasaram sub-division of the Shahabad district. In the first of these a large concourse of Hindus assembled from the neighbouring villages and made a raid on the Muhammadan butchers of Koath, who were charged with having caught and slaughtered a Brahmini bull. In the second, the Muhammadans in revonge, on the afternoon of the same day, made an attack on the Hindu quarter, in the course of which several persons were severely injured, some with gun-shot wounds. In the counter-cases that were brought several accused on either side were sentenced to two years' rigorous imprisonment, and the sentences were upheld in appeal by the Sessions Judge and the High Court. The facts proved at the trials and in the course of a subsequent local inquiry made by Mr. H. LeMesurier, c.s., who was specially deputed to Koath for the purpose, showed that a large number of villages for several miles round Koath were either directly implicated, or were in such a disturbed state as to render measures for preserving the peace on an extensive scale to be necessary. Accordingly, under Government Notification of the 18th October, a body of additional police, consisting of 3 Sub-Inspectors, 3 head constables and 60 constables, were quartered for one year, at a cost of Rs. 15,167, on Koath and 46 other villages.

499. Meanwhile, in the Saran district a drove of cattle intended for the Dinapore Commissariat was stopped on the 31st August by a riotous mob of Hindus at a place called Bala on the high road between Champaran and Chapra. The officer in charge of the Basantpur thana took up the case and brought the cattle to the thana, where they were eventually placed for safety inside the thana

compound in charge of an Inspector and an armed guard of 10 men who had been despatched to this spot from Chapra. The Sub-divisional Officer and the District Superintendent of Police went to the spot and commenced enquiries; but taking advantage of their temporary absence, and incited by the preaching of a wandering propagandist, a large mob of Hindus collected from different villages for miles round, armed with lathis, on the evening of the 6th September at nightfall, after an unsuccessful parley with the police with a view to their purchase, made a determined assault on the thana in an attempt to forcibly rescue the cattle. The police, however, stood their ground well, and after discharging blank cartridge with no effect, fired a round of buck-shot, which wounded several of the assailants, two of them unfortunately mortally, and caused the mob to immediately disperse. Several accused were prosecuted in each case—in the Bala case before the Sub-divisional Officer of Gopalganj on a charge of rioting, and in the Basantpur case before the Chapra Sessions Court on charges of dacoity and rioting.

In the former case the convictions were all set aside by the Judge in appeal, while in the latter only 2 out of 12 accused were convicted on the rioting charge, but even these sentences were reversed by the High Court. These trials illustrated the very great difficulty there often is in such cases in procuring satisfactory proof of identity. The two men who were convicted by the Sessions Court actually bore on their bodies the marks of the buck-shot, but though convicted unanimously by both the Judge and the Assessors, they were given by the High Court the benefit of the doubt of their having been disinterested passers-by. Besides the prosecution of the actual offenders, steps were also taken to call others to account, and prosecutions were instituted against certain maliks and chaukidars for failure to give information, and a number of Sadhus found in the district at the time was required to give security to keep the peace. The District Magistrate and I recommended the quartering of additional police in the villages from which the insurgents had collected, but this was not approved of by Government, as it was considered that sufficient had, by way of example, been done. Since the occurrences above narrated the tension of feeling, I am glad to say, has much relaxed, especially in the parts of the Division where the system of quartering additional police was adopted; and although cases still occasionally occur of Muhammadans being refused the use of wells and otherwise boycotted, no further open breaches of the peace have been reported, and the late Bakr-Id has passed without any riotous scenes. There have, it is true, been a few cases—some half a dozen in all in the whole Division—where a disposition was shown by the Hindus to interfere with Muhammadan sacrifices; but all these were settled without any disturbance, either by the Muhammadan consenting to substitute a goat or sheep for his sacrifice, or to hold it in the house of a friend where it was admitted to be an established custom, or by the Magistrate summarily

\* Since writing this, I have heard of one case in Saran in which the Hindus of three villages turned out and by show of force took from two Muhammadans a cow which they were taking home with them on the day before the Bakr-Id. In this case six accused have been sentenced by the Joint Magistrate of Siwan to 1 and 1½ years' imprisonment.

deciding on the merits of the case that the sacrifice might proceed.\* On the other hand there has been a good deal of mutual forbearance on both sides, especially among the leaders of each party. This was particularly marked by the absence in most places of any tendency on the part of the Muhammadans to increase the number of kine sacrifices, and their care to avoid doing anything ostentatiously to hurt the feelings of the Hindus. I ascribe

a good deal of the credit of this in the Shahabad district not only to the effect of quartering additional police in the neighbourhood of Koath, but also in a great measure to the decisive attitude taken by the late Maharaja of Dumraon, who, during the Dasahra vacation in October last, held a large meeting of several thousand raiyats from all parts of his estate, and in my presence addressed to them a very loyal and effective speech, warning them against committing disturbances and promising full support on his part to the authorities. A similar warning was given at the same time by the Dewan of the Raj, Rai Jai Prakash Lal Bahadur, and both he and the Maharaja remained true to their word.

500. The following extracts are taken from the reports of the Magistrates of the districts of Gaya, Shahabad and Saran, where the feeling on the subject was during the first part of the year most acute. Mr. Macpherson, the

Magistrate of Gaya, writes:—

“Public feeling during the year was mainly excited over the development of the agitation against kine-killing in a manner calculated to endanger the public peace. As already remarked, matters in connection with this agitation were in a quiescent state during the latter half of 1892-93; but just after the beginning of the year under report there was a sudden and dangerous recrudescence in consequence of the preaching of ignorant and irresponsible persons at the various cattle fairs which were held in April. The trouble began with forcible interference on the part of Hindus with Musalman purchasers of cattle at the Bisua fair held near Gaya, but fortunately there was no general disturbance, nor was any violence resorted to. Special police precautions were taken to prevent similar occurrences at other fairs held in the west of the district during that month, and nothing happened at them; but a drove of Commissariat cattle were attacked near Arwal on their way from the Deokund fair to Dinapore and all driven off. The minds of the ignorant people in the interior meanwhile got excited over the question, and there was good reason to believe that a great proportion of the Hindu zamindars of the district resolved to take effective measures to stop kine-killing on their estates. The result was a series of disturbances in several places in the interior, although not a single case came to notice in which Muhammadans made any wanton attempt to wound the Hindu religious feeling. Fortunately, for the peace of the district, no time was lost in getting additional police, under section 15, Act V of 1861, quartered for one year at the expense of the inhabitants in half-a-dozen centres where the principal disturbances took place. This had an excellent effect on both parties; and at the same time the leaders of the movement were brought to see that nothing but mischief would result from the lawless aspect it was assuming. Many people entertained great apprehension for the safety of the town on the occasion of the Bakr-Id in the end of June 1893, and in one quarter of it the minds of the people got so excited that the shops were closed against Muhammadans for four days before it. Before the festival came round, however, all the leading members of the community on both sides, including the office-bearers of the Gorakshini Sabha, were enlisted in support of law and order, and the Bakr-Id passed off without the slightest disturbance anywhere in the district. Since then the agitation against the slaughter of cattle has gradually died down, although it cannot be said that Hindus do not still feel somewhat strongly on the subject. But the quartering of additional police on Hindu and Muhammadan alike has demonstrated the impartiality of the authorities, and tended to engender in Muhammadans greater respect than before for Hindu religious feeling on the subject, while at the same time convincing the Hindus that they must not go out of their way to interfere with the customary rights of their Muhammadan fellow-subjects. The levy of police contributions from the Muhammadans is justified by the consideration that, wherever Hindu feeling has been most excited on the subject, the Muhammadans have probably not always taken as much care as they ought to avoid all appearance of causing offence to their Hindu neighbours. It is gratifying to be able to record that since the mischievous tendency of the agitation became apparent, all the leading members of both communities have throughout displayed much good sense and loyal feeling, and some of them have shown much zeal in endeavouring to bring about a good understanding between the various sections of the community.”

Mr. Marindin, the Magistrate of Shahabad, says:—

“During the year the relations between the Hindus and Musalmans were severely strained in consequence of the anti-cow-killing agitation.

“In various parts of the district the feeling manifested itself in different ways, such as the rescue of cattle from Muhammadans by the Hindus, or objection by the latter to the former slaughtering cattle and selling the meat. This oppressive attitude on the part of the Hindus was no doubt fomented by the Gorakshini Sabhas and by chithis circulated through the villages. The climax of popular excitement on this subject was reached in the Koath riot of last September, since when it appears gradually to have subsided, owing probably a good deal to the establishment of a large force of additional police in Koath and its neighbourhood.

“Altogether I am glad to be able to report that the state of public feeling in the district on this question is much quieter than it was during the earlier

part of the year, and signs of agitation which were very marked about September and October last have now disappeared. Whatever angry feelings may still exist between Muhammadans and Hindus on the kine-killing question are kept very much below the surface, and the relations between them are certainly less openly strained and antagonistic than they were. Both parties, I think, are now alive to the fact that it is in their mutual interest to avoid open quarrels, and anything that will lead to rioting and breach of the peace. The quartering of such a large additional force at Koath has no doubt had an excellent effect in this direction, as the punishment has fallen both on Hindus and Muhammadans alike. From all I have seen of the zamindars and raiyats during my tour in this district, I can say confidently that their attitude towards Government and its officers has been perfectly loyal and cordial."

Mr. Slack, the Magistrate of Saran, reports as follows:—

"During the year under report the people took considerable interest in the spread of the Gorakshini movement. In the month of April several religious mendicants entered the district from the west and preached the well-known doctrines of the Gorakshini society to which they belonged. Not only were largely attended meetings held in the bigger market towns, but in many a little village community officers were appointed and resolutions carried on lines similar to those adopted at the larger meeting. Everywhere subscriptions for the preservation of the cow were collected, all classes of Hindus contributing according to their means. The cultivator who found his neighbour's cattle trespassing in his field no longer drove them to the pound, but took them to the village panchayet, who in their turn levied a fine upon the owner. Collecting boxes were placed in liquor shops and other places of general resort, all for the benefit of the general fund.

"So universal was the subscription that in many instances Musalmans and Chamars were forced against their own interest to contribute to the general fund. The excitement was increased by the news of the Bakr-Id riots in the neighbouring districts of Ballia and Gorakhpur. As the time of Muharram of 1893 approached, there prevailed among Muhammadans a feeling of unrest and alarm, aggravated in some instances by the taunts and threats of hostile Hindus; but the festival passed off peacefully. In the meantime secret letters were handed from village to village purporting to come from the pandits of Benares. Acting on the instructions contained in these *patras*, the Hindus proceeded to persecute the Muhammadans. They refused to allow them to draw water at the village wells where, from time immemorial, they and their fathers had peacefully done so side by side with the Hindus: the pots in which the village Kandhu had parched the corn both of Muhammadans and Hindus alike were now ordered to be broken. New and unpolluted pots were prepared for the stronger sect, while individual Musalmans were put to the somewhat new experience of parching their own corn. The butcher driving his cattle along the road became an object of suspicion and was challenged accordingly. Such an interference with village customs naturally caused considerable tension of feeling throughout the locality. The agitation thus set on foot culminated in the now notorious Basantpur riot, and there are signs that the failure which attended the prosecution in this case has tended to give fresh life to the agitation which apparently ceased to be active, while the trial of the rioters was proceeding."

As regards the feeling in Darbhanga, Mr. Williams, the late Magistrate, has left on record the following remarks:—

"Owing to the anti-kine-killing disturbances in other districts, notably Chapra and Ballia, there was a good deal of uneasy feeling in the district which, however, gradually quieted down towards the end of the year. There is still a good deal of slumbering antipathy between the two sects, but the leaders are fully aware of the importance of keeping the peace, and if professional agitators are dealt with summarily and not allowed in the district, I see no reason to fear any disturbances between the two sects."

Mr. Williams' remarks may be taken to apply equally to the district of Champaran.

Mr. O'Donnell, Magistrate of Patna, observes as follows:—

"The disturbing elements are to be found amongst the lower classes of both religions. The Jelahas amongst Musalmans have, it is to be feared, little

regard for Hindu feeling, when it becomes their religious duty to sacrifice a cow; whilst amongst Hindus it is Goalas, Koeris, Kurmis, and the poorest kind of Babhans and Rajputs who take offence with most alacrity."

For Muzaffarpur, Mr. Hare claims exemption from the general charge, and the claim may, I think, be fairly allowed. He says—

"This district is an honourable exception in this part of the country as regards quarrels between Hindus and Muhammadans. The feeling between the two classes is not a hostile one. There was once an idle rumour of an expected riot in the town, but there was not even the semblance of any disturbance."

501. This curious movement first appeared in this Division in the

The ploughmen's begging movement.

Gopalganj sub-division of the Saran district in the beginning of November, having apparently come across the border from Gorakhpur. All ploughmen, the story goes, were obliged to give their cattle three days' rest, and go round the neighbouring villages begging. With the proceeds three wheaton cakes were prepared—one for the ploughman himself, one for his cattle, and the third to be buried under their stalls. On this subject Mr. Marindin writes as follows:—

"A curious exhibition of popular feeling was the general penance which was performed by the people towards the close of the year in consequence of the rumour that the god Mahadeva had imposed its performance to expiate the sin committed by the agricultural community in overworking their cattle. The remarkably elaborate nature of this penance gives reason to suppose that it had been carefully thought out, and I attribute its inception and spread among the villagers to the efforts of those interested in Gorakshini agitation to keep the movement afloat."

The movement gradually spread throughout Bihar, and after affording a few days wonder passed away, and nothing of late has been heard of it.

502. This was another widespread movement, the meaning of which still

The tree-daubing mystery.

affords ground for speculation. By the most reliable reports it commenced about the latter end of February in the north-east corner of Bihar in the neighbourhood of the Janakpur shrine which lies across the border in Nepal.

The movement consisted in marking trees with daubs of mud, in which were stuck hairs of different animals, buffaloes' hair and pigs' bristles, according to the reports predominating; and it slowly spread, and is apparently still spreading, through the North Gangetic districts eastwards into Bhagalpur and Purnea, and westwards through many of the districts of the North-West Provinces. It has also lately appeared in a few places in the districts of this Division, to the south of the Ganges, where it has been traced in several instances to wandering gangs of Sadhus, to whom it is everywhere else, by

\* Where done by hand. But it has been proved that by far the greater part of the "marking" is caused by animals rubbing themselves against the trees.

general assent, primarily attributed.\* It is generally accepted that the sign is intended as an advertisement of the shrine of Janakpur. I am inclined to this view myself, for the reasons I gave in a letter published in the *Calcutta Englishman* on the 4th June last, which I need not repeat here. Latterly the movement has entered upon a new phase, viz. that of notching the bark of the trees with an axe.

503. *The Cadastral Survey.*—The general feeling on this subject may best be described as a mixed one. While the landlords are generally opposed to the measure as tending to increase the raiyat's independence and to entitle him to retain possession of any excess cultivation found on measurement without paying a proportionate increase in rent, the cultivators do not seem to the Collector of Saran to appreciate the prospective benefits to themselves so much as one would expect, their minds for the present being chiefly occupied with apprehensions regarding the expense the survey will entail upon themselves. The Collector of Muzaffarpur is of opinion that "although in some places people complain about the malpractices of the amins and grudge the share which they will have to contribute towards the cost of the operations, yet, on the whole, the survey is liked by the tenants," and I think myself that this is, generally speaking, the case.

504. *Municipal Elections.*—These were held in all the districts, but did not, as a rule, evoke much enthusiasm. Regarding the elections in the Patna Municipality Mr. O'Donnell remarks:—"The recent municipal elections in Patna City

excited considerable interest, but it was aroused by personal considerations, and political or public-spirited convictions had little influence on the votes of the rate-payers. There was an entire absence of any line of cleavage between Hindus and Musalmans, and in the parties that formed themselves leading adherents of both religions were to be found."

505. Among other topics which more or less attracted the attention of the educated classes may be mentioned the right of interpellation in the Provincial Council, the simultaneous examination question, and the cancellation of the Jury Notification. The uneducated masses think only of matters purely rural and religious, and take little or no interest in the public questions of the day.

#### NEWSPAPERS.

506. To the seven or eight newspapers published in the Patna district mentioned in my last Report has been added a new paper in English called the *Bihar Times*, representing the educated Hindu party in Bihar. Its tone is loyal and views are moderate, and the paper has, I believe, a good circulation.

507. In Gaya a weekly paper, the *Punch*, was started during the year. The *Nasim Bihar* mentioned in my last Report has ceased to appear after a very short-lived existence. In February, Mr. Morgan Brown held a meeting at Gaya in aid of a newspaper, *India*, to be published in England to air Indian grievances, but did not, I believe, meet with much success.

508. In Shahabad, the *Shahabad Gazette* has ceased to exist, and a new paper, the *Behar Patriot*, has been started by a pleader of the local bar.

509. There are not, I believe, at present any local newspaper published in any of the other districts, but in all of them there are presses from which pamphlets of various kinds issue, and which take up local printing jobs.

510. But there is a wide circulation in all the districts of many daily, weekly and monthly papers, English and Vernacular, which are printed elsewhere. Of these the *Englishman*, the *Pioneer*, the *Statesman*, the *Daily News*, the *Indian Mirror*, the *Amrita Bazar Patrika*, the *Morning Post*, the *Muhammudan Observer*, the *Bangabasi* (daily and weekly), the *Hindustan* (a Hindi daily), the *Alpani*, the *Outh Panj* are the most noteworthy. Among the Hindus the *Amrita Bazar Patrika* is largely supported: the *Bangabasi*, in Hindi, has also a wide circulation, and its influence, the Collector of Muzaffarpur states, reaches some of the rural parts as well.

#### 36—CONDUCT OF ZAMINDARS.

511. There was a somewhat serious dispute in the Darbhanga district between Raja Rameshwar Singh and his raiyats in Pargana Bachour regarding rates of rent, eventuating in a charge of an attempted raid of certain tenants' crops by a number of *lathials* accompanied by elephants being brought against the Raja's servants. Fourteen of the persons charged, including the Raja's tahsildar, were arrested and committed to the Sessions, where the case was pending at the end of the year. (I have since heard that the accused have all been acquitted, but I have not yet received a copy of the judgment of the Sessions Judge.)

512. During the year Rai Gunga Prasad appointed Mr. M. Halliday as his Manager, and the relations between him and the Maharaja of Darbhanga are now, after the dispute in April 1893, of a friendly nature. The financial difficulties of the Madhubani Babus are, the Collector reports, as great as ever; the disputes between them and their raiyats continued, but no actual disturbances took place owing to the presence of a body of additional police in the Laheri pargana. The Nanpur Chaudhri attempted to raise the rent of his tenants, who in return formed a combination and denied their existing rents. "But," the Magistrate says, "as there was abundant evidence of what the rents were, I advised them not to be so foolish as to waste their money in the courts over such a contention. They appear to have accepted this view and the disputes have abated, though relations are still considerably strained. The occasion of the dispute was the falling out of certain leases with a factory and the refusal of the factory to renew at increased rates, when the Chaudhri attempted to raise the rents by more direct means." It is said that the Chaudhri's papers show the raiyats as holding a larger area than the land actually held by them, and that he has been taking agreements from them not

to claim reduction of rent if such a state of things should appear from the settlement records when these villages are surveyed.

513. In Champaran, the Bettiah Raj continues to be thoroughly well administered by Mr. T. M. Gibbon, C.I.E. The Madhuban Babu has again changed his manager and taken back Pandit Thakur Prashad, "who," the Collector says, "assures me that everything possible will be done to prevent friction. I can only trust that his efforts may be successful," though rumours of friction with the tenantry are already, Mr. Blyth says, again reaching him. The Shahzada of Ramnagar in the same district has, the Collector reports, entirely given himself up to dissipation, and being in the hands of bad advisers, who are enriching themselves at his expense, his raiyats do not meet with much consideration. The Collector and the Sub-divisional Officer of Bettiah have been trying to bring the young man to his senses, but to no effect.

514. In Saran, the Maharaja of Hatwa continues to support public institutions with liberality. The portion of his estates which are held *khas* are said to be well managed, and it would indeed be better if more of his villages were under direct management. The Chainpur Babus in the same district are heavily involved in debt owing to family dissensions, and their position in the district has considerably declined. Babu Chandreshwar Prashad Singh is the chief amongst them, and generally lives at Deogha near Dinapore. His estates are said to be not well managed.

Babu Ismail Khan of Siwan has also the name of being a bad landlord. Rai Mahabir Prashad Sahu Bahadur has, the Collector reports, no ambition beyond hoarding money, and makes but little benevolent use of his means. The Collector remarks: "With the exception of the Maharaja of Hatwa and the Dowager Maharani of Bettiah, the zamindars of this district are, as a rule, no better than the better class of tenants, and are of little or no power in the land either for good or evil. Owing to the disintegration of property which is constantly going on, there is a large and increasing number of petty landlords in the district," and there seem to be no means of checking the process.

515. In Shahabad the conduct of the zamindars has on the whole been satisfactory. "With regard to the Gorakshini movement generally," the Magistrate remarks, "it may be said that the illegitimate support which it was receiving from zamindars in the earlier part of the year has now been withdrawn, and that they are now prepared to support authority in putting down any open act of violence in connection with the movement." Since October last the influence of the Dumraon Raj has, in the person both of the late Maharaja and of that of his Dewan Rai Jai Prakash Lal Bahadur, C.I.E., been freely used to allay popular excitement and to restore peaceful relations. The Dumraon estate embraces such a large portion of the district that its influence in this direction has undoubtedly had a good and wholesome effect on the public feeling of the entire district. The Dewan, the Collector adds, gave much useful assistance at the Dadri mēla and at the two important Barahpur fairs in the Buxar sub-division.

516. The death of the Maharaja, Sir Radha Prasad Singh, K.C.I.E., which occurred after the close of the year under report, has removed a loyal supporter of the Government, upon whom the local officers could always count for assistance in executive matters. He was public-spirited and generous with his money, and always ready to support measures of public utility. He was a kind and just landlord, and took much interest in the welfare of his tenantry, who are, the Collector thinks, the most prosperous and least subject to oppression of any person of their class in the district. His premature death has been felt throughout the district as a public calamity.

Raja Raj Rajeswari Prashad Singh is the next largest zamindar in the Shahabad district, and merits particular distinction for his handsome donation of Rs. 1,50,000 to the Arrah Water-Works. The Collector makes favourable mention also of Ray Shanker Dyal Singh of Kesath, and Babu Thakur Prashad Singh of Majhwari, as each being a good type of resident landlords—just, considerate, and respected by the tenantry.

Mr. Marindin does not, however, speak favourably of the smaller zamindars of Chaogain, Bagain, Anaon, Kursur and Kathgarne in Buxar, who are reported

to be troublesome and bad landlords. Speaking of this class of landlord generally, Mr. Marindin says:—"There are a number of petty maliks in the district who lead a hand-to-mouth sort of existence, and who are more or less oppressive and exacting towards their raiyats. This minute sub-division of property is an evil both to the zamindars and raiyats, and the most flourishing and prosperous tenants are to be found in large estates."

517. Mr. Macpherson, the Collector of Gaya, also says that "little is heard of any strained relations between the large zamindars and their tenantry except on the estate of the Raja of Maksudpur," regarding whom he remarks that "there is no doubt that the Raja is regarded as an exacting landlord, and that there is tolerably good foundation for this repute."

With this exception, Mr. Macpherson has nothing special to say regarding the conduct towards their raiyats of the leading zamindars, but the petty landlords, he adds, continue for the most part "as rapacious as ever."

518. In Patna a bad case of persistent harassment in the Civil Courts of tenants with occupancy rights has lately come to light in the Barh sub-division. The case, Mr. O'Donnell adds, ended in a brutal murder, and will, he promises, form the subject of a separate report. His views on the general conduct of large as compared with petty zamindars agree with those held by the Collectors of Shahabad and Gaya. He observes: "The general principle seems to be that the larger the estate the more reasonable are the zamindar's demands, whilst the petty proprietor is, I fear, generally grasping in his dealing with his tenants and unscrupulous in the means which he takes to increase his rent."

519. The relations between Indigo-planters and their tenants have been generally satisfactory in the districts of this Division. The only instance to the contrary that has come to my notice is that of the Runi Saidpur concern in the district of Muzaffarpur, where there has been a succession of quarrels between the factory and certain raiyats. I had occasion lately to warn the proprietor, Babu Bismath Mahtha of Muzaffarpur, on the subject, and trust that he will regulate his conduct more circumspectly in future.

#### 37.—GENERAL REMARKS.

##### *The floods in the three northern districts.*

520. One of the chief features of the year was the unprecedentedly heavy floods in Champaran, Muzaffarpur and Darbhanga. In order that their action may be properly understood, I will first give a short description of the drainage system of these three districts.

521. On the west, separating Champaran and Muzaffarpur from Gorakhpur and Saran, and joining the Ganges at Hajipur, is the Gundak. It fortunately kept to its banks and did no damage. Next, to the east, is the Sikraha, which, rising in the lower range of Nepal hills near Sameshwar, runs south-east through the centre of the Champaran district some distance north of the Tirhut State Railway line. It receives on its left bank numerous streams of various sizes from the Nepal hills, after its junction with the last of which, called the Teur, it changes its name to Bur-Gundak and continues its course south-east through the district and town of Muzaffarpur, and after traversing the southern part of the Darbhanga district, eventually falls into the Ganges just below the town of Monghyr. Next, further east, the Bagmati, rising near Khatmandu, pierces the line of the Nepal Hills, and after entering British territory forms the boundary for some distance between Champaran and Muzaffarpur. Then some miles south of Sheohar it in turn deflects abruptly to the south-east through the Muzaffarpur and Darbhanga districts, taking a course roughly parallel to that of the Bur-Gundak until, turning south, it joins the Bur-Gundak near Rusora at the south-east corner of the Darbhanga district. It also on its way receives several tributaries from the Nepal Terai. Lastly, still further east the Kumla, also joined by numerous tributaries, runs due south from the hills past the Janakpur shrine in Nepal and through the town of Darbhanga. Then it too turns off south-east through the Darbhanga and Monghyr districts, eventually falling into the Ganges some distance below the junction of the Bur-Gundak with that river.

522. It will thus be understood how a sudden heavy fall of rain over the northern portion of the three districts in question, the Nepal Terai and the range

of hills to the north of it, some 150 miles in length, may very easily cause the narrow drainage channels I have described above to overflow their banks; and the lower down we go the evil is aggravated, not only by the converging of the streams towards the same point, but also by the net-work of private bunds that have been made year after year for the protection of the villages along their banks. The existence of these bunds is much complained of by the district officers, especially by Mr. Williams of Darbhanga. In the first place they make things much worse for their neighbours lower down stream, and in the end, when the floods have asserted themselves and spread over the country, they hedge them in and greatly delay their escape. Under these circumstances Champaran, as may be supposed, suffered least and Darbhanga most, the areas submerged in the three districts being estimated in Champaran 400 to 500 square miles, in Muzaffarpur 800 to 900 square miles, and in Darbhanga 2,000 square miles.

523. There were three distinct floods, one after the other, answering to the heavy falls of rain in July, again in August, and lastly in September. The first did no particular damage, but the two others came down upon a country already water-logged, causing an immense amount of injury to crops, houses, roads, and, especially to the Railway line between Samastipur and Sitamarhi. Most of the bhadoi over the flooded tracts was lost, the portion saved being greatly injured, the rice plants were swept away not only once but twice, and in some places three times in succession, where the people had been able during the intervals to procure new seedlings and to replant them. The mud houses were washed down by thousands. The Collector of Muzaffarpur estimated that of 1,412 villages in his district within the radius of the floods, 1,144 lost all or more than one half of their bhadoi, and 955 all or more than half of their rice crops, while over 12,000 houses collapsed.

524. In Champaran and Muzaffarpur the floods from the Bagmati and Bur-Gundak were confined, roughly speaking, to the country lying to the north of the Tirhut State Railway line, with the exception of a tract in the latter district in Paru thana, where the spill from the northern side leaked through the Railway bridges. But in Darbhanga, a district singularly unfortunate, subject as it is, owing to its peculiar geographical position, to frequent floods and famines, matters were aggravated by the water from the Kumla, at its highest known flood heading the flow from the other districts. The combined floods swept the Darbhanga district from north-west to south-east at a level some 3 feet higher than had ever been known before. One-half of the district was for the time a slowly moving inland sea, the inhabitants with their cattle camping out along the high level roads, the Railway embankment, and here and there on a piece of *Dih* land standing out of the water like an island. Fortunately, however, the waters rose gradually and no lives, so far as could be ascertained, were lost, and the people had time to save their stores of grain and to drive off most of their cattle. Still numbers of these perished both during the floods and subsequently from want of proper nutriment. The parts of the Darbhanga district most affected were the centre and south of the Sadar sub-division, the western portions of the Madhubani sub-division, and the northern and south-eastern parts of the Samastipur sub-division. The southern half of the town of Darbhanga itself was for some days under water, and between 1,400 and 1,500 houses collapsed. The damage in this respect in the interior was never exactly ascertained, but it was naturally of a wholesale character, as may be imagined from the statistics given above for the Muzaffarpur district, where the masses of water to be contended with were not nearly so great as in Darbhanga.

525. The floods took from a few days to several weeks in some parts of Darbhanga to run off. The damages done to roads, bridges, and the telegraph and railway lines have been mentioned in sections 23 and 24 of this Report. It is sufficient here to say that they were the greatest ever known in Northern Bihar. The wonderful manner also in which the people survived their losses has been noticed in section 5 above. At first it seemed almost certain that relief measures on an extensive scale would be necessary. Careful enquiries on this point were at once made throughout the affected areas, but with after a short period of uncertainty, almost everywhere, directly negative results. The explanation is, *first*, the excellent harvests in the unflooded parts of the country

where there was consequently a plentiful demand for field labour and prices were low; *secondly*, the expectation in the flooded tracts of an abundant rabi outturn after the enrichment of the lands by the silt deposits, and the consequent willingness of the mahajans to loosen their purse-strings. These causes, and the action taken by the Maharaja of Darbhanga as well as by Rai Ganga Prashad in allowing time and granting advances in the parts of their estates where the distress was most felt, combined to render the people almost independent of Government aid. Allotments were placed in the hands of the three district officers, aggregating Rs. 56,300, for the purpose of making special loans under the Agriculturists' Loans Act; but of this sum only Rs. 31,264 were actually advanced, principally in the Muzaffarpur district. The only other action considered necessary was to open some test relief works in the south-east part of the Darbhanga district, but the works were so scantily attended at the test wage offered that it was very soon evident that the people themselves were under no apprehension of want, and that the repair of the district roads would, at the ordinary rates, give sufficient work for those among them in need of employment.

526. As a precautionary measure, weekly reports were received from the three district officers concerned until the end of December, when, things having assumed a normal condition, they were discontinued.

#### EMIGRATION TO BURMA.

527. I have received an interesting account from Mr. L. Mylne of the further success of the scheme for bringing under cultivation the grant of land made to his father by Government in Burma by the transfer to it of families of cultivators from his Jagdispur estate in Shahabad. Over 100 families, chiefly of the "Koeri" caste, numbering with women and children about 400, have accepted the terms offered and are already settled there; and Mr. Mylne has more applications from others who wish to go than he thinks it advisable, with a view to careful selection to comply with. The settlers were at the beginning paid as monthly labourers at Rs. 12 per mensem, the rate prevalent in the country; but this arrangement was gradually modified by reducing the wage and giving the emigrants a share in the produce. Finally, the wage has been withdrawn and the emigrants given the status of "settled raiyats," the terms now offered being practically right of occupancy at a fixed rate of rent, the rate, however, being fixed in kind at about four maunds of rice per bigha (about  $\frac{1}{8}$  acre) and not in money. The initial expenses have been very heavy, amounting to over Rs. 81,000; but Mr. Mylne appears very hopeful of the ultimate success of the experiment.

#### THE ROYAL OPIUM COMMISSION.

528. The Royal Opium Commission held its sittings at Bankipore from the 3rd to the 6th January, and examined a number of witnesses, including myself. Mr. Additional Commissioner Wace, Mr. A. G. Tytler, and Messrs. T. R. Filgate and A. MacRae, who kindly attended to give the views of the Indigo-planters on the subject, which were further set forth in a memorial submitted to the Commission by the Indigo Planters' Association. The proceedings were noticeable for the attempts on the part of the anti-opium party to show that undue pressure was used by the Government officials to induce the raiyats to cultivate, and that their own witnesses had been subjected to police surveillance in Gaya; both attempts failed.

#### THE NOMINATION OF A DELEGATE TO REPRESENT THE DISTRICT BOARDS IN THE PROVINCIAL COUNCIL.

529. Considerable interest was taken by the different District Boards in the selection of representatives to vote at the meeting held in May 1893 at Bankipore for the nomination of a delegate to the Provincial Council. Finally, the Maharaja of Darbhanga was nominated by five votes to two.

## VISITS TO THE DIVISION OF HIS HONOUR THE LIEUTENANT-GOVERNOR.

530. His Honour Sir Charles Elliott, attended by the Hon'ble Messrs. Stevens and Risley, Colonel Sandeman, and Mr. W. C. Macpherson, paid a week's visit, in the second week of April 1893, to the districts of Muzaffarpur and Champaran, during which the sub-divisional offices at Hajipur and Bettiah were inspected, and the survey and settlement operations closely scrutinized on the spot and debateable points discussed.

531. On the 29th July His Honour Sir A. P. MacDonnell, attended by the Hon'ble Messrs. Stevens, Cotton and Risley, visited Bankipore, making a four days' stay, during which various inspections were made, addresses from local bodies received, the foundation stone of Dr. Grace Mackinnon's Zanana Hospital was laid, and a Darbar was held by His Honour on the 31st July in the hall of the Patna College, attended by the Maharajas of Hatwa, Darbhanga, Dumraon, and Sonbursa, and by the gentry generally of Bihar, for the purpose of delivering to Lieutenant-Colonel Sir William Brereton Hudson, K.C.I.E., the insignia of a Knight Commander of the Order of the Indian Empire, and to Maharaja Harballabh Narayan Singh, C.I.E., Zamindar of Sonbursa, and to Rai Jai Prakash Lal Bahadur, C.I.E., Dewan of the Maharaja of Dumraon, the badge of a Companion of the same Order. Rai Dhiraj Karan Bahadur, Government Pleader, Monghyr, and Rai Medini Pershad Bahadur, late Deputy Magistrate-Collector, were also invested with the title of Rai Bahadur and presented with khillats.

532. On the 2nd August His Honour proceeded to Muzaffarpur, where the party was joined by Sir E. Buck. Another stay of four days was made, during which addresses from local bodies and the Behar Indigo Planters' Association were received and replied to by His Honour, and a conference of officials and leading zamindars and indigo-planters, presided over by the Hon'ble Mr. C. C. Stevens, was held, at which the leading principles of the survey were discussed and settled; His Honour and party returning to Calcutta on the 7th idem.

533. On the 14th February His Honour Sir Charles Elliott paid a second visit to Bankipore, remaining for two days engaged on inspectional and other duties, after which His Honour proceeded to inspect the survey and settlement camps in Muzaffarpur and Champaran, returning to Calcutta on the 22nd idem.

## POST OF ADDITIONAL COMMISSIONER.

534. The post of Additional Commissioner was vacant from the 17th April to the 23rd October 1893. If the present requirements of the Division continue, the appointment will have to be made a permanent one.

535. The past year for Government officials has been one of incessant work and anxiety.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different districts of Bengal, as reported to Government, during the week ending the 8th September, 1894.

BENGAL.			
No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
1	Burdwan Sept. 8, '94	0.98	Weather—seasonable. Transplantation of <i>aman</i> nearly concluded. Prospects of sugarcane good. Sudden floods in Kalna have done much damage to the crops. Fodder and water sufficient. Prices of common rice:— <div><div><div>Burdwan ... ..</div><div>Kalna ... ..</div><div>Katwa ... ..</div><div>Raniganj ... ..</div></div><div>Srs. 11½ to 15 9 to 13 13½ 14</div></div> } per rupee.
	Kalna ...	0.59	
	Katwa ...	1.97	
	Raniganj ...	1.37	
2	Birbhum " 8, '94	0.81	Weather—seasonable. Paddy is being weeded and thriving. Sugarcane doing well in the Rampur Hât subdivision, but not so well in the Sadar subdivision. Common rice sells from 13 to 15 seers per rupee. Cattle doing fairly.
	Rampur Hât ...	3.33	
3	Bankura " 8, '94	1.77	Weather—seasonable. State and prospects of crops fair. Prices of rice:— <div><div><div>Sadar ... ..</div><div>Vishnupur ... ..</div></div><div>Srs. 16½ 16½</div></div> } per rupee.
	Vishnupur ...	1.72	
4	Midnapore " 8, '94	1.84	Weather—seasonable. Prospects of all crops continue good except in Contai, where there is want of seedlings. Prices of common rice:— <div><div><div>Sadar ... ..</div><div>Contai ... ..</div><div>Tamluk ... ..</div><div>Ghatal ... ..</div></div><div>Srs. 14 13½ 12 13 to 14</div></div> } per rupee.
	Contai ...	2.27	
	Tamluk ...	2.49	
	Ghatal ...	5.25	
5	Hooghly " 8, '94	1.88	Weather—alternately bright and rainy. Transplantation of <i>aman</i> almost over. <i>Aus</i> , sugarcane and jute doing well. In Kristonagore (Serampore) <i>aus</i> and jute are backward (4 and 12 annas respectively). Prices of common rice:— <div><div><div>Sadar ... ..</div><div>Serampore ... ..</div><div>Jahanabad ... ..</div></div><div>Srs. 11 10 to 11½ 13</div></div> } per rupee.
	Serampore ...	1.84	
	Jahanabad ...	3.17	
6	Howrah " 8, '94	1.05	Weather—cool and cloudy. Reaping of jute and <i>aus</i> rice nearly completed. Prospects of standing crops favourable except in Ulubaria, where some damage from floods is reported. Prices continue normal. Rice sells at— <div><div><div>Howrah ... ..</div><div>Ulubaria ... ..</div></div><div>Srs. 10 9½ to 12</div></div> } per rupee.
	Ulubaria ...	0.42	
7	24-Parganas " 8, '94	1.86	Weather—seasonable. Harvesting of <i>aus</i> and jute going on. Transplantation of <i>aman</i> nearly finished. Condition of cattle good. Fodder and water sufficient. Rice sells at— <div><div><div>Sadar ... ..</div><div>Basirhat ... ..</div><div>Diamond Harbour ... ..</div><div>Barasat ... ..</div></div><div>Srs. c. 11 to 12 8 11 0 11 0 10 10</div></div> } per rupee.
8	Nadia " 8, '94	1.05	Weather—close and hot. Prospects of all crops very fair. Damage has been done by floods, but not to any great extent. Common rice sells from 11 to 13 seers per rupee. A slight outbreak of cattle-disease in the Sadar subdivision.
	Kushtia ...	1.04	
	Meherpur ...	1.43	
	Chudanga ...	0.29	
	Ranaghat ...	0.40	
9	Murshidabad " 8, '94	0.87	Weather—hot and at times cloudy. Owing to heavy rain during the previous weeks and flood, all standing crops on low lands are still under water. The river is slowly going down. <i>Aman</i> paddy, sugarcane and jute on high lands doing well. No cattle-disease reported. Fodder for cattle sufficient. Prices continue normal. Common rice sells at 12 seers per rupee.
10	Jessore " 8, '94	0.59	Weather—seasonable. Harvesting of <i>aus</i> and steeping of jute still going on. Prospect of <i>aman</i> good. Rivers very high. Fodder and water sufficient. Prices of common rice:— <div><div><div>Sadar ... ..</div><div>Jhenida ... ..</div><div>Magura ... ..</div><div>Narail ... ..</div><div>Bangaon ... ..</div></div><div>Srs. c. 11 to 12 0 13 8 12 12 13 0 10 to 14 0</div></div> } per rupee.
	Jhenida ...	1.89	
	Magura ...	1.99	
	Narail ...	1.74	
	Bangaon ...	0.75	
11	Khulna " 8, '94	1.98	Weather—sultry with occasional rain. <i>Aus</i> and jute being cut. Transplantation of <i>aman</i> almost complete. Prospects of all crops good. Rice sells from 10 to 12 seers per rupee. Fodder and water sufficient. No cattle-disease.
	Bagerhat ...	2.88	
	Satkhira ...	1.52	

No.	District and date of return.	Rainfall at Sadar Station in inches.	Character of the weather and state and prospects of the crops.
<b>BENGAL—<i>consolid.</i></b>			
RAJSHAHI DIVN.	12 Rajshahi Nator Naugaon	Sept. 8, '94 ... ... 0·77 1·18 Not reported.	Weather—seasonable. Harvesting of <i>aus</i> and steeping of jute still going on. Prospects of other crops good. No cattle-disease. Supply of fodder and drinking water sufficient. Rice selling from 10 to 13 seers per rupee.
	13 Dinajpur Thakurgaon	.. 8, '94 ... 8·28 4·63	Weather—hot and seasonable. Rain fell throughout the district. Transplantation of <i>kaimanti</i> almost over. Supply of fodder and drinking water sufficient. Rice selling from 10 to 12 seers per rupee.
	14 Jalpaiguri	.. 8, '94 ... 8·80	Weather—seasonable. Transplanting of <i>kaimanti</i> paddy proceeding. More rain is wanted, especially in the Alipur subdivision. Outturn of <i>bhadoi</i> paddy and jute will be about 13 annas. Rice selling at 12 seers per rupee. Cattle-disease reported from Mynaguri thana.
	15 Darjeeling Siliguri	.. 8, '94 ... 5·95 5·97	Weather—rainy in the hills with occasional breaks of sunshine. Wet and cool in the Terai. <i>In the hills</i> :— <i>Bhutta</i> , <i>chota marua</i> , <i>bhadoi</i> , potatoes, <i>shama</i> and <i>kangni</i> being harvested. <i>Aghani</i> paddy, <i>bara marua</i> and <i>kalai</i> progressing favourably. <i>In the Terai</i> :— <i>Bhadoi</i> and jute being harvested. <i>Aghani</i> paddy being sown. Prices of coarse rice:— Srs. Hills ... 7 to 10 } Terai ... 8 to 13 } per rupee.
	16 Rangpur Kurigram Nilphamari Gaibanda	.. 8, '94 ... ... 3·80 7·92 3·60 1·87	Weather—cloudy with more or less rain all the week. Harvesting of <i>aus</i> is almost completed. Transplantation of <i>aman</i> is going on though more rain is wanted for the high lands. Good rainfall in Kurigram; transplantation of <i>aman</i> is now vigorously going on there. Price of rice 8½ to 12 seers per rupee.
	17 Bogra Sherpur Naukhila	.. 8, '94 ... ... 2·28 0·70 0·27	Weather—hot and cloudy. Transplanting of <i>aman</i> continues. <i>Aus</i> and jute still being cut. Common rice selling at 11½ seers per rupee. Fodder and water sufficient.
	18 Pabna	.. 8, '94 ... 0·17	Weather—hot. Prospects of standing crops good throughout the district. Harvesting of <i>aus</i> and jute in progress. Common rice selling at 11 to 12 seers per rupee at Sadar and 10 seers at Sirajganj. Fodder and water-supply sufficient.
	19 Dacca	.. 8, '94 ... 1·67	Weather—hot. Harvesting of jute and <i>aus</i> nearly finished. Prospects of standing crops good. Fodder available. Common rice selling from 9 to 14 seers per rupee. No cattle-disease.
DACC DIVN.	20 Mymensingh	.. 8, '94 ... 0·85	Weather—hot. Prospects of standing crops good. Common rice sells at 10 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.
	21 Faridpur Goalundo Madaripur	.. 8, '94 ... ... 1·08 0·40 Not reported.	Weather—seasonable. State of crops satisfactory. Rice sells at 11½ to 12 seers per rupee.
	22 Backergunge	.. 8, '94 ... 2·68	Weather—clear and cloudy at intervals. State and prospects of crops good. Price of ordinary rice varies from 9 to 13 seers per rupee. Fodder and water sufficient.
CHITTAGONG DIVN.	23 Tippera	.. 8, '94 ... 0·96	Weather—seasonable. Prospects of crops good though a higher flood would have benefited the <i>aman</i> . This is compensated by the more extensive cultivation of <i>roa</i> paddy. Price of rice almost stationary. Sadar— Chowdagram ... 17 0 Daulkundi ... 12 8 Brahmanbaria— Kasba ... 15 3 Nabinagar ... 12 12 Chandpur— Hajiganj ... 16 0 Chandpur ... 14 0 } per rupee.
	24 Noakhali	.. 8, '94 ... 1·47	Weather—seasonable. State and prospects of crops good. Transplantation of <i>aman</i> going on. No cattle-disease. Fodder and water sufficient. Prices of rice:— <i>Aman. Aus.</i> Noakhali ... Srs. 11 15 } Fenny ... 12 16 } per rupee.
	25 Chittagong	.. 8, '94 ... 2·68	Weather—somewhat hot with slight rain. <i>Aus</i> still being reaped. Ploughings for and transplantation of <i>aman</i> continue. Prospects fair; but a little more rain is needed. Prices steady. Water and fodder sufficient.

\* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the The humidity of the atmosphere is expressed at percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The mean are the numerical means or average of the rainfall in that district determined from the returns sent in by the subdivisional stations for the period in question stations in the district pending in returns divided by the number of stations. A rainy day is one of which at least a tenth of an inch fell.

for the week ending Saturday, the 8th of September 1894.

ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater. Above denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of rainfall the normal for the past ten years. The means of the district are the normal average of the rainfall returned received in the district, i.e., from total rainfall at the subdivisions.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-  
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING 8 A.M., SATUR-  
DAY, THE 8TH OF SEPTEMBER 1894.**

At the close of the previous week a very feeble barometric depression had formed in the Bay, and on the last day of that week it was moving in a north-westerly direction towards the North Madras Coast, though, unlike most depressions, it was not intensifying or deepening in any way. On the 2nd instant, or the first day of the week under review, pressure had fallen slowly at the south-western and western stations in the province, and the feeble barometric depression still existed over the North Madras Coast, and had not in any way altered in character. On the other hand pressure had risen elsewhere, the rise being brisk in Assam and at the eastern stations. On the 3rd the depression had passed away in a north-westerly direction, and pressure in Bengal rose slowly to moderately, the increase being largest at the south-western stations, and pressure became rather largely above the normal, the excess ranging from nearly a fifth of an inch at some of the north-eastern stations to about a tenth of an inch in Orissa. On the 4th the rise of pressure ceased, and a slight fall set in, and this fall continued moderately to briskly on the 5th and 6th, when the excess pressure registered became very small, and the largest excess only equalled 0·03" to 0·05" at the central and northern stations of the province. On the 7th, however, a brisk to moderate increase of pressure occurred, while again on the 8th pressure had risen slowly at almost all stations, and the excess became equal to more than a tenth of an inch at the eastern stations.

Towards the close of the week under review, a very feeble barometric depression began to form off the North Madras Coast, and on the 8th it was a very distinct depression, lying close to that coast. Quite at the commencement of the week, when the previous depression existed, the rainfall-bearing current was to a certain extent deflected away from Bengal, and rainfall was rather light; but with its inland advance again the monsoon current flowed over Bengal and good general rain was received. Again, towards the close of the week, from about the 7th or 8th, with the formation of the second depression in the Bay, together with the formation of the area of high pressure over Bengal, the monsoon current was drawn or forced away from Bengal, while at the same time the monsoon current itself became lighter; and thus at the end of the week rainfall had become very light and local in Bengal.

*Pressure.*—For the greater part of the week pressure was above the normal, and the mean excess has averaged from 0·07" to 0·09". This excess has been largest in North Bengal, where it has equalled 0·01" and 0·012" at such stations as Dinajpur, Jalpaiguri, Bogra and Sirajgunge, while it has been smallest in the south-west of the province, and in Orissa it has averaged only 0·06". In Assam the pressure has also been above the normal, and the excess has averaged 0·097".

*Temperature.*—The general mean temperature of Bengal for the week has been half a degree below the normal, but in East Bengal, on the other hand, an excess of half a degree has been registered. The largest defects have been recorded in North Bengal and Bihar, where they equal about a degree. In Assam temperature has also been below the normal, and an average defect of 1·4° has been registered.

*Rainfall.*—Rather heavy rain has been received in North Bengal, which has received an average amount of 3·14 inches. Falls of from two to two and-a-half inches have been received in Bihar, Orissa, and Chota Nagpur, but in East and South-West Bengal the falls have only averaged between one and one and-a-half inches. The rainfall has been defective by about two and-a-half inches in East Bengal, and by about an inch in South-West and North Bengal, but in other divisions the falls have been almost normal.

Comparing the actual with the normal falls for the period, and expressing the actual falls as percentage amounts, the falls during the week have equalled the following—South-West Bengal, 54 per cent., North Bengal 80 per cent., East Bengal 39 per cent., Bihar 98 per cent., Orissa 93 per cent., and Chota Nagpur 83 per cent. Taking the various divisions to have an equal value in the calculation, the rainfall of the week may be said to have been equal to 75 per cent. of the normal only. The rainfalls in the following smaller districts have also been exceedingly light :—Howrah, Nadia, Jessore, Bogra, Panna, and Mymensingh.

In Assam during the week Silchar has reported 2·87 inches, Sibsagar 3·07 inches, and Dhubri 4·87 inches.

The following table gives the summary of the temperature and rainfall data of each of the six meteorological divisions of the province for the week ending Saturday, the 8th of September 1894:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.							RAINFALL.								
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 16th May 1894.

N. 1, N.E. 0, E. 7, S.E. 61, S. 266, S.W. 265, W. 77, N.W. 29, Calm 38.			

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6 higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

J. H. GILLILAND,

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 10th September 1894.

For Meteorological Reporter to the Govt. of India.

Abstract of the Results of the Barometric and Thermometric Observations taken at 10 a.m. at the Meteorological Office, Chowringhee, in the month of August 1894.

The total fall of rain from 2nd to 8th September 1894 ... .. 1.37

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 2.97

The total fall from 1st January to 8th September 1894 ... .. 36.81

The average fall of the corresponding period for 24 years, Surveyor-General's Office ... .. 51.81

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; t, thunder; p, passing temporary showers; Δ, dew.

## GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 169.

[First Publication.]

AFRICA, EAST COAST—GULF OF TAJURA.

*Jibuti bay—Light-house constructed and buoyage.*

THE British Admiralty has given notice (No. 419 of 1894) that a light-house has been constructed at fort Ayabele, situated southward of Jibuti bay, exactly on the line joining Direction hill and Pyramid, and with Ambuli house, bearing E. by N.  $\frac{1}{2}$  N. ( $N. 70^{\circ} E.$ ), distant  $1\frac{1}{6}$  miles; and Manga Daffa N. W.  $\frac{1}{2}$  W. ( $N. 54^{\circ} W.$ ).

Approximate position, lat.  $11^{\circ} 33' 15'' N.$ , long.  $43^{\circ} 8' E.$

Also, that the undermentioned buoys have been moored in Jibuti bay and its approach; entering from seaward, the red buoys should be left on the starboard hand, and the black buoys on the port hand:—

1. A large flat-topped *bell* buoy, painted black, has been moored in  $8\frac{1}{2}$  fathoms at the north-west extreme of the reef, which dries north-westward of Mashah islands, in a position with Scorpion Point, bearing E. S.E. ( $S. 68^{\circ} E.$ ), distant  $2\frac{1}{2}$  miles; and west extreme of Maskali, S.S.W.  $\frac{1}{2}$  W. ( $S. 28^{\circ} W.$ ).

Approximate position, lat.  $11^{\circ} 44' N.$ , long.  $43^{\circ} 10' 40'' E.$

2. A large flat-topped buoy, painted black, has been moored in 6 fathoms at the north-west extreme of the reef southward of Maskali, in a position with Maskali west extreme, bearing N.E. by N. ( $N. 34^{\circ} E.$ ), distant 9 cables; and south extreme east, Mashah island, E.  $\frac{1}{2}$  N. ( $N. 81^{\circ} E.$ ).

3. The small *conical* buoy, painted black, at the north-west extreme of the coral flat westward of plateau du Heron, is now numbered 3, and has been moved to a position in  $5\frac{1}{2}$  fathoms with Heron Point bearing E. by S.  $\frac{1}{2}$  S. ( $S. 70^{\circ} E.$ ), distant  $8\frac{1}{2}$  cables; and Pyramid S. by W.  $\frac{1}{2}$  W. ( $S. 14^{\circ} W.$ ).

4. A small *conical* buoy, painted black and numbered 2, has been moored in 6 fathoms southward of buoy No. 3, in a position with Heron Point, bearing E.  $\frac{1}{2}$  N. ( $N. 81^{\circ} E.$ ), distant  $9\frac{1}{2}$  cables; and Pyramid S. by W. ( $S. 11^{\circ} W.$ ).

5. A large flat-topped buoy, painted black and numbered 1, has been moored in 7 fathoms further southward, in a position with Heron Point, bearing N.E. by E.  $\frac{1}{2}$  E. ( $N. 66^{\circ} E.$ ), distant  $11\frac{1}{2}$  cables; and jetty light-house S.E. by S. ( $S. 34^{\circ} E.$ ).

6. A large flat-topped buoy, painted red, has been moored in  $5\frac{1}{2}$  fathoms at the south-east extreme of Meteore reef, in a position with plateau du Heron centre, bearing S.E.  $\frac{1}{2}$  E. ( $S. 52^{\circ} E.$ ), distant  $2\frac{1}{6}$  miles; and Manga Daffa, S.W.  $\frac{1}{2}$  S. ( $S. 36^{\circ} E.$ ).

7. A large flat-topped buoy, painted red, has been moored in 6 fathoms at the east extreme of Penguin bank, in a position with plateau du Heron centre bearing S.E.  $\frac{1}{2}$  E. ( $S. 53^{\circ} E.$ ), distant 2 miles; and Manga Daffa, S.W.  $\frac{1}{2}$  W. ( $S. 48^{\circ} W.$ ).

8. A small *conical* buoy, painted red, has been moored in  $5\frac{1}{2}$  fathoms at the east extreme of the shoal south-west of Penguin bank, and now named Etoile bank, in a position with plateau du Heron centre bearing E.  $\frac{1}{2}$  S. ( $S. 83^{\circ} E.$ ), distant  $3\frac{1}{2}$  miles; and Manga Daffa S.S.W.  $\frac{1}{2}$  W. ( $S. 29^{\circ} W.$ ).

9. A large flat-topped buoy, painted red, has been moored in 6 fathoms on the east side of the large coral bank in Jibuti bay, in a position with Heron Point, bearing E. by N.  $\frac{1}{2}$  N. ( $N. 73^{\circ} E.$ ), distant  $14\frac{1}{2}$  cables; and jetty light-house S.E.  $\frac{1}{2}$  E. ( $S. 45^{\circ} E.$ ). This replaces the former conical red buoy.

10. A small *conical* buoy, painted red, has been moored in 5½ fathoms at the east extreme of the southern coral reef in Jibuti bay, in a position with jetty light-house, bearing E. by S. ¼ S. (S. 76° E.), distant 7½ cables; and Heron Point N.E. ¾ E. (N. 49° E.).

BAY OF BENGAL—BURMA COAST.

*Gulf of Martaban—Intended removal for repairs of the F.L.-V. "Krishna"; and placing the F.L.-V. "Martaban" in position.*

THE following Notice to Mariners is republished for general information:—

Information has been received from the Assistant Port Officer, Rangoon, dated 14th ultimo, that the floating light-vessel *Krishna* will be taken to Rangoon for repairs on or about the first week in November, and the floating light-vessel *Martaban* placed in position until about the first week of December next.

The vessel will be painted red with *Krishna* in white letters on her sides.

The light will be revolving of 10,000 candle-power, showing a red and a white flash alternately every 45 seconds, each flash being of 5 seconds' duration, and will be visible all round the horizon at a distance of about 10 miles.

## BAY OF BENGAL—BURMA COAST—GULF OF MARTABAN.

*Rangoon River entrance—New channel eastward of Spit sand and alterations in buoyage.*

THE British Admiralty has given notice (No. 383 of 1894) that a recent survey of the western channel, entrance to Rangoon river, shows that a new channel has opened out, which is now named Spit channel, and consequently the following alterations have been made in the buoyage north-eastward of Spit sand:—

1. Spit channel is half a mile wide and carries a depth of 21 feet at low water springs, with the exception of a small patch of 18 feet, which lies nearly in mid-channel with Elephant Point obelisk bearing W. by N.  $\frac{1}{2}$  N. (N.  $69^{\circ}$  W.), distant  $1\frac{7}{8}$  miles; and Grove point beacon N.N.E.  $\frac{1}{2}$  E. (N.  $31^{\circ}$  E.)

Approximate position, lat.  $16^{\circ} 28' 0''$  N., long.  $96^{\circ} 21' 20''$  E.

The western side of Spit channel is marked by three buoys.

2. Lower Spit buoy (black can) has been moved to the north-westward, and now lies with Elephant Point obelisk bearing N.N.W.  $\frac{1}{2}$  W. (N.  $28^{\circ}$  W.), distant  $3\frac{2}{3}$  miles; and Eastern Grove light-house N.N.E. (N.  $23^{\circ}$  E.).
3. Spit Tongue buoy is a black can buoy, surmounted by a staff and cylinder, moored with Elephant Point obelisk bearing N. W.  $\frac{1}{2}$  W. (N.  $50^{\circ}$  W.), distant  $2\frac{1}{6}$  miles; and Eastern Grove light-house, N.N.E.  $\frac{1}{2}$  E. (N.  $31^{\circ}$  E.).
4. Upper Spit buoy (black can) has been moved to the south-south-westward, and is now moored with Elephant Point obelisk bearing N.W. by W.  $\frac{2}{3}$  W. (N.  $63^{\circ}$  W.), distant nearly  $1\frac{1}{2}$  miles; and Eastern Grove light-house N.E.  $\frac{2}{3}$  E. (N.  $49^{\circ}$  E.).

The eastern side of Spit channel is marked by four buoys—

5. Upper Eastern buoy (conical red) has been moved to the westward, and now lies with Elephant Point obelisk bearing N.W. (N.  $45^{\circ}$  W.), distant nearly  $3\frac{1}{2}$  miles; and Eastern Grove light-house N. by E.  $\frac{1}{2}$  E. (N.  $13^{\circ}$  E.).
6. Lower Spit Middle Ground buoy is painted black and white in horizontal stripes, surmounted by staff and globe, and moored at the southern end of Middle ground, with Elephant Point obelisk bearing N.W.  $\frac{1}{2}$  W. (N.  $48^{\circ}$  W.), distant 3 miles; and Eastern Grove light-house N. by E.  $\frac{1}{2}$  E. (N.  $17^{\circ}$  E.).
7. Upper Spit Middle Ground buoy is painted black and white in horizontal stripes, surmounted by a staff and globe, and moored at the northern end of Middle ground, with Elephant Point obelisk bearing N.W.  $\frac{1}{2}$  W. (N.  $55^{\circ}$  W.), distant  $2\frac{7}{8}$  miles; and Eastern Grove light-house N. by E.  $\frac{1}{2}$  E. (N.  $21^{\circ}$  E.).
8. Upper Ridge buoy (red) has been moved about half a cable to the south-eastward.
9. Centre spit (Spit Fairway) buoy (black and white in horizontal stripes) and West Lump buoy (black) have been withdrawn.

Mariners are reminded that, as mentioned in Notice to Mariners No. 271 of 1894, Spit light-vessel, which previously marked the fairway in this channel, sunk on 29th April 1894.

## GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

*The 12th September 1894.*

**No. 81 Marine.**—The following notification (No. 3371), dated the 6th September 1894, issued by the Government of Bombay, is republished for general information.

O. W. ODLING,  
*Secy. to the Govt. of Bengal.*

## NOTIFICATION.

## GENERAL DEPARTMENT.

*Bombay Castle, the 6th September 1894.*

**No. 3371.**—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Plague have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they have effect from 23rd July 1894 in the Ports of Aden, Perim, and the Somali Coast as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving at Aden, Perim, and Somali Coast ports from the Arabian Red Sea Coast from Lath to Lohayya shall, before entering the harbour, hoist a yellow flag (or if entering a port at night time, show whatever quarantine light signals are customary in the port) and indicate by signal the port from which such vessel has come, and shall keep such flag and signals flying until permitted to take them down as hereinafter provided. The pilot on going alongside the vessel shall direct the flag prescribed above to be hoisted, if it has not already been done.

II.—Such Commander shall not, without first having obtained permission as hereinafter provided, allow any communication, except orally, with the shore, or any other vessel or boat, excepting with the boat supplying pilots, and in that case communication shall be limited to receiving on board the pilot, his servant and baggage.

III.—On any such arrival being signalled, the Health Officer of the Port shall, as soon as possible, go alongside the vessel and ascertain by enquiry from the Commander whether any person on board is suffering, or has during the voyage suffered, from plague, and if the Health Officer is satisfied by such enquiry that no person on board is suffering, or during the voyage has suffered, from plague, and if the ship carries a qualified Medical Officer, quarantine shall be dispensed with, and pratique granted.

If the vessel does not carry a qualified Medical Officer, he shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified by the Resident, and there to remain for a period of eight clear days from the date of arrival in the harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for between such vessel and the shore, or other vessels and boats the harbour.

IV.—If the Health Officer, as the result of the enquiry made under paragraph III above, shall have reason to believe at the time when the vessel arrives in the harbour that any person on board is suffering, or during the voyage has suffered, from plague, he shall direct the Commander to take the vessel to the quarantine anchorage as aforesaid, and there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days, intercourse between the said vessel and the shore or other vessels and boats in the harbour shall be prohibited as provided in Rule III.

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of termination of the last case either by death, recovery or removal from the vessel and be subject to all the prohibitions provided for in Rules III and IV.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of eight days, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somali Coast, which may have communicated with vessels coming from the Arabian Red Sea Coast from Lith to Lohayya, shall be subjected to the same rules as vessels arriving at Aden, Perim, and the Somali Coast from the Arabian Red Sea Coast from Lith to Lohayya.

Babu Pares Nath De, Departmental Sub-Inspector of Schools, Hooghly (class VI), is appointed to have charge of the office of the Deputy Inspector of Schools, Hooghly, in addition to his own duties, with effect from the 6th August 1894, during the absence, on leave, of Babu Hara Mohan Bhattacharjea.

A. CROFT,  
*Director of Public Instruction, Bengal.*

## NOTIFICATION.

In accordance with the Government of Bengal notification of the 23rd July 1887, notice is hereby given that the next Half-yearly Examination of Compounders will be held at 7 A.M., on Monday, the 22nd October 1894, at the Temple Medical School, Patna.

2. Every candidate must produce one of the following certificates :—

- (a) From the Superintendent of a Vernacular Medical School, that he has attended regularly for one year the compounder class of the school; or
- (b) From the legally qualified Medical Manager of a Chemist's or Druggist's establishment recognized by the Inspector-General of Civil Hospitals, Bengal, that he has been apprenticed for a period of three years in his establishment; or
- (c) From a Civil Surgeon, that he has assisted in the dispensing of drugs at the sadar dispensary of a civil station for a period of five years.

*Exception.*—Any person who at the time of the extension of section 252 of Act III (B.C.) of 1884 to any municipality shall have acted as compounder for the seven years preceding in any shop or place of the kind referred to in the above section, shall, on producing a satisfactory certificate to this effect, be exempted from producing a certificate of the kind referred to in this rule.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 3, at least one week before the 22nd October 1894, at the office of the undersigned.

*Exception.*—The students belonging to the compounder class of a Vernacular Medical School will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

*N.B.*—The attention of candidates is drawn to Rule 5, Section (b) of the Government notification of the 23rd July 1887, or paragraph 2 (b) of this notification, from which they will observe that the Chemists' and Druggists' establishments, from the legally qualified Managers of which they obtain their certificates, will have to be recognized by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

BANKIPORE,  
*The 4th September 1894.*

No. 8151, dated 14th September 1894.—Assistant Surgeon Bepin Vihari Gupta of the Dumraon Dispensary is appointed to the medical charge of the Buxar subdivision and Central Jail Hospital, Shahabad, *vice* Assistant Surgeon Debendra Nath De, transferred.

No. 8153, dated 14th September 1894.—Assistant Surgeon Debendra Nath De of the Buxar subdivision and Central Jail, Shahabad, is appointed to have medical charge of the Midnapore Dispensary, *vice* Assistant Surgeon Durga Nanda Sen, transferred.

No. 8156, dated 14th September 1894.—Assistant Surgeon Durga Nanda Sen of the Midnapore Dispensary is appointed to have medical charge of the Dumraon Dispensary in the Shahabad district, *vice* Assistant Surgeon Bepin Vihari Gupta, transferred.

No. 8231, dated 17th September 1894.—Assistant Surgeon Bharat Chunder Dhar held permanent medical charge of the Lungleh Hospital, in the South Lushai Hills, from the afternoon of the 28th January to the 2nd April 1891.

No. 8233, dated 17th September 1894.—Assistant Surgeon Umes Chandra Banerjee, doing supernumerary duty at the Howrah General Hospital, is allowed leave for one month, under article 291 of the Civil Service Regulations.

J. O'BRIEN, M.A., M.D., *Surgeon-Lieut.-Colonel,*  
*for Insp.-Genl. of Civil Hospitals, Bengal.*

## TREASURY NOTICES.

## NOTICE.

UNCOVENANTED DEPUTY COLLECTOR MAULVI ABDUS SALAM has been placed in charge of the Monghyr Treasury and is authorised to draw bills on other treasuries.

G. TOYNBEE, *Offg. Commissioner.*

COMM'R'S OFFICE, BHAGALPUR, the 12th September 1894.

## HIGH COURT NOTICE.

## NOTIFICATION.

The 14th September 1894.

THE following Rule having been framed by the High Court of Judicature at For William in Bengal, under the powers vested in it by section 652 of the Code of Civil Procedure, is published for general information.

By order of the High Court,

J. LEWIS,

*For Offg. Registrar.*

## CIVIL.

Rule No.            dated the            September 1894.

After clause (c) of Rule 27, Chapter I, page 37 of the General Rules and Circular Orders (Civil), insert the following:—

27A. [Section 316, C. P. C.—Sale Certificates—Rule No.            of September 1894].—As soon as a sale is made absolute, a draft of the sale certificate shall be prepared in the prescribed printed form before the record of the case is transmitted to the District Record-room. Such drafts shall be kept in the Court's office in bundles of a convenient size in the custody of the Saishtadar. When a certificate is applied for and the application is entertained, the original certificate shall be prepared from the draft, which shall then be filed with the record of the case to which it belongs. If the record has been despatched to the District Record-room under the High Court's rules for the periodical transmission of records, the draft shall also, after the preparation of the original certificate, be forwarded to the Record-room to be filed with it. Draft certificates relating to cases in which no certificate is applied for within six years from the date of confirmation of the sales to which they relate may, after the expiry of that time, be destroyed. Should an application for a certificate be made after the lapse of six years, and after the draft has been destroyed, the original record of the case should be called for from the District Record-room for the purpose of preparing the certificate. This latter course should also be followed when any doubt or difficulty arises in connection with any application for the grant of a certificate.

Sheriff's Office, the 19th September 1894.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1894 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the 5th day of December next; at 11 o'clock in the forenoon, and so on from day to day, until the said Sessions be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

E. TRELAWNY, Sheriff.

## NOTIFICATIONS OF THE BOARD OF REVENUE.

### NOTIFICATION.

No. 1666B.

IN exercise of the powers conferred on the Chief Customs Authority by section 15 of the Sea Customs Act, VIII of 1878, the Board of Revenue appoint shed No. 7, at the Kiadarpore Docks, to be a public warehouse for the storage of salt under bond.

E. V. WESTMACOTT, Esq.

By order of the Board of Revenue, L.P.,

N. K. BOSE, Offg. Secretary.

CALCUTTA, the 3rd September 1894.

No. 1631B.

NOTICE is hereby given that the Tenth Sale of Opium, the Provision of 1892-93, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 3rd October 1894, at 11 A.M., and will comprise 3,105 chests, viz.—

			Chests.
Opium manufactured at the Patna Factory	...	...	1,510
Ditto ditto at the Ghazipur Factory	...	...	1,595
Total	...	...	3,105

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 25th November 1893 and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 11th and 18th October 1894 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Thursday, the 11th October 1894, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 18th October 1894.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December next about the dates specified below. The Board of

Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATES.	Manufactured at the Patna Factory; about chests	Manufactured at the Ghazipur Factory; about chests	Total; about chests
On or about Thursday, 1st November 1894 ...	1,510	1,595	3,105
On or about Monday, 3rd December „ ...	1,510	1,595	3,105
Total ...	3,020	3,190	6,210

By order of the Board of Revenue, L.P.,

M. FINUCANE, *Offg. Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, the 28th August 1894.

## CUSTOM HOUSE NOTICE.

THE Durga and Lakshmi Puja holidays this year are from the 4th to the 15th October inclusive.

On the 4th, 5th, 10th, 11th, 12th, and 13th October the Custom House will be open during the usual hours for transaction of all business.

The Treasury on these days will be open.

On the 6th, 8th, 9th, and 15th October the Custom House will be open (on a day's notice being given) free of charge from 11 A.M. to 12 noon for entering or clearing any vessel, and for the issue of bills-of-entry or shipping bills covering free goods from or to the same.

The Treasury on these days will be closed.

C. R. MARRIOTT,

*Collector of Customs.*

CUSTOM HOUSE, CALCUTTA, the 8th September 1894.

## NOTIFICATION BY THE COMPTROLLER-GENERAL.

### NOTICE.

NOTICE is hereby given that the Public Debt Office, the Government Savings Bank, and the Government Account Department at the Bank of Bengal will be open for the transaction of business and for the receipt and payment of money on Government account on the following days during the Durga Puja holidays:—

4th, 5th, 10th, 11th, 12th and 13th October 1894.

The Paper Currency Office at Calcutta and the Comptroller-General's Office will also be open on the above dates.

A. F. Cox,

*Offg. Comptroller-General.*

THE TREASURY, CALCUTTA, the 12th September 1894.

## ELECTION OF MUNICIPAL COMMISSIONERS.

### NOTIFICATION.

It is hereby notified for general information that a bye-election will be held under section 27 of Act III (B.O.) of 1884, on Wednesday, the 14th November 1894, in ward No. III of the Bausbariah Municipality, in the district of Hooghly, to fill up the vacancy caused by Babu Purnenda Deb Roy having ceased to be a Commissioner under section 20 of the Act.

A. C. CHATTERJEA, *Persl. Asst., for Offg. Commr., on tour.*

BURDWAN COMM'R.'S OFFICE, the 10th September 1894.

## NOTIFICATION.

THE Civil Surgeon of Bogra is appointed as an *ex-officio* member of the Committee for the management of the Bogra Charitable Dispensary.

P. NOLAN, *Commissioner*.

RAJSHAHI COMM'R.'S OFFICE, DARJEELING, the 11th September 1894.

## NOTIFICATION.

It is hereby notified for general information that a bye-election will be held in ward No. IV of the Cossipore-Chitpur Municipality, in the district of the 24-Parganas, on the 12th of November next, to elect a Commissioner for that ward in the place of Babu Nilmoney Mitter, deceased.

H. C. WILLIAMS, *Offg. Commissioner*.

COMM'R.'S OFFICE, PRESY. DIVN., CALCUTTA, the 12th September 1894.

## NOTIFICATION.

It is hereby notified for general information that a bye-election will be held in ward No. III of the South Dum-Dum Municipality, in the district of the 24-Parganas, on the 12th November 1894, to elect a Commissioner for that ward, *vice* Babu Nilmoney Mitter, deceased.

H. C. WILLIAMS, *Offg. Commissioner*.

COMM'R.'S OFFICE, PRESY. DIVN., CALCUTTA, the 12th September 1894.

## NOTIFICATION.

It is hereby notified for general information that in the bye-election held on Tuesday, the 28th August 1894, under section 27 of the Bengal Municipal Act, III (B.C.) of 1884, Babus Radha Ballub Roy and Purna Chundra Chatterjee, Pleaders, were elected as Commissioners for Ward No. III of the Katwa Municipality in the district of Burdwan, *vice* Babus Girindra Chandra Pal Chaudhuri and Jogendra Chandra Mukherjee, who have ceased to be Commissioners under section 20 of the Act.

R. C. DUTT, *Offg. Commissioner*.

COMM'R.'S OFFICE, BURDWAN DIVN., CAMP HOOGHLY, the 14th September 1894.

# The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 19, 1894.

PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

## NOTIFICATION.

*No. 3801M.—The 15th September 1894.*—It is hereby notified for general information that, in exercise of the powers vested in the Local Government by section 9 of the Bengal Municipal Act, III of 1884, as amended by the Bengal Act IV of 1894 and in accordance with the recommendation of the Commissioners of the Jhalda Municipality, in the district of Manbhum, made at a meeting, the Lieutenant-Governor intends to revise the existing boundaries of the Municipality so as to exclude Purana Jhalda from the limits of the Municipality unless good reasons are shown to the contrary within six weeks from the date of the publication of this notification within the Municipality.

2. The boundaries of the Municipality after the exclusion of Purana Jhalda will be as follows :—

*On the North.*—Ranibandh, Mirzafarer Shair and some fields.

*On the East.*—Runoo Jhunoo bazar and Saldaha river.

*On the South.*—Saldaha river.

*On the West.*—High lands and paddy-fields on the eastern side of the road separating Purana Jhalda from Jhalda.

C. W. BOLTON,  
*Offg. Secy. to the Govt. of Bengal.*

**Advertisement of sale.**

NOTICE is hereby given that the undermentioned plots of canal surplus land no longer required by Government, in the district of Shahabad, will be put to sale at 11 o'clock on the 30th October 1894.

The purchasers of the several plots of land will be subject to the following conditions:—

1. If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
2. If the amount of purchase-money exceeds Rs. 100, one fourth of the amount must be immediately deposited; if the balance be not paid by the noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.
3. The plots of land will be sold revenue free to the highest bidders.
4. The purchasers will have to respect the right of the raiyats and collect rent from them in accordance with the rent-roll prepared and filed with the record of the case.
5. The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale—

Consecutive lot number.	Name of district.	Name of pargana and mauza.	Approximate area of lot in bighas.	Land excluded from sale from each lot.	Commencement and termination of lot.	Boundary of lot.

C. A. OLDRAM, Collector.

Shahabad Collectorate, Arrah, the 12th September 1894.

## Advertisement of Sale.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned revenue-free property situated in the district of Puri, pargana Kotdes, mauza Pratapsasan, will be put up to sale at the Puri Collectorate on the 2nd October 1894, corresponding with 18th Asin 1302, Tuesday.

The purchasers will be subject to the following conditions of sale:—

## Conditions of sale.

- 1st.—The property to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this property will be considered as the proprietor of the property, and the entire proprietary right of Government in such property will be transferred to him.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the property to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number in statement of Government estate.	Number on the district register B of revenue-free properties.	Name of property and pargana.	Approximate area in acres.	Government revenue assessed.	REMARKS.
1	2	3	4	5	6
	32145 General.	Ratnakar Khand in mauza Pratapsasan, pargana Kotdes, district Puri.	18 poles	.....	Declared an escheat under orders of Government No. 1408 L.R., dated 14th March 1894, the proprietor, Anand Chandra Das having died intestate. The property forms a part (viz., 2gds. 13b.) of the entire property, 12g. 5b. 5g. 1k., entered in the name of Maguni Das in register B.

Puri, the 21st June 1894.

W. D. BLYTH, Collector.

NOTICE is hereby given, under sections 5 and 13, Act XI of 1859, that unless the arrears mentioned below are paid on or before the next latest date of payment, viz. the 28th September 1894, the undermentioned estates or shares of estates in the district of Ajmer will be put up for sale at the Office of the Collector of that district on the 22nd October 1894 Amli (7th Kartik) for the said arrears:—

When in columns 5, 7 and 9 of the following statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share, and that the other share or shares in the estate are excluded from the sale:—

2	3	4	5	6	7	8	9	10
Name of mahal and pargana.	Sadar jama of whole estate.	Whether the whole estate is to be sold.	If only a share is to be sold, specification of such share or shares.	Names of proprietors of property to be sold.	If only a share is to be sold, the sadar jama of such share.	If the whole estate is to be sold, the arrears due from it.	If only a share is to be sold, the arrears due from it.	REMARKS
Pargana Kanijora, mahal Gumukpota, thana Daspur Pansakura.	Rs. A. P. 3,185 0 0 including police.	.....	Joint share, right annas share of the estate.	Moni Mohan Ray	Rs. A. P. 1,502 8 0 including police.	Rs. A. P. .....	Rs. A. P. 173 0 0 including police.	

Ajmer, the 8th September 1894.

A. C. MACKERTICH, Deputy Collector in charge.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Rajshahi will be put up for sale at the Office of the Collector of that district on the 26th September 1894, corresponding to 11th Assin 1301 B.S., at Rampur Baulia, for arrears of revenue and other demands which by law are realizable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for that share, and that the other share or shares in the estate are excluded from the sale:—

1	2	3	4	5	6	7	8	9

Patna Collector's Office, the 12th September 1894.

GOPI KRISHNA LALL, for Collector.

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates in the district of Shahabad will be put up to public and unreserved sale at the Collector's Office of that district on the 26th day of September 1894 at 12 A.M., for the arrears of revenue and other demands which, by the Regulations and Acts in force, are directed to be realised in the same manner as arrears of revenue due on the 7th day of June 1894.

When in columns 5, 7, and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are exempted from the sale:—

Pabna Collectorate, the 16th August 1894.

H. E. RANSOM, Offg. Collector.

### Notice under Rule 19, Part I, Section II.

**NOTICE** is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Bhaba Tarini Dasi, and will be sold at 12 o'clock noon on Monday, the 3rd December 1894, (the 18th Aushran 1301 B.S.), at the Sundarbans Commissioner's office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna and Backergunge, dated the 12th November 1879.

#### Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

#### Schedule.

Number of lot.	District, subdivision, thana.	Area.	Boundaries.
1	2	3	4
Lot No. 163, 3rd portion.	24-Parganas, Basirhat, Hoscinnabad.	Bighas. 7,000	North.—By the Satghara khal and Kalindi Nadi. East.—By the Fytakati, Khontakata, and Amtali khals. South.—By the Ghumti Khal. West.—By the Kaliakati and Kartiknakhali khals, corresponding with the east boundary of the 2nd portion. All the above boundaries are as shown in Mr. Sundarbans Commissioner Ross' map of season 1893-94.

POORNO CHANDRA CHATTERJEE, Deputy Collector in charge,  
Sundarbans Commissioner's Office.

Sundarbans Commissioner's Office, Alipur the 31st August 1894.

### Notice under Rule 19, Part I, Section II.

**NOTICE** is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Dina Bandhu Chatterji, and will be sold at 12 o'clock noon, on Monday, the 3rd December 1894 (the 18th Aushran 1301 B.S.), at the Sundarbans Commissioner's Office at Alipur, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the rules for the sale of leases of waste lands in the Sundarbans of the 24-Parganas, Khulna, and Backergunge, dated the 12th November 1879.

#### Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a towpath not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right, which shall be hereditary and transferable.

#### Schedule.

as a Vakeel of the High Court.

(542-4)

HARA DHAN NAG, M.A., B.L., intends to be en-  
rolled as a Vakeel of the High Court, Calcutta.

(544-4)

In the Court of the Additional Subordinate  
Judge of Rangpur stationed at Jalpaiguri.

MONEY-EXEMPTION No. 9 OF 1894.

Henry Hamilton Remfry and William Grant Rose of  
Calcutta, decree-holders, *versus* Raja Fandendra Deb  
Raikut of Jalpaiguri, judgment-debtor.

IT is hereby notified for general information that, pursuant to a decree and order dated 19th March 1894 of the Hon'ble High Court, Calcutta, made in suit No. 83 of 1894, the judgment-debtor's right, title and interest in the undermentioned estates, will be sold at public auction by the Nazir of the Additional Subordinate-Judge of Rangpur stationed at Jalpaiguri at his Court-house at 12 o'clock on Tuesday, the 20th November 1894, for the realization of Rs. 14,124-9-2:—

**Lot No. 1.**—The entire estate, Baikantpur pargana, with all the mauzas appertaining thereto, recorded in tauzi No. 1 in the revenue roll of the Collectorate of Jalpaiguri, paying Government revenue Rs. 17,441-5-8.

**Lot No. 2.**—The entire estate Dabgram, with all the mauzas appertaining thereto, recorded in tauzi No. 3 in the revenue roll of the Collectorate of Jalpaiguri, paying Government revenue Rs. 853-6-4.

**Lot No. 3.**—The entire estate Kharia, with all the mauzas appertaining thereto, recorded in tauzi No. 2 in the revenue roll of the Collectorate of Jalpaiguri, district, paying Government revenue Rs. 3,652-4-3.

The properties mentioned above (lots Nos. 1, 2 and 3) are subject to a mortgage for two lakhs of rupees to one Joy Gobinda Law of Calcutta. The sale will take place subject to the said mortgage.

KALI PRASONNO MOOKERJEE,

Additional Subordinate Judge.

Dated Jalpaiguri, the 12th September 1894.

(582-1)

## Notice.

IN pursuance of section 42, Act 28 of 1866, notice is hereby given that all persons having claims against the estate of Alexander Dickson, tea-planter, lately Superintendent of the South Sylhet Tea Company, Limited, and resident at Kalighat tea estate, Sylhet, who died on the 25th day of October 1893, should send in their claims to the undersigned on or before the 31st day of October next, after which no claims will be admitted, and the assets of the estate will be distributed.

J. B. YOUNG,

Administrator, Estate Alexander Dickson, deceased.  
Deanston Tea Estate, Kalighat, Post Office, South Sylhet.

(411-3)

## Stolen.

TWO Government Promissory Notes Nos. 18:698 and 182599 of the four per cent. loan of 1865 for Rs. 1,000 (one thousand) each, standing in the name of Mahendra Nath Chuckerbutty, the proprietor, by whom it was never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicates in favour of the proprietor.

MAHENDRA NATH CHUCKERBUTTY, Amradanga,  
(576-3) Badu Post Office, 24-Parganas.

## Road Cess Notification.

## DISTRICT BACKERGUNGE.

IT is hereby notified for general information that, under section 46 of Act III (B.C.) of 1885, the District Board of Backergunge have, at a special meeting held on the 12th September 1894, determined that the road cess for the next cess year, 1895-96, shall be levied at the maximum rate, i.e., six pies a rupee on the annual value of lands.

H. LEMESURIER, Chairman.

## Currency Notes.

THE following Currency Note of the Calcutta Circle is stated to have been destroyed, and payment of its value has been claimed by the person whose name is placed against the number; any other person claiming a right to it is warned to communicate at once with the undersigned:—

Berhampore, the 17th September 1894.

**The Indian Law Reports.***Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
For the Calcutta Series ...	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series ...	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately (inclusive of postage in India) ...	.....	2 0 6
" part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...	.....	1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied of subscribers when required in place of copies lost in transit:—

For town. For mofussil.

	Rs. A. P.	Rs. A. P.
For the Calcutta Series, per copy ...	0 8 9	0 10 3
" each of the Madras, Bombay, and Allahabad Series, per copy ...	0 5 3	0 5 9
" the Calcutta Series. For the year ...	7 2 6	8 6 3
" each of the Madras, Bombay and Allahabad Series. For the year ...	4 4 6	4 11 3

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

" Curator of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
	Rs.	Rs.	Rs.
For one issue ...	20	14	9
" three issues ...	55	36	24
" six " ...	100	68	45
" nine " ...	145	96	64
" twelve " ...	180	120	80

SEVERAL volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS Parts I and II, are available at the following rates:—

	Without postage.	With postage.
	Rs. A. P.	Rs. A. P.
Bengal Law Reports for one year ...	20 0 0	22 8 0
Single copies, Rs. 2 per copy.		
Full Bench Rulings, Parts I and II ...	20 0 0	22 8 0
Bengal Secretariat Press, 10, Lyon's Range, Calcutta.		
Remittances to be forwarded to the Accountant and Treasurer Bengal Secretariat, Writers' Buildings, Calcutta.		

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Superintendent of Government Printing in Bengal, 10, Lyon's Range, Calcutta.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

The List of Books available for sale at the Secretariat Press will in future be published once only in each month. Spare copies of the List will, however, be kept in stock ready for issue on receipt of applications for them.

List of Books for sale at the Library of the Asiatic Society of Bengal, No. 57, Park Street, Calcutta, and obtainable from the Society's Agents, Messrs. Kegan Paul, Trench, Trubner and Company, Limited. Paternoster House, Charing Cross Road, London, W. C., and Mr. Otto Harrassowitz, Bookseller, Leipzig, Germany.

Complete copies of those works marked with an asterisk\* cannot be supplied—some of the Fasciculi being out of Stock.

## PART VI.

Bills introduced into the Council of the Governor General for making  
Laws and Regulations, or published under Rule 22.

### GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 6th September, 1894 :

NO. 12 OF 1894.

*A Bill to amend certain enactments relating to the Army.*

WHEREAS it is expedient to amend certain enactments relating to the Army in manner hereinafter appearing; It is hereby enacted as follows :

1. (1) This Act may be called the Repealing and Amending (Army) Act, 1894; and  
Title and commencement. (2) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, fix in that behalf.

2. (1) The enactment specified in the first schedule is hereby repealed to the extent mentioned in the third column thereof.  
Repeal and amendment of enactments.

(2) The enactments specified in the second schedule are hereby modified to the extent and in the manner mentioned in the third column thereof.

### THE FIRST SCHEDULE.

#### *Enactment repealed.*

Number and year.	Title.	Extent of repeal.
1	2	3
<i>Act of the Governor General in Council.</i>		
XI of 1877 ...	Military Lunatics Act, 1877.	In sections 4 and 6 the words divisions or, In section 7 the word division.

### THE SECOND SCHEDULE.

#### *Enactments amended.*

Number and year.	Title or subject.	Amendments.
1	2	3
<i>Act of the Governor General in Council.</i>		
XI of 1877 ...	Military Lunatics Act, 1877.	In section 3, for Act for punishing Mutiny and Desertion and for the better payment of the Army and their quarters for the time being in force read Army Act; for military regulations of the Presidency to which he belongs read military regulations in

*Enactments amended—contd.*

Number and year.	Title or subject.	Amendments.
1	2	3
XI of 1877— <i>contd.</i>		force for the time being; <i>for</i> one of the Surgeons-General, either of the British Forces or of the Indian Medical Service, according to the Presidency and the service to which the said lunatic belongs <i>read</i> the Principal Medical Officer of Her Majesty's Forces in India, the Surgeon-General with the Government of India, the Surgeon-General with the Government of Madras, the Surgeon-General with the Government of Bombay, or the Principal Medical Officer of the local command to which the said lunatic belongs; <i>and for</i> such Surgeon-General <i>and</i> the Surgeon-General <i>read</i> such Principal Medical Officer or Surgeon-General.

*Enactments amended—concl'd.*

Number and year.	Title or subject.	Amendments.
1	2	3
XI of 1877— <i>concl'd.</i>		In sections 3, 6 and 7 <i>for the words</i> local military regulations <i>wherever they occur read</i> military regulations.

*Regulations of the Madras Code.*

VII of 1808 ...	Power to establish martial law.	In the title, in the first place in which the words occur in the preamble, in section 2 and in section 4, <i>for</i> Governor in Council <i>read</i> Governor General in Council.
VIII of 1817...	Seoy Mál-guzars.	In the title, <i>for</i> on the military establishment of the Presidency of Fort St. George <i>read</i> in the Madras Command.  In section 9, clause <i>first</i> , <i>for</i> on the military establishment under the Presidency of Fort St. George <i>read</i> in the Madras Command.

## STATEMENT OF OBJECTS AND REASONS.

THE principal object of this Bill is to effect certain amendments in the Indian Statute-book which are necessitated by the proposed abolition of the presidential army system. The opportunity is taken to effect some formal amendments which are necessitated by change of circumstances.

*The 3rd September, 1894.*

HENRY BRACKENBURY.

J. M. MACPHERSON,

*Offg. Secretary to the Government of India.*

## RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATON REPORT OF THE DACCA DIVISION FOR THE YEAR 1893-94.

### GENERAL DEPARTMENT—MISCELLANEOUS.

*Darjeeling, the 18th September 1894.*

RESOLUTION—No. 102T.G.,

READ—

The Annual General Administration Report of the Dacca Division for the year 1893-94.

1. Mr. Luttman-Johnson has written a very full report, exceeding in length that of any other Divisional Commissioner. In some respects it is capable of much compression, and especially in regard to those departments, such as Education, Income-tax, and Registration, &c., which are dealt with separately in Departmental Reports. On the other hand his remarks are always clear-sighted and suggestive, and those contained in the sections on Crime, Police, and Criminal Justice may be singled out for special commendation, and the instructions given by him to his Magistrates, which are scattered through the report, may be commended to the attention of all District Officers in the province.

2. Three out of the four districts were for the greater part of the year under the same Magistrate, and in Faridpur alone was there a succession of three officers, comparatively junior and new to the district. The Lieutenant-Governor endorses with pleasure the high praise bestowed on Mr. Savage and Mr. Earle for their administration of the Backergunge and Mymensingh districts.

3. Mr. Luttmann-Johnson has been admirable himself in respect of inspection tours, and his example has been well followed by his Collectors. The time which it is obligatory to spend on the actual work of inspection of offices seems to be rather overstated by Mr. Earle in paragraph 6, but instructions have recently issued, explaining that it is not the intention of Government that every branch of an office should be minutely inspected on each occasion. The difficulties placed in the way of District Officers' inspections, mentioned in paragraph 10 as due to the surly discourtesy of the villagers, are not without parallel elsewhere; but the Lieutenant-Governor trusts they are not symptomatic of any general feeling among the people.

4. It is satisfactory to notice that the subject of water-supply is engaging the attention of the Municipalities and District Boards. The Lieutenant-Governor cannot agree in the Commissioner's opinion (paragraph 13) that tanks can never give a wholesome supply of water, or that they are too expensive. His Honour notices with pleasure, in paragraph 196, the measures taken to improve the Narsunda *khal* in the Kishoreganj sub-division, and the construction of roads in Backergunge on a system which provides a double means of communication, the embankment being of service for carts and for land travel, while the borrow-pit from which it is taken forms a continuous canal for the use of boats. Attention is also being paid to the maintenance of tow-paths on the water channels, which are the chief means of communication in this division.

5. The figures quoted in paragraph 16, culled from statistical reports, are interesting; but the conclusion drawn from the incidence per head of taxation, and based on the theory that the greater the population the greater the taxable income, is vitiated by a manifest flaw. If wealth increased in the same ratio as the population, the steady growth in numbers which every census reveals would not be such a cause of supreme anxiety to the Statesman as it actually is. When income arises mainly out of the ground, the increase in the taxable income may be roughly said to vary in an inverse ratio with the increase of population.

6. From paragraph 18 it will appear that the tendency of the fairly well-to-do raiyat to throw the poor of his community on the charity of the public or the Government seems to be increasing, and this is a serious symptom. The distress in Netrakona in the preceding year, and that in Tippera in the present year, were exactly similar to that described by the Commissioner in the two districts of Backergunge and Faridpur. So long as the sums spent are so small as these, and the public assists as it did in Faridpur, no great harm is done.

7. The Lieutenant-Governor is disposed to approve of the geographical distribution of criminal work among the Deputy Magistrates at district headquarters as described in paragraph 27. It is also well to place the criminal work principally in the hands of one or two Deputies. But except the business connected with the Treasury or with Excise and Income-tax, it is doubtful if other branches of the revenue work are ordinarily sufficient to occupy the whole time of an officer.

8. *Paragraph 58.*—Out of 5,917 warrants in Mymensingh, issued against both the accused and the witnesses, 3,190 or 53·9 per cent. were returned unexecuted. This is a matter of some importance, and deserves more attention than it generally receives. The Lieutenant-Governor is glad to observe (paragraph 98) that vigorous measures under section 174 of the Penal Code are being taken to avoid delay in disposal of cases owing to the non-attendance of witnesses who fail to appear after the due service of process.

9. The remarks by the Magistrate of Mymensingh, mentioned in paragraph 59, regarding the failure of the police in the discharge of their duties, and their tendency to take bribes—a charge confirmed by Mr. Luttmann-Johnson's own information, have been read by the Lieutenant-Governor with much concern. He will be prepared to sanction drastic measures, if recommended by the Commissioner and the Inspector-General of Police, for the renewal of the *personnel*. The Magistrates of Dacca, Faridpur, and Backergunge seem satisfied with the conduct of the police of their districts. The adoption of the system under which the salaries of *chaukidars* are paid quarterly by a member of the panchayat attending at the thana, in the presence of a gazetted officer, noticed in paragraph 70 of the Report, has been lately considered in the Judicial Department, and a procedure identical with, or similar to this has

been prescribed for general adoption when the panchayat is unpunctual in payment. His Honour approves of the action taken by the Magistrates of Backergunge and Mymensingh in revising the grouping of villages under the amended Chaukidari Act, increasing their size, and arranging that about 10 men should be employed in each of them with a jemadar over them on slightly higher pay. The increase in punishments awarded to chaukidars in Faridpur for neglect of duty, as shown in paragraph 72, has been excessive and injudicious.

10. The Commissioner observes in paragraph 84 that the administration of the Arms Act has been most lax, and advocates the grant and renewal of licenses at sub-divisions. He remarks—"Evidently many arms remain unlicensed, licensed arms are not identifiable, and arms, the licenses of which are not renewed, remain untraced and unaccounted for." This is apparent from the fact that, out of 37 cases of murder and riot in the district of Backergunge in which guns were used, in only four were licensed guns used. The Lieutenant-Governor trusts that better discretion will be exercised by all District Magistrates in regard to the grant of licenses, with the special object of checking the use of unlicensed arms. The system of numbering the guns before granting licenses is very important, and should invariably be resorted to. The question how to deal with the non-renewal of such licenses has already been taken up, and is under consideration in the Judicial Department.

11. The Lieutenant-Governor regrets to learn that there was an increase in the number of offences against public tranquillity, and that very rarely were active measures taken by the police to prevent riots and arrest the offenders. Instead of arrests being made by the police of rioters captured *in flagrante delicto*, most of the cases of this class were taken up by the Magistrates on complaints made in Court. Mr. Luttmann-Johnson states that, in a sub-division notorious for the prevalence of riots, only one person out of about 17,000 was bound over to keep the peace. His Honour thinks that such precautions should be taken more largely than at present. There was some serious detention of witnesses for more than two days, but the remands show improvement. The references to the High Court, regarding certain matters which came under the attention of the Commissioner when inspecting criminal courts, mentioned in paragraph 105, were judicious, and have borne useful fruit.

12. The Lieutenant-Governor is glad to observe that, out of 21,905 cases disposed of in the division, the Honorary Magistrates disposed of 5,453 cases, or 24·8 per cent. of the total; and agrees with the Commissioner's opinions in paragraphs 112 and 113 as to the better utilization of the voluntary services of this useful body of men.

13. Although there was, on the whole, a decrease of 29 educational institutions in the division during the year, it was unattended by a falling off in the number of pupils which, on the contrary, showed a slight increase. There has been an increase both in the number of schools and pupils for primary education. The different municipalities in the Division contributed Rs. 2,672 during the year, against Rs. 942 in 1892-93, towards this branch of instruction. Muhammadan education has progressed favourably, and there was an increase in the attendance of Muhammadans in all classes of schools. The results of the University examination do not appear to be favourable. There was a falling off in the number passed at the First Examination in Arts, and the B. A. results also are not good.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

*Secretary to the Govt. of Bengal.*

ANNUAL GENERAL ADMINISTRATION REPORT OF THE DACCA DIVISION  
FOR THE YEAR 1893-94.

No. 1294L.R., dated Dacca, the 30th June 1894.

From—H. LUTTMAN-JOHNSON, Esq., Commissioner of the Dacca Division,  
To—The Secretary to the Government of Bengal, General Department.

I HAVE the honour to submit the General Administration Report of the Dacca Division for the year 1893-94. The instructions contained in Government Circular No. 6, dated the 24th February 1893, and its No. 531, dated 15th February 1894, have been duly attended to.

Preliminary.

I remarked in my report for 1892-93 that I would take steps to have this report submitted more punctually in future. The first step was to direct District Officers to submit their reports section by section. It is, I think, plain that the best time for writing the sections for the calendar year, such as Police and Crime, is when the annual reports on those subjects go forward. The section for the Annual General Administration Report is but an epitome of the detailed report. I observe that the calendar year sections, including appendices, occupy 52 pages out of 121 in my report for 1892-93. I hoped, therefore, to have had these pages ready by 31st March. Unfortunately it was necessary to return the Backergunge sections for correction, and owing to the transfer of the Magistrate they were not resubmitted till 6th June. Such a misfortune is not, I think, likely to recur. Some other sections, such as Material Condition of the People, might be prepared before 31st March.

The table below shows the date on which the earliest and latest sections came to hand:—

DISTRICT.	Name of officer.	Date of receipt of earliest sections.	Date of receipt of last sections.	Date of receipt of complete information.
Dacca ...	Mr. T. L. Jenkins	31st March 1894	23rd May 1894	27th June 1894.
Mymensingh	" A. Earle ...	14th April "	1st June "	28th " "
Faridpur ...	" J. L. Herald	23rd " "	23rd " "	28th " "
Backergunge	" H. LeMesurier	8th March "	11th " "	28th " "

Another step was to get each Collector to lend me one of his superior clerks when he had submitted all his annual reports for the financial year. In this way my office was recruited at the most critical time by two good clerks.

2. I have not found that the business of preparing reports and submitting them punctually is thoroughly understood in this Division. I have found that it is not understood that due date means latest date. The use of the term due date is perhaps equivocal. The due date is of course the first day after the period reported on. Then I found very few officers commence the preparation of reports before the completion of the period reported on, as inculcated in rule 8 (c), Chapter V of the High Court's Criminal Courts' Manual. In very few cases are returns for eleven months prepared in the course of the 12th month of the year.

I.—CHARGE.

Division.

3. I was in charge of the Division throughout the year.

Districts. 4. The following officers were in charge of the several districts of this Division:—

DISTRICT.	Name of officer.	Period of incumbency.
1	2	3
Dacca ...	Mr. T. L. Jenkins ...	1st April to 3rd September 1893 and from 7th December 1893 to 31st March 1894.
Mymensingh ...	" J. H. Lea ...	4th September to 6th December 1893.
	" A. Earle ...	Whole year.
	" E. F. Growse ...	1st April to 16th September 1893 and from 16th November 1893 to 18th February 1894.
Faridpur ...	" N. D. Beatson Bell ...	17th September to 15th November 1893.
	" R. R. Pope ...	19th February to 31st March 1894.
	" H. Savage ...	1st April to 26th August 1893 and from 27th October 1893 to 5th March 1894.
Backergunge ...	" S. K. Agasti ...	26th August to 26th October 1893.
	" H. LeMesurier ...	6th to 31st March 1894.

Practically there was very little change until quite towards the end of the year, when I regret to say, after five years' incumbency, Mr. H. Savage retired from the very responsible and onerous charge of the district of Backergunge, on well-earned furlough. Mr. Growse, Collector of Faridpur, was transferred about the same time to a lighter charge.

Subdivisions. 5. The undermentioned officers were in charge of the several subdivisions:—

DISTRICT.	Subdivision.	Name of officer.	Period of incumbency.
1	2	3	4
Dacca ...	Narayanganj ...	Mr. J. H. Lea, Joint-Magistrate.	1st April to 2nd September 1893.
	Munshiganj ...	" L. T. R. Lucas	3rd September to 31st March 1894.
	Manikganj ...	Babu Srish Chandra Ghosh...	Whole year.
	Kishorganj ...	" Ram Sadan Bhattacharjee	Ditto.
	Tangail ...	" Srinath Chatterjee	Ditto.
Mymensingh ...	Netrakona ...	" Shih Chandra Nag	1st April 1893 to 31st January 1894.
		" Gagan Chandra Das	1st February to 31st March 1894.
		" Jagat Chandra Bose	1st April to 25th July 1893.
		" Annoda Prosad Bose	26th July 1893 to 31st March 1894.
	Jamalpur ...	Maulvi Ahmed	1st to 4th April 1893.
		Mr. J. H. Temple	5th April to 11th June 1893.
		Babu Chandra Sikar Kar	12th June 1893 to 31st March 1894.
Faridpur ...	Goalundo ...	Mr. B. K. Mullick, Joint-Magistrate.	1st April to 17th July 1893.
	Madaripur ...	Babu Rajani Nath Chatterjee	18th July 1893 to 31st March 1894.
	Pirojpur ...	Maulvi Fazlal Karim	Whole year.
	Bhola ...	" Faizuddin Hossein	Ditto.
Backergunge ...	Patuakhali ...	Babu Chandra Kumar Dutt	Ditto.
		" Prasanna Kumar Karforma.	1st April to 2nd June 1893 and from 3rd August 1893 to 31st March 1894.
		" Jamini Mohun Das	3rd June to 2nd August 1893.

In only four subdivisions were there permanent changes, Narayanganj, Netrakona, Jamalpur, and Goalundo; in two there were temporary changes; while in six there were no changes at all. My Division has in this respect been exceptionally fortunate.

## II.—TOURS AND INSPECTION OF OFFICES.

6. In accordance with the orders now in force (*vide* paragraph 3 of Government Resolution, Miscellaneous, No. 3987T G, dated the 17th October 1891), I did not confine my tour to any particular season, but was out from time to time as occasion required, or opportunity offered, during all the months of the year except June, when I

was detained at the head-quarters by the annual reports. Altogether I spent 146 days on tour. My tour was distributed as follows:—

April	1893	...	...	6 day
May	"	...	...	4 "
July	"	...	...	22 "
August	"	...	...	16 "
September	"	...	...	10 "
October	"	...	...	19 "
November	"	...	...	2 "
December	"	...	...	12 "
January	1894	...	...	24 "
February	"	...	...	14 "
March	"	...	...	17 "

146

I visited all the district head-quarters' stations—Barisal twice and Mymensingh four times—and all subdivisional head-quarters, except Jamalpur in Mymensingh and Bhola in Backergunge. I should have visited Bhola in February, but thought it my duty to return to Dacca to meet the Hemp Drugs Commission. Want of water prevented my visit to Jamalpur in September.

My steamer was away from her anchorage at Dacca for 118 days, but she ran only 63 days—47 days with Commissioner and 16 days with other officers. She was absent at Calcutta in November and December.

7.\* The Collectors were on tour—

(b) Tours of Collectors.

Dacca	...	...	...	115 days.
Mymensingh	...	...	...	126 "
Faridpur	...	...	...	109 "
Backergunge	...	...	...	134 "

or 121 days on the average, as in the preceding year. The Collector of Faridpur is only required to spend 90 days on tour. In Dacca, Mr. Jenkins was on tour for 85 days in nine months, while Mr. Lea, who officiated for him for three months, was out for 30 days. Mr. Jenkins gives the following explanation:—"I intended to go out during the latter part of March to complete the 120 days touring, but was detained at head-quarters owing to pressure of work. As my appellate and general work at head-quarters is very heavy, I beg strongly to reiterate the remarks of my predecessor, Mr. Hare, regarding the necessity of reducing the maximum number of days spent in touring from 120 to 90. Another special reason in favour of my proposal is that as the district is intersected by large rivers, the most outlying places can be visited during the rainy season. During the winter season the prevailing malaria is very deadly."

A reference to correspondence ending with my letter No. 399J. of 23rd February 1894 will show that I am endeavouring to relieve the Magistrates of Mymensingh, Dacca and Faridpur of some of their criminal judicial appellate work. Mr. Jenkins may be excused his short outturn on the ground of his liability to malaria. I do not support his proposal to reduce the maximum number of days he should be in camp.

The Collector of Dacca spent some days of each month on tour, while Mr. Earle, the Collector of Mymensingh, was in camp in all the months except April and August. In Faridpur there was no touring in April, May and September, owing, it is said, to pressure of work at the head-quarters. But this is a light district.

Mr. Earle makes the following remarks:—

"There are four subdivisions in this district, and if, as is required by the rules and as was done in the year under report, they are fully inspected twice a year, at least 56 days are taken up on this work alone; I say 56 days, because what with going and coming back and carrying on ordinary duties simultaneously, an inspection of the offices, as also of the thana, municipality, dispensary, Sub-Registrar's office and schools, cannot be done in less than seven days, while it generally takes more. No doubt inspections are desirable, but I think that

they are made at too great a cost in this district. I feel that I have seen too little of the district at large and too much of the subdivisional head-quarters."

I agree with Mr. Earle that much time is wasted on inspection, and have, in my letter No. 508L.R., dated 9th May 1893, made a representation to the Board in the sense of paragraph 17 of my report for 1892-93. Further experience convinces me that much injury is done to the public service by these frequent inspections. The office inspected is disarranged during the inspection, and the inspecting officer's very valuable time might be better occupied, as Mr. Earle justly says, in touring.

In Faridpur, owing to prevalence of distress almost all over the district, and specially in the Bil country, the greater portion of the touring of the Collector was devoted to enquiries about the condition of the people and of the paddy, and to devising means for relief. Some bad-livelihood cases were also tried on the spot by Mr. Growse.

Mr. Savage, Collector of Backergunge, was in camp in all the months except May and June.

#### 8. The Subdivisional Officers made the following tours:—

Tours of Subdivisional Officers.

DISTRICT.	Subdivisional Officers of—	Time spent.	REMARKS.
1	2	3	4
		Days.	
Dacca	Narayanganj ...	94	Mr. Lea had three ponies and engaged a boat occasionally. Mr. Lucas has been directed to procure a pony. He does not keep any boat, but gets one from Dacca when required.
	Munshiganj ...	92	Babu Srish Chandra Ghosh kept a pony and employed a boat during the rains and in the dry season, when he was required to visit char lands, &c.
	Manikganj ...	106	Babu Ram Sadan Bhattacharjee kept a pony throughout the year and a boat in the rainy season.
Mymensingh	Jamalpur ...	96	All the officers kept boats during the rains. The Subdivisional Officer of Netrakona kept a pony during the cold season.
	Kishorganj ...	97	
	Netrakona ...	94	
	Tangail ...	90	
	Goalundo ...	96	During the rains the Subdivisional Officer travelled in a boat and in the cold weather by rail and on horse-back.
Faridpur	Madaripur ...	188	The Subdivisional Officer keeps a hired green-boat.
Backergunge	Pirojpur ...	95	All the Subdivisional Officers kept boats, as no other mode of travelling in the district is practicable, the district being intersected with khals and rivers.
	Patuakhali ...	106	
	Bhola ...	91	

I find that when His Honour the Lieutenant-Governor of Bengal visited Dacca in 1886, it was represented to him that the Narayanganj Subdivisional Officer's prolonged absence from Narayanganj caused considerable inconvenience. On enquiry I was unable to discover any such inconvenience, and accordingly the same minimum has now been fixed for Narayanganj as for other subdivisions.

Out of 188 days spent on tour by Maulvi Fazlal Karim, the very energetic Subdivisional Officer of Madaripur, 106 days were on relief work. A second officer was posted to the subdivision from the Sadar to enable the Subdivisional Officer to deal effectively with the distress. The Subdivisional Officer writes:—"I was compelled from July to spend the greater portion of my time in the interior of the subdivision to make enquiries about the condition of the people, adopt means for relief, and finally to make enquiries under the Agriculturists' Loans Act and grant loans to the distressed people on the spot. This special work kept me out on tour for 106 days."

The average number of days spent on tour by the Subdivisional Officers is a day above the prescribed minimum. As noticed in paragraph 11 of my report

for 1892-93, the rules regarding the charge of subdivisional treasuries somewhat impede the movements of officers stationed at subdivisions. In my letter No. 334L.R., dated 23rd April 1894, I have made a representation to the Board of Revenue on this subject.

Except in Mymensingh, officers attached to the Sadar subdivision, unless specially employed on peripatetic duties, do little touring. Mr. Earle, the Collector of Mymensingh, writes:—

“The two first class Magistrates in charge of the Sadar subdivisions, viz., the east and west Sadar subdivisions, were out on tour for two months each, and will, in the current year, have to be in the mufassal for 90 days each. The Sadar subdivision is therefore now receiving the attention which it has always merited, and bad characters, who were immune as long as no Magistrate came to their villages, are rapidly being brought to account.”

9. I inspected the treasuries at Mymensingh, Barisal, and Faridpur during the year, and that at Dacca in April 1894. I made some inspection of the Collectors' and Magistrates' offices at Mymensingh, Barisal, and Faridpur during the year, and have done some of the Dacca offices since the close of the year.

(2) Collectors.  
The following table shows the dates of inspection of district offices and treasuries by Commissioner and Collectors:—

DISTRICT.	By whom inspected.	Dates of inspection of offices.	Dates of inspection of treasuries.
1	2	3	4
Dacca ... {	By Commissioner ...	None ...	None.
	„ Collector ...	August 1893 and March 1894 ...	6th September 1893 and 31st March 1894.
Mymensingh ... {	„ Commissioner ...	20th March 1894 ...	4th October 1893.
	„ Collector ...	3rd August to 4th September 1893 and 26th February to 13th March 1894.	2nd October 1893 and 31st March 1894.
Faridpur ... {	„ Commissioner ...	15th and 17th to 19th December 1893.	13th and 14th December 1893.
	„ Collector ...	September 1893 and 13th to 28th March 1894.	3rd April and 1st October 1893.
Backergunge ... {	„ Commissioner ...	9th August 1893 and 10th February 1894.	10th August 1893.
	„ Collector ...	5th September to 11th October 1893 and 8th to 27th March 1894.	3rd and 17th April and 12th October 1893.

The Collectors of all the districts of the Division inspected their offices twice during the year.

Inspection of Subdivisional Offices and Treasuries by—  
(1) Commissioner.

10. The following table shows the dates on which the subdivisional offices and treasuries were inspected by me:—

DISTRICT.	Subdivision.	Dates of inspection of subdivisional offices.	Dates of inspection of sub-treasuries.
1	2		
Dacca ... {	Narayanganj ...	Not inspected ...	No sub-treasury.
	Munshiganj ...	Ditto ...	Not inspected.
	Manikganj ...	17th May 1893 ...	17th May 1893.
	Jamalpur ...	Not inspected ...	Not inspected.
	Kishorganj ...	18th January 1894 and following days.	Ditto.
Mymensingh ... {	Netrakona ...	11th to 13th January 1894 ...	Ditto.
	Tangail ...	14th and 15th September 1893 ...	Ditto.
Faridpur ... {	Goalundo ...	13th September 1893 ...	13th September 1893.
	Madaripur ...	18th to 20th July 1893 ...	Not inspected.
	Pirojpur ...	31st July, and 3rd and 4th August 1893.	Ditto.
Backergunge ... {	Patuakhali ...	27th July 1893 ...	Ditto.
	Bhola ...	Not inspected ...	Ditto.

In the preceding year all the subdivisinal offices and sub-treasuries were inspected by the Commissioner. I have inspected the Munshiganj offices since the close of the year.

(2) Collectors. The subjoined table shows the dates on which the subdivisinal offices and treasuries\* were inspected by the Collectors:—

District.	Subdivision.	Dates of inspection of subdivisinal offices.	Dates of inspection of subdivisinal treasuries.
1	2	3	4
Dacca	Narayanganj ...	22nd and 28th September and 18th and 19th December 1893.	No sub-treasury.
	Munshiganj ...	26th and 27th September 1893 and 21st and 22nd March 1894.	27th September 1893 and 22nd March 1894.
	Manikganj ...	7th and 8th July 1893 and 14th and 16th February 1894.	8th July 1893 and 15th February 1894.
Mymensingh	Jamalpur ...	23rd September 1893 and 16th February 1894.	26th September 1893 and 16th February 1894.
	Kishorganj ...	24th June 1893 and 17th January 1894.	26th June 1893 and 17th January 1894.
	Netrakona ...	14th July 1893 and 11th January 1894.	15th July 1893 and 10th January 1894.
	Tangail ...	12th September 1893 and 20th March 1894.	11th September 1893 and 17th March 1894.
Faridpur	Goalundo ...	13th to 15th July 1893 and 7th February 1894.	13th July 1893 and 6th February 1894.
	Madaripur ...	16th August 1893 and 25th February 1894.	31st August 1893 and 24th February 1894.
Backergunge	Pirojpur ...	25th September 1893 and 17th to 22nd January 1894.	29th August 1893 and 18th January 1894.
	Patuakhali ...	9th October 1893 and 13th to 15th February 1894.	4th October 1893 and 13th February 1894.
	Bhola ...	12th to 15th July 1893 and 4th to 6th December 1893.	13th July and 4th December 1893.

All the subdivisinal offices and treasuries were twice inspected in the course of the year, as required by the rules.

The Sub-Deputy Magistrate's office at Gopalganj in the Faridpur district was twice inspected by the District Magistrate. I also inspected this office in August 1893.

Mr. Earle, the Collector of Mymensingh, relates a curious incident in connection with touring, which illustrates forcibly the character of the people of Eastern Bengal. He writes:—

"Before closing this section I might allude to a tour incident which occurred in the course of a visit of the Commissioner of the Division to this district. While his carts were proceeding from Syanganj to Jaria on the Mymensingh-Durgapur road, his servants, including a chaprasi with his *chaprass* and two khalasis in blue, saw some straw in a field adjoining the road, and being in need of it, proceeded to appropriate it, offering the owners the price. The latter, however, were not inclined to be accommodating, but, on the contrary, resenting the action of the Commissioner's servants, assaulted some of them somewhat severely. Three of the assailants were subsequently put on their trial before the Subdivisional Officer of Netrakona, of whom two were fined and one acquitted for want of identification. This incident exemplifies the independent spirit of the Mymensingh villagers."

I may add that the punishment would have been more severe had I not pleaded with the Magistrate for leniency.

Since the close of the year a somewhat similar incident has occurred in the neighbourhood of Mymensingh. A party of the Dacca khodda were returning from Jalpaiguri, and encamped on a piece of waste land by the side of the road. The villagers turned out and attacked them, apparently without provocation other than that given by the fact of the party having encamped in the village. Some of the mahouts were badly hurt.

### III.—WEATHER AND CROPS.

11. The average rainfall was 88·49 inches as against 70·76 inches in the previous year. In 1889-90 the average was 81·22 and that was an abnormally wet year. The average of the five years ending 1892-93 was 68·58 inches. So we are 19·89 inches or 28·83 per cent. above normal. There appears to be no previous record of such a rainfall, except in 1880-81, when it was more than that of the year under review by a fraction of an inch, being 88·92 inches. And the excessive rainfall was general over the whole Division; only Munshiganj, Narayanganj and Netrakona have escaped. Excessive rain would not in itself prove injurious in a rice-growing tract. This year it has been accompanied by heavy floods. The water at Dacca rose within a few inches of the record year 1886. And though rain was excessive in the rainy season, we had an abnormally dry cold weather. Altogether the year was disastrous for crops: so much so, that we have imported food.

The Collector of Dacca, where the outturn of the principal crops, *i.e.*, *aus*, *aman*, pulses, jute and oilseeds, was less than in 1892-93, and much below the average, thus analyses the effects of the weather on crops in his district during the year under review:—

“Owing to high floods and heavy and constant rain in May, June, August, and some days of July, the outturn of *aman*, *aus* and jute was poor. For want of rainfall at the time of sowing and ploughing, *i.e.*, in November and December, and scanty rain in February and March which stunted the growth of pulses, the outturn of these crops was only nine annas. The outturn of oilseeds was not good, partly owing to scanty rain at the time of sowing, and partly to their being damaged by the insects.”

The Collector of Mymensingh reports that unusual floods in the months of July and August damaged the jute and *aus* crops and retarded the transplantation of *aman* rice seedlings.

Untimely and heavy downpour caused the failure of the *aus* crop in most parts of the Faridpur district. The small outturn of *aman* and jute is due rather to flood than rainfall. On the other hand, the want of timely rain in February is reported to have affected the growth of *rabi* crops.

To the same causes is to be attributed the short outturn of crops in Backergunge, where the Collector reports the Bil country to the north-west of the district, about 100 square miles in area, was a blank sheet of water and produced no crops at all.

A violent cyclone passed over the south of the Division on the 22nd of October last. It affected specially the Bhola and part of the Patuakhali subdivisions. It is reported to have caused much mischief by blowing down houses, by uprooting and breaking down trees, by carrying away cattle, and by stranding boats and sloops. The mortality among cattle was enormous, and four persons were killed. Had this storm occurred at the spring-tides there would have been a repetition of the 1876 catastrophe.

A severe storm passed over the whole of the Dacca district in the latter part of May 1893, the remnant of a cyclone which did much damage in the Bay and at Calcutta; but no lives were lost, and the damage to property was slight.

Another violent storm on the 1st of March last was reported from Madaripur.

The prescribed statements showing the rainfall and the outturn of crops in the several districts of the Division will be found in the appendix. We know nothing of the outturn of crops: the figures in the crop statement record the aggregate impression of a number of observers. According to the statement, the main rice crop, the *aman*, was not on the whole so much short of previous years and of an average crop, as generally supposed.

## IV.—PUBLIC HEALTH.

12. The following statement shows the number of deaths reported and the death-rate per mille in the last three years:—

DISTRICT.	NUMBER OF DEATHS REPORTED IN—				DEATH-RATE PER MILE IN—		
	1890-91.	1891-92.	1892.	1893.	1891-92.	1892.	1893.
1	2	3	4	5	6	7	8
Dacca ... ..	50,236	54,398	60,024	74,415	22·4	24·79	30·74
Mymensingh ... ..	66,870	67,774	42,901	87,547	19·4	12·38	25·92
Faridpur ... ..	34,192	43,811	54,863	60,115	23·8	30·4	33·4
Backergunge ... ..	62,859	60,234	93,958	77,156	32·1	43·6	35·4
Total ...	224,393	234,157	251,890	290,273	23·7	26·5	30·4

We are only now organizing our rural police in such a manner that we can rely on their giving information of deaths and of other matters, so too much stress must not be laid on the above figures. The year was no doubt a healthy one in Mymensingh, and the increased death-rate must be attributed wholly to improved registration, although there was more cholera than usual. Backergunge, which is far ahead of other districts in the organization of its village police, was more healthy than in the previous year. Dacca and Faridpur, on the other hand, were affected with cholera in a severely epidemic form. Deaths from this cause increased in Dacca from 5,513 to 17,610, and in Faridpur from 3,939 to 11,885. There has been scarcity in some tracts in Backergunge and Faridpur. In two of the thanas afflicted there was much cholera in the concluding months of the year. In the other there were fewer deaths than in the previous year.

In the following table deaths are classified according to causes reported by chaukidars, whose diagnosis is rough and defective:—

YEAR.	Cholera.	Small-pox.	Fever.	Bowel-complaints.	Injuries.	Other causes.	Total.
1	2	3	4	5	6	7	8
1893 ... ..	24,020	2,114	176,420	2,764	2,668	41,920	243,906
1892 ... ..	56,703	1,156	186,009	3,895	3,475	48,275	290,273

Fever, which is frightfully prevalent in these districts in the months of November to January, as usual, accounts for two-thirds of the deaths. The following are the details of fever district by district:—

DISTRICT.	1892.	1893.
1	2	3
Dacca ... ..	41,249	40,723
Mymensingh ... ..	36,404	56,193
Faridpur ... ..	42,302	40,558
Backergunge ... ..	56,565	47,935
Total ...	176,420	186,009

Supposing registration to have been better, this table shows that, but for cholera, the year was a healthy one in Faridpur and Dacca.

13. The subject of water-supply is engaging the attention of Municipalities and Districts Boards.

In section XXX I have noted what sums these bodies have devoted to the improvement of the water-supply in 1892-93 and 1893-94. Tanks can never give a wholesome supply of water, and are besides beyond our means. Masonry wells too are, as a rule, too expensive. We have to fall back on cheap wells costing Rs. 50 to Rs. 100 each. The common earthenware ring well with

double rings has, I think, a future before it. Then the well described in my last report, made of a special kind of segmental brick, is coming into use. The ordinary earthenware pipes supplied for building culverts make very good cheap wells. The Sanitary Commissioner very properly condemns the use of galvanized iron rings on the ground of filtration. They are unsuitable on other grounds.

The drying up of water-courses which is proceeding in many tracts (the Dacca river is an instance) makes the provision of other sources of water-supply an urgent necessity.

I have received complaints in more than one quarter that zamindars charge a salami before they will allow a new tank to be dug on their property, and that this charge in many cases deters people from improving the water-supply. No doubt it is a good principle of taxation to take your money when you can get it; to bleed a man when he is in funds and is expending them. But I think public benefactions like tanks should be excluded from taxation.

I do not hear so many complaints of jute-steeping, possibly because last year we had so much more water than usual. The Magistrate of Mymensingh says as jute is only steeped in the dirtiest and most stagnant pools, it cannot affect the supply of wholesome water.

The Chemical Examiner at Calcutta is overwhelmed with work. We much want a local laboratory where the purity of water can be tested.

14. In the month of October cholera broke out in an epidemic form in the Jamalpur Municipality. During the course of a month, viz. from 6th October to 5th November, 258 deaths were reported out of 430 cases. The population of the town is 15,388, and ordinarily some 461 persons would die in a year. Mr. Earle, the Magistrate of Mymensingh, went at once to the spot and held a meeting of the Municipal Commissioners and other residents of the town. It was decided—

- (1) To prohibit the use of well water and allow only river water to be used.
- (2) In the case of families unable to carry or get carried water from the river, to supply boiled river water to their houses.
- (3) To burn all houses where a serious outbreak had occurred, as well as old clothes, &c., of the patients.
- (4) To provide shelter for members of families whose houses are burnt, and to award compensation for the houses burnt.
- (5) To prohibit entirely the sale of milk and *dudhi* in the town.
- (6) To see the dead bodies of Hindus were properly burnt and those of Musalmans buried.
- (7) To carefully supervise the sale of fish and vegetables in the bazar.

Proper medical aid was also given. It is curious to find cholera attributed to the use of well water. I have suggested having the water of the wells analysed.

#### V.—MATERIAL CONDITION OF THE PEOPLE.

15. As stated above, the crops were generally bad and prices of food-grains were very high. As the majority of the inhabitants of my Division are producers of jute, food-stuffs and oilseeds, the high prices of these articles to some extent compensated them for short outturn. But in some parts of the Division even the cultivators were reduced to short commons, and generally wage earners, such as Rishis and people with fixed incomes, felt the high prices keenly. In some parts the helpless and infirm, and persons dependent on their neighbours or relations for support, such as widows with families, were reduced to actual distress. In the Bil country lying in the north-west of the Backergunge district and the south-west of the Faridpur district, it was found necessary to give relief in the shape of agricultural loans, earthwork at low though not at famine rates, and dhan-husking for the women.

In Mymensingh, however, it is reported that the high prices more than compensated producers for failure of the crops.

16. I have made out a table showing the incidence of the rental of each district, as discovered by the road cess valuation returns, per head of the population and per cultivated acre, including homestead. The cultivated acre

is not accurately known. I take the figures from "Agricultural Statistics of the Lower Provinces of Bengal for 1891-92":—

NAME OF DISTRICT.	Cultivated area in acres as per Agricultural Statistics of Bengal for 1891-92.	Population as per census of 1891.	Rental as returned for cess purposes.	Rental per head of population.	Rental per acre of cultivation.	Population per cultivated acre.
1	2	3	4	5	6	7
			Rs.	Rs.	Rs.	
Dacca ...	998,000	2,420,656	27,42,784	1.1	2.74	2.4
Mymensingh ...	2,712,000	3,472,186	59,73,701	1.7	2.20	1.2
Faridpur ...	1,007,500	1,797,320	21,81,382	1.2	2.16	1.6
Backergunge ...	1,343,400	2,153,965	69,76,370	3.2	5.19	1.6
Rangpur ...	1,602,800	2,065,464	44,44,652	2.1	2.77	1.2

It will be seen that the rates of rent, except in Backergunge, are very low in face of the fact that an acre produces at present prices a gross return of some Rs. 50 if cultivated in rice and jute our staple crops. I have looked up the settlements which have come before me in the year under report, and find the average rates of rent per acre are:—

DISTRICT.	Homestead.	1st class arable.	2nd class arable.	3rd class arable.
1	2	3	4	5
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Dacca ...	3 6 3	2 4 9	1 8 0	0 12 0
Mymensingh ...	3 9 0	2 4 0	1 8 0	1 2 0
Faridpur ...	3 4 6	1 15 0	1 10 6	0 12 9
Backergunge ...	3 15 0	3 6 0	...	...

Except in Backergunge, these rates corroborate the above statement. In the Dakhin Shahbazpur estate the average rental is Rs. 3 per acre.

17. If the position of the people of my Division is thus enviable from the point of view of rent, it is not less so from the point of view of taxation. The following statement shows the incidence per head of the different taxes (reckoning land revenue as a tax, though it is of course included in the rent) in my Division and in the Assam Valley Districts:—

	DACCA DIVISION.		ASSAM VALLEY DISTRICTS.	
	Amount.	Incidence.	Amount.	Incidence.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Land revenue ...	35,14,214	.35	31,65,510	1.58
Excise ...	8,12,103	.08	20,69,261	1.03
Stamps ...	25,80,229	.26	2,23,179	.11
Registration ...	2,27,348	.02	4,344	.002
Road cess ...	4,13,033	.04	2,34,762	.11
Public Works cess ...	5,14,921	.05		
Zamindari dák cess ...	54,624	.005		
Municipal tax ...	2,39,493	.02	98,556	.04
Income-tax ...	2,75,897	.02	91,566	.04
Total ...	86,32,062	.87	58,87,178	2.94

I exclude the salt tax, as its incidence does not vary greatly in different divisions, and it is very difficult to determine how much each division pays. It will be seen that the incidence in the Assam Valley Districts is more than three times as high as in my Division. There the principal item of revenue has lately been increased some 30 per cent. on the ground that the people are very lightly taxed, so the incidence now is greater than 2·94.

There can be no doubt that the people of this Division are among the most lightly taxed in India, if not in the world. Where the people of the Assam Valley Districts pay one rupee, the people of this Division can well afford to pay two, for they are very much better off. They are better housed, better clothed, better fed. Here the population is rapidly increasing, there it is stationary; it is doubtful indeed if the births exceed the deaths. The incidence of taxation then in this Division should be at least 6·8 per head instead of ·87, and the total should be 688 lakhs, not 86.

While clothing, tobacco, areca-nut, betel-leaves and other luxuries remain on the free list, it cannot be said that we have exhausted our resources. It would be mere common justice to the people of other more highly-taxed divisions and provinces to make the people of this Division contribute to the cost of the Government and defence of the country according to their means.

18. For the first time, I believe, since this report was first submitted, I regret to find myself obliged to introduce a section under this heading.

Scarcity and famine.

After holding a conference at Barisal with the Collectors of Backergunge and Faridpur, in my letter No. 2241, dated 15th August 1893, I reported to Government that there was likely to be some scarcity, perhaps even distress, in a small tract of country in the south-west of the Faridpur district and north-west of the Backergunge district, called the Bil country. I said that I thought it would be necessary to afford some relief in this tract, but that I could not commit myself to a positive opinion on this point until the existing scarcity had been tested. In this Bil country special long-stemmed species of *aus* and *aman* are sown together in March and April. In ordinary years these crops grow with the rise of the rivers in May and June, and when the water rises slowly, splendid crops are reaped. But this year the water rose very early and very suddenly (partly on account of the heavy storm of 25th May), so that much land was never sown, and nearly all the land sown was drowned. The failure of these crops was complete. The inhabitants generally get rid of their *aman* crop and depend on the *aus* for their food-supply. They had lost this crop and had no prospect of an *aman* crop to induce money-lenders to be liberal with their loans. High prices probably contributed to a depletion of food-stocks. By way of testing the scarcity, work was offered at famine rates, but it was not accepted. This I held proved that relief was not immediately needed. But I took the precaution of applying to the Board of Revenue for sanction to disbursement of Rs. 30,000 in loans under the Agriculturists' Loans Act, should such a step become necessary. Later on, sensational accounts having appeared in the newspapers, and some alarm having been manifested at head-quarters, I visited the distressed tract myself in October. I came to the same conclusion that previous observers and enquirers had come to. I found there was so far no general distress. Many families were reduced to short commons, but I found no general want of food. The people generally appeared to be well-nourished. But here and there I found persons, who could not work and who were ordinarily dependent upon relations or upon public charity, in great need, indeed starving. With a view to the relief of these helpless persons, I sanctioned the collection of subscriptions and the opening of relief centres from which paddy could be distributed to the really necessitous. I also sanctioned the grant of loans under the Agriculturists' Loans Act from the Rs. 40,000 sanctioned by the Board.

As soon as the water subsided in December, some roads which had long been in contemplation in these tracts were put in hand at rates which, though very low for these districts, were not famine rates, in that workers were allowed to earn as much as they liked. As work on the new railway from Chandpur to Comilla had commenced, I took steps to inform the people of the distressed tract that work was available, and also directed the Magistrates of Faridpur and Backergunge to communicate with the railway

authorities with a view to providing facilities for recruitment of labour. Special steps were taken to relieve the infirm and helpless; subscriptions were collected and arrangements made for the distribution of gratuitous relief in different centres to persons unable to work. Arrangements were made to provide helpless women with rice-husking in their own houses.

The following is a summary of the expenditure incurred in relief measures:—

<i>Backergunge.</i>				Rs.	A.	P.
Total paid to labourers on work	...	...	...	177	15	2
Total cost of gratuitous relief	...	...	...	4,121	15	4½
				4,299	14	6½
Loans given to the cultivators under the Agriculturists'				17,000	0	0
Loans Act	...	...	...			
<i>Faridpur.</i>				Rs.	A.	P.
Amount spent on gratuitous relief from subscriptions				3,615	12	0
raised	...	...	...	1,500	0	0
Amount spent by District Board	...	...	...	4,915	8	0
Loans given by the District Board	...	...	...	22,753	0	0
Loans given by Government under the Agriculturists'						
Loans Act	...	...	...			

I do not include the cost of works carried out by the District Boards, as famine rates were not charged for them.

In my final report on this distress I wrote there was nothing approaching famine in either of the districts at any time, which is proved by the fact that people would not accept work at famine rates. At the same time there was real distress among helpless and dependant persons. I do not think that such people would have died had we not given relief. The relations of such persons, though they would let them starve, would not have let them die. Native gentlemen, both official and non-official, and the missionaries who are well acquainted with the distressed area, where they have a good many converts, were all of opinion that the distressed people would rather starve than accept famine rates—a theory I have not been able to bring myself to accept.

There was a good deal of cholera in the distressed area in the fall of the year, which may have been partly due to the short food-supply. But there was cholera in undistressed areas too. Beyond this, the scarcity has not had any special effect on the death-rate. There has been no death from starvation. Now and then accounts reached me through the newspapers of such deaths. Prompt enquiries were made in these cases, and I am glad to say that in not a single instance was the report proved to be correct.

Crime has been but little affected by the scarcity. The Collector of Backergunge reports that "some old thieves who, in 1892, had given a little trouble, recommenced their depredations in 1893, probably on account of the hard times, but there was no crop of petty thefts by men driven to criminal courses by hunger." In section XIII (Crime) I have noticed the effect of scarcity on crime.

I am now inclined to think I was weak in allowing any relief measures at all. Mr. Growse, the Collector of Faridpur, was from the first rather alarmist in his views, and had I not had the reports of his neighbour, Mr. Savage, Collector of Backergunge, for comparison, I should probably have gone further than I did. Mr. Savage adopted a practical common-sense view of the situation throughout, in spite of the outcry in the newspapers and elsewhere. Maulvi Fazlal Karim, Subdivisional Officer of Madaripur, has been a bright exception to the alarmist crowd. He has all along taken a moderate and sensible view of the state of affairs, and has been a great support to me. I regret to have to add that the missionaries residing in and near the distressed tract have almost without exception taken an exaggerated view of the situation. The fact probably is that they do not know what famine is, and I trust they may never be enlightened.

#### VI.—EMIGRATION AND IMMIGRATION.

19. The Collectors of Dacca, Mymensingh and Backergunge report that, properly speaking, there is no regular emigration from, or immigration into,

their districts. There is much temporary migration in search of work both inter-district and from outside. The people of Eastern Bengal are, as a rule, too well off to work as day-labourers; their place is supplied by immigrants from Bihar. For instance, there is a large settlement of such people at Narayanganj.

In the paddy-cutting season there is a large migration from Faridpur to Backergunge and Khulna. The cultivators of these districts enjoy seeing other people cut the paddy for them. Owing to scarcity in the former district the migration was larger than usual this year.

The Collector of Mymensingh reports that boatmen from the Tangail subdivision go to other districts, and shop-keepers from the Kishorganj subdivision go to Calcutta; while Muhammadans from the Kishorganj and Netrakona subdivisions go to Rangpur and other districts with dried fish for sale. The fishermen of the bordering districts, such as Sylhet, come to catch fish in his district in the beginning of the cold weather and go away in April.

The following statement shows the number of coolies embarked at Goalundo during the year under review for the labour districts as compared with the previous year:—

YEAR.	UNDER CONTRACT.			Free emigrants.	Grand Total.
	Assam.	Cachar and Sylhet.	Total.		
1	2	3	4	5	6
1892-93 ... ..	12,542	5,895	18,437	27,052	45,489
1893-94 ... ..	11,394	5,106	16,500	19,978	36,478

There was only one case instituted in the Division during the year under review, under Government order No. 1848J., dated the 21st April 1892. The Embarkation Agent at Goalundo refused to allow a batch of free emigrants to proceed, as they were not properly provided. The man in charge of them, however, took tickets for them and put them on board the steamer. He was fined Rs. 35. That only one case occurred under the Act is, I think, satisfactory proof of the harmonious working of the Act and Rules so far as Goalundo is concerned, and is highly creditable to the Embarkation Agent, Babu Kishori Lal Banerjee, whose conduct of the business leaves nothing to be desired.

#### VII.—PRICES OF FOOD AND LABOUR.

20. The prices of imported articles such as wheat, grain and salt remained the same as in the previous year. The price of rice, our principal food crop, which rose in 1892-93 at times almost to famine rates, continued very high. The divisional average is—

1889-90	...	...	...	15.14
1890-91	...	...	...	15.12
1891-92	...	...	...	13.14
1892-93	...	...	...	11.11½
1893-94	...	...	...	11.8½

As stated in sections III and V, there has been, except in Mymensingh, a general failure of the rice crop all over Eastern Bengal including Sylhet. This is quite enough to account for the high prices. It is further said that the cultivators became alarmed at the bad prospects of the crops, and held their stocks. The food-supply, even when sufficient, was therefore not always available.

Though the divisional average is not very alarming, in places the price rose far below this. The curious spectacle has been witnessed of large imports of rice from outside, especially from Patna and Rangoon. Meanwhile our exports of table rice continued.

Though where wages are reported to vary from 3 to 6 annas per diem and from Rs. 2-8 to Rs. 5-4 per 1,000 cubic feet of earthwork, it is difficult to form an opinion, I gather that in Faridpur and Backergunge the wages of the common cooly have fallen. It is reported that there was a greater demand for

employment owing to the general failure of crops. Still I think, as in previous years, we have had to depend generally upon imported labour, and that it is only in very restricted areas that people have condescended to seek employment to which they are unaccustomed.

#### VIII.—MINES AND MANUFACTURES.

21. There are no mines in this Division, and the statistical form No. V is therefore blank. The streets in Dacca are largely  
Mines.
metalled with a kind of heavy black iron-stone, said to be slag from old iron smithy works, and found in certain tracts in parganas Bhowal and Kasimpur, lying north of the town of Dacca.

22. As stated in previous reports, there are no large manufactures in this  
Manufactures.
Division. The Collector of Mymensingh reports that the Netrakona cheese trade is languishing, but he does not mention the cause or causes of this decline, and furnishes no statistics. The steam flour and oil mill which was started at Dacca in the year 1892-93 has been closed. The steam oil-mill at Jhalakati is still working.

#### IX.—TRADE AND COMMERCE.

23. There was no marked change in trade routes or trade centres in the  
General.
Division during the year under review. The opening of a steamer service by the I. G. S. N. Co., connecting Madaripur with Goalundo, Barisal, Chandpur and Narayanganj and other important centres of trade, has given an impetus to the development of trade in the Madaripur subdivision. On the other hand, the depth of the river Brahmaputra in Mymensingh not being sufficient to admit of a steamer plying in it at all seasons, the passenger service started in 1892 between Jamalpur and Mymensingh was discontinued. A proposal to construct a pontoon bridge over the Brahmaputra at Nasirabad is now under consideration, and if it is given effect to, traffic from the east of Mymensingh will be greatly facilitated.

24. The principal articles of export from the Division are jute and rice.  
Export.
The cultivation of both was injuriously affected by untimely and excessive rain and high floods. The area under jute cultivation was also a little less than the average, at least in Mymensingh, if not elsewhere. This was due to the market in this article being low in the preceding year. Narayanganj, the chief centre of trade in jute in the Division, exported less jute last year than in 1892-93. Madaripur is growing in importance as a market for jute.

Backergunge and Mymensingh are the only districts in the Division which are noted for their export of rice; Dacca and Faridpur hardly export any rice, both being importing districts, jute having to a considerable extent supplanted the cultivation of rice. The export of rice from Backergunge came down to 20 lakhs of maunds from 53 lakhs of maunds in 1891-92 and 35 lakhs of maunds in 1892-93. Owing to a partial failure of the *aus* crop in the Backergunge district and in portions of the Tippera and Sylhet districts, exportation on a large scale took place from Mymensingh in the month of August. Prices ruled very high, being in some places Rs. 7 per maund, but they have come down to about Rs. 4 per maund, at which figure they stand up to date.

Of the other exports from the Division, mention may be made of betelnuts and coconuts in Backergunge, which grew in abundance last year and were sold at higher prices than in 1892-93. Faridpur exported a large quantity of fish to Calcutta and other places, and dried fish was also exported as usual from Mymensingh. The trade in hides is gradually falling off in the Division. Nothing is said of the export of bones, but I have found much of this going on.

25. The total trade of Narayanganj increased from Rs. 72,34,513 in  
Imports.
1892-93 to Rs. 72,49,960 in 1893-94, and the increase was all under imports, which consisted of rice, salt, cotton, hides and skins, jute, kerosine-oil, teak and other timber and treasure. The increase was under all of these articles except salt, cotton, jute and kerosine-oil. The decrease was chiefly under salt, the importation of which has fallen off, owing to the price being high at Chittagong.

The most noteworthy fact during the year under review was the importation, I believe for the first time, of Rangoon rice. In January last I found cargoes of rice entering as well as leaving the Backergunge district by the Calcutta canals.

Kerosine-oil, foreign and Bombay piece-goods, refined sugar, tobacco, timber and various fancy articles, were as usual imported for local consumption. The trade in European piece-goods flourishes and daily increases in bulk, while native made piece-goods are being superseded by them almost everywhere, not on account of the quality, but of the cheapness of the former. Kerosine-oil also has almost displaced all other oils for lighting purposes on account of cheapness.

#### X.—ADMINISTRATIVE CHANGES.

26. The only administrative change of any importance was the transfer of the Badla outpost from the Netrakona to the Kishoreganj subdivision in the district of Mymensingh.

The outposts at Deorah in thana Bhanga and at Habiganj in thana Madaripur in the Faridpur district have been abolished according to the recommendation of the Police Redistribution Committee.

The outposts at Taktoly (Bhola subdivision) and Chaltabunia (Patuakhali subdivision) in the district of Backergunge have been abolished from 1st January 1894.

The amalgamation of revenue and criminal process-serving establishments at sadar and subdivisions has been effected in all districts, and also in all districts revenue processes are now sent by post to subdivisions. I think it will be possible to decentralize still further and to post our process-serving establishment at thanas—a proposal I made some 25 years ago, but we want further time.

I quote below the remarks of the Collector of Mymensingh on the effect of these changes:—

“From an administrative point of view it is far more satisfactory that revenue processes should be served by peons posted permanently at subdivisions, and hence intimately acquainted with the means of communication, names of estates, &c., than by men stationed at the Sadar, and it is expected that owing to the closer supervision which has been rendered possible by the distribution, the malpractices of the peons, which have formed the subject of many complaints, will be sensibly checked.”

We took Rs. 71,572 in process fees and Rs. 19,118 as fees for boats in the year, and we spent Rs. 68,535; so we make a profit of Rs. 22,155, which is very good when it is remembered that neither process fees nor boat hire are charged on 41·17 per cent. of our processes.

The increase of work in the Magistrate's office, especially Subdivisional Magistrate's office, caused by the transfer of most of the Court Sub-Inspectors' work to them, was noticed in last year's report. The strain on the subdivisional establishment is very great, as before the transfer they were over-worked. They habitually attend cutcherry in the morning as well as in the forenoon.

There were the following minor changes:—

- (1) An Honorary Magistrate with first class powers was appointed at Manikganj and empowered to sit singly.
- (2) An Honorary Magistrate at Narayanganj was vested with second class powers.
- (3) Two additional Honorary Magistrates were appointed at Manikganj with third class powers.
- (4) Babu Gour Mohan Basak, Honorary Magistrate at Mymensingh Sadar, has been empowered to sit singly with third class powers.
- (5) Babu Kisto Chandra Sarkar at Tangail has been empowered to try cases singly with second class powers, and the District Magistrate has directed that under paragraph 2 of the Government notification dated 10th May 1893, when the Honorary Magistrate sits with any other members of the bench, the bench so formed shall exercise first class and summary powers.

- (6) Babu Ishan Chandra Nag at Jamalpur has been authorized to sit singly with third class powers.
- (7) Rai Radha Ballav Chaudhri Bahadur has been authorized to sit singly with second class powers and to receive complaints at Sherpur.
- (8) Babu Kali Kumar Ukil at Netrakona has been empowered to sit singly with third class powers.
- (9) Babu Guru Prasad Chakravarty at Kishoreganj has been empowered to sit singly with second class powers, and the District Magistrate has directed that the Bench in which he sits with any other member should exercise first class and summary powers.
- (10) Babu Prasanna Chandra Chaudhri at Bazitpur has been empowered to sit singly and to try cases under section 24, Act V of 1861, and the Municipal Act, III (B.C.) of 1884.
- (11) A new sub-registry office has been opened at Katiadi in the Kishoreganj subdivision.
- (12) Maulvi Amiruddin, a retired Deputy Magistrate, has been appointed an Honorary Magistrate with first class powers at Faridpur, and has been authorized to try cases singly.
- (13) Babu Deno Nath Sen has been appointed Honorary Magistrate of the Madaripur Bench with second class powers and with powers to sit singly.
- (14) Maulvi Obedullah, Honorary Magistrate and Rural Sub-Registrar, Pirojpur, has been vested with second class powers and with power to sit singly.

The Bhushna Bench in the district of Faridpur has been abolished.

27. With reference to paragraph 51 of my report for 1892-93, and paragraph 5 of the Lieutenant-Governor's Resolution thereon, about the more economical distribution of work at district head-quarters by the separation of judicial and executive functions, Mr. Earle, the Magistrate of Mymensingh, writes as follows:—"A year's experience has fully confirmed me in thinking the above system the right one. It enables the District Officer to assign the work that each subordinate can do with almost absolute precision, and thus must result in the best possible use being made of the staff allotted to him. It gives each officer a definite interest in the business assigned to him, and bad work in respect of revenue and miscellaneous matters cannot, as of old, be excused by a plea of excess of criminal work. The system is a very convenient one for the public, inasmuch as the departments are distributed among the staff in such a manner that inconvenient delays do not occur; the Treasury Officer, for instance, whose whole time may any day unexpectedly be engaged in treasury business, having little or no work which will require his having dealings with the public. The system has further advantages. In a heavy district like this, the more work the District Officer can safely depute to others, the better. The criminal work of the Sadar subdivision, which is equal to that of any two other subdivisions in the district, is equally distributed between two first class Magistrates, who have distinct thanas assigned to them." I am not yet in a position to submit a report on this new division of labour. Though apparently new in this Division, and perhaps in Bengal, it is of course as old as the hills. When I was a Magistrate it would not have occurred to me to adopt any other. The Magistrate of Backergunge, Mr. Savage, objects that if an officer is confined to one function he will acquire no experience of others. The reply is that though officers do not perform judicial and executive functions at one time, they should be transferred from time to time, from one line to the other. The more functions performed at one time, the less thorough the experience of any one of them is likely to be.

#### XI.—STATISTICAL ENQUIRIES.

28. No statistical enquiries of any importance were undertaken in any district of the Division during the year under report. A census of horses and ponies was taken in all districts, under instructions of the Director of Land Records, Bengal, with a view to include the statistics in the revised edition of

the Statistical Atlas of India, which the Government of India intends to issue. The results are given below:—

DISTRICTS.	Horses over 13—3.	Ponies not above 13—3 to 12—2.	Tattus, 12—2.
1	2	3	4
Dacca ...	108	758	2,512
Mymensingh ...	432	2,092	1,955
Faridpur ...	61	439	1,018
Backergunge ...	28	118	95
Total ...	629	3,407	5,580

In Mymensingh the revision of Hunter's Statistical Account has been continued and a few sections have been re-written. In this district the census of Palmyra trees taken in the previous year has been further checked during the year under report.

29. The result of the registration of vital statistics in certain compulsory areas is given in the following statement:—

DISTRICT.	Selected area.	Population, Census of 1891.	BIRTHS.			DEATHS.		
			Total births in 1893.	Ratio per 1,000 of population.		Total deaths in 1893.	Ratio per 1,000 of population.	
				1892.	1893.		1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ...	Dacca ...	82,321	2,631	24'96	24'67	2,254	33'77	31'02
	Narayanganj ...	17,715	644	27'03	37'48	586	36'52	33'07
	Nasirabad ...	11,555	109	9'08	9'43	233	18'52	20'16
	Muktagacha ...	4,923	159	9'54	32'3	117	11'98	23'76
	Jamulpur ...	15,388	556	22'68	30'15	642	21'64	41'72
Mymensingh ...	Sherpur ...	10,744	397	9'02	36'95	294	17'96	37'30
	Kishoreganj ...	13,984	354	1'67	25'30	271	11'00	19'37
	Razulpur ...	9,399	275	17'70	29'25	338	17'66	35'96
	Tangail ...	17,973	480	16'92	26'70	340	9'68	18'91
	Netrakona ...	9,821	327	14'00	33'29	329	15'88	33'49
Faridpur ...	Faridpur ...	10,774	322	17'1	29'8	274	22'3	25'4
	Madaripur ...	13,772	239	21'4	17'3	351	15'2	26'2
	Burisal ...	15,482	387	22'6	24'95	381	26'55	24'60
Backergunge ...	Nalchiti ...	1,675	32	8'35	19'10	27	15'62	16'11
	Jhalokati ...	2,365	13	4'64	5'49	58	2'80	24'40
	Pirojpur ...	12,216	264	18'78	21'55	264	27'92	21'55
	Patuakhali ...	4,885	75	11'25	15'35	143	28'04	29'27
	Total of the Division.	255,026	6,084	19'8	26'2	7,202	24'7	28'2

The general rate is for births 36·1 and for deaths 30·4. Many of our selected areas are rather rural than urban, and it is hard to believe that their rates are really much below the general rate. In some, such as Jhalokati, low rates can be accounted for.

If Dacca be excepted, the number of births in selected areas has increased from 17·1 to 26·9 per mille, which shows how defective registration formerly was. Muktagacha, Sherpur, Kishoreganj and Nalchiti are instances. The persistent low rate in Nasirabad and Jhalokati shows perhaps the peculiar conditions of those towns.

Again, omitting Dacca the death-rate has improved from 20·3 to 26·9 per mille. Registration was very defective in Muktagacha, Sherpur, Kishoreganj Tangail and Netrakona.

The Act gives ample powers, and there is no reason why registration should not have been as good in Mymensingh as in other districts in former years, had the district authorities taken any trouble in the matter.

There were 85 prosecutions under Act IV (B.C.) of 1873 for non-reporting births and deaths in municipal areas during the year, 68 of which resulted in conviction, as shown below :—

	1893.		1892.	
	Prose- cuted.	Convict- ed.	Prose- cuted.	Convict- ed.
1	2	3	4	5
Dacca town ...	42	30	58	48
Narayanganj ...	8	8		
Mymensingh muni- cipal areas.	34	30	9	9
Madaripur only ...	1	0	10	8
Backergunge muni- cipal areas.	0	0	21	16

As the fines are credited to the municipalities concerned, Municipal Commissioners are interested in promoting prosecutions. They seem to me to overlook their interests in this matter.

30. Births were first generally registered in 1892; and generally in that year results were not good. I now give the results in 1892 and 1893 in each subdivision, with the rate per 1,000. The rate varies from 23·8 in Netrakona subdivision to 44·8 in Faridpur Sadar subdivision. The rate for the Division generally is 36·1 against 27·5 in 1892. The rate for births and deaths in 1893 for each district are :—

DISTRICT.	Births.	Deaths.
1	2	3
Dacca ...	38·3	30·7
Mymensingh ...	29·7	25·2
Faridpur ...	40·3	33·4
Backergunge ...	40·3	35·8
Divisional rate per 1,000 ...	36·1	30·4

There is more reason that a birth should be concealed than a death. It is fair, therefore, to assume that if deaths are unreported, births are more so. The fact that over the whole Division the birth-rate exceeds the death-rate by 5·7, in spite of imperfect recording, is most impressive. The fact that in selected areas the birth-rate is 9·9 and the death-rate 2·2 below the general rate proves, I think, that selected areas are generally subject to abnormal conditions—a fact which, though well known to most of us, has not been always remembered. I shudder to think what the real birth-rate in my Division may

be when our imperfect registration brings out 36·1 per 1,000. It is over 40 in six subdivisions :—

District.	Subdivision.	Population according to census of 1891.	Total number of births in 1892.	Total number of births in 1893.	BIRTH RATIO PER 1,000 OF POPULATION.	
					1892.	1893.
1	2	3	4	5	6	7
Dacca ...	Sadar ...	781,791	20,563	28,445	26·3	36·3
	Narayanganj ...	550,627	16,535	21,621	29·5	38·6
	Moulviganj ...	590,606	13,263	23,182	22·1	38·6
	Manikganj ...	413,625	12,650	19,725	28·2	44·4
	Total including boat population 36,087.	2,420,656	62,910	92,873	25·9	38·3
Mymensingh ...	Sadar ...	853,020	18,404	23,230	21·5	27·2
	Kishoreganj ...	625,003	13,291	16,693	25·2	30·6
	Tungai ...	859,475	19,653	31,567	22·8	36·7
	Jamulpur ...	670,742	13,352	16,810	23·05	28·9
	Netrakona ...	654,347	12,977	15,905	19·8	23·8
	Total	3,472,186	77,657	103,314	22·3	29·7

	Rhola ...	258,450	10,267	11,436	30·7	44·2
	Total	2,154,965	79,561	86,872	36·9	40·3
	Divisional total	9,814,127	271,271	355,539	27·5	36·1

## XII.—CIVIL JUSTICE.

31. In the appendix (statements VI, VII and IX) are given some statistics of the administration of civil justice.

The following tables compare the number of suits instituted and disposed of in each district in the years 1892 and 1893 :—

*Suits instituted.*

District.	For money or moveables.		Under the rent laws.		Title and other.		Total.	
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ...	28,112	29,386	5,200	5,735	1,694	2,973	35,515	36,084
Mymensingh ...	24,005	27,001	6,926	7,640	2,885	3,815	32,810	39,466
Faridpur ...	17,629	16,834	8,900	9,304	1,188	1,554	27,717	27,693
Backergunge ...	10,982	10,845	18,897	19,167	963	1,699	30,842	31,711
Total ...	79,728	85,026	30,032	41,886	7,030	10,031	126,690	136,943

*Suits disposed of.*

DISTRICT.	CASES DISPOSED OF.								Popu- lation.	Number of persons to a suit disposed of.	
	Money.		Rent.		Title.		Total.			1892.	1893.
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.			
1	2	3	4	5	6	7	8	9	10	11	12
Dacca ...	28,006	29,333	5,536	5,003	2,161	2,808	35,763	38,014	2,420,656	67	63
Mymensingh ...	23,401	26,637	7,593	7,374	3,360	3,477	34,343	37,488	3,472,186	88	92
Faridpur ...	17,063	17,485	9,035	9,439	1,446	1,407	29,044	28,339	1,797,320	61	63
Backergunge ...	11,330	11,429	18,898	20,367	1,047	1,690	32,263	34,283	2,153,965	69	64
Total ...	80,769	84,884	42,640	45,082	8,014	9,282	131,413	137,548	9,814,127	74	71

The work is still increasing. Institutions exceed those in the previous year by 10,253, while 5,835 more cases have been disposed of. The increase is chiefly in title suits, 42·6 per cent. in institutions and 15·8 per cent. in cases disposed of. In the southern districts, especially Faridpur, there is a lull. In the northern districts increase goes on apace. The increase in Dacca, the decrease in Faridpur, and the small increase in Backergunge, are all attributed to bad times. In Mymensingh, however, the increase is due to good times.

32. The following statement shows the number of cases disposed of in each munsifi:—

DISTRICT.	Munsifi.	Number of Munsifs.	Number of cases disposed of.	Average per munsifi.	REMARKS.
1	2	3	4	5	6
Dacca	Sadar ...	4	7,438	2,125	(a) 1 additional munsifi.
	Narayanganj ...	1	2,156	2,156	
	Kaliganj ...	3	6,600	1,886	
	Munshiganj ...	6	9,884	2,325	
	Manikganj ...	4	7,339	2,258	
Mymensingh	Sadar ...	2	4,728	2,364	
	Jamalpur ...	1	3,549	3,549	
	Sherpur ...	1	1,421	1,421	
	Iswarganj ...	1	2,776	3,701	
	Netrakona ...	3	8,292	3,015	
	Kishoreganj ...	(a) 3	4,763	1,905	
	Bajitpur ...	2	3,268	1,634	
	Atia ...	(a) 3	5,393	2,396	
Faridpur	Pingna ...	1	3,110	4,146	
	Sadar ...	(a) 2	3,180	2,120	
	Goulundo ...	2	4,129	2,064	
	Madaripur ...	(a) 3	6,409	2,848	
	Bhanga ...	(a) 3	7,962	2,654	
Backergunge	Chikandi ...	(a) 3	6,454	2,151	
	Sadar ...	5	12,353	2,906	
	Pirojpur ...	4	5,436	1,672	
	Patuakhali ...	(a) 4	9,549	2,546	
	Bhola ...	2	5,298	2,649	

So 62 munsifs disposed of 131,487 cases, or 2,120 cases each. The proportion of contested cases is small. So this outturn should not overburden our munsifs, but they complain of overwork and keep very late hours. I hear complaints that the bar does not lend itself to the prompt despatch of business.

So far as the number of cases is concerned, Barisal with 12,353 cases disposed of continues to be the heaviest munsifi in the Division. Next come Munshiganj and Patuakhali with more than 9,000 cases each. Dacca Sadar, Kaliganj, Manikganj, Netrakona, Madaripur, Bhanga, Chikandi, with more than 6,000 cases each, are also heavy, but the Pingna munsifi in the district of Mymensingh gives the most work per munsifi (4,146); Iswarganj comes next with 3,701 cases per munsifi. In the Iswarganj, Jamalpur and Netrakona munsifs more than 3,000 cases were disposed of by each munsifi on an average, while in the Kaliganj, Sherpur, Kishoreganj, and Pirojpur Munsifs less than 2,000 cases were disposed of per munsifi.

33. Out of 62 munsifs in statement VII, no less than 42 have now Small Cause Court powers, against 29 in the previous year. The provision therefore of Courts of Small Causes is now ample.

34. \* \* \* \* \*

35. The number of suits pending before munsifs at the end of the year was 23,362 or 17·7 per cent. of the number disposed of, against 20,250 or 15·9 per cent. of the previous year. As compared with the beginning of the year, the number of cases pending has increased by 3,112 or 15·3 per cent. The number of ordinary cases pending in the superior Courts has increased, compared with the beginning of the year, by 2·4 per cent., the number being 42·6 against 40·2 in the previous year. We are not, I regret to say, gaining on the work.

The rates of pending cases to cases disposed of in Munsifs' Courts is shown in the following table:—

DISTRICT.	Rates per cent. of ordinary and Small Cause Court cases pending to total disposed of by Munsifs.			
	1892.		1893.	
Dacca ... ..	...	...	18·3	19·0
Mymensingh ... ..	...	...	17·7	24·7
Faridpur ... ..	...	...	13·8	13·0
Backergunge ... ..	...	...	13·5	12·5

It would appear that extra hands are required in the Mymensingh district. The rates for superior Courts, which do not exercise Small Cause Court powers (statement VI), is shown below:—

DISTRICT.	Rates per cent. of ordinary cases pending to total disposed of.			
	1892.		1893.	
Dacca ... ..	...	...	52·4	53·6
Mymensingh ... ..	...	...	71·9	61·7
Faridpur ... ..	...	...	10·5	87·5
Backergunge ... ..	...	...	2·2	51·3

The percentages are unusually high in all districts, notably in Faridpur. Both in this district and in Backergunge there has been wide retrogression.

In the following table is shown the ratio for superior Courts exercising Small Cause Court powers:—

DISTRICT.	Ratio per cent. of ordinary cases pending to total disposed of.			
	1892.		1893.	
Dacca ... ..	...	...	...	...
Mymensingh ... ..	...	...	...	...
Faridpur ... ..	...	...	48·5	113·6
Backergunge ... ..	...	...	86·1	30·5

36. Of 137,248 cases disposed of, only 23,694 or 17·2 per cent. were contested, against 23,473 out of 131,413 cases or 17·8 per cent. in the previous year.

In 99,204 or 72·2 per cent. of the cases disposed of, the plaintiff obtained decree, and in 19,606 or 82·7 per cent. of contested cases he obtained redress, which shows that generally defendants would have been well advised to have yielded without suit. But perhaps they relied on being able to avoid execution.

37. 14·5 per cent. of the witnesses examined were detained over two days by the District, Subordinate and Small Cause Court Judges, against 16·0 per cent. in the previous year. The percentage was highest (33·3) in Mymensingh and lowest (11·3) in Backergunge. In Dacca and Faridpur the percentages were 11·6 and 25·5 respectively. For munsifs also the percentage was highest (12·1) in Mymensingh; Backergunge comes next with 12·06. In Dacca and Faridpur the percentages were 9·2 and 4·5 respectively, while the divisional percentage was 9·7.

37½. The following statement shows the result of appeals in the several districts of the Division:—

DISTRICT.	REGULAR APPEALS.						APPEALS HOW DISPOSED OF.										Ratio per cent. of appeals confirmed to total disposed of.	
	Money.		Rent.		Title.		Confirmed.		Modified.		Reversed.		Otherwise.		Total.			
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.		
	1.	2.	3.	4.	5.	6.	7.	8.	9.	10.	11.	12.	13.	14.	15.	16.	17.	18.
Dacca ... ..	224	108	308	355	485	574	678	502	134	153	154	120	111	113	1,077	897	62·9	55·9
Mymensingh ... ..	237	180	378	328	447	398	632	543	83	74	183	133	144	146	1,032	896	80·0	80·6
Faridpur ... ..	170	58	393	340	127	103	382	330	35	40	108	100	14	38	689	417	64·8	55·1
Backergunge ... ..	68	116	451	390	127	148	345	389	70	51	135	130	121	72	671	648	51·4	60·0
Total ... ..	714	522	1,499	1,393	1,186	1,007	2,087	1,864	323	318	640	507	390	369	3,889	2,858	60·1	58·2

...in the ratio per cent. of appeals confirmed to total disposed of in Dacca and Faridpur noticed in the last year's report has been maintained, while Backergunge has recovered its lost ground.

38. I had so many complaints, especially from landlords, of the delay and expense of getting in their rents through the Civil Courts, that I suggested the investment of munsifs with powers to try rent suits where no title is involved under clause 8 of schedule II of the Act IX of 1887 (Provincial Small Cause Courts Act). I consulted Collectors, who consulted leading landholders. The landlords apparently unanimously condemned the proposal. This, I think, is conclusive proof that the complaints made against the present procedure are at least exaggerated. The law provides a more prompt and simpler procedure, and the persons who complain most loudly and who would benefit by it will have none of it.

39. Petitions representing 317 villages have been presented to me praying for the abolition of the munsifi at Kaliganj in the district of Dacca, and to bring the localities situated within its jurisdiction into the jurisdiction of the sadar and Narayanganj Munsifis in the same district. I am inclined to think that the inhabitants of Raipura and Rupganj thanas should not have to go to Kaliganj for civil and to Narayanganj for criminal cases, and similarly that the inhabitants of the Kapasia thana should not have to go to Dacca for criminal and to Kaliganj for civil cases. It is the settled policy of Government to make munsifi and subdivisional jurisdictions identical. A former Judge, Mr. T. D. Beighton, advocated the abolition of this munsifi, and the High Court agreed with him. The Magistrate and the late Judge, Mr. C. Brett, however, were against making any change. I am consulting the present Judge. The value of a railway as a means of communication seems to me to have been hardly appreciated.

40. The Badla outpost in the Mymensingh district has been transferred from the Netrakona to the Kishorganj subdivision. This will probably lead to an increase of civil judicial work, as this outpost is much more easily accessible to Kishorganj than to Netrakona.

### XIII.—CRIME.

41. The following is a short synopsis of the crime of the Division during the year 1893. Detailed reports for each district were submitted to the Inspector-General of Police with this office letter No. 485J., dated 9th March last. It is a matter of regret that crime has further increased during the year, the total number of offences reported (both cognizable and non-cognizable) being 37,850 against 36,630 in 1892, 33,269 in 1891, 31,036 in 1890 and 29,793 in 1889. So that whereas in 1889 one offence was reported to 292 persons, this year we have one to 260 persons. The proportion of crime of all kinds to the population is still small. I doubt if crime has actually increased in the last five years. Improvement in reporting, due to improved communications and the reorganization of the rural police, I think, sufficiently accounts for the swollen returns.

42. Excluding sanitary offences (serial 57) the number of cognizable offences reported has decreased from 12,715 to 12,595, as shown in the following table, or by .9 per cent:—

Cognizable crime.

DISTRICT.	1892.	1893.
1	2	3
Dacca ...	2,631	2,363
Mymensingh ...	5,885	5,738
Faridpur ...	2,199	2,402
Backergunge ...	2,000	2,094
Total ...	12,715	12,595

The decrease in cognizable crime in Dacca, 10 per cent., is interesting in face of the scarcity reported to exist in parts of this district.

The increase in Faridpur is attributed to scarcity, but there is a decrease in cases against property as compared with 1891 (1,755 in 1893 against 1,765 in 1891). It would appear, therefore, that 1892 was the abnormal year.

The increase in Backergunge, where also there was same scarcity, is nominal.

Mr. LeMesurier quotes the following remarks of Mr. Savage on this subject:—

“On the whole, the year has been a normal one and the scarcity in part of the district has had very little effect on crime. There has not been any noticeable increase in petty theft by persons driven to criminal courses by hunger, and the increase in number of burglaries and thefts, as compared with last year, is due, as far as I have ascertained while on tour, to renewed depredations by old thieves under the influence, it may be, of the hard times.”

The scarcity was confined to thanas Gournadi and Sarupkati. The following statement shows that theft and burglary were not specially prevalent in the first three quarters of the year 1893 in those thanas:—

	GOURNADI.			SARUPKATI.		
	Burglary.	Theft.	Total.	Burglary.	Theft.	Total.
1	2	3	4	5	6	7
1st quarter ...	6	6	12	8	3	11
2nd do. ...	10	7	17	9	7	16
3rd do. ...	8	11	19	15	8	23
Total ...	24	24	48	32	18	50

For the years 1891, 1892, 1893, the figures are—

	GOURNADI.			SARUPKATI.		
	Burglary.	Theft.	Total.	Burglary.	Theft.	Total.
1	2	3	4	5	6	7
1891	52	18	70	48	21	69
1892	30	19	49	46	27	73
1893	40	27	67	58	21	79

43. Though there is substantial decrease in one district, Faridpur, non-cognizable crime has further increased on the whole; 20,898 cases are reported against 18,772 in

1892 and 17,441 in 1891.

The district figures are—

DISTRICT.		1892.	1893.
1		2	3
Dacca	...	6,026	6,495
Mymensingh	...	5,988	7,838
Faridpur	...	2,732	3,278
Backergunge	...	3,026	3,287
Total	...	18,772	20,898

*The large increase in Mymensingh, 30·8 per cent, is stated to be principally due to the omission from statement A, Part II, in previous years of cases dismissed under section 203, C. P. C. There has been a large increase in the number of cases under section 174, P. C., for failure to appear after service of summons (class I). This section had been made little use of in this district, and people had come to look on the Queen's writ almost with contempt.*

In Backergunge, too, it is reported that some cases dismissed under section 203 were not shown in 1892. The different proportion of non-cognizable crime to population in the different subdivisions of this district is so curious that I have had the following statement prepared, illustrating it:—

SUBDIVISION.	Population.	Non-cognizable cases in—		Number of persons to an offence in—	
		1892.	1893.	1892.	1893.
1	2	3	4	5	6
Sadar ...	879,177	1,271	1,233	691	713
Pirojpur ...	519,603	595	630	873	824
Patuakhali ...	496,735	302	544	1,644	913
Bhola ...	258,450	858	880	301	293
Total ...	2,153,965	3,026	3,287	711	655

The Magistrate says, with reference to these differences, that the Sadar subdivision is well off both in roads and steamers. Bhola is still better off than the Sadar in the matter of roads; on the other hand, Pirojpur has few roads, and the southern thana Motbaria is, during the rains, difficult to get at by boat, and Patuakhali, with its wide and strong rivers and dense jungles, is a subdivision in which only serious causes of offence will induce the injured person to undertake a journey to head-quarters. The large increase (242) in 1893 in the number of complaints in Patuakhali affords strong corroboration of the views above expressed, since it has followed immediately on the extension of the Bengal Central Flotilla Company's Patuakhali line to Amtali, the head-quarters of the large Gulshakhali thana, and the consequent opening up of a speedy means of communication with about one-third of the subdivision.

The decrease in Faridpur is attributed to scarcity. The people were so impecunious that they could not afford to come into court with petty cases. But there was scarcity in both Dacca and Backergunge, and they show an increase.

44. Cognizable cases, including sanitary cases reported, may be classified as follows:—

OFFENCES.	Year.			Increase as compared with 1892.	Decrease as compared with 1892.
	1891.	1892.	1893.		
1	2	3	4	5	6
Against property ...	8,934	9,535	9,591	56	...
" person ...	1,984	1,806	1,644	...	162
" public tranquillity ...	690	609	670	61	...
" ...	4,280	5,908	5,047	...	861
" ...	...	...	...	117	1,023
" ...	15,820	17,858	16,952	...	906
The face of the	...	...	...	...	...

During the year prices were very high and much distress was reported; it is therefore rather a matter of surprise to find so small an increase in crime against property. In Dacca and Mymensingh there was absolute decrease.

The decrease in offences against person is small, and is distributed among all the districts of the Division. The decrease in other offences occurred in Dacca and Mymensingh, especially in the former district, in which the number fell from 2,957 to 1,921. The falling off in this district is stated to be due partly to the high flood, on account of which a large part of the town of Dacca was under water during the rainy season, and partly to a large number of prosecutions in previous years, which is stated to have had a deterrent effect.

45. Excluding the cases declared false, there were in all 16,281 cognizable offences in the Division, against 17,226 in the previous year. These are classified in the following table:—

CLASSES.			True cases.	
			1892.	1893.
1			2	3
I ... ..			574	618
II ... ..			1,054	994
III ... ..			8,509	3,646
IV ... ..			609	530
V ... ..			5,582	5,453
VI ... ..			5,898	5,040
Total ...			17,226	16,281

46. The statement below shows the number of riot cases returned as true in the several districts of the Division during the last five years:—

Riot cases.

DISTRICT.	1889.	1890.	1891.	1892.	1893.
1	2	3	4	5	6
Dacca ... ..	79	111	81	111	119
Mymensingh ... ..	104	106	170	146	127
Faridpur ... ..	94	166	134	116	147
Backorgunge ... ..	100	95	133	93	107
Total ...	377	478	518	466	500

It is highly satisfactory to find the decrease in Mymensingh attributed to the exemplary punishments inflicted by the Sessions Judge. Generally rioters who cause death or grievous hurt seem to me to get off very easily.

The increase in Faridpur, the only noteworthy point in the above table, is not accounted for.

Mr. Savage, late Magistrate of Backergunge, writes:—

“There has been the usual crop of riots in spite of all precautions. When men in this district enter into a dispute about land, it is extremely difficult to drive them into the civil court. Neither party will willingly take up the position of plaintiff; possession, it is well known, is more than nine points of the law in a district where by the action of the Musalman law of inheritance rights and tenures are reduced to a state of almost inextricable confusion, and it is in common belief cheaper and safer to fight and run the risk of punishment than to seek redress in the civil courts.”

It is stated that in this district in four cases in which the police applied to have the parties bound down, the riots occurred before proceedings could be taken. The riot took place in these cases on an average of from 5 to 10 days from the date of submission of the reports. It is very difficult to get the cases through in time to prevent riots. But instances of unnecessary delay have come to my notice.

The subjoined table shows the number of riot cases ending in loss of life:—

DISTRICT.	1890.	1891.	1892.	1893.
1	2	3	4	5
Dacca ...	3	2	3	3
Mymensingh ...	6	4	8	6
Faridpur ...	5	4	1	1
Backergunge ...	10	8	9	10
Total ...	24	18	21	20

The following statements (A), heading 3, Unlawful Assembly, sections 143 to 145, 149 to 151, 157, 158, (B) heading 4, Rioting, &c., sections 147, 148, 152, 153 to 156, from High Court's annual statement 2, showing offences dealt with in each subdivision, will illustrate this subject:—

STATEMENT A.

DISTRICT.	SUBDIVISION.	NUMBER OF CASES.		NUMBER OF PERSONS—		
		Offences report- ed.	Brought to trial during the year.	Under trial during the year.	Acquitted or dis- charged.	Convicted.
1	2	3	4	5	6	7
Dacca.	Sadar ...	37	24	47	23	23
	Narayanganj ...	23	10	33	5	9
	Manikganj ...	27	17	15	8	7

	Patnakhali ...	40	23	84	30	33
	Pirojpur ...	3	3	3	1	3
	Bhola ...	...	...	...	...	...
	Total ...	78	54	174	73	83

## STATEMENT B.

DISTRICT.	SUBDIVISION.	NUMBER OF CASES.		NUMBER OF PERSONS—		
		Offences reported.	Brought to trial during the year.	Under trial during the year.	Acquitted or discharged.	Convicted.
1	2	3	4	5	6	7
Dacca.	Sadar ... ..	80	58	154	52	72
	Narayanganj ... ..	23	20	74	13	34
	Manisganj ... ..	21	17	111	23	70
	Munshiganj ... ..	20	18	83	13	62
	Total ... ..	144	113	422	101	251
Mymensingh.	Sadar ... ..	105	90	206	47	143
	Netrakona ... ..	15	12	74	17	53
	Jamalpur ... ..	14	13	110	37	60
	Tangail ... ..	16	15	54	22	6
	Kishoreganj ... ..	8	8	17	10	42
	Total ... ..	158	138	501	133	316
Faridpur.	Sadar ... ..	70	75	310	60	109
	Madaripur ... ..	54	61	185	48	109
	Gosalundo ... ..	10	18	128	19	108
	Total ... ..	152	144	623	127	416
Backergunge.	Sadar ... ..	41	72	182	51	116
	Patuakhali ... ..	53	38	109	36	58
	Pirojpur ... ..	30	35	107	33	57
	Bhola ... ..	1	3	19	3	16
	Total ... ..	125	148	417	123	247

The Backergunge subdivisions are by no means so pre-eminent in unlawful assembly and riot as they are usually reported to be. The Faridpur subdivisions excel them, as does the Sadar subdivision of Mymensingh. Preventive measures under sections 106 and 107, Code of Criminal Procedure, are made more use of in Backergunge than in other districts.

47. No case of murder by thugs has occurred during the last few years, but there has been one case of murder by dacoits, in Backergunge. A money-lender named Joy

Chandra Jugi and his wife were throttled and killed one night by some dacoits, and their property, worth Rs. 420, was stolen. The case was successfully handled by the police, and resulted in the conviction of the three accused, who were ordered to be transported for life.

There was one case of murder by robbers in Dacca and two cases in Backergunge. In Backergunge a money-lender was strangled at night and robbed of all his property. No clue was obtained in the cases. In this district, too, a Muhammadan was killed by two Mughls and Rs. 53 were taken from him. Two persons were sent up, one of whom was sentenced to death and the other to five years' rigorous imprisonment.

One case of murder by poison occurred in Dacca. In Mymensingh also one case was reported, which, however, turned out false.

The number of other murders increased from 86 to 93. In Mymensingh it fell from 24 to 15, while in Backergunge it rose from 59 to 54, most of which were connected with women and land. In some of those, unlicensed guns were used.

A bad case occurred during the year. A zamindar's naib was shot dead in his bed. The two perpetrators of the deed fortunately fell out and accused each other of the crime. They have been convicted and sentenced to transportation for life. I think they might well have been hanged.

In another bad case of riot, two men were shot dead and two were wounded. In this case no less than four men were sentenced to death and two to transportation for life.

48. In Mymensingh there has been a large increase in the number of dacoities from 6 to 17. The increase is attributed to the local bad characters being out of hand, as well as to want of control over, and knowledge of, up-country and foreign gangs of dacoits. The Magistrate remarks that it was most unsatisfactory that while this

form of crime was on the increase, the police reported fewer cases for action under sections 109 and 110, Criminal Procedure Code. Mr. Earle thinks that the increase has nothing to do with the high prices of rice prevailing in the district.

I am surprised there is no patrol boat in the Dhanu river in the east of this district. I used to think one necessary at Azmiriganj in former days. The two routes are not far apart; and though the Azmiriganj route has most traffic, there is a good deal on the Dhanu too.

The subject of dacoity in this district has been specially reported on, and a special enquiry is being made by an Inspector of Police deputed by the Inspector-General of Police for the purpose. Until his report is received, I am unable to offer my remarks on the subject. I may state, however, that the dacoity region on the east of this district being under two Provincial jurisdictions is a serious complication.

It appears from the special reports of crime that the Special Inspector, in company with another Police Inspector of the district, has lately succeeded in arresting a dacoit named Mohar Khan, under whose leadership a gang of dacoits is believed to have committed many dacoities in various parts of the province. The case in which he has been arrested is a serious one, in which properties worth some 10 or 12 thousand rupees were carried away.

49. The following table shows the number of burglaries which occurred during the year in the several districts of the division:—

Burglary.

DISTRICT.	1891.	1892.	1893.	Increase as com- pared with 1892.	Decrease as com- pared with 1892.
1	2	3	4	5	6
Dacca ...	590	793	661	...	132
Mymensingh ...	1,209	1,537	1,624	87	...
Faridpur ...	730	521	612	91	...
Backergunge ...	563	536	610	74	...
				252	132
Total ...	3,092	3,387	3,507	120	...

The decrease in Dacca is attributed to proper watch being kept over bad characters and released convicts by chaukidars. Constables are deputed on round duty during dark nights, and keep chaukidars alert in their beats.

The increase in Faridpur occurred in the Sadar and Goalundo subdivisions, and is attributed to high prices of food-grains. This explanation cannot be accepted, for in the Madaripur subdivision, where the prices were very high, and where in some places there was actual scarcity, there has been a small falling off. I think reporting has been better than in the previous year. I observe that there has been heavy decrease compared with 1891, which was not a year of scarcity.

SUBDIVISION.	1892.	1893.
1	2	3
Sadar ...	225	272
Madaripur ...	181	176
Goalundo ...	115	164
Total ...	521	612

In Mymensingh a daring burglary and theft was committed in the police barrack at the Kendua police-station. A sum of Rs. 1,101 and odd in cash, and

three postal bags belonging to the local post-office, were stolen from the postal safe, which was kept there for safe custody.

Theft.

50. In the subjoined statement is shown the number of theft cases which occurred during the

year:—

DISTRICT.	1891.	1892.	1893.	Increase as com- pared with 1892.	Decrease as com- pared with 1892.
1	2	3	4	5	6
Dacca ...	584	781	725	...	56
Mymensingh	1,624	1,798	1,507	...	291
Faridpur	570	510	657	147	...
Backergunge	586	467	491	24	...
				171	347
Total	3,964	3,556	3,380	...	176

It is very satisfactory that in Mymensingh, where there has been an increase in burglaries, there has been a large decrease in theft cases. In Faridpur and Backergunge high prices of food-grains are stated to have resulted in an increase in the number of thefts. But in Backergunge, as compared with 1891, the year 1893 shows no increase. So far, therefore, as these two years are concerned, high prices have not caused any increase.

51. There has been great relaxation of prosecution of bad characters, such cases having decreased from 336 to 252. Only in

Bad livelihood cases.

Dacca has there been any increase. In Mymensingh the number of cases has fallen from 147 to 98, in Backergunge from 81 to 44. The Magistrate of the latter district says that in Bhola subdivision the bad characters were run in in the previous year; that in the Sadar and Pirojpur subdivisions cases were instituted wherever there was a tendency to increase of crime; that in Patuakhali more cases ought to have been instituted.

During the year, 92 cases were tried in the village of the accused and 115 in court. In 176 cases conviction was obtained, and in 58 acquittal followed.

51½. The table below shows the extent to which sections 106, 107, Criminal Procedure Code, were made use of in each

Security to keep the peace.

district of the Division in 1892 and 1893:—

DISTRICT.	CASES.		PERSONS.	
	1892.	1893.	1892.	1893.
1	2	3	4	5
Dacca ...	151	127	733	584
Mymensingh ...	59	46	126	76
Faridpur ...	481	439	1,961	2,252
Backergunge ...	1,517	1,119	3,929	2,849
Total ...	2,208	1,731	6,749	5,761

It is unsatisfactory that in Dacca, Faridpur, and Backergunge, where cases of riot and unlawful assembly increased during the year, preventive measures under the above section were less resorted to than in the previous year. In Mymensingh the small use made of section 107, Criminal Procedure Code, is striking. The same phenomenon occurs in the neighbouring district of Sylhet.

## XIV.—POLICE.

52. 16,952 cognizable cases were reported to the Magistrate and to the police during the year 1893, against 17,858 in the previous year. Out of these, enquiry was refused by the police under section 157, Criminal Procedure Code, in 1,377 cases against 1,671 in 1892. Besides this, many direct cases were dismissed under section 203, Criminal Procedure Code. The following table shows the percentage of cases in each district in which enquiry was refused in each of the last four years. I give figures for four years, as they illustrate the effect of the orders of Government on this matter:—

DISTRICT.	Percentage of cases not enquired into, to cases reported.			
	1890.	1891.	1892.	1893.
	2	3	4	5
Dacca	1·3	1·2	5·0	3·3
Mymensingh	5·4	7·4	15·3	14·2
Faridpur	3·7	2·3	5·8	4·6
Backergunge	3·2	3·2	8·0	5·9
	3·5	4·8	9·3	8·1

The number of cases refused enquiry in Mymensingh continues very high. It is not explained why the percentage in this district is so high, nearly five times as high as in the adjoining district of Dacca. No definite cause for the decrease in the percentage in Dacca and Backergunge is given. Apparently cases were refused enquiry rather indiscriminately 1892.

53.

DISTRICT.	Number of cases declared false.		Percentage of cases declared false.	
	1892.	1893.	1892.	1893.
Dacca	154	145	2·8	3·4
Mymensingh	272	377	4·1	5·8
Faridpur	115	92	3·2	2·3
Backergunge ...	91	57	3·8	2·2
Total ...	632	671	3·5	3·9

Of 16,952 cognizable cases reported during the year 1893, 671 or 3·9 per cent. were declared false, against 632 out of 17,858 or 3·5 per cent. in the preceding year. Mymensingh alone is responsible for the increase in the number of cases declared false (377 against 272 in 1892). I understand that in previous years in this district direct cases found on enquiry or trial to be false have not, as I have often surmised, been declared to be false. If cases found on enquiry to be false were also declared, our percentage of false cases would be higher. In Dacca, although there has been a small decrease in the number of cases declared false (145 against 154 in 1892), there has been an increase in the percentage (3·4 against 2·8 in the previous year). In Faridpur and Backergunge the percentage has fallen heavily. Mr. Savage remarks:—

“As a matter of fact, a 6-years’ experience of Backergunge has shown me that the people of this district are not much addicted to the bringing of

absolutely false charges. As a rule there is to every charge some substratum of truth, and it is extremely difficult in many instances to decide whether the case should be shown as true on account of the truth there may be in it, or as false on account of its gross exaggeration. The general principle I have myself acted on in such cases was to give the benefit of the doubt on the side of the truth, unless there were some clear proof of malicious exaggeration; and judging from orders passed, I think most of the Magistrates in the district followed much the same rule. Prosecutions have been instituted whenever there was a fair chance of conviction. Section 560, Criminal Procedure Code, might with advantage be used more freely, but some Magistrates hesitate to use it, fearing, I suppose, that if there should be some truth in the charge, they would, by giving compensation to the accused, instigate him again to take the law into his own hand."

In Faridpur and Backergunge there must, I think, be some hocus-pocus in the returns. I decline to believe that only something over 2 per cent. of the charges of cognizable crime are false. I suspect that in direct cases proper orders declaring them true or false are not passed.

54. The following table shows how many cognizable cases have been excluded from the returns as brought under a mistake of fact or law :—

DISTRICT.	Number of cognizable cases reported.		Number of cases excluded from the returns as false through mistake of law or fact.		Percentage of cases excluded to cases reported.	
	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7
Dacca ...	5,469	4,169	141	111	2·5	3·3
Mymensingh ...	6,537	6,390	286	353	4·3	5·5
Faridpur ...	3,495	3,905	533	194	15·2	4·9
Backergunge ...	2,357	2,488	189	148	8·0	5·9
Total ...	17,858	16,952	1,149	836	7·5	4·9

In paragraph 77 of my report for 1892-93, I suggested that the large proportion of cases excluded from the returns in Faridpur on this ground was due to some difference of system in preparing the returns. I have discovered that in this district cases dismissed under section 203, Criminal Procedure Code, were excluded from the returns of reported crime as brought under a mistake of fact or law. Suspecting some such error in the Backergunge procedure, I asked how many cases in the High Court's four primary registers were excluded from the police returns of crime. The result is shown in the following statement:—

SUBDIVISION.	Register of complaints.	General register.	Unimportant case register.	Miscellaneous register.
1	2	3	4	5
Sadar ...	1,594	138	...	399
Pirojpur ...	952	41	...	381
Patuakhali ...	601	81	...	407
Bhola ...	22	17	...	72
Total ...	3,169	280	...	1,259

The number excluded in all subdivisions except Bhola is very large, but they are apparently not excluded on the ground that they are brought by mistake of fact or law.

55. In the statement below is shown the number of cases sent up by the police as false, but declared true by the Magistrate:—

DISTRICT.	Cases sent up by Police as false, but declared to be true.	
	1892.	1893.
1	2	3
Dacca ...	9	8
Mymensingh ...	96	41
Faridpur ...	10	21
Backergunge ...	21	25
Total ...	136	95

Improvement continues in Dacca and Mymensingh.

56. The following statement shows how many of the cognizable cases were reported to the Magistrate direct, and how many were reported to the police:—

DISTRICT.	Direct cases.		Cases sent up by Police.		Total reported cases.		Proportion of direct cases to the total.	
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ...	638	590	4,831	3,579	5,469	4,169	11.6	14.1
Mymensingh ...	1,587	1,548	4,950	4,812	6,537	6,390	24.2	24.2
Faridpur ...	828	683	2,667	3,222	3,495	3,905	23.6	17.4
Backergunge ...	262	425	2,095	2,063	2,359	2,448	11.1	17.08
Total ...	3,315	3,246	14,543	13,706	17,860	16,952	18.5	19.1

The extent to which people avoid the police when they wish to report or complain of cognizable crime is interesting. In Mymensingh direct complaint appears to be popular; probably the police are correspondingly unpopular. The increase in the proportion in Backergunge may be ascribed to the order of the Inspector-General of Police that direct cases dismissed under section 203 are not to be excluded from the returns unless they are brought through mistake of law or fact. The decrease in Faridpur is curious.

Recovery of stolen property.

57. We are unfortunate in the recovery of stolen property, or our people exaggerate their losses.

DISTRICT.	Percentage of cases in which property was recovered to cases in which property was lost.		Percentage of value of property recovered to value of pro- perty lost.	
	1892.	1893.	1892.	1893.
1	2	3	4	5
Dacca ...	44.5	45.7	18.0	21.5
Mymensingh ...	17.4	17.6	17.1	12.0
Faridpur ...	34.4	44.6	14.4	23.1
Backergunge ...	27.8	31.1	12.9	23.2
Total ...	27.4	30.4	15.0	17.6

The percentages are much below those of the Province in the year 1892 (38·6 and 21·1 respectively).

58. The following statement shows the number of warrants issued against accused and witnesses and the number returned unexecuted :—

Warrants.

DISTRICT.	No. of warrants against accused.	No. of warrants against witnesses.	Total.	Returned unexecuted.
	2	3	4	5
Dacca ...	3,902	3,403	7,305	... *
Mymensingh ...	2,933	2,984	5,917	3,190
Faridpur ...	2,773	1,494	4,267	1,736
Backergunge ...	3,612	2,713	6,325	937
Total ...	13,220	10,594	23,814	...

\* Not furnished.

Out of 5,917 warrants in Mymensingh, 3,190 were returned unexecuted. Allowing full margin for warrants not executed because the person against whom they were issued appeared, for several warrants on the same person, and for other discounts, this is a disgraceful result. I am afraid I cannot exonerate the late Magistrate and the late District Superintendent from blame in this matter. The present Magistrate is trying to improve matters.

In Faridpur, too, the police are very unsuccessful. Out of 4,267 warrants issued, 1,736 were returned unexecuted. In only 57 cases was non-execution due to appearance.

59. During the year 1893 there was no material change in the constitution of the force. In Faridpur a sub-inspector of the second grade was added and one of the third grade was reduced. In Backergunge one head-constable and nine town chaukidars were added for the watch-and-ward of the newly-created municipality at Patuakhali. Certain changes have occurred in the strength of the rural police. The following statement shows the present constitution of the force in each district of the Division :—

DISTRICT.	District Superintendent.	Assistant Superintendent.	Inspectors.	Sub-Inspectors.	Head-constables.	Constables.	Town constables.	Rural police.	Total.	REMARKS.
1	2	3	4	5	6	7	8	9	10	11
Dacca ...	1	1	5	21	80	561 (a)	...	3,723	4,371	(a) Include 14 writer-constables.
Mymensingh ...	1	1	6	29	65	447 (b)	95	6,916	7,255	
Faridpur ...	1	...	4	19	40	392	20	3,217	3,603	(b) Include 7 writer-constables.
Backergunge ...	1	1	4	34	58	410	46	4,785	5,337	
Total ...	4	3	10	103	229	1,720	161	18,641	20,566	

In Dacca there is a special reserve of one sub-inspector, 8 head-constables and 88 constables. This force is stated to be too weak to meet the constant demands for escort. Constables have constantly to be withdrawn from the Dacca town outposts for escort duties. In Faridpur, too, escort duty is said to be too much for the reserve.

The changes proposed by the Police Committee and sanctioned by Government have not yet been given effect to. Two instead of four outposts have been abolished in Faridpur. Three have been abolished in Backergunge, but not the three proposed by the Committee.

The Magistrates of Dacca, Faridpur and Backergunge seem satisfied with the conduct of the police of their districts. I confess that I think the Magistrate of Faridpur has much cause for dissatisfaction. The Magistrate of Mymensingh, on the other hand, expresses great dissatisfaction, and, I think, with reason. He says that the police have maintained their reputation for taking bribes. That the police of this district are quite out of hand is proved by their utter failure to execute warrants. I well remember, many years ago, being informed by a native officer well acquainted with the district that a sub-inspectorship in Mymensingh was worth Rs. 300 per mensem. Lately in the course of a civil case a munsif found that the sadar court sub-inspector had taken a bribe of Rs. 200. A head-constable was convicted by the Sessions Court of causing the death of a person whom he had arrested. I agree with the Magistrate in attributing the failure of the police in this district to lax supervision, and think that there should ordinarily be two Assistant Superintendents of Police attached to it.

Town Police.

60. The following table shows the police force employed in each of the towns in the Division:—

DISTRICT.	Name of municipality.	Inspector.	Sub-Inspector.	Head-constables.	Constables.	Town chaukidars or constables.
1	2	3	4	5	6	7
Dacca ...	Dacca ...	1	2	11	218	...
	Narayanganj ...	1	1	4	46	...
	Nasirabad ...	...	...	1	10	10
	Muktigacha ...	...	...	1	4	5
Mymensingh ...	Jamulpur ...	...	...	1	...	15
	Sherpur ...	...	...	1	...	10
	Kishoreganj ...	...	...	1	...	15
	Baritpur ...	...	...	1	...	10
Faridpur ...	Netrakona ...	...	...	1	...	15
	Tangail ...	...	...	2	4	15
	Faridpur ...	...	...	1	9	12
	Madaripur ...	...	...	1	5	8
Backergunge ...	Barisal ...	...	...	1	10	21
	Nalchiti ...	...	...	...	4	2
	Jhalukati ...	...	...	...	4	2
	Pirojpur ...	...	...	1	6	10
	Patuakhali ...	...	...	1	...	0
	Total ...	2	3	20	320	159

The Dacca Town Police worked satisfactorily on the whole. The work is very unpopular, owing chiefly to the night watch. There were no less than 44 resignations out of a force of 218. Mr. Erskine's system of patrolling has been introduced. It is said that the force is insufficient for the work. There is a large floating population comprising many bad characters. This is the case at Narayanganj too. The liability of the town constables to serve on escort duty greatly interferes with their proper work. I have asked for particulars of their service on escort duty.

As elsewhere, the towns in Mymensingh are more rural areas than towns, and cannot easily be managed on the principles applying to towns. It is very difficult to supervise beats in rural areas. The Magistrate would like to see more up-countrymen among the town police.

The Magistrate of Faridpur reports that the town police both at Faridpur and Madaripur have worked fairly well. The town constables and chaukidars in these towns gather every morning at the thana and report all occurrences. In addition to the patrols deputed from the reserve and thana, the town head-constables go out every night at random and keep the beat constables and chaukidars on the alert.

Beats were revised in Barisal, Patuakhali, and Pirojpur in the Backergunge district. There is said to be considerable improvement in the watch-and-ward.

The District Superintendent of Backergunge reports against the town chaukidars of Barisal. Mr. Savage, the Magistrate, does not support him. Mr. Savage seems to think the regular police (as they are called) are prejudiced against town chaukidars.

61. Much has been done to improve the lighting of our towns in the year under report. Much remains to be done. The following towns have no lights yet :—

Lighting of towns.

- |                |                |
|----------------|----------------|
| 1. Nasirabad.  | 4. Kishorganj. |
| 2. Muktagacha. | 5. Netrakona.  |
| 3. Jamalpur.   | 6. Bajitpur.   |

In the following towns the police are provided with bull's-eye lanterns :—

- |               |               |
|---------------|---------------|
| 1. Dacca.     | 4. Netrakona. |
| 2. Nasirabad. | 5. Faridpur.  |
| 3. Jamalpur.  | 6. Madaripur. |
| 7. Nalchiti.  |               |

In some towns the Municipal Commissioners decline to pay for the oil for these lanterns.

Punishments.

62. If punishments are any sign, then the conduct of the police has improved in the year under report.

One officer and 58 men have been dismissed the force, against three officers and 76 men in the previous year; 133 officers and 259 men have been departmentally punished by fines, degradations and suspensions, against 160 officers and 173 men in the previous year; two officers and 28 men have been judicially punished, against three officers and 64 men in the previous year.

63. In Dacca five officers and nine men were rewarded with money rewards. Besides these, there were other rewards

Rewards.

of a petty nature. In Mymensingh 24 officers and 45 men, and in Faridpur 16 officers and 34 men, were rewarded with money rewards. In the latter district one officer and seven men were also rewarded by promotion and seven men by good-conduct stripes. In this district Sub-Inspector Khetro Nath Chakravarti and head-constable Chandra Mohun Ghoshal were granted special money rewards of Rs. 180 and Rs. 80 respectively, with the approval of the Inspector-General of Police, for their good services in connection with a dacoity case. In Mymensingh Inspector Radha Kanta Karmakar did good service in connection with a case of dacoity. In another case of serious dacoity in which properties worth Rs. 10 or 12 thousands were carried away, the Special Inspector, Babu Dina Bandhu Bhomik, Inspector Babu Umesh Chandra Sen and constable Onnu are reported to have done excellent services.

Torture, &c.

64. I am sorry that my paragraph on this subject this year is a long one.

In Dacca a case was brought against the court sub-inspector of Manikganj and on enquiry was found to be false.

In Mymensingh a charge of culpable homicide, torture and unlawful confinement was brought against head-constable Ananda Kishore Pal and constable Kokil Singh of Bazitpur thana and constable Imam Bux of Dacca district. They are said to have maltreated a prisoner and then to have taken him to bathe, and to have caused his death by drowning. Constable Imam Bux absconded. The head-constable and constable Kokil Singh were convicted by the Sessions Court, but were acquitted on appeal to the High Court. The District Superintendent of Police, Mr. Orr, took great pains in the case, which created a good deal of sensation in the district.

In Faridpur sub-inspector Bishun Charan Jøordar of Baliakandi was charged with having beaten and killed a man in order to extort confession from him. On enquiry the case was found to be false, and it was elicited that the man said to have been killed committed suicide by hanging. The complainant was prosecuted under section 211, Penal Code, and convicted.

In Backergunge there was no case of torture.

In Dacca eight charges of extortion against police officers are reported. Three, all against the same constable, were proved to be true. This man's *modus operandi* was most simple. His accomplices gave silver ornaments to a jeweller for examination, or a piece of cloth to a tailor. The constable then appeared on the scene, and charged the jeweller or tailor with receiving. In all the cases the accused gave him money to let them off.

In Mymensingh a constable and a town chaukidar were convicted of extortion.

In Faridpur a town chaukidar of the Madaripur Municipality extorted Rs. 50 from a boatman, threatening to take him to the police-station and prosecute him for anchoring his boat in the middle of the river contrary to the order of the Magistrate. The chaukidar was prosecuted, and on conviction was sentenced to six months' rigorous imprisonment.

In Backergunge there were 12 cases of extortion against police sub-inspectors, head-constables and constables, but most of them were dismissed under section 203, Criminal Procedure Code, and in the rest the accused were discharged under section 253, Criminal Procedure Code.

65. In Dacca a punitive police force consisting of one head-constable and five constables has been posted at Kroker char. An Additional Police. increased force of one sub-inspector, one head-constable and 10 constables has now been sanctioned for a period of one year from the 7th April 1894—*vide* Government No. 749J.D., dated 6th June 1894, to the Inspector-General of Police. In accordance with the principles enumerated in Circular No. 7J., dated 20th February 1889, I have declined to appoint persons interested in the dispute to be special constables.

In the Backergunge district the two bodies of punitive police, one at Bamna, consisting of one sub-inspector, two head-constables and 19 constables, and the other at Badartuni, consisting of one head-constable and six constables, were abolished during the year, as the disputes for which they were retained had been settled. The Magistrate, however, states that he finds that no less than 22 police officers are at present stationed in various places to keep the peace, and in several instances have been there for months and are not likely to be withdrawn.

Besides the additional police force, special constables were appointed in Dacca, Faridpur and Backergunge.

66. I have already submitted a special report on the rural police of my Division for the year 1893. I recapitulate the Rural police. more important points of my report here.

The rural police or police proper number 18,641 against 17,744 in the previous year. There has been a large increase in Mymensingh, where the Magistrate has reduced the number of houses to a chaukidar from 101 to 89. As wages have recently been raised, I think this increase in the force might have been postponed.

In Backergunge, which is a model district, there are 90 houses to a chaukidar; in Dacca there are 117, and in Faridpur 103.

In Dacca the chaukidars still continue to be irregular in attendance and dilatory in reporting crime, and are also lax in attending to watch-and-ward, but there has been some improvement in this respect during the year.

In Mymensingh chaukidars do not go on night round duties in their village. In many instances there was delay in reporting crime, and in some cases suppression, the reason being that they do not report cases without the permission of panchayats and zamindari amla.

Many chaukidars in this district do not reside in their mahallas.

In Faridpur there has been an improvement in the working of the rural police.

In Backergunge Mr. Savage, late Magistrate of the district, made the following remark:—

"I think there is no doubt our chaukidars are a very useful body of men, and their systematic punishments for negligence or misconduct and rewards for good service have led within the past year to an appreciable improvement in efficiency."

I think there has been improvement on the whole. Vital statistics are much better reported, especially in Mymensingh. And there is good reason for thinking that more crime is reported.

67. During the year steps were taken to improve the status of chaukidars by appointing men of better castes and position in society. I question the advantage of appointing men of good caste to such a position, as such persons are usually disinclined to outdoor labour.

In Backergunge most of the chaukidars are Muhammadans, and the question of caste does not arise. The post is now eagerly sought for, and it is worthy

of notice that one of the chaukidars in this district has passed the Calcutta University Entrance Examination.

Messrs. Jenkins and Earle are of opinion that the term "chaukidar" as applied to the members of the rural police is a great obstacle to getting men of higher class to serve as chaukidar, and that the substitution of an English name, such as "watchman" or "constable," might induce men of higher class to accept the appointment.

68. Generally I think the orders of Government that chaukidars should not be employed on menial and degrading duties

Employment of chaukidars on menial duty.

have been observed. ..

When inspecting thanas, I noticed that in some cases the Government orders on this subject had not been posted up. I have pointed out the omission to the Magistrates concerned, and have directed that the orders shall be posted in a conspicuous place in the chaukidars' parade hall.

69. The pay of chaukidars in Dacca and Backergunge was raised to Rs. 5

Salaries of chaukidars.

in 1892 promiscuously. The Lieutenant-Governor

in inspecting the Manikganj subdivision of the

Dacca district expressed his opinion that a five-rupee rate is excessive, when chaukidars do not give their whole time to the duty, and that he does not think a uniform rate over the whole district should be enforced. I am a little surprised that an officer of Mr. Savago's ability should not have recognized the advantage of making increase in salary dependent on good service.

In Mymensingh the salaries have been fixed at rates varying from Rs. 4 to Rs. 6 per mensem. The Magistrate proposed to raise salaries promiscuously to Rs. 5, as has been done in Dacca and Backergunge. I, however, advised him that it would be prudent to commence on Rs. 3 or Rs. 3-8, and to raise the salaries later on in recognition of long and good service. I also suggested the grading of chaukidars into Rs. 5, Rs. 4 and Rs. 3 grades.

In Faridpur there has been an increase in the rates of salaries, which now vary from Rs. 4 to Rs. 6.

While salaries have been raised, the number of chaukidars has been increased, so the charge to the rate-payer has increased from two causes.

70. The following table shows to what extent coercive measures were adopted for the realization of chaukidars' salaries:

Coercive measures.

DISTRICT.		Number of panchayats.	Number of cases in which salaries of chaukidars were realized.	Number of warrants issued.	Number of cases in which no interference was necessary.	REMARKS.
1		2	3	4	5	6
Dacca	...	2,229	8,916	3,110	5,806	The figures in column 3 have been obtained by multiplying those in column 2 by 4 (instalments by which the pay of chaukidars is realizable).
Mymensingh	...	3,827	15,908	5,024	10,284	
Faridpur	...	1,890	7,660	3,268	4,292	
Backergunge	...	794	3,176	309	2,867	
Total	...	8,740	34,960	11,711	23,249	

Warrants are practically unnecessary in the Backergunge district, where chaukidars are paid by a member of the panchayat at the thana on fixed dates in the presence of a gazetted officer. This system has now been introduced in Mymensingh, where warrants will, I hope, be a remembrance only. Mr. Jenkins in Dacca and Mr. Growse in Faridpur have not been able to compel panchayats to attend at thanas to pay chaukidars, the procedure being, they think, of doubtful legality. As an enabling measure, I have in my letter No. 35J., dated 3rd January last, suggested a new rule under section 65 of the Act, making it obligatory on the panchayat to put in an appearance at the thana when ordered to do so.

71. In the following table is shown the number of villages and panchayats constituted under Act I of 1892 and the number of chaukidars as they stood on 31st December 1893:—

Villages under section 4.

DISTRICT.	Number of villages and panchayats under Act I of 1892.	Number of chaukidars under Act I of 1892.	Number of chaukidars to a panchayat.
1	2	3	4
Dacca ...	2,229	3,723	1·6
Mymensingh ...	3,827	6,916	1·4
Faridpur ...	1,690	3,217	1·4
Backergunge ...	794	4,785	6
Total ...	8,740	18,641	...

The Magistrate of Mymensingh is revising the villages under section 4 of the Act throughout the district, increasing their size and arranging that about 10 chaukidars shall be employed in each of them. He hopes by this measure to make the post of tahsil panchayat a more remunerative and attractive one, to facilitate the collection of the salaries of chaukidars, and at the same time to improve the discipline of the force. In Backergunge also, on the expiry of the term of office of many panchayats, the opportunity was taken of revising the villages under section 4 so as to give to each village 10 or nearly 10 chaukidars. Mr. Savage, late Magistrate of the district, thinks that a village with 10 chaukidars will be a very useful administrative unit for many purposes. In Dacca and Faridpur no revision of villages under section 4 has taken place, but Mr. Jenkins states that revision is necessary in his district, and is under his consideration.

Punishment and rewards.

72. The statement below shows the punishments inflicted and reward paid to chaukidars during the year 1893:—

DISTRICT.	Number of chaukidars.	NUMBER JUDICIALLY PUNISHED—		Number dismissed, including departmental dismissals.	Number fined departmentally.	Percentage of chaukidars punished.	Number rewarded by judicial officers.	Number departmentally rewarded.	Percentage of chaukidars rewarded.	Total amount distributed in rewards.
		For neglect of duty.	For substantive offences, such as theft, &c.							
1	2	3	4	5	6	7	8	9	10	11
Dacca ...	3,723	20	10	33	742	21·8	60	54	5·06	Rs. 402
Mymensingh ...	6,916	64	17	260	624	18·8	7	32	·5	310
Faridpur ...	3,217	38	7	81	1,016	64·1	1	59	1·8	191
Backergunge ...	4,785	34	8	125	1,335	31·1	10	53	1·3	408
Total ...	18,641	166	42	535	4,007	28·6	78	198	1·4	1,371

The increase in the number of chaukidars punished is due to Faridpur, where more than half the force suffered in some way. The Magistrate explains that every instance of neglect of duty was taken notice of as an example to others. No doubt chaukidars in this district were very lax, but such indiscriminate punishment is apt to be ineffective. I have invited the present Magistrate's attention to the remarks made by the Lieutenant-Governor in paragraph 7 of the Resolution on the Crime Report for 1892, in which His Honour hoped that the local officers would be less indiscriminate in inflicting punishment on chaukidars.

There is, I am glad to see, a considerable increase in the number of chaukidars rewarded. The current year will no doubt see a further increase.

73. The statement below shows the amount realized as fines and penalties during the year, the amount credited to the reward fund, and the amount paid as rewards in the several districts of the Division :—

DISTRICT.	Amount realized as fines and penalties during the year 1893 and credited to the reward fund.	Amount of rewards paid from reward fund.
1	2	3
	Rs. A. P.	Rs.
Dacca ...	354 9 9	209
Mymensingh ...	2,795 0 3	161
Faridpur ...	865 1 6	159
Backergunge ...	2,568 1 3	186
Total ...	6,572 12 9	715

The Magistrate of Mymensingh district admits that the action hitherto taken for granting rewards is altogether inadequate owing to the novelty of the system. Mr. Savago, Magistrate of Backergunge, states that 1893 being the first year in which there were funds available for rewards, there was some doubt in the minds of officers on the subject of recommendations, and thus the amount awarded was small.

I have made arrangements for keeping proper accounts of this fund.

74. In Backergunge, Dacca, and Mymensingh the orders of Government to erect chaukidari parade halls have been carried out. In Dacca and Backergunge all thanas, and in

Parade halls.

Mymensingh most thanas, have got such houses. The Magistrate of Faridpur, I regret to say, did not cause parade halls to be erected in the cold season of 1892-93, and has since pleaded the scarcity in his district as an excuse for not erecting them. These halls should have been built before the scarcity set in. The cost of these halls is generally paid by the chaukidars, but in Faridpur a suggestion was made that parade halls should be erected at the expense of the chaukidari reward fund, a suggestion I have vetoed.

75. No arrangement appears to have been made for the supply of the

Supply of Act and Rules.

Chaukidari Act and the rules prepared by Government under it to the panchayats. A native gentleman, Babu Girija Kanta Bal, Sub-Inspector of Police, Dacca, has compiled a compendium in vernacular, which has been supplied in some districts.

76. A question arose in my Division as to whether chaukidars are punishable judicially for the escape of prisoners entrusted to their charge for custody. It appears that the Inspector-General of Police has in paragraph 437, Part V of the *Police Gazette*, dated 23rd August 1889, prohibited the employment of chaukidars for guarding prisoners. This ruling is apparently based on the ruling published in the case *Queen versus Bojjigan*, quoted in the Indian Law Report V, Madras series, page 22, in which it was held that the arrest by the village watchmen and the village servant from whose custody the prisoner escaped was not a lawful arrest. I am inclined to think that where the arrest is lawful, the custody is lawful. For instance, where the Superintendent of a lock-up or the subdivisional officer consigns a prisoner from a lock-up, whose arrest and custody is in every sense lawful, to a village chaukidar for further custody, that custody is lawful. The matter is of great importance. Our regular police under Act V, 1861, are few and far between, and are not always available for guarding prisoners. There seems no reason for distinguishing in this respect between the two classes of policemen.

77. A curious instance of the excellent uses to which village panchayats may be put is reported from Backergunge. Mr. Savage asked certain of them by letter whether the persons registered as proprietors and residing in their

respective villages are still in possession of the interests in respect of which their names stand registered. From the answers received, it appeared that there was wholesale neglect of registration. The Board of Revenue have sanctioned the extension of the experiment to other estates and panchayats.

78. The question of *post-mortem* examination has come up. In this climate putrefaction soon sets in; yet I found that in Backergunge all corpses were sent to the sadar station for examination. The excuse was that only hospital assistants were available at subdivisions, and they were not allowed to perform *post-mortem* examinations. I pointed out that this disability had been removed by Government circular No. 31, dated 28th August 1891. The subdivisions of Dacca are near the sadar and perhaps do not require Assistant Surgeons. There are such officers at Goalundo, Madaripur, Tangail and Kishorganj. It would be well if we could secure the services of such officers at the other subdivisions.

79. A special report on this subject has been submitted. Ten thousand five hundred and fifteen licenses under the Arms Act were granted and renewed during the year 1893, against 11,372 in the previous year. Besides these, 211 licenses granted in previous years were in force during the year under report against 40 in 1892, making a total of 10,726 against 11,412 in the preceding year. The decrease is in licenses in form VIII and in the district of Backergunge. The Magistrate of this district writes that several of the licensees being unwilling to renew their licenses did not apply for renewal, and voluntarily deposited their guns. Besides, it was found necessary to refuse to renew licenses in villages in which serious disputes existed, and to persons who were supposed to be of bad character or were connected with disputes likely to lead to riots in which they would not improbably make use of fire-arms, the use of which in riot and murder cases has increased to a serious extent in his district in recent years. On enquiry I find that out of 37 cases of murder and riot in which guns were used in this district, in only four were licensed guns used. From this it is apparent that there must be many guns still unlicensed in this district.

80. The following table shows the number of licenses in form VII compared with area and population:—

DISTRICT.	Area in square miles.	Population.	Number of licenses in form VII.		Proportion of license to area.		Proportion of license to population.	
			1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ... ..	2,797	2,420,656	23	23	Square miles. 1 to 121'6	Square miles. 1 to 121'6	Persons. 1 to 105,245	Persons. 1 to 105,245
Mymensingh ... ..	6,332	3,472,180	19	10	1 to 327'6	1 to 333'2	1 to 340,348	1 to 347,218
Faridpur ... ..	2,267	1,797,320	7	8	1 to 323'8	1 to 223'3	1 to 226,760	1 to 224,665
Backergunge ... ..	3,640	2,163,965	10	12	1 to 364'9	1 to 304'0	1 to 215,390	1 to 179,497
Total ... ..	15,046	9,844,127	52	53	1 to 289'3	1 to 283'8	1 to 189,310	1 to 185,738

Further facilities for procuring arms and ammunition have been given in Faridpur and Backergunge. In Mymensingh, on the other hand, the facilities, already narrow, have been further restricted.

The statement below shows the number of licenses in form VIII as compared with the population and area in each district:—

DISTRICT.	Area in square miles.	Population.	Number of licenses in form VIII.		Proportion of license to area.		Proportion of license to population.	
			1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ... ..	2,797	2,420,656	4,100	4,295	Square miles. 1 to '6	Square miles. 1 to '0	Persons. 1 to 577	Persons. 1 to 563
Mymensingh ... ..	6,332	3,472,180	3,383	3,413	1 to 1'8	1 to 1'8	1 to 1,026	1 to 1,017
Faridpur ... ..	2,267	1,797,320	907	1,071	1 to 2'3	1 to 2'1	1 to 1,858	1 to 1,678
Backergunge ... ..	3,640	2,163,965	2,606	1,661	1 to 1'3	1 to 2'8	1 to 807	1 to 1,379
Total ... ..	15,046	9,844,127	11,206	10,333	1 to 1'3	1 to 1'4	1 to 578	1 to 552

Faridpur still lags behind. But there are few wild beasts, though many pigs, in this district. With the exception of Backergunge, the instructions of the Government of India that licenses in this form shall be freely given have, I think, been observed, so far as they can be observed when licenses are only renewed and granted at district head-quarters.

81. In my report last year I remarked it is no use licensing guns without marking them, and added that in Mymensingh they had hitherto not been marked. To my horror I afterwards discovered they had not been marked in other districts; so, for practical purposes, the Arms and Ammunition Act has remained a dead-letter in this Division. I am now having a number marked on each licensed gun. Next to marking in importance is the tracing out of arms the licenses for which are not renewed. I regret to say that this matter has been sadly neglected in my Division. No less than 334 licensees of 1892 in Dacca, 132 in Mymensingh, 25 in Faridpur and 430 in Backergunge, did not apply for renewal during the year, while it appears that only 170 arms were deposited at police-stations. The attention of the Magistrates has been drawn to this subject.

82. The number of cases in which prosecutions were instituted has increased from 142 to 174. The increase occurred in Mymensingh and Backergunge. In the former district prosecutions were instituted in cases in which the licensees failed to renew their licenses by the month of February, whereas in previous years six months' time was allowed for renewal after the close of the year. In Backergunge greater attention was paid to the subject by the police, with a view, it is said, to check the use of fire-arms in riot and murder cases.

The majority (121) of the prosecutions were instituted for carrying or possessing guns and other arms without license, which goes to show that facilities for granting licenses were not sufficient.

83. Seven persons in Dacca, 13 in Mymensingh, and one in Faridpur, are exempted from the operations of the Arms Act by special orders under rules 9f and 10 of the Arms Act Rules. The persons exempted in Dacca have 92 guns, and those in Mymensingh 86 in their possession; but the number of guns possessed by the gentlemen exempted in Faridpur is not known. In Backergunge no one is exempted under the above rules.

84. In the adjoining province of Assam, where the subject of arms and ammunition is of more importance owing to its lying on the external land frontier, subdivisional officers grant and renew licenses. The Government of India have refused to allow this to be done here. The preceding paragraphs show that our administration of the Act has been most lax: evidently many arms remain unlicensed. Licensed arms are not identifiable. Arms, the licenses of which are not renewed, remain untraced and unaccounted for. I advocate the grant and renewal of licenses at subdivisions with a view to more effective administration of the Act.

Persons killed by wild animals. 85. I have specially reported on the subject of the destruction of human and kine life by wild beasts.

One hundred and ninety-seven persons are reported to have been killed by wild animals in 1893 against 204 in the previous year. The following table shows the loss of human lives in each district:—

	1892.	1893.
Dacca ...	43	53
Mymensingh	70	59
Faridpur ..	29	15
Backergunge	62	70
Total ...	204	197

The decrease in Mymensingh is chiefly under heading tigers and hyenas. It is doubtful if the return of deaths caused by hyenas for 1892 is correct.

In Faridpur the decrease and in Dacca the increase is due to jackals.

The increase in Backergunge is mainly due to the depredations of tigers in newly-opened cultivations in the south of the district.

There have been 865 deaths from snake-bites against 660 in the previous year. The increase is attributed to the excessively high floods which forced the poisonous snakes to take shelter in human abodes.

86. The table below shows the number of cattle killed by wild animals during the last two years :—

		1892.	1893.
Dacca ...	...	303	195
Mymensingh ...	...	387	525
Faridpur ...	...	27	20
Backergunge ...	...	974	1,187
Total		<u>1,691</u>	<u>1,927</u>

The increase is thought to be due to better reporting by chaukidars.

87. The number of wild animals destroyed, for which rewards were paid, is reported to have been 155 against 112 in the previous year, as detailed in the following table:—

		1892.	1893.
Dacca ...	...	19	17
Mymensingh ...	...	61	115
Faridpur ...	...	8	2
Backergunge ...	...	24	21
Total ...		<u>112</u>	<u>155</u>

The large increase in Mymensingh is stated to be due to the fact that the system of granting rewards is better known. The small number of rewards paid in Faridpur supports the view that there are very few wild beasts in this district.

The statement below shows the total number of wild animals destroyed, whether rewards were given or not:—

		1892.	1893.
Dacca ...	...	278	78
Mymensingh ...	...	88	133
Faridpur ...	...	366	627
Backergunge ...	...	413	487
Total ..		<u>1,145</u>	<u>1,325</u>

In Dacca, although there has been a large falling off in the number of animals destroyed, the number of tigers killed shows a satisfactory increase (from 7 to 24). In Mymensingh and Backergunge also there has been a large increase in the number of tigers killed as compared with the previous year. A tiger is a good set-off against many other animals. In Faridpur no tigers were destroyed during the year. The large number of other animals (618) destroyed in this district without reward means pigs, which are very destructive in this and other districts.

The number of snakes destroyed, for which rewards were paid, rose from 181 to 286.

88. The attention of the Chairmen of District and Local Boards as well as of the Municipal Commissioners was drawn to the necessity of inducing people to clear away jungle from around their homesteads. Action was accordingly taken by these bodies towards the clearance of rank vegetation, but, so far as the rural area is concerned, nothing effectual can be done in this matter until some form of local agency, such as the Union Committee under the Local Self-Government Act, is created.

89. There has been a further increase in the amount of rewards paid, Rs. 1,492-12 against Rs. 1,391-13 in 1892 and Rs. 1,734-2 in 1891. Rewards are only granted and paid at district and subdivisional head-quarters. They have been paid at subdivisional head-quarters only since 1892. More rewards would no doubt be earned if increased facilities for getting them when earned could be given.

The following amounts are stated to have been paid during the year as rewards for killing snakes from the municipal funds:—

			Rs.	A.	P.
Dacca ...	...	...	5	4	0
Faridpur ...	...	...	41	0	0
Backergunge ...	...	...	7	10	0

90. Raja Surjya Kanta Acharjya of Mymensingh and his cousin, Babu Jagat Kishor Acharjya, employed some of their shooting parties. The former is credited with eight and the latter with two during the year.

#### XV.—CRIMINAL JUSTICE.

91. The following statement shows the criminal judicial work under the Penal Code at each subdivision, extracted from High Court's annual statement No. 2:—

DISTRICT.	Name of subdivision.	Population.	NUMBER OF CASES.					NUMBER OF PERSONS.						
			Offences reported.	Complaints dismissed under Criminal Procedure Code.	Other cases struck off as false.	Balance returned as true.	Brought to trial during the year.	Under trial during the year.	Acquitted or discharged.	Convicted.	Did. escaped, or transferred.	Remainder under trial at the close of the year.	Number of persons to a case reported.	Percentage of conviction to number of persons tried, in total of columns 10 and 11.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
Dacca	Sadar ...	790,086	2,244	628	33	1,583	1,105	1,326	569	616	2	139	352	501

	Total ...	9,344,127	33,004	8,080	681	24,254	13,244	19,471	8,755	9,612	43	1,001	298	743
Sylhet	North Sylhet ...	482,341	1,306	367	71	957	593	930	351	516	6	30	345	513
	South Sylhet ...	361,117	1,413	347	22	1,044	526	898	412	440	1	86	255	384
	Habiganj ...	513,116	2,025	733	75	1,757	1,231	2,036	898	1,060	4	84	105	252
	Karimganj ...	384,638	1,314	292	39	983	456	881	430	397	3	51	266	436
	Sunamganj ...	413,381	1,413	160	37	1,216	733	1,368	518	809	4	37	232	302

I have added figures for the Sylhet subdivisions for the sake of comparison. Mymensingh Sadar is still the heaviest subdivision, but Habiganj in Sylhet and Madaripur run it close. Munshiganj, Jamalpur, and Faridpur Sadar are also heavy subdivisions.

As compared with population, again Mymensingh Sadar, Jamalpur, Habiganj, and Munshiganj take a long lead. There is nothing in my Division to compare with Habiganj in Sylhet, where one person in 252 is put on trial annually. Mymensingh Sadar 364, Jamalpur 375, and Munshiganj 380, are our nearest approach. Last year I had to notice the curious figures from the Patuakhali subdivision. This year Bhola from the same district exhibits almost impossible figures. Out of 573 cases returned as true, only 138 came to trial, and the subdivision is five times less criminal than Habiganj if only persons put on trial are considered.

Backergunge returns 5,517 offences reported against 4,500 in 1892. I noticed in last year's report that on inspecting one of the Backergunge subdivisions, I found a number of cases reported omitted under instructions from one of my predecessors.

The high position of Jamalpur both absolutely and relatively to population is perhaps due to the Honorary Magistrate at Sherpur having been invested with power to receive complaints. Some complaints, too, were apparently wrongly excluded from the returns in 1892.

The great difference in the criminal judicial work in different subdivisions shows that many subdivisions have been opened chiefly with reference to other considerations. Neither Narayanganj, Goalundo, nor Bhola would have been made subdivisions on their criminal judicial merits.

Bhola maintains its high percentage of convictions, but then, for some reason or other, only 24·08 per cent. of cases returned as true came to trial. Patuakhali has greatly improved. Manikganj, Munshiganj, and Tangail have low percentages.

It is interesting to note how far the percentage of convictions follows the percentage of cases brought to trial on cases declared to be true:—

NAME.		Percentage of cases brought to trial on cases declared to be true.	Percentage of convictions.
1		2	3
Narayanganj	...	64·5	58·8
Manikganj	...	56·5	41·7
Munshiganj	...	51·1	46·2
Faridpur sadar	...	60·8	58·4
Goalundo	...	54·2	67·7
Mymensingh sadar	...	51·3	46·7
Tangail	...	39·7	43·7
Bhola	...	24·0	72·4

On the whole, 54 per cent. of cases declared to be true are brought to trial. Where the percentage is lower, the percentage of convictions should be correspondingly higher. That is, in Narayanganj, where a large proportion are brought to trial, the percentage of conviction should be low. But this is not the case.

On the whole, the number of cases struck off as false is 2·0 per cent. on the number reported. This percentage is largely exceeded in Munshiganj (5·1), Netrakona (4·7), Madaripur (4·1), Tangail (3·8), Jamalpur (3·8), and Kishor-ganj (3·1), while in Dacca sadar (1·4), Patuakhali (1·4), Backergunge sadar (1·2), Manikganj (1·1), Bhola (·8) and Faridpur sadar (·5), the percentage falls far short of the average. I think there is some carelessness in declaring cases to be false, especially in direct cases, both cognizable and non-cognizable.

92. Though Penal Code business is far the most important and occupies more time, in some of my subdivisions business under Chapter VIII of the Code of Criminal Procedure is so heavy that it merits separate consideration.

DISTRICT.	Name of subdivision.	Popu- lation.	NUMBER OF CASES.					NUMBER OF PRISONS—					Number of persons to a case reported.	Number of persons to a person brought to trial.	Percentage of conviction to num- ber of persons tried (column 11 to total of columns 10 and 11).
			Offences reported:	Complaints dismissed un- der section 203, Criminal Procedure Code.	Other cases struck off as false.	Balance returned as true.	Brought to trial during the year.	Under trial during the year.	Acquitted or discharged.	Convicted.	Died, escaped, or trans- ferred.	Remaining under trial at the close of the year.

	Patuakhali	406,735	306	...	...	306	406	866	300	554	...	6	1,257	773	64·4
	Bhola	268,460	82	...	...	82	65	163	56	107	...	...	3,151	1,545	65·6
Total		9,844,127	2,011	295	...	2,316	2,161	7,087	1,863	5,088	14	187	8,770	4,555	73·9
Sylhet	North Sylhet	482,341	72	31	...	41	31	92	82	6	...	4	5,090	5,242	6·8
	South Sylhet	507,117	61	6	...	55	40	42	13	28	...	1	5,019	8,698	86·2
	Habiganj	513,116	65	5	...	60	40	98	60	35	...	8	7,804	5,335	36·8
	Karimganj	584,688	34	5	...	29	13	23	15	8	...	...	11,312	16,723	34·7
	Sunamganj	413,341	61	9	...	72	60	91	45	40	...	3	5,105	4,672	45·4

It is curious how little recourse is had to preventive measures in Mymensingh and Sylhet. In the latter district the number of riot cases exceeds that of any of my districts, and Mymensingh has plenty too, as is shown in section above. Almost all the cases under section 107 in Mymensingh are direct cases, that is, the police take no steps to prevent riots. The Magistrate is trying to remedy this state of things. Tangail has been notorious for years for riots, and yet only one person in 17,188 was called on to show cause why he should not be bound over to keep the peace. Mymensingh Sadar, Faridpur Sadar, Munshiganj, Madaripur, and Jamalpur are our heaviest subdivisions under the Penal Code; of these only Faridpur Sadar and Madaripur have much work under Chapter VIII of the Code of Criminal Procedure. Munshiganj has a little such work. From this point of view, the Backergunge subdivisions, except Bhola, are entitled to a higher place than they have under the Penal Code. It must be remembered that these cases go off much more quickly than Penal Code cases. Accused often consent to be bound down, in which case no evidence is required. The number of cases under sections 106, 107 and 119 in Backergunge has fallen off from 1,517 in 1892 to 1,119 in 1893. I hope precautions are not being relaxed in this turbulent district.

93. The following statement shows the Criminal Courts' business under Acts other than the Penal Code and Chapter VIII of the Code of Criminal Procedure. Municipal cases under section 34, Act V of 1861, under municipal bye-laws, and under the Compulsory Vaccination and Vital Registration Acts, swell the figures:—

DISTRICT.	Name of subdivision.	Population.	NUMBER OF CASES.					NUMBER OF PERSONS—							Number of persons to a case reported.	Number of persons to a person brought to trial.	Percentage of conviction to number of persons tried (column 11 to total of columns 10 and 11).
			Offences reported.	Complaints dismissed under section 203, Criminal Procedure Code.	Other cases struck off as false.	Balance returned as true.	Brought to trial during the year.	Under trial during the year.	Acquitted or discharged.	Convicted.	Did. escaped, or transferred.	Remaining under trial at the close of the year.

Cases under "other Acts" are generally very easily tried: a dozen men brought up on a morning at Dacca under section 34, Act V of 1861, can be disposed of in five minutes. They all plead guilty. On the other hand, cattle trespass cases may give a good deal of trouble. Almost the whole of the work under special and local laws should be, and indeed might be, disposed of by Honorary Magistrates; so in considering what staff of Stipendiary Magistrates is required at a station, I should be inclined to omit these cases altogether:

94. The following statement shows the appellate and revisional work, district by district, of Sessions Judges and District Magistrates :—

DISTRICT.	Court.	Number of persons whose appeals were heard.	Appeals rejected or sentence confirmed.	Ratio per cent. of column 4 to column 3.	Number of cases preferred.
1	2	3	4	5	6
Dacca ...	Judge ...	508	375	73·8	450
	Magistrate ...	723	426	58·9	322
Mymensingh ...	Judge ...	894	550	61·5	621
	Magistrate ...	485	331	68·2	355
Faridpur ...	Judge ...	570	355	62·2	299
	Magistrate ...	403	257	63·7	263
Backergunge ...	Judge ...	586	404	68·9	344
	Magistrate ...	55	43	78·1	48

The Magistrate of Backergunge has very few appeals, because under paragraph 2 of Bengal Government notification, dated 6th May 1873, he has invested his Benches with first class powers; so his figure 78·1 is not of much significance. The Judge of Dacca finds little occasion for interference. The Magistrate of Dacca has a very low figure. The Magistrate complains that subordinate Magistrates are apt to treat civil disputes as criminal cases. This means that the work is unnecessarily heavy. The Judges of Mymensingh and Faridpur interfere more than the Judge of Backergunge. But generally there is not much change compared with 1892.

*Revisional Work.*

DISTRICT.	Court.	Number of persons disposed of.	Applications rejected or orders confirmed.	Ratio per cent. of column 4 to column 3.	Number of cases preferred.
1	2	3	4	5	6
Dacca ...	Judge ...	145	100	68·9	76
	Magistrate ...	204	95	46·5	159
Mymensingh ...	Judge ...	509	252	49·4	227
	Magistrate ...	180	121	67·2	105
Faridpur ...	Judge ...	128	92	71·8	33
	Magistrate ...	370	201	54·3	122
Backergunge ...	Judge ...	248	122	49·1	103
	Magistrate ...	149	106	71·1	57

The Magistrate of Faridpur has a great deal of revisional work which apparently he does little to discourage. The Mymensingh Judgeship is far the heaviest, both in appellate and revisional work, and it has increased of late years.

	Appeals.	Applications for revisions.
1891 ...	505	91
1892 ...	630	130
1893 ...	621	227

The Magistrate of Mymensingh is not so oppressed with revisional work as he was in the previous year. He thinks the decrease in his district is probably due to the fact that when the Magistrate was out on tour, parties found it more convenient to go to the Judge.

With a view to lightening the burden of appellate work at Mymensingh, I recommended that a Deputy Magistrate with 1st class powers be empowered to hear appeals from orders of 2nd and 3rd class Magistrates. This proposal has since received the sanction of Government. It is of course open to Magistrates to invest Benches of Honorary Magistrates with 1st class and summary powers under paragraph 2 of Government notification, dated 6th May 1873, as the Magistrate of Backergunge has done.

The Magistrates of Dacca and Faridpur require help in this direction even more than the Magistrate of Mymensingh. And a peripatetic officer like a District Magistrate is singularly unfitted to act as an appellate court.

The work is increasing, as is shown by the statement below, and will increase as petty criminal work gravitates more and more into honorary hands:—

DISTRICT.	APPEALS PREFERRED.			APPLICATIONS FOR REVISION.		
	1891.	1892.	1893.	1891.	1892.	1893.
1	2	3	4	5	6	7
Dacca ...	195	333	450	57	118	159
Mymensingh ...	233	307	355	170	154	105
Faridpur ...	194	236	263	100	90	122
Backergunge ...	49	59	48	69	72	57

95. The following statement compiled from the High Court's annual statement 4 shows the duration of cases in the different classes of Courts in each subdivision in 1892 and 1893:—

DISTRICT.	Subdivision.	HONORARY MAGISTRATES SITTING SINGLY.				STIPENDIARY MAGISTRATES SITTING SINGLY.				Bench of Magistrates.		District Magistrate under ordinary powers.	
		2nd and 3rd class.		1st class.		2nd and 3rd class.		1st class.		1892.	1893.	1892.	1893.
		1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.				
1	2	3	4	5	6	7	8	9	10	11	12	13	14
Dacca	Sadar	10.7	3.0	...	...	3.4	6.2	7.5	12.3	4	3	...	...
	Narayanganj	18.5	32.9	...	...	...	10.6	13.2	10.9	21.2	11.1	...	...
	Munshiganj	24	17.6	...	...	12	18.7	13	14.8	20	21.0	...	...
	Manikganj	14.7	15.4	...	15.7	...	17	12.6	11.6	16.3	...	...	...
Mymensingh	Sadar	...	7.8	...	...	16.01	11.0	21.5	18.00	61.49	6.8	4.2	...
	Tangail	...	...	...	...	18.3	13.06	25.0	10.8	13.2	9.8	...	...
	Jamulpur	5	5.2	...	...	...	1.3	5	10.8	1.6	5.4	...	...
	Kishoriganj	...	...	...	...	...	...	18.1	15.0	26.1	15.9	...	...
Faridpur	Netrakona	...	7.8	...	...	...	11.5	17.0	18.4	11.8	9.5	...	...
	Sadar	...	...	...	...	5.1	4.7	10.8	12.9	11.8	12.6	2.5	3.8
	Goulundo	...	3	...	...	...	...	8.7	7.8	1.5	6.2	...	...
	Madaripur	...	...	...	...	9.2	10.6	5.7	4.2	9.9	11.8	...	...
Backergunge	Sadar	...	...	...	...	6.8	7	14.2	10.6	9.1	10.9	4.5	4
	Pirojpur	...	10.8	...	...	...	4.4	6.7	8.2	9.6	10.2	...	...
	Patuakhali	...	...	...	...	...	...	3.9	15.3	9.05	6.5	...	...
	Bhola	...	...	...	...	7.2	3.1	3.9	3.1	1	1	...	...

The benches come off badly in Munshiganj and Manikganj.

Benches try petty cases, and as it is not always easy to arrange for the same Magistrates to sit again, it is very important they should decide their cases at a single sitting. From this point of view benches' duration is generally not so good as it should be, while Manikganj and Munshiganj results are distinctly bad. Among stipendiaries there is serious deterioration at Jamalpur and Patuakhali, though figures are not so bad absolutely. Dacca Sadar has gone off, while Munshiganj, Netrakona, and Faridpur subdivisions and Backergunge Sadar have not improved.

96. Appendix XI shows the work disposed of by the Stipendiary Magistrates, and illustrates the way in which work is distributed amongst such Magistrates. As Magistrates have different classes of judicial work, it is not easy to criticize the ratio in column 14 or the average in column 20. A Magistrate at Dacca, who tried many municipal cases, should come out well in these columns. A Magistrate at the same place who tried only heavy cases would come out badly, as vakils would call unnecessary witnesses and would detain them an unnecessary time. Maulvi Fazlal Karim of Madaripur disposed of 633 cases with 1,185 witnesses, the average being 1·8 per case. He convicted 1,554 persons out of 1,710 to be disposed of. Babu Chandra Kumar Datta of Bhola also shows the same average, and convicted 434 out of 536 persons in 375 cases. But in the case of Madaripur this includes many cases under section 107, Code of Criminal Procedure, in which accused pleaded guilty, that is, expressed their willingness to be bound over.

The ratio per cent. of witnesses detained more than two days was, on the whole, satisfactory in every district except Mymensingh. Generally Magistrates at subdivisions do better than those at head quarters. In Dacca the detentions were large in the Courts of Mr. Cox, Joint-Magistrate, 11·1; Babu Chandra Bhusan Chakravarti, 7·7; C. A. W. Fordyce, Esq., 7·7; and H. F. Samman, Esq., 7·9 per cent. In Backergunge the following courts come off badly, viz., Babu Gopal Chandra Mukherjee, 10·7. and Babu Jamini Mohun Dass, 11·2 per cent. In Faridpur the ratio is 7·5 against Babu Jaga Bandhu Khan and 7·6 against Maulvi Shaffiuddin Ahmed at Gopalganj. There can be small excuse for detention of witnesses at Gopalganj. In Mymensingh the worst court in this respect was that of Babu Kali Nath Bose, with 27·1 per cent. The Deputy Magistrate has since retired from the service. The other courts which show large detentions were those of Moulvi Ahmed, 9·6, and Babu Chandra Shekhar Kar, 8·6 per cent.

Babu Srish Chandra Ghose, ·26, Ram Sadan Bhattacharji, 1·9, Prasanno Kumar Datta, 2·9, Prasanno Kumar Karforma, 2·5, Jogendra Kumar Ghosh, ·07, and Maulvi Fazlal Karim, ·05, show prompt discharge of witnesses. There was no detention of witnesses in the court of Mr. Mullick.

97. Statement XV in the Appendix shows the amount of business done at each subdivision in the matter of fines. Mymensingh Sadar gives the largest income, Rs. 21,118; next to that is Backergunge Sadar, 18,742, following which is the Madaripur subdivision, 14,293. Dacca and Faridpur Sadar should do better. The outstanding balance has decreased in Mymensingh, Faridpur, and Backergunge, but at Dacca it has increased from Rs. 10,766 to Rs. 13,281. The balance has increased at the following subdivisions, that is, at six out of sixteen:—Dacca Sadar, Narayanganj, Manikganj, Patuakhali, Netrakona, and Faridpur Sadar. This is very unsatisfactory. It used to be the rule to test the balance outstanding annually, that is, to have a list of fines outstanding made and to see if the total of the list agreed with the alleged balance. This I found was not done. The High Court has prescribed a somewhat elaborate register showing all fines outstanding. This serves the purpose of the annual list.

98. Appendix XIII is a statement of remands in A form cases, i.e., cognizable cases sent up by the police. The percentage of cases decided in first and second hearing (44·9) shows an improvement as compared with that of the previous year (38·6). The following statement shows the percentage of cases remanded six times and more for each district for 1892 and 1893:—

DISTRICT.	1892.				1893.			
	Number disposed of.	Disposed of first day.	Remanded six times or more.	Percentage of column 4 on column 2.	Number disposed of.	Disposed of first day.	Remanded six times or more.	Percentage of column 8 on column 6.
1	2	3	4	5	6	7	8	9
Dacca ... ..	736	201	54	7·3	758	177	41	5·4
Mymensingh ... ..	1,332	209	110	7·9	1,409	332	86	6·1
Faridpur ... ..	677	197	13	1·9	850	193	15	1·7
Backergunge ... ..	764	193	69	7·8	728	220	55	7·5
Total ... ..	3,569	806	236	6·6	3,736	922	197	5·2

The difference between Faridpur and other districts is very curious and would suggest some difference in the system under which the returns are compiled. Out of 280 A forms in the Madaripur subdivision, not one was remanded more than five times. The figures show slight improvement in Dacca and Mymensingh, and the result was as good as in the previous year in Backergunge. The divisional percentage is 5·2 against 6·6 in the previous year. The Provincial percentage for 1892 is 3·2, so we are far below the average. The Magistrate of Backergunge remarks that in contested cases in which the parties are rich and influential, leading pleaders of the bar are generally engaged, who take the fullest advantage of the right of recall of witnesses. But the bar was established with a view to facilitate and expedite, not to prolong, work. In this district the figures from Patuakhali are reported to be unsatisfactory. Much of the delay there is attributed to the numerous changes in the staff, but the Magistrate had also occasion to find a want of vigour and business habits.

The Magistrate of Mymensingh remarks that the results would have been still better but for changes of officers at Jamalpur, the Sadar, and Netrakona, where remands were granted in many cases to avoid *de novo* trials by in-coming officers. He doubts if much better results can be looked for in the future. The non-attendance of witnesses, he states, still causes delay. To remedy this evil vigorous action is now being taken under section 174, Penal Code, against all witnesses who fail to appear after the due service of process.

99. The following table shows the longest and the average duration of bad livelihood cases in each district:—

DISTRICT.	LONGEST DURATION OF ANY CASE.		AVERAGE DURATION OF CASES.	
	From the date on which process was first issued.	From the date on which a report was first made to the Magistrate.	From the date on which process was first issued.	From the date on which a report was first made to the Magistrate.
1	2	3	4	5
	Days.	Days.	Days.	Days.
Dacca ...	289	329	44·9	52·4
Mymensingh ...	196	251	55·1	86·3
Faridpur ...	89	104	41·2	63·4
Backergunge ...	68	69	19·4	20·1

The Magistrate of Dacca explains that the longest pending case in his district was one in the Munshiganj subdivision, in which the accused absconded. The average duration in Dacca, Mymensingh, and Faridpur is bad.

100. Two hundred and nineteen persons were reconvicted during the year, against 172 in the previous year. I think the increase in reconviction goes against the scarcity theory to some extent. In times of scarcity, honest men are tempted or driven into crime.

101. The following table shows the number of prosecutions in false cases and the result of prosecutions:—

DISTRICT.	Cases declared false.		Number of false cases in which prosecutions were instituted.		Number of cases in which conviction was obtained.		Number of persons convicted.		PERCENTAGE.			
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	Prosecutions to cases.		Convictions to prosecutions.	
1	2	3	4	5	6	7	8	9	10	11	12	13
Dacca ...	154	145	17	15	4	7	4	7	11·0	10·3	23·5	46·6
Mymensingh ...	272	377	10	20	4	5	4	5	6·9	5·3	21·0	25·
Faridpur ...	115	92	13	27	7	14	9	14	11·3	20·3	53·8	51·8
Backergunge ...	91	57	15	9	5	2	5	2	10·4	15·7	33·3	22·2
Total ...	632	671	64	71	20	28	22	28	10·1	10·5	31·2	39·4

There is some extension as compared with the previous year, and the result of convictions shows an improvement. As stated above, in different districts cases are apparently declared false on different principles. The Magistrate of Mymensingh states that owing to the difficulty of securing a conviction under section 211, Penal Code, and the probable results in appeal of such a case, he cannot advocate any large extension of proceedings under the section. Fewer prosecutions with more convictions have a more wholesome effect than a larger number of prosecutions with bad results. The Magistrate of Dacca states that a preliminary judicial enquiry was held in each case declared false, and if there was sufficient evidence, a prosecution was sanctioned under section 211 or 182, Indian Penal Code. The great obstacle to prosecutions is that the case must be transferred elsewhere for trial.

102. In accordance with previous practice, I submit results of trials in certain classes of cases, though such information is rather a police than a judicial matter.

The following statement shows the results of trial of persons by classes in cases cognizable by the police:—

TEST.	Class I.		Class II.		Class III.		Class IV.		Class V.		Class VI.	
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9	10	11	12	13
1. Percentage of convictions to arrest.	52.4	69.2	47.8	50.2	52.9	48.7	37.9	28.9	62.2	63.4	91.5	96.5
2. Percentage of convictions to persons brought to trial.	48.7	57.9	44.6	46.1	60.1	58.6	34.4	27.7	62.0	64.8	94.3	96.9
3. Percentage of convictions to persons actually tried.	59.7	63.4	47.2	49.5	62.4	61.9	27.8	21.8	50.2	52.2	93.5	95.1

In classes I and II there is improvement. In class III there is slight deterioration. In class IV there is a great decadence. In classes V and VI there is no noteworthy change. The Magistrates of Faridpur and Backergunge note that many cases in class IV are compounded. The Magistrate of Mymensingh thinks the results depend a good deal on appellate courts. Where appellate courts are over censorious and inclined to the letter rather than to the spirit of the law, lower courts acquit guilty persons. I hope this is not the case. A court is bound to give judgment according to its conscience and without reference to appeal.

The following table shows the results of trial of cases cognizable by the police by classes:—

DISTRICT.	PERCENTAGE OF CASES DECIDED ENDING IN CONVICTION.						
	Class I.	Class II.	Class III.	Class IV.	Class V.	Class VI.	
1	2	3	4	5	6	7	
Dacca ...	65.7	51.9	79.1	25.4	59.3	98.2	
Mymensingh ...	66.4	53.6	59	15.02	48.3	89.7	
Faridpur ...	88.5	70.2	77.2	21.3	56.6	97.7	
Backergunge ...	73.9	57.6	73.5	8.3	63.2	92.9	
Total ... {	1893	73.9	57.6	70.2	17.1	54.8	95.9
	1892	72.1	52.6	68.7	27.4	52.6	94.6

The most noteworthy feature is the falling off in class IV. I do not suppose that more cases have been compounded than in former years. The differences in

different districts are also remarkable, *e.g.*, Faridpur in classes I and II, Backergunge in class IV.

103. The following statement shows the result of sessions trials:—

DISTRICT.	Number of persons tried at the sessions.		Total number convicted by the Sessions and the High Court.		Total number of persons acquitted.		Percentage of convictions to the number tried at the sessions.	
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ...	92	112	44	71	48	41	47·8	63·3
Mymensingh ...	218	148	151	71	67	77	69·2	47·9
Faridpur ...	49	68	34	41	15	27	69·3	60·3
Backergunge ...	134	142	68	96	66	46	50·7	67·6
Total ...	493	470	297	279	196	191	60·2	59·3

Decrease of sessions business in Mymensingh is compensated by increase in Faridpur and Backergunge. The failure in Mymensingh brings down the percentage, which is otherwise fairly good. The High Court is said to be partly responsible. Then the Additional Judge only convicted 25 out of 56 persons whom he tried.

With reference to the decline in Faridpur, the Magistrate remarks that the committing Magistrates are more to blame than the police; but the Sessions Judge has not, so far as I remember, unfavourably remarked on the work of the committing Magistrates.

The Magistrate of Backergunge states that no cases were supervised in the Sessions Court by the District Superintendent or Assistant Superintendent of Police for want of time. He adds that the Government pleader was not instructed in his district. I have asked for explanation.

104. The following statement extracted from part IV of the High Court's annual statement 5-A shows the extent to which the punishment of whipping is resorted to in the different subdivisions of this Division:—

PUNISHMENTS.	NUMBER.															
	DACCA.				MYMENSINGH.					FARIDPUR.			BACKERGUNGE.			
	Sadar.	Munshiganj.	Narayanganj.	Manikganj.	Sadar.	Jamalpur.	Kishoreganj.	Netrakona.	Tangail.	Sadar.	Goaland.	Madaripur.	Sadar.	Patakhali.	Faridpur.	Rhola.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
1. Total number of whippings awarded ... 1892	12	1	13	5	8	2	5	2	1	2	24	10	3	...	9	2
... 1893	21	9	13	8	18	10	17	5	4	18	44	19	10	4	19	1
2. Total number of other punishments in cases in which whipping might have been inflicted ... 1892	258	129	159	112	187	115	87	150	144	137	84	131	143	38	38	36
... 1893	350	118	127	130	175	85	79	66	131	180	156	132	137	44	13	26
3. Total number of all punishments in cases in which whipping might have been awarded (total of headings 1 and 2) ... 1892	270	130	172	117	195	117	92	152	115	139	108	141	146	38	47	36
... 1893	371	127	140	138	193	95	96	71	135	198	200	151	147	48	33	27
4. Percentage of whippings on total number of all punishments (percentage of heading 1 on heading 3) ... 1892	4·4	·7	7·5	4·2	4·1	1·7	5·4	1·3	·8	1·4	22·2	7·0	2·05	...	19·1	5·2
... 1893	5·6	7·0	9·2	5·7	9·3	10·5	17·7	7·04	2·9	9·00	22·	12·5	6·8	8·3	50·3	3·7

There is reason for thinking that the figures in heading 2 are incorrect for the Backergunge subdivisions, and the increase in Dacca sadar compared with 1892 is prodigious. But the table may be accepted as showing that more use has been made of this punishment. Tangail still lags behind.

The meaning of the term "school discipline" in the Code of Criminal Procedure is now, I think, understood.

105. In accordance with the instructions contained in circular No. 4J., dated 30th January 1889, copies of my inspection memoranda of the criminal courts at Netrakona and Kishorganj were forwarded to the High Court.

I have brought some matters which have come before me in inspecting criminal courts to the notice of the Honorable Judges of the High Court. I have found that Magistrates often leave it to the bench clerk or other muharrirs to decide under which of the sections given in column 5 of Primary Register I, column 13 of Primary Register II, column 6 of Primary Register III, an offence (case) is to be entered in Statistical Registers 1 and 2. In some offices the bench clerk or muharrir adopts the more serious (heinous) section for the returns; in other offices he adopts the less heinous section entered in these columns. It is, I think, clear that the result must depend a good deal on the muharrir's practice. Where he chooses the more heinous, there crime will appear to be more serious than where he chooses the less heinous section. In the Assam Valley Districts the Magistrate decides under what section an offence (case) shall be entered in the Statistical Registers 1 and 2 and Annual Statement 2, when he disposes of it. The High Court have directed that the Magistrate shall decide under what section a case shall be entered.

On a reference from me the Honorable Judges have decided that informations under Chapter VIII of the Code of Criminal Procedure should not be treated as complaints under section 200, and should not therefore be dismissed under section 203.

I brought it to the notice of the High Court that the rule that records of cases shall be sent to head-quarters in the month following that in which the cases were decided is causing difficulty in inspecting subdivisional offices. This rule has since been cancelled, and it has been decided that the records shall be kept three months at subdivisions.

In inspecting criminal courts I found that complaints dismissed under section 203, Code of Criminal Procedure, and complaints reported by the police in B and C forms under section 173, Code of Criminal Procedure, and dismissed by the Magistrate on such reports, are treated as separate records, and that a title page, table of contents, and an order sheet is attached to each. I suggested that, as in cases summarily tried, complaints, whether made to Magistrate or police, in which no action is taken against any accused person, in which after due preliminary enquiry, by the police or otherwise, the Magistrate declines to take action, should not be treated as records, and should not have title page, etc., attached. I also suggested that such complaints should not be separately entered in the list of records sent to record-room, but should be filed in bundles weekly, monthly or quarterly as most convenient, with one title page, table of contents and order sheet for the week, month or quarter as the case may be. This would save writing over 6,000 title pages, order sheets and tables of contents, and some 6,000 entries in the list of records sent to the record-room.

It was brought to my notice that in a certain district in this Division a notice under section 133, Code of Criminal Procedure, on seven persons, charged Rs. 7-14, *i.e.*, one rupee for each person in the notice and 2 annas boat-hire per person. As this seemed to me to be excessive, I referred the matter to the High Court, and the Honorable Judges have agreed with me in thinking that a notice under section 133, Code of Criminal Procedure, should be regarded as a summons. In that case the fee would be Rs. 1-12, not Rs. 7-14.

106. The Magistrate of Backergunge states that the scheme of relieving court sub-inspectors of much of their routine work and employing them in prosecuting criminal cases has resulted in the improvement of judicial results. I should like to have further experience of the system before I pronounce it a success. The figures above given in paragraph 102 do not support this conclusion. There can be no doubt that the scheme has very much increased the pressure of work in the Magistrate's office and in subdivisional offices.

The Magistrate of Backergunge has been able to depute a muharrir from the temporary establishment attached to Deputy Magistrates at the sadar to assist at Patuakhali and Pirojpur.

107. The High Court has decided in its General letter No. 1, dated 15th February 1894, that the Trial Register need not be kept up by courts which keep Registers 1, 2, 3 and 4. This order has given some relief to the clerks.

I am considering how the clerical work may be reduced further. The clerks at subdivisions habitually attend in the morning as well as in catcherry hours. Either the clerical work must be reduced or the establishment must be increased.

108. All warrants, whether of arrest or other, issued under the Criminal Procedure Code, are now served by the police in accordance with the instructions contained in Government circular No. 8J.T., dated 3rd August 1893.

109. In my report for 1892-93 (and in my special report on the jury system) I drew attention to the exclusion of Muhammadans from our lists of assessors and jurors. The following statements I and II show how the matter now stands. The Muhammadan community have made no protest against this apparently unfair treatment, which shows, I think, that religious animosities are less acute in eastern than in western countries.

*I.—Statement showing constitution of the Sessions Court according to religion.*

RELIGION.	NUMBER OF JURORS OR ASSESSORS ON THE LIST.				Total for Division.	PERCENTAGE.				Percentage for Division.	PERCENTAGE OF POPULATION.				The Division.
	Dacca.	Mymensingh.	Faridpur.	Backergunge.		Dacca.	Mymensingh.	Faridpur.	Backergunge.		Dacca.	Mymensingh.	Faridpur.	Backergunge.

Total ...	407	90	247	61	46	702

110. In the following statement I have classified assessors and jurymen according to their occupation. As noted in last year's report, we draw largely for our assessors and jurymen upon a class who in England, and I think in

Europe, are exempt from service, and as a matter of fact are rarely, if ever, seen on a jury. Here again the wide difference between east and west comes out:—

CLASS.	Dacca.	Mymensingh.	Faridpur.	Backergunge.

## HONORARY MAGISTRATES.

111. The Bhushna Bench in the district of Faridpur was closed from 1st September 1893. The Joykrishnapur bench in the Dacca district was formally opened from 1st January 1893. The Barisal municipal bench was amalgamated with the sadar bench in August 1893. The Dacca municipal bench was similarly-amalgamated in March last.

There were in 1893-94 nominally 40 benches in this Division. Honorary Magistrates empowered to try cases singly are treated as separate benches. But though nominally there are 40 benches, there are really only benches at 29 places, of which 16 are head-quarters of districts or subdivisions. Where there is more than one bench at a place, I am reducing them to one. The outturn of work done by every bench is shown separately in the annexed statement XII.

112. The following table shows the work done by the Honorary Magistrates in 1892 and 1893:—

DISTRICT.	Number of cases disposed of.		Number of persons disposed of.		Number of persons convicted.		Number of persons acquitted.	
	1892.	1893.	1892.	1893.	1892.	1893.	1892.	1893.
1	2	3	4	5	6	7	8	9
Dacca ... ..	1,480	1,684	1,794	1,975	805	907	989	1,068
Mymensingh ... ..	1,498	1,810	1,723	2,072	840	1,117	882	955
Faridpur ... ..	1,183	1,331	1,408	1,582	770	1,011	638	571
Backergunge ... ..	445	628	479	726	240	318	239	408
Total ... ..	4,606	5,453	5,404	6,355	2,655	3,353	2,748	3,002

The increase in business done would have been greater but for delay in my office in disposing of reorganization schemes.

Out of 21,905 cases disposed of in the Division, Honorary Magistrates disposed of 5,453 cases or 24·8 per cent. I hope to see them taking up all the less serious cases. In Dacca town alone they might well dispose of 2,000 cases. Although there has been some improvement over last year, Backergunge is still far behind the other districts in this matter. The Magistrate of Backergunge states that he contemplates extending the sphere of usefulness of the benches, and to that end additions have recently been made to the number of Honorary Magistrates.

The percentage of convictions over the whole Division is 52·7, which is not very good when the petty nature of the cases tried is considered.

113. The following benches disposed of over 300 cases:—

Dacca Sadar and Municipal	...	...	...	330
Munshiganj, including Sub-Registrar	...	...	...	321
Manickganj, including Magistrates sitting singly	...	...	...	392
Mymensingh Sadar, including Babu Gour Mohun Bysack sitting singly	...	...	...	402
Netrakona, including Babu Kali Kumar Ukil sitting singly	...	...	...	317
Jamalpur, including Babu Ishan Chandra Nag sitting singly	...	...	...	437
Goalundo, including Babu Kishori Lal Banerjee sitting singly	...	...	...	505
Pirojpur, including Babu Nara Narayan Rai sitting singly	...	...	...	306

The following Benches tried under 50 cases:—

H. L. Weatherall, Esq., Sadar, Dacca	...	...	11
Joykrishnapur bench, Joykrishnapur, Dacca	...	...	34
Toota Bench, Toota, Dacca	...	...	44
Bhushna Bench, Bhushna, Faridpur (abolished)	...	...	30
Jhalokati bench, Jhalokati, Backergunge	...	...	32

Daily benches have been organized in many places, and in some the sittings have been raised from once or twice to four times in a week. The Magistrate of Mymensingh says that there has been a distinct improvement in attendance owing to the preparation of a permanent roster. In some places an understanding has been arranged. One Magistrate has been relieved of attendance on the understanding that he will act as a substitute when any other Magistrate fails to attend. It has also been made a rule to call for explanation when a Magistrate fails to attend without giving previous intimation of his inability to attend. In spite of these arrangements, the work done by Benches is lamentably small. There may be difficulty in arranging to keep a Bench employed in remote country-places, but at district and subdivisional headquarters I think if Magistrates would really give their minds to the matter they might manage better. In one case I actually found the Bench's outturn had declined on the appointment of a second stipendiary. It is not understood that Honorary Magistrates have the first claim and should be first served. Nothing chokes an Honorary Magistrate off so much as finding no work to do when he attends.

114. The Magistrate of Dacca states that the Bench Magistrates have, on the whole, discharged their duties fairly and have rendered assistance in the administration of criminal justice. He is not disposed to give benches higher powers. I agree in thinking that until benches dispose of all or nearly all the cases they now have power to dispose of, it is unnecessary to extend their power.

I am much disappointed to find that the Dacca Sadar and Municipal Bench disposed of only 330 cases in 1893, when there were some 2,000 petty cases they might have tried, and indeed ought to have tried. Under section 34, Act V of 1861, alone there are some 1,500 cases.

The Magistrate of Faridpur has not offered any remarks. The Magistrate of Backergunge writes that, on the whole, the Independent Benches have done satisfactory work and afforded much needed relief to the stipendiary magisterial staff, to which I am constrained to add that the relief was not half what it ought to have been.

115. Appendix XVI shows the attendance of Honorary Magistrates. It will be observed that they have been more regular in attendance than in the previous year. The Magistrate of Mymensingh attributes this improvement in attendance to the preparation of a permanent roster which enables Magistrates to know in advance for the whole year on which dates their attendance will be necessary.

116. The question of supplying good cutcherries for Honorary Magistrates is engaging the attention of District Magistrates. It is now understood that the Honorary Magistrates should have choice of cutcherries.

The Magistrate of Mymensingh states that he has given up his own court to the bench at Sadar, as there is no other suitable room available for them. Generally I think where a cutcherry is set apart for the District Magistrate, it might be used by the bench.

116½. The following Benches have been allowed establishments under them for the conduct of their business :—

					Rs.
	Joykrishnapur—				
	1 Muharrir	...	...	...	10
	Narayanganj—				
	1 Muharrir	...	...	...	6
	Munshiganj—				
	1 Muharrir	...	...	...	20
	1 Peon	...	...	...	6
	Srinagar—				
	1 Muharrir	...	...	...	20
Dacca	1 Peon	...	...	...	7
	Bhagyakul—				
	1 Peon	...	...	...	6
	Manikganj—				
	1 Muharrir	...	...	...	20
	1 Peon	...	...	...	6
	Balla—				
	1 Muharrir	...	...	...	15
	1 Constable deputed by the Magistrate to guard and escort prisoners.			...	...
	Jamalpur—				
	1 Muharrir	...	...	...	20
	1 Peon	...	...	...	6
Mymensingh	Sherpur—				
	1 Muharrir	...	...	...	12
	Bajitpur—				
	1 Muharrir	...	...	...	5
	Bhanga—				
	1 Muharrir	...	...	...	20
	Goalundo—				
Faridpur	1 Muharrir	...	...	...	20
	Madaripur—				
	1 Muharrir	...	...	...	20
	Palang—				
	1 Muharrir	...	...	...	20
Backergunge	Pirojpur—				
	1 Muharrir				15

Generally, except at district head-quarters stations, it will be necessary to allow a clerk and a peon for each bench.

117. Three hundred and twenty-six appeals were preferred against the orders of the Honorary Magistrates. The decisions of the lower courts were confirmed in 199 cases, or 61·04 per cent; 12,329 witnesses in 5,453 cases, or 2·2 witnesses per case, were examined. Of these, 720 were detained more than two days, the proportion of witnesses so detained to total number examined being 5·8.

118. I recommended a retired Government officer, who in his day was an admirable Munsif and Subordinate Judge, to be appointed an Honorary Magistrate with first class powers and powers to sit singly at his own house; but Government declined to accede to my request, on the ground that the absence of a bar in the mufassal is a disqualification. The same objection was also raised to investing of benches in the mufassal with second class powers. I have, however, recommended the Palang Bench in the Faridpur district for investment with second class powers, although there is no bar practising at that place. I am inclined to agree that a bar is a help in the administration of justice, but I cannot find a single Magistrate, Native or European, to agree with me. The existence of an overstocked bar at sadar stations is always advanced as an excuse for the maladministration of justice. There are precedents for allowing second class powers where there is no bar.

119. Out of 251 Honorary Magistrates in this Division, only 43 are Musalmans, or 17·1 per cent., while of the population 65·3 per cent. is Musalman. The Musalman community have made no complaint on this score.

They do not seem to mind being tried by Hindu Magistrates, honorary or stipendiary. Religious animosities are evidently not acute in my Division.

120. Under clause 2 of Government Notification dated 6th May 1893, the Magistrate of Backergunge has invested many of his benches with first class and summary powers. Being doubtful of the legality of this clause, I referred the point to the Legal Remembrancer. It seemed to me that under section 12, 15, 260, 261 of the Code of Criminal Procedure, only the Local Government can confer these powers, and that the Local Government cannot delegate this authority to others. The Legal Remembrancer having pronounced the clause quite legal, I have suggested the example of the Magistrate of Backergunge to other Magistrates.

121. Though out of 24,254 cases under the Penal Code returned as true, only 13,244, or 54·6 per cent., came to trial, and although out of 18,367 persons tried only 9,612 are convicted, still I think our system of administration of criminal justice is generally deterrent in its effect. But we are most unsuccessful in putting down rioting, which is apparently a very simple crime.

Generally in such cases where deadly weapons are used the offenders seem to me to get off easily. These riots have usually been brewing for months; both sides are well armed with dangerous weapons; any one taking part must know that he is likely, almost certain, to cause death. There is hardly ever any ground for the plea of self-defence, as there has been time to seek the protection of the law. And there is very rarely such grave or sudden provocation as in law excuses crime.

122. In two cases husbands were prosecuted under section 376, Indian Penal Code, commonly known as the Age of Consent Act. One case occurred in Mymensingh and the other in Dacca. In the former case death was caused.

#### XVI.—REGISTRATION OF DOCUMENTS.

123. The statement below shows the working of the Registration Department in the several districts of this Division during the years 1892-93 and 1893-94:—

DISTRICT.	Number of deeds registered in 1892-93.	Number of deeds registered in 1893-94.	1892-93.		1893-94.	
			Receipts.	Expenditure.	Receipts.	Expenditure.
1	2	3	4	5	6	7
			Rs.	Rs.	Rs.	Rs.
Dacca ...	32,205	34,925	46,969	21,811	46,822	23,247
Mymensingh ...	44,255	51,338	55,276	27,045	55,652	29,601
Faridpur ...	41,213	40,427	44,893	22,577	36,493	23,417
Backergunge ...	69,084	78,634	80,420	33,777(a)	82,898	39,184
Total ...	186,757	205,324	2,27,558	1,05,210	2,21,865	1,15,449

(a) These figures have been adjusted by the Inspector-General of Registration. Hence the increase of Rs. 83 over the figures shown last year.

Revenue derived by Government in 1891-92	Rs.
Ditto ditto in 1892-93	1,20,110
Ditto ditto in 1893-94	1,22,338
	1,06,110

The increase in receipts from non-judicial stamps is only 2·7 per cent.; the increase in registration business is 9·9 per cent. We may infer that, while transactions relating to immovable property have increased, there has been no increase in transactions relating to movable property.

Though there has been a large extension of business, the profits are smaller. An increased business is necessarily accompanied by increase in expenditure. Copying alone accounts for this. But Sub-Registrars are paid by number of documents. While business increased 9·9 per cent., expenditure has increased 9·5 per cent. Then receipts are less because the fee on documents, the value of

which does not exceed Rs. 50, has been reduced from 12 annas to 8 annas. No doubt this reduction has led to increased business.

It will be observed that in the distressed district of Faridpur the number of documents registered has actually fallen off. If distress affects registration adversely, then both Mymensingh and Backergunge have been very prosperous in the year under report. It is clear high prices do not generally cause increase in registration work, as there is decrease in Faridpur.

124. The increase in the number of documents registered was chiefly under the following heads:—

- (1) Instruments of sale of immovable property.
- (2) Mortgages.
- (3) Leases for terms.

125. A new sub-registry office has been opened at Katiadi in the Mymensingh district.

126. There has been an increase in the number of operations under Act I (B.C.) of 1876, voluntary registration of Muhammadan marriages in Dacca and Mymensingh. A new Muhammadan marriage registration office has been established at Surapkati in the district of Backergunge.

127. Statement XVII annexed shows the transactions in the registration of deeds during the year 1893-94 district by district.

128. The annexed statement XXV shows the transactions in landlords' fees under sections 12 and 13 of the Bengal Tenancy Act. There has been an increase in the number of transfers on account of which fees are paid. It is very interesting to notice that though the amount of fees paid has increased from Rs. 3,065 to Rs. 3,423, the amount refused by the landlords declined from Rs. 2,636 to Rs. 2,565. Mr. Jenkins, the Collector of Dacca, writes:—  
“The Bengal Tenancy Act has not increased the number of kabuliyats, as was anticipated. But it cannot be denied that it has vastly increased the number of sales of raiyati holdings.”

#### XVII.—CONDITION OF THE DIVISION AS REGARDS LAND AND LAND REVENUE ADMINISTRATION.

129. The total number of estates in the Division at the close of the year under report was 26,052 against 25,964 on the 31st March 1893. Of the three classes, viz. (1) permanently-settled estates, (2) estates settled for definite periods and (3) estates managed direct, the increase is chiefly in class 1 (permanently-settled estates), and is due to partitions in the districts of Dacca, Mymensingh and Backergunge.

In no district of the Division has the revenue-roll (Register 3) been classified as enjoined in rules 2 and 3, section I, Chapter IV of the Board's Rules, 1888. I find these rules in the Board's Rules, 1866. They appear to have been first issued with the Board's Circular No. 7 of 30th April 1852, so they have been disobeyed for 42 years. All the Collectors are of opinion that it would be a great error to classify the roll in accordance with the Board's Rules, as estates are now known by their present numbers by every one connected with them. Further, if the roll is classified as in the Board's rules, the serial order will be broken and great confusion will be created by transfer of estates from one class to the other in consequence of partition, resettlement, abatement of revenue and formation of new estates which constantly take place. Further, the change will create the possibility of estates being lost sight of and will necessitate the rewriting of the roll oftener than at present.

In Mymensingh, when the revenue-roll was recopied in 1888, an attempt was made to classify it in accordance with the Board's orders, but the Commissioner forbade this being done.

130. Appendix XVIII shows the current and arrear demands, collections, remissions, and balances of the different classes of estates in each district. The total demand has further decreased from Rs. 36,70,246 to Rs. 36,44,262. As in the previous year, the decrease is purely technical, being due to the fact that the year under report opened with a smaller arrear balance than the previous year.

The following statement shows the statistics of demand, collections, remissions and balances of each district.

DISTRICT.	Estates.	DEMAND.			COLLECTION.			Remissions.	BALANCE.		
		Current.	Arrear.	Total.	Current.	Arrear.	Total.		Current.	Arrear.	Total.
1	2	3	4	5	6	7	8	9	10	11	12
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Dacca ...	8,010	4,07,777	28,038	5,20,415	4,79,610	22,820	5,02,430	2,076	17,720	3,293	21,003
Mymensingh	7,500	8,67,343	25,016	8,83,259	8,50,235	15,760	8,65,944	0,806	7,108	401	7,509
Faridpur ...	5,000	5,60,240	40,374	6,18,620	5,26,017	30,593	5,56,610	13,709	43,220	5,072	48,301
Backergunge	3,508	15,02,500	53,378	16,15,908	15,14,023	35,017	15,40,940	5,057	47,667	12,404	60,071
Total ...	26,052	31,86,966	1,57,306	36,44,262	33,70,785	1,04,145	34,74,930	32,448	1,15,724	21,160	1,36,884

The total collections have been Rs. 34,74,930 against Rs. 35,14,217 in the previous year; 95·3 per cent. of the total demand has been collected against 95·7; the decrease is slight. Excluding from the demands the amounts the recovery of which was in suspense, and adding to the collections the sums collected within the year but not credited in the accounts, the divisional percentage of total collections on the total demand has slightly fallen off from 97·1 to 96·2. The district percentages of total collections on total demand have been—

	1892-93.	1893-94.
Dacca ...	91·90	95·44
Mymensingh	96·66	98·04
Faridpur	93·31	89·97
Backergunge	96·42	95·91

Here Faridpur comes out badly.

Current demand. 131. The increase in the current demand is Rs. 13,642, against Rs. 30,010 in the previous year, as shown below:—

I.

Class.	1892-93.	1893-94.	Increase or decrease.
1	2	3	4
	Rs.	Rs.	Rs.
Class I ...	26,36,040	26,36,388	+ 348
Class II ...	3,13,144	3,07,787	— 5,657
Class III ...	5,23,830	5,42,781	+18,951
Total ...	34,73,314	34,86,956	+13,642

II.

District.	1892-93.	1893-94.	Increase or decrease.
1	2	3	4
	Rs.	Rs.	Rs.
Dacca ...	4,96,691	4,97,777	+ 1,086
Mymensingh ...	8,56,733	8,57,343	+ 610
Faridpur ...	5,72,427	5,69,246	— 3,181
Backergunge ...	15,47,463	15,62,590	+ 15,127
Total ...	34,73,314	34,86,956	+13,642

It will be seen that the increase is mainly in the Backergunge district and in class III. Settlements have been revised and some new estates have been settled. In five years corresponding with Mr. Savage's incumbency of the office of Collector, the land revenue of this district has increased by Rs. 69,506. The chief cause of the decrease in Faridpur is that two estates, Chars Madhabdia and Char Aliabad, bearing a revenue of Rs. 4,606 and Rs. 3,656, respectively, have been released under decrees of the Civil Court.

132. The table below compares the current collections under each class of estates during the year under report with those of the preceding year:—

Classes.				1892-93.	1893-94.	Increase or decrease.
1				2	3	4
				Rs.	Rs.	Rs.
I	...	...	...	26,15,445	26,09,476	— 5,969
II	...	...	...	2,64,398	2,64,467	+ 74
III	...	...	...	4,84,778	4,96,842	+ 12,064
Total				33,64,613	33,70,785	+ 6,169

There was thus an increase of Rs. 6,169 in the collections, but the percentage has fallen from 96·87 in 1892-93 to 96·66, as the demand was larger. In class II the percentage has risen from 74·2 in 1891-92 and 84·3 in 1892-93 to 85·9 in the year under review. In classes I and III, I regret to say, there has been falling off from 99·2 and 92·5 in 1892-93 to 98·97 and 91·5 in 1893-94. The district percentages of current collections on current demand have been—

	1892-93.	1893-94.
Dacca	95·48	96·35
Mymensingh	98·06	99·17
Faridpur	94·60	92·40
Backergunge	97·49	96·95

Here again Faridpur comes out badly.

133. The district percentages of collection on demand in this class are—

	1892-93.	1893-94.
Dacca	98·36	99·10
Mymensingh	99·60	99·62
Faridpur	98·46	96·84
Backergunge	99·61	99·34

Here again Faridpur defaults. The excuse that certain payments received by transfer receipts were not credited is receiving attention.

134. The percentages of current collections on current demands, nominal and actual, in classes II (a), II (b), II (c), III (a), and III (b), are shown in the following statement:—

DISTRICT.	CLASS II (a). ESTATES SETTLED FOR PERIODS WITH PROPRIETORS.		CLASS II (b). PRIVATE ESTATES LEASED TO FAR- MERS FOR PERIODS.		CLASS II (c). ESTATES LEASED TO FARMERS FOR PERIODS.		CLASS III (a). MANAGED FOR PROPRIETORS.		CLASS III (b). GOVERNMENT ESTATES MANAGED DIRECT.	
	Percentage on current demand.	Percentage on true recoverable demand.	Percentage on current demand.	Percentage on true recoverable demand.	Percentage on current demand.	Percentage on true recoverable demand.	Percentage on current demand.	Percentage on true recoverable demand.	Percentage on current demand.	Percentage on true recoverable demand.
1	2	3	4	5	6	7	8	9	10	11
Dacca	85·70	87·90	48·71	60·06	54·34	55·77	63·66	72·02	88·84	80·00
Mymensingh	99·88	99·68	93·15	93·15	63·86	63·86	90·39	99·39	94·66	95·61
Faridpur	89·01	89·66	30·97	31·97	46·10	46·19	79·12	79·12	83·90	84·63
Backergunge	95·25	95·25	95·17	95·17	73·72	73·72	90·02	92·90	94·70	97·29

In class II (a) Dacca and Faridpur come out badly. The Collector of Dacca, Mr. Jenkins, says that in his district the settlement-holders in this class generally do not pay their dues voluntarily; then to realize the arrear by legal steps, some time is required, and thus in several cases the year is passed before the balance is realized. This is practically an admission of weak administration. As Faridpur shows a slight improvement on the previous year, I will not criticize. The argument that short collections are due to distress breaks down in face of the fact that there is improvement compared with the previous year when there was no distress.

In class II (b) again results are bad in Dacca and Faridpur, good in Mymensingh and Backergunge. In Faridpur, the results are exceptionally bad. The Collector writes: "The collection is generally made by low-paid amla who do not look after the interest of the farmers, their masters, who in their turn defer payment from their own pocket, knowing that the Collector will have recourse to certificate procedure which is often dilatory." The explanation applies only to the instalment due on March 28th.

In class II (c), Dacca and Mymensingh show some improvement, while in Faridpur and Backergunge the percentages have fallen short of those attained last year. The Collector of Mymensingh explains that the fixed standard could not be secured in his district because under the conditions prescribed in the Certificate Act the estates in arrear for the last January kist could not be put to sale within the year, and also because coercive measures cannot be taken under the law as it stands for the realization of arrears of the March kist, till after the close of the year. The Collector of Faridpur writes that the farmers of this class of estates cannot be summarily ejected, as they are tenants under the Tenancy Act. I do not myself see how this accounts for the Collector's failure to collect even 53·8 per cent. of the revenue from this source, as in 1892-93.

In class III (a), Mymensingh and Backergunge do well. Mymensingh's bad position in 1892-93 was due to the inclusion of fictitious demands. It is explained that the failure in Dacca is due to the settlement of a large estate having been sanctioned in March last; pending settlement, arrears were allowed to accumulate. But pending settlement, the previous land revenue should be collected. Another estate has been brought under direct management with a heavy arrear which the tenants could not pay at once. The Collector adds that the distressed circumstances of the tenants have affected the percentages under this head. The Collector of Faridpur writes that the low percentage in his district is "chiefly due to bad circumstances to which the tenants have been reduced owing to failure of the crops. The collections from the Kalkini estates, which form the bulk of the estates under this class, was seldom below the standard of 90 per cent., but this year the percentage is only 79·1." Considering the small proportion which the land revenue bears to profits at present prices, I think collections should have been better.

In class III (b), Mymensingh and Backergunge give good results. Of the bad results in Dacca and Faridpur the same explanations are offered as under class III (a). The low percentages in Mymensingh in 1892-93 were due to a fictitious demand.

135. There were 719 estates under direct management with an annual revenue of Rs. 5,42,781, against 703 estates with a revenue of Rs. 5,23,830 in 1892-93. There has been an increase in the number of estates as well as in the revenue demand in all districts except Mymensingh, where there was a decrease under both the heads owing to some estates having been settled or farmed out. On the whole there was a net increase of 16 estates and of Rs. 18,951 in the revenue, chiefly by assessment of new accretions, of new estates, and transfer of estates from classes I and II. The subject is of much importance in Backergunge, where the demand is Rs. 4,20,950; of less importance in Faridpur, where the demand is Rs. 88,208; and of very little importance indeed in the districts of Dacca and Mymensingh. The percentage of cost of management on current demand in the Division has slightly increased from 5·5 to 5·6 in 1893-94. It is only 4·05 in Backergunge, and rises to 17·81 in Dacca. Mymensingh and Faridpur are also too high, 5·26 and 10·49 per cent.

Road and Public Works cesses. 136. The following table shows the statistics of demands, collections, &c., of the combined cesses:—

DISTRICT.	DEMAND.			Collections.	Remissions.	Balances.	Percentage of column 4 on column 5.	Percentage of balance on gross demand.
	Current.	Arrear.	Total.					
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.		
Dacca ... ..	1,40,925	14,563	1,55,487	1,45,313	1,041	18,233	88.3	11.06
Mymensingh ... ..	3,40,638	27,584	3,68,222	3,44,370	12	23,841	93.5	6.4
Faridpur ... ..	1,18,370	27,714	1,46,084	1,14,956	2,096	28,933	78.7	19.8
Backergunge ... ..	3,43,173	37,039	3,80,212	3,29,558	645	50,014	86.6	13.1
Total ... ..	9,52,011	1,06,909	10,58,920	9,34,106	3,794	1,31,020	86.3	11.4

The increase in arrear in Dacca and Backergunge is to be deplored. The collections were lowest in Faridpur, which is generally behind this year. The following table shows the percentage of collections made during the year, including advance payment on gross demand in the several districts and in the Division compared with the year 1892-93:—

DISTRICT.	PERCENTAGE.		Increase or decrease.
	1892-93.	1893-94.	
1	2	3	4
Dacca ... ..	96.9	93.9	— 3
Mymensingh ... ..	95.0	96.4	+ 1.4
Faridpur ... ..	84.3	81.7	— 2.6
Backergunge ... ..	92.1	88.09	— 4.01
Division ... ..	92.8	90.9	— 1.9

137. The following statement shows the result of revaluation work done in the districts of the Dacca Division during the year 1893-94 as compared with the previous valuation, as well as the cost incurred for the purpose during the year under report:—

DISTRICT.	Number of estates the valuation of which has been completed during the year 1893-94.	Number of tenures the valuation of which has been completed in the year 1893-94.	Amount of valuation of estates as per previous valuation.	Amount of valuation of tenures as per previous valuation.	Total amount of valuation of estates and tenures as per previous valuation.	Amount of valuation of estates as per valuation completed during the year 1893-94.	Amount of valuation of tenures as per valuation completed during the year 1893-94.	Total amount of valuation of estates and tenures as per valuation completed in 1893-94.	Difference between columns 9 and 6.	Increase in cesses.	Total expenditure in revaluation in the year 1893-94.
1	2	3	4	5	6	7	8	9	10	11	12
			Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Dacca ... ..	581	6,185	79,123	57,463	1,36,618	1,13,194	90,340	2,03,473	+65,855	4,114	7,758
Mymensingh ... ..	902	383	1,02,004	...	1,02,004	1,04,937	4,703	1,00,739	+7,735	488	3,318
Faridpur ... ..	*123	8,040	4,90,288	...	4,90,288	53,439	5,54,971	6,07,403	+1,06,115	6,787	7,761
Backergunge ... ..	18	97	28,767	...	28,767	43,176	2,267	65,443	+16,676	613	484
Total ... ..	1,584	14,707	7,09,185	57,463	7,06,677	3,12,609	9,52,370	9,55,046	+1,98,371	12,268	18,321

\* Excluding those valued under section 15 of Act IX (B.C.) of 1880.

It will be seen that an annual increase of Rs. 12,268 in cesses has been obtained for an expenditure of Rs. 18,321, but this does not include expenditure on supervision except in Faridpur.

The following statement shows the result of valuation of the number of estates the revaluation of which was completed from 1887-88 to 1893-94 in the several districts of this Division as compared with the result of their previous valuation, as well as the cost incurred in carrying on the operations:—

DISTRICT.		Number of estates valuation of which has been completed with the years from 1887-88 to 1893-1894.	Total valuation.	Previous valuation.	Difference.	Increase in cesses.	Total expenditure incurred.
1		2	3	4	5	6	7
			Rs.	Rs.	Rs.	Rs.	Rs.
Dacca	...	1,764	14,20,677	10,08,877	+ 4,11,800	25,737	25,409
Mymensingh	...	1,720	15,90,696	12,22,776	+ 3,67,920	22,995	12,656
Faridpur	...	1,160	17,11,785	12,90,648	+ 4,21,137	26,321	38,742
Backergunge	...	178	9,82,512	7,93,261	+ 1,89,251	9,001	29,927
Total	...	4,812	57,05,670	43,15,562	+ 13,90,108	84,054	1,06,734

It will be seen that the expenditure is equal to a little over  $1\frac{1}{4}$  years' improved income.

138. The system continues to work satisfactorily, but does not seem to be

gaining in popularity in Faridpur and Backergunge, as is shown by the following table:—

Payment of land revenue and cesses by postal money-orders.

DISTRICT.		RECEIVED.			
		Number of orders.		Amount.	
		1893-94.	1892-93.	1893-94.	1892-93.
1		2	3	4	5
				Rs.	Rs.
Dacca	...	10,150	10,010	78,660	74,609
Mymensingh	...	8,103	7,669	48,228	43,064
Faridpur	...	12,992	13,249	1,19,971	1,26,586
Backergunge	...	1,520	1,928	23,249	29,110
Total	...	32,765	32,856	2,70,108	2,73,369

The decrease in Faridpur and Backergunge is attributed to the partial failure of crops in parts of these districts. It is thought that rent collections were so delayed that proprietors had not time to take advantage of the money-order system. On the whole 6·1 per cent. of the land revenue and cesses was paid by money-order. And no doubt collections were often remitted by money-orders to agents at the sadar stations. Collectors still think the system may be improved. The Collector of Faridpur writes: "The modification of rule 26 of the Revenue Money-order Rules, requiring the Treasury Officer to adjust all money-orders on the very same day they are received from the post-office, is much needed. It has come to my observation that entries of the amount of a money-order remitted in satisfaction of a demand in a certificate case are sometimes altered in consequence of the money-order being subsequently examined by the Tauzi and Certificate Departments after they had been entered by the Accountant in his register as laid down in rule 29 of the Revenue Money-order Rules. Owing to this defect in the rules, discrepancies often arise in the accounts, and unless the rule is modified the state of things will continue." The Collector of Backergunge says: "The intricacies of the form are also still a stumbling-block to the less educated class, as

evinced by the continued repetition of the mistakes described in former years. No money-orders were refused during the year under report, but the same mistakes continue to vex the Accountant's office."

Some cases of revenue sales have come up in appeal, where there was really no arrear; the money had been entered against the wrong heading in the money-order form.

139. The following table shows the number of estates sold under Act XI of 1859, number exempted, and the number which became liable to sale during the year under report as compared with that in 1892-93:—

DISTRICT.	Number of estates and shares sold.		Number exempt- ed under section 18 of the Act.		Total number of estates and shares which became liable to sale.		Total number of estates subject to the Act.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
Dacca	107	183	655	612	762	745	8,393	8,423
Mymensingh ...	49	102	1,080	983	1,139	1,085	7,254	7,299
Faridpur ...	49	81	383	462	432	543	5,628	5,627
Backergunge ...	48	36	284	287	332	323	2,989	2,990
Total	263	362	2,412	2,344	2,605	2,696	24,264	24,339

The number of defaulting estates in the district of Mymensingh still continues very high. This is due, in the opinion of the Collector, to a too lenient administration of the Sale Laws in the past. Appendix XIX shows the dates on which sales for each kist took place.

There were 82 appeals before me against sales for arrears of revenue. Of these cases, in 10 the sale was annulled, in 6 cancellation was recommended on account of hardship, 38 cases were dismissed or struck off, and 28 remained pending on the 31st March 1893. Of the 6 cases of hardship, in one case a separate account which was opened with a revenue of Re. 1-8-5 in 1890 was sold on the 23rd March 1893 for arrears amounting to Re. 1-8-2 due up to kist 12th January 1893. The holder of this share always paid in March, thinking that his share of revenue being less than Rs. 10, was payable on the 28th March. He did not know that this rule does not apply to separate accounts. His separate account never went into the sale list because the entire estate had never been in arrear before. In three cases the arrears accrued owing to clerical mistakes committed by the remitters in the money-order coupons. They entered payment against cess instead of against land revenue. The Bengali form rather lends itself to such errors. In the other two cases incorrect tauzi numbers were given in the money-order coupons. In all these cases there were in fact no arrears. The revenue had been paid in full, and I should probably have been justified in annulling the sales.

Payments are still accepted in the sale-room in spite of the advice of several Commissioners to the contrary. I have lately informed the Collectors that this should not be done except under special circumstances. In Mymensingh payments are very rarely accepted in the sale-room.

140. Of the total number of estates for settlement, 100 have been settled (of which 10 were new estates), 82 have been finally resettled, and 8 have been summarily settled, leaving a balance of 123 estates for settlement at the close of the year. Of the estates returned as settled, 26 have not been settled, but have been kept under direct management; while in the number pending the 8 estates settled summarily are included.

The net result shows an increase of Rs. 11,363 in the Government revenue, owing mainly to assessment of lands gained by accretions and to enhancement of rates of rent, in some cases with the consent of the raiyats.

Appendix XX shows the results of settlement operations other than operations under the Director of Land Records in the several districts of the Division.

141. Appendix XXI shows the details of work in this department. The following is a general summary of the information under the different classes of cases:—

CLASSES OF CASES.	Number pending from last year.	Number filed during the year.	Total.	Disposed of.	PENDING—		Total.
					Over 6 months.	Below 6 months.	
1	2	3	4	5	6	7	8
1. Demand of all kinds under section 5.	141	385	526	391	12	123	135
2. Arrear of rent due to Government, clause 6, section 7.	406	1,325	1,731	1,432	45	254	299
3. Cesses, Act IX (B.C.) of 1880.	1,319	4,926	6,245	4,760	122	1,363	1,485
4. Demands of the Court of Wards, clause 7, section 7.	551	392	943	871	25	47	72
5. All other demands ...	1,173	2,127	3,300	2,469	61	770	831
Total ...	3,590	9,155	12,745	9,923	265	2,557	2,822

The total number of certificates filed was 9,155 against 9,232 in the previous year. The disposals during the year are in advance of the institutions, the result being a reduction in the number of pending cases from 3,590 to 2,822. While in Backergunge the business has much declined, in Faridpur there has been an enormous increase, as is shown in the following table:—

DISTRICT.	1892-93.	1893-94.	Increase.	Decrease.
1	2	3	4	5
Dacca ...	2,781	2,732	...	49
Mymensingh ...	2,147	1,952	...	195
Faridpur ...	1,421	2,272	851	...
Backergunge ...	2,883	2,199	...	684
Total ...	9,232	9,155	851	928
		Not decrease	...	77

In Dacca and Mymensingh the decrease is not so large as to call for any special remarks. In Backergunge the decrease has occurred in all classes of cases. The increase in Faridpur occurs, 465 in class cesses, 339 in class rent due to Government, and 100 in class miscellaneous, while there was a decrease of 53 cases in class Court of Wards. Though there has been this large increase, the total number of institutions is still rather lower than in 1891-92. It is explained that the falling off in the voluntary payments of cess and other

demands is due to the prevalence of distress in many parts of the district; but this explanation is manifestly wrong, because there has been the same distress in Backergunge, where the certificate business has declined.

The cases disposed of exceeded the number instituted in all the districts of the Division except Faridpur, as shown below:—

DISTRICT.	Filed in 1893-94.	Disposed of in 1893-94.
1	2	3
Dacca ...	2,732	2,816
Mymensingh ...	1,952	2,961
Faridpur ...	2,272	1,760
Backergunge ...	2,199	2,386
Total ...	9,155	9,923

It is explained that in Faridpur many cases were filed in the last quarter.

Out of 9,155 certificates filed, payments were made in 2,291 cases on mere issue of notices under section 10 of the Act; in 4,961 cases on attachment of property; in 26 cases on issue of warrants for arrest. Actual sale was necessary only in 140 cases against 208 in 1892-93.

142. Appendix XXII gives the statistics of the land acquisition work.

Land acquisition.

The number of cases pending has further decreased from 53 to 45 in the course of the year. No costly

delays and difficulties are reported to have been encountered in assessing the value of the lands acquired in the districts of Dacca, Mymensingh and Faridpur, but in Backergunge difficulty is felt in some cases in ascertaining the number of years' purchase, as the owners do not produce the sale-deeds; but this, it is reported, is overcome by a reference to the registration office and by local enquiry. As to the delay in the disposal of cases, the Collector of Backergunge states as follows:—

"The delay in disposing of the cases in this district is principally due to the necessity of referring them all to the Judge, who takes some time to dispose of them. Act X of 1870 has been superseded by Act I of 1894. In the new Act the Collector's award has been made final and the references to the Court have been limited to cases wherein the parties apply for them, and the Judge will decide the references sitting alone. These provisions will, it is expected, accelerate the disposal of these cases."

Proceedings for the acquisition of land, amounting to over 803 acres at a cost of Rs. 33,489, were confirmed by the Board of Revenue during the year under report. Among them the land acquired for the construction of a road from Maniknagar to Bhanga in Faridpur at a cost of Rs. 16,643 was the most important.

143. The initial work of registration is complete in all the districts of the Division. In Faridpur only six applications were

Land registration work.

received during the year under section 38, which

with the 19 pending at its beginning were all pending at the close of the year, because all the sixteen-annas proprietors have not yet applied for registration of their names, although fines were imposed on them and certificates were issued for the realization of the same. These cases relate to a diarah estate. Appendix XXIV shows the number of applications under section 42 filed, disposed of and pending in each district. The total number of applications for disposal, including the cases which remained pending at the close of the last year, was 11,839, of which 9,075 were disposed of and 2,764 remained pending at the end of the year; of these only 204 were pending over six months.

The following statement shows the total number of interests registered under initial registration in each district from the commencement of operations, the number of applications made during the year, and the percentages which the

applications filed in the past two years bear to the total number of interests registered:—

DISTRICT.	Total number of interests registered under initial registration, section 38.	NUMBER OF APPLICATIONS UNDER SECTION 42 OF THE ACT FILED DURING THE YEAR—			PERCENTAGE OF APPLICATIONS ON THE TOTAL NUMBER OF INTERESTS REGISTERED.	
		On account of succession by inheritance, whether under will or otherwise.	On account of succession by purchase, gift or otherwise.	Total.	1892-93.	1893-94.
1	2	3	4	5	6	7
Dacca ... ..	26,331	1,015	1,324	2,339	8.93	8.88
Mymensingh ... ..	32,490	1,848	2,043	3,891	9.37	11.97
Faridpur ... ..	17,402	754	601	1,355	7.15	7.78
Backergunge ... ..	(a) 23,231	966	720	1,686	5.98	7.25
Total ...	99,454	4,583	4,688	9,271	8.2	9.3

(a) 20 cases under section 38 disposed of in 1893-94.

The general result is good, but Dacca falls away. The improvement in Mymensingh and Backergunge is most marked, and is highly creditable to Messrs. Earle and Savage. I cannot think that 9.3 represents the actual percentage of mutations on interests registered. In Backergunge Mr. Savage proposed to issue parwanas to chaukidari panchayets requiring them to report the names of the proprietors of estates who have died or transferred their rights to others by sale or otherwise. The matter was reported to the Board of Revenue, who have ordered to make an experiment in a selected area. Accordingly pargana Uttar Shalibazpur has been selected for the purpose, and notices as proposed are now being issued. Under sanction of the Postmaster-General, Bengal, forms of applications for registration of names under Act VII (B.C.) of 1876 are now kept in all post offices for distribution to the public.

144. Appendix XXIII gives the figures under this head. The number of cases instituted during the year has slightly increased from 92 to 113. There is no return of area covered by cases instituted, so I cannot say if this means increase of business.

The total number of cases for disposal was 554, including 441 which were pending at the close of the last year. Of this number, 136 were disposed of, leaving a balance of 418 cases at the end of 1893-94. The pending cases have therefore decreased by 23.

One hundred and thirty-six cases have been disposed of against 114 in 1892-93. There has been very little improvement in Dacca, where 35 estates covering 15,315 acres have been disposed of against 32 covering 13,517 acres in 1892-93. The Collector, Mr. Jenkins, tells the old story of dilatory tactics on the part of the opposing share-holders. Work was somewhat delayed by the absence for four months of the special Batwara Deputy Collector. There has been a marked increase in Mymensingh in the disposal of cases, the number having risen from 66 to 91, while the area covered has increased from 14,703 acres to 30,046 acres. Mr. Earle has allowed no frivolous objections to retard the progress of cases; he has pushed the Partition Deputy Collector to dispose of the cases promptly, and has relieved him of his work as a member of the local bench of Honorary Magistrates, and of the charge of civil suits with which he was previously saddled. The Collector by this arrangement expects a still better result in the current year.

The following statement shows the appellate work in partition cases in my Court during the last three years:—

YEAR.	Pending from previous year.	Appeals instituted during the year.	Total.	Disposed of.	Pending.
1	2	3	4	5	6
1891-92 ...	42	134	176	118	58
1892-93 ...	58	195	253	183	65
1893-94 ...	65	116	181	165	16

Ninety-one per cent. of the cases for disposal were disposed of, against 67 per cent. in 1892-93. With fewer institutions the number of cases for disposal has been much reduced.

As stated in last year's report, the estates in this Division generally consist of scattered blocks, so in dividing them compactness can hardly be observed. I gave some statistics showing how very far from compact estates formed by partition necessarily were.

#### Bengal Tenancy Act.

145. The Act is reported to have worked smoothly during the year.

#### Relations between landlords and tenants.

146. The relations between landlords and tenants, taking the Division as a whole, were, I regret to say, by no means satisfactory. From Dacca it is reported that they were on the whole satisfactory, though some petty zamindars and talukdars are not on the best of terms with their tenants. In Mymensingh, things are fairly satisfactory, so far as the estates of resident landlords who look after their properties themselves are concerned, but there has been a decided deterioration in the case of certain estates belonging to absentee landlords whose affairs are managed by their local agents and servants. The evil influence of the amla, when unrestrained by the presence of the landlord, was conspicuous in the case of one who also resides in Calcutta. His servants were found to have conspired with the police in order to get some innocent men into trouble by the institution of bad livelihood cases against them.

A riot which occurred on the estate of Rani Hemanta Kumari in the Jamalpur subdivision is adduced as another instance of malfeasance on the part of the servants of an absentee landlord. Some of the large landlords of the Mymensingh district are said to be arbitrary and oppressive in their dealings with their tenants, and levy illegal cesses in addition to the fixed rent. Mr. Earle reports that a Hindu zamindar levied a fine of Rs. 2,000 upon a Musalman village for killing kine, and that the fine was paid. Hindu zamindars are stated to have attempted interference with the sacrifices made by raiyats of neighbouring Musalman zamindars. I cannot think that the Musalman peasantry of Eastern Bengal will always submit to such oppressions. In the Madaripur subdivision of the Faridpur district, the ill-paid, half-educated and unscrupulous andas are said to have recourse to various forms of exactions and subterfuges to enrich themselves at the expense of the raiyats, and thus make up for the low pay they receive from their employés.

The Collector of Backergunge, Mr. LeMesurier, is unable to say that the relations between landlords and tenants in that district are satisfactory. He is of opinion that the causes of friction between landlords and tenants are two-fold—(1) the persistent attempts of the landlords to levy illegal cesses or benevolences upon all sorts of pretexts, and (2) the extraordinary degree of subinfeudation prevalent in the district.

The estate of Mr. Casperz in the Pirojpur subdivision is remarkably free from these two elements of disturbance. This gentleman, I understand, asks his tenants for no more than he is justly entitled to, and deals with them direct without an interposing host of middlemen and greedy amla. He comes out

from England to look after his estates from November to May every year, and by confining himself to legitimate demands has been so successful in realizations that it is only some months ago that he brought his first rent-suit.

The naib of an estate in this district was murdered, owing, it is reported, to ill-feeling on the part of the tenants. I am informed that the former naib of this estate was also shot at, but no clue of the perpetrator of the deed was found.

147. Under the orders of Government and the Board of Revenue, the working of the cess, so far as assessment and collections are concerned, has been transferred from the Magistrate to the Collector. Under the same orders, the rate of cess and dates of payment of the half-yearly instalments have been fixed for the several districts of the Division for five years commencing from 1st of January 1893.

The following table shows the demands, collections, and balances of the cess during the official year 1893-94, as shown in return XLI for that year:—

DISTRICT.	Ordinary current demand.	Arrear demand.	Total.	Excess payment made during previous year.	Remission.	Net demand.	Collections, current and arrear.	Balance.
1	2	3	4	5	6	7	8	9
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Dacca ...	12,830	2,051	14,881	4,755	31	10,095	8,730	1,365
Mymensingh ...	20,396	751	21,147	2,778	...	18,369	17,475	894
Faridpur ...	12,522	646	13,168	2,399	...	10,839	9,799	1,030
Backergunge ...	15,239	37	15,276	...	...	15,276	15,164	112
Total ...	60,987	3,485	64,472	9,872	31	54,569	51,168	3,401

The following table shows the cost of collection in each district and the percentage on collections. The information supplied last year on this subject was wrong:

DISTRICT.	Total collection including fines, &c., during 1893-94.	Collection expenses as shown in table XVIII of return No. XLI.	Percentage of collection expenses on collections.
1	2	3	4
	Rs.	Rs.	
Dacca ...	10,944	569	5.19
Mymensingh ...	25,259	1,325	5.24
Faridpur ...	12,340	634	5.13
Backergunge ...	19,420	608	3.13
Total ...	67,963	3,136	4.61

The number of certificates filed for the realization of the cess and the amount covered by them are noted below:—

DISTRICT.	Number of certificates.	Amount of certificates.
1	2	3
		Rs.
Dacca ...	Nil.	Nil.
Mymensingh ...	424	1,609
Faridpur ...	200	1,914
Backergunge ...	414	472
Total ...	1,608	3,995

It is explained that the Dacca return refers to the calendar year 1893 only. The Collector of Backergunge reports that out of Rs. 472 for which certificates were issued, Rs. 440 have been realized. This is very satisfactory. In Faridpur only Rs. 748 out of Rs. 1,914 is reported to have been realized. In Mymensingh Rs. 1,511 was realized.

With reference to Board's No. 1669A., dated 4th December 1893, I have proposed certain modifications of the zamindari dák rules contained in their circular No. 14 of August 1893.

I have inspected the dák cess offices at Mymensingh, Faridpur and Dacca, and have had to find much fault with the present arrangements. There is no proper system of reporting demands, collections and balances. Different tauzi forms are used in each district. In some districts there is much useless writing. The whole subject is under the consideration of the Board of Revenue.

Settlements under the Bengal Tenancy Act, Chapter X. 147½. Thirty-six applications against 18 in 1892-93 were filed by the proprietors of private estates under chapter X of the Tenancy Act.

The following statement shows the number filed, the number disposed of, and the number which remained pending in each district at the close of the year:—

Private estates.

DISTRICT.	NUMBER OF APPLICATIONS—			Disposed of.	Pending.
	Pending at the beginning of 1893-94.	Filed during 1893-94.	Total.		
1	2	3	4	5	6
Dacca ...	9	1	10	3(a)	7
Mymensingh ...	13	32	45	11(b)	34
Faridpur ...	...	2	2	...	2
Backergunge ...	3	1	4	...	4
Total ...	25	36	61	14	47

(a) Includes one case in which the final report was submitted to the Board of Revenue.

(b) Struck off, as the applicants were not registered proprietors.

The number of applications is fast increasing in this Division, as the following figures show:—

1891-92	...	5
1892-93	...	18
1893-94	...	36

Most of the applications are in Mymensingh, 13 in 1892-93 and 32 in 1893-94. It is reported that the zamindars are becoming alive to the advantages of this simple means of enhancing rents.

Not a single Government estate was brought under survey and settlement under the Act during the year under review. There were, however, 10 cases pending from the previous year, of which three were finally disposed of in Backergunge and seven remained pending at the close of 1893-94, viz., one in each of the districts of Dacca and Faridpur and five in Backergunge. The survey and settlement of the two estates in Dacca and Faridpur have been concluded and final reports have been submitted. Of the five cases in Backergunge, the final reports of three estates have already been submitted to the Director of Land Records for approval. In the remaining two cases the final reports are under preparation.

The following statement shows the cost of survey and settlement and the result in the cases in which the operations have been completed during the year:—

DISTRICT.	Estates.	TOTAL RENTAL OF TENANTS WHOSE RENTS HAVE BEEN SETTLED.			COST PER ACRE.		Increase of revenue.
		According to new settlement.	According to previous settlement.	Increase.	Survey.	Settle- ment.	
1	2	3	4	5	6	7	8
Dacca	<i>Private Estates.</i>	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs.
	392 and 393 ...	1,193	820	373	0 5 3	1 1 3	...
	411 ...	1,525	1,463	72	0 4 4	0 9 7	...
Dacca Faridpur Backergunge	<i>Government Estates.</i>						
	Joar Joymangal ...	1,563	445	1,118	0 4 10	0 3 0	1,266
	Kalkini estates ...	49,910	44,978	4,932	0 0 9	0 3 6	4,932
	Joynagar ...	52,258	46,079	6,179	0 4 0	0 4 0	3,809
	Char Jungla ...	3,545	3,321	224	0 4 0	0 6 0	157
	Char Padma Monasa...	5,855	...	5,855	0 1 9	0 5 6	3,325

In the case of small private estates, I find it impossible to bring the cost per acre within the eight annas prescribed in rule 45, chapter VI of the Government rules under sub-section 5, section 190 of the Bengal Tenancy Act. The visits of the settlement officer, four of which apparently must be made, run away with a lot of money.

XVIII.—ATTACHED ESTATES, INCLUDING COURT OF WARDS.

148. At the close of 1892-93 there were four estates under the management of the Court of Wards in this Division. Of these, three were taken charge of on the application of the Civil Court, and one on the application of the Collector. During the year two others came under charge of the Court on the application of the Civil Court.

The Board in their No. 94A., dated 2nd March 1894, accepted the management of the properties of Babu A. C. Ray and others under section 95(a) of Act VIII of 1885, but charge of this estate was not formally taken by the Collector before the close of the year. It has therefore not been taken into account.

Appendix XXVII shows the result of the revenue administration on these estates.

149. One of the attached estates, estate taluk Kashi Nath Bose in Backergunge district, was released from management on the completion of its batwara, after a management of nearly 50 years. It originally came under charge of the Court owing to disputes among the share-holders. It was a small estate with land revenue Rs. 574.

150. The management of the Talipabad estate in the district of Dacca has not been successful. The total rent and cess demands of the year, including arrears, amounted to Rs. 34,161, of which only Rs. 19,065 was collected, Rs. 2,640 was remitted as

irrecoverable, and there was a balance of Rs. 12,456 at the end of the year. This is not so bad as it looks. This balance includes Rs. 5,469 since written off as irrecoverable.

The estate is under survey and settlement under Chapter X of the Bengal Tenancy Act, and a record of rights is in course of preparation. The full Bench Ruling in I. L. R., Calcutta, volume XXI, page 38, under which the settlement officer has no power to settle disputes between landlord and landlord and between landlord and persons claiming to hold rent-free, has revolutionized the settlement proceedings in this case. There are many such disputes. With the approval of the Board, arrangements have now been made for their amicable settlement.

The owner of the largest share of this estate has petitioned to have the management made over to him. I intend, with the Board's permission, to release the estate as soon as the settlement operations are completed.

The condition of the tenants is reported to be fair.

151. The work of survey and settlement of the Dakhin Shahbazpur estate in Backergunge would have been completed within the year had not the cyclone of October 1893 damaged some of the records, which had consequently to be prepared anew. The Collector, however, expects to see the work finished by September next.

The Board of Revenue intend to keep the estate under management for a couple of years after the completion of the settlement, in order to observe the working of the new assessment and to dispose of disputes which are sure to arise in the first instance under the new conditions.

The entire Government revenue and cesses due by the estate, except a sum of Rs. 77 on account of cesses, were fully paid during the year. Of the total amount of rent and cesses due to superior landlords, a sum of Rs. 5,180 remained unpaid, due chiefly to remissness on the part of the recipient.

Out of a total demand (rent and cesses) of Rs. 2,34,242, both current and arrear, only Rs. 1,28,249 was realized, Rs. 18,895 was remitted as irrecoverable. A large balance, Rs. 87,093, remained unrealized. The balance at the end of 1892-93 was Rs. 1,09,587, not Rs. 1,00,590, as stated in last year's report. If the remissions be deducted, the reduction in balance is only Rs. 3,594. Much of this balance is due to fictitious demands which cannot be written off till the settlement proceedings are complete.

The tenants of the estate are, on the whole, prosperous. They have suffered a little by the cyclone of October 1893.

At the instance of the proprietors, the head-quarters of the estate has been moved from Daulatkhan to Barisal. Had the cyclone of October 22nd happened a few days later, i.e., about the full moon, the estate offices as well as the settlement offices would have been overwhelmed by a storm-wave.

152. At the request of the District Judge of Backergunge under section 95(a) of the Bengal Tenancy Act, VIII of 1885, and contrary to my advice, the Court has taken charge of the properties of the Haturia zamindars.

These properties consist of undivided shares in three zamindaries, 50 entire revenue-paying estates, and undivided shares in 55 others, and 310 tenures and undivided shares in tenures. They are situated mostly in the Backergunge district and partly in the Faridpur district. The Collector of Backergunge has been appointed managing Collector, and took formal charge in August last. Babu Shashee Coomar Datta, manager of the Dakhin Shahbazpur estate, has been appointed manager of this estate also.

It is not yet proposed to undertake a survey and settlement of this estate under Chapter X of the Bengal Tenancy Act, the properties being heavily in debt.

Some of the proprietors endeavoured to persuade the High Court to quash the Judge's order making over the estate to the management of the Court. The proprietors are said to be opposing the management.

The revenue and cesses due to Government on account of this estate for the year under report were paid, except Rs. 61: Rs. 30 on account of revenue and Rs. 31 on account of cesses.

Out of a total demand, both arrear and current, of rent and cesses (Rs. 57,696) due to superior landlords, Rs. 28,535 was paid during the year,

and Rs. 20,170 remained outstanding at its close, mostly for want of funds, and partly on account of disputes regarding rights of the alleged landlords.

The current rent and cess demands for the period of the year during which the estate was under the management of the Court of Wards were Rs. 1,21,358, and there was an arrear demand of Rs. 45,657, both rent and cesses, at the time when the estate was taken in charge; thus the total rent and cess demand up to 31st March 1894 amounted to Rs. 1,66,915. Of this Rs. 72,940 was collected and Rs. 93,975 remained outstanding. Of this balance, Rs. 14,373 is said to be unrealizable. The result appears to be anything but satisfactory.

But there have been special difficulties. The crops have not been good, and the raiyats' relations with the proprietors were anything but peaceful, and there are fictitious demands.

The Collector, Mr. LeMesurier, remarks:—

“A portion of the balance of this estate is said to have been paid to the former tahsildars of the estate in respect of which enquiries are being made, and another portion is in respect of tenures or holdings claimed by the tenants to be rent-free. In some even the relation of landlord and tenant is denied. I have reason to believe that the demand papers are far from accurate, and the rents shown therein largely fictitious.”

#### WARDS' ESTATES.

153. The Court took charge of a small undivided share ( $\frac{16}{10}$  of 8 annas) in four revenue paying estates and in 519 tenures of different kinds belonging to a minor, contrary to my advice, under orders dated 18th December 1893, under section 6 (b) of Act IX (B.C.) of 1879, and the Collector took charge in January 1894.

Babu Shashee Coomar Dutta, manager of the Dakkhin Shahbazpur estate, was appointed manager of this estate also.

Afterwards the proprietor of the half share applied to have his share taken over. Under order dated 28th May 1894, the Board have decided to withdraw from the management from 1st August 1894, the estate being hopelessly in debt.

The current rent and cess demands for the portion of this year during which the estate was under our management amounted to Rs. 38,115, and the arrear demands when the estate was taken charge of by us were Rs. 11,134; thus the total demand, both rent and cesses together, was Rs. 49,249, of which Rs. 12,631 was collected and Rs. 36,618 remained unrealized. Charge was taken so late in the year that it was found impossible to do better.

154. This estate consists of three entire revenue-paying estates, 76 entire tenures, and undivided shares in 20 other revenue-paying estates. Including the arrears of the previous year, the total revenue and cesses due to Government and rent and cesses due to superior landlords for the year under report were respectively Rs. 529 and Rs. 9,403. Of these Rs. 528 was paid on account of the former and Rs. 8,745 on account of the latter. The rent and cesses are in arrear because of the remissness of the superior landlords themselves.

The current demand of rent and cesses amounted to Rs. 20,247, and the total demand, including arrears of the previous year, amounted to Rs. 35,380, of which Rs. 16,477 was collected and Rs. 2,070 was remitted, leaving a balance of Rs. 16,833 unrealized at the close of the year. Out of this sum Rs. 3,275 is, the Collector says, irrecoverable and must be remitted. Failure of crops is said to be the cause of non-realization of the balance, which is good and realizable.

It is contemplated to make a survey and record of rights of this estate.

The manager reports that the condition of the tenants is generally bad owing to failure of crops in part or in whole during the last three years. There is no reason to suppose that the relations between the tenants and the managing agency are otherwise than pleasant.

The eldest of the three wards is reading in the Madaripur Entrance School, and is reported to be doing well; the second ward is reading in the Circle School in his native village; the third one is yet too young for school.

The estate was badly managed by the late manager, who died some time in September last. I have since amalgamated its management with that of the

Government estate Kalkini, charging one-third of the pay of the Sub-Deputy Collector in charge of the latter, and that of his clerk, to this estate. This arrangement has been reported for sanction to Government by the Board of Revenue—*vide* their No. 786A., dated 18th June 1894.

#### XIX.—EXCISE.

155. I have inspected the central distilleries at Mymensingh and Barisal, have visited that at Faridpur, and have also inspected some of the local depôts at subdivisions.

The administrative changes noticed in the past year's report took effect from the beginning of the year under report. From 1st April last the distillery at Nasirabad has been closed and arrangements have been made to supply liquor from the Dacca Distillery. From 1st April 1894 the system of granting combined licenses for country spirit, imported spirit and rum has been given up.

Statistics showing the working of the Excise Department in this Division for the year under review are given in Appendix XXVIII. It will be seen that there has been a decrease of Rs. 2,536 in the revenue of the whole Division. The decrease was principally under heads rum and imported wines, and also under opium and pachwai, &c. The revenue for the last five years has been—

		Gross. Rs.	Net. Rs.
1893-94	...	8,09,567	7,50,307
1892-93	...	8,12,103	7,58,152
1891-92	...	8,19,122	7,65,312
1890-91	...	8,13,878	7,52,260
1889-90	...	7,76,974	7,37,733

The incidence of revenue per head of population during the year was .08. It seems hardly worth while incurring the trouble and expense of assessment and collection, with the harassment of the people incidental to all excise system, especially in India, for so small a result.

156. The number of shops increased by 13, viz., 4 in Dacca, 7 in Mymensingh, 1 in Faridpur and 1 in Backergunge, and the revenue by Rs. 2,881, while the consumption has decreased from 39,669 to 38,021 gallons. Of the total receipts, Rs. 1,04,758 represents license fees, Rs. 1,12,520 duty, and Rs. 4,301 distillery fees against Rs. 97,601, Rs. 1,18,115, and Rs. 2,982 respectively in 1892-93. There is increase in revenue in Mymensingh and Faridpur, and decrease in Dacca and Backergunge. The decrease in Dacca is said to be due to the advance fees realized in March 1893 on account of imported retail licenses being credited to that head instead of to country spirits as in the previous year. There was also some reduction in the license fees. The decrease in Backergunge is said to be due to scarcity and high prices of food-grains; also to the increase in the retail price of the spirit itself. The same causes have had an opposite result in the adjoining district of Faridpur.

The outstill system is in force in Sylhet and the Garo Hills, and, as stated in last year's report, there was supposed to be some importation of liquor from these districts into the Mymensingh district. Mr. Earle writes that the subject "was very carefully enquired into during the year under report by the excise staff, and a special sub-inspector was deputed for some months to make detailed investigation. His enquiries did not bring to light any illicit distillation, but he succeeded in detecting three cases of smuggling of outstill liquor. In order to protect the borders of the district against smuggling, three new frontier shops have been sanctioned during the year under report, in localities where there was a demand for the licit drug. Thirteen cases of such smuggling were detected, against 12 in the previous year.

157. The consumption of these drugs increased from 712 maunds 15 seers 3 chitaks to 733 maunds 37 seers 5 chitaks, and the revenue from Rs. 4,29,733 to Rs. 4,39,043, or to Rs. 9,310. But there was decrease both in consumption and revenue in Dacca and Faridpur districts. The decrease in the former district was

exclusively under head of duty, and is said to be due to the impoverished condition of the consuming classes, and also to the revival of monopoly in the town of Dacca. It is noteworthy that while Dacca shows decrease, Mymensingh, a neighbouring district, shows large increase.

During the year the duty in ganja has been raised as follows:—

Chur	...	From Rs. 7 to Rs. 8 per seer and also to Rs. 9 from January 1894.
Flat	...	(Small twigs) Rs. 6-4 to Rs. 7-4.
Do.	...	(Large twigs) Rs. 5 to Rs. 6.

158. There has been a small decrease of 1 maund 11 seers in consumption and Rs. 1,334 in revenue. The decrease is confined to Dacca and Mymensingh districts. In Dacca it is due chiefly to the raising of the retail selling price in the town from 6 annas 6 pie to 8 annas per tola.

An important smuggling case was detected during the year in this district, in which an up-country man imported 3½ seers of Bihar crude opium for sale. This fact, the Collector says, "shows that the use of contraband opium is not uncommon in the district." In Mymensingh, though there was increase in consumption, there was decrease in revenue. The shops were settled at reduced fees, while the good outturn of crops has favourably affected consumption. In Backergunge, on the other hand, license fees have increased and the bad outturn of crops has unfavourably affected consumption.

159. In Faridpur district three persons were prosecuted by the Sub-Inspector of Excise of Goalundo, and sentenced by the Subdivisional Officer, for selling unfermented date-juice without a license. It is surprising the Government notification of 1883 excluding date-juice from the operation of the Excise Act in this Division was not known to the excise officers of Faridpur. The Judge of course let the accused off on appeal.

The orders, dated 14th March 1893, forbidding the preparation of madak and chandu in private houses for domestic consumption, thereby constituting a new excise offence, have borne fruit. No less than 102 persons have been prosecuted for this offence, of whom 88 were punished. In a few cases, I regret to say, excessive fines were inflicted.

The attempt to extirpate wild bhang, initiated by Excise Commissioner's circular No. 6075, dated 26th January 1893, was, I am glad to say, abandoned under orders of Government issued with that officer's No. 1566, dated 14th June 1893.

Eau-de-cologne is consumed in Backergunge in preference to country spirit, because of its low price and also because it is stronger and more intoxicating. It is manufactured in Sarupkati, and is also imported from Calcutta.

Mr. Savage, the Collector, writes—

"The so-called 'Eau-de-cologne' is made from methylated spirit, but although extremely disagreeable to the taste, is, as I have found by personal experiment, not nauseating and is quite drinkable. It contains a large proportion of alcohol, and a bottle which can be got for four annas contains probably as much alcohol as a quart bottle of diluted country liquor as sold in the shops for Re. 1-4. The large array of bottles of this Eau-de-cologne to be found in any mela is clear proof of the extent to which it is used by the classes (prostitutes and their clients) to whom the sole object of drinking is to get drunk.

"I long ago pointed out the evils which would follow if no restriction were placed on the decoction of spirits by the licensed shopkeepers, and remarked that the people who want strong drink will get it by some means or other. The way they now get it is through the "Eau-de-cologne," and it is time this source of supply were stopped. I have by a prosecution under section 53 of the Excise Act put a stop to its manufacture in one place in Pirojpur subdivision, and the manufacture in this district will probably cease; but the main supply comes from Calcutta and its neighbourhood, and it is there only that effective measures can be taken to put a stop to what is a serious evil."

Altogether 289 persons were fined for drunkenness in municipalities in 1893.

The return of convictions in Faridpur is curious. Madaripur, 14 in 1891-92, none in 1892-93; Faridpur, 1 in 1891-92, 12 in 1892-93.

In Mymensingh, I regret to say, 66 license-holders were prosecuted for breach of the conditions of their licenses, against 4 in the previous year.

#### XX.—STAMPS.

160. The annexed statement shows the revenue derived from the sale of different descriptions of stamps in each district of this Division during the years 1892-93 and 1893-94.

There has been a net increase of Rs. 19,136 or 2·9 per cent. in non-judicial stamps, although there was a decrease of Rs. 12,736 in Faridpur, attributed to the generally unprosperous condition of the people. But distress might well result in increase of stamp revenue.

Judicial or court-fee stamps also show a net increase of Rs. 45,470 or 2·3 per cent. as compared with 1892-93. In this case also Faridpur shows a decrease, attributed to the same cause.

There was also an increase of 2·5 per cent. in the sale of plain paper.

The net increase in stamp revenue, after deducting charges, has been Rs. 67,287 as compared with 1892-93 and Rs. 1,35,746 as compared with 1891-92.

161. Our revenue, chiefly from judicial stamps in criminal courts, is Rs. 2,57,605, and in civil courts Rs. 17,27,891; and our expenditure in criminal courts and civil courts Rs. 3,50,324 and 7,68,258 respectively; so there is a deficit of Rs. 92,719 in criminal courts and a surplus of Rs. 9,59,633 in civil courts, or a net surplus of Rs. 8,66,914. I take these figures from statements S. and R. of the High Court's Report on Administration of Criminal and Civil Justice, respectively, for 1892.

162. Eight-hundred and seventy cases of insufficiently stamped or unstamped instruments were detected during the year, against 669 in the preceding year. Of these, 257 were detected by civil courts and 613 by the revenue officers. In these cases Rs. 6,428 was realized as duty and penalty, and Rs. 1,553 was paid as rewards to informers.

The number of prosecutions for offences against the Stamp Law has increased from 104 in 1892-93 to 251 in the year under report, which is not many among 9,844,127 persons.

Three hundred and forty-seven documents were executed on plain paper in the year under report, and in 183 of these cases prosecutions were undertaken. People can hardly execute documents on plain paper by mistake.

Nothing deserving of special notice was brought to light by officers of the Registration Department in the course of their inspection of stamps in the record rooms.

No cases of forged stamps were discovered during the year under report.

No defalcation in the sale of stamps was detected. Two cases were brought to notice in Mymensingh in which court-fee stamps had been abstracted from two records from the Kishorganj subdivisional office, and old stamps had been put in their places.

In two probate cases in Mymensingh, forwarded by the District Judge, deficit stamp duties were realized under section 19E., chapter IIIA, page 14 of the Court Fees Act. In both these cases the Judge reported that the deficit was unintentional.

In Backergunge, a person was wrongly convicted under section 68 of Act I of 1879 for selling service postage stamps without a license. There is no penalty for selling such labels or court-fee stamps without a license. Neither is any penalty provided for refusal by a vendor of court-fee stamps to sell on demand.

During the year under report there was a proposal to amend the Administrator-General's Act II of 1874 in the interest of the stamp revenue.

163. On taking charge of the Division in November 1892, I was astonished to find that single lock accounts were not kept at any subdivision except Goalundo, and that only in a modified form, in spite of rule 31 at page 100 of the Stamp Manual. The subdivisional treasuries being closed for long periods, especially in the cold season, a single lock account appeared to me *prima facie* to be very necessary, but when the matter was referred to the District Officers they were unanimous that experience has proved such an account unnecessary. The matter, I believe, is now under the consideration of Government.

164. At the time of my inspection of the Mymensingh treasury in March 1893, I found that the instructions regarding the sale of stamps from single lock

had been ignored. However, on my representing the matter, the Government has been pleased, in its letter No. 3165L.R., dated 27th May 1894, to authorize the treasurer to indent for his supply of stamps once in every five days, instead of once a week, as laid down in rule III of the supplementary rules for the custody, supply, and sale of stamps, printed at page 104 of the Stamp Manual.

165. When a nazir requires court-fee stamps to attach to processes, &c., I find he buys of licensed vendors. I have issued instructions that in such cases the nazir should buy from the official vendor, and see that Government does not pay discount on stamps it uses itself.

166. With a view to prevent the inconvenience caused by the operation of rule 28 at page 100 of the Stamp Manual, under which the officer in charge of a branch depôt is required to obtain the supplies from the local depôt to which the branch depôt is subordinate, the Government have, on the representation of the Board, been pleased to relax the rule, so as to permit of officers in charge of selected branch depôts obtaining their supplies of stamps direct from the Superintendent of Stamps, Calcutta, instead of from the local depôts. I have accordingly, after giving the matter full consideration, proposed that the branch depôts at Tangail and Kishorganj in Mymensingh district, Madaripur and Goalundo in Faridpur, and Pirojpur in Backergunge, should be authorized to get supplies direct from Calcutta. Of the above five depôts, the branch depôts at Madaripur and Goalundo already receive their supplies from the central depôt direct. In the case of Tangail and Kishorganj, I have reason to believe a distinct saving of about Rs. 200 will be secured.

YEAR.	DISTRICT.	SALES OF NON-JUDICIAL STAMPS USED UNDER THE INDIAN STAMP ACT.										SALES OF JUDICIAL STAMPS OR STAMPS USED UNDER THE COURT FEES ACT.			Total of both kinds of stamps.
		Impressed sheets, including certificate stamps, salt bonds, bills of lading and kabuli-rais.	Impressed labels.	Receipt or one-anna revenue stamps.	Share transfer stamps.	Foreign bills.	Hundi or bill-of-exchange stamps.	Notarial stamps.	Advocate, vakil and attorney stamps.	Impressed one-anna stamps for cheques, bills, &c.	Total of non-judicial stamps. ## XXI.—INCOME-TAX.

167. During the year there was no change in the mode of assessment. The post of clerk attached to the assessor in the Faridpur district was abolished from 1st April 1893.

168. Eight thousand one hundred and fifty villages were visited by the assessors during the year, against 8,345 in the previous year, as shown below:—

District.	1892-93.	1893-94.	Increase or decrease.
1	2	3	4
Dacca ...	2,345	2,636	+ 293
Mymensingh ...	1,860	948	- 912
Faridpur ...	1,961	2,087	+ 126
Backergunge ...	2,179	2,477	+ 298
Total ...	8,345	8,160	- 185

It was the practice in Mymensingh district to return as visited villages with regard to which the assessor made enquiries from adjacent villages. This practice was condemned by the Collector, Mr. Earle; and on my representing the matter to the Board, they have, in their circular order No. 25B., dated 19th March 1894, directed to return as visited only those villages which are actually visited. The returns for all districts have been compiled on this system. The short outturn in Mymensingh is very remarkable.

169. There has been a small increase (213) in the number of assessees.

Number of assessees.

The increase was in all the districts except Mymensingh.

Considering the scarcity that prevailed in some parts of the Faridpur and Backergunge districts during the year, the increase in the number of assessees in those districts, especially in Faridpur, is unexpected and goes to show that the scarcity has been exaggerated or that scarcity does not depreciate incomes subject to the tax.

170. The amount originally assessed was Rs. 2,88,899. This was reduced, on objection by District Officers, to Rs. 2,85,767,

Final demand.

and on appeal by Commissioner to Rs. 2,85,713, as

detailed in the subjoined table:—

District.	Original demand.	REDUCED BY—		Final demand.	Final demand of 1892-93.	Increase.	Decrease.
		Collectors on revision to—	Commissioners on appeal to—				
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Dacca ...	89,008	88,804	88,804	88,804	86,227	2,077	...
Mymensingh ...	95,594	94,793	94,772	94,772	95,712	...	940
Faridpur ...	42,598	41,673	41,668	41,668	36,807	4,861	...
Backergunge ...	61,704	60,997	60,969	60,969	58,189	2,780	...
Total ...	2,88,899	2,85,767	2,85,713	2,85,713	2,76,935	8,778	...

Last year I was obliged to report that the rapid development of previous years had received a check. This year we are going ahead again. The increase in Faridpur is specially satisfactory, as this has been from an income-tax point of view, as indeed from other points of view, a backward district.

171. It will be seen that the collections are keeping pace with the demand:—

District.	COLLECTIONS ON ACCOUNT OF TAX.		Increase.	Decrease.
	1892-93.	1893-94.		
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Dacca ...	86,107	88,284	2,177	.....
Mymensingh ...	94,901	94,374	.....	527
Faridpur ...	36,730	41,418	4,688	.....
Backergunge ...	58,129	60,959	2,830	.....
Total ...	2,75,867	2,85,035	9,168	.....

172. The outstanding balance, including arrears of previous years, is

Balances.

Rs. 1,869, viz., Rs. 1,299 on account of tax, Rs. 466 on account of penalties, and Rs. 104 on account of costs. Of this Rs. 572 is reported to be good and under realization, Rs. 117

doubtful, and Rs. 1,180 bad and irrecoverable. A part of the amount has been remitted, a part realized, and the rest is in course of realization.

173. Out of 11,287 persons originally assessed, 812 persons filed petitions of objections against 652 in the preceding year, the percentage of objections being 7·2 against 5·9 in the previous year, as shown below :—

DISTRICT.	Number of persons assessed.	NUMBER OF OBJECTIONS.		PERCENTAGE OF OBJECTIONS.	
		1893-94.	1892-93.	1893-94.	1892-93.
1	2	3	4	5	6
Dacca ... ..	2,969	122	105	4·1	3·5
Mymensingh ... ..	3,676	146	152	3·9	4·06
Faridpur ... ..	2,255	340	249	15·0	12·3
Backergunge ... ..	2,387	204	146	8·5	6·2
Total ... ..	11,287	812	652	7·2	5·9

The number of successful objections was 206 or 25·4 per cent., against 147 or 22·5 per cent. in the preceding year. The objections were made principally by the new assesses. The new assesses object generally as a matter of form. About this Mr. Jenkins, Collector of Dacca, gives a typical instance in the following :—

“An objector being found of affluent means by the Deputy Collector on local enquiry, said that he had objected because his neighbours had done so, and that if any of them had succeeded he would always have regretted his omission in not filing an objection.”

The increase in the percentage of successful objections is due to depression in jute and other trades during the year, and partly to non-submission of accounts to the assessor by the assesses. These officers in the absence of accounts have to rely on information given by neighbours, who not unfrequently take the opportunity of satisfying ancient grudges.

The percentage of successful objections has been :—

	1892-93.	1893-94.
Dacca ... ..	30·4	36·9
Mymensingh ... ..	30·2	30·1
Faridpur ... ..	16·8	19·4
Backergunge ... ..	18·4	25·

There is increase in all districts except Mymensingh. The Collector of Mymensingh says “the Deputy Collector neglected to make local enquiry in doubtful cases.”

174. As in the previous year, 16 applications for revision were filed before me during the year, four from Mymensingh and six from each of the districts of Faridpur and Backergunge; there were none from Dacca. Of these six were rejected, tax was reduced in four, exemption was allowed in one, three were remanded, and three are pending.

Petitions of revision to Commissioner.

Incidence of tax.

175. The following table shows the proportion of persons assessed to population and the incidence of tax :—

DISTRICT.	Proportion of persons assessed to population.		Incidence of tax.	
	1	2	3	
	Assessee.	Persons.	Re.	Persons.
Dacca ... ..	1	to 823	1	to 27
Mymensingh ... ..	1	to 952	1	to 37
Faridpur ... ..	1	to 811	1	to 43
Backergunge ... ..	1	to 912	1	to 35

Faridpur is gradually improving.

176. The number of companies, &c., who undertook to collect the tax under section 9 (2) was 8 against 7 of the preceding year. Out of Rs. 1,336 collected under this section, Rs. 925 was in Dacca and Rs. 411 in Faridpur, the other two districts contributing nothing.

Remission under rule 13 of the Bengal Government rules.

177. It will be seen from the following statement that there has been less coercion in realizing the tax than in the previous year. This goes to show that assessments were made more judiciously, and perhaps that the year was less unprosperous than it has been described to be:—

Coercive measures.

DISTRICT.	Number of warrants.		Number of distraints.		Number of sales.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3	4	5	6	7
Dacca ... ..	88	46	31	8	...	3
Mymensingh ... ..	146	123	74	60	6	3
Faridpur ... ..	55	47	36	21	14	6
Backergunge ... ..	33	43	15	13	10	7
Total ... ..	322	269	156	102	30	19

178. The cost of assessment and collection has decreased in all the districts, as will be seen from the following table:—

Expenditure.

DISTRICT.	Total collections, including penalties, &c.	Total expenditure.	PERCENTAGE OF COST ON COLLECTION.	
			1892-93.	1893-94.
1	2	3	4	5
	Rs.	Rs.		
Dacca ... ..	88,643	3,541	4.09	3.9
Mymensingh ... ..	95,500	3,353	3.7	3.5
Faridpur ... ..	41,725	2,075	8.1	6.1
Backergunge ... ..	61,406	3,228	5.7	5.3
Total ... ..	2,87,274	12,797	4.8	4.5

The cost is still high in Faridpur.

Miscellaneous.

179. The system of payment of tax by postal money-orders has worked satisfactorily and is gaining popularity.

There were no prosecutions in any of the districts. There were some complaints as to the issue of warrants without previous notice in Mymensingh, where notices are issued by post. The Collector thinks there may have been some neglect of duty on the part of the postal peons.

Public feeling.

179½. There is nothing new to add under this head. The tax continues to be unpopular. On this Mr. Jenkins, Collector of Dacca, writes:—

“The feeling of dislike for the tax now remains latent, but it is now and then exhibited when a new assessee is discovered who resorts to all manner of subterfuge to evade the tax. In such attempts his neighbours sympathise. On the other hand, there are cases in which persons volunteer information regarding their enemies from a vindictive spirit.”

On the whole the administration of this branch of revenue has been a success this year. With unfavourable crops, depression in trade, and scarcity

in parts of two of the districts, the increase in demand and in the percentage of collections is very satisfactory.

XXII.—MONETARY ARRANGEMENTS.

180. The Bank of Bengal continues to act as treasurer of the Government in Dacca. It received from the reserve treasury at Calcutta and from the treasuries of the districts in the neighbourhood of Dacca Rs. 30,04,250 during the year against Rs. 37,63,082 in the preceding year, and remitted to those treasuries Rs. 28,07,600 against Rs. 55,04,610 in 1892-93. From the surplus of the district of Dacca, Rs. 1,56,000 were remitted to the reserve treasury at Calcutta by Government currency notes, Rs. 24,50,000 was credited to the Bank of Bengal, Dacca, while Rs. 2,01,600 was remitted to other treasuries. The sum of Rs. 10,00,000 was transferred to the currency chest (Dacca) from the treasury balance, while a sum of Rs. 14,00,000 was transferred from the currency chest to the Bank of Bengal, Dacca.

181. The following tables show the receipts and issues of currency notes as compared with the preceding year 1892-93:—

Currency notes.

*Receipts.*

DISTRICT.	Total of 1892-93.	1893-94.			Total of 1893-94.
		From the reserve trea- sury or bank, Calcutta, or other treasuries.	From the public in pay- ment of Government dues.	In exchange for silver or notes of other values.	
1	2	3	4	5	6
Dacca ...	Rs. 7,73,150	Rs. 68,000	Rs. 3,75,200	Rs. 15,800	Rs. 4,59,000
Mymensingh ...	11,20,776	1,08,000	3,30,300	6,92,700	11,31,080
Faridpur ...	2,10,990	20,000	1,69,905	13,760	2,03,665
Backergunge ...	9,31,485	1,22,500	1,90,505	1,99,880	5,12,945
Total ...	30,36,400	3,18,500	10,65,970	9,22,220	23,06,690

There has been a very large reduction in amount received from the public in payment of Government dues in all districts, especially in Backergunge and Mymensingh. There has been a large increase in the amount received for silver or notes, especially in Mymensingh. In issues, the only change is that a much smaller sum has been remitted to the reserve treasury, Calcutta, especially from Backergunge. As a smaller sum accumulated in notes, a smaller sum was remitted, that is, fewer notes being received in payment of Government dues, fewer notes were remitted.

*Issues.*

DISTRICT.	Total of 1892-93.	1893-94.			Total of 1893-94.
		To the reserve trea- sury or bank, Calcutta, or other treasuries.	To the public in pay- ment of Government liabilities.	In exchange for silver or notes of other values.	
1	2	3	4	5	6
Dacca ...	Rs. 7,57,970	Rs. 2,27,000	Rs. 1,26,465	Rs. 1,05,065	Rs. 4,59,130
Mymensingh ...	11,17,065	7,61,710	1,71,755	1,76,105	11,09,570
Faridpur ...	2,23,320	22,000	1,42,385	57,000	2,21,385
Backergunge ...	9,45,270	60,190	1,69,900	3,04,820	5,24,970
Total ...	30,43,625	10,70,900	6,00,565	6,43,590	23,15,055

It is said that in Mymensingh notes are largely received from Marwari merchants during the jute season. I presume this means that they are used for remittance purposes to save discount on bills. I am surprised the Accountant-General finances the jute trade without charge. I suppose if he did not cash notes here, jute merchants would give him a good price for bills. I have found that Government dues are largely received in notes. Agents of zamindars and others change cash into notes before paying into the treasury. Even postmasters pay in notes.

182. The following table shows the transaction of the year under report in remittance transfer receipts as compared with the preceding year 1892-93:—

DISTRICT.	ISSUED.				CASHED.			
	1892-93.		1893-94.		1892-93.		1893-94.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7	8	9
		Rs.		Rs.		Rs.		Rs.
Dacca ...	308	3,33,696	402	3,33,815	235	36,043	218	22,043
Mymensingh ...	206	20,117	186	21,221	98	61,496	93	64,189
Faridpur ...	224	22,527	297	31,274	189	53,016	159	57,490
Backergunge ...	221	34,723	231	41,069	86	14,252	89	16,377
Total ...	1,049	4,11,063	1,116	4,27,379	608	1,64,807	559	1,60,099

The increase in issues in Faridpur is said to be due to receipts on account of Government revenue and other dues payable in other districts. In Backergunge it is said to be owing to the increase in the subsidies paid to the different Steam Navigation Companies.

183. The transactions at the subdivisional treasuries during the year under report are compared below with those in the preceding year:—

Treasury transactions.

DISTRICT.	1892-93.		1893-94.	
	Receipts.	Disbursements.	Receipts.	Disbursements.
1	2	3	4	5
	Rs.	Rs.	Rs.	Rs.
Dacca ...	5,16,927	5,18,831	5,32,840	5,05,098
Mymensingh ...	21,93,160	21,09,050	26,82,345	24,47,729
Faridpur ...	6,95,495	7,19,838	7,90,237	7,86,240
Backergunge ...	18,75,255	18,62,239	18,86,864	18,93,169
Total ...	52,80,837	52,09,958	58,42,286	56,32,236

The work is no doubt increasing. But I find on my inspections that so far as the work is concerned it is unnecessary to keep these treasuries open daily.

184. The following table shows the transactions of the year in the Post Office Savings Banks in the several districts of the Division:—

ITEMS.	Dacca.	Mymensingh.	Faridpur.	Backergunge.
1	2	3	4	5
Total number of accounts opened at the close of 1892-93 ... ..	9,033	5,120	4,610	3,874
New accounts opened in 1893-94 ... ..	1,650	1,166	1,122	997
Total ... ..	10,593	6,286	5,732	4,871
Number withdrawn in 1893-94 ... ..	544	242	506	356
Remaining open at the close of the year 1893-94 ..	10,039	6,044	5,226	4,515
Amounts of deposits on 31st March 1893 ... ..	Rs. 10,39,507	Rs. 6,24,410	Rs. 5,47,208	Rs. 5,60,202
Deposited in 1893-94 ... ..	4,61,245	3,35,131	2,21,023	2,31,880
Total ... ..	15,00,752	9,59,541	7,68,236	7,92,082
Amount withdrawn in 1893-94 ... ..	5,15,119	24,009	2,10,274	2,04,112
Amount remaining in the Savings Banks at the close of 1893-94 ... ..	9,85,633	7,19,442	5,66,962	5,87,970

Except Dacca, there is an increase in the number of new accounts opened in all districts as compared with the previous year. In Dacca the amount of deposits has actually diminished. This may be the effect of high prices of food-grains and increased cost of living. The small increase in deposits in Backergunge and Faridpur, compared with increase in previous years, may tell the same story.

185. The following tables show the operations of the money-order department during the year as compared with those of the preceding year:—

DISTRICT.	MONEY-ORDERS (ORDINARY, REVENUE, &C.) ISSUED, IN ALL KINDS.					
	1892-93.		1893-94.		Increase or decrease.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7
Dacca ... ..	100,468	Rs. 23,57,245	105,248	Rs. 28,59,620	+ 4,780	+ 5,02,375
Mymensingh ... ..	147,067	27,46,009	175,373	32,91,958	+ 28,306	+ 5,45,949
Faridpur ... ..	73,249	11,77,705	76,329	12,34,040	+ 3,080	+ 56,335
Backergunge ... ..	94,862	18,54,560	97,197	19,56,507	+ 2,335	+ 1,01,957
Total ... ..	415,646	81,35,509	454,147	93,42,125	+ 38,501	+ 12,06,616

N.B.—These figures have been supplied by the Postal authorities.

DISTRICT.	MONEY-ORDERS (ORDINARY, REVENUE, &C.) PAID IN ALL KINDS.					
	1892-93.		1893-94.		Increase or decrease.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7
Dacca ... ..	186,793	Rs. 35,16,238	204,187	Rs. 36,68,635	+ 17,394	+ 1,52,397
Mymensingh ... ..	68,769	13,74,794	77,553	15,15,709	+ 8,794	+ 1,40,915
Faridpur ... ..	97,615	16,94,728	122,139	18,52,958	+ 24,524	+ 1,58,230
Backergunge ... ..	43,400	8,70,257	52,830	9,45,641	+ 9,430	+ 75,384
Total ... ..	396,567	74,56,017	456,709	79,82,943	+ 60,143	+ 5,26,926

N.B.—The figures have been supplied by the Postal authorities.

As remarked last year, Dacca, and to a less extent Faridpur, receive more than they send away. Backergunge and Mymensingh, on the other hand, send away much more than they receive. In the former district I found that absentee landlords' rents are largely remitted by money-order. This I think shows that discount on Calcutta is more than one per cent. It was never intended that the post office should undersell the bankers.

The business is increasing by leaps and bounds: 9·2 per cent. increase in issues and 15·1 per cent. in payments.

186. The following table shows the number and amount of revenue and rent money-orders paid and issued during the years 1892-93 and 1893-94:—

DISTRICT.	REVENUE MONEY-ORDERS PAID.				RENT MONEY-ORDERS ISSUED.			
	1892-93.		1893-94.		1892-93.		1893-94.	
	Number.	Amount.	Number.	Amount.	Number.	Amount.	Number.	Amount.
1	2	3	4	5	6	7	8	9
Dacca	10,010	Rs. 74,610	10,955	Rs. 88,912	1,068	Rs. 6,812	945	Rs. 7,704
Mymensingh	7,669	43,064	9,787	70,171	400	8,952	1,416	22,978
Faridpur	13,239	1,33,232	12,992	1,19,972	1,195	10,112	1,024	9,205
Backergunge	1,959	28,503	1,796	24,205	1,030	18,175	990	17,323
Total	32,877	2,79,400	34,530	3,03,320	3,700	44,051	4,285	57,804

N.B.—These figures have been supplied by the Postal authorities.

Though there is decrease in Faridpur and Backergunge, the system of payment of land revenue by money-orders is steadily increasing in popularity. The tenants do not make use of rent money-orders freely; they resort to them chiefly in disputed cases. Here again there is decrease in Faridpur and Backergunge.

187. The supervision of the treasuries of the Division forms an important part of my work, which has not received much attention in the reports of former years.

Generally the business of the treasuries of this Division is, I think, well conducted. In the Accountant-General's report on the working of treasuries in Bengal for 1893-94 only one of my districts is mentioned, Faridpur. This district is mentioned under four out of thirty-one headings.

In inspecting treasuries I have found poddars ignorant or careless of their duties in the matter of testing coin, and that proper use is not made of the test scales. I have now drawn up the rules in tabular form for their guidance. On several occasions I have been told that no uncurrent coin, silver or copper, has been discovered for many years. Proper record of such discoveries is now maintained. I am informed that light or counterfeit coins are never discovered at Bank of Bengal, Dacca.

The use of net bags for treasure has been introduced in our treasuries.

188. On taking charge of the Division in November 1892, I was surprised to find how much uncertainty existed as to the opening of the subdivisional treasuries. In one sub-division I found that the treasury was opened once a week, only two or three days' notice of its opening being given. Generally, in cold season, treasury opened at uncertain dates, of which little or no notice was given. With a view to remedy this uncertainty, after consulting the departmental heads, I have directed that the sub-divisional treasuries will be open on Friday throughout the year. If by any chance Subdivisional Officer cannot open on Friday he will open on Saturday. I have also directed that when the Subdivisional Officer is at head-quarters he will open the treasury on Mondays and Wednesdays as well as on Fridays, and that he will, whenever possible, give a week's notice of his intention to close on Mondays and Wednesdays. These orders apply only where there is no second officer. The Board have recently recommended that at Pirojpur in the Backergunge district, where there is now a Sub-Deputy Collector, the sub-treasury shall be opened every alternate day and on the 1st and 27th of each month.

189. The Faridpur loan office continues to command public confidence. The total liabilities of the Company were Rs. 3,41,807, and the assets, including cash balance in hand, were Rs. 4,31,618. The dividend declared at the end

of the year was Rs. 21·6 per cent., against 33·12 per cent. in the preceding year. It is explained that this is owing to the partial failure of crops and to the expenditure of a large amount by the Company in repairs and construction of the office buildings. Of the nine loan offices in Mymensingh, all are reported to be in a flourishing condition, except that at the Sadar station. The Dacca and Munshiganj Loan Banks are not in a prosperous condition. The dividend declared was only Rs. 4·8 and 6 per cent. respectively.

#### XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

190. No new lines of railway have been opened during the year under report.

There was a proposal to extend the Bengal Central Railway from Singhia near Jessore to Madaripur in the Faridpur district, and thence on to the river Megna opposite Chandpur. The Government of India has, during the year under report, sanctioned a preliminary survey of the country, with a view to determine how far such a line is practicable. The survey has, I understand, been completed, but the result has not been communicated to me.

The proposal to connect Munshiganj in the Dacca district with Goalundo has been abandoned.

As regards the proposed extension of the Dacca section of the Eastern Bengal State Railway, the Collector of Mymensingh reports that a narrow gauge line from the Kaoraid station of that railway to Tangail, 37 miles, would not only bring that subdivision within easy reach of Dacca and Mymensingh, and afford facilities for passenger traffic, but would also give an immense stimulus to local trade and open up inaccessible forests rich with timber, &c. The trade of Tangail and neighbourhood is so distinctly with Goalundo and Serajganj, that I am afraid the prospect of its diversion to Dacca and Narayanganj is very small. The Collector also states that a branch line from the Gaffargaon station on that railway, five miles long, to Husanpur ghát on the bank of the Brahmaputra, would be of much convenience to jute merchants at Datter Bazar, Katiadi, Karimganj, Nilganj, and other important marts.

191. There was a handsome expansion of traffic on the Dacca section of the Eastern Bengal State Railway during the year under report. The gross earnings have risen from Rs. 3,92,624 in 1892-93 to Rs. 4,52,891, an increase of 15·6 per cent., which is highly satisfactory as far as it goes.

192. The scheme which has been under consideration for some time, of constructing a railway bridge across the Brahmaputra at Nasirabad, has been abandoned as impracticable, but the question of constructing a bridge for ordinary traffic is still under consideration. A contribution of Rs. 57,000 has already been promised by the zamindars interested, and if Government will grant a loan to the District Board or Municipality of Nasirabad, and allow tolls to be levied until the original outlay is recovered, the Board or the Municipal Commissioners will undertake the work.

193. I am able to report that the suggestion made in paragraph 229 of the last year's General Administration Report, that the mail steamers for Goalundo should leave Narayanganj at 7-41 or 8 A.M., instead of 5-41 A.M. (local time), has borne fruit. A public meeting was held in Dacca on 31st August 1893, at which the following resolutions were passed:—

“(1) That a memorial be submitted to the Government of Bengal, signed by all the principal residents of the district, representing the great inconvenience to which the public are at present subjected owing to the late arrival of the Calcutta mail at Narayanganj and the very early departure of the mail train from Dacca, and suggesting the acceleration and improvement of the service so that the steamer from Goalundo shall arrive at Narayanganj not later than 2 P.M., and that the return mail should not start from the Dacca station before 7 A.M., the corresponding steamer from Narayanganj leaving at 8 A.M.

“(2) That in the same memorial it should be represented that in the event of the mail steamer service between Goalundo and Narayanganj being at any time made over to the India General

*Steam Navigation or any other private Company, such Company should contract under penalties for the despatch of the steamer and the delivery of the mails at the hours mentioned in the first resolution.*

- “(3) That in the opinion of this meeting it is highly inconvenient and wholly unnecessary to run the Mymensingh Railway on Madras time, 41 minutes behind local time, the line being disconnected with any other railway in India by a ferry 105 miles long.”

The mails are now carried by the India General Steam Navigation Company by a steamer leaving Narayanganj at 6-41 A.M. But unfortunately, under the terms of their agreement with the Eastern Bengal State Railway, this steamer cannot carry passengers. It is proposed to discontinue the railway steamer service, and a contract with this object in view has been drafted. The extraordinary and highly inconvenient, even barbarous, arrangement referred to in paragraph 230 of my report for 1892-93, under which the Dacca Mymensingh Railway is run 41 minutes behind local time, still continues.

#### XXIV.—COMMUNICATIONS.

194. The following statement shows the length of roads of different classes in each district of the Division:—

DISTRICT.	DISTRICT ROADS.				Village roads.
	Embanked, bridged, and metalled.	Embanked, bridged, but not metalled.	Not embanked and not bridged.	Total.	
1	2	3	4	5	6
	Miles. Furlongs.	Miles. Furlongs.	Miles. Furlongs.	Miles. Furlongs.	Miles Furlongs.
Dacca ... ..	6 7	172 7½	81 5½	261 4	101 0
Mymensingh ... ..	30 0	384 0	163 0	577 0	1,570 0
Faridpur ... ..	9 0	112 1½	19 6½	141 0	64 4
Backergunge ... ..	9 4	266 1	.....	275 5	160 4
Total ... ..	55 3	935 2½	264 3½	1,255 1	1,896 0

195. The maintenance of the district roads cost the District Boards Rs. 1,00,754, against Rs. 86,875 in the preceding year, as shown below:—

Maintenance.

DISTRICT.	Amount spent in—	
	1892-93.	1893-94.
1	2	3
	Rs.	Rs.
Dacca ... ..	22,220	34,084
Mymensingh ... ..	29,690	26,388
Faridpur ... ..	16,229	14,900
Backergunge ... ..	20,081	25,382
Total ... ..	88,220	1,00,754

The high floods of July and August did much damage to roads. Even the Dacca-Narayanganj road was overtopped in some places. The injuries caused by the floods account for increased expenditure in Dacca and Backergunge on maintenance. It is not explained how Faridpur escaped. In Mymensingh the roads are generally out of reach of floods. But I presume bridges suffered in that district.

196. An expenditure of Rs. 1,10,389 was incurred in constructing new roads, against Rs. 1,69,803 in the previous year as shown below:—

Original works.

DISTRICT.	Amount spent in—	
	1892-93.	1893-94.
	Rs.	Rs.
Dacca ... ..	27,665	9,272
Mymensingh ... ..	99,797	45,670
Faridpur ... ..	17,347	18,385
Backergunge ... ..	24,994	37,062
Total ... ..	1,69,803	1,10,389

Both the Dacca and Mymensingh Boards have concluded to complete their present roads before opening new ones, a policy which has my cordial support.

In Dacca a new fair-weather road running along high land from the Sripur railway station to Mathajuree has been commenced, and five miles have been completed. This road will eventually connect Tangail with the railway. The feeder roads from Rajendrapur railway station to Mirzapur and Kapasia were improved; also that from Tangi railway station to Kaliganj.

The following important works were undertaken in Mymensingh during the year:—

- (1) Five miles of a railway feeder road from Guffergaon to Shibganj was constructed, being a part of the proposed road from Guffergaon to Gupta Brindaban.
- (2) A new road from Pukul Dighi to the steamer station at Jamalpur was made.
- (3) A diversion of the road from Jamalpur to Subarnakhali for over three miles near Panibari.
- (4) Four bridges on the Mirzapur-Dilalpur road were completed during the year under report.
- (5) The reconstruction of the Kashiganj bridge and of the Durgapur road.
- (6) Three masonry bridges on the road from Jamalpur to Subarnakhali were commenced.
- (7) The construction of two bridges on the road from Netrakona to Barhatta.
- (8) The construction of one bridge on the road from Iswarganj to Kishorganj (in progress). The total length of district roads constructed during the year was eight miles.

The Narsunda khal in the Kishorganj subdivision was cleared of reeds with the double object of improving communication during the rains between Kishorganj and Hosainpur and of supplying drinking water. A project and estimate amounting to Rs. 6,322 for the re-excavation of this khal with a view to make it navigable throughout the year was sanctioned by Government, Public Works Department, during the year under review; but arrangements could not be made for the execution of the work before the close of the year for want of labour. The work will be taken up during the current year.

A new road has been added to the fifteen already existing in Faridpur. The repair of an old road called Sabikhan's Jangal in the Kotalipara thana was undertaken partly with a view to provide the people of that quarter with labour, as there was a failure of crops. Dignagar khal, mentioned in the last year's report, has not yet been commenced. A detailed plan and estimates have, however, been submitted to this office. The bridging of the remaining

gaps in the Faridpur-Rajbari road was completed during the year under review. With three exceptions, all the roads in this district are still more or less below high flood level, and are therefore little used in the rains.

In Backergunge the following road works were in progress during the year:—

- (1) Diversion of Dabdahia-Backergunge road.
- (2) Diversion of Barisal-Banaripara road.
- (3) Batajore-Sholoke road.
- (4) Metalling roads in Banaripara village.
- (5) Road from Goila Bazar to Amboulahat.
- (6) Extension of Barisal-Palardi road to boundary of the district.
- (7) Suspension bridge over Banaripara khal.
- (8) Boga-Gosinga road.
- (9) Palardi Bazar to Steamer Ghât road.

Numbers 5 and 6 had long been in contemplation; they were put in hand somewhat hurriedly and early in the season in order to provide work for people whom the failure of crops and the high prices had reduced to straits. On road No. 5 about 1,200 local men worked daily at the rate of Rs. 2-13 and Rs. 2-8 per 1,000 cubic feet of earthwork, and the expenditure on earthwork was Rs. 8,242. On road No. 6, 453 local men worked at the rate of Rs. 2-13 per 1,000 cubic feet, and the expenditure on earthwork was Rs. 4,031. The diversion of the Barisal-Banaripara road also was first started with the object of giving relief to the people said to be in distress in the Bil country, but they would not come to work.

Each of the roads (1) Batajore to Sholoke, (2) Gaila Bazar to Amboula hát, and (3) extension of Barisal-Palardi road, has, or will have, a continuous side-cutting, which will improve the drainage of the country, supply good drinking water, and open out boat communications within the district as well as with Faridpur.

Village roads. 197. The subjoined table shows expenditure on village roads—

DISTRICT.	1892-93.			1893-94.		
	Original works.	Repairs.	Total.	Original works.	Repairs.	Total.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Dacca ...	5,135	6,773	11,908	2,598	4,948	7,546
Mymensingh ...	10,209	7,889	18,098	10,240	9,289	19,629
Faridpur ...	5,660	8,260	13,910	5,364	6,845	12,209
Backergunge ...	9,790	8,628	18,418	11,789	13,585	25,374
Total ...	30,794	31,540	62,334	29,991	34,767	64,758

These roads have received a fair amount of attention, though in Dacca and Faridpur the expenditure was less than in the previous year. The decrease in Dacca is principally due to the fact that the Local Boards of Narayanganj and Munshiganj transferred money allotted to roads to water-supply. There, owing to the lateness of the season, some expenditure incurred in the year under report will fall upon 1894-95. No explanation has been given of the decrease in Faridpur.

198. The following statement shows the number of ferries of different classes in each district in this Division :—

DISTRICT.	NUMBER OF FERRIES.							
	Under Govern- ment man- agement.		Under Dis- trict Board management.		Under Muni- cipal manage- ment.		Total.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.
1	2	3.	4	5	6	7	8	9
Dacca ...	2	2	46	66	4	4	52	72
Mymensingh ...	3	4	57	69	...	1	60	74
Faridpur ...	...	...	16	16	6	6	22	22
Backergunge ...	1	1	23	23	3	3	27	27
Total ...	6	7	142	174	13	14	161	195

The steam ferry between Narayanganj and Munshiganj continued to be managed by the District Board. The collection of the ferry receipts was leased out, and this farming system was found successful. The receipts derived from the ferry were Rs. 2,498, and the working expenses Rs. 1,784 only. The surplus, Rs. 704, will hardly cover the wear and tear of the steamer. The ferry launch was thoroughly repaired at a cost of Rs. 7,867. If spread over ten years, this gives Rs. 786 per annum, but repairs will probably be required in five years' time. The ferry is obviously worked at a loss, but it is no doubt useful and very popular.

199. The steamer communication continues to develop. The following are the steamer services in this Division :—

- (1) Railway despatch daily service *via* Padma and Meghna between Goalundo and Narayanganj. The Railway Department contemplates the abolition of this service, which does not pay.
- (2) India General Steam Navigation Company's daily service *via* Padma and Meghna between Goalundo, Narayanganj and Cachar, carrying mails.
- (3) India General Steam Navigation Company's daily service *via* Padma and Meghna between Goalundo, Narayanganj and Sylhet, carrying mails.
- (4) Daily service between Goalundo and Madaripur, carrying mails.
- (5) Service *via* Dhalesvari between Sabhar, 16 miles from Dacca, and Goalundo, every other day.
- (6) Daily service between Barisal and Madaripur.
- (7) Ditto between Barisal and Chandpur in connection with (4), carrying mails.
- (8) Daily service between Barisal and Khulna, carrying mails.
- (9) Steamer between Barisal and Toktakhali for Noakhali, carrying mails every alternate day.
- (10) Barisal to Amtali (Gulshakhali) *via* Patuakhali, every other day.

Some of these lines receive subsidies from the District Boards and the Zamindari Dak Fund, an account of which will be found under heading Postal.

200. The tow-paths along the banks of rivers and khals in the Dacca district are said to be generally passable, though no expenditure is incurred, nor is any one responsible for keeping them open. I know that there is much room for improvement on the Lakhya river. Mr. Earle reports that the subject of the maintenance of tow-paths is still under the consideration of the District Board, but he has directed the chaukidars to keep a vigilant watch over all such paths along lines

of navigation within their mahallas. He has also directed all police and public officers to report to him cases of obstruction to such paths coming to their notice. The Faridpur district in this as in other matters is behind hand. The Magistrate of Faridpur says that no steps have been taken to maintain or open out tow-paths. The Magistrate of Backergunge writes that, except that between Barisal and Pirojpur, which is part of the Calcutta Circular and Eastern Canal, no tow-path is maintained in his district. I understand the District Board declines to vote money for this very useful purpose, but I make out no distinct vote has been taken on the subject. Though they are not mentioned in sections 78 and 79 of the Local Self-Government Act, the framers of that Act must have intended that this, in many districts the only means of communication, should receive attention.

201. The expenditure under this head was Rs. 2,980 against Rs. 2,423 in the preceding year. In Dacca no new trees were planted, but those that withered or died were replaced by new ones. The trees are reported to be in a thriving condition, and some of them have borne fruit. In Mymensingh, where expenditure has fallen from Rs. 889 to Rs. 409, 866 new trees were planted during the year. Mr. Earle says that, in his opinion, in a cool damp climate any general system of arboriculture for the purpose of affording shade to travellers along the roads is not called for. In Assam trees are rigorously excluded from the road-sides where there is any cart traffic. Nor would it have occurred to me to allow trees alongside of any kutchra road in Sylhet where there is clay in the soil. I am supplying seed of the rain tree to all subdivisions. It is an excellent shade tree for market-places, etc.

202. The following interesting facts in connection with communications are worth recording. The Magistrate and District Superintendent of Mymensingh, when they have occasion to visit the subdivision of Tangail any time between May and November, proceed *via* Dacca, Narayanganj and Goalundo, or if there is enough water and a Government launch is available at Dacca, by way of that place. So the Magistrate of Faridpur, when he has occasion to visit the quasi-subdivision of Gopalganj in the south-west corner of his district, proceeds *via* Goalundo, Calcutta and Khulna, except in the height of the rains. Improved communications will no doubt revolutionize our ideas of jurisdiction. Similarly in the Assam Valley districts daily steamer communication reduced distance to about one-tenth in time and extended jurisdiction to a corresponding extent.

#### XXV.—WORKING OF THE LODGING-HOUSE ACT.

203. There is no lodging-house in this Division, and the Act is not in force here.

#### XXVI.—EDUCATION.

204. The number of schools and of pupils attending them in the last two years are compared in the following table :—

DISTRICT.	1892-93.		1893-94.		Gain.		Loss.	
	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5	6	7	8	9
Dacca ...	4,802	78,275	4,768	79,527	...	1,252	44	...
Mymensingh ...	2,193	51,082	2,036	49,240	...	...	157	1,842
Faridpur ...	1,487	37,774	1,437	34,955	...	...	50	2,819
Backergunge ...	3,329	74,765	3,551	80,734	222	5,969	...	...
Total ...	11,811	241,896	11,782	244,456	...	2,560	29	...

The number of public institutions has increased by 162, while the number of private institutions has decreased by 191.

The following table shows the percentage of boys and girls at school on the total number of boys and girls of school-going age at 15 per cent. on the population:—

DISTRICT.	POPULATION.			OF SCHOOL-GOING AGE AT 15 PER CENT.			1892-93.						1893-94.					
	Total.	Male.	Female.	Total.	Boys.	Girls.	Total boys and girls at school.	Percentage of column 8 on column 5.	Boys at school.	Percentage of column 9 on column 5.	Girls at school.	Percentage of column 10 on column 5.	Total.	Percentage of column 11 on column 5.	Boys at school.	Percentage of column 12 on column 5.	Girls at school.	Percentage of column 13 on column 5.
1	2	3	4	5	6	7	8	8(a)	9	9(a)	10	10(a)	11	11(a)	12	12(a)	13	13(a)
Calcutta	2,420,650	1,900,583	1,220,073	368,068	180,087	188,011	78,275	21.2	70,027	39.2	7,648	4.1	79,527	21.9	73,106	49.6	6,421	3.5
Dumkingh	3,472,080	1,788,616	1,683,570	590,897	268,222	322,675	51,082	9.8	46,685	17.4	4,397	1.7	49,240	9.4	45,628	17.0	3,612	1.4
Baran	1,797,320	893,091	9,429	261,97	133,063	128,911	37,771	14.0	31,751	23.9	3,023	3.2	34,955	12.9	31,350	23.4	3,605	2.6
Baranunge	2,133,965	1,104,443	1,029,522	325,091	165,006	160,085	74,755	23.1	70,029	43.2	4,735	3.2	80,794	24.9	75,494	45.6	5,240	3.3
Total	9,844,127	4,986,733	1,857,394	1,476,616	718,008	758,608	241,896	16.3	222,033	29.6	19,893	2.7	244,456	16.5	235,678	30.1	18,878	2.5

In the census of 1891, 134,487 boys and 5,296 girls were returned as learning in this Division. Whether the departmental or the census figures be taken, the number of children under tuition is very small. There is a small increase compared with the previous year.

205. The following table shows the different classes of institutions and the cost of their maintenance:—

CLASS OF INSTITUTION.	1892-93.		1893-94.		1892-93.			1893-94.		
	Scholar.	Pupils.	Scholar.	Pupils.	Government expenditure.	Municipal and Local Fund expenditure.	Total expenditure.	Government expenditure.	Municipal and Local Fund expenditure.	Total expenditure.

Private institutions for indigenous instruction	3,937	35,763	3,714	35,135	...	...	...	...	...	...
GRAND TOTAL	11,808	241,896	11,771	244,456	77,619	1,03,928	8,30,229	82,582	1,10,209	8,46,176

There is some increase in expenditure under all the heads. Though expenditure, both Government and local, on higher English schools has decreased, the total has increased. There is little change in expenditure on middle education, English or vernacular. Upper and lower primary have both increased. In the former case both Government and local bodies spend more; in the latter case the increase is almost entirely due to local bodies. The increase in expenditure on female education is entirely due to Government, while that in technical and special schools is almost entirely due to private beneficence. Municipalities spent Rs. 942 on primary education in 1892-93 and Rs. 2,302 in 1893-94, an increase satisfactory as far as it goes.

The table below shows the number of schools classified according to management:—

CLASSIFICATION.	1892-93.		1893-94	
	Number.	Pupils.	Number.	Pupils.
1	2	3	4	5
Public institutions under public management—				
Maintained by the Department ... ..	39	2,723	39	2,808
Ditto by District or Municipal Boards ... ..	23	1,437	25	1,398
Total ... ..	62	4,160	64	4,206
Public institutions under private management—				
Aided by the Department or by Municipal or District Boards ... ..	5,055	140,882	6,106	162,363
Unaided ... ..	2,757	61,091	1,866	42,752
Total ... ..	7,812	201,973	7,972	205,115
Private institutions for indigenous instruction ... ..	3,937	35,763	3,746	35,135
GRAND TOTAL ... ..	11,811	241,896	11,782	244,456

While aided schools have increased in number, unaided have decreased.

206. As reported last year, there are four institutions in this Division teaching the University course—two the B.A., and the other two the First Arts. Two of these institutions are at Dacca and two at Barisal. The result of the First Examination in Arts of pupils from these institutions held in February 1893 and 1894 are compared below:—

NAMES OF COLLEGES.	1892-93.						1893-94.					
	Number on the roll on 31st March 1893.	Number completed.	NUMBER PASSED IN—				Number on the roll on 31st March 1894.	Number completed.	NUMBER PASSED IN—			
			First divi- sion.	Second divi- sion.	Third divi- sion.	Total.			First divi- sion.	Second divi- sion.	Third divi- sion.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13
Dacca College ... ..	73	78*	5	11	17	33	37	50*	...	7	9	16
Jagannath College ... ..	186	172	...	10	51	61	296	198	2	9	19	30
Brojo Mohan Institution ... ..	50	50	3	9	17	29	60	60	1	8	30	39
Raj Chandra College ... ..	34	32	...	1	12	13	43	41	...	5	10	21
Total ... ..	343	332	8	31	97	136	357	361	3	29	74	106

\* Failed students are allowed to remove their names from the roll after six months' attendance, and to compete at the ensuing examination.

The result is very unfavourable to the latter year.

Seventy-seven candidates appeared at the B.A. examination from the Dacca College, of whom only 23 passed, 4 with and 19 without honours. This is an improvement on last year.

Three candidates appeared at the M.A. examination, of whom only one passed in the third division.

Of the 16 candidates who appeared at the B.L. examination from the Dacca College, three only passed, all in the second division; this is a very poor result.

Of the 11 students sent up for the B.A. examination from the Rajchandra College, Barisal, only three passed, but this is an improvement over the last year's result. In the B.L. examination only two candidates competed from this college, both of whom passed in the second division. This is also an improvement.

207. The following table compares the success of Government aided and unaided English schools at the Entrance Examination in the last two years:—

CLASS OF SCHOOLS.		1892-93.							1893-94.						
		Number on the roll on 31st March 1893.	Number of candidates.	NUMBER PASSED IN—					the re- 1894.	Num andida	NUMBER PASSED IN—				
				Third division.	Total	Merit marks.					First	Seco	Thir	T	M
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Collegiate and Government schools.	1,491	144	54	57	12	123	238	1,398	115	23				85	174
Madrasa ... ..	410	7	4	...	1	5	13	433	12		3			7	14
Aided schools ... ..	3,000	122	21	42	20	83	167	4,006	153	7	18	24	49		81
Unaided schools ... ..	5,315	370	67	132	02	261	527	5,194	424	35	64	78	177		311
Total ... ..	11,221	643	146	231	35	472	895	11,030	704			123			

The result was not so good as in the preceding year. The examination is said to have been harder.

The Dacca Collegiate School is the only entrance school in this Division in which drawing has been introduced as a regular branch of study.

208. Out of 142 schools which competed at the middle English examination, 122 were successful in passing 259 candidates out of 431 sent up. The result is not so good as it was in 1892-93, when out of 409 candidates, 271 were successful.

One thousand one hundred and eighty-five candidates from middle vernacular schools competed at the middle vernacular examination against 1,252 in the previous year, of whom 648 or 54.6 per cent. passed, against 639 or over 51 per cent. of the previous year—a very satisfactory result.

209. Two thousand and two candidates against 1,651 in 1892-93 appeared at the upper primary examination, of whom 164 passed in the first division, 408 in the second, and 482 in the third division. Altogether 1,054 pupils or 52.6 per cent. passed, against 825 pupils or 50 per cent. in 1892-93. In the lower primary examination altogether 5,716 candidates presented themselves, against 6,184 in 1892-93, of whom 2,266 or 39.6 per cent. passed, against 3,014 or nearly 50 per cent. of the preceding year. That there were fewer candidates, and that those who appeared did worse, is a very unsatisfactory feature.

The system of holding the reward examination under the immediate supervision of the Sub-Inspectors of Schools could not be successfully worked in the districts of this Division, and on a representation being made—*vide* my letter No. 2890J., dated 25th September 1893—orders have been issued by Government in its letter No. 911, dated 17th March 1894, to the Director of Public Instruction, Bengal, to the effect that as the system of holding the reward examination of pathshalas *in situ* is unsuited to this Division, the district authorities may continue the simultaneous examination system as at present in force.

At the reward examinations of primary schools, 20,778 pupils passed (9,154 by the A standard, 10,935 by the B standard, and 689 by the C standard, against 20,388 pupils in the previous year, viz., 8,532 by the A standard, 10,961 by the B standard and 595 by the C standard).

The increase in the number passing by standard A is highly satisfactory.

Female education.

210. The subjoined table gives the statistics of female education as compared with 1892-93 :—

DISTRICT.	GIRLS' SCHOOLS.				GIRLS IN BOYS' SCHOOLS.		TOTAL.	
	1892-93.		1893-94.		1892-93.	1893-94.	1892-93.	1893-94.
	Schools.	Girls.	Schools.	Girls.	Girls.	Girls.	Girls.	Girls.
1	2	3	4	5	6	7	8	9
Dacca ... ..	703	2,808	211	3,023	4,740	3,308	7,648	6,421
Mymensingh ... ..	285	4,072	242	3,331	325	274	4,307	3,612
Faridpur ... ..	168	2,420	217	3,289	507	416	3,023	3,005
Backergunge ... ..	92	1,573	112	1,877	3,162	3,863	4,735	5,240
Total ... ..	748*	10,880	782†	11,523	8,804	7,355	10,863	18,478

\* Including 86 private institutions.

† Ditto 90 ditto.

Except in Mymensingh, the number of purely girls' schools and the number of girls attending them have increased in all the districts of the Division. The increase has been marked in Faridpur. But, except Backergunge, all the districts show decline in the number of girls attending boys' schools. On the whole there has been a decrease of 1,842 in the number of girls attending school, due to Dacca and Mymensingh.

The only high English school for girls in the Division is the Eden Female School at Dacca, under the superintendence of a European lady. I regret to say that this school is not making progress. The number of pupils keeps up, but the results are very bad. The school had 114 pupils against 115 in the preceding year. Two girls appeared at the last University Entrance examination, but both of them failed. No girl appeared at the middle English or middle vernacular examinations. Four girls appeared at the last upper primary examination, but all of them failed. Out of 9 girls who appeared at the lower primary examination, only 3 came out successful.

The institution is almost wholly eleemosynary; the income from fees is Rs. 72 only. And it is almost wholly supported by Government. Subscriptions amount to Rs. 352 only. The municipality contributes Rs. 120.

There is no girls' school of the middle English standard in the Division. We had two middle vernacular schools in 1892-93, one at Mymensingh and the other at Barisal, but in the year under report another has been set up at Faridpur. All these are aided from the grant-in-aid fund. Three girls appeared at the middle vernacular examination, two from the Barisal School and the third from the Alexander Girls' School at Mymensingh; all of them were successful.

The number of upper primary girls' schools rose from 27 with 792 girls to 28 with 1,041 pupils during the year, of which 25 were aided and 3 unaided. At the upper primary examination 20 pupils appeared, of whom 15 passed, 2 in Dacca, 6 in each of the districts of Mymensingh and Backergunge, and 1 in Faridpur. One girl in Mymensingh obtained a scholarship. This is a good result. At the middle and upper primary examinations girls are examined in the same paper with boys.

At the lower primary examination 288 girls appeared, of whom 261 or 90·0 per cent. came out successful. Dacca passed 86, Mymensingh 27, Faridpur 13 and Backergunge 135. This result is also good.

There are three zanana associations in this Division, one in each of the districts of Mymensingh, Faridpur and Backergunge. All these associations are examining bodies, their main object being to encourage female education in the zanana. They receive aid from the district funds.

Special education.

211. The following are the schools for special instruction :—

1	Government Medical School at Dacca.	
1	Ditto Survey School	ditto.
1	Ditto Madrasa	ditto.
1	Ditto Training School	ditto.
2	Unaided Homœopathic Schools	ditto.
1	Ditto Technical School at Barisal.	
2	Ditto Medical Schools	ditto.
1	Ditto Kashi Kishore Technical School at Nasirabad.	
2	Guru Training Schools in Dacca.	
11	Ditto ditto	Mymensingh.
7	Ditto ditto	Faridpur.
14	Ditto ditto	Backergunge.
—		
44		
—		

The number of these schools has decreased from 45 to 44. The Barisal madrasa, the Barisal night and survey schools, opened in 1892-93, have ceased to exist during the year under report. The two guru training schools and one homœopathic institution at Dacca, which were abolished in 1892-93, have again been established in that town. Three guru training schools in Mymensingh and one in Faridpur have been abolished, while in Backergunge the number of such schools has increased from 11 to 14.

The Kashi Kishore Technical School at the sadar station of Mymensingh was opened in July 1893. There were 21 boys on the roll at the close of the year, of whom 15 were Hindus and six Muhammadans. Of the Hindus, five were Brahmans, two Kayests, and the rest of lower caste. The subjects taught last year were arithmetic, geometry, drawing, and carpentry. At the last annual examination 14 out of 15 boys passed in the practical and 12 out of 14 in the theoretical subjects. There are eight scholarships of Rs. 4 and four of Rs. 2 a month tenable at the school. The institution is under the direct management of the District Board, but all the expenses are borne by Babu Jogendra Kishore Rai Chaudari of Ramgopalpur. Rupees 3,302 was spent in 1893-94 on its maintenance. The sale proceeds of the articles manufactured amounted to Rs. 300 during the year under report.

The Barisal Technical School has completed the third year of its existence. it had 43 pupils on 31st March, against 35 in the preceding year. Sixteen boys appeared at the final examination, and all passed.

212. The following table gives the number of Muhammadan pupils in each of the four districts of the Division during the last two years:—

Muhammadan education.

DISTRICT.	1892-93.				1893-94.			
	Number of schools.	Total number of pupils.	Number of Muhammadan pupils.	Percentage on total number of pupils.	Number of schools.	Total number of pupils.	Number of Muhammadan pupils.	Percentage on total number of pupils.
1	2	3	4	5	6	7	8	9
Dacca	4,802	78,276	40,130	51.2	4,768	79,627	41,880	52.6
Mymensingh	2,108	51,082	25,231	49.3	2,030	40,240	23,688	47.9
Faridpur	1,487	37,774	12,001	31.7	1,447	34,956	10,289	29.4
Backergunge	3,320	74,745	40,231	53.8	3,651	80,734	46,176	55.9
Total	11,817	241,880	117,599	48.6	11,782	234,456	120,898	49.4

The number of Muhammadan pupils in the Division has risen from 117,599 to 120,898, and the percentage on total number of pupils from 48.6 to 49.4. This increase in the number of pupils was in primary schools, and was contributed by Dacca and Backergunge only.

Nine hundred and seventy-two Muhammadan boys are under instruction in higher class English schools, 1,830 in middle English, and 2,235 in middle vernacular schools, or in all 5,037 are receiving secondary education. Though so many Muhammadan boys attend our primary schools, none of our Sub-Inspectors are Muhammadans. I am looking up questions of Muhammadan education in consultation with the special Muhammadan Assistant Inspector of the Eastern Circle.

The following table gives the results attained by Muhammadan candidates at the different departmental examinations:—

CLASS.	1892-93.				1893-94.			
	Total number of candidates.	Number of Muhammadan candidates.	Total number passed.	Number of Muhammadans passed.	Total number of candidates.	Number of Muhammadan candidates.	Total number passed.	Number of Muhammadans passed.
1	2	3	4	5	6	7	8	9
Middle English Examination ... ..	438	32	304	21	430	35	251	20
Do. Vernacular ditto ... ..	1,256	140	662	59	1,287	202	655	86
Upper Primary ditto ... ..	1,669	202	836	127	2,265	422	1,036	169
Lower Primary ditto ... ..	5,990	1,988	2,970	870	5,911	1,719	2,431	686
Total ... ..	9,352	2,462	4,768	1,077	9,893	2,378	4,402	941

The percentage of candidates who passed to those who appeared is 44·5 on the whole, and among Musalmans it is 39·5. There is no improvement to record.

The Dacca madrasa is the only institution of its kind for the higher education of the Muhammadan boys in this Division. There are 433 pupils on its rolls, against 416 at the close of the previous year. Out of 75 candidates sent up to the central examination of the Bengal madrasas, 13 passed in the first division, 16 in the second, and 15 in the third division, or 44 in all, which gives a percentage of 58·7. Twelve candidates appeared at the last entrance examination from this institution, of whom seven passed, two in the first division, three in the second division, and two in the third division.

213. There were 577 pupils belonging to the aboriginal races attending schools, against 482 in the previous year, as shown below:—

	1892-93.	1893-94.
Dacca ... ..	23	9
Mymensingh ... ..	417	530
Faridpur ... ..	26	9
Backergunge ... ..	16	29
	482	577

There has been a loss in the number of pupils in Dacca and Faridpur. But in Mymensingh the loss sustained in 1892-93 has been more than counter-balanced by the increase obtained during the year under report. Of the 530 pupils, 492 were reading in boys' schools and 38 in schools for girls. Of the 530 pupils, 32 were Christians against 2 of the preceding year. Seven pupils attended the middle English schools, 60 the upper primary, and the remainder lower primary schools. During the year before last, one pathsala was started in a Mugh village in the Sunderbuns portion of Backergunge, and another has been established in the same part of the district during the year under report. The number of pupils has now risen to 29. One of these pathsalas has reached the examdard, while the other is in its elementary stage. Of the 9 pupils in Dacca, the ze Khasias reading in the Dacca Medical School.

Indigenous education. 214. The following table gives the statistics for indigenous education for the past two years :—

CLASS OF INSTITUTION.	1892-93.		1893-94.	
	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5
Advanced, teaching ... { Arabic or Persian ... ...	110	1,897	84	1,596
... { Sanskrit ... ...	389	3,359	434	3,605
Elementary, teaching a { With ten pupils ... For boys ...	65	1,018	70	1,099
... { and upwards. { For girls ...	1	12	...	...
vernacular only or { With less than { For boys ...	638	3,031	593	2,486
mainly. { ten pupils. { For girls ...	30	104	31	138
Teaching the Koran only ... ...	2,644	25,924	2,474	25,847
Other schools not conforming to department- { For boys ...	5	119	1	46
al standard. { For girls ...	55	299	59	318
Total ...	3,937	35,763	3,746	35,135

There has been a decline both in the number of Arabic and Koran schools and in the number of pupils attending them; while Sanskrit tols have advanced from 389 schools with 3,359 pupils to 434 schools with 3,605 pupils.

215. I visited all the zilla schools in my Division, and also the higher class English schools at Netrakona and Kishorganj in Mymensingh, at Manikganj in Dacca, Madaripur in Faridpur, and Pirojpur in Backergunge. At the City Collegiate School Branch at Nasirabad I found a *Kindergarten*, which as a new experiment interested me greatly. On the afternoon of 10th August 1893, I attended a prize-giving at the Barisal Zilla School, and met the joint-committee appointed for the management of this institution. On 2nd August I paid a visit to the middle English school at Gopalganj in the district of Faridpur. In October I visited the Dacca College, the Madrasa and the Survey School, with the Principal of the College. I also visited the Jagannath College, the Pogose School, the Collegiate School, and the Normal School at Dacca with the Inspector of Schools, Eastern Circle. I presided over a meeting of the Madrasa Committee in November 1893, and over one of the Eden Female School Committee in April 1894.

In March 1894 Sir Alfred Croft, the Director of Public Instruction, Bengal, paid a visit to Dacca and looked into educational matters, several of which much required his attention.

Appendix XXX prescribed by Government shows the state of education in this Division during the year 1893-94.

#### XXVII.—DISPENSARIES AND HOSPITALS.

216. Six new dispensaries were opened during the year, two in Mymensingh and four in Backergunge.

The following statement shows the names and classes of the dispensaries in this Division :—

DISTRICT.	Names of dispensaries.	Class.	Patients treated.	How maintained.
1	2	3	4	
Dacca	1. Mitford Hospital, Dacca...	IIB	Both in and out-patients.	By the local municipality and endowments.
	2. Narayanganj ...	II	Ditto ...	By the local municipality.
	3. Munshiganj ...	IIIA	Out-patients only	By private subscriptions.
	4. Manikganj ...	IIIA	Both in and out-patients.	By private subscriptions, supplemented by aid from the District Board.
	5. Joydebpur ...	IIIA	Ditto ...	By private subscriptions.
	6. Shologhar ...	IIIA	Out-patients only	Ditto.
	7. Bhagyakul ...	IIIA	Ditto ...	Ditto.
	8. Malochi ...	IIIA	Both in and out-patients.	Ditto.
	9. Baliati ...	III	Out-patients only	Ditto.
	10. Jainshar ...	IIIB	Ditto ...	By private subscriptions, supplemented by aid from the District Board.

DISTRICT.	Names of dispensaries.	Class.	Patients treated.	How maintained.
1	2	3	4	5
Mymensingh	11. Nasirabad ... ..	II	Both in and out-patients.	By the local municipality, supplemented by aid from the District Board and by private subscriptions.
	12. Muktagacha ... ..	IIIA	Out-patients only	By private subscriptions.
	13. Raingopalpur ... ..	IIIA	Ditto ...	Ditto.
	14. Jamalpur ... ..	II	Both in and out-patients.	By the local municipality, supplemented by private subscriptions.
	15. Sherpur ... ..	II	Ditto ...	Ditto.
	16. Diwanganj ... ..	II	Out-patients only	By the District Board.
	17. Hybatnagore ... ..	II	Both in and out-patients.	By the local municipality, supplemented by private subscriptions.
	18. Bazitpur ... ..	II	Out-patients only	By the local Municipality.
	19. Bhairab Bazar ... ..	II	Ditto ...	By the District Board, supplemented by private subscriptions.
	20. Netrakona ... ..	IIIB	Both in and out-patients.	By private subscriptions, supplemented by aid from the local municipality.
	21. Durgapur ... ..	II	Out-patients only	By the District Board supplemented by private subscriptions.
	22. Tangail ... ..	IIIA	Both in and out-patients.	By private subscriptions.
	23. Santosh ... ..	IIIA	Ditto ...	Ditto.
	24. Ambaria ... ..	IIIA	Out-patients only	Ditto.
	25. Jhawail ... ..	IIIA	Ditto ...	Ditto.
	26. Jamurki ... ..	IIIA	Ditto ...	Ditto.
	27. Korotia ... ..	IIIA	Ditto ...	Ditto.
Faridpur	28. Faridpur ... ..	II	Both in and out-patients.	By the local municipality, supplemented by private subscriptions and aid from the District Board.
	29. Madaripur ... ..	II	Ditto ...	By the local municipality, supplemented by private subscriptions.
	30. Lonesing ... ..	IIIA	Ditto ...	By private subscriptions, supplemented by aid from the District Board.
	31. Goalundo ... ..	IIIB	Ditto ...	Ditto.
	32. Gopalganj ... ..	IIIB	Out-patients only	Ditto.
Backergunge	33. Bhanga ... ..	IIIB	Ditto ...	Ditto.
	34. Barisal ... ..	II	Both in and out-patients.	By the local municipality, supplemented by aid from the District Board and by private subscriptions.
	35. Pirojpur ... ..	II	Ditto ...	By the local municipality.
	36. Patuakhali ... ..	IIIA	Ditto ...	By private subscriptions, supplemented by aid from the District Board and the local municipality.
	37. Bhola ... ..	II	Ditto ...	By the District Board, supplemented by private subscriptions.
	38. Daulatkhan ... ..	IIIA	Out-patients only	By the Dakshin Shulbazzpur estate under the Court of Wards.
	39. Bakal ... ..	II	Ditto ...	By the District Board.
	40. Lata ... ..	II	Ditto ...	Ditto.
	41. Bowfal ... ..	II	Ditto ...	Ditto.
	42. Motbaria ... ..	II	Ditto ...	Ditto.

In all 224,862 persons received relief during the year, against 181,209 in 1892. There was thus an increase of 43,653 patients treated during the year under report as compared with the preceding year. The percentage on the total population is now 2·2 as compared with 1·78 in 1892. Backergunge is still much behind hand with 1·6, but there is improvement compared with 1892-93 when the percentage was only 1·19. The improvement is very satisfactory, but our dispensaries can hardly yet be said to have made much impression on our large population. The percentage in 1892 in Sylhet, a district in almost all respects similar to the districts of this Division, was 7·09.

In-door relief was afforded to 5,620 persons against 5,362 in the preceding year. Of this number, 5,620, the number treated in the Mitford Hospital alone was 2,939, which shows that the in-door business in other dispensaries is very small. As I remarked last year, the dispensaries at subdivisional head-quarters, such as Jamalpur, Netrakona and Kishorganj in Mymensingh, and at Pirojpur, Patuakhali and Bhola in Backergunge, have no proper accommodation for in-door patients; makeshift accommodation is provided for persons sent in by the police in criminal cases. I am trying to make some improvement in this matter.

217. A large number of major operations were performed in the Mitford Hospital, Dacca. Hospital at Dacca during the year under report. In no previous year have so many important operations been done. The following table shows the number performed in the last five years:—

1893	...	619
1892	...	568
1891	...	465
1890	...	311
1889	...	358

This institution is becoming yearly more useful.

Two new buildings have been added to it, the European Ward and Raja Sri Nath Ray's Eye Infirmary. The former was opened in April 1893, and

11 patients were accommodated in it during the year under report. The existence of a special ward for Europeans and Eurasians is not yet generally known. The latter was opened in December last. It will accommodate 10 in-patients. It is a well-built and handsome building, and is well provided with instruments and appliances suitable for the treatment of eye-affections. A new building to commemorate Lord Dufferin's visit to Dacca in November 1888, containing four sets of rooms for native females of the upper classes, will shortly be taken in hand. There has been delay in acquiring the land.

218. I inspected the dispensaries at district and subdivisional headquarters, except Jamalpur and Bhola, and those at Santosh near Tangail and at Gopalganj in the Faridpur district, during the year.

219. The following statement shows the percentage of women and children treated in each dispensary in 1892 and 1893:—

DISTRICT.	Names of dispensaries.	Women.		Children.	
		1892.	1893.	1892.	1893.
1	2	3	4	5	6
Dacca	1. Mitford ...	8.6	8.9	19.	18.5
	2. Narayanganj ...	7.6	8.2	11.4	12.5
	3. Munshiganj ...	7.5	7.6	19.8	25.4
	4. Manikganj ...	10.8	10.6	21.	17.9
	5. Joydebpur ...	10.6	12.01	22.8	20.8
	6. Shologhar ...	20.3	20.1	32.1	33.9
	7. Bhagyakul ...	16.3	17.5	39.2	42.08
	8. Maluchi ...	14.2	12.3	27.6	29.1
	9. Baliati ...	18.6	18.2	29.2	25.2
	10. Jainshar ...	16.4	14.9	34.3	33.4
Mymensingh	11. Nasirabad ...	7.7	10.01	10.3	8.48
	12. Muktagacha ...	15.8	12.94	11.6	10.58
	13. Ramgopalpur ...	10.8	8.11	12.3	8.06
	14. Jamalpur ...	13.7	14.7	11.8	21.79
	15. Sherpur ...	11.1	6.7	13.	11.9
	16. Dewanganj ...	7.1	9.01	12.7	17.24
	17. Hybatnagar ...	7.6	7.8	22.8	15.1
	18. Bajitpur ...	10.5	12.6	26.2	26.8
	19. Bhairab Bazar ...	.....	5.8	.....	6.2
	20. Netrakona ...	5.1	4.8	9.4	7.8
	21. Durgapur ...	.....	18.7	.....	5.9
	22. Tangail ...	10.3	11.7	21.4	25.3
	23. Santosh ...	13.4	15.5	23.8	26.4
	24. Ambaria ...	11.7	10.5	14.6	17.9
	25. Jhawail ...	6.2	7.1	20.7	19.6
	26. Jhamurki ...	7.5	10.5	25.9	30.2
	27. Korotia ...	13.7	13.1	27.1	29.5
Faridpur	28. Faridpur ...	8.9	8.3	20.1	20.
	29. Madaripur ...	3.4	3.7	6.8	8.8
	30. Lonesing ...	17.7	17.9	38.9	40.
	31. Goalundo ...	12.2	9.2	24.6	19.7
	32. Gopalganj ...	4.5	11.8	12.7	8.7
	33. Bhanga ...	8.1	7.5	9.7	13.5
Backergungo	34. Barisal ...	5.1	4.3	10	9.1
	35. Pirojpur ...	13.0	11.5	17.3	17.5
	36. Patuakhali ...	8.	7.9	15.1	16.5
	37. Bhola ...	6.3	7.	15.	16.
	38. Daulatkhan ...	3.4	3.9	9.4	9.7
	39. Bakal ...	.....	23.7	.....	20.1
	40. Lata ...	.....	5.0	.....	10.5
	41. Bowfal ...	.....	5.3	.....	17.6
	42. Matbaria ...	.....	8.4	.....	23.1

It is curious that women and children resort to some dispensaries so much more freely than to others. The matter is well worthy of investigation on the part of the Medical Department. I note that the dispensaries at the headquarters of districts and subdivisions are less attractive to the fair sex than those in the mufassal. The non-attendance of women and children is due in some measure to the want of separate consulting accommodation for females. I do not

think native females have the same delicacy of feeling that European women have in this matter, but still they cannot like detailing their symptoms and ailments *coram publico*. I am glad to hear that in connection with the Madaripur dispensary a new ward for females has been constructed, where they can consult the officer in charge of the dispensary privately. A new masonry female ward has also been added to the Nasirabad dispensary. It is called Bidya Mayi Female Ward, after the name of its donor, Srimati Bidya Mayi Debi, a lady zamindar of Muktagacha.

220. Of the 42 institutions in the Division, 19 are supported by District Boards and municipalities aided by subscriptions, and the rest (23) by private individuals; in some cases aided by subscriptions. A statement showing the working of dispensaries is given in Appendix XXXI.

The dispensaries at Tangail and Santosh are maintained by Srimati Bindu Bashini Chaudhrani and Srimati Janhabi Chaudhrani respectively; the dispensary at Muktagacha is supported by Raja Surjya Kanta Acharjya Bahadur, and that at Netrakona by the zamindars of Gauripur. The latter institution is not worthy of its supporter.

The dispensary at Daulatkhan is maintained at the cost of the proprietors of the Dakhin Shahbazpur estate, which is under the management of the Court of Wards.

The Eastern Bengal State Railway, the Emigration Department, and the owners of cooly depôts, subscribe for the support of the dispensary at Goalundo (Rajbari.) The Eastern Bengal State Railway, however, exacts more than an equivalent in service in the Magistrate's opinion.

#### XXVIII.—LIBRARIES.

221. The office libraries at the head-quarters of districts and subdivisions are reported to be in good order. In Mymensingh

Office libraries. the catalogue was revised in January 1894 under Board's Circular No. 6 of May 1889, and useless books have been sold under my sanction both in this and the Backergunge district. The Collector's library in Faridpur was also overhauled and a new catalogue was written, but the books have not yet been arranged into separate classes. The books in these libraries are not much used.

222. Of the public libraries, the principal ones, as reported last year, are the Northbrook Hall Library at Dacca and the

Public libraries. Town Hall Library at Mymensingh. The former is resorted to both by the European and Native gentlemen of the town of Dacca. It is now in the thirteenth year of its existence. The rate of subscription was the same as in the previous year, viz., from Re. 1 to Rs. 10 per mensem. The total receipts during the year amounted to Rs. 2,041 against Rs. 2,107 in the previous year, and the expenditure was Rs. 1,973 against Rs. 2,018, leaving a balance (including that of Rs. 2,725 at the end of the previous year) of Rs. 2,793.

One hundred and two volumes were added to the library during the year, and it now contains 4,204 volumes; 1,906 books and periodicals were issued from the library during the year, against 2,874 in the previous year.

The Mymensingh Town Hall Library, a gift of Raja Surjya Kanta Acharjya Bahadur, is managed by the municipality. It contains 1,629 volumes, besides a few weekly papers and monthly magazines. The institution is not in a flourishing condition. The number of subscribers has further fallen from 26 to 25, and the total receipts during the year were only Rs. 110, while the expenditure amounted to Rs. 285-11. One hundred and seventy volumes were taken out.

There are several bar libraries and some public libraries in the Division, besides those mentioned above. Of the former, the principal are the Judge's Court Pleaders' libraries at Dacca and Mymensingh. The latter is named "The Kirkwood Bar Library."

#### XXIX.—MUSEUMS.

223. There is no museum in this Division, and no meeting of the sub-committee to the Calcutta Economic Museum was held during the year in any district.

Indigenous education.

214. The following table gives the statistics for indigenous education for the past two years :—

CLASS OF INSTITUTION.	1892-93.		1893-94.	
	Schools.	Pupils.	Schools.	Pupils.
1	2	3	4	5
Advanced, teaching ... { Arabic or Persian ... ... 110 1,897 81 1,598				
... { Sanskrit ... ... 389 3,359 431 3,605				
Elementary, teaching a { With ten pupils { For boys ... 65 1,018 70 1,099				
vernacular only or { and upwards. { For girls ... 1 12 ... ...				
mainly. { With less than { For boys ... 638 3,031 593 2,486				
... { ten pupils. { For girls ... 30 104 31 138				
Teaching the Koran only ... ... 2,644 25,924 2,474 25,847				
Other schools not conforming to departmental standard. { For boys ... 5 119 1 46				
... { For girls ... 55 299 59 318				
Total ...	3,937	95,763	3,746	95,135

There has been a decline both in the number of Arabic and Koran schools and in the number of pupils attending them; while Sanskrit tols have advanced from 389 schools with 3,359 pupils to 434 schools with 3,605 pupils.

215. I visited all the zilla schools in my Division, and also the higher class English schools at Netrakona and Kishorganj in Mymensingh, at Manikganj in Dacca, Madaripur in Faridpur, and Pirojpur in Backergunge. At the City Collegiate School Branch at Nasirabad I found a *Kindergarten*, which as a new experiment interested me greatly. On the afternoon of 10th August 1893, I attended a prize-giving at the Barisal Zilla School, and met the joint-committee appointed for the management of this institution. On 2nd August I paid a visit to the middle English school at Gopalganj in the district of Faridpur. In October I visited the Dacca College, the Madrasa and the Survey School, with the Principal of the College. I also visited the Jagannath College, the Pogose School, the Collegiate School, and the Normal School at Dacca with the Inspector of Schools, Eastern Circle. I presided over a meeting of the Madrasa Committee in November 1893, and over one of the Eden Female School Committee in April 1894.

In March 1894 Sir Alfred Croft, the Director of Public Instruction, Bengal, paid a visit to Dacca and looked into educational matters, several of which much required his attention.

Appendix XXX prescribed by Government shows the state of education in this Division during the year 1893-94.

#### XXVII.—DISPENSARIES AND HOSPITALS.

216. Six new dispensaries were opened during the year, two in Mymensingh and four in Backergunge.

The following statement shows the names and classes of the dispensaries in this Division :—

DISTRICT.	Names of dispensaries.	Class.	Patients treated.	How maintained.
1	2	3	4	5
Dacca	1. Mitford Hospital, Dacca...	IIB	Both in and out-patients.	By the local municipality and endowments.
	2. Narayanganj ... ..	II	Ditto ...	By the local municipality.
	3. Munshiganj ... ..	IIIA	Out-patients only	By private subscriptions.
	4. Manikganj ... ..	IIIA	Both in and out-patients.	By private subscriptions, supplemented by aid from the District Board.
	5. Joydebpur ... ..	IIIA	Ditto ...	By private subscriptions.
	6. Bhologhar ... ..	IIIA	Out-patients only	Ditto.
	7. Bhagyakul ... ..	IIIA	Ditto ...	Ditto.
	8. Malochi ... ..	IIIA	Both in and out-patients.	Ditto.
	9. Balint ... ..	III	Out-patients only	Ditto.
	10. Jainshar ... ..	IIIB	Ditto ...	By private subscriptions, supplemented by aid from the District Board.

DISTRICT.	Names of dispensaries.	Class.	Patients treated.	How maintained.
Mymensingh	Nasirabad	II	Both in and out-patients.	By the local municipality, supplemented by aid from the District Board and by private subscriptions.
	Muktascha	IIIA	Out-patients only	By private subscriptions.
	Raungopalpur	IIIA	Ditto	Ditto.
	Jamulpur	II	Both in and out-patients.	By the local municipality, supplemented by private subscriptions.
	Sherpur	II	Ditto	Ditto.
	Diwanganj	II	Out-patients only	By the District Board.
	Hybatnagore	II	Both in and out-patients.	By the local municipality, supplemented by private subscriptions.
	Bazitpur	II	Out-patients only	By the local Municipality.
	Bhairab Basar	II	Ditto	By the District Board, supplemented by private subscriptions.
	Netrakona	IIIB	Both in and out-patients.	By private subscriptions, supplemented by aid from the local municipality.
Faridpur	Durgapur	II	Out-patients only	By the District Board supplemented by private subscriptions.
	Tangail	IIIA	Both in and out-patients.	By private subscriptions.
	23. Santosh	IIIA	Ditto	Ditto.
	24. Ambaria	IIIA	Out-patients only	Ditto.
	25. Jhawail	IIIA	Ditto	Ditto.
	26. Jamurki	IIIA	Ditto	Ditto.
	27. Korotia	IIIA	Ditto	Ditto.
	28. Faridpur	II	Both in and out-patients.	By the local municipality, supplemented by private subscriptions and aid from the District Board.
	29. Madaripur	II	Ditto	By the local municipality, supplemented by private subscriptions.
	30. Lonesing	IIIA	Ditto	By private subscriptions, supplemented by aid from the District Board.
Backergunge	31. Gamlundo	IIIB	Ditto	Ditto.
	32. Gopalganj	IIIB	Out-patients only	Ditto.
	33. Bhanga	IIIB	Ditto	Ditto.
	34. Barisal	II	Both in and out-patients.	By the local municipality, supplemented by aid from the District Board and by private subscriptions.
	35. Pirojpur	II	Ditto	By the local municipality.
	36. Patuakhali	IIIA	Ditto	By private subscriptions, supplemented by aid from the District Board and the local municipality.
	37. Bhola	II	Ditto	By the District Board, supplemented by private subscriptions.
	38. Daulatkhan	IIIA	Out-patients only	By the Dakhin Shahbaspur estate under the Court of Wards.
	39. Bakal	II	Ditto	By the District Board.
	40. Lata	II	Ditto	Ditto.
	41. Bowfal	II	Ditto	Ditto.
	42. Motharia	II	Ditto	Ditto.

In all 224,862 persons received relief during the year, against 181,209 in 1892. There was thus an increase of 43,653 patients treated during the year under report as compared with the preceding year. The percentage on the total population is now 2·2 as compared with 1·78 in 1892. Backergunge is still much behind hand with 1·6, but there is improvement compared with 1892-93 when the percentage was only 1·19. The improvement is very satisfactory, but our dispensaries can hardly yet be said to have made much impression on our large population. The percentage in 1892 in Sylhet, a district in almost all respects similar to the districts of this Division, was 7·09.

In-door relief was afforded to 5,620 persons against 5,362 in the preceding year. Of this number, 5,620, the number treated in the Mitford Hospital alone was 2,939, which shows that the in-door business in other dispensaries is very small. As I remarked last year, the dispensaries at subdivisional head-quarters, such as Jamalpur, Netrakona and Kishorganj in Mymensingh, and at Pirojpur, Patuakhali and Bhola in Backergunge, have no proper accommodation for in-door patients; makeshift accommodation is provided for persons sent in by the police in criminal cases. I am trying to make some improvement in this matter.

217. A large number of major operations were performed in the Mitford Hospital at Dacca during the year under report. In no previous year have so many important operations been done. The following table shows the number performed in the last five years:—

1893	...	619
1892	...	568
1891	...	465
1890	...	311
1889	...	358

This institution is becoming yearly more useful.

Two new buildings have been added to it, the European Ward and Raja Sri Nath Ray's Eye Infirmary. The former was opened in April 1893, and

11 patients were accommodated in it during the year under report. The existence of a special ward for Europeans and Eurasians is not yet generally known. The latter was opened in December last. It will accommodate 10 in-patients. It is a well-built and handsome building, and is well provided with instruments and appliances suitable for the treatment of eye-affections. A new building to commemorate Lord Dufferin's visit to Dacca in November 1888, containing four sets of rooms for native females of the upper classes, will shortly be taken in hand. There has been delay in acquiring the land.

218. I inspected the dispensaries at district and subdivisional headquarters, except Jamalpur and Bhola, and those at Santosh near Tangail and at Gopalganj in the Faridpur district, during the year.

219. The following statement shows the percentage of women and children treated in each dispensary in 1892 and 1893:—

District.	Names of dispensaries.	Women.		Children.	
		1892.	1893.	1892.	1893.
1	2	3	4	5	6
Dacca	1. Mitford ...	8.6	8.9	19.	18.5
	2. Narayanganj ...	7.6	8.2	11.4	12.5
	3. Munshiganj ...	7.5	7.6	19.8	25.4
	4. Manikganj ...	10.8	10.6	21.	17.9
	5. Joydebpur ...	10.6	12.01	22.8	20.8

	41. Bowfal ...	.....	5.3	.....	17.6
	42. Matbaria ...	.....	8.4	.....	23.1

It is curious that women and children resort to some dispensaries so much more freely than to others. The matter is well worthy of investigation on the part of the Medical Department. I note that the dispensaries at the headquarters of districts and subdivisions are less attractive to the fair sex than those in the mufassal. The non-attendance of women and children is due in some measure to the want of separate consulting accommodation for females. I do not

think native females have the same delicacy of feeling that European women have in this matter, but still they cannot like detailing their symptoms and ailments *coram publico*. I am glad to hear that in connection with the Madaripur dispensary a new ward for females has been constructed, where they can consult the officer in charge of the dispensary privately. A new masonry female ward has also been added to the Nasirabad dispensary. It is called Bidya Mayi Female Ward, after the name of its donor, Srimati Bidya Mayi Debi, a lady zamindar of Muktagacha.

220. Of the 42 institutions in the Division, 19 are supported by District Boards and municipalities aided by subscriptions, and the rest (23) by private individuals; in some cases aided by subscriptions. A statement showing the working of dispensaries is given in Appendix XXXI.

The dispensaries at Tangail and Santosh are maintained by Srimati Bindu Bashini Chaudhrani and Srimati Janhabi Chaudhrani respectively; the dispensary at Muktagacha is supported by Raja Surjya Kanta Acharjya Bahadur, and that at Netrakona by the zamindars of Gauripur. The latter institution is not worthy of its supporter.

The dispensary at Daulatkhan is maintained at the cost of the proprietors of the Dakhin Shahbazzpur estate, which is under the management of the Court of Wards.

The Eastern Bengal State Railway, the Emigration Department, and the owners of cooly depôts, subscribe for the support of the dispensary at Goalundo (Rajbari.) The Eastern Bengal State Railway, however, exacts more than an equivalent in service in the Magistrate's opinion.

#### XXVIII.—LIBRARIES.

221. The office libraries at the head-quarters of districts and subdivisions are reported to be in good order. In Mymensingh

Office libraries. the catalogue was revised in January 1894 under Board's Circular No. 6 of May 1889, and useless books have been sold under my sanction both in this and the Backergungo district. The Collector's library in Faridpur was also overhauled and a new catalogue was written, but the books have not yet been arranged into separate classes. The books in these libraries are not much used.

222. Of the public libraries, the principal ones, as reported last year, are the Northbrook Hall Library at Dacca and the

Public Libraries. Town Hall Library at Mymensingh. The former is resorted to both by the European and Native gentlemen of the town of Dacca. It is now in the thirteenth year of its existence. The rate of subscription was the same as in the previous year, viz., from Re. 1 to Rs. 10 per mensem. The total receipts during the year amounted to Rs. 2,041 against Rs. 2,107 in the previous year, and the expenditure was Rs. 1,973 against Rs. 2,018, leaving a balance (including that of Rs. 2,725 at the end of the previous year) of Rs. 2,793.

One hundred and two volumes were added to the library during the year, and it now contains 4,204 volumes; 1,906 books and periodicals were issued from the library during the year, against 2,874 in the previous year.

The Mymensingh Town Hall Library, a gift of Raja Surjya Kanta Acharjya Bahadur, is managed by the municipality. It contains 1,629 volumes, besides a few weekly papers and monthly magazines. The institution is not in a flourishing condition. The number of subscribers has further fallen from 26 to 25, and the total receipts during the year were only Rs. 110, while the expenditure amounted to Rs. 285-11. One hundred and seventy volumes were taken out.

There are several bar libraries and some public libraries in the Division, besides those mentioned above. Of the former, the principal are the Judge's Court Pleaders' libraries at Dacca and Mymensingh. The latter is named "The Kirkwood Bar Library."

#### XXIX.—MUSEUMS.

223. There is no museum in this Division, and no meeting of the sub-committee to the Calcutta Economic Museum was held during the year in any district.

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

224. Practically we have no such institutions outside of our municipalities. There is some talk of extending the powers of the panchayats who now manage rural police affairs. District Boards are in no sense local, and Local Boards are merely agents for District Boards.

225. The number of District and Local Boards remains unchanged. These Boards are constituted for the most part of the members of the following classes:—

- (1) Government servants and pensioners.
- (2) Zamindars, talukdars, and zamindars' agents.
- (3) Legal practitioners.

Occupations other than these supply only a small portion of the members. Many of the legal practitioners have landed property in the district, so the land-holding interest is sufficiently represented both on District and Local Boards. The bulk of the people are inadequately represented, but probably Government servants watch their interests.

The subjoined table shows the number of meetings held by the District and Local Boards and the average attendance of members at each meeting:—

Names of Boards.	Number of members.	Number of meetings.	Average attendance of members at meetings.
1	2	3	4
Dacca District Board ... ..	29	14	11·5
Sadar Local Board ... ..	12	8	5·3
Narayanganj „ ... ..	9	7	4·8
Manikganj „ ... ..	9	7	5·9
Munshiganj „ ... ..	15	6	11·3
Mymensingh District Board ... ..	25	21	10·4
Sadar Local Board ... ..	15	11	6·1
Tangail „ ... ..	12	13	5
Kishorganj „ ... ..	16	12	7·2
Jamalpur „ ... ..	9	15	4·7
Netrakona „ ... ..	13	14	6·4
Faridpur District Board ... ..	25	16	13·6
Sadar Local Board ... ..	12	11	4·8
Goalundo „ ... ..	9	7	5·4
Madaripur „ ... ..	12	13	5·5
Backergunge District Board ... ..	25	21	14·
Sadar Local Board ... ..	18	17	8·
Pirojpur „ ... ..	15	12	8·1
Patuakhali „ ... ..	10	11	4·8
Bhola „ ... ..	10	8	6·1
Total ... ..	300	244	7·4

Both Mymensingh and Barisal Boards met frequently, but the attendance is much better on the latter than on the former Board. The Local Boards have so little responsibility and so little work that no surprise need be expressed at their meetings being few and badly attended.

The Dacca District Board continued to work smoothly and satisfactorily. Most of the members took a great deal of interest in the business brought before them. The Local Board members also took interest in the affairs of the Local Boards. Mr. Earle, the Magistrate of Mymensingh, writes:—

“ The District Board continued to be a very helpful body, and on only one occasion did I find myself diametrically in opposition to them. This was in regard to the high prices which prevailed at the beginning of the rains, when the members unanimously resolved to import rice. Their want of knowledge of the interior of the district in this matter gave a rude shock to my belief in their usefulness. It is only fair, however, to them to add that when at a subsequent meeting the views of Government and the Commissioner's order were explained to them, they withdrew the resolution which they had so unadvisedly passed. The Local Boards worked as successfully as can be expected of bodies of men who are not really representatives of the people. As agents of the District

Board they administered the grants placed at their disposal for various purposes under the general control of the District Board. By far the most successful Local Board was that at Tangail, headed by a landholder and resident of the subdivision who was Assistant Surgeon in charge of the local dispensary. This gentleman, who thoroughly knows the wants of his charge, spared himself no pains in trying to meet the same. It is from such persons that the administration receives the most valuable counsel. Speaking generally, the Local Boards gave satisfaction, saving in respect of their duties in connection with primary education. Their failure in this respect was due not so much to any remissness on their part as to the system under which their hands were tied by the Education Committee of the District Board and the rules framed by them."

The Faridpur District Board worked satisfactorily and smoothly, and the members seem to have taken considerable interest in important questions which came before them for consideration. During the late scarcity the Board distributed a sum of Rs. 4,915 in the shape of loans, and also gave relief by opening dhan-husking business and by constructing several roads in the affected tracts.

In Backergunge the members of both District and Local Boards worked well during the year under report.

226. There have been elections of members of Local Boards in the districts of Mymensingh and Backergunge. The elective system is in force in all the subdivisions of the former and in two subdivisions (Sadar and Pirojpur) of the latter district.

The following statement gives an account of the election held in different thanas in the two districts. The elections were successful at all the thanas except Netrakona in Mymensingh, where the attendance of voters was insufficient. Mr. Earle reports that the election system is not understood by the people, and successful candidates cannot be called their representatives:—

DISTRICT.	Name of Local Board.	Name of thana or electoral unit.	Number of persons entitled to vote.	Number of persons present and recorded their votes.	Percentage of attendance of voters who recorded their votes to the total number of voters.
1	2	3	4	5	6
Mymensingh.	Sadar	Kotwali	2,115	218	10.3
		Iawarganj	2,678	286	10.6
		Fulpur	1,564	186	11.8
		Gafargaon	1,607	271	16.8
		Fulbaria	1,753	200	11.4
		Tangail	1,789	.....	More than 10 per cent. No record was kept of the number of voters present at these thanas.
	Tangail	Gopalpur	1,955	.....	
		Kalihati	519	.....	
	Jamalpur	Jamalpur	200	57	28.5
		Dewanganj	130	31	23.8
		Sherpur	21	7	33
		Nalitabari	32	6	21
		Netrakona	516	46	8.9 below 10 per cent.
	Kishorganj	Kendua	400	41	10
		Durgapur	170	15	13
		Kishorganj	673	167	23.3
	Sadar	Nikli	1,863	600	32
		Bazitpur	2,371	274	11.5
		Gaurnadi	1,964	258	13.1
		Jhalakati	1,543	373	24.1
		Kotwali	1,135	246	21.6
Backergunge.	..	Backergunge	904	157	17.3
		Nalchigi	1,087	298	27.4
		Mendigunge	883	256	28.9
		Pirojpur	1,668	428	27.2
	Pirojpur	Bhandaria	668	119	17.8
		Motbaria	2,311	1,035	44.8
		Surupkati	1,308	140	10.7

In Backergunge there was some agitation regarding the election of members for the Local Boards in the Sadar and Pirojpur subdivisions on account of private disputes among the candidates, and partly over the question whether the road cess should be levied at half rates only or at some higher rate.

No bye-elections were held during the year under report in the districts of Dacca and Faridpur.

227. The following table shows the expenditure incurred by each of the District Boards in this Division for the improvement of water-supply during the past three years, 1891-92, 1892-93, and 1893-94 :—

NAME OF DISTRICT BOARD.			1891-92.	1892-93.	1893-94.
1			2	3	4
			Rs.	Rs.	Rs.
Dacca	...	...	232	315	994
Mymensingh	...	...	4,106	2,879	2,896
Faridpur	...	...	3,092	6,264	2,295
Backergunge	...	...	2,485	496	6,146
			9,915	9,954	13,331

Besides this, the Mymensingh District Board paid Rs. 30,000, i.e., Rs. 10,000 in 1892-93 and Rs. 20,000 in 1893-94, as contribution to the Nasirabad Municipality towards the construction of the Raj Rajeswari water-works in that town.

228. The total number of Municipalities in this Division at the close of the year under report was 17, as in the preceding year.

The constitution of the Municipal Committees is shown in the following table:—

NAME OF MUNICIPALITY.		Nominated.	Elected.	Total.	Europeans.	Natives.	Government servants.	Zamindars and other land-holders.	Pleaders and mukhtars.	Planters.	Merchants, traders, and money-lenders.	Medical practitioners.	Schoolmasters other than Government servants.	Government pensioners.	Unspecified.

Total ...		110	107	220	12	214	34	46	71	...	10	9	17	3	30

As in the preceding year, the proportion of merchants, traders, and money-lenders is very small, the law is over-represented, while the landed interest has quite its fair share of members. A full report as to whether there are in this Division any municipalities which should be either abolished or curtailed was

submitted to Government with my No. 3641J., dated 8-11th December 1893. I think that until some system of general local self-government is established, our present municipalities should be neither reduced in area nor abolished.

229. The fourth general election of Commissioners of all the municipalities in this Division in which the election system is in force, that is 12, was held during the year under report. The elections were successful in all the municipalities except in ward No. II of the Tangail Municipality, which failed to return any member. This ward also failed at the previous election. The cause of this continued failure is said to be that the inhabitants have no confidence in anyone of their community. The election was hotly contested in the Barisal Municipality. Though 45·5 per cent. of the population are Musalmans, no Musalman member has been elected. The Musalman voters are in a majority in at least one ward, and could easily have elected Musalman representatives in other wards had they combined to do so. It is alleged that the leaders of the Hindu society resent recent improvements, and are thus representative of Musalman as well as of Hindu feeling. There was some agitation also about the appointment of Commissioners of this municipality. Some memorials were presented to me and to Government protesting against the Magistrate's nominations. The Magistrate's nominations were, however, accepted.

There was some friction in connection with the election of the Chairman of the Madaripur and Kishorganj Municipalities. In the former a Chairman was elected within 17 hours of the receipt of the Gazette containing the appointments of the new Commissioners, although four out of nine Commissioners present protested. At my recommendation the Chairman resigned and was again elected at a meeting formally and properly convened. In the Kishorganj Municipality a notice was duly issued by the old Chairman convening a special meeting to elect a new Chairman. The meeting took place at a late hour, and the Muhammadan Commissioners requested the Chairman to adjourn it to next day or some other day, as they had to go to prayers. The meeting was therefore postponed, and they with the Chairman left the house. But the remaining Commissioners present held a meeting and elected a Chairman. On the representation of some of the Municipal Commissioners, I directed that as only 8 Commissioners out of 15 were able to be present at the meeting, the Chairman should resign and a fresh meeting should be held for the election of Chairman. A fresh meeting was held on the 4th June 1894, when the old Chairman was re-elected.

230. In many of our municipalities the only persons of culture and enlightenment besides the Subdivisional Officer himself are the munsifs. These gentlemen naturally take an interest in the municipal affairs of the place in which they reside, and generally would be glad to undertake the duties of a Commissioner for which they are admirably fitted. As the cutcherry hours are from 11 till nightfall, mornings are usually available for out-door work, which is a pleasant relaxation from the labours of Court. But unfortunately, as I think, the judicial superiors of these gentlemen are in some cases opposed to their serving as Commissioners. One Judge says they have no time for municipal business.

231. There was but little friction in the working of municipalities during the year. A civil suit was threatened in regard to some lands taken up by the Sherpur Municipality in Mymensingh, but was averted by the mediation of the Magistrate. In the same municipality a zamindar is prosecuting a suit claiming as his private property some roads which have long been used by the public and have been declared by the Magistrate to be public property.

232. The special engineer employed for a drainage scheme in the town of Dacca has not yet succeeded in preparing a satisfactory scheme. The proposals made by him did not commend themselves to the Sanitary Board. He is preparing a revised scheme. The conservancy establishment of the town has been strengthened during the year. The rate of tax remains the same, viz., 8 per cent. It has not been changed since 1887. An increase has been suggested, but this suggestion has not been accepted by the Commissioners.

233. The following table shows the incidence of taxation per head of population in the municipalities of this Division during the year 1892-93.

The figures for 1893-94 are not available. In some cases the tax might be increased:—

DISTRICT.	Name of municipality.	Incidence of tax per head of population.
1	2	3
		Rs. A. P.
Dacca	{ Dacca ...	1 5 8
	{ Narayanganj ...	1 13 8
	{ Nasirabad ...	1 5 11
	{ Muktagacha ...	0 13 9
Mymensingh	{ Jamalpur ...	0 6 9
	{ Shergpur ...	0 6 7
	{ Kishorganj ...	0 4 7
	{ Bazitpur ...	0 3 8
	{ Netrakona ...	0 5 3

	{ Bazitpur ...	9	13	63·2
	{ Tangail ...	15	11	46·6
Faridpur	{ Netrakona ...	16	16	48·8
	{ Faridpur ...	18	12	42·2
	{ Madaripur ...	12	18	76·6
Backergunge	{ Barisal ...	15	17	65·1
	{ Nalchiti ...	9	14	72·2
	{ Jhalokati ...	9	24	49·5
	{ Pirojpur ...	11	13	55·2
	{ Patuakhali ...	10	13	59·2
	Total ...	226	272	53·1

The total in column 4 in 1892-93 was 51·3, so there has been an improvement in attendance, though the number of meetings has decreased from 304 to 272.

235. The table below shows the expenditure incurred by the municipalities in each district of this Division during the past three years on account of water supply:—

DISTRICT.	AMOUNT SPENT IN—		
	1891-92.	1892-93.	1893-94.
1	2	3	4
	Rs.	Rs.	Rs.
Dacca ...	27,077	21,104	14,793
Mymensingh ...	2,311	612	1,343
Faridpur ...	629	480	185
Backergunge ...	2,218	1,316	748
Total ...	46,452	1,15,649	17,069

The water-works in the Nasirabad Municipality were opened from October 1893. The Municipal Commissioners failed to impose the necessary tax for the up-keep of the water-works in 1893-94. They proposed to pay the cost from the general funds, a proposal I felt myself compelled to veto. They are levying the tax with effect from the 1st April last.

236. The following table shows the financial position of municipalities in each district. The expenditure on primary education has been shown separately, as the subject is of much importance:—

DISTRICT.	Opening balance.		Income during the year.		Total fund available for expenditure.		Expenditure on account of primary education.		Total expenditure.		Closing balance.	
	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.	1892-93.	1893-94.

N.B.—The difference between the figures shown in columns 2, 6 and 12 of this statement, and those in columns 3, 7, and 13 of the statement of the previous year, against Mymensingh, is owing to the mistake of Rs. 1,450 which has been running into the account of the Jamalpur Municipality since 1890-91, but has been discovered at the close of the year under report.

237. Part IX of the Municipal Act, providing for latrines is in force in the following municipalities:—

Dacca.  
Narayanganj.  
Nasirabad.  
Jamalpur.  
Sherpur.

Tangail.  
Faridpur.  
Madaripur.  
Barisal.  
Pirojpur.

Part X of the Municipal Act, providing for registration of markets, has been applied to the Dacca Municipality.

238. The municipalities noted below were inspected during the year by the Magistrates of the districts in which they are situated:—

Dacca.  
Narayanganj.  
Tangail.  
Kishorganj.  
Netrakona.

Pirojpur.

Jamalpur.  
Sherpur.  
Madaripur.  
Nalohiti.  
Jhalokati.

239. I have made full inspections of the following municipalities during the year:—

- |                 |                |
|-----------------|----------------|
| 1. Narayanganj. | 6. Tangail.    |
| 2. Nasirabad.   | 7. Faridpur.   |
| 3. Jamalpur.    | 8. Madaripur.  |
| 4. Kishorganj.  | 9. Barisal.    |
| 5. Netrakona.   | 10. Jhalokati. |

Besides this, Nalchiti, Pirojpur and Patuakhali were visited and cursorily inspected by me. Bazitpur, Muktagacha and Sherpur remain to be inspected. I submitted to Government my inspection memoranda of the Nasirabad, Faridpur, Madaripur, and Barisal Municipalities.

240. The annexed statement shows the percentages of important items to the total expenditure of the municipalities in this Division during 1892-93, as compared with other divisions of the province. It will be seen from this statement that this Division compares favourably with other divisions in the matter of general establishment. In education we are far behind all other divisions, but probably our position is not so bad as it looks, as so many boys are provided for in higher and middle schools. In medical we occupy a middle position. In conservancy we are behind hand.

NAME OF DIVISION.	Total expenditure.	General establishment.	Lighting.	Drainage.	Conservancy.	Medical.	Vaccination.	Public works.	Education.	Water-works.	Other heads.
1	2	3	4	5	6	7	8	9	10	11	12
	Rs.										
Burdwan ...	7,07,969	10.4	8.3	2.2	33.9	5.4	5	14.3	7.3	8.0	9.7
Presidency ...	5,57,063	11.5	5.1	3.5	20.7	7.0	7	23.1	5.3	1.0	14.8
Rajshahi ...	3,03,177	12.9	4.2	7.7	27.3	9.2	4	20.7	6.05	3.0	8.55
Tinaguri ...	3,82,501	8.0	3.2	2.0	22.5	9.4	4	16.5	1.2	30.2	5.3
Chittagong ...	72,251	10.6	4.3	4.1	22.5	15.8	7	23.0	9.5	5.6	3.9
Patna ...	4,06,656	13.8	5.3	2.4	28.3	14.6	7.6	21.8	3.4	4	22.4
Bhagalpur ...	1,98,692	12.13	2.0	3.27	27.54	14.09	1.02	24.13	3.52	0.8	6.5
Orissa ...	1,07,381	15.8	3.7	11.2	33.5	7.5	6	16.1	4.4	1.1	6.1
Chota Nagpur ...	61,330	16.4	3.0	1.4	22.0	16.8	1.9	13.2	5.0	7.1	6.8

241. I was surprised to find that the details of the population of our towns was unknown. The number of occupied houses was also unknown. I was informed that no separate census of towns had been taken. After much enquiry I found full detailed information in the census tabulation registers, not indeed for towns, but for all the villages contained in the towns. So that to get details of the population of towns we have only to add up some items of the tabulation registers.

242. I enquired of the Magistrates to what extent Act XI of 1890 (Cruelty to Animals Act), which is in force in all our municipalities, had been enforced. From the replies received it appears that in Backergunge eight persons were prosecuted during the year, all of whom were convicted and fined. In Faridpur there were no prosecutions. In Mymensingh 24 persons were prosecuted, of whom 22 were convicted. In the Dacca district there was only one prosecution in the town of Dacca under Act I of 1869. It is clear that the Act remains almost a dead-letter; no one could say for want of objects. There is much cruelty to animals on all sides, and especially in municipal areas.

#### XXXI.—EMPLOYMENT OF MUHAMMADANS.

243. Statement XXXII annexed to this report gives the statistics under this head in each district.

During the year the total number of Muhammadans of all ranks employed was 1,014 against 944 in 1892-93; thus there has been an increase of 70, six of them being ministerial officers and 64 menials. The increase has taken place in all districts.

The percentage of Muhammadan ministerial officers to total number of ministerial officers are:—

Dacca	...	8.1	against 7.5 in 1892-93.
Mymensingh	...	7.2	" 4.7 "
Faridpur	...	7.7	" 5.3 "
Backergunge	...	8.03	" 9.8 "

The increase in Mymensingh was no doubt partly due to the fact that a Muhammadan Deputy Magistrate and Deputy Collector was, as intimated in last year's report, specially deputed to represent the claims of Muhammadan candidates on the occasion of any vacancy in the year under review, the ministerial heads of departments being all Hindus. Mr. Earle also invariably endeavoured to advance Musalmans whenever he could do so with due regard to public interests.

The Collector of Dacca, Mr. Jenkins, writes:—"Though every favour is shown to the Muhammadans in the disposal of appointments, still the proportion of Muhammadans in superior service to Hindus is low, owing to the number of educated Muhammadans not being large. Most of the Muhammadans in this district are low class men, who are agriculturists and do not therefore care to educate their children for service." But there are still many well-to-do Musalmans in this Division.

Out of 100 members of District Boards, only 14 are Muhammadans. Out of 224 members of municipal bodies, only 40 are Muhammadans. Out of 190 members of Local Boards, 35 are Muhammadans. So that under our local self-government arrangements only 17·3 per cent. of members of local self-government bodies are Muhammadans. Many of these members are elected, and the Muhammadans have themselves to thank if they do not combine to elect their co-religionists. That they do not do so is, I think, a sign that in this country religion does not play so important a part in politics as it does in Europe. Of the boys under education in my Division, 49·4 per cent. are Muhammadans. On the inspecting staff of 4 Deputy Inspectors and 21 Sub-Inspectors, there is not a single Muhammadan. There is a special Muhammadan Assistant Inspector attached to the Eastern Circle. In the Faridpur and Mymensingh zilla schools and in the collegiate school at Dacca there are no Muhammadan teachers.

I am not aware how many of the masters and teachers in middle and primary schools are Muhammadans, but I know the proportion is small. Under criminal justice I have shown to how small an extent Muhammadans are employed as jurors, assessors and as Honorary Magistrates. Far be it from me to suggest that religious opinion should weigh in these matters. It is, I think, highly to the credit of the people of my Division that religious considerations do not appear to influence them. I merely mention these matters as germane to the subject of this section, the employment of Muhammadans in Government service.

#### XXXII.—POST OFFICE AND TELEGRAPH.

244. There were 388 post-offices in this Division at the close of the year under report, against 381 on the 31st March 1893. The increase occurred in all the districts of the Division as shown in the annexed statement:—

NUMBER OF POST OFFICES ON THE 31ST MARCH—				
DISTRICT.	1891.	1892.	1893.	1894.
1	2	3	4	5
Dacca ...	113	114	114	117
Mymensingh ...	117	118	121	122
Faridpur ...	93	94	79	80
Backergunge ...	66	66	67	69
Total ...	380	392	381	388

Of these, 5 in Dacca, 15 in Mymensingh, 4 in Faridpur, and 6 in Backergunge, are supported by the Zamindari Dūk Fund. The increase is in Imperial offices.

Twenty-three of the Imperial offices are combined post and telegraph offices, viz. 6 in Dacca, 10 in Mymensingh, 3 in Faridpur, and 4 in Backergunge.

The number of mail lines in this Division on the 31st March 1894 was 171, aggregating 3,130½ miles, as shown in the margin. There has been increase of 5 miles in Imperial and 26 miles in zamindari in the year under report. Though most of our post offices are Imperial, our lines are largely supported from local resources. The zamindari lines are managed by the Postal Department, and letters, &c., are carried over them on the same terms as our other postal lines. But letters, &c., concerning magisterial business are carried over these lines free of service postage, and are described as "service privileged." It is perhaps time that

this distinction was abolished.

245. The following table shows receipts, expenditure, and balances in hand of the Zamindari Dāk Fund, district by district:—

DISTRICT.	Total collection, including fines, &c.	Balance at credit of the fund at the close of the previous year.	Total receipts.	Total expenditure.	Balance in hand at the close of 31st March 1894.	REMARKS.
	Rs.	Rs.	Rs.	Rs.	Rs.	
Dacca ...	10,944	(a) 18,269	29,213	9,254	19,959	(a) Revised figures given.
Mymensingh ...	25,259	7,311	32,570	20,728	11,842	
Faridpur ...	12,340	5,382	17,722	10,345	7,377	
Backergunge ...	19,420	(a) 17,112	36,532	16,416	20,116	
Total ...	67,963	48,074	1,16,037	56,743	59,294	

Out of Rs. 56,743 in column 6 of the above statement, Rs. 3,496 was spent for collection expenses, and the remainder Rs. 53,247 for the maintenance of postal lines and their management in the Magistrates' offices.

246. The subjoined table shows the statistics of articles conveyed by the post offices in this Division during the year under report:—

DESCRIPTION OF POSTAL ARTICLES.	NUMBER GIVEN OUT FOR DELIVERY.				Total.
	Dacca.	Mymensingh.	Faridpur.	Backergunge.	
1	2	3	4	5	6
Letters, paid, of all kinds	1,740,180	1,155,700	1,305,304	1,315,864	5,517,048
Do., unpaid ...	210,912	270,036	203,320	281,632	965,900
Service privileged ...	23,036	65,000	98,332	228,072	414,440
Post-cards, single and reply	2,218,684	1,300,983	1,982,448	1,943,656	7,445,776
Newspapers ...	229,580	162,500	77,090	98,176	567,346
Packets of all kinds ...	97,708	68,172	136,032	56,004	357,916
Parcels paid, of all kinds	14,768	17,732	12,331(a)	15,321(a)	69,492(a)
Ditto unpaid ...	4,524	9,316			
Total ...	4,539,392	3,044,444	3,814,857	3,969,225	15,367,918

(a) Figures not separately supplied for paid and unpaid parcels.
